Wright Wire pany Writes to Pru dentia Committee.

REVIEWS TH E SNO IRE CONDITIONS

And Suggests Possib es Which Might Happ en Und Similar Condit .

The fire whi h dest ed the residence of Mrs. Lyman Snow Shearer's Corner on the evening of M 21 on account of the water being shut of om the mains in that sectiou h s brou t the following letter from Geo . M. W t of Worcester, president and genera anager of the Wright Wire C ., to C. Atkins, chairman of the pru dentia mmittee of the Palmer fire distri t:

APRIL 1, 1905.

DEAR SIR:—

Is there no reme dy for property owners and fire district ta xpayers such negligence, incompetency and appare isregard as exhibited by the Palm er Wat . in the closing of the gate valves a nd shu g off water from a section of the villa ge now ng taxed by the fire district, jeopar dizing ple of hundred thousand dollars' w orth of ildings and contents absolutely wit hout protection from hydrant or water s ervice a period of from 20 to 30 hours, whil e they in the street through frost to lo cate an pair a leak with two or three men, w hen 10 ht to have been put at work night an d day u nfinished?

Such things as thes e would be tolerated in a city at all, and the l tolera in the smaller towns without protes t is cer nly one of the reasons why those t owns not attractive enough to draw more manufa ring industries than they do. The ction the Water Co. officials two weeks ag in shu g off the water for many hours fro the w mill and all houses in the vicinity and th tal destruction of the Snow house an conten because of it, is certainly enough o caus e proper town officials to bestir them selves i e matter and insist on improved h drant se ice, or hold up payments by the tow n to th Water Co. for hydrant service.

I am not in accord with the sy way the Palmer Journal last w ek excu the matter, and feel it my duty to ring th atter to your attention and go on re ord in re rd to same.

Last Saturday night we had a re start in our Worcester plant and t watchm u easily got it under control with one line of h e, and it was put out upon arrival f Fire pt. with less than $25 damage. Ha a simila fire occurred in our Palmer works n the e ning of the Snow fire, I can easily how p ible it would have been for the town f Palm to have been deprived of one of its i dustries.

I trust your honorab board w look on the recent occurrence here ferred t as the writer does, and from the andpoi of a large property owner, and en loy such eans as are required to absolutely ent its ecurrence.

According to a sta ment m de by the Palmer Water Co's. o cials the facts are as follows: The br k was iscovered about 10 o'clock in th morning and men set at work uncove g the pipe. The ground was frozen ha and the ask was a slow one, the pipe bei reached late in the afternoon. Rather t run the risk of needing the water d ng the night and not being able to get t was decided to wait until daylight be cutting the pipe, which was necessary rder to make repairs. Gate wrenche were kept at the residence of Mr. Gam l, near the gates which had to be clo so that if water was needed they could opened at once, the boxes being left un ered for that purpose. A storm of sleet vered the ground to a depth of several in s, and when the alarm of fire was sound there was some delay in lo ting the ates, the storm having covered them pletely so that they were not readily fo d.

In the work of diggin p the pipe only two men were employe and a small excavation made. No no e of the shutoff was sent to the chief the fire department. The water comp 's manager also states that it would hav een possible to have left the water on al ight, the break being in the nature of a ck in the pipe through which water wo have escaped, but not in sufficient quan es to have prevented leaving the pressu on.

There is much feeling r the matter, and it will very likely be ched upon in the fire district meeting ne week.

Probate Court B ness.

At a session of the p ate court in Springfield Wednesday, the llowing business of local interest w transacted: Administrations granted i e estates of— James W. Bennett, late of ilbraham, J. Addison Bennett of Wilbr am administrator; Johanna Griffin, l of Palmer, Catherine C. Griffin of Palm administratrix; Walter Winter, late of lmer, Sarah J. Winter of Palmer a inistratrix; August Nilsson, late of Mon o, Christina J. Nilsson of Springfield a inistratrix. Accounts allowed—Gilbert orne, late of Monson; Mary Mack, late f Palmer. Trusteeship decreed—Marga Schneider, late of Westfield, Jacob P. hneider of Palmer trustee. Sale of real e te decreed in the estate of Lula M. Rober f Ludlow, minor. Distribution decreed the estate of Gilbert Osborne, late of Mo on.

House and Barn Bur d.

The fire department was ca d to Fentonville, about two miles east Palmer, Saturday afternoon for a fire w h burned over the meadows and destroy a house and barn owned by H. D. Co erse and occupied by John Dwyer. The re is supposed to have caught from a sp k from a locomotive. Gangs of section en from West Brimfield and Palmer w sent to put it out and a locomotive sent Palmer to notify the fire department. alarm was rung in from the engine hous and the firemen were driven to the fire, b arrived too late to be of service. The h se and barn, with all contents, were a t al loss. The buildings were small and t loss is estimated at about $1500 It is co red by insurance.

Stabber Leaves the Count .

Stanislaw Pierga of Ludlow, wh stabbed David LeBlue Tuesday noon of l week, and for whom the police have on a still hunt, sailed from New Yo Wednesday for his home in Poland. Pier has been in hiding in the Polish settlem t on Joy street in Ludlow, and when left that place to take the electric for Springfield he was in care of his f nds and dressed in woman's clothes. The residents of the Polish section kep the affair very quiet, and are now laug ing over the manner in which the boy esc ed. Action could be brought against the p ple who kept him in hiding, but it is did edly difficult task to place th ilt st where it belongs.

DEATHS OF THE WEEK.

Mrs. Mary B. Adams, One of Thorndike's Oldest Residents.

Mrs. Mary A. Adams, 84, died at the home of Mrs. A. P. Adams on Commercial street in Thorndike last Saturday, after an illness with pneumonia. A peculiar circumstance was the fact that her death occurred at the same hour and just one week from the death of her son, A. P. Adams, who died Saturday morning, March 25, at 9 o'clock.

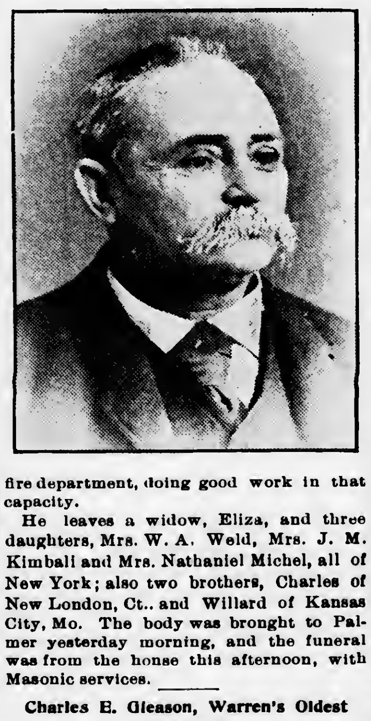
Mrs. Adams was born in Aberdeen, Scotland, Aug. 4 1820, and came with her parents to America when 10 years of age. Her father was a captain in the English army. Mrs. Adams spent most of her life in northern New York until about 12 years ago, when she came to Thorndike to live with her son. She was a widow of John Quincy Adams, who was a descendant of the family who came over from England in the Mayflower. She is survived by one son, Agusta Adams of Malone, N. Y., and a daughter, Mrs. Theodore Culver of St. Louis, Mo. The funeral was held Monday afternoon at 2 30, Rev. Mr. Taylor of the Congregational church, of which she was a member, officiating. Burial was in the Four Corners cemetery.

George B. Kenerson of Palmer.

George B. Kenerson, 69, a long-time and well-known resident of Palmer, died at the home of his daughter in New York at 9 o'clock Wednesday morning after a long illness.

Mr. Kenerson was born in Standish, Me., and in 1855 began work at New London, Ct., as a railroad man, having a position as firemen on the New London Northern road. Four years later he was promoted to engineer and went to Norwich. He remained with the road continuously in the capacity of engineer until 1896, when he was obliged to retire on account of ill health. Mr. Kenerson was one of the best known locomotive drivers on the road, and held many important runs. He came to Palmer about 40 years ago, where he had since made his home.

He was a member of Thomas lodge of Masons of Palmer for 40 years, and was senior Past Worshipful Master, having occupied the chair for six years. He was also a Past High Priest of Hampden chapter, Royal Arch Masons, and a member of the Brotherhood of Locomotive Engineers. For several years was chief of the Palmer fire department, doing good work in that capacity.

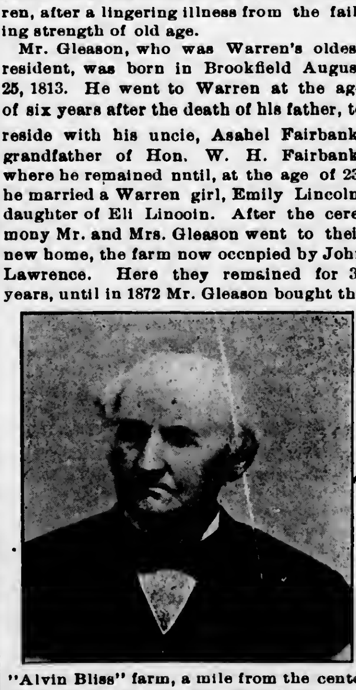


He leaves a widow, Eliza, and three daughters, Mrs. W. A. Weld, Mrs. J. M. Kimball and Mrs. Nathaniel Michel, all of New York; also two brothers, Charles of New London, Ct., and Willard of Kansas City, Mo. The body was brought to Palmer yesterday morning, and the funeral was from the house this afternoon, with Masonic services.

Charles E. Gleason, Warren's Oldest Resident.

Charles E. Gleason, 91, died Tuesday afternoon at the home of his son in Warren, after a lingering illness from the failing strength of old age.

Mr. Gleason, who was Warren's oldest resident, was born in Brookfield August 25, 1813. He went to Warren at the age of six years after the death of his father, to reside with his uncle, Asahel Fairbank, grandfather of Hon. W. H. Fairbank, where he remained until, at the age of 23, he married a Warren girl, Emily Lincoln, daughter of Eli Lincoln. After the ceremony Mr. and Mrs. Gleason went to their new home, the farm now occupied by John Lawrence. Here they remained for 36 years, until in 1872 Mr. Gleason bought the "Alvin Bliss" farm, a mile from the center of the village, on the Brimfield road, where he had since lived with his son and family.



On May 18, 1903, Mr. Gleason celebrated the 67th anniversary of his marriage, Mrs. Gleason having been spared as his lifelong companion until January, 1904. Since her death he had been very much broken in health, and the last time he went to Warren village was to attend the annual town meeting in April, 1904.

Mr. Gleason was one of the oldest living members of the First Congregational church, and a charter member of the Warren Thief Detecting society, chartered in 1838. He had owned real estate in Warren longer than any other living resident. In politics Mr. Gleason was a staunch Republican.

He leaves two children, Frank E. of Warren, with whom he made his home, nd Mrs. Jennie Norcross of Monson, and wo grandchildren, rs. Edith Gleason omph of Utica, N. Y., and Charles R. leason of Warren. T e funeral was held t his home yesterday fternoon at 2, and l was in Pine Grov cemetery.

A GOLD MINE IN HENS.

This State Spends $24,000,000 a Year for Eggs.

ONLY $4,000,000 RAISED AT HOME.

A Clean Profit of $1.50 a Year May Be Made From Every Hen Kept.

The second farmers' institute under the auspices of the Eastern Hampden Agricultural Society was held in the district court room in Palmer last Friday evening, and was attended by about 75, including a number of women. The speaker was Mr. A. F. Hunter of West Roxbury, associate editor of the "Poultry Advocate," and his subject was the breeding and raising of poultry for profit.

Mr. Hunter began by saying that Massachusetts annually pays $20,000,000 for eggs and poultry raised outside of the state, in addition to $4,000,000 more for that raised in the state; during the year just closed the former figures were increased to $24,000,000 by the high price of eggs. Here was a gold mine for Massachusetts if she could produce these, as eggs and poultry raised at home bring the highest prices. He gave three rules for success: Raise more poultry, raise better poultry, take better care of it. To do this he would raise the chicks early, keep them growing so as to bring to early maturity and get them to laying before cold weather so as to get the best profit from the eggs, and then keep them laying. All chicks should be hatched in April, so as to be five or six months old when they get to laying in October. An interesting account of a Maine county which raises quantities of eggs for the Boston market was given, with the individual experiences of some of the farmers. None of them are large keepers of fowls, the number of birds running up to 200 or 300 each, but they raise a large brown egg which the Boston market demands, and by careful work they make a clear profit of from $1 50 to $2 each per year on every hen kept.

The method of feeding varies with the individual. Many feed a mash once a day and grain the other time, while some adopt the new "dry" method of feeding, whereby grain and beef scraps are kept before the hens all the time, they being allowed to eat when they choose. In these cases the grain mixture varies also with the individual, some feeding oats and cracked corn, while others use wheat screenings exclusively, a small handful of corn being thrown among the litter of the houses at night to make them scratch. Shells and sharp grit must be provided in all cases, and also green food, if the hens are to lay well. In connection with the dry method of feeding Mr. Hunter told of one Connecticut poultryman who feeds his hens only once a week, and never waters them; in the summer they have access to springs and small brooks, and in the winter they eat snow. For young chicks he advocated feeding the chick foods now being sold, as they were a combination of seeds, grit, etc., calculated to keep the chicks in the best condition and keep them growing the fastest.

WALES.

John Andrew and family of Uxbridge spent Sunday with Mrs. Isaiah Hiscock.

The annual meeting of the Wales Savings Bank will be held next Tuesday afternoon at 2 o'clock.

Thomas Melbourne of Stafford, Ct., has moved his family to Wales, where he has taken a position in the Golden-rod mill.

Frank McKernon sold his household furniture at auction and will move to Norwich, Ct., where he will engage in the trucking business.

Henry W. Needham has moved his family from Monson to his home on Main street. He has taken a position as overseer in the weave room of the Golden-rod mill.

WARREN.

Sperry—Towne.

The marriage of Gertrude E., daughter of Mr. and Mrs. Chauncey N. Sperry, and George H. Towne of Attleboro took place at the home of the bride's parents on Mechanic street last Friday evening at 7, Rev. William B. Oleson officiating. The ceremony was performed in the presence of a few friends and schoolmates of the couple. The single ring service was used, and the bride was attired in white silk etamine. After the ceremony refreshments were served by Caterer F. A. Keith. Mr. Towne formerly lived in Warren, but now is employed in Attleboro as a linotype operator for the Attleboro Sun publishing company. Mr. and Mrs. Towne were the recipients of a number of valuable presents. After a short wedding trip they will reside in Attleboro.

WEST WARREN.

Mrs. Peter Shorkey and daughter have returned to their home in Torrington, after being guests at the home of Mr. and Mrs. James Chapman on Chapel street.

Frank Melhorn has bought a farm of 95 acres near Holyoke and has moved his family to that place. He has leased his property on the Ware road to Peter Carier.

Rev. Eaton B. Marshall, pastor of the Methodist church, left Tuesday for Melrose, to attend the annual New England Methodist conference. Mrs. Marshall went to-day.

The Sunday school of the Methodist church have appointed the following committee to arrange for an Easter concert: Mrs. George A. Moody, Miss Mabel E. Crouch, Charles O. Walker, James T. Campbell and Miss Alice L. Walker.

Charles A. Dufresne, who has been assistant overseer in the carpenter shop of the Warren cotton mills for several years, severed his connection there last Saturday. Mr. Dufresne has lived in town for 25 years and has been employed in the cotton mills for about 20 years.

The St. Thomas Total Abstinence Society at a meeting Sunday afternoon selected the president, Hugh J. Kerr, Jerry Casey and Jerry Sheehan as delegates to the county convention of the Roman Catholic Temperance Societies to be held at the Franklin House in Worcester Sunday.

Minnie, the 12-years-old daughter of Mr. and Mrs. Lewis Hopfe, died last Friday night at her home on Pleasant street, after a ten-days' illness with peritonitis. She leaves, besides her father and mother, two brothers and two sisters. The funeral was held at the home Sunday afternoon, Rev. E. B. Marshall officiating, and burial was in Warren.

The Ladies' Aid Society of the Methodist church held their regular monthly meeting Wednesday afternoon, and elected the following officers: President, Mrs. Charles Bragg; first vice president, Mrs. Clarence L. Thompson; second vice president, Mrs. Ida Marsh; secretary, Mrs. James T. Campbell; treasurer, Mrs. Charles O. Walker.

TOWN MEETING RESULTS.

Officials Elected and Appropriations Made in Various Places.

Town meetings were held Monday in Warren, Wales and Hampden. In Warren the following officers were elected: Clerk and treasurer, Charles B. Blair; selectmen, Charles L. Combs, John E. Dalton, Robert Love; overseers of the poor, S. Newell Cutler, J. H. Hebert, James N. F. Quinlan; assessors, Charles L. Combs, Frank E. Gleason, J. Edward Lombard; school committee, Edward W. Liquor license: Yes, 78; no, 56.

In Hampden there were seven tickets in the field, which kept the voters busy selecting a list of town officers. The candidates on the Citizens' and Democratic ticket carried off the honors. The surprise of the day came when the license vote was announced, which showed that Hampden will be dry this year. The officers elected and appropriations made were as follows: Moderator, George T. Ballard; town clerk and treasurer, John Q. Adams; tax collector, D. L. McCray; selectmen and overseers of poor, Herbert H. Thrasher, Nelson M. Carew, Mortimer Pease; assessor, three years, Mathias Casey; school committee, three years, John H. Isham; constables, Mathias Casey, E. P. Lyons, Clarence E. Bradway; auditor, Robert S. BRIMFIELD.

Death of Miss A. M. Cutler.

The body of Miss Anna M. Cutler, who died in Springfield last week day, was taken to Brimfield for t day. Funeral services were he parlors of the Congregational chur 3 o'clock, Rev. Samuel Eaton officiati Relatives and friends from Brimfield were in attendance, and there were present from out of town Miss Carrie Healey of Boston, a close friend of Miss Cutler's for many years, Mr. Cobb of Springfield, Mr. and Mrs. Herbert Barlow and George Barlow of West Stafford, Ct., Mr. and Mrs. Arthur Plympton of Southbridge, Stanley Plympton of Sturbridge. The bearers were Charles S. Tarbell, Miner Corbin, Orrin Hicks and Stanley Plympton.

Miss Cutler was the daughter of Lucius A. Cutler and Laura Nichols, and on her mother's side was descended from one of the oldest and most influential families in Brimfield. William Nichols was one of the proprietors of the town, and his son, Capt. Samuel Nichols, the grandfather of Miss Cutler, was the largest land holder in the town. He built the house on Prospect Hill more than 150 years ago, which is the oldest house in town and which Miss Cutler owned and occupied until failing health compelled her to dispose of it.

Miss Cutler's father was superintendent of the city hospital in Boston for a long time, but in their declin years Mr. and Mrs. Cutler returned with eir daughter to the ancestral home in Br mfield. Miss Cutler held the office of librarian in the Boston hospital for some years during her father's connection with the institution. She went to Springfield to live about five years ago. For more than that period of time she had been a sufferer from neuritis, but she had shown great courage in trying to combat the disease, and was patient and hopeful throughout her illness. She is pleasantly remembered in Brimfield for her social nature and benevolent disposition. She took much interest in young people, and a number who attended the Hitchcock Free Academy cherish grateful recollections of her friendliness and help. She leaves a half brother, William Cutler of Evanston, Ill.

The Academy opened Tuesday for the spring term.

Mrs. Lillian Janes has gone to Hillsborough Bridge, N. H., on account of the illness of her mother.

Mrs. Katharine Dunsmore Silvers of Philadelphia has been the guest of her sister, Miss Margaret Dunsmore.

Mrs. Gertrude Hughes and Miss Beatrice Hughes, who have been guests of Dr. and Mrs. Ellery at the hotel for several weeks, left town Wednesday.

At a joint meeting of the executive committee of the Hitchcock Free Academy Alumni Association and the committee of the trustees Saturday evening the date of August 21 was set for the semi-centennial celebration and the alumni reunion.

James Summers is pushing work on the carriage shop which he is building in the rear of lacksmith shop on Thorndike street.

The Journal.

FRIDAY EVENING, APRIL 7, 1905.

HELP THEM.

The town of Monson has gone back to no-license after a couple of years of experience with license, and has appointed a prosecuting committee. It will doubtless be able to accomplish something alone, but to do its best work it must have the sympathy and hearty support of all those who on Monday voted "no." Too often a prosecuting committee is given no help whatever after appointment; they need all the "tips" available, and it is up to the "no" voters to help them out.

OBJECT.

Eastern Hampden patrons of the electric cars from Springfield to Palmer object to starting of the cars from that city ahead of schedule time. It is nice of course if the car crew can have five minutes or more for a smoke at Ludlow before the Palmer car arrives for the city, but women who plan to take a car on schedule in Springfield think it ought not to leave the foot of State street six minutes ahead of time, as one did last week; report is also made of one which recently left ten minutes ahead of time.

WE NEED IT.

There is no question but that the efficiency of the fire department would be materially enhanced by the purchase of a modern fire wagon. This is a light wagon easily drawn by one horse, and carrying hose, light ladders, chemical extinguishers, axes, rubber coats for the firemen, etc. It is provided with a swing harness which is attached to the horse in an instant. It carries everything first needed at a fire. Under the present conditions the men have first to go to the engine house and help drag the "jumper" to the fire, arriving out of breath and generally done up with the run. The new wagon would allow them to go direct to the fire, where they could make valuable preparation for the use of the apparatus on its arrival. The cost of such a wagon is from $700 up, according to the size and equipment, and the fire district warrant contains an article which will allow the purchase of one if the voters deem it advisable; the members of the fire department are desirous of it.

In his letter to the chairman of the fire district's prudential committee concerning the Snow fire and the lack of water, General Manager Wright of the Wright Wire Company takes the Journal to task for its attempt—as he saw it—to excuse the Palmer Water Company for its conduct in the repair of the broken main. The Journal will not attempt to excuse any remissness or negligence on the part of the Palmer Water Company, neither will it "sock it to the company," as it has repeatedly been requested to, when in its judgment there is not sufficient reason. Its editorial on the matter of the pipe break at the time of the Snow fire was based on information gleaned from the company's officials, but recent developments have shown that not all the details were given. In view of the statements made later it would seem that the company might have put a larger force of men at work, made a larger excavation, and worked continuously until the leak was repaired; not wishing to do this there was no reason why the water should not have been left on all night, as it is clear that it might have been with no greater inconvenience to the company than the loss of a little fluid and the pumping out of the excavation in the morning.

Chicago is red hot apparently for municipal ownership of street railways and such public service properties, if the election of Tuesday is any indication, for Judge Dunne, running on that platform, was chosen mayor by a plurality of about 23,000. Dunne was the Democratic candidate and the city went Republican last fall by a large plurality. The mayorality campaign was hotly contested, and the closing feature was the holding of forty-nine mass meetings by the Democrats and fifteen by the Republicans last Sunday.

A new trial is denied Charles L. Tucker, the convicted murderer of Mabel Page of Weston, and the statement by the judges that he received a fair and impartial trial, with an "unusually able, intelligent and fair-minded jury," is in perfect accord with the opinion of all fair-minded people. The case will now go to the supreme court on exceptions, and if this refuses to interfere Gov. Douglas will probably be asked to pardon him.

The agricultural interests of Connecticut are up in arms against the red, yellow and green gasoline devils which go tearing along narrow and crooked country roads with no regard to teams or anything else, and are working hard in the Legislature for an imprisonment penalty for violations of the speed laws. That is the surest and quickest way to make that class of people respect the rights of others.

Illinois furnishes the last horrible loss of life in the death of something like forty miners by an explosion in a coal mine at Zeigler Monday. Death is much the same no matter where it occurs, and yet to think of the lives snuffed out in an instant down in the underground blackness, away from everybody and everything, causes a shudder unlike that created by any other cause.

The Russian fleet has been ordered to sea, and it is reported that Admiral Rojestvensky has been instructed to hunt up the Japanese vessels and have a try at them. If he's profiting by the experience of the others he made his will and left a few last messages before he sailed—that is if he expects to really meet the Japs.

The inventor of the single-rail or bicycle railroad, E. Moody Boynton, has been compelled to file a petition in bankruptcy. Somehow these freak inventions fail to attract capitalists, and they cannot be exploited on faith. It is to be regretted that a practical demonstration of the plan could not have been made.

The almanacs might well contain a line sandwiched in with the weather predictions for the first few days of April, "About this time look for forest fires." They have already begun, under the drying influence of several days of warm sun.

No especial war news from the East for several days and everything is apparently "quiet on the Potomac." Possibly both sides are expectorating on their distal segments preparatory to a contemplated new grip.

In the death of "Uncle" John Olmstead Springfield loses a man who has done much for the material prosperity of the city, and to whom she owes much in many ways.

Epileptic Hospital Notes.

The monthly meeting of the trustees occurs next Thursday.

Dr. Morton lectured before the training school Tuesday evening. His subject was "Aseptic Surgery." The lecture was well attended and all seemed interested.

The live stock has increased to meet the needs of the institution until there are now 65 cows, 21 heifers, 4 calves, 2 bulls, 10 oxen and steers, 45 sheep, 12 horses, 96 hogs and pigs. *Since the addition of the barns at the Plumley farm, which have been repaired during the past year, there is ample* accommodation for stock for present and future needs.

PALMER NEWS.

District Court.

John LaChapelle was the victim last Saturday, and although it was the first day of April it was no April fool joke which John had handed him. John came from Wales, and with him his wife, minus a tooth or two, and with a black eye and other evidences of a too fond caressing by her spouse. John had come home very much exhilarated, and not liking the way things were going at home had proceeded to "hand a few to his wife." Associate Justice Dillon heard the evidence and decided that 30 days in the house of correction would be about right. LaChapelle claimed that he gave all his pay to his wife, took her to all the dances in spite of her 55 years, and treated her well as a rule.

Nine probationers showed up Monday morning; three were discharged, two were continued until May 2, and two until June 5; one was continued without date. Dennis Devine failed to appear and a capias was issued. John Cavanaugh of Springfield, near the Ludlow bridge, was brought in for drunkenness and probated until May 1, being required meanwhile to report twice a week to Officer Storer of Ludlow, and to hand over all his earnings to his wife. George Mullen, whose case of drunkenness has been continued for sentence, appeared in a bewildered condition but declared that he hadn't been drinking; he had taken a little cider for camping purposes however; he was assessed $5, and paid. James Dunn of New Haven, an old rounder, was sent up for 30 days; drunk. Patrick Buckley of North Wilbraham was charged with larceny of various articles from the house of his aunt. He is 16, and the matter was continued until next Monday.

Martin Dorset of Monson was adjudged an insane person on Tuesday and committed to the asylum at Northampton.

The case of the Green children was called yesterday morning, but was still further continued until May 4.

Back to War Times.

The regular meeting of the Historical society Tuesday evening was devoted to the giving of an address by President Cross, who took for his subject "From Fort Stedman to Appomattox." Through the courtesy of L. L. Merrick post, G. A. R., the meeting was held in Memorial Hall. The audience numbered 100, including Grand Army men from Palmer and Monson, who gave the speaker close and appreciative attention. Mr. Cross gave in graphic detail the movements of the Union and Confederate forces in the last great struggle of the Civil War, illustrating by maps and plans the closing in of the net by which Grant and his able generals finally surrounded and captured the fort. He gave a thrilling account of Lee's mighty struggle to escape from the net cast about him on every side, and the inevitable ending of the bloody conflict, when the brave hero of a lost cause surrendered his arms and men to the magnanimous Grant. The material for the address bore full evidence of careful collection from the best authorities and found apt expression in the speaker's original method, which made every one an interested listener.

Grocery Contract for Town Farm.

The overseers of the poor met Wednesday evening, and among other business opened bids for supplying the town farm with groceries for the year ending April 15, 1906. Invitations for bids were sent out last week to every grocery in town, the bids to be on the basis of a discount from the regular retail prices of the goods ordered, the discount to be taken from the aggregate monthly bill. Only four bids were received, as follows: Clark & Hastings, Thorndike, 5 per cent; N. A. Senton, Three Rivers, 10 per cent, except sugar and flour, 5 per cent; Walker & Kelly, Thorndike, 11 per cent, sugar and flour excepted; W. E. Stone & Son, Palmer, 12½ per cent, sugar 1 per cent, flour, butter and cheese, 5 per cent. The contract was awarded to Stone & Son at their bid. The meeting Wednesday was the regular meeting for the payment of bills. Although the overseers meet every week, bills are paid only on the first Wednesday of the month, as usual.

Mr. Brainerd to Care for the Streets.

The selectmen held their regular monthly meeting Monday afternoon. Night police were appointed as follows: Palmer, Timothy Crimmins; Three Rivers, James J. Manning; Thorndike, Edward McKelligott; Bondsville, Michael Collins. Thomas Roche and John F. Luman were appointed special police officers, and W. A. Barnes was given an auctioneer's license. It was voted that all license applications must be in by Wednesday evening, when another meeting was held, at which Charles T. Brainerd was reappointed superintendent of streets.

Electric Cars Change Time.

A slight change of time will be made on the electric road next Monday, when the spring schedule will go into effect. The changes will be on the Springfield line, where additional cars will be put on at 4.30 and 5 30 in the afternoon, and on the Ware line, which will have hour cars until 6 in the evening, then at 7.30 and 9 as at present, except that on Saturdays and Sundays the hour time will be kept up all through the evening. The Monson and the Thorndike-Three Rivers-Bondsville schedule will be unchanged.

C. E. Fish to Manage Forest Lake.

Arrangements have been completed for the management of Forest Lake for the coming season. It will be wholly under the control of the street railway company this season, with C. E. Fish as manager, the final arrangements having been made this morning. J. J. Flynn, who leased the grounds last year, has been engaged to furnish the theatre attractions. The many patrons of the lake during Mr. Fish's former management will be glad that he is to be in charge again this year.

State Highway Allotment.

The allotment of the state highway commission for the coming year gives Palmer $8000, which it is understood will be spent at this end of the road to Wilbraham. Monson gets $2600, which is to put in a short strip to connect the Cooley Crossing strip with that beginning at the Brimfield line on the road to Fosket's Mills.

The Amhe College seniors presented "The Private cretary" in the opera house Tuesday eve g to an audience ridiculously small mpared with the worth of the play. The piece was remarkably well put on, and audience was kept interested every oment. There was not a "stick" in the ast, and although some of the parts we better done than others it was because y offered better opportunity for individu work. Very little advertising was ne for the event, which may perhaps be esponsible in part for the small audie e.

DANDRUFF, FALLING HAIR.

You may not have dandruff—you may even have a luxuriant head of hair, and yet there may be trouble at the roots or in your scalp. Try a simple test. Pull out a hair, if the bulb is plump and rosey, your hair is healthy, but if the bulb is white and shrunken your hair is diseased, and you need a hair tonic. I have in Rexall "93" Hair Tonic a remedy that is a nutritive tonic and germicide. It goes directly to the roots destroying all germ life, removes all traces of dandruff, stops falling hair, and finally tones up the hair follicles. Giving new life, vigor and gloss to the hair. It is sold only at my store at fifty cents per bottle.

rrin C. McCray was elected Monday for ninth successive term. He was born ampden Dec. 10, 1862, and received his cation in the public schools and at braham Academy, after which he folld farming until 1888, when he came to Mon and has since carried on an extensi eaming and trucking business. In 1893 and '94 he served the town as asset and was elected selectman for the ne in 1897. Since that time he has bee airman of the board with the exep of two years, and the confidence n bility as an executive officer was demtrated by the large vote which he rece on Monday, it being the largest ves for him. For the seventh time has n elected chairman of the board.

Herbert M. Smith was born March 27, 1865, in Monson near State Line, and attended the State Line school. As a boy he was brought up to work, and has followed this early training all through his life; he carries on at the present time, as he has for a number of years, a successful ice business. Mr. Smith is not a politician, and it requires considerable urging on the part of his friends to induce him to give any of his time to town affairs. He served on the board of selectmen in 1897 and again in 1900, always receiving a large vote; this year it far exceeded that of previous years and was the largest cast for any selectman. Mr. Smith is this year chairman of the overseers of poor, as he was when previously on the board.

About Rheumatism.

There are few diseases that inflict more torture than rheumatism and there is probably no disease for which such a varied and useless lot of remedies have been suggested. To say that it can be cured is, therefore, a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. One application of Pain Balm will rel[illegible] pain, and hundreds [illegible] to permanent [illegible] when Pain [illegible] d costs

Occasionally a man does not have quite as much of a hard luck story as he imagines. Austin Wheeler of Lee, Me., had a beautiful example of an aged horse which was quite worthless, and the horse died. Mr. Wheeler was sorrowful to the required amount, and then dragged the carcass into the back pasture to bury it. Later, to drown his sorrow, he went hunting crows, and seeing a black object moving near the grave of the late lamented, went to investigate the matter. He found a little animal there and shot it. When he picked it up he discovered that it was a black fox, and he has sold the pelt for $150. Now he wishes the old skate had died a couple of times before so he could have had a bit more luck by its grave.

Rheumatic Pains Quickly Relieved.

The excruciating pains characteristic of rheumatism and sciatica are quickly relieved by applying Chamberlain's Pain Balm. The great pain relieving power of the liniment has been the surprise and delight of thousands of sufferers. The quick relief from pain which it affords is alone worth many times its cost. PLEASED TO DO IT.

Palmer Citizens Gladly Speak Publicly On This Subject.

A public statement
Given to the public for the public good.
A citizen's experience,
Truthfully told for humanity's sake,
Should find ready appreciation.
Palmer people are pleased to do it;
Pleased to tell their friends and neighbors.
Tell them about the "little conqueror."
The good deeds of Doan's Kidney Pills
Are spreading o'er the city,
Lifting burdens from aching backs,
Curing the pains of kidney ills.
Read the proof in a Palmer man's words.

Otto Smith, a farmer, living out about a mile on the Thorndike road, says:—"I was greatly benefitted by using Doan's Kidney Pills sold at LeGro's drug store. My back hurt me extremely I could hardly rise from a chair, suffered from disagreeable feelings in my head and was greatly annoyed with the kidney secretions. I was never free from depression, for the dull grinding pain over my kidneys took all the snap out of me. I obtained more benefit from the use of Doan's Kidney Pills than from all the other medicines I ever took. I do not hesitate to recommend them whenever opportunity arises."

Our Thirty-First Anniversary

Thirty-one years have passed since the firm of Forbes & Wallace came into existence. They have been years of enterprising, progressive development; years devoted to the improvement of methods, to a consistent and persistent endeavor to give our customers constantly better merchandise, better values, better service. The same purposes still shape the policy of this business. It is still growing, still advancing, improving its methods and its service every year, every month, every day.

At this time we cordially invite everybody to come to headquarters and state any complaints, in order that we may take measures to still further improve and perfect our service at every possible point—wherever it is at fault—wherever we fail of the utmost usefulness. We invite suggestions in any line, from any source.

In celebration of this event, and in recognition of the liberal patronage we have received during this long period we have made preparations to begin to-day

Special Anniversary Offerings in All Departments

Mrs. Jane M., widow of George Dexter Utley, died Tuesday evening. She leaves three sons, Charles and Henry in this state, and George of Los Angeles, Cal., also one daughter, Mrs. Gertrude Goodier of Ware. The funeral was held yesterday afternoon at her home on the corner of Church and Cottage streets, and burial was in Hardwick.

The house occupied by Francis Guertin and owned by one of his daughters, located at the southerly end of Bellevue avenue, was badly damaged by fire Monday morning. The fire started from a defective chimney in the ell part, and the flames spread to the roof of the main building. This roof is flat and covered with tin, so that some difficulty was experienced in getting the fire under control. Hose companies 1, 2 and 3 all poured streams of water upon the house and considerable damage was caused by the water. The house was insured for $1000 and Mr. Guertin had $400 on his furniture. The loss is about $300 on the house and $200 on the contents.

TO THE HONORABLE JUSTICES OF THE SUPERIOR COURT, holden at Springfield, within and for the County of Hampden, humbly shows Edith A. Pierce of Wales, County of Hampden and Commonwealth of Massachusetts that she was lawfully married to James A. Pierce of Cranston, R. I., now of parts unknown, at North Attleboro, Mass., on the nineteenth day of February, A. D. 1899, that they have since lived together as husband and wife in said Cranston, R. I., and Uxbridge, Mass. and she has ever conducted towards him as a faithful, chaste, and affectionate wife, yet the said Libellee regardless of his marriage vows and obligations on the ninth day of August, A. D. 1902 deserted her and at the present time his whereabouts and residence is unknown to the Libellant and that said Libellee being of sufficient ability, grossly or wantonly and cruelly refused and neglected to provide suitable maintenance for her which neglect exists to the present time, and at Uxbridge on or about the first day of July, A. D. 1901 and on divers other days and times was guilty of cruel and abusive treatment towards your libellant; and has contracted gross and confirmed habits of intoxication caused by the voluntary and excessive use of intoxicating liquor, opium or other drugs.

Wherefore she prays that the bonds of matrimony heretofore existing between her and the said James A. Pierce may be dissolved, and that she may resume her maiden name Edith A. Paige and for such further orders and decrees in the premises as to law and justice may appertain.

Dated the eighth day of February, 1904.

EDITH A. PIERCE.

COMMONWEALTH OF MASSACHUSETTS—
HAMPDEN, SS.

SUPERIOR COURT.

CLERK'S OFFICE, SPRINGFIELD,
March 28, A. D. 1905.

On the foregoing amended libel, it is ordered that the libellant give notice to the said libellee James A. Pierce of the pendency thereof, and to appear before said Court at Springfield, within and for the County of Hampden, on the first Monday of May next, by causing an attested copy of her said libel as amended with this order thereon, to be published once a week, three weeks successively, in the Palmer Journal, a newspaper printed in Palmer, in the County of Hampden, the last publication to be fourteen days at least before the said first Monday of May, and by sending by mail to the last known address of the said libellee as soon as may be, a registered letter containing an attested copy of said libel as amended and order thereon; or by causing the said libellee, if found within this Commonwealth, to be served with an attested copy of said libel as amended and this order fourteen days at least before said first Monday of May that the said libellee may then and there show cause why the prayer of said libel as amended should not be granted.

Attest: ROBERT O. MORRIS, Clerk.

A true copy of libel as amended and order thereon. 53-3

Attest: ROBERT O. MORRIS, Clerk.

MORTGAGEE'S SALE OF REAL ESTATE—

By virtue of a power of sale contained in a certain mortgage deed given by Emma E. Hall to J. Richard Brown dated October 28, 1904, and recorded in the Registry of Deeds for the County of Hampden, libro 698, folio 171, will be sold at public auction at the dwelling house on the premises first hereinafter described on Saturday, the twenty-second day of April, 1905, at two o'clock in the afternoon, for a breach of the conditions of said mortgage, all and singular the premises conveyed by said mortgage deed, namely:—

A certain tract of land with the buildings thereon situated in Brimfield in said county of Hampden, containing about 120 acres, and bounded easterly by the highway leading to Warren, northerly by land of Arthur Brown, westerly partly by the old Mountain Road and partly by land of one Lewis, southerly by land of E. Hitchcock, land of said Lewis and land of Orrin Hicks, said premises being known as the Brown Farm.

Bondsville 12, Thorndike 2.

The Bondsville baseball team played the Thorndike team in Thorndike Wednesday morning, defeating them by a score of 12 to 2 The Bondsville battery was Whitney of Amherst and Fenton of Bondsville, and the Thorndike battery consisted of Reilly and Fogarty. The special feature of the game was Whitney's good work in the stand, he only allowing one man a base hit. This was the second game of the series of three, each team having now won one. The rubber will probably be played on neutral grounds in Three Rivers. The score:

Mass. Mutual 6, Wilbraham Academy 5.

The Massachusetts Mutual Life Insurance company won from Wesleyan Academy at Wilbraham Wednesday afternoon, 6 to 5. Both teams were weak at the bat, but their fielding was fair, considering the weather. For the Massachusetts Mutual, Davis and Hovis excelled. Whelan for the Academy did clever backstop work. The score by innings:

Mass. Mutual,	0	0	1	1	0	2	0	0	2—6
Wesleyan A.	0	0	0	0	1	0	0	0	4—5

Palmer Juniors 27, Doctors 15.

The Palmer Juniors opened the baseball season with a game with the doctors at the epileptic hospital Wednesday afternoon. The feature of the game was the batting and the fielding of the Palmer team. The score by innings:

Palmer Juniors,	0	4	4	3	0	0	0	8	8—27
Doct'rs and Atten'ts,	2	0	2	0	0	0	2	4	5—15

Batteries, Todd and Kenefick; Mullaney, Norway and Viler.

All-Springfields 5, Ludlow 4.

The Ludlow team was defeated by the All-Springfields, 5 to 4, in a game at Ludlow Wednesday afternoon. The game was interesting all through. The score by innings:

All-Springfields,	0	1	2	0	2	0	0	0	0—5
Ludlow,	1	1	1	0	0	0	1	0	0—4

Ware High Schedule.

Manager Francis Ryan of the Ware high school baseball team has partially completed the schedule of games for the season as follows: April 19, Colonials of Ware, at Ware; April 22, Palmer high at Ware; May 3 (pending), Wesleyan Academy at Wilbraham; May 6, Palmer Juniors at Palmer; May 10 (pending), South Worcester high at Ware; May 17, open; May 24, Monson Academy at Monson; May 27 (pending), Barre high at Ware; May 31, Northampton high at Northampton; June 7 (pending), St. John's School of Worcester at Worcester; June 14, Amherst high at Amherst; June 17, Monson Academy at Ware; June 20, alumni at Ware.

The Palmer Juniors will play the Ware high school at Ware to-morrow afternoon.

A game was played in Belchertown Wednesday afternoon between the Belchertown and Ware clerks, resulting in a victory for the former, 12 to 2.

Monson Academy won an easy victory Wednesday from the Chicopee high school team at Chicopee by the score of 13 to 1. Up to the sixth inning the score was 1 to 0 in favor of the visitors, then the home team slumped badly. The batteries were: For Monson, English and Hines; for Chicopee, Hale and Kearns.

The Farmers' baseball nine and the Ludlow high school opened their season on Johnson's field in Ludlow Wednesday. The score was 13 to 12 in favor of the high school. The features of the game were the battery work of Mackintosh brothers for the school and the heavy hitting of Carl Smith of the Farmers.

The young men in West Warren observed Patriots' Day by organizing two baseball teams, one under the leadership of Raymond Love, styled the Tigers, and a second led by Mr. St. Peter, who called themselves the Stars. Timothy Hennehry acted as umpire of the game which was played on Collins' grounds, off South street. The Tigers won by a score of 14 to 2.

BASKETBALL.

Belchertown High Basketball Record.

The basketball team of the Belchertown high school closed the season with as good a record as any school in the state, having won 19 games and lost but two. The team this year, with the exception of Manager Atwood and Capt. Williams, was composed of new men. All games were played in the town hall in Belchertown. The list of games as won by the local high school is as follows: Stafford Springs high school, Ware Fast Five, Ware Shamrocks, Three Rivers Athletics, Ware Shamrocks (2), Three Rivers Athletics, Enfield Stars, Hardwick high school, Northampton Athletics, Northampton Commercial College, Northampton high school, Amherst high school, Amherst "Aggie" freshmen, Chicopee high school, South Hadley high school, Belchertown Fast Five, Ware Wonders, Belchertown high school second team (two games). Tie games: Ware Bully Five, Holyoke Consolidated. Games lost: To Ludlow Wallamanumps and Williston Imperials. Won 19, lost 2, tied 2.

Mrs. Margaret Cunningham, 64, wife of James Cunningham, died at her home on South street Sunday night after a two-weeks' illness with Bright's disease. Besides her husband, she leaves two grandchildren, Miss Frances Cunningham, 20, and Arthur Cunningham, 11, whom she had cared for since the death of their father, several years ago, who was Mrs Cunningham's only son. The funeral was held in St. Thomas's church Wednesday morning, and burial was in Warren.

The high wind Monday afternoon blew off 37 feet of the tin roof on the quilling-room in the east end, second floor, of the dye-house of the Warren cotton mills. There were 24 girls employed in the room, and they rushed from the building when they heard the terrific noise, thinking that the boiler had exploded. None of the timbers fell into the room, only some pieces of glass from one of the skylights, and no one was injured. The company's carpenter was put to work on the roof, and it was temporarily repaired so as to allow the girls to return to work Tuesday morning

BRIMFIELD.

Mrs. Ella Foskett of Worcester was in town last week.

Miss Lola Andrews has taken a position as bookkeeper in a store in Springfield.

Mrs. Frank Boardman and Master Allen Boardman of Waterbury, Ct., have been spending the week at the home of G. M. Hitchcock.

Word was received in town recently of the death at Hillsboro Bridge, N. H., of Mrs. Abbie Van Dommele, the mother of Mrs. Lillian Janes, who was called to that place several weeks ago by her mother's illness.

A pleasant social was held at the church last Friday evening under the auspices of the Ladies' Benevolent Society. A supper was served from 6 to 8, of which maple *syrup was the chief attraction.* Afterwards there was a literary and musical program, and a phonograph performance.

The regular meeting of the Hitchcock Free Academy Debating Society was held last week Thursday evening. The subject for discussion was: "Resolved, that Labor Unions are a Benefit to the Working Man." The disputants were Alice Lombard and William Hibbard affirmative, and Dora Sherman and Robert Streeter negative. The lyceum paper has been named "The Recorder." Its principal article was a historical sketch of the Academy since its foundation. The editors were Patrick Shanley, editor-in-chief, and Alice Sawin and James Hines assistant editors. The meeting was one of much interest.

WARREN.

Taylor, Alfred E. Shumway, Frank A. Keith; committee for Old Home day, William B. Oleson, Dwight E. Groves, Miss Anna L. Demond, George E Tarbell and Alfred E. Shumway.

Selectmen's Appointments.

At a regular meeting Monday afternoon the selectmen made the following appointments: Weighers of coal, Warren, Charles B. Blair and Stary W. Bridge; West Warren, Joseph H. Hebert; sealer of weights and measures, Austin R. Woodard; burial agent, Henry M. Couverse; lockup keeper, Warren, James McKelligett; West Warren, John S. Tongue; forest fire wardens, Frank E Gleason, James Dailey, John Collins, Fred N. Lawrence, Jerry M. Sheehan, George E Rice, Robert H. Hyde, Albert B Patrick, Nathan E. Ball, Lyman R. Hawkes, George L. Bridges and Azor W. Barlow.

Fred E. Wilcox has been elected treasurer of the Congregational church.

Mrs. Harriet E. Robbins of Hartford, Ct., has returned to Warren and will spend the summer with Mr. and Mrs. William E Lincoln on Bacon street.

Rev. W. F. Lawford, formerly of Milford, has been appointed pastor of the Methodist church in Warren. Mr. Lawford is a graduate of Boston University, class of 1885, and has been preaching since then, having had four pastorates of three years each, in Newburyport, Tysleyville, Whitinsville and Maynard, and others for shorter periods. Rev. W. N Crawford, the pastor for the past two years, has been transferred to Athol.

Quaboag Pomona Grange held its regular monthly meeting in Brigham's hall Wednesday, and as it was the occasion of the annual inspection there was an unusually large attendance, about 175 being present. At the morning session a class of 40 were initiated, the work of the fifth degree being inspected by Mrs. Ella Southland of Athol, district deputy. The candidates were from all the towns comprising Quaboag Pomona Grange, Oakland heading the list with 20, and Spencer, New Braintree, the Brookfields, Brimfield and Warren furnished the others. Dinner was served at noon, followed by a social hour. At the afternoon session C. N. Gardner of Westfield gave an interesting talk on "Conquests of Peace," and Mrs. Southland spoke at length on the good of the order.

Miss Waring's Escort

By OTHO B. SENGA

Copyright, 1904, by Otho B. Senga

Six shabbily dressed men lounged in front of the fashionable hotel. Five, evidently comrades, conferred together in low tones; then one approached the sixth man, saying guardedly, "Are you one of us?"

The man smiled half satirically. "Naw; I'm de real ting, see?"

His questioner turned away in disgust.

The man laughed softly, the low, enjoyable laugh of one who appreciates.

A tall young woman whose attire evidenced wealth and refinement entered the hotel vestibule.

One of the five groaned softly.

"Who is she, Dyke?" eagerly questioned another.

"Miss Kate Waring of Denver. Worth half a million and eccentric. Visiting Cousin Dorothy. And me in this beastly tramp's rig!"

Miss Waring's stately entrance into the great dining room was arrested by the head waiter.

"This way, madam," courteously. "I will conduct you to the ladies' dining room."

Miss Waring glanced about her.

"It is not necessary," calmly. "I will remain here."

"Pardon me, madam, but ladies without escorts are served in the room at the right. I will conduct madam"—

Miss Waring's calm glance surveyed the small crowded room at the right and then returned to the great, cool room in which she stood, with palms and ferns in profusion. She noted the many vacant tables and the number of ladies present.

"I do not wish to go in there. I prefer to have dinner served here," making the statement tranquilly with the air of one accustomed to have deference accorded her slightest wish.

"The rule is imperative, madam," with courteous firmness. "Ladies without escort"—

"*Reserve that table by the window with the ferns beside it, the third on the left.*" And the graceful figure turned to the outer door.

There was no hesitancy in Miss Waring's voice or manner as she addressed the group of shabby men.

"Will one of you gentlemen do me a favor?" clearly and unsmilingly.

Six shabby head coverings were off in an instant, and six more or less manly forms bent low before her.

"Thank you all," gravely. "I want one of you to act as my escort and my guest, that I may be accorded the privilege"—the scarlet lips curled a trifle—"of having my dinner where I have chosen to have it. I will ask you, please," turning abruptly to the one who had designated himself as "de real ting."

"Oh, but"— began one of the unchosen eagerly.

Miss Waring's face and gesture forbade further words.

"I thank you all for your courtesy. If this gentleman accepts"—

"It is a privilege, madam," bowing gravely.

"'De real ting,' is he?" cried Dyke vengefully when they were out of hearing. "Did you observe his speech and that bow? He's one of the fellows set to watch us!"

"Nonsense, Dyke! There isn't a man in the class as old as he. He's seen actual tramping, I'll stake a thousand on it. Why didn't you tell Miss Waring who you are?"

"Aren't we under oath not to disclose our identity?" demanded Dyke hotly. "Besides, look at me!"

"I ordered a table reserved," said Miss Waring to "de real ting."

"I see it—third on the left."

He led the way with easy grace, a light of amusement gleaming in his dark eyes at the evident consternation of the waiter, who hesitated slightly before seating the serene young lady and her strange escort.

Miss Waring ordered the dinner with precision and discrimination.

"I hope," she remarked pleasantly when the waiter had gone—"I hope you approve my order."

There was not the slightest embarrassment in her manner or condescension in her speech—the man was her guest.

"The order is perfect, madam, and, permit me to say, admirably given."

Miss Waring smiled.

"Are all of Boston's"—she paused for an instant in search of a word that might not embarrass her guest—"submerged, such Chesterfields as the six to whom I spoke?"

"The others are Harvard students."

"Harvard students!" in momentary bewilderment. "Oh, I know. They are doing penance."

"That is the meaning, madam, though not the term they use."

"Are you?" lightly, yet with an anxious tone in the low voice.

"I am a genuine hobo."

She passed her cardcase to him.

"You should know who is your hostess," graciously, "and I will ask the name of my guest."

He took out two cards, writing on the back of one and returning it to her with the case.

She glanced at the writing:

JOHN LESTER, HOBO.
NO ADDRESS.
BORN IN BOSTON.

"Thank you, Mr. Lester. I hope you are as genuinely hungry as—as your profession would indicate."

"I am, Miss Waring. I can do full justice to the dinner you have ordered. You might remind me if—if I forget anything. It's a long time since I have dined with ladies."

The tone was serious, but there was a dancing light in the fine eyes that Miss Waring caught, and she smiled sympathetically.

There was but little conversation. Miss Waring was graciously courteous, as became a hostess, but even a dull man in Lester's place would not have presumed upon the situation.

"I thank you for your escort, Mr. Lester," said the girl dismissingly as they passed out.

"I am your debtor, Miss Waring," earnestly. "If I were not a hobo I would ask when and where I might pay my dinner call."

A sudden impulse prompted her reply.

so curl- smiled ap- he sent up, a slip of pa with "John Lester" boldly written.

She was still smiling when she entered the drawing room, but the smile vanished as she noted the fashionable clothes he wore.

He was quick to see the change.

"You are sorry I came? It was taking an advantage"—

"Pardon me, I am somewhat disappointed. It was a pleasure to find something genuine. I do not like imitations, not even an imitation hobo."

"It is now that I am the imitation, Miss Waring. The clothes are hired for the occasion."

She held out her hand cordially. "Consider yourself welcomed, Mr. Lester, and allow me to say that the clothes are very becoming."

He flushed boyishly.

"It's five years since I've worn a rig like this. I hardly knew how to put it on."

Miss Waring led the conversation to topics of interest to a man of education and refinement—books, music, the drama—finding her companion conversant with the best.

"Will you tell me something of yourself"—she asked presently—"why you are a—a wanderer and how you live? Even a traveler must eat, I suppose."

He hesitated but an instant.

"I have tramped for five years. I work awhile in a place till the devil drives me on again—the devil of my conscience. I suppose it will yet drive me back to"—his face grew grave and his voice harsh, but he kept stoically on—"to Denver, where I am wanted for the murder of Manuel Laredo, a Mexican, whom I killed on Starbright ranch."

She rose excitedly.

"I bought Starbright ranch last year. Manuel Laredo is among the workmen there!"

He sprang to his feet, his face aglow, his eyes filled with sudden joy.

"He did not die, and I am not"—

Then his face paled again.

"I forgot," hoarsely, "there may be a dozen Manuel Laredos; those Mexican names"—

"*It is the same man,*" *she interrupted positively.* "*I have heard the story and* seen the scar of the bullet on his cheek."

She talked on, waiting for him to regain control of himself.

"We should be friends, Mr. Lester. Royal Thornton is my stepbrother. I have often heard him speak of the trip abroad that you two made together years ago. I know now why your name seemed so familiar. Will you go back to Colorado?"

He took her outstretched hand in both his own.

"As your escort, Miss Waring?"

She smiled assent, flushing beautifully.

Chamberlain's Cough Remedy the Best and Most Popular.

"Mothers buy it for croupy children, railroad men buy it for severe coughs and elderly people buy it for la grippe," say Moore Bros, Eldon, Iowa. "We sell more of Chamberlain's Cough Remedy than any other kind. It seems to have taken the lead over several other good brands." There is no question but this medicine is the best that can be procured for coughs and colds, whether it be a child or an adult that is afflicted. It always cures and cures quickly. Sold by Quimby Pharmacy, Palmer.

Back to the Old Rations.

"I suppose you were fed off the fat of the land," said Mrs. Saunders plaintively as she set the plate of griddle cakes before Mr. Saunders the morning after his return from Boston. "With Niece Margaret's means, they must have everything there is going."

"I presume to say there's no lack o' wherewithal," said her husband as he began to pour maple sirup with a lavish hand, "but for breakfasts they had the worst lot o' truck ever I saw. 'Twasn't cooked nor a thing done to it. I expect that hired girl o' theirs that I used to hear falling downstairs about 7 o'clock didn't want the trouble o' starting her fire in a hurry. But I tell ye when you've had a different kind o' straw filling served to ye for seven days running, griddle cakes come just at the right time. Don't take away that serrup jug yet awhile. It hasn't soaked in yet all it's a-going to. And set the doughnuts and the pie and the biscuits where I can keep an eye on 'em, but ye can remove that glass o' water as far as ye see fit. I've been starvin' healthy about us long us I can stan' it."—Youth's Companion.

How Rats Multiply.

A pair of rats happily situated and undisturbed will in three years have increased to 656,808. Calculating that ten rats eat as much in one day as a man, which we think is rather under than over the fact, the consumption of these rats would be equal to that of 65,680 men the year round and leave eight rats in the year to spare. Multiplying in this rapid way, it is providential that the rat has so many natural enemies. All these to the contrary notwithstanding, he often proves sufficiently troublesome to make the community conspire against him. In Ireland they singe the hair of a rat which has been caught, but otherwise it is unharmed. In Germany they let one loose with a small bell attached to its neck. The tinkling of this as the belled rat chases his friends produces a panic among them and causes them to flee the premises.

The Fifteenth Century Gambler.

In the time of King Henry IV. of England the "smart set" managed to play bridge or its equivalent without shocking the susceptibilities of those who think it wrong to play for money. The fifteenth century gambler, according to one historian, "played at cards for counters, nails and points in every house more for pastime than for gain." "Everie scholar or petyte (little one) that plaies for money is to be expelled," ordains a grammar school charter of the period. One of the duties of hospital sisters was "to make dilygentt searche amonge the poore for cards or dice."

Insulted His Legs.

Apropos of knee breeches a correspondent of the London Express quotes an anecdote from Captain Gronow's "Recollections" which puts the whole case in a nutshell. The baillie de ferrette was always dressed in knee breeches, with a cocked hat and a court sword, the slender proportions of which greatly resembled those of his legs. "Do tell me, my dear baillie," said Montrond one day, "have you got three legs or three swords?" Soon after which, we should imagine, the baillie went home.

Damages Enough.

There had been a railway collision near a Scottish country town, and an astute local attorney had hurried to the scene of disaster. Noticing an old man with a badly damaged head lying on the ground, he approached him with notebook in hand. "How about damages, my man?" he began. The injured man waved him off with the remark: "Na, na; ye'll get nae damages fae me. It wasna me that hit yer bloomin' auld train."

The Other Kind.

"Do you think there is anything remarkable in love at first sight?" asked a romantic youth.

"Not at all," replied his cynical friend. "It's when people have been looking at each other for four or five years that it becomes remarkable!"

PAINFUL PERIODS

Suggestions How to Find Relief from Such Suffering.

Miss Nellie Holmes
Mrs Tillie Hart

While no woman is entirely free from periodical suffering, it does not seem to be the plan of nature that women should suffer so severely. Menstruation is a severe strain on a woman's vitality. If it is painful or irregular something is wrong which should be set right or it will lead to a serious derangement of the whole female organism.

More than fifty thousand women have testified in grateful letters to Mrs. Pinkham that Lydia E. Pinkham's Vegetable Compound overcomes painful and irregular menstruation.

It provides a safe and sure way of escape from distressing and dangerous weaknesses and diseases.

The two following letters tell so convincingly what Lydia E. Pinkham's Vegetable Compound will do for women, they cannot fail to bring hope to thousands of sufferers.

Miss Nellie Holmes of 540 N. Davision Street, Buffalo, N. Y., writes:

Dear Mrs. Pinkham:—

"Your medicine is indeed an ideal medicine for women. I suffered misery for years with painful periods, headaches, and bearing-down pains. I consulted two different physicians but failed to get any relief. A friend from the East advised me to try Lydia E. Pinkham's Vegetable Compound. I did so, and no longer suffer as I did before. My periods are natural; every ache and pain is gone, and my general health is much improved. I advise all women who suffer to take Lydia E. Pinkham's Vegetable Compound."

Mrs. Tillie Hart, of Larimore, N. D., writes:

Dear Mrs. Pinkham:—

"I might have have been spared many months of suffering and pain had I only known of the efficacy of Lydia E. Pinkham's Vegetable Compound sooner; for I have tried so many remedies without help.

"I dreaded the approach of my menstrual period every month, as it meant so much pain and suffering for me, but after I had used the Compound two months I became regular and natural and am now perfectly well and free from pain at my monthly periods. I am very grateful for what Lydia E. Pinkham's Vegetable Compound has done for me."

Such testimony should be accepted by all women as convincing evidence that Lydia E. Pinkham's Vegetable Compound stands without a peer as a remedy for all the distressing ills of women.

The success of Lydia E. Pinkham's Vegetable Compound rests upon the well-earned gratitude of American women.

When women are troubled with irregular, suppressed or painful menstruation, leucorrhœa, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating, (or flatulency), general debility, indigestion and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound at once removes such troubles. Refuse to buy any other medicine, for you need the best.

Don't hesitate to write to Mrs. Pinkham if there is anything about your sickness you do not understand. She will treat you with kindness and her advice is free. No woman ever regretted writing her and she has helped thousands. Address Lynn, Mass.

Consumption

Consumption is practically incurable, but the cause, even to an advanced stage, is curable. Catarrh is responsible for every case of consumption ever known. Consumption is generally spoken of as the great white plague and the enemy of the white race, but I believe neglect is the people's greatest enemy, when every case of consumption might have been cured in the beginning by taking REXALL MUCU-TONE. No person in my opinion ever had consumption who did not have it begin with Catarrh, and no one who ever used Mucu-Tone ever failed to effect a cure. The reason is clear enough, too—Mucu-Tone is a catarrh remedy that strikes right at the cause. Catarrh is caused by a germ in the blood. Mucu-Tone is a germ destroyer, and first of all destroys the germs of Catarrh, then it tones up the tissues that have been ravaged by the catarrhal parasite, and in that way prevents the germs of consumption from ever getting a start. Besides this it is a wonderful appetizer and flesh builder—you begin to "put on" flesh just as soon as you begin the treatment. I have no other medicine that I recommend so often nor so largely—in fact I guarantee a large trial bottle that I sell for fifty cents to give results or I refund you the price. Try a big trial bottle to-day on my personal recommendation.

A WONDERFUL CURE.

Mr. H. W. Strauch, owner of the great Rock Station Mills at Rock, Penn., writes in part as follows: "I can cheerfully say that Cal-cura Solvent, Dr. David Kennedy's new medicine, has helped me more than any other treatment or medicine I ever had. I am 65 years of age. For years I was troubled with a severe case of kidney and bladder disease. I consulted numerous well-known physicians (and I do not complain in any way of their treatment). I have used various kinds of medicine, but nothing equals Cal-cura Solvent. I consider myself completely cured, and I am doing my best in recommending this grand medicine to my friends, for I want to spread its reputation throughout this territory."

There are hundreds of people who have been absolutely cured of kidney, bladder and liver disorders by the thorough and systematic use of Cal-cura Solvent. The greatest work of this new medicine is that it prevents the formation of stone and gravel in the Kidneys and Bladder by dissolving the uric acid and phosphatic sediments, thus purifying the blood and correcting all those uric acid conditions of the stomach which are responsible for the formation of uric acid and gout poisoning and rheumatism.

Cal-cura Solvent gives a healthy action to the liver and freedom from constipation. Write the Cal-cura Co., Kingston, N.Y., for a free sample bottle and medical booklet.

TOWN OF PALMER.
ASSESSORS' NOTICE.

To the Inhabitants and other Persons liable to pay taxes in the town of Palmer for the year 1905

The Assessors of the Town of Palmer hereby give notice to the inhabitants of said town, and all other persons liable to pay taxes therein, that they will receive at the Town House on Monday, the first day of May next, from 10 o'clock a. m. until 4 o'clock p. m., the valuation of estates, and all persons liable to be taxed in said town are hereby notified to bring in to us true and perfect lists of all polls (males twenty years old and upwards), and schedules and estimates of the Personal and Real Estates for which they are liable to pay taxes in said town, possessed by them on the first day of May next.

MORTGAGED REAL ESTATE.

Any Mortgagor or Mortgagee of Real Estate situated within this town may bring in to the undersigned Assessors, within the time above spec statement under oath, of the amou due h separate lot or parcel of such Esta the name and residence of holder n interest as a Mortgagor or gagee therein. When only a part of the pro erty described in any mortgage is situated within this town, an estimate of the amount of a Mortgagee's interest in such part; or when a recorded mortgage includes for one sum two or more estates or parts of an estate, an estimate of the amount of the Mortgagee's interest in each estate or part of an estate shall be given in such statement.—Chapter 175 of the Acts of 1882.

CHAPTER ELEVEN OF THE PUBLIC STATUTES.

SECTION 14 "When any person has an interest in taxable real estate as holder of a duly recorded mortgage, given to secure the payment of money, the amount of which is fixed and certain, the amount of his interest as Mortgagee shall be assessed as Real Estate in the place where the land lies; and the Mortgagor shall be assessed only for the value of said Real Estate after deducting the assessed value of all such Mortgagee's interest therein. When such property is situated in two or more places, the amount of the Mortgagee's interest to be assessed in each place shall be proportioned to the assessed value in the respective places of the mortgaged Real Estate, deducting therefrom the taxable amount of prior mortgages, if any therein."

SECTION 15. "If any holder of such a mortgage fails to file in the Assessors' office a statement under oath of all his estate liable to taxation under the preceding section, including a statement of the full amount remaining unpaid upon such a mortgage and of his interest therein, the amount stated in the mortgage shall be conclusive as to the extent of such interest; but the Mortgagee's interest in such real estate shall not be assessed at a greater sum than the fair cash valuation of the land and structures thereon or affixed thereto; and the amount of a mortgage interest in an estate that has been divided after the creation of such mortgage shall not be required to be apportioned upon the several parts of such estate except as provided in sections eighty-one to eighty-three inclusively"

SECTION 16. "Mortgagors and Mortgagees referred to in the two preceding sections shall, for the purpose of taxation, be deemed joint owners until the mortgagee takes possession; and until such possession is taken by the first Mortgagee, the Assessor or the Collector of Taxes, upon application to any one of them, shall give to any such Mortgagee or Mortgagor a tax bill showing the whole tax on the mortgaged estate and the amount included in the valuation thereof as the interests of each Mortgagee and of the Mortgagor respectively. If the first Mortgagee is in possession he shall be deemed joint owner with prior mortgages."

When a statement in conformity to the law above quoted is brought in, the Real Estate therein returned will be assessed under Sections 14, 15 and 16 of Chapter Eleven of the Public Statutes. But in cases where the Mortgagor of the Real Estate has agreed in writing to pay all taxes assessed thereon, no statement or return is required from either Mortgagee or Mortgagor, unless requested by the Assessors in writing 2-3

The senior class will give a social in the Academy chapel this evening. The public is invited to attend.

Lino will carry out the following program next Friday evening: Recitation, Norcross, Purinton; dialogue, Page and Hanley; news items, Briggs; stump speech, subject and speaker to be decided at the meeting; extemporaneous debate, debaters to be chosen at the meeting.

The baseball team opened the season Wednesday afternoon in a burst of glory, defeating the Chicopee high school team on their home grounds by the score of 13—0. The Academy players were superior to Chicopee in all parts of the game, the main feature being the work of Rourke, the freshmen pitcher, who allowed Chicopee but two scratch hits, and compelled 19 of them to fan the air. The next game will be with Stafford high school at Stafford Spring, Ct.

Interesting Lecture To-morrow.

The lecture on "The Essentials and Non Essentials of Life," by Mrs. Kate Upson Clark of Brooklyn, N. Y., at the Congregational church to-morrow afternoon, is an event of delightful anticipation. Of the speaker, Pres. Wooley of Mt. Holyoke College, says "Mrs. Clark's wit, sound common sense and wide experience, make her a most delightful and helpful speaker, charming every audience that is so fortunate as to hear her. Her wit is irresistible yet so kindly that it leaves no sting, and her sympathy and understanding of human nature are most natural. She not only has something to say but knows how to say it." [illegible]e lecture will be preceded by an orga[illegible] [illegible]tal by Miss Lucy B. Woodward, begin[illegible]ing at 3.45 p. m. The public is invited.

George Butler of Oakham spent Sunday with his brother, Henry N. Butler on Harrison avenue.

Luke Closson has taken a position with the Flynt Building and Construction Co. at Waterbury, Ct.

Mrs. D. B. Needham was called to Russell this week by the death of her sister, Mrs. H. S. Bell.

Mr. and Mrs. Fred M. Fenton of Holyoke spent Wednesday with Mrs. Chandler Fenton on Main street.

Miss Elizabeth O'Brien of Warren has been the guest of Miss Kathryn O'Brien on South Main street this week.

Mr. and Mrs. Henry T. Chapman of Brooklyn, N. Y., have been the guests of Mrs. G. C. Flynt on High street.

Misses Lillian and Lucy Brown of Ware spent Saturday and Sunday with Mr. and Mrs. A. M. Beebe in Colton Hollow.

Thomas Crowley has moved from Park avenue into the Babbitt house on Gates street, which he recently purchased.

Miss Florence Bughee has returned to North Adams after spending a few days here with relatives on Pleasant street.

A. E. Procter of Cushman Hall split one of his fingers Wednesday while playing ball, and required the attendance of Dr. Capen.

Walter Miller has resigned his position with D. W. Ellis & Sons, and has taken one with T. J. Sault, the painter and paperhanger.

Mrs. H. E. Bradley has returned from Springfield, where she has been spending the winter, and will occupy her residence on High street.

The many friends of Dr. Luther Peck, who recently located in Plymouth, Mich., will be pleased to learn that he has been elected health officer in that town.

Mrs. Albert Heritage has resigned her position as teacher at North Monson to take effect May 5th and will be succeeded by Miss Blanche Hastings of Palmer.

There will be a match game of golf for men for golf ball prizes at the Quaboag Country Club links to-morrow afternoon at 2 o'clock. The scores will be used for forming a team. This will be the first in tow[illegible] and barb[illegible] number attended th[illegible] field, and many more took in th[illegible] at that place, while several of the local fishermen tried their luck, with poor results.

Miss Lula Simon of Boston will give Bible readings in connection with a vesper service at the Congregational church, Sunday, April 30th. The selections will include the "Farewell of Moses," "Ruth," "A Daughter's Sacrifice," "Passing the Love of Woman," and "The child among the Rabbi."

The Onsamequin Dramatic club of Springfield will present "Uncle Davie Darling" in Memorial Hall, May 9, under the auspices of Mt. Ella lodge, A. O. U. W., and Court Monson, Foresters of America. After the performance there will be a social dance. Music will be furnished by Orcutt's orchestra.

Mrs. Polly A. Hitchcock, 82, widow of the late Isaac M. Hitchcock, died at the home of her nephew, Fred L. Hitchcock, yesterday morning, having been in poor health for some time. The funeral will be held from the residence to-morrow afternoon at 2 o'clock, Rev. N. M. Pratt officiating, and burial will be in the No. 1 cemetery.

Monday evening Dr. William R. Lord of Rockland will deliver a stereopticon lecture on "The Ministry of Birds," in the Academy chapel. The pictures are unusually good, and some of them unique and beautiful. Dr. Lord is a man of rare culture and deeply interested in birds. The lecture will begin at 8 o'clock and the public is invited to attend.

Considerable complaint is heard among the residents along Main street because the street sprinkler is not started earlier. The past two weeks the streets have been in a terrible condition, and the owners of the sprinkling cart have made no move to start it. Each year there are several weeks of such dusty times before it is started and it excites considerable comment.

William Kennedy, employed at Beech's mill, met with a painful accident about 5 o'clock Monday afternoon. He was at work on the second floor of the dye house weighing some goods, when the flooring broke through, and he fell about 10 feet on to the floor beneath, some of the timbers falling upon him. He was badly bruised, and two of his ribs were broken. He was attended by Dr. Capen.

Our Legislative Letter

BOSTON, MARCH 19, 1905.

Gov. Douglas's proposition to transfer the state prison to the Island of Nashawena seems to commend itself to the legislators as far as they have come to have any opinion about it. The message was based upon the advice of the chairman of the prison commission, Frederick G. Pettigrove, who is a straight Republican. The proposition has been referred to the committee on prisons and public charitable institutions sitting jointly and they are likely to visit the Island soon. Certainly the idea of putting the prison there has met with some Republican favor in that quarter already, and there does not yet appear any hostility on the part of any of the members. Outside criticism is to the effect that if the prison is so far away, the friends of the prisoners will not find it as convenient to visit them as they do with the prison in Charlestown. The prospect that the new prison could be built without extra tax, using the value of the land now occupied as a source of some of the necessary funds, also predisposes the legislative mind in favor of the plan. The fact that Chairman Pettigrove is really the father of the proposition doubtless inclines the Legislature to favor it, because he is a conservative, though progressive man, and he would not promote any scheme which he had not considered very carefully. It would be no small feather in his cap if he were to originate such a striking departure from our practice and have it put into successful operation. His devotion to this plan has been interrupted this week by his interest in the Pittsfield jail trouble, where the accounts of the late Sheriff Fuller are still in a tangle. The introduction of this business may delay prorogation a little, but not as much as the gas and railroad railway merger bills.

This bill to permit the steam roads to eat up the street railways is apparently the most important business which is pending this session in its effects upon the public policy of the state. The railroads want to have the right to buy up the railways and to issue stock on such terms as will make stock-watering possible about as much as if the law of 1894 had not been passed. Incidentally there is involved the question whether the New York, New Haven and Hartford railroad had the right at all to buy up the Springfield street railway company. The possibility that this large operation may be declared illegal, which was raised at the last moment by Mr. Luce of Somerville, adds keen interest to the question and there is great interest in the expected reply of Attorney-General Parker. The merger bill has been put over to next Tuesday in order to give him ample opportunity to reply. It will doubtless prolong the session, but the members are here to do the public business and it must be presumed that they will stay willingly in order to settle such a momentous matter as this. The railroad commissioners, as far as their voices can be heard in the confusion, insist that the rights of the public shall be protected. It will not escape notice that though the expenses of the railroad commission are paid by the railroad companies entirely, so that the commission is no expense to the state, and though it was charged repeatedly that the commission is open to the influence of the railroads, yet as a matter of fact, no other state commission exceeds this one in the high esteem it enjoys as a genuine protector of the rights of the people against the railroad corporations. Under Chairman Sanford it had as good a reputation in that respect as it has under Chairman Jackson, and the legislative debates this week have abounded with complimentary reference to the work of the commission for the people against the corporations.

It was a false alarm of fair play which the Senate gave on the public policy bill, so called, the bill which provided for submitting to the people, on petition of 10 per cent of the voters, any measure involving public policy which they asked to have submitted. On the appearance of the bill in the Senate calendar, after it had passed the House by a narrow margin after strenuous debate, it was rejected by a close vote on the first call of the calendar without a word of debate. The senators seemed to lie low for it, like a cat watching a mouse, and when the unsuspicious thing stuck its head out from under cover, as it did when the chair called it, then the Senate pounced upon it and summarily killed it. But there was a protest against such policy and then the breath of life was breathed into the body once more by reconsideration and by a bare majority of one, and then the bill was put along a stage by a vote of 19 to 14. But this was only a false hope, and yesterday the familiar cat tactics were played again and the bill has been killed once more, to stay dead this time. It was not a very important bill, because no legislative power inhered in the expression of popular opinion upon the measures submitted. The expression was one of opinion simply and would be valuable for political purposes mainly. But the power which fears to trust the people did not approve even that and so the idea is dead for this year.

Yesterday Representative McManus of Natick scored a marked success in the House with his bill, moved in place of an adverse report and carried by vote of 91 to 77, whereby the limit of $5000 for the death of any person by the negligence of a common carrier is removed, and any sum may be recovered which the jury will award. Proof is to be offered regarding the value of the life which has been destroyed, and the testimony can cover the time of life, the expectation of life, the income produced by the deceased, his habits and all other factors which entered into his income-producing ability. Of course many lives are worth a great deal more than $5000 and the income is very small which, if put on the basis of capital, does not exceed $5000 Representative Lowell of Newton, one of the solid and conservative men of the House, was in charge of the adverse report, and he held to the old theory that the death must be regarded as the penalty of negligence on the part of the person killed. But Mr. McManus easily persuaded the House that the death may occur with no negligence on the part of that person. The fact that four of the committee dissented from the adverse report, including such conservative lawyers as Messrs. Mayo of Leominster and Tarr of Rockport, helped in the substitution of the bill. But as it has yet to pass another stage in the House and then encounter the Senate, the chances are poor that it will get on the statute book this session.

By the indorsement of the Senate ways and means committee of the resolve from the education committee in favor of a commission on technical and industrial education, Gov. Douglas gets further approval regardless of party and the plan for better education of the people for the contest they must wage for the industrial supremacy of the state is further promoted While the measure must yet pass both branches, the fact that it gets the unanimous indorsement of two committees, each with a large majority of Republicans, will tend to remove all objection and carry the resolve through.

One very queer bill has had the indorsement of the House by a large majority and after thorough debate, and that is the bill to exempt the city of Lowell from the law regarding the number of liquor licenses which can be issued according to population and permitting unlimited license at the discretion of the licensing board. Why this city should be exempt from the provisions which apply to other cities may seem queer, and the queerness would not have been removed by listening to the debate, for there was no reason advanced conclusively which would not apply to other cities also. The argument that the city politics are so peculiar that temperance would be promoted by letting the people have as many licenses as the board will give them. The petition to this effect has been presented in previous years and the large vote for the bill is doubtless due far more to private and personal effort than to the merits of the bill. It will be strange if the temperance people do not step on the bill in the Senate.

The House stands for the eight-hour bill for all laborers, workmen and mechanics in the public employ by a vote of 101 to 65 and now it is to be seen whether the Senate will line up as it did on the overtime bill and kill it, or will concur with the House. The Senate has not shown much fear of the labor vote this year, though it seems to be certain that one at least of the Republican senators, elected from a district frequently Democratic, will not secure a reëlection, because he has displeased his labor constituents.

One of the Worcester county Republican legislators of prominence has given way to a strong outburst against Eben S. Draper as the Republican candidate for lieutenant governor and says that he will get little support in that county. This is wholly unexpected in this quarter, for it was assumed that Draper was strong with the party in all parts of the state, and especially at home.

HAPPY WOMEN.

Plenty Of Them In Palmer, And Good Reason For It.

Wouldn't any woman be happy,
After years of backache suffering,
Days of misery, nights of unrest.
The distress of urinary troubles,
She finds relief and cure?
No reason why any Palmer reader
Should suffer in the face of evidence like this:

Mrs. L. Lafarr, living out in the Carpet mill district, says: "I can truthfully say that Doan's Kidney Pills did me more good than any remedy of the kind I ever tried. Before I used them, for some time I had a severe backache and pain through my head. I awakened in the morning with my back so stiff and sore that I could hardly get out of bed. After a time it gradually lessened, but I was never entirely free from pain in my loins and kidneys. A friend told me about Doan's Kidney Pills and I got them at LeGro's drug store. I used two boxes, taking two pills three times a day, and they cured me entirely of the trouble. I shall be glad to recommend Doan's Kidney Pills to anyone annoyed as I was."

For sale by all dealers. Price 50 cents, Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

A Chinese Dog Story.

Prince Pu Lun and the Chinese minister, Sir Chentung Liang Cheng, attended the races at Gravesend early in June. A number of New Yorkers were present to meet the distinguished foreigners, and one of them told an incident that illustrated the remarkable intelligence of a dog of his. The minister said with a smile: "I am reminded, sir, of a Chinese story. There was a Chinaman who had three dogs. When he came home one evening he found them asleep on his couch of teakwood and marble. He whipped them and drove them forth. The next night, when he came home, the dogs were lying on the floor. But he placed his hand on the couch and found it warm from their bodies. Therefore he gave them another whipping. The third night, returning earlier than usual, he found the dogs sitting before the couch, blowing on it to cool it."—Pilgrim.

About Rheumatism.

There are few diseases that inflict more torture than rheumatism and there is probably no disease for which such a varied and useless lot of remedies have been suggested. To say that it can be cured is, therefore, a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by its use. Why suffer when Pain Balm affords such quick relief and costs but a trifle? For sale by Quimby Pharmacy, Palmer.

TO BUY NEW HOSE WAGON.

Palmer Firemen to Have Up-to-date Apparatus.

ANNUAL MEETING OF FIRE DISTRICT.

Proves Good as a Vaudeville Show. Lots Of Fun on Various Matters.

There was all sorts of vaudeville at the annual fire district meeting on Tuesday, and those who attended were highly entertained; and it cost them nothing except their time, there being no admission fee.

After the entertainment a backward look disclosed no especially new results with the exception of the vote to purchase a modern fire wagon, as advocated by the firemen; this will have a swing harness and is expected to add materially to the efficiency of an already creditable department. The prudential committee was instructed to consider the question of locating the jumper nearer Main street when the new wagon,—which will take its place—is installed, the matter being left to their judgment. A new appropriation was that to pay the clerk of the steamer company for keeping the record of the attendance at fires and the other matters in connection. With these exceptions the other matters transacted were those of the usual order.

L. E. Chandler was chosen moderator, and D. W. Dillon and James Summers were appointed ballot clerks. The first article taken up was that in reference to the hose wagon. D. F. Dillon painted a glowing word picture of the advantages of such a piece of apparatus, which would allow the firemen to go direct to a fire instead of having to first visit the engine house and help drag the heavy jumper to the blaze; he told of the many things of use in addition to hose which it would carry, such as ladders, extinguishers, hats, coats and boots for the firemen, and moved that $750 be raised and appropriated for the purchase of one. Apparently having in mind the Snow house fire, when there was no water for half an hour, E. E. Hobson started the fun by seriously inquiring of Mr. Dillon if the new hose wagon would carry water, and was informed that it would if the water was properly loaded. The appropriation was voted without a dissenting voice.

The prudential committee was then instructed to employ Timothy J. Crimmins as a fire patrol from 12 o'clock at night, and $250 appropriated for his pay.

The article relative to providing the district with water for fire purposes proved a hot tamale. Mr. Dillon, who represents the Palmer Water Company in these meetings at so much per meeting, moved that the prudential committee be instructed to make a contract with his client at $1200 for the year. G M. Atkins of the prudential committee asked what was the use of making a contract, as the company by its actions of the past year had plainly shown that it did not intend to live up to its contract in any way, referring to their allowing the storage supply to fall to about 500,000 gallons in the winter when the contract with the district calls for 1,000,000 at all times, and the condition of the main which left the wire mill district without water for 30 minutes at the time of the fire on the evening of March 21. He referred to an oft-made quotation that corporations have no souls, and suggested that here was one with neither souls nor brains. He asked Mr. Francis to read a letter sent by the committee to the water company at the time of the water scarcity, but Mr. Francis didn't have it with him. Mr. Atkins then stated that the committee had at that time agreed to withhold future payments until after the fire district meeting had been given opportunity to act on the matter, but that payments had been made since then without his name being on the orders.

Mr. Dillon replied that the Palmer Water Company was a responsible corporation, owning its plant, and that if the fire district had suffered loss there were legal means for recovery. E. E. Hobson offered an amendment that the price should not exceed $1200, objecting to compelling the payment of that sum if a less would do; such a vote was not a good business proposition. Mr. Chandler left the chair and objected to "instructing" the committee to make any contract at any price, insisting that the committee should be "authorized" to make a contract at a price "not exceeding $1200" The amendment was carried unanimously.

The reports of the various committees and officers were read and accepted, and the usual appropriations made. The sum of $386 was reported in the treasury, with all taxes to date either paid or abated, there being about $40 of the latter.

Mr. Hobson, who moved the appropriations, named $40 as the salary of the clerk and treasurer of the district, expecting that someone would see the joke and make an amendment to the usual sum, $30 R. B. Francis took the matter seriously however, as did some of the firemen, and there was a protest against a boosting of salaries. The usual $30 was then appropriated. The sum of $250, or $50 in excess of last year, was asked for incidental expenses, and in explanation F. L Gunn, one of the firemen, stated that the firemen had originally been provided with rubber boots but they had become worthless and new ones were needed, hence the increased amount asked. Mr. Hobson was heartily in favor of the larger sum, for it having been reasonably assured that the firemen might, if the new wagon did all that was claimed for it, encounter water *at some fire in the future, they ought to be insured against wet feet*; the money was granted.

The regular business having been dispensed with there came what might be termed a "for the good of the order" session. Mr. Hobson opened the entertainment by asking the prudential committee about the measurement of the water in the reservoir last winter, they having made no mention of it in their report; also of a letter received from the Wright Wire Company. Reply was made by Mr. Francis, who stated that when the reservoir was measured it contained only about 500,000 gallons of water, the contract calling for 1,000,000 gallons. The Palmer Water Company's counsel protested that there was at least 750,000 gallons at the time, and called on Engineer H. W. Brainerd, who did the work, and he stated that he found between 500,[illegible] and 600,000 gallons, which Mr. Dillon triumphantly pointed out was more than 500,000, anyway. The letter from the Wright company, which appeared in last week's Journal, w[illegible] also read, and Mr. Dillon waxed eloquent over the numerous injustices done his clients. He forgot about the scarcity of water in the reservoir and thought the company should be

CORPSE IN TOP OF TREE.

Ludlow Pole's Peculiar Suicide 50 Feet From the Ground.

A skeleton of a man with a rope fastened in a noose around his neck was found Sunday afternoon hanging in the top of a pine tree, more than 50 feet from the ground, in a piece of woods near the end of State street in Ludlow and close to the location of the new railroad bridge being built across the Chicopee River. Medical Examiner E. A. Bates, who viewed the remains, is of the opinion that the man committed suicide by climbing into the tree and hanging himself there. The exposure to the weather had decayed the rope so that it had broken, but the body was still held in position in the treetop by the arm catching over a limb.

The skeleton was at first supposed to be that of August Cypik, a Pole, who was employed in the Ludlow Manufacturing Associates' mills in Ludlow until last July, when he left and had not been seen since. He told the foreman that he was going to Poland. However, others are of the opinion that the body is that of Michael Mastallish, who disappeared some 16 months ago. It was thought by a number at the time of his disappearance that he had possibly been run down by a train on Indian Leap bridge and had fallen into the river some 50 feet below. Correspondence will be started to locate Cypik in the old country, if possible, so as to make the identity sure.

The body was discovered by Oliver W. Miller and George Fuller, who were out for a walk. Mr. Miller noticed some object in the top of the tree, and climbed up to investigate. After his first sight of the object an investigation disclosed the gruesome nature of the find. Officer Hall E. Storer was notified, and he in turn sent word to Medical Examiner E A. Bates of Springfield. A number of persons gathered at the tree, and Louis Yotte and a man named Raymond climbed to the top and lowered the body. Medical Examiner Bates viewed the body and carefully examined the clothing, which was in reasonably good condition. There were about one dollar in money, a knife, a letter written in Polish, and a pay envelope of the Ludlow Manufacturing Associates in his pockets. The verdict of the medical examiner was suicide. The body was terribly shrunken and blackened by exposure, being little more than a skeleton in clothes. The skull, which had no protection, was entirely bare.

The body was taken in charge by Undertaker George Bordo of Ludlow, and Tuesday afternoon was buried in potter's field.

BASEBALL.

Monson Academy Schedule.

The Monson Academy baseball team will open the season with a game at Chicopee next Wednesday with the Chicopee high school team. HOW TO "SHOP."

A Plan for Free "Shopping" in Boston Carried on by The Boston Journal.

A plan absolutely unique in newspaper work is being carried on by The Boston Journal.

It is a plan for free shopping for Journal readers who are unable to come into the city in time to take advantage of the numerous bargain sales advertised in The Journal's columns.

The plan has proved a pronounced success.

The shopping plan has proved of particular benefit to invalids, as well as to those who are temporarily ill or otherwise hindered from coming to Boston on any day.

No charge or commission of any kind is made by the Journal. The work is done purely as a matter of assistance to Boston Journal readers in taking advantage of the offers made by the Journal advertisers.

As The Journal carries now the advertisements of practically all the Boston advertisers, its readers have an excellent opportunity for getting "bargains," carefully selected. The work of selection and purchase is done by The Journal's editor of its Woman's Page, Peggy Quincy.

WARREN.

Liquor License Applications.

The following liquor license applications have been filed with the selectmen: Innholders, first and fourth class—Linnehan and Mullen, in H. A. Ramsdell's block, Warren; Michael J. Shea & Co., Quaboag house, West Warren; Brosnahan & Keating, West Warren hotel; Fountain & Dufresne, Hotel Lafayette, West Warren; Downey and Method, Quaboag house, West Warren; Michael J. Hennebry & Co., West Warren hotel, and Gilbert Ponthriand, Hotel Lafayette, West Warren; common victualers, first and fourth class—William J. Teagan & Co., Miranda block, Chapel street, West Warren, and Michael J. Shea, Marcy block, corner North and Main streets, West Warren; druggist license, sixth class, Joseph G. Hastings.

The selectmen appointed Fred H. Sylvester superintendent of streets at a meeting Wednesday afternoon.

The trustees of the Warren Savings Bank have declared the usual 2 per cent semi-annual dividend on the deposits for the past six months.

A. A. Warriner met with a painful accident Saturday afternoon. While going from his house to the barn he fell and struck on his left arm in such a way as to dislocate his left elbow.

Mr. and Mrs. Wilson H. Fairbank left this week for Portland, Or., to be gone about six months. Mr. Fairbank has in charge Massachusetts interests at the Lewis and Clark exposition.

The selectmen met Monday and organized with the choice of C. L. Combs as chairman and clerk. The overseers of the poor have organized with James N. F. Quinlan chairman and S. N. Cutler clerk.

W. H. Fairbank has recently presented the public library with a plaster cast of Praxiteles "Boy and the Thorn." The cast, which is the work of August Gerber of Cologne, is an almost perfect imitation of the original bronze. Mr. Fairbank bought it from one of the collections at the St. Louis fair last fall.

LIFE WAS CRUSHED OUT.

Boston and Albany Brakeman Killed in Palmer Yard.

SLIPPED AND FELL BETWEEN CARS.

Was Not Run Over or Mangled. First Day He Had Worked on The Job.

Henry St. John, 35, a brakeman on the Boston and Albany railroad, was killed in the freight yard of the company in Palmer about 9.30 Wednesday morning. He was passing along the top of a train which was being switched, and in stepping from one car to another missed his footing and fell between the cars directly across the rail. Others who saw him fall called to the engineer to stop, and he did so at once, as the train was barely moving at the time. The body was not run over, but was so pinched by the wheel of the car that death was instantaneous; the only mark on the body was a small cut about an inch long on the right side. Medical Examiner Schneider viewed the body and gave a verdict of accidental death. St. John had been employed in Springfield but was sent to Palmer Wednesday, and was at work with Conductor Tilden on the switcher when the accident occurred. He leaves a widow, Agnes, also three brothers, Michael, Nelson and Louis, better known as Sam, and two sisters, Mrs. L. Brothers and Mrs. Joseph Bordeau. St. John was born in Holland, but had been living with his mother on Hog Hill. The funeral was held this morning from St. Anne's Catholic church in Three Rivers, with burial in the Thorndike cemetery.

WOMAN DEAD IN BARN.

Margaret O'Brien of Hampden, Missing Since March 18.

The body of Margaret O'Brien, a Hampden woman, who has been missing since March 18, was found Tuesday afternoon in a deserted barn on the road between Springfield and Hampden. Death was due to exhaustion, it being supposed that she wandered into the shed where she was found while mentally unbalanced, as she had for some time suffered greatly from rheumatism and extreme nervousness, and was very melancholy.

A brother of the dead woman, who had been searching for her for some time, found the body in a shed connected with a barn on the deserted Maher farm on the Hampden road, a mile and a half beyond the Redding Hotel. It was fully dressed and lying on the floor of the building. Her hat was at her feet, and her coat had been rolled up and placed under her head, indicating that she had deliberately laid down there, possibly to go to sleep. Miss O'Brien was last seen in Springfield on March 18, having an agreement to accompany her sister, who is employed in the Hotel Worthy, to their home in Hampden. She was 39 years old.

The body was removed to the undertaking rooms of Sampson & Sweeney in Springfield, where an autopsy was held, after which it was taken to the home of her parents on the East Longmeadow road, where funeral services were held yesterday morning, followed by services in St. Mary's church in Hampden.

LADIES OF COLUMBUS WORK.

List of Contributors to Catholic Cemetery Improvement Fund.

A very great improvement is to be noticed in the appearance of the old part of St. Thomas's Catholic cemetery on the road to Thorndike, and for this improvement the Ladies of Columbus are entitled to all credit. The cemetery has been in use for years, and many of the lot owners are living in other towns, while in some instances there are no living relatives to care for the lots. Under these conditions, with no organized or systematic method of caring for the grounds, there is little wonder that brush and undergrowth prevailed to a large extent.

The matter was brought to the attention of the Ladies of Columbus about a year ago, and they formulated plans for improving the cemetery. Not being able to work the ground themselves the next best thing was the raising of funds with which to hire it done. As the cemetery is used by Catholics in all the villages of the town, all parishes were invited to assist in the work. The result was the contribution of over $400, with which the grounds were cleared of brush, etc., and now presents a more sightly appearance than a year ago. The list of contributors to the fund follows:

St. Thomas's Parish—Rev W H Hart, $50; J F Foley, $10; Rev P J Carey, Charles Burns, E W Burns, J B Dawson, Mrs John Murphy, Michael Murphy, $5 each; W E McDonald, Dennis Mahoney, Edward Goodes, Julia Thompson, Mrs J T Ford, C M Foley, John Wagner, $2 each; $1 each, Mesdames Maria Kelley, J P Manning, C Leary, William Brown, Michael Barrett, Ivan Brouillette, Timothy Crimmins, Mary Dowd, Frank Duffy, John Fay, Nelson St. John, B A Wynn, Robert Harding, C P Tryon, Daniel Desmond, David Micott, George Miller, Charles Hinchey, M J Murphy, M Maloney, Michael Finnerty, Herbert Morgan, Sarah Moran, John E Doyle, Bridget Mack, Susan Gaffney, Thomas Roche, Dennis Mahoney; Misses Mary Mulvihill, Emma C Mulvihill, Margaret Collins, Bridget Dwyer, Minnie Mahern, Emma Feeney, Mary Shannon, Mary Desmond; Messrs Patrick Connor, John Hopkins, Jeremiah Bradley, Michael Shanley, T J Dwyer, J P O'Connor, Patrick Crowley, C D Harrington, Frank Connor, Jerry Sullivan, T J Conroy, John Maloney, J W Foley, F M Foley, D J Mahoney, Frank O'Rourke, Jerry O'Rourke, Daniel Ahearn, M J Daley, J J Daley, John E Doyle, Patrick Murphy, William Gaffney, James Heenehan, M J Dillon, D F Dillon, John Desmond, P E Bard, J J Todd, Horace Todd, J L Wilder, Thomas Roche, Frank Roche, James Donahue; 50 cents each, Mrs Daniel Connor, Miss K I McMahon, Mrs Peterson, Esther Collins, Mrs John Bradley, Mary Kinnevan, Mary Crimmins, Mrs Brouthers, Mrs Edward Burke, Mrs George Bennett; 25 cents each, Mrs C D Harrington, Robert Welch.

FRIDAY EVENING, APRIL 14, 1905.

ON THE WATER WAGON.

Although the town of Ludlow was carried for license at the annnal spring meeting, for the first time "within the memory of the oldest inhabitant," almost, the selectmen have decided that they will not give permission to sell intoxicants within the limits of the towns, and will endeavor to maintain the usual dry time. One of the applicants threatens to invoke legal aid in compelling the selectmen to grant licenses. When all is over, if the selectmen stand on the ground they have taken, he'll find himself just where he started—no licenses for anyone. In the event of a vote for license the law says that the officials may grant licenses, not shall.

WAITING.

The whole world is waiting with much interest for the naval battle which is expected to be fought at any time between the Russian and the Japanese fleets. On the outcome of this battle depends in a very large measure, the final result of the war. Should the Japanese win the Russians can have no more excuse for continuing the contest in which they have been continually worsted from the start; but should the Russians win they will have control of the sea and can easily cut off the Japanese army in Manchuria from aid from home, and that of course means annihilation. Authentic news of the battle—when it takes place—will be eagerly sought.

WHAT WE NEED.

One of the great needs of the town is a comprehensive set of by-laws concerning numerous matters which are now covered only by a town meeting vote, if covered at all. Such a vote carries no penalty, and there is no power of enforcement. The selectmen may coax, cajole and threaten as they like, where there is no possibility of a penalty there is likely to be little attention to the desired orders unless the person pleases. With the coming of spring comes an increased digging up of the streets for the repair of various pipes beneath the surface, and the putting back of the earth in some sort of manner, too often not of the best. The town has passed a vote that all such earth shall be returned by either tamping or puddling, but very little of either is done. Excavations have been made recently and the earth returned without either tamping or puddling, or any pretense of it. The appointment of a committee to draft a set of by-laws for the town, covering the many things which need supervision of some sort, and providing penalties for their violation, is one of the things which the town badly needs.

ANOTHER NEW RULE.

There is not a newspaper published which does not receive in one form or another, innumerable requests for free advertising, and no paper receives more of these than the local weeklies, or half so many, in fact. Particularly is this true of local organizations which give entertainments of various sorts. As a rule these expect the local paper to give unlimited space to the announcement of the attractions without charge. "Why, it's news, isn't it; and you don't charge for news, do you?" is the reply if a charge is suggested.

A newspaper is a business proposition, with paper, type, ink and machinery to buy and employes to pay, and with advertising space for sale. It has space for news matters also, but there is a line which should be drawn between news and advertising. A long notice of an entertainment or supper for some church or other society is asked for so that the attention of the public will be drawn and they will attend; this is in the nature of advertising, just as much as space in the advertising columns or posters on a billboard, and there is no reason why it should not be paid for. And it is the very best of advertising, for it is placed with other reading matter where it is sure to be read. The Journal has not, in the past, been in the habit of charging for items of this sort, but after this week will institute the following rule: Concerning entertainments, suppers, etc., where an admission fee is charged, a news mention will be made as usual, but additional space will be charged for at the nominal rate of 10 cents per line. In adopting this rule the Journal is falling into line with the great majority of the weekly papers of the state, and the publishers believe that the new arrangement will be equitable to all concerned.

TO BE HOPED.

The proposition to locate the small hose "jumper" on or as near Main street as possible is a move in the right direction, and it will be the desire of every merchant on the street that this be accomplished if possible. The wishes of the merchants were plainly shown in the fire district meeting, and the prudential committee may safely be trusted to follow out that idea if they can make reasonable arrangements.

THE members of the Massachusetts Press Association held their quarterly meeting at the United States Hotel in Boston Monday, and after the business meeting paid a visit to the plant of the Edison Electric Illuminating Company, on invitation. The party was taken from the hotel to the new station of the company on the harbor in a large electric automobile and several smaller machines. On arrival an appetizing lunch was served, after which a tour of inspection was begun. This plant of the Edison company is the largest and most complete in the world, and is being rapidly extended to meet the growing demands for light and power. A very large section is served, wires running out to nearly all large towns within a radius of 18 miles. The party was divided into groups of half a dozen each, each in charge of a competent official of the company as guide and instructor. The immense plant was inspected from one end to the other and much was learned regarding electricity and its uses. A second power house was also visited, after which the party was taken to the demonstrating room in the heart of the city, where electrical machines of all kinds and for almost every conceivable use were shown. The afternoon was most pleasantly and profitably spent, and a hearty vote of thanks was passed before the party broke up.

THE Sunday papers are up against it. Third Assistant Postmaster-General Madden has ruled that all calendars, sheet music, patterns, animal cut-outs, etc., which many of the big dailies have been sending out with their Sunday editions, are no part of a legitimate newspaper and are not to be considered news, and after September first such matter will not be entitled to the low rate of postage which newspapers are accorded, but will have to pay the rate for their proper class of mail matter.

PALMER NEWS.

The "Shepherd King" in Springfield.

Theatregoers of this section will be given an unusual opportunity next week in the appearance at the Court Square Theatre in Springfield of Wright Lorimer in "The Shepherd King." Performances will be given every evening, and Wednesday and Saturday matinees. The seat prices range from $1.50 to 25 cents, with all down stairs seats $1 at the Wednesday matinee. "The Shepherd King" is a powerful romantic drama based on the Biblical story of David, and although a Biblical play it does not contain a suspicion of irreverence, which is sometimes to be feared in plays of this origin. The part of David is powerfully taken by Mr. Lorimer, who has received nothing but praise for his interpretation of the part from everyone in every place where he has appeared. Long runs in New York, Boston and other large cities attest the drawing powers of the piece and the completeness of the cast, which numbers 200 people.

Honors for Former Palmer Boy.

Many of the older residents of Palmer will remember the present Judge Loren W. Collins of Minneapolis, Minn., as a former Palmer boy, a brother of Mrs. Packard Trumble of Palmer Center. Judge Collins has made a name and fame for himself in the West, and has recently been appointed president of a board appointed by the insurance commissioner of Minnesota to manage the affairs of the Northwestern Life Insurance Company, which had become somewhat mixed. Mr. Collins was district attorney for Stearns county for ten years, being appointed judge of the seventh judicial district in 1883, and in 1887 was appointed to the supreme bench to fill a vacancy caused by the death of Judge Berry; he was elected to the position in 1888, and again in 1894 and in 1900.

Needless Fire Alarm.

An alarm was pulled in from box 72, at Blanchardville, at 5.45 Monday morning for a small blaze in the dead grass back of the Daniel Haley house. A passing teamster saw the fire and pulled in an alarm, when he might have easily put the fire out by stamping it out, as the grass was too short to give the flames anything of account to feed upon. There was no fire when the firemen arrived.

James S. Barron, President Manchester Cotton Mills, Rock Hill, S. C., writes "In 1883 I painted my residence with L. & M. It looks better than a great many houses painted three years ago.

Don't pay $1.50 a gallon for linseed oil, which you do in ready-for-use paint.

Buy oil fresh from the barrel at 60 cents per gallon, and mix it with Longman & Martinez L. & M. Paint.

It makes paint cost about $1.20 per gallon.

To Buy New Hose Wagon.

[CONTINUED FROM FIRST PAGE.]

judged by its record of the past 20 years, during which time the fire of March 21 was the only one at which there was not plenty of water. Regarding the criticism that the pipe had not been repaired as quickly as possible, he drew a vivid picture of the absolutely helpless condition of the wire mill district had the pipe been cut for repairs and not been mended at the time of the fire, and called attention to the fact that as managed there was water, even if a little late in getting there. The numerous flooded cellars and washouts of the electric car tracks which would have resulted had the water been left on the leaky main all night was graphically set forth, but the picture lost its brightness when Mr. Dillon was informed that the break was next a side hill down which the water would have run to the river, and that with four feet of frost in the ground there was not much danger of car tracks being washed away. He was also informed that the water *had* been left on all night after the fire, and that there was no water in the hole made for the repairs when morning came. Messrs. Chandler and Hobson spoke in criticism of the company and its methods, the former making a statement of the condition of the "Snow fire" break as it is called, which was made to him by Manager Gamwell of the water company, in which he told of only two men being employed in digging up the main after the break, of leaving the job at 5 p. m. until morning, and the possibility of leaving the water on all night except that they would have had to "pump out the ditch in the morning."

Mr. Hobson called attention of the voters to their absolute helplessness in getting money from the water company after it had once been paid them. There was no way of collecting damages for failure to fulfil the terms of its contract, but that if payments were withheld for this reason and the failure could be proved there was probably not a court in the country which would compel its payment even if sued for, which would be extremely unlikely.

The company's attitude in the matter of digging up the streets and general method of making repairs was also commented upon in a manner not exactly complimentary, and there was a general airing of opinions on various matters before the polls were declared closed and the result of the balloting announced. These officers were elected, there being no opposition: Chief Engineer, G. A. Bills; first assistant, C. E. Fuller; second assistant, E. B. Taylor; prudential committee, R. B. Francis, A. J. Purinton, Colin Oakes. These appropriations were made: Hose wagon and swing harness, $750; fire patrol, $250; firemen, $400; contingencies, $250; janitor, $96; coal, $40; steamer engineer, $50; stoker, $20; chief engineer, $150; 1st assistant, $25; second assistant, $20; clerk and treasurer, $30; treasurer's bond, $10; clerk of steamer company, $10; total, $3301. The balance in the treasury, $386, was appropriated to reduce the amount to be raised by taxation.

The prudential committee has organized with the choice of Mr. Purinton chairman and Mr. Francis clerk.

Rheumatic Pains Quickly Relieved.

The excruciating pains characteristic of rheumatism and sciatica are quickly relieved by applying Chamberlain's Pain Balm. BROUGHT TO LIGHT.

Palmer People Receiving The Full Benefit.

There have been many cases like the following in Palmer. Everyone relates the experience of people we know. These plain, straightforward statements will do much toward relieving the suffering of thousands. Such testimony will be read with interest by many people.

Mr. Charles C. Hamilton of Palmer Center says:—"I gave for publication in April, '98, a testimonial about Doan's Kidney Pills after I had used them and after they had done me considerable good. I can only state to-day that I have as much faith in them as I had at that time. When I commenced their use I had severe pain through my back and almost any movement caused it to ache more severely. I suffered from headache in the front and in the top of my head caused, the doctor told me, by overexertion on the wheel. I got Doan's Kidney Pills at LeGro's drug store and they gave me prompt relief. The aching left my back and I was freed from the headaches. I can re-endorse and recommend Doan's Kidney Pills most emphatically."

For sale by all dealers, price 50 cents per box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name—**Doan's**—and take no substitute.

About Rheumatism.

There are few diseases that inflict more torture than rheumatism and there is probably no disease for which such a varied and useless lot of remedies have been suggested. To say that it can be cured is, therefore, a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by its use. Why suffer when Pain Balm affords such quick relief and costs but a trifle? FOR AR SAKE....

By IZOLA MERRI ED

Copyright, 1904, by Izola Merrifield

It was nobody's fault but her own. Whenever trouble came a-knocking at Philippa's door all kind friends raised hands of innocence to the skies and declared thankfully that it was nobody's fault but her own.

"He had no earthly right to raise his hat and smile when I met him in the elevator."

"He had every right in the world," contradicted Elizabeth calmly. "If I had been in his place I should have come right down and called on you after you had acted like a lovelorn lunatic, Pippa."

"It was not lunacy. It was inspiration," Philippa half turned from the piano to argue. "You weren't in the studio at the time, Beth, and you don't know a blessed thing about it. I wasn't even practicing. I was cleaning up."

Elizabeth smiled. She had seen Philippa's cleaning up process. It meant the hustling of everything disorderly out of sight, under the divan, behind the wardrobe, anywhere at all, so long as it was unseen.

"And he sang my pet duet from 'Il Trovatore.' Beth, it was splendid. You poor, old heathen, you don't appreciate music a bit. All you can understand are a few oily, dauby daubs or a pen and ink sketch, but if you had only heard him"—

"If I had heard him I don't think that I should have flown to the window and warbled back an answer up a New York air shaft."

"I don't care." Philippa's tone was lofty and her attitude belligerent. "I *didn't care a rap about him personally, and I hadn't the slightest idea what he* looked like, but the voice was divine. It was the voice of Manrico calling, and Leonora answered it for art's sake."

"Well, Leonora had better attend to her cleaning up and mind her own business. Now, she hasn't any cause for complaint at all, because Manrico raises his hat to her in the elevator and says 'Howdy?' in neighborly fashion. Are you sure it was Manrico?"

"Oh, yes. He looks it," Philippa spoke, with vague enthusiasm. "And Lafayette says that he is the new one in the studio over ours."

"Well, you had better send Lafayette a little printed slip to post up in his elevator:

" 'Students may sing grand opera duets through the air shaft, but any promiscuous greetings in elevator will be followed by eviction.' "

"I suppose the poor fellow was so amazed and delighted when he saw how completely I fulfilled his ideal of Leonora that he lost his presence of mind." Philippa could be as sweetly, simply and contentedly vain as Narcissus among the water lilies.

"Presence of mind is never lost." Elizabeth added a high light daintily to the left eye of an Italian fruit vender on the canvas before her. "It is mislaid. As long as he didn't lose his heart he needn't worry."

Philippa laughed and ran her fingers teasingly over the piano keys.

"I think he is worrying," she said.

But there were no more duets through the air shaft. If the occupant of studio 5, on the third floor, happened to be practicing her trills and quavers the occupant of studio 17, on the fourth floor, sat by his open window and listened, and when a full, rich tenor floated down from studio 17 Philippa would tiptoe to the window and listen also and be glad and proud in a way, because somewhere in the golden tomorrows of hope success lay snugly and surely tucked away for the tall, brown eyed boy who dared to greet Leonora in the elevator.

He had "dared" only once. Long after even Elizabeth deigned to bow a comradely good day to him Philippa passed on her own way, a slim, arrogant, blond young person in gray velvet and squirrel furs. Elizabeth preserved a graceful posture on the neutral fence. Warring factions were not in her line, but when she was sending out invitations for the monthly Dutch picnic in studio 5 she did not think it amiss to send one up to studio 17.

Philippa was passing club sandwiches when Bobbie Clarkson introduced her to the tall, brown eyed boy. She did not drop the tray. She merely smiled most graciously and asked if Mr. Eliot liked club sandwiches made of a celestial combination of chicken salad, chopped almonds, olives, deviled ham and tabasco sauce.

It appeared that Mr. Eliot did. In fact, he paced after the dispenser of celestial sandwiches all around the studio in a deliberate, determined, man overboard fashion, most disconcerting to the dispenser, until he finally cornered her in the Japanese alcove and forcibly finished up the remaining sandwiches himself.

"And he never even said a word about the duet," Philippa answered later when she sat, like a Hindoo idol, in a pink kimono on the bed and thoughtfully reviewed the evening. "He's a gentleman and a scholar, and Bobbie says he's all right; solid, old Maryland family and all that sort of thing; first name's Marbury—Marbury Eliot. He has only been in New York a couple of months, and he doesn't like it very well. He thinks it's lonesome. He says we're conservative and clannish."

"There's a good remedy. Tell him to be a clam unto himself."

Philippa shied a pillow at the scoffer.

"Goose!" she said. "Can't you see? He wants to belong to my clan. I'm going to the Czarga concert with him tomorrow."

"See? Of course I see," quoth Elizabeth. "One Philippa Yates, founder of the Society For the Prevention of Lonesomeness to Strangers in New York, providing said strangers are gentlemen and scholars, from solid old families, and can sing duets and eat

es for art's sake. I see

hilippa only smiled and was si- it had been a most entertaining interesting twenty minutes spent in the Japanese corner. One's point of view on life in general may alter considerably even in twenty minutes.

It was two weeks after the Czarga concert. Philippa came out of the Metropolitan Opera House as E swung up Broadway. It had begun to snow at sundown, and there was the lull in traffic that comes on the great white way between dinner time and the hour when the curtain rises. She was tucking a couple of 'Il Trovatore' tickets into her hand bag when he greeted her.

"They're for Beth and me," she told him happily. "We live on strawberry jam and crackers when the opera is in full blast. Do you know I never go there but I wonder when my turn will come, don't you?"

He did not answer her directly. They had crossed to the Sixth avenue elevated and were walking along beside Bryant park to the station before he spoke to her.

"I am going home this week to spend Christmas with my mother in Maryland, and before I go"—

A vagrant wind swept down upon them, and Philippa bent her head sideways to avoid its sting. As she did so her eyes met his in one swift glance. She was not smiling now. Her face was aglow with a curious, half frightened expectancy.

"Let's hurry," she said. "It's so cold."

He stopped short where only an audience of sleepy cab horses could listen.

"Before I go I want to know if I may tell her that next year you will go home with me."

Cab horses are very discreet. They did not even hear the answer.

"But it won't happen until next Christmas, of course," Philippa explained over a cup of Ceylon in the studio that evening.

"Until Manrico has won fame and fortune singing to his ladylove at the Metropolitan?" asked Elizabeth.

Philippa stirred in another lump of sugar demurely.

"Oh, Marbury doesn't sing at all, Beth," she said. "That was his roommate, Grahame Moore, who sang the duet with me. Marbury is an artist."

And Elizabeth, after one long look of enlightenment, smiled in fashion wise.

"For art's sake," she said severely. "Fudge!"

WHY CAL-CURA?

A Word Coming Into Every-Day Use All Over the Land.

Why should an article in popular demand be called Cal-cura, when the word is so hard to remember? This question is often asked. Reflect a moment. Calculi is the medical word to designate stones in the kidneys and bladder, calculi being the Latin word for stones. The first syllable of Cal-cura is, therefore, derived from and suggestive of Calculi. Cura, of course, suggests cure. There you have it. CAL-CURA, a cure for stones in the bladder or kidneys. How does Cal-cura cure? It slowly dissolves the foreign matter, so that it is passed off painlessly, without danger and without a painful surgical operation.

Therefore, Cal-cura Solvent, the full name of this greatest medical discovery of the age, exactly defines what the medicine does and how it does it. It goes to the cause of disease, removes it, and the cure is lasting. At the same time it tones up the whole system, regulates the bowels, purifies and enriches the blood, and strengthens the nerves. All this is necessary, for a serious disease of one great vital organ always involves others. Cal-cura Solvent was discovered by the well-known Dr. David Kennedy, and it has cured thousands. Write to the Cal-cura Co., Kennedy Row, Kingston, N. Y., for a free sample and booklet (Home Guide). Large bottles $1, at all druggists.

Debility

Catarrh is clearly the cause of debility. No person free of catarrh in my opinion was ever troubled with debility. So you will readily understand that the cure of debility depends entirely on the cleaning out of the catarrhal parasites. No debility cure will ever cure you as long as you have catarrh. Catarrh is the cause. Debility is the result. Then get rid of the cause. No remedy will every cure you but a catarrh remedy, and no other remedy will do it but Rexall Mucu-Tone. I make this statement because I know what Mucu-Tone is and what it will do—and doesn't it stand to reason that a remedy designed for one particular purpose—as Mucu-Tone for catarrh only—is going to give results a hundred times better than a cure-all that aims at every disease in the dictionary?

Then I back up our statement with the broad and liberal guarantee that if Mucu-Tone fails to give you any relief we refund the price you pay me. I can afford to make this statement because we know Mucu-Tone will positively cure you, since Mucu-Tone acts entirely different to any other remedy we know of and we think I know them all. Mucu-Tone acts in a scientific way by first of all destroying the deadly catarrhal germs—ridding the system of every trace. Then as the very name—Mucu-Tone—implies, it tones up the mucous tissues, the tissues on which the catarrhal parasites live. Then there is a chance to get well. No other remedy but Rexall Mucu-Tone will do it. Get Mucu-Tone. It destroys every trace of the germs of catarrh. It heals and soothes the tissues. It tones up the entire system. I have a large trial size for fifty cents that I guarantee to give results. I want you to try a bottle on my personal recommendation.

Or Vegetable Pain Reliever

was introduced to the public in 1848, since which time thousands of bottles have been sold each year to an appreciative public, which is a good evidence of its merits. It is adapted to so many ailments it should be in every household, for it cures all kinds of pains both internal and external. For Bronchial affections it is unrivaled by any article in the market. It is a sure cure for Cholera Morbus and Dysentery, if taken in season, also for Coughs. It is an effective remedy for rheumatic affections, stiff joints, swelled limbs, sprains, cramps, toothache and many other ills to which the flesh is heir. Try it and it will do you good It is sold at 25c, 50c and $1.00 per bottle by The Quimby Pharmacy, LeGro's Drug Store and the proprietor,

FIFTY CENTS

IN some conditions the gain from the use of Scott's Emulsion is very rapid. For this reason we put up a fifty-cent size, which is enough for an ordinary cough or cold or useful as a trial for babies and children. In other conditions the gain is slower—health cannot be built up in a day. In such cases Scott's Emulsion must be taken as nourishment; a food rather than a medicine. It's a food for tired and weak digestions.

TO THE HONORABLE JUSTICES OF THE SUPERIOR COURT, holden at Springfield, within and for the County of Hampden, humbly shows Edith A. Pierce of Wales, County of Hampden and Commonwealth of Massachusetts that she was lawfully married to James A. Pierce of Cranston, R. I., now of parts unknown, at North Attleboro, Mass., on the nineteenth day of February, A. D. 1899, that they have since lived together as husband and wife in said Cranston, R. I., and Uxbridge, Mass. and she has ever conducted towards him as a faithful, chaste, and affectionate wife, yet the said Libellee regardless of his marriage vows and obligations on the ninth day of August, A. D. 1902 deserted her and at the present time his whereabouts and residence is unknown to the Libellant and that said Libellee being of sufficient ability, grossly or wantonly and cruelly refused and neglected to provide suitable maintenance for her which neglect exists to the present time, and at Uxbridge on or about the first day of July, A. D. 1901 and on divers other days and times was guilty of cruel and abusive treatment towards your libellant; and has contracted gross and confirmed habits of intoxication caused by the voluntary and excessive use of intoxicating liquor, opium or other drugs.

Wherefore she prays that the bonds of matrimony heretofore existing between her and the said James A. Pierce may be dissolved, and that she may resume her maiden name Edith A. Paige and for such further orders and decrees in the premises as to law and justice may appertain.

Dated the eighth day of February, 1904.

TOWN OF PALMER.
ASSESSORS' NOTICE.

To the Inhabitants and other Persons liable to pay taxes in the town of Palmer for the year 1905.

The Assessors of the Town of Palmer hereby give notice to the inhabitants of said town, and all other persons liable to pay taxes therein, that they will receive at the Town House on Monday, the first day of May next, from 10 o'clock a. m. until 4 o'clock p. m., the valuation of estates, and all persons liable to be taxed in said town are hereby notified to bring in to us true and perfect lists of all polls (males twenty years old and upwards), and schedules and estimates of the Personal and Real Estates for which they are liable to pay taxes in said town, possessed by them on the first day of May next.

MORTGAGED REAL ESTATE.

Any Mortgagor or Mortgagee of Real Estate situated within this town may bring in to the undersigned Assessors, within the time above specified, a statement under oath, of the amount due on each separate lot or parcel of such Real Estate, and the name and residence of every holder of an interest as a Mortgagor or Mortgagee therein. When only a part of the property described in any mortgage is situated within this town, an estimate of the amount of a Mortgagee's interest in such part; or when a recorded mortgage includes for one sum two or more estates or parts of an estate, an estimate of the amount of the Mortgagee's interest in each estate or part of an estate shall be given in such statement.—Chapter 175 of the Acts of 1882.

CHAPTER ELEVEN OF THE PUBLIC STATUTES.

SECTION 14 "When any person has an interest in taxable real estate as holder of a duly recorded mortgage, given to secure the payment of money, the amount of which is fixed and certain, the amount of his interest as Mortgagee shall be assessed as Real Estate in the place where the land lies; and the Mortgagor shall be assessed only for the value of said Real Estate after deducting the assessed value of all such Mortgagee's interest therein. When such property is situated in two or more places, the amount of the Mortgagee's interest to be assessed in each place shall be proportioned to the assessed value in the respective places of the mortgaged Real Estate, deducting therefrom the taxable amount of prior mortgages, if any therein."

SECTION 15. "If any holder of such a mortgage fails to file in the Assessors' office a statement under oath of all his estate liable to taxation under the preceding section, including a statement of the full amount remaining unpaid upon such a mortgage and of his interest therein, the amount stated in the mortgage shall be conclusive as to the extent of such interest; but the Mortgagee's interest in such real estate shall not be assessed at a greater sum than the fair cash valuation of the land and structures thereon or affixed thereto; and the amount of a mortgage interest in an estate that has been divided after the creation of such mortgage shall not be required to be apportioned upon the several parts of such estate except as provided in sections eighty-one to eighty-three inclusively."

SECTION 16. "Mortgagors and Mortgagees referred to in the two preceding sections shall, for the purpose of taxation, be deemed joint owners until the mortgagee takes possession; and until such possession is taken by the first Mortgagee, the Assessor or the Collector of Taxes, upon application to any one of them, shall give to any such Mortgagee or Mortgagor a tax bill showing the whole tax on the mortgaged estate and the amount included in the valuation thereof as the interests of each Mortgagee and of the Mortgagor respectively. If the first Mortgagee is in possession he shall be deemed joint owner with prior mortgagees."

When a statement in conformity to the law above quoted is brought in, the Real Estate therein returned will be assessed under Sections 14, 15 and 16 of Chapter Eleven of the Public Statutes. But in cases where the Mortgagor of the Real Estate has agreed in writing to pay all taxes assessed thereon, no statement or return is required from either Mortgagee or Mortgagor, unless requested by the Assessors in writing 2-3

Our Legislative Letter

BOSTON, MARCH 12, 1905.

One of the consequences of the defeat of the overtime bill by the Senate, after it had passed the House, will be an organized effort to defeat for reëlection the senators who compassed the defeat of the bill. This statement is made by one of the Republican labor leaders of the House, who is much disappointed at the failure of the bill to pass. He believes that the incident will help Gov. Douglas, for it is generally understood that the bill would have become law if it had passed the Senate. There seems to be especial feeling against Senator Moseley of Hampden for his vote against the bill after his effort to secure the labor vote last fall. It is a story at the state house that he went into mills during the campaign and was very glad to make the acquaintance of the working men. There is current here this week this conundrum: "Why is Senator Moseley immune against spotted fever?" And the answer is that it attacks only the spinal column. But this proposed movement is expected to cover the senators generally who voted against the bill. The labor men feel that they defeated Gov Bates largely because of his veto of this bill last year They carried the bill through the House by a large majority and now it fails in the Senate by the vote of 13 to 19 on one stage and by 13 to 14 on reconsidering its rejection. Hence it is inevitable that it should become a political issue.

Gov Douglas continues to keep clear of political mistakes, not making account yet of what will develop out of the Boston police commissionership. He is in close touch with the Legislature. He is not trying to make capital by writing vetoes, and he dispatches promptly the business which is sent to him. The other day he had a bill recalled by the Senate in order to save it from a veto and he gets along harmoniously still with the Republican leaders. He seems to give satisfaction, and that is the test.

No reason can be seen to doubt that he will be a candidate for reëlection. No politician wants to die a yearling in any office. The Democrats have not another man in sight whom they could nominate with half the prospect of success and the Douglas support would, of course, never consent to be turned down under present conditions. What will be the outcome of the contest in the Democratic state committee is not evident, but it seems to be due in chief part to Gaston's determination to control the party machinery for the benefit of himself and his friends. But, since the capitalist end of the democracy is extremely low, compared with the total vote which elected Douglas, it is a fair question how much the party would gain by ignoring Gaston altogether, telling him that he could come in or stay out, as he pleases, and cutting the democracy free from this prolific source of trouble.

Regarding the statement made to me last week by an official that $87,000 had been used out of the proceeds of long time bonds for the payment of such current expenses as concrete walks, new boilers, painting and so on, it was not said that this incident occurred during the Bates administration, but only that such proceeds had been so used, and the remark was made apropos of the governor's criticism that current expenses were not met from current revenue. There is sufficient reason now for saying that this payment did not occur under the Bates administration. The force of the criticism is admitted, but it is excused because the total was such a small proportion to the total payment which had to be made for public institutions at the time.

A popular reform which is moving slowly is that of direct nominations. Representative Luce of Somerville has done his best this session to carry through a bill which would do away with nearly all of the nominating conventions and put the nomination of candidates in the hands of the voters at the primaries. So many offices were included in his bill that it was exposed to attack from different sides. He was willing to concede some features for the sake of partial success and so threw overboard the senatorial and representative conventions from the bill. There was in some quarters a feeling that county conventions ought to be abolished in any event, because so many county conventions are run by what is currently believed to be a county ring. But the bill, as a whole, was refused a third reading by a tie vote, and when Luce tried to get reconsideration next day he was defeated again by a tie vote. Such a coincidence cannot be recalled in the history of the Legislature. The vote, in each case, was large. The reconsideration would have been carried if Mr. Wheatley of Abington had not changed sides over night and concluded that the people are so sick of tinkering with the election laws that they prefer that they should be let alone.

We seem to be in for another hot time over the soldiers' bounty bill. It will be recalled that this was passed by the Legislature last year, vetoed by Gov. Bates, passed over the veto and then declared by the supreme court to be unconstitutional. This was a great feature of the fall campaign. Now, in order to avoid the danger of unconstitutionality, the word bounty is not used, but the money is to be given to each unbountied living soldier and sailor of the civil war "as a testimonial of the sense which the Commonwealth entertains of his patriotism and faithful service." While it is impossible to say yet what the Legislature will do with the bill, it is a pretty safe guess that Treasurer Chapin will not take any chances, supposing that it should pass, of paying out money on an unconstitutional bill. It is to be expected that he will follow the precedent set by Treasurer Bradford last summer and positively decline to pay out any money under such an act until the issue of constitutionality had been settled. In Chapin's case he has fully as much reason for caution as Bradford had, because the decision of the supreme court is so recent that a bill to do exactly the same thing under another name was unconstitutional.

Gypsy moth legislation still halts and it is understood that for this season the infested district must rely upon its own exertions for relief. The proposed appropriation of $600,000 which came from the committee on agriculture has been cut down to $300,000 by the joint committee on ways and means, and $10,000 is put on for parasites, just to satisfy the insistent Brookline element in the controversy, which is sure that nature will hold down the pest if we give her a chance. The plan is to appoint a state superintendent of the work, give him large authority, let him work with the cities and towns and private owners, and put upon them a material part of the expense, spend $75,000 this year, $150 000 in 1906 and $75,000 up to May 1, 1907, thus leaving it to the Legislature of 1907 to handle the case from that point. The matter is still in committee and there is no hurry now that they have decided to do nothing by the state before the eggs hatch this spring.

It looks as if there would be a brisk debate upon the bill to allow steam roads to buy up electric ones. The state board of trade has taken up arms against the bill because it permits great stock watering and a contest between capital and the people is to be expected. This will tend to cut down the hopes of an unusually early prorogation.

It has been a warm contest over the three per cent cider bill. It was put into such shape in the Senate as to alter it altogether from its original form and it makes it possible to sell freely anywhere cider with 3 per cent in weight of alcohol, which means about 3¾ per cent by volume. The friends of cider of that strength have carried the House against the temperance people and the farmers. Mr. Potter of Worcester led the final desperate effort to defeat the bill by striking out the enacting clause, but that failed also. This bill constitutes a remarkable exception to the course of legislation here for 20 or 25 years, for the rule is that any bill which is opposed by the temperance people, united, is defeated, while anything they want is carried. The fate of the midnight liquor bill and of the effort to amend the abuttor's objection law illustrate the general rule. If this bill gets upon the books, it will not be a rash prediction to say that it will not stay there more than one year, or just long enough for the next Legislature to get at it.

If the Lincoln's birthday bill becomes a law, which the House favored this afternoon, as it probably will, then the governor must issue his proclamation every year for the observance of the day, but the day will not be a legal holiday. The feeling is that the day comes too close to February 22, when Washington was born.

The House has acted favorably upon the Senate bill to require a license fee of $15 for unnaturalized foreign-born persons who wish to hunt. This is aimed at the Italians, Portugese and others who are shooting robins, orioles and other song *birds for their tables.* LANDON.

PULL A HAIR FROM YOUR HEAD
If the root is pink and full your hair is healthy.
If the root is white and shrunken the hair is diseased.

REXALL "93" HAIR TONIC.

Pull a hair from your head—if it is plump and rosy it is healthy, but if it is white and shrunken it is certainly diseased—and diseased hair is the short road to a bald head. Few people can afford a bald head, for a bald head is a serious handicap. In these days when youth is a moving factor, when a man has to make his mark at thirty-five or be dubbed a "has been"—when business houses pension the men we used to call "middle aged," rather than allow their lagging influence to intrude upon the modern rush—you will certainly believe me in saying a bald head is a serious handicap. Few people can afford a bald head. Even those who can. Those who are "fixed" socially, financially and matrimonially have no desire for bald heads. But whether we can afford it or not thousands of us are bald, either partially or wholly. What caused the baldness, whether an inherited tendency, undue mental effort, sickness, dandruff or other scalp disease, makes no difference. What we want is to grow new hair.

Millions of dollars have been spent in vain efforts to grow hair on bald heads. Other millions have been spent in an effort to restore faded hair to its natural shade, and still others to banish dandruff. Still hair refused to grow; lost tints of brown, blond and auburn failed to return, and dandruff declined to disappear.

All this, however, is of the past. Failures have given place to success. A real hair restorative has at last been found.

Rexall "93" Hair Tonic is a positive cure for all hair and scalp troubles. It is not sticky nor gummy, will not thicken on the hair, does not become rancid, has no disagreeable odor. It is clean, agreeable and pleasant to use.

It is a hairdressing of the highest order, and when a purchaser considers that I take all the risk in making such strong statements, is there any risk in giving it a trial? I want you to try on my personal recommendation one bottle of Rexall "93" Hair Tonic. I will sell it to you on the broad and liberal Rexall guarantee of "Your money back if you are in any way dissatisfied." I do this of a desire to sell my customers just the remedies that give them value for their money. All I ask is the return of the empty bottle. Price, fifty cents a bottle.

Rexall "93" Shampoo

A fragrantly perfumed toilet preparation that will make the scalp cleaner than any other shampoo—and keep it clean—is put up in large capped jars, twenty-five cents each. Guaranteed too.

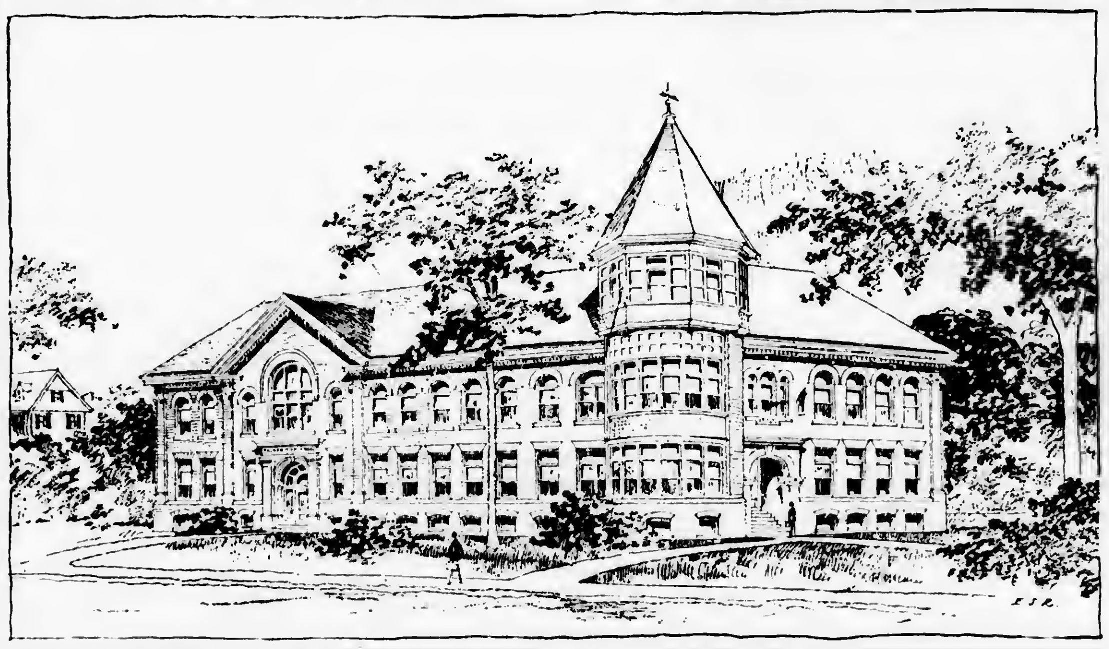
THE NEW HIGH SCHOOL.

How the Building Will Look When Completed.

PRESENT AND NEW PLANS SHOWN

A Handsome Structure, With Ample Assembly Hall, Recitation Rooms, Etc.

Although the contract for the addition to the Palmer high school building has not yet been awarded—in fact the specifications are not yet complete—the Journal is able to give the voters an accurate idea of the appearance and arrangement of the new structure by making use of the architect's sketch, which was submitted to the committee.



For a better understanding of the extent and importance of the changes both the old and the new arrangement is given in the floor plans below. The dotted lines represent the present building, and the blacker lines the structure as it will be after the addition is finished. There are in the present building only two rooms of any size on the ground floor, a recitation room at the left of the hall and the physical laboratory on the right. At the direct right of the entrance is a small room, which was formerly used for the storage of books which is now made to answer for the smaller classes during recitations. On the second floor, besides the assembly hall the only room is that in the tower, small and inconvenient. The proposed addition will give on the ground floor ample physical and chemical laboratories, three class rooms and a recitation room, in addition to the necessary coat rooms, etc. A principal's room is provided half way up the stairs to the second floor, and a room for the teachers is to be found directly above. The second floor will have an assembly hall 61 by 47 feet, which is expected to be large enough to accommodate all pupils for a number of years, reckoning the increase at the same rate as that of recent years. A drawing room, which has been much needed in the past, is to be provided on this floor, with ample light, and there will be another room—over the chemical laboratory—for any need which may arise.

Externally the building will be a much handsomer structure than the one which has done good service for so many years. The present building stands with its front parallel with Park street but with its Thorndike street side at a considerable angle with the street. The new building will parallel both streets, and will be one which will be a decided addition to the architecture of the village.

WARE MAN BURNED TO DEATH.

In Wood Chopper's Shanty Saturday Night in Town of Otis.

George McMahon, 28, of Westfield, formerly of Ware, was burned to death Saturday night in a shanty in Otis near the Chester line. In company with three other men, McMahon went to the shanty occupied by an Italian known as "Johnny George," after a dance. After drinking some cider a fire was built and they prepared for a feast. Eggs were boiled and all ate heartily. After awhile McMahon, Barrett and "Johnny George" lay down and went to sleep, while the fourth man, Frank Farnham, acted as fireman, sitting in a chair. The first thing to attract his attention was the falling in of the roof, and the shanty was then all ablaze. He grabbed hold of "Johnny George," who was near the door, and awakened him, and the two escaped unharmed. The two other men, McMahon and Barrett, perished in the flames, their bodies being burned to a crisp.

McMahon was brought up in Ware, but of late had lived in Westfield with his brother, and had been employed in the Foster machine shop. He leaves his father, James McMahon of Ware, five brothers, Michael of Worcester, John of Westfield, Patrick of Wheelwright, in Hardwick, Frank of Hartford, Ct., and Walter of Ware, and a sister, Annie of Ware. The body was taken to Ware, where the funeral was held Tuesday morning in All Saints' church.

BELCHERTOWN STATION BURNED.

Good Riddance to an Inconvenient and Unsanitary Structure.

The Boston and Maine railway station at Belchertown was totally destroyed by fire shortly after 1 o'clock Tuesday morning. It is believed that the fire was set by a spark from the freight train which goes through between 12 and 1. When discovered, one end of the building was a mass of flames. The local fire department responded to the alarm, but the fire had gained too much headway to prevent total destruction of the station. The station was a wooden building about 25 by 60 feet, which had been in use many years. Its destruction does not occasion much regret in Belchertown, as the building was not only inconvenient and unsightly, but unsanitary, and the board of trade of that town had only Monday evening appointed a committee to see about improving conditions in the building. The books and tickets in the ticket office were saved, but there was some freight burned, mostly transfer freight.

Sunday School Workers Institute at Monson.

Monson is fortunate in securing the Sunday School Workers' institute, which is to be held in the Congregational church, Saturday, April 29. Miss Margaret Slattery of Fitchburg State Normal School, Prof. Wood of Smith College and Miss Lelia Simon of Boston, dramatic Bible reader, have been secured as speakers. This is a rare opportunity for the Sunday school workers of the Three Rivers district. The program:

A $100,000 FIRE LOSS.

Paper Mill Totally Destroyed at West Ware.

30 EMPLOYES THROWN OUT OF WORK

Fire Started From Small Spark in Boiler Room, But Could Not Be Controlled.

The large paper mill in West Ware was completely destroyed by fire last Friday morning, with a heavy loss in stock on hand, both of raw and finished product, and on new and valuable machinery. The fire, which started about 9, originated in the boiler room, where a pile of dry shingles had been placed to be burned, and in which a spark started a small blaze. The fireman, E. S. Lemon, who was in the boiler room at the time, attempted to extinguish the blaze with a shovel, instead of gaining the water wheel while he could and setting pumps at work, which would have enabled men to make use of the hydrants and hose, and in a very short time the flames had spread all through the building. Help was summoned from Springfield, but arrived too late to save anything except 200 tons of soft coal, valued at $1000, piled near the mill.

The mill was a wooden structure, 400 feet long and 60 feet wide, with a front wall of brick, two stories in front and three in the rear. It was built about 20 years ago on the banks of the Swift river between Bondsville and Enfield. The mill was owned and operated by the West Ware paper mill company, which is composed of stockholders living in Hartford and Springfield. The paper made at this mill was used for glazing and sold in Nashua, Boston, Hartford and Springfield. The mill had a capacity of six tons a day and gave employment to 32 hands. The loss is placed at about $100,000, which is considerably more than any past valuation of the property, but can be partly accounted for by the large stock on hand, especially of raw material. Another cause for the loss being greater at this time is the fact that quite a lot of new and valuable machinery had recently been installed. The mill will be rebuilt at once.

The house of John J. Connelly, superintendent of the mill, which stood near that structure, was saved by the aid of a bucket brigade, but all its contents were removed to make sure of their safety, and as it was this house and one other near the mill were badly scorched. A noteworthy incident of the fire was the brave attempt of Ernest M. Ballou, an employe, to reach *the water wheel with his head covered with a wet blanket when the flames had* filled the boiler room with smoke. He could not reach the corner where the wheel was located, however.

Census Enumerators.

The census enumerators have been appointed for this vicinity and will commence work May 1. All enumerators get $3 per day of nine hours. They are provided with a printed list of questions, which all are required to answer. The enumerators for this vicinity are: Brimfield, Miner H. Corbin; Hampden, Henry M. Davis; Ludlow, Charles B. Bennett, Ruth M. Bartlett; Holland, Mrs. Bertha L. Howlett; Monson, John P. Herlihy; Palmer, Edward P. Brown, Mrs. Minnie E. Sullivan, O. P. Allen; Wales, Ozro P. Royce; Wilbraham, Fannie R Pease; Belchertown, Arthur E. Pease; Ware, Herbert H. Turner, Felix Bombard, James E. Tiffany; Warren, Milton Dickson.

Ludlow Pastor Resigns.

Rev. E. D. Francis, for ten years pastor of the First Congregational church at Ludlow Center, read a letter at the morning service Sunday in which he offered his resignation, to take effect September 1. He has had a business offer from parties in Springfield and plans to move to that city in September. Mr. Francis was called to the Ludlow Center church after completing his theological studies in 1895, and this has been his only pastorate. He was graduated from Yale in 1892, and studied for two years in the divinity school of that university, finishing his course in Hartford.

Fire in Hampden.

The house formerly used as the office of the Hampden mills company, with tenement and storeroom, was entirely destroyed by fire Sunday morning at 2 o'clock. The building was not occupied and was owned by the Phenix Spinning Company of Providence, R. I. The fire was of incendiary origin, and the loss is $800. It is not known whether there is insurance or not.

WILBRAHAM.

The assessors have organized for the year with A. A. Phelps as chairman.

The Grange held a dime social last evening at the home of Mrs. M. Moseley on Maple street.

The Ladies' Social Union of the Methodist church held a business meeting at the home of Mrs. A. L. Howe this afternoon.

Special devotional services have been held each evening this week in the Methodist church from 7 to 7.30. The general theme was "The Vision of Christ in the Poets." The pastor, Rev. A. L. Howe, opened the series Monday evening with Whittier; Tuesday evening Prof. P. Wakefield took Lowell; Wednesday evening H. J. Coburn took Longfellow; last evening Prof. H. H. Yeams took Tennyson, and this evening Dr. W. R. Newhall will close the series, reading from Browning.

Y. P. S. C. E. CONVENTION.

Large and Enthusiastic Gathering Hears Fine Addresses at Monson.

The 15th annual convention of the Hampden County Christian Endeavor Union was held in the Congregational church in Monson Wednesday, Patriots' Day, and was well attended, there being about 600 present.

The program was unusually good, there being several addresses by pastors and laymen. Among the speakers were Mrs. G. M. Smiley, Hon. Clinton Gowdy and William Knowles Cooper of Springfield, Rev. John S. Lyon of Holyoke and Rev. W. E. Mann of Indian Orchard. The general theme under discussion was "Unity and Evangelism."

The afternoon session opened at 2 o'clock with a short organ recital by Prof. W. C. Hammond of Holyoke. This was followed by a devotional service conducted by Rev. Mr. Butterfield of Ludlow. At the business meeting which followed, the secretary's report showed reports from 39 of 60 senior societies, the membership of these 39 societies being 1651. The 17 junior societies reporting showed a membership of 623; 29 societies reported 248 members, who have joined the church during the past year, and the same number of societies report $1425 expended for missions. The treasurer's report was better than was anticipated, it showing a small surplus instead of a deficit, although the union held a convention in Huntington in January, and paid all of the expenses. F. B. Austin of Springfield declined re-election as secretary and treasurer, having served five years.

These officers were elected: President, James N. Murray of Holyoke; first vice president, Rev. C. W. Williams of Palmer; second vice president, Rev. W. C. Gordon of Westfield; third vice president, Rev. Arthur Requa of Springfield; secretary and treasurer, E. P. Miles of Holyoke; junior superintendent, Miss Sara M. Parsons of Westfield; chairman of lookout committee, F. A. Upham of Three Rivers. It was suggested that at the next annual convention a change be made in the constitution, whereby the president be made a member of the state executive committee instead of the secretary and treasurer. This was discussed at some length, but was finally laid on the table.

The young people of the church served a supper to about 200. Miss Mabel Anderson was chairman of the committee, and the other members were Mrs. E. R. Cooke, Miss Ella Darrah, Miss Esther Keep, Miss Ethel Newton, Miss Lenora Stiles and Miss Catharine Fay. The church was tastily decorated with the national flag and Christian Endeavor emblems, and the platform was set with palms. The dining room upstairs was also prettily decorated. Miss Maud Aldrich was chairman of the decorating committee.

The business meeting and addresses were interspersed with music, which proved one of the most attractive features of the program. The special young people's chorus from the Monson society added much to the meeting at both sessions. Mrs. F. T. Smith was leader, and Miss Esther Keep organist. Miss Frances Fisk of Holyoke rendered two selections on the cornet, and G. H. Beman of Holyoke sang two solos. Greetings were received by telegraph from the Worcester county convention, in session in Webster, and from the Essex county convention, in session in Lynn, both of which were answered. The greater part of those attending the convention came by electric cars, and two large cars were required to take them home at night.

The Monson society entertained their guests in a most pleasing manner, and the convention will go on record as being very successful.

WARE.

Verdict for Plaintiff.

The longest and probably most important civil case yet tried in the district court of Eastern Hampshire was heard Saturday morning by Judge Henry C. Davis. The case was an action in tort with damages fixed at $1000 brought by Joseph Cloutier against Mary C. Breckenridge for injuries *alleged to have been received on January 2 near the home of the defendant.* The plaintiff contended that the accident was caused by a large St. Bernard dog belonging to the defendant frightening the horse. The morning session was taken up in hearing the evidence of Dr. A. A. Anger, the physician who attended Mr. Cloutier, and a number of men who had passed by the Breckenridge house themselves and observed the behavior of the dog. In the afternoon Francis Lavalette, the young man whom Mr. Cloutier was carrying to the west part of Hardwick when the accident occurred, testified as to what occurred. For the defense Miss Breckenridge and her mother, with Mr. and Mrs. Edward Morin and their small son, Edward, told what they saw on the morning of January 2, and D. S. Kennedy, testified regarding the dog which he raised. John H. Schoonmaker appeared for the defendant, while G. D. Storrs was counsel for the plaintiff. Judge Henry C. Davis found for the plaintiff in the sum of $250, the same including double damage.

A. B. Harlow has moved his family to Southbridge.

Misses Ruby Clark and Lucy Brown are home from their school in Boston for the Easter vacation.

Mr. and Mrs. Edward Fairbanks have returned to Boston to live, after spending a year and a half in Ware.

William Nelligan has succeeded William Bassett as assistant bookkeeper at the Ware Beef Company's office, the latter having been sent to New Bedford.

The appointment for the vacant clerkship at the post office has been given to John H. McCarthy of Pine street, while that of substitute clerk has been given to James Skiffington, a pupil in the high school. D. P. Griffin has been made a substitute carrier.

Invitations have been sent out by T. J. McBride, grand knight, and James Dugan, deputy grand knight, for an assembly to be given in the town hall next Monday night, by Ware council, Knights of Columbus. Misses Brunelle and Canavan's orchestra will furnish music.

New telephones have been installed for the school department in the office of G. W. Cox, superintendent, and in the high school and new South-street buildings, all on the same line. This will be a great convenience on account of the distance to these schoolhouses from Main street and the office of the superintendent.

Mrs. Johanna Murphy, 75, died at her home near Babcock Tavern at 4 o'clock Monday morning, after a short illness. She is survived by her husband, John Murphy, two sons, Michael of Ware and Thomas of Weston, and a daughter, Mrs. Mich Moriarty of Boston. The funeral was h Wednesday morning from All S church, and burial was in the ce between Thorndike and Palmer town.

The Journal.

FRIDAY EVENING, APRIL 21, 1905.

BE CAREFUL.

It will be well for strollers along highways and byways in this glorious springtime to have a care for the manner in which they gather growing things of any kind which are taken from any other place than the highway. The statute which was enacted last year is very stringent, and prohibits the picking of any flower, shrub, plant or foliage on private land without the permission of the owner, and provides a substantial penalty—if the owner cares to make complaint. A request for permission to gather arbutus, etc., is easier to make than to pay a fine for trespass—and more agreeable.

THEY DON'T LIKE IT.

While they realize that final decision in the matter is beyond their control, Palmer people will not take kindly to the proposition to expend the state highway money allotted to this town this year at the Warren end. There is very little travel from Palmer over that section, not one in ten compared with the road to the west of us, toward Wilbraham. The state highway is completed from the Springfield line to the Palmer line, and an addition to this —either continuing the present road or beginning at the Palmer end—would accommodate vastly more people than if it were built at the east end of the town. If the commissioners insist on working in that direction however we would suggest that they begin at the Cooley Crossing bridge, where the state highway now ends, as the road from that point east is the worst of that section. The commissioners have promised to visit Palmer before making a final decision, and as they are reasonable persons it is not unlikely that when they see the actual conditions they will come to the same way of thinking with the most of us.

HOLYOKE is the latest city in this section to attempt the regulation of theatrical posters. There are a lot of them which will stand regulating and relegating.

THE Georgia peach crop has had its annual frost this week, but it's a far cry from now until the time for ripe peaches, and perhaps the trees will pluck up sufficient ambition to give us just a few.

INDIANA has the latest of freak laws, which prohibits a man from smoking a cigaret and even fines him for having cigaret papers in his pocket. The penalty for the latter offense, in the case of a Muncie man, was $35, with the warning that it would be $100 the next time.

THAT was a peculiar coincidence at Belchertown the other evening, when the board of trade and citizens met to protest against the unsanitary railroad station and a fire removed it a few hours later. It isn't often that a kick concerning unsatisfactory railroad conditions brings such quick and satisfactory results.

THE managers of the St. Louis exposition evidently studied some other book than the old readers in which was related the story of the greedy boy, or they forgot the lesson taught, for they placed a price of $3 each on the souvenir gold dollars which were coined for exposition, and only 35,000 of the 250,000 were sold, yielding only $105,000. The rest are to be melted up again.

THERE never should have been any question of the preservation of the house from which Paul Revere started on his historic ride 130 years ago, and that there was any suggestion of tearing it down will appear to many as decidedly peculiar. It is to be saved however, a sum sufficient to purchase it and put it in good condition having been raised by a number of Boston citizens, including Governor Douglas and Mayor Collins.

THE body of John Paul Jones, the founder of the American navy, which was buried over 100 years ago in a cemetery in Paris, and of which no trace could be found, was discovered last Saturday through the efforts of Embassador Porter. The identification was complete, and the body will be brought to America with fitting naval honors. It was known that the body had been buried in a metallic coffin in a certain cemetery, but there all trace was lost. For five years the search has been conducted, and recently a force of workmen have been engaged night and day tunnelling and cross-tunnelling the cemetery. Friday they came upon three coffins similar to the one they were seeking; two of them bore name-plates, and the third when opened was found to contain remains which were positively identified as those for which search has so long been made.

THEY NEVER COME BACK.

New Englanders have a world-wide reputation for thrift and frugality and the laying aside of something for a rainy day. Evidently this is counted on by the promoters of all sorts of schemes which are designed to separate good money from its rightful custodians, for we venture to say that not a company of any magnitude is promoted between Maine and the Pacific ocean which does not flood New England with its literature. And the worst of it is that no matter how badly one lot may get bitten and how much publicity the affair may be given in the papers, the very next gilt-edged—on paper—proposition is sure catch a new crop of suckers. The experience of Jernigan's gold-from-sea-water dupes and that of the Miller 510 per cent-profits crowd serves as nothing in the way of warning to others. Now the Ubero Plantation Company, organized to raise its stockholders from penury to wealth by growing various commodities in Mexico or some other place, has taken a million and a half of New England dollars and has come to an end through a denial of mail privileges by the post office department. The company did raise $14.38 worth of corn along with the hopes of its stockholders, for dividends were paid, but from the money taken from the stockholders, so it is learned. It is well to remember that the greater the rate of interest promised the greater the risk for the capital, and that a steady savings bank rate of 3½ per cent is better than 10 per cent a month for a few months if the principal is then to drop into the other fellow's pocket.

Palmer Boy Presented Gifts.

Frank L. Dillon, who has been teacher of Latin and instructor in athletics in the Drury high school at Adams, has resigned his position and is visiting his parents on Central street. Mr. Dillon will travel for a New York firm of cement manufacturers. The Adams Herald of last Friday has the following account of the closing session of the school:

At the close of the music period at the Drury High School this morning, the boys assembled in the hall and Principal H. H. Gadsby told them that the meeting was for the purpose of presenting Instructor Frank L. Dillon, who closed his services as athletic and Latin instructor to-day, with a present. The girls of the school were not present at the meeting. Dr. Gadsby said he knew they would be interested in the proceedings, but since Mr. Dillon's work at the school, has been among the boys for the most part, he made the meeting exclusively for boys.

In a fine presentation speech, Thomas J. Mulcare Jr., 1905, told of the esteem in which Mr. Dillon was held by the boys and the whole school, and in their behalf presented him with a handsome dress suit case, silk umbrella and toilet set. Mr. Dillon responded feelingly, and expressed his gratification at the spirit which prompted the gift, and told of his pleasant days at the school.

PALMER NEWS

PALMER'S STATE HIGHWAY

May Be Built at Warren End of Line. Protest Entered.

Selectman Charles T. Brainerd received word recently that the appropriation granted the town of Palmer for state highway this year was to be expended at the Warren end of the line, the plan being to start at the Warren town line, east of the West Brimfield station, and construct a new layout on the west side of the river to the "King" farm, thus doing away with—so far as the state highway is concerned—four bridges, two over the river, and one over and one under the railroad, besides giving a shorter and straighter piece of road.

This would not be at all pleasing to Palmer citizens, who had been led to believe that the next state highway work in the town was to be toward Springfield; in fact, this had been promised, it is understood. The travel toward Wilbraham is very much greater than over the east end of the line, and so Mr. Brainerd took a trip to Boston yesterday to interview the commissioners. He presented his case and got from them an agreement to visit Palmer and view the premises before deciding definitely what will be done. It is hoped that when they come to see the actual conditions they may be induced to change their minds and work between Palmer and Wilbraham, either at the Palmer end of the line or continuing from the strip built in Wilbraham up to the Palmer line last year.

Former Palmer Pastor's New Church.

The following concerning the new church of which Rev. Frank E. Jenkins, formerly of Palmer, is now the pastor in Atlanta, Ga., will be of interest to his many friends in this and the surrounding towns. The building was opened for public worship the first Sunday in March, and the following is taken from an Atlanta paper:

Rev. Frank E. Jenkins, the pastor, is one of the most forceful and popular preachers in Atlanta, and it has been through his untiring efforts that the congregation are soon to enter into a new, commodious and handsome edifice.

The new building will be one of the handsomest churches from exterior appearance in Atlanta. The interior will be richly furnished. The old building will be used for Sunday school purposes, as it adjoins the new church.

One factor in the growth of the church is that it is rapidly coming to be known as "the strangers' church" of Atlanta. Because of the cordial welcome afforded the "dropper in" on church services its attitude in this respect has spread until it is one of the most popular churches in the city with strangers and occasional churchgoers.

The music of the church is also responsible for its large growth, as special attention is paid to this feature of the church worship. The Congregational male quartet started solely for the church work has become so well known as to be in demand all over the city for entertainments and church sociables. The church also has several strong lady soloists in its choir.

When the congregation enters its new building and begins a new series of activities the promise of "brighter days ahead" made recently by a prominent member of the church will rapidly come to be recognized.

School Coal Contract.

The school committee held a meeting Tuesday evening and awarded the contract for furnishing coal for the several schoolhouses to J. F. Holbrook & Son.

R. J. Fuller was unanimously reëlected superintendent of schools at a salary of $1800. It was voted to hire Miss Marketa Goodrich as teacher in the Palmer grammar school for the balance of the school year.

Timothy J. Crimmins of Palmer was appointed truant officer, and the matter of truants will be looked after more closely in the future.

An error was made last week in the amount contributed for the care of St. Thomas's cemetery; instead of $400 the sum was $260.

Mr. and Mrs. A. A. Warriner announce the engagement of their daughter, Lena J., to Rev. Charles V. Williams, pastor of the Baptist church of Palmer.

Superintendent of Streets Brainerd is planning to install the metal rubbish receptacles again on Main street, and will have them in place in a few days.

There will be preaching in the Advent chapel next Sunday afternoon at 3 o'clock, with Mr. and Mrs. Makepeace in charge. Service Wednesday evening at 7.30.

A horse left standing in front of the post-office Monday morning took fright and started to run down the street, but was stopped near Eager's block before any damage was done.

The Central Massachusetts Electric Company is planning the erection of a line to Wilbraham and North Wilbraham, as soon as pole locations are granted by the selectmen of that town.

The sidewalk which the town ordered built at Palmer Center has been constructed, and is bound to be an improvement over the past order of things in that section in wet weather.

William Gregory, who has been connected with Bard's lunch room for a long time, has left that place and has gone into business for himself in Lynn. He is succeeded by Fred Reimers.

The Monday Evening Whist Club met this week with Mrs. C. E. Fuller on South Main street. The prizes were awarded to Mrs. A. E Fitch, Miss Nettie Coleman and Mrs. Charles F. Grosvenor.

The special meetings at the Baptist church have been continued every evening this week. To-night at 7.30 Rev. Jesse A. Hungate, pastor of the First Baptist church of Holyoke, will preach.

A forest fire which had been burning two days on the King and Brainerd farms east of the village broke out with renewed force yesterday, and the firemen were called out in the afternoon to fight it.

A meeting of the directors of the Eastern Hampden Agricultural Society will be held at the Converse House next Tuesday at 10 o'clock a. m. for the purpose of revising the premium list for the fair next fall.

Patrick Connelly, a Boston and Albany brakeman, had a wrist sprained and one side scraped in the Palmer yard yesterday by the breaking of a part of a brake which he was setting up, letting him fall to the ground.

The macadam road built by the town has been coated with fine gravel recently, the fine top dressing which was put on when the road was built having worn away, leaving the surface unprotected and likely to go to pieces.

The subject of the sermon at the Baptist church next Sunday morning will be "An Easter Message to Common Life;" Sunday school at 12; Y. P. S. C. E at 6. At 7 o'clock the Sunday school will hold the annual Easter concert.

A demonstration of King's Puremalt has been in progress all the week at the Quimby Pharmacy, and will contine through to-morrow. The public is invited to call and get free tasting samples of this non-alcoholic spring tonic.

Selectmen and cemetery commissioners will hold a joint meeting next Friday evening to fill a vacancy on the latter board, caused by the declination of H. E. W. Clark elected a year ago to serve. It is probable that William Merriam will be chosen to the place.

Mrs. Franklin M. Shaw was pleasantly surprised by several of her friends at her home on Thorndike street Wednesday, the occasion being her 72d birthday. Among those present were Mrs. Taylor of Northampton, Mrs. Pease of Chicopee and Mrs. Talmadge of Thorndike.

There was an unusually high wind Monday, and work on the roofs of buildings was a thing not to be tackled lightly. Sumner Blodgett attempted to shingle his house during the height of the wind, but after being blown from the roof concluded that the job could wait until another day just as well as not.

The baseball diamond on the park, which had been put in fine condition for the season by the baseball association, was considerably damaged Sunday by players who dug holes in the surface and in other ways spoiled the work which had been done. The association has leased the park, and will take measures to prevent vandalism of this sort in the future.

The selectmen have been petitioned by the Central Massachusetts Electric Company for permission to erect poles on Squier and Knox streets, preparatory to making changes in the electric lights in that vicinity. It is proposed to replace the arc lights at the corner of Pine and Knox streets and the corner of Squier street and Highland avenue with incandescent lights, five of the latter for each of the former.

The Major Morgan Veteran Firemen will hold their second annual dance in the opera house next Tuesday evening, and a large attendance is already assured by the advance sale of tickets. Sanger's orchestra will furnish music. The floor director will be H. T. Huntington, assisted by G. T. Ives and L. H. Hunt. The committee of arrangements is H. T. Huntington, F. J. Roche, L. H. Hunt, N. J. Comfort and C. L. Johnson.

William Sullivan, 22, died at his home on Water street Wednesday morning after an illness with Bright's disease. He was operated upon for appendicitis about a year ago, and had never fully regained his health, although he had been confined to the house but a few weeks. He leaves a father, one brother and three sisters. The funeral was held in St. Thomas's church this afternoon at 2, Rev. P. J. Carey officiating, and burial was in the Thorndike cemetery.

The 8 o'clock p. m. train from Boston on the Boston and Albany road, which has heretofore passed through Palmer without stopping, now stops to leave passengers. There has been a general wish among Boston travelers that this train might stop, as under the old arrangement there was no way of leaving Boston for Palmer between 6 and 11.30 at night, and the new order of things will give two hours longer in the city. The matter was presented to the officials of the road at Boston last week by *a Palmer citizen, and it was readily agreed that the train should stop to leave passengers* only. To accommodate Monson people who may wish to return on this train, the 10 o'clock electric car will be held until the arrival of the train.

Saturday morning's session of the district court was occupied with a Brimfield case, George W. Sherman being complained of for an alleged assault on Mrs. Sarah A. Morgan. The case grew out of a wrangle which occurred at a Grange meeting on the evening of March 28, at the close of which there was a difference of opinion between Mrs. Morgan and Mr. Sherman, in which words were thrown promiscuously, according to the testimony of the witnesses. Mrs. Morgan laid hold of a gavel, which she raised, and Mr. Sherman knocked it from her grasp, her hand being thrown against her face by the action. A complaint for assault followed. A fine of $5 was imposed and an appeal taken, sureties in the sum of $100 being furnished.

Day of Fires.

Last Friday seemed to be an unfortunate day for Bondsville and vicinity in the way of fires. In the morning about 5 o'clock fire broke out and consumed the barn belonging to Robert Landers on the Belchertown side of the river. The cause is unknown and the barn was a total loss, as there was no insurance on it. About 10 o'clock word was received in this village that the West Ware paper mill was on fire and soon after a fire engine and hose cart from Springfield went through on the Athol branch of the B. and A. railroad. The paper mill was completely destroyed

In the afternoon fire broke out in what is known as Fenton's woods and spread to a wood lot which was being cut off by George Roberts and his help. There were several cords of wood piled up and measured in this lot, much of which was burned, as well as a number of ties. All of this belonged to J. M. Allen of Palmer. What wood was burned will be a total loss to Mr. Allen as he had no insurance upon it.

A. M. Billings visited in Williamsburg Patriots' Day.

Dr. D. B. Sullivan is the owner of a cadillac automobile.

Mr. and Mrs. R L. Bond spent Sunday with friends in Enfield.

Elliotte Bolton of Greenwich is the guest of his sister, Mrs. Joslyn.

Academy Notes.

Paul F. Herrick spent Sunday with relatives in Springfield.

Brainerd, '07, spent Monday with friends in South Hadley Falls.

Miss Mildred Moultor, '07, was in Springfield Wednesday on a business trip.

Candidates for the track team have been called and long runs are being taken.

There were no rhetoricals Wednesday morning, as all the divisions have spoken. Beginning next term rhetoricals will be resumed, the senior class being exempt, however.

The Academy orchestra played at the regular music period yesterday morning, and a good program was given. The orchestra played two selections, there were two violin solos and Lewis sang, "The Palms."

At a meeting of the Athletic Association Wednesday afternoon Griffin, '07, was elected captain of the baseball team until the season begins, when a permanent captain will be elected. The candidates have been called out and practice each night.

The Academy basketball team closed its season last week with a defeat at the hands of Clarke school of Northampton. The game was a close one and very fast, at times the players being inclined to rough it a little, but they were stopped by the referee, and as a whole the game was interesting. Capt. Griffin excelled for Monson and Nelligan also played a good game. The team has had a very successful season as a whole, winning the majority of the games, and this is creditable as they have played some of the best schools in this vicinity. The team has had its picture taken and has disbanded for the season.

Town Report Figures.

The reports of the town officers were distributed to the voters yesterday and to-day, and contain the usual information. The treasurer's report shows the receipts of the year to have been $60,920, and there is a balance of $353 on hand. The water works show a gain of cash on hand of $1262 over last year. The town's debt is $38,790, an increase of $1185. The report of the selectmen shows the following amounts appropriated and available in the various departments of town affairs and the amount expended in each:

	Appropriation.	Expenditure.

There are bills due the town amounting to $4 102.58 and bills due from the town of $125 80.

Town Meeting Next Monday.

The annual town meeting will be held in Memorial Hall next Monday, and a large attendance is expected, as there has been considerable work done by the candidates, especially for selectmen. This year, to the gratification of many of the voters, the polls will be opened in the morning at 5.45 Last year an unsuccessful effort was made to have this done. This will enable several voters who work out of town to vote before leaving on the early car. The first business to be transacted will be the election of a moderator, after which the polls will be opened. The articles in the town warrant will not be taken up until about 9. There are few articles of special importance, the principal one being relative to better schoolhouse accommodations at the quarry. The schoolhouse there is so small that the pupils above the fifth grade are transported to the village schools at an expense of about $350, which amount would hire a competent teacher, if there were schoolhouse accommodations. Just what the committee will recommend is not known, but it would seem as if some action must soon be taken to relieve the unsatisfactory conditions which now exists.

Last Meeting of the Season.

The Green street whist club celebrated the close of their social season Monday night. The members met at the home of Mr. and Mrs. E. E Thompson, and from there went to the Monson House, where a turkey supper was served by Landlord Foley. After disposing of the supper the party went to the home of R. F. Bradway, where the remainder of the evening was spent in games. The committee of arrangements in charge of the supper, which was kept a secret from the other members, was composed of Mrs. E. E. Thompson, Mrs. D. B. Needham and Mrs. R. F. Bradway.

Death of Henry Lynch.

Henry Lynch, 74, died at his home at South Monson Monday morning after a short illness, surviving his wife but a few days. He leaves ten children, and two brothers, William Lynch of Wales and Patrick Lynch of West Warren. The funeral was held from St. Patrick's church Tuesday morning at 9 30 and burial was in the Catholic cemetery on Pearl street.

The Academy closed to-day for a ten days' vacation.

Harry Nye of New London, Ct., visited friends here Saturday.

R. A. Beckwith has been ill at his home on Lincoln street this week.

Miss Nellie Shoughrue spent Sunday with relatives in Springfield.

Miss Bessie Flint of North Main street is visiting relatives at Holyoke.

The fourth quarterly conference was held in the Methodist church Sunday afternoon at 5.30, W. G. Richardson, presiding elder of this district, being present. It was voted to invite Rev. A. B. Gifford, the present pastor, to remain another year.

The vacuum cleaner of Springfield, which has been here the past ten days, is having a great deal of work to do. The Universalist and Congregational churches, as well as many private residences, have been cleaned, this work being done in a very satisfactory manner.

A social will be held in the parlors of the Congregational church next Friday evening. Supper will be served from 6.30 to 8' in charge of Mrs. P. W. Soule and Mrs. F. A. Wheeler and will be followed by an entertainment in charge of Miss Vivian Reynolds.

The Current Events club held an open meeting Tuesday night at the home of Mrs. A. D. Ellis, and entertained their men friends. The entertainment given was readings by Mrs. Foye of Boston, and musical selections by Miss Beauregard of Boston. Refreshments were served.

Twenty names were added to the voting list at the meeting of the registrars Saturday, making the total number of 43 added to the list this spring. The number of voters now on the list is 807, the largest, with one exception, for many years, that time being about three years ago, when 818 names were on the list.

At the Congregational church Sunday morning at the close of the service, a letter of acceptance was read from Rev. G. A. Andrews of Hollister, who has resigned his pastorate there to come to this church and will take up his duties here about May 1st. The call, which was extended to him by the church and parish, was unanimous.

The annual meeting of the Quahoag Country Club was held at the clubhouse Wednesday evening. The report of the treasurer was read, and showed the club to be in a prosperous condition. The following board of governors was elected: Fred S. Chapman, J. C. Parsons and L. J. Brainerd. The board of governors will elect the other officers at another meeting held in a few days.

The Monson Baseball Association has secured DeRue Bros' Ideal Ministrels for next Wednesday evening. The first part of the performance is called "The Garden of Flowers," and introduces comedians, singers, dancers and a good orchestra. The vaudeville acts will be given by Billy DeRue, "That Talkative Man;" Hill and Adams, European acrobatic comiques; Bohhy DeRue and Fred Lampe, musical minstrel and dancing marvels; John Lane, the "Alabama Wizard;" Leon Stanford, wire cyclist; Harvey Dunn and Ackerman & Weiser, equilibrists. There will be some good singing by a number of vocalists, including Master John Lamhert, juvenile soprano. Tickets are now on sale at Bradway's news rooms.

It is the Dealers' Choice.

Dealers handle the NEW HOME because it is the best that is made, once sold there is no future trouble for them as it never gets out of order or needs repairs. It gives the least annoyance of any on the market. Dealers everywhere.

The Judge Uses Forceful Language.

Judge W. B Simmons of Fincastle, Va., told the reporter that L. & M. Paint was used on his residence in 1882, and held its color well for 21 years; he furthermore said that 3 years ago he was induced to use another paint and is sorry he did, because the other paint didn't make good. The Judge will now always use L & M., because he knows if any defect exists in L. & M. Paint the house will be repainted for nothing.

The L. & M. Zinc hardens the L. & M. White Lead and makes L & M. Paint wear like iron for 10 or 15 years.

Actual cost of L. & M. about $1 20 per

OVERTAXED.

Hundreds of Palmer Readers Know What It Means.

The kidneys are overtaxed;
Have too much to do.
They tell about it in many aches and pains—
Backache, sideache, headache,
Early symptoms of kidney ills.
Urinary troubles, diabetes, Bright's disease follow.
A Palmer citizen tells here a certain cure.

Mrs. C. J. O'Leary, of 63 Park St., Palmer, Mass., says: "My husband in his occupation has a great deal of heavy work to do and that and exposure brings lameness in his back and aching across his kidneys. He does not have backache as many do who have kidney trouble but when the bad spells come on it is difficult for him to lift anything and if he has to bend, it causes him severe pains in straightening up. Doan's Kidney Pills removed the lameness and pain. It was not the first time my husband found out that they would cure backache and kidney trouble. He has used them frequently and they always brought about prompt and effective relief. He says they are the best remedy he ever used for backache."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—**Doan's**—and take no other.

ROYAL Baking Powder is indispensable to the preparation of the finest cake, hot-breads, rolls and muffins.

Housekeepers are sometimes importuned to buy other powders because they are "cheap." Housekeepers should stop and think. If such powders are lower priced, are they inferior? Is it economy to spoil your digestion?

The "Royal Baker and Pastry Cook"—containing over 800 most practical and valuable cooking receipts—free to every patron. Send postal card with your full address.

Alum is used in some baking powders and in most of the so-called phosphate powders, because it is cheap, and makes a cheaper powder. But alum is a corrosive which, taken in food, acts injuriously upon the stomach, liver and kidneys.

The New Millinery Modes Are All Liberally Represented in the Forbes & Wallace Easter Display

The most complete exposition of Millinery styles ever seen in Springfield is presented in our Spring display. Choice may be made from this showing with absolute assurance that no type of hat approved for spring wear is missing. While there is no lack of striking effects for those who prefer the extreme styles, the most marked characteristic of this collection is the fact that it contains so many

Practical Hats That Can Be Put Right on and Worn

This has always been true of Forbes & Wallace Millinery, but it is more than ever true this season. It is one of the features that has made this Springfield's most popular Millinery shop. No better or more beautiful hats can be produced than are turned out by our organization, yet our prices are always much lower than equal styles and qualities can be bought for elsewhere. From the hundreds of hats now on display almost every taste can make satisfactory selection. Our prices begin at $4.98 and rise by easy steps to $40 and more. If you want your hat made to order our organization is prepared to carry out your wishes, producing promptly the

Finest Custom Millinery at Moderate Prices

The Nemo Self-Reducing Corset

Is in a class by itself. It supplies a need that no other Corset has ever met. By reason of its patented features it not only reduces the stout figure, but it gives comfort, health and style.

The Smart Set Corset

develops and brings out the best lines of the individual figure. It imparts an elegance of carriage that makes the plainest clothes when fitted over them become smart. They are less expensive than other high-class Corsets and will wear longer.

The demonstration of the The New Spring Models of both of these Corsets will be continued this week.

DID YOU

NISORON
VARNISH

Ever set a glass of water on a fine table top, and afterward find a white ring in the varnish?

"It's Not Nisoron."

Nisoron Varnishes will not spot white under water or steam exposure, because they are made of selected New Zealand gums (the hardest that can be found), pure linseed oil, pure turpentine, and contain No Rosin, benzine, or other adulteration. Ordinary varnishes are adulterated, and for that reason turn white where the glass of water has been set.

Nisoron, suitable for highest class finishing, for sale by

GRAVEL CURED

(Philadelphia, Penn., Item.)

A healthier, heartier, happier man than John J. Neill, of 2437 North 8th St., Philadelphia, could not be found in a day's search. The fact that he is still alive is a constant wonder to his friends.

Several years ago he began to suffer indescribable miseries from stone in the bladder. An eminent physician in Philadelphia told him that a surgical operation was necessary. So much did he dread the result, for if unsuccessful it meant death, that he put off the evil day as long as possible. While in this frame of mind, he heard of

DR. DAVID KENNEDY'S FAVORITE REMEDY

Although disheartened, he bought a bottle of it, and within a month had experienced beneficial results, and before he had finished the third bottle, the gravel was completely dissolved and his sufferings at an end.

Mr. Neill feels that he owes a lasting debt of gratitude to Dr. Kennedy's Favorite Remedy, made at Rondout, N. Y., and for disorders of the bladder and urinary organs. He says: "it will effect a cure if one is possible."

Favorite Remedy is prescribed with unfailing success for rheumatism, dyspepsia constipation, and nerve troubles in which it has cured many that were considered beyond the aid of medicine. All druggists, $1

WARE.

Celebrated 90th Birthday.

Calvin Hitchcock observed his 90th birthday last Friday and received the congratulations of many of his friends at his home on Pleasant street. Mr. Hitchcock enjoys good health in spite of his advanced years He is a native of Homer, N. Y., but with his family went to Brimfield when four years old. In 1838 Mr. Hitchcock in company with his brother, Alvin, and Austin Andrews, made a trip to Chicago, the journey being made by way of Philadelphia, Pittsburg, the Ohio and Mississippi rivers, and then overland by hard stages on foot through prairie and wilderness to where is now the second largest city in the country They did not remain there long, however, and returned to Brimfield in the fall. Later Mr. Hitchcock's father moved to Belchertown and settled on a large farm. Calvin Hitchcock's first venture in business was made in Belchertown in the manufacture of wagons and carriages. He was successful, but sold out in 1857 and the following year removed to Ware, and in company with Philo Willis bought out the Union store that stood on the corner where the library is now located. Since then, or for 49 years, Mr. Hitchcock has been at the head of a business on or near the spot where he began, a store which has grown to be the largest in many ways of all the stores in the town.

Annual Meeting of Golf Club.

The annual meeting of the Ware Golf Club was held in the Hampshire House parlors last night. The following officers were elected: President, C. G. V. Sjostrom; vice president, G. W. Cox; secretary, C. W. Booth; treasurer, E. J. Brannigan; directors, David Woolley, H. W. Sibley, Alvan Hyde. The following committees were appointed: Greens, J. G. Lincoln, G. H. Storrs, H. W. Sibley; handicap, Harold Sjostrom, Miss Elizabeth Moran. It was unanimously voted that the executive committee, which consists of the four elected officers and the three directors, should act in relation to buying of the school committee, the schoolhouse and grounds which are now used as a home for the club, and are located near the course.

The body of Moses Marcille of Dana was taken to Ware Sunday for burial in Mt Carmel cemetery. Mr. Marcille shot and killed himself on Thursday night of last week after shooting his wife twice. She was badly wounded, but may recover

The annual meeting of the Unitarian society was held Monday evening, and the following officers chosen: Prudential committee, Charles E. Stevens, E D. Howard and J. G. Lincoln; clerk, James Edmunds; treasurer, Charles E Stevens; collectors, F. A. Hannum and J. E. Allen. A parish supper preceded the meeting.

The funeral of Adelard Dubois, who died last week Thursday, was held in Mt. Carmel church Sunday afternoon at 3, with the largest attendance of any funeral in the town in recent years. He was secretary of the French societies, Artisans and St. Jeans, and these societies turned out in a body and acted as an escort to and from the church, and the Gilbertville band also formed a part of the funeral procession. Rev. J. R. Sheehan officiated at the services, and there was special music by the choir, assisted by A. Gendron and Pierre Brousseau of West Warren.

The plans for erecting a new woolen mill have received a serious setback, and it is now uncertain whether it will be built. Are Patent Medicines Frauds?

We are often asked the above question, and our answer has invariably been that no medicine that gives satisfactory results could be fraudulent. We could not afford to sell fraudulent medicines. Our business depends on pleased customers—in fact any business does. Therefore, we would take an enormous risk did we not fulfil every promise made our customers. We are very careful of what we guarantee, and when we do guarantee an article we must know it pretty well—what it contains and how it is made. We have in mind the Rexall line of remedies, particularly Rexall Mucu-Tone, of which we are selling large quantities at this time of the year. Mucu-Tone is one article that we can recommend over our counter and know that ninety-eight per cent. of its purchasers are going to be benefited and will return to our store pleased customers. Mucu-Tone is a positive cure for internal scrofula or what is commonly called Catarrh. It is without a doubt the peer of all tonics for any one who is suffering from a run-down condition, can't work, feels constantly tired or suffering from the more plainly described symptoms of Catarrh—such as stopping of the nose, cold in the head or bad cough."

It must be remembered that Catarrh is not confined to the nose and throat. It usually starts there, but it leads more often to serious trouble, particularly the wasting of tissues, as in the case of little Miss Dillon, of Albany. Here is a letter from her father:

"My little girl had catarrh so badly that the disease had begun to eat into the cartilage of the nose. Snuffs and instruments failed to do more than give temporary relief. I saw the advertisements of Rexall Mucu-Tone, but I could not believe that anything taken in the stomach could cure the sore membranes of the nose. However, I took advantage of your free trial offer and my girl began taking your remedy according to directions. I want to say right here that Mucu-Tone is certainly the greatest medical discovery of the times, and to thank you for the liberal offer that first induced me to give it a trial. Muco-Tone has cured my daughter's catarrh completely. The discharge has stopped altogether, and her breath is as sweet as can be. Again thanking you, MATT. DILLON, 24 N. Swan St., Albany, N. Y."

We are selling a large trial bottle of Mucu-Tone for fifty cents on the famous Rexall guarantee of your money back if you are not satisfied. We promise that one bottle will put flesh on your bones and bring new vitality to your system.

A REASON

T[illegible] [illegible]d Drug Comp[illegible], manufacturers of the Rexall Remedies, for whose prep[illegible]ns we are agents in this city, make 200 re[illegible], one for each ill. [illegible]ch one is especially prepared to cure one [illegible]case, and that only. This is an age of specialists. You don't contract with a plumber to build your whole house, do you? Why should you contract with one proprietary medicine to cure all your troubles?

Oftentimes you run across a building contractor who has a separate plumbing department, his own plastering department, and so on, all of which dovetail together and build the house. This is just what the United Drug Company is doing for you in the medicine line. They have cut down profits; they manufacture Rexall Remedies for over 2,000 retail druggists. These druggists are the only intermediate profit that stand between The United Drug Company and the patient.

Could the United Drug Company, of which we are a member, afford to make one poor medicine in this line? Does not common sense tell you that one poor medicine would ruin the sale of the other 199 preparations? If you bought a Rexall preparation and it didn't do for you what we claim it will, would you buy another one of our articles? We believe not. Therefore each preparation must be good—it is good. We who are in the drug business know the formulas of these Rexall preparations. We believe in them so implicitly that we stand back of them, with our guarantee to refund you your money if they do not benefit you.

Your
New
Spring Suit

How are you going to get it? Will you fit yourself into a ready-made guess or pay between $30 and $45 to the tariff-laden small tailor—or
COME TO THE WOOLEN MILLS STORE
and have the suit made to fit you, in the fabric and style you favor? Here it will cost you barely as much as "ready-to-wear" but will fit you perfectly, will be cut in absolutely correct fashion, and will be guaranteed.

Why are our prices so much less? Because our operations are on a vast scale. Not one little shop, with a few dozen customers, but many stores with thousands of customers; not suit lengths bought in three yard cuts, but thousands of yards in hundreds of patterns, brought straight from the mills to you. That makes a difference in cost of material, a difference in selling price, a difference in resource and facilities—a score or more of reasons why.

Then we guarantee—that's unusual. It's a blanket guarantee—covers everything.

SUITS, TOPCOATS, RAINCOATS

TURNED OUT TO DIE.

Inhuman Teatment of a Sick Woman at Three Rivers.

LEFT ON BACK PIAZZA ON COLD DAY.

Until Neighbors Interfered and Summoned Officer. Patient Has Typhoid Fever.

A case of barbaric treatment of a human being came to light at Three Rivers last week, when a woman, sick in bed and too weak to sit up or do anything for herself, was placed on a back piazza by the people with whom she boarded and remained there for an hour and a quarter before some of the more humane neighbors became acquainted with the facts and complained to Officer Manning, who compelled her removal to the house and notified the overseers of the poor.

They at once investigated the case and found that the woman, Mrs. Franciska Stakelek, came to America about three years ago and to Three Rivers about two years ago from Pennsylvania, where she had been living with her husband. In Three Rivers she boarded with others in a block near the Athol station. "Taking boarders" with the Polish people consists of renting the boarder a room and cooking his food, the boarder buying what he pleases and it being cooked for him by the boardinghouse keeper. Of course when a boarder is sick there is no money coming in for board, and such a condition is not tolerated for any length of time; the room is needed for someone who has the money. Mrs. Stakelek had been sick for a time and so on Tuesday of last week she was moved out of doors to the piazza and laid down there to get along as best she could. The day was cold and raw and windy, and her condition was not improved by the fresh air treatment.

The town physician, Dr. Giroux, was sent there Tuesday evening and found her with a temperature of 101½. The next morning it had dropped a little, but the family absolutely refused to keep her any longer even if paid for it—they wanted the room for some other boarders. Another place in the same block was found for her, and she remained there until yesterday afternoon, when she was removed to the House of Mercy hospital in Springfield because this family also refused to care for her any more; in fact they had neglected her wholly—giving neither medicine, nourishment nor water since Wednesday noon. The woman has typhoid fever and is in a serious condition.

WANTS HIS TAXES REDUCED.

Monson Assessors' Valuation Too High, So Mr. Marcy Thinks.

The long-anticipated hearing in the case of F. F. Marcy of Palmer against the town of Monson for a rebate on the taxes on a certain tract of land in the west part of the town was held in Memorial Hall Wednesday afternoon. For the past two years this property has been taxed for $1000, and last year it was paid under protest.

In the morning the property was visited by the board of assessors, the county commissioners, Lawyer Kenefick of Palmer, counsel for the plaintiff, and Lawyer Ball, counsel for the town of Monson. The property was carefully gone over, and the facilities for getting the wood to market were noted, as there had been some dispute in regard to the right of way in to the property. The piece of property in question contains about 100 acres of brush land, tie timber, and a part of it is covered with maple, which is valuable property.

The meeting was called to order at 2.30 by County Commissioner Hendricks. The witnesses called for the plaintiff were Joseph Allen of Palmer, H. D. Moulton of Monson, Irving Temple of Hampden, Frank Keefe of Stafford, Ct., and Charles Smith. Their testimony was practically all the same, with the exception of that of Mr. Keefe, which was that they considered the property worth from $500 to $700. In cross-questioning Mr. Keefe, Lawyer Ball brought out evidence which was more favorable to the defence than to the plaintiff.

The witnesses for the defence were Charles F. Clough of Monson, who at one time owned the property; E. R. Sissons, one of the board of assessors; William Peck of Wales, a wood dealer; C. P. Lyon of Monson, a wood dealer; W. M. Tucker of Monson. Their testimony was to the effect that the property was cheap at $1000 W. M. Tucker stated that while he was not in the wood business to any great extent, yet he would give $1000 for the property at any time Mr. Marcy would make out the deed.

The county commissioners did not render a decision, and probably will not for some time. The assessors, however, feel confident that they have scored a victory.

BAZAR OPENS TO-NIGHT.

St. Mary's Temperance Society of Thorndike to Entertain Friends.

The bazar which St. Mary's Total Abstinence Society of Thorndike has had in preparation for some time will open in Union Hall in that village this evening with a grand concert and ball. Bryant's Singing Orchestra of Orange will furnish the music, and lovers of good music will be sure to attend. The hall has been decorated by Buchholz of Springfield, and every effort has been and will be made to provide a good time for all who attend. Special electric cars will run to the villages, Monson and North Wilbraham after the dance, which will begin at 9.15, being preceded by the concert, which will commence at 8. The floor director will be M. F. Hurley assisted by M. H. Loftus and P. H. Stokes, with C. E. Walker, M. W. Holden, T. J. Sullivan, Daniel Haley, P. J. Cahill Jr., John Crean, G. P. Riley, Samuel Brown, W. C. Riley, F. J. Gay, D. J. Sullivan and Henry Chabot as aids. The dance program contains 22 numbers. The concert program will be:

March. "On Jersey Shore."	Arthur Pryor
Overture. "Italians in Algiers."	Rossini
Song. "A Chink of the Miser's Gold." Victor McGilbeny.	Von Filzer
Descriptive. "Mill in the Forest."	Eilenberg
Selection. "Woodland."	Luder
Finale. "The Grand Entry."	Shaw

The bazar will be continued to-morrow evening, and every evening next week. There will be dancing and an entertainment each evening, with change of program nightly. To-morrow night's program will include Mr. George McKenzie, with cornet solos; Miss June Eugle of Springfield, in popular songs of the day; Miss May Senton of Three Rivers, pianist; Mr. George McManus of Springfield, vocalist.

Holland Sawmill Burned.

The steam sawmill owned by Turner Bros. of Holland was burned early Monday morning. The mill, which is portable, was located in the adjoining town of Union, Ct., and gave employment to about 20 men. The fire started from a defect in the furnace. The owners are negotiating for new apparatus and will resume work as soon as it arrives. The loss is about

HAS TAKEN HIGHER POSITION.

F. W. Lavene Resigns From Palmer Mill After 21 Years' Service.

F. W. Lavene has resigned his position as overseer in the finishing department of the Palmer Mill at Three Rivers after 21 years and six months continual service for the company.

Mr. Lavene began work October 29, 1883, in the finishing department. After working 3½ years he was promoted to second-hand and served two years in that position and was then promoted to overseer, which place he has held for 16 years. He has accepted a position with the Jackson Manufacturing Company in Nashua, N. H., to take charge of finishing and napping, and began work April 24th; his family will not move until the middle of May. Mr Lavene's family has made many friends in Three Rivers and the other villages, who regret very much their going away.

Mr. Lavene is a member of the Palmer lodge of Odd Fellow, having gone through the chairs and is now Past Grand; he is also a member of the Sons of Veterans,—Palmer camp, No. 136,—having served one year as chaplain, one year as second lieutenant, one year as captain and two years as camp council, and now holds office of sergeant of the guard in the camp; he also served one year as aid on the staff of Division Commander Travis in 1892.

Mr. Lavene served the town of Palmer six years as police officer, his first appointment being in 1886 During his service in this capacity he proved a decidedly disagreeable thorn in the flesh of the lawbreakers, and one night some of them lay in wait for him as he returned from Springfield, but as he was not alone they dared not tackle him. After he entered his home and was preparing to retire two shots were fired through the window of the room, which he usually occupied, but in which his six-years-old daughter was sleeping that night. One charge of shot struck the head of the bed about a foot and a half from the little girl's head, the other going into the ceiling. The guilty party was not arrested as he left town after confessing to a detective who worked up the case.

At the completion of his work last Saturday noon Mr. Lavene was met in the cloth room by all the help, who presented him with a gold chain and Odd Fellows charm and gold cuff buttons. Mr. Lavene thanked them in suitable words. P. C. Story, who formerly was second-hand in the cloth room under Mr. Lavene, will take charge of the cloth room.

WARREN SUPERINTENDENT GOES.

Declines Re-election in Warren-Wales-Holland School District.

A joint meeting of the Warren, Wales and Holland school committees was held in the town hall in Warren Saturday afternoon. Fourteen members were present, including all but one member from Warren. Frank E. Gleason was elected chairman and E. W. Canning secretary. There was a short discussion in regard to candidates for the position of superintendent, after which the following communication from Superintendent O. H. Adams was read:

> To the Warren, Wales and Holland school committee: I hereby withdraw my name as a candidate for reëlection as a superintendent of schools in this superintendency district. With grateful thanks to those who have supported me in the duties of my position for the past three years, I am yours, O. H. ADAMS.

George A. Moody, Miss Mary C. Burbank and H. E. Shaw of Wales were chosen a committee to investigate candidates and report at an adjourned meeting to be held May 10.

The following sub-committees were elected: Committee on teachers, George Moody, Frank E. Gleason and Miss Mary C. Burbank; repairs, Frank E. Gleason, Charles O. Walker and Charles A. Deland; music and drawing, Charles A. Deland, Harry H. Moore and Edward W. Canning; transportation, John E. Dalton, Charles O. Walker and Edward W. Canning; text-books, Mrs. Julia M. Hitchcock, George A. Moody and Miss Mary C. Burbank; rules and regulations, Harry H. Moore, John E. Dalton and Mrs. Julia M. Hitchcock. The committee have engaged William C. Bates, superintendent of schools at Fall River and recently elected to a similar position in Cambridge, to give the address at the graduation exercises of the high school the evening of June 22.

HAVE BEEN MARRIED 50 YEARS.

Wilbraham Couple Celebrate Their Golden Wedding on Wednesday.

Mr. and Mrs. Jerome Pease celebrated the 50th anniversary of their marriage at their home in Wilbraham Wednesday. About 75 friends and relatives were present from Springfield, Ludlow, Granby, Monson and East Longmeadow. Supper was served from 3 to 6 in the afternoon. Mr. and Mrs. Pease were the recipients of a large number of presents, among which were $50 in gold and a Morris chair.

Mr. and Mrs. Pease were married in Sturbridge April 26, 1855. After the ceremony they went to their home in Wilbraham, their farm being just over the line in the part of the town now Hampden, where they spent 10 years. They then moved to their present home in Wilbraham street.

Mr. Pease was born in Wilbraham March 7, 1830, on upper Maple street, formerly Stony Hill, the son of James C. and Mary Terry Pease, being one of 16 children, five of whom are now living. Mrs. Pease was born in Chicopee Falls May 13, 1834, the daughter of Estes and Almena Smith Burr, and is a direct descendant of Dea. Samuel Chapin, one of the first settlers of Springfield.

Twelve children were born to Mr. and Mrs. Pease, five of whom are living. They are Mrs. Charles Hibbard of Somersville, Ct., Mrs. Minnie Endicott of Springfield, Edward E. Pease of Granby, Bessie M. and Raymond J. of Wilbraham.

Says Road Will Open.

Ware people are hoping for the early opening of the Hampshire and Worcester trolley line, to Gilbertville and West Brookfield, and base their hopes on a statement made to the Business Men's Association by Receiver George S. Taft, to the effect that it would probably be started up soon, with an increase in the rate of fare. Neither the latter nor the time of opening was definitely stated.

Dr. J. P. Schneider attended a medical meeting in Boston Wednesday.

BRIMFIELD.

Death of Mrs. F. E. Cook.

Mrs. Sarah Moore Cook, 75, wife of Francis E. Cook, died at her home in Brimfield last week Thursday after a long illness. Mrs. Cook was born in Wales, January 23, 1830, and was married May 7, 1846. Mr. and Mrs. Cook lived in Sturbridge for seven years after their marriage, when they moved to Brimfield where they have since resided. Mrs. Cook leaves, besides her husband, a daughter, Mrs. Willard Wetherell of Westboro, a sister, Mrs. A. J. Wales of Staffordville, Ct., two brothers, W. B. Moore of South Hadley Falls and George W. Moore of Stafford Springs. The funeral was held at the home Saturday afternoon. Rev. Samuel Eaton officiated, and the church choir sang two selections. The bearers were nephews, W. E. Cook of Brookfield, F. H. Cook and George H. Cook of Leominster and C. S. Hoar of Windsor Locks. Others present from out of town were Mrs. A. J. Wales, George M. Moon, Mrs. Oscar Willis and Miss Willis of Staffordville, M. M. Hughes of Stafford Springs, Mrs. Charles Hoar of Windsor Locks, Mrs. Anna Richardson of Worcester, Mrs. F. W. Harrison and Mrs. C. E. Fuller of Palmer. Mrs. Cook's daughter, Mrs. Willard Wetherell of Westboro, who was present, had been with her mother and cared for her most of the time for the past year. Mrs. Cook was a woman of much ability. She was a kind neighbor and was especially efficient in sickness. Mr. Eaton, in his remarks, dwelt particularly upon her strong Christian faith and the eagerness with which she looked forward in her suffering to the future life. She had asked to have "I'm Nearer My Home," sung to her during her dying hours, and this sel was sung by the choir.

Rogers, head nurse ward D of the epileptic hospital, died Monday morning of diabetes and intestinal hemorrhage. Miss Rogers had been employed there since the first of December, and was a faithful and conscientious nurse, having cared very successfully for some of the very difficult cases. She was a member of the second year class in the training school for nurses, was very diligent in her studies and was held in high respect by all her associates. The funeral was held at the Baptist church Tuesday at 10 a. m., Rev. Mr. Williams officiating, and was attended by a large delegation of hospital employes. The floral decorations were provided by Miss Rogers's associates and were very beautiful, prominent among these ing a harp and mound of carnations, ps and roses, a crescent and several tiful bouquets from nurses and other oyes. A quartet from the hospital two selections, and after the last one of her friends placed a white rose at de as a last tribute to their companion. eerful manner and sympathetic way missed both by her patients and nurses. There will be the regular minstrel first and second parts, and general dancing after the performance.

Associate Justice Dillon of the district court is saying things inwardly, so to speak, over the way he was buncoed on Monday. He was on the bench and a "drunk" was brought in. The man stated to Probation Officer Merriam that he had never been arrested before, and gave a good reason for his condition Saturday night, stating that he was afflicted with fits at times. He wore a pair of blue glasses, for trouble with his eyes. The man was placed on probation, and then it was discovered that he had a court record and had been sent up once by Justice Dillon himself—but all this was before the acquisition of the blue glasses, which changed his appearance so that he was not recognized.

A gang of so-called gypsies drifted into town Wednesday forenoon and kept the merchants wide awake during the time of their visit. They were apparently of the same class which called two or three years ago and "lifted" everything which was not nailed down or closely watched. There were only females in the crowd Wednesday, but a dirtier or more disreputable gathering would be hard to find — or imagine. They tried to tell fortunes but found few curious enough to risk personal contact with so much filth — for in order to tell your fortune it was necessary to hold your hand. Not even the extremely low price, "Only ten cent," proved availing. They were in two squads, and the first reached North Main street in advance of the others, where they produced black pipes and proceeded to absorb nicotine consolation while waiting the arrival of the others.

Mrs. Peter Nepteau of Palmer Center was injured last Friday night while alighting from an electric car at Four Corners. Mrs. Nepteau stepped off the car, following several others. and owing to a defect in the road, it is alleged, she fractured her ankle. She was taken to the office of Dr Charles Giroux.

The horse of Frank Metupsky of Ludlow became frightened by the electric cars on Main street Monday and ran away. The animal ran through Main street to the Island, where the carriage to which it was hitched was thrown against one of the houses and was badly demolished. Fortunately there was no one in the carriage. The animal was stopped before further damage was done.

A series of evangelistic meetings will begin in the Baptist church this evening at 7.45, continuing through next week. Rev. Arthur St. James of Boston will preach every evening. "The Old [illegible]estead," was presented to a large audience in Memorial Hall Tuesday evening by the Stafford Springs Dramatic Club. It was put on in a creditable manner and was thoroughly enjoyed. The parts of Josh Whitcomb, Cy Prime and Seth Perkins were well taken as was that of Rickety Ann. The singing by the male quartet and by Miss Eaton and Miss Harris was also well received. Nearly $200 were taken in, and the Monson Baseball Association, under whose auspices the entertainment was held, will receive a good round sum as their share of the profits.

BONDSVILLE.

Hand Badly Hurt.

Railroad torpedoes are dangerous playthings for children, as eight-years-old Delia Matthews knows now by experience. She was walking on the railroad track last Sunday and found one which had probably been dropped by a brakeman. Thinking to find out what was in it she placed it on the concrete walk and began hammering it with a stone, whereupon it exploded, badly tearing the little finger of her left hand, bruising another finger and sending some of the explosive into her face. Medical aid was summoned and it is hoped that the finger can be saved.

King's Daughters' Fair.

The King's Daughters will hold a fair in the vestry of the M. E. church next Friday evening. There will be booths for fancy work, home-made candy and also a butterfly booth. During the evening ice cream and cake will be served. A farce, entitled "The Dumb Waiter," will also be given. Following is the cast of characters:

Mrs. Sigsbee, principal,	Miss Genevra Billings
Miss Warren, teacher in elocution,	Miss Edith Childs
Sally Warren, an old pupil,	Miss Annie Collis
Lucy Deering, } new {	Miss Mildred Dustin

WARE.

McArdle—Powers.

The wedding of Miss Mary D., daughter of Mr. and Mrs. Owen McArdle of East street, and Harry J. Powers of Newton Lower Falls took place in All Saints' church Wednesday morning at 9 o'clock, in the presence of a large number of friends and relatives. Rev. John H. Murphy performed the ceremony and Rev. J. J. Riordan celebrated the nuptial mass. The bride and groom were met as they entered the church by four ushers, John W. Clark, J. William O'Connell, William Neff and Frederick B. Clark, who escorted them to the alter rail. Miss Bridget McArdle, sister of the bride, acted as bridesmaid, and John J. Hartnett of Boston was best man. The bride was attired in white chiffon taffeta silk, trimmed with white applique and duchess lace. She wore a bridal veil and carried a bouquet of carnations. The bridesmaid wore a dress of pink chiffon taffeta silk, trimmed with applique, and a large picture hat. Following the ceremony a reception was held and a wedding breakfast served at the home of the bride, Rohan Bros. catering. Mr. and Mrs. Powers left in the afternoon for a three-weeks' trip to Buffalo, after which they will reside in Newton Lower Falls, where Mr. Powers is station agent for the New York Central railroad on the Boston and Albany line.

Plans for Street Fair.

The committees appointed by the business men's association and the agricultural society to investigate the matter of holding a street fair and hall show held a meeting Tuesday afternoon, and it was decided to recommend to the two organizations that such a combination of events be held on Friday and Saturday September 15 and 16, on Main street and in the town hall. The business men's association is to have charge of the street fair, while the agricultural society will take charge of the hall show for competitive exhibitions of vegetables, fruits, etc. It is to be so arranged that the joint income will cover the joint expense rather than for either organization to make while the other lost money. Main street will be given up entirely to a carnival of trading booths for the merchants, with a few fakirs scattered along the street to enliven matters. Music will be furnished by a band.

Selectmen Grant Licenses.

The selectmen held a meeting Monday evening and granted these first-class licenses: Fred F. Gilmore, Mansion House; William and David Rohan, at the Hampshire House; William E Liversage, Storrs House; William H. Launier, at the Commercial Hotel; fourth class, James Neville, corner of Water street; James and Michael Smith, 56 Water street; Patrick Barry and Robert Potts, East Water street; Joseph Boucher and Louis A. Sprack at 98 Main street; sixth class, druggists, Louis E. Phaneuf, George C. Smith, William M. Kennedy. There were no applications for licenses from any hackmen, truckmen or junk dealer, and except for one junk dealer there will be no licenses in force for any of the men holding them now after this week, as all expire on May 1.

House Burned.

The Wilbur Robbins house, east of the old Indian cemetery, between the Ware river and the Palmer road, was entirely destroyed by fire Monday night. The house was vacant for the past week and no cause other than that of incendiarism can be given for the fire. The house was insured for $600. Mr. and Mrs. Robbins, who had occupied the place, moved their household goods to the home of their daughter in Indian Orchard some days ago and the property was sold to Joseph Hibbard of Hardwick, the son-in-law of Mr. Robbins. J. H. Schoonmaker had charge of the property for its owners, and all arrangements had been made for Frank Davis Jr. to occupy the house this week.

Filed Petition in Bankruptcy.

Arthur Vezina, a Ware baker, filed a petition in bankruptcy in Boston Tuesday. The schedule shows an indebtedness of $3013 03, and there are assets of about $50. Philomena Vezina holds the only secured claim, with a mortgage on personal property of the petitioner's horses, carriages, etc., to secure a debt of $247. There are 50 or more creditors who are unsecured, some of whom are: A. H. Brown Bros. of Boston, $200; New England Monumental company of Ware, $384; Melina Lague of Greenfield, $486, and L. M. Beauregard of Ware, $116.

Connell—Wheeler.

James Wheeler and Miss Ella G. O'Connell, both of Ware, were married Monday morning at 8 o'clock in All Saints' church, Rev. J. J. Riordan officiating. The bride was gowned in white. She was attended by her sister, Elizabeth, while her brother, William, acted as best man. Following the ceremony a reception was held at the bride's home on Pine street, after which Mr. and Mrs. Wheeler left for a two-weeks' trip to New York. On their return they will live on Prospect street.

Mrs. John Chaffee and Miss Jennie Twiss spent Easter with friends in Palmer.

The annual meeting of Trinity church was held Monday evening. G. W. Dunham was chosen treasurer and Herbert G. Weeks clerk, and H. G. Weeks, C. W. Booth and Herman Owry were chosen delegates to the convention to be held in Springfield next month.

A reception was tendered Dr. William Pariseau at the Commercial Hotel Wednesday evening by a number of friends. Dr. Pariseau left yesterday morning for Montreal, where he will be married Monday morning to Miss Anna Beaudry. After a short stay in Canada Dr. Pariseau will return to Ware with his bride

The three-nights' fair or flower feté of the Ware Golf Club opened Wednesday evening in the town hall and will close this evening with a dance. There has been a good attendance each evening and the fair has proved to be a great success. The central feature of this year's fair was the beehive, but other equally attractive booths were arranged around the hall.

The three-tenement house owned by William J. Howe of Enfield, located on West Main street, was badly damaged by fire Wednesday evening between 8 and 10. The firemen responded quickly to the alarm, but in spite of every effort it was impossible to get control of the flames for over an hour and the roof was nearly all destroyed. The house was occupied by Nicholas Shea, Patrick Donahue and George Pearson, with their families. The *family of Mr. Shea will suffer most* heavily, although some furniture was removed. Mr. Donahue's family were taken from the building after it caught fire, from their rooms in the upstairs tenement. The origin of the fire is unknown.

OUR LEGISLATIVE LETTER.

[CONTINUED FROM FIRST PAGE.]

which has kept him out of hot water thus far would carry him through the session without any clash or needless friction between the executive and Legislative departments.

There is to be noticed a new wrinkle about the executive department which adds to the apparent hospitality. There has this week been put upon the glass doors which lead into the department the lettering: "Governor and Council. Walk in." This was done because people used to come and look in through the door and turn away as if they had no right in the state house. It was felt that the executive department should be at least hospitable to the public and so the invitation was extended in this regular form to all who may come.

The much-disputed tablet on the back of the Hooker monument has been removed. The granite has been chiseled off and a new blank slab inserted in its place. Now there is no designation on the pedestal but the word: "Hooker."

It is said to be uncertain still whether the mobilization of all the state militia will occur on Westfield plain this summer, as the governor and Gen. Miles desire. The trouble is over the appropriations, for it will cost $20,000 to get the troops there and home again, and it is very doubtful whether the money can be had without a special appropriation, and they do not want to make that dip into the state treasury. Another fact is that the rank and file of the militia, and of the officers, got all the general maneuvering last year at Manassas which they want for awhile, and really they would prefer to be delivered from the proposed Westfield maneuvering.

Without a word of debate the gypsy and brown tail moth suppression bill has passed the Senate and one stage of the House. It will probably be amended in some minor respects, but the general work was so well done in the committee that there will be no objection to the bill in its main features. They are as already reported for an appropriation of $75,000 for this year, $150,000 for next year, and $75,000 for the year following, and a great deal of the expense to be put upon the municipalities and the property-owners.

How The Boston Journal Presents Clean Sporting News Daily.

This is a baseball year. The enthusiasm of the fans is unlimited and everyone is looking for the best reports of the national games.

Two full pages, covering all the sporting news in New England, is what The Boston Journal presents to its readers every day. Bob Dunbar's sporting chat, the best in every way that is printed, and the cartoons by "Bart," which appear nearly each day, give one an idea of what takes place in the sporting world in a unique and attractive manner. Pictures of men prominent in the sporting world are printed daily, and everything is reported in detail from local baseball games to an international game of checkers.

Bob Dunbar has been recognized as an authority on all sports. It is not one branch that he covers, but all, and he is equally familiar with a horse race, golf, tennis, rowing and sailing. There is no news but good news on the two pages of The Boston Journal devoted absolutely to sporting.

The Boston Journal has leaped into great popularity by its bright style, and is an absolutely different paper from the old Journal in its energy and enterprise.

He Did Not Stop to Think.

The amount of energy people sometimes expend in making a bad matter worse is illustrated by the story of a chance encounter in a street car told to the World by a New York man.

It was on a Broadway car, and there were few passengers. A man boarded the car and sat down by my side. His clothing was muddy and torn, and he had a handkerchief wrapped round one hand.

"I guess I am the biggest fool in town," he remarked. I looked interested, and he continued:

"See that car four blocks ahead? Well, I ran a block to overtake it and gave the conductor a dime. He handed me a nickel, which fell from my hand to the street. I yelled for him to stop the car. He did not do it, and I jumped off and landed all spraddled out like an old saddle. See my clothes? Well, the jump did it."

I asked the man if he found the nickel.

"Oh, yes, I found the nickel, but what good did it do me? I could not overtake the car from which I had jumped, and so I boarded this car and gave the nickel to the conductor. So I skinned my hand, spoiled my clothes and risked my neck just to find that five-cent piece and give it to the street railway."

Rheumatic Pains Quickly Relieved.

The excruciating pains characteristic of rheumatism and sciatica are quickly relieved by applying Chamberlain's Pain Balm. IN PALMER.

Every Claim Is Backed By Local Testimony.

If the reader wants stronger proof than the following statement and experience of a resident of Palmer, what can it be?

D. W. Powers, machinist, living on Main street, says:—"If the first box of Doan's Kidney Pills procured at LeGro's drug store had not brought undoubted results I never would have bought a second, neither would I have continued the treatment until cured of backache and dull aching pains in and around the kidneys. When the attacks were at their height it hurt to stoop or straighten, and I was never able to tell when making any unthought of movement that sharp twinges would not radiate across the small of the back. You are at liberty to send anyone to me for corroboration of the above."

Chinese Advice to Girls.

Between A. D. 785 and 830 there lived in China five remarkable sisters named Sung, all of whom possessed considerable literary talent, and especially the two elder ones. They refused to marry and devoted themselves to literature, being finally received into the palace, where in due course they all died natural deaths, with the exception of the fourth Miss Sung, against whom charges of accepting bribes were trumped up, the result being that she was forced to "take silk". In other words, to strangle herself.

The eldest sister wrote a book called "Discourses For Girls," based upon the famous "Discourses" of Confucius. It is in an easy style of versification and is generally suited to the comprehension of the young:

When walking, do not look back.
When talking, do not open wide your lips.
When sitting, do not rock your knees.
When standing, do not shake your skirt.
When pleased, do not laugh aloud.
When angry, do not shout.
Do not peep over the outside wall.
Do not slip into the outer court.
When you go out, veil your face.
When you peep, conceal your body.
With a man not of the family hold no conversation whatever.

Stilts in the Desert.

In the driest deserts of Arizona dwell the Papago Indians. They are very good Indians and quite civilized, living in mud houses and doing their cooking in outdoor kitchens in circular inclosures protected from the wind by grass mats fastened to stakes and with a fire in the middle.

One peculiarity of these Indians, who, by the way, are such formidable warriors that even the Apaches are afraid of them, is that they elevate many things upon stilts. Their mail boxes are on stilts, to keep them out of the reach of the coyotes, which will eat a letter if it has been handled by human beings, and also because of the annual floods. It rains in that region only about once a year, but then how it does pour! The heavens seem actually to open and immense areas are temporarily converted into lakes.

To keep them out of the reach of the floods and the coyotes (not to mention skunks) the Papago chicken coops are elevated high in the air fifteen or twenty feet—and at night, when it is time to go to roost, the fowls fly up and find perfect safety in their lofty aeries.

A Cheerful Giver.

Bobby's father had given him a ten cent piece and a quarter of a dollar, telling him he might put one or the other on the contribution plate.

"Which did you give, Bobby?" his father asked when the boy came home from church.

"Well, father, I thought at first I ought to put in the quarter," said Bobby, "but then just in time I remembered 'the Lord loveth a cheerful giver,' and I knew I could give the ten cent piece a great deal more cheerfully, so I put that in."

The Antalgica

Or Vegetable Pain Reliever

was introduced to the public in 1848, since which time thousands of bottles have been sold each year to an appreciative public, which is a good evidence of its merits. It is adapted to so many ailments it should be in every household, for it cures all kinds of pains both internal and external. For Bronchial affections it is unrivaled by any article in the market. It is a sure cure for Cholera Morbus and Dysentery, if taken in season, also for Coughs. It is an effective remedy for rheumatic affections, stiff joints, swelled limbs, sprains, cramps, toothache and many other ills to which the flesh is heir. Try it and it will do you good. It is sold at 25c, 50c and $1.00 per bottle by The Quimby Pharmacy, LeGro's Drug Store and the proprietor,

A SON OF WEALTH

By KEITH GORDON

Copyright, 1904, by T. C. McClure

At first it was merely the rumor of a rumor, then it became an authenticated report, and last the town, or at least that part of it which considered itself indubitably "upper crust," thrilled with the knowledge that Hemingway Trent was to spend a month with his aunt, Mrs. Ordway.

Set down in black and white, this fact appears insignificant, but just think a moment and repeat the name over and over to yourself—"Trent, Trent"—and you will doubtless begin to thrill, for the name of Trent is known wherever pickles are eaten or money spent.

It is only fair to the present Trents to explain that it is a far cry from the original pickle, or, rather, from the little patch of ground on the edge of a young city where that first pickle, that Aladdin's lamp of a pickle, grew to the present representatives of the family.

Hemingway, the future head of the Trent family, aged twenty-six, was coming to Carriston for a visit. A blaze of interest sprang up in anxious mother hearts at first rumor of this fact, and, though they guarded eye and lip, some sparks flew and little additional fires sprang up in the hearts of marriageable daughters. Finally the air became surcharged. Adamantine father hearts gave signs of emotion, a restlessness, a critical, lingering survey of daughterly charms. Several rush orders for gowns of more than ordinary beauty were sent scurrying across the continent. And it was significant that this finery to come was never mentioned, not even between the best of friends.

Amid all the intense, subdued flurry of preparation there was one family that remained serene. Mr. and Mrs. Barry of Barrydene went their elegant, languid way, undistracted and unmoved, though they, too, had a marriageable daughter. The way of the Barrys had long since ceased to be affluent. If the Hemingways, for whom Trent was named, had left a ramshackle shanty far behind them the Barrys, on the other hand, had come from a rare old colonial mansion that overlooked the river Severn. The only difference between them was that they had started at different ends of the chain.

Still, Brenda Barry, only child and chief depository of the practical sense of the house of that name, was usually filled with a tingling resentment when she heard of the enormous fortunes of the "new" people. Being a woman, she could not fail to feel the subtle tenseness in the social atmosphere, and for the same reason she instinctively divined its cause. And to say that she was scornful but faintly expresses it.

There was nothing about the good looking, athletic young fellow whom she met a week later to justify that scorn. He was the usual thing—a very much washed, immaculately dressed young man of the day, with a desire to please which was so apparent that Brenda had to goad herself into remembering how frightfully new and disgustingly rich he was.

This attitude on the part of one whose head might well have been turned by the flattery and attention he was receiving on all sides mollified her somewhat. Then by chance she happened to encounter a rather vindictive glance from Helen Carrington's violet eyes—Helen was wearing an exquisitely simple gown that had not seen the light before—and suddenly her own plan of action was clearly mapped out in her mind.

"Too much soothing sirup," she reflected ironically. "What he needs is a tonic." This mental comment of hers may have had something to do with the delightful sense of refreshment young Trent felt in her presence. She asked him none of the usual questions with which the others had pestered him until he wondered impatiently if they had nothing to think about but him. Indeed, she didn't seem to be very clear as to his identity, so that he felt compelled to refer rather diffidently to the fact that he was on to visit his aunt, Mrs. Ordway. Even then her face was impassive.

"Rather a stunning girl, that Miss Barry," he remarked to his aunt the next day on their drive as she pointed Barrydene to him, while he noted with interest its picturesque decay. The stucco house was a beautiful soft gray, and what had once been a garden after the Italian manner was now overgrown and neglected, yet full of wistful beauty. Near a corner of the house he caught the gleam of a light gown and energetically tried by means of hypnotic suggestion to cause his aunt to stop, but she sat placidly beside him, utterly unaware that the castle of her mind was being assaulted.

Trent reasoned that if you pass a person's house often enough you are pretty sure to meet that person. On the third successive morning that he passed Barrydene she came through the gate in the neglected hedge just as his horse jogged slowly by.

She wore a short pink gown, with sleeves turned back and collar turned in, and in her hand she carried what appeared to be a wet napkin. She greeted him with a negligent nod, putting him still further at ease by her inquiry.

"Have you—I don't suppose you have—but have you seen a small dog that looked as if he were sneaking away from home?"

Trent was off his horse in a moment, while he assured her that, though he had encountered no such animal, he was sure that he could find it should she command. She put away his offer.

"Oh, he'll come back! Only he knows it's wrong—and I like to be obeyed."

"I'd obey in a jiffy—if you'd tell me to come in," Trent ventured boldly.

Miss Barry was all demureness for a moment; then a wicked gleam danced into her eyes.

"Come—pray do," she invited sweetly. And a moment later he had tied his horse and was walking beside her up the graveled path where the grass grew unrebuked. Everywhere there was disorder, but it was of the pictorial sort that has an attraction all its own. To Hemingway Trent, accustomed to grounds that were bathed and shaved almost as regularly as their masters, it was oddly charming. His companion, however, noticing his musing, lingering gaze, construed in a different way.

"Pities us, I suppose, because we haven't a head gardener and two or three assistants," she thought to herself resentfully. Thereupon she decided to shock his sensibilities still more.

"It's rather informal, I know," she said glibly, "but I'm going right on with my work." And she led the way around to the rear of the house. "You see, I've just been doing a few of the small fine pieces myself; the Chinaman brings them back streaked in so many shades of pink and blue."

She looked at him furtively, but it was evident he was thoroughly mystified. She was obliged to be more explicit

"Washing, you know," she elaborated, pointing to an Indian basket heaped with linen that stood on the grass. "Now just make yourself comfortable and talk to me while I work." And she proceeded rather ostentatiously to spread out some dainty handkerchiefs and napkins on the adjoining rosebushes, while her caller looked on in shocked, speechless amazement.

"Oh, I say! You oughtn't to do this, you know. It's ridiculous; it's an outrage. Get a Chinaman who'll do the right thing. There must be one somewhere."

Miss Barry became sweetly pensive. Resignment spoke from every line of her face.

"There are some," she admitted, "but they charge, oh, fearfully!" Then, with hands locked behind her, she stood back and regarded the bushes where all the sweet rose faces were now hidden from the sun with a virtuous enthusiasm. "That saves papa as much as a dollar," she said proudly, "and every little helps."

Trent murmured something, he did not precisely know what, so busy he was trying to think what it must be like, the financial condition that made the saving of a dollar so great a thing. Brenda covertly watched him with fiendish delight, which was, it is true, modified when she discovered that his surprise was changing into a sort of awed admiration.

Still she managed to convey to him before he took his dazed departure that she usually spent the early morning hours gardening, working in another pathetic reference their need of economy.

Promptly the next morning Trent, clad in the most disreputable clothes he could procure, might have been seen hanging about the Barrydene hedges. When the daughter of the house finally made her appearance it was not so early, though, as he had been led to believe. He walked in boldly, announcing with the simplicity of the early Trents—the market garden ones—that he'd come to help. Miss Barry's face turned a riotous red, and she tried to dissuade him, but for an hour or more he digged and delved at her side right sturdily. Once begun, there was no stopping him, and Carriston watched the disgraceful affair aghast. When later on the gardening led to the usual result Brenda looked him straight in the eye.

"I fancy that I have angled for you just as much as the others," she said breathlessly. But Hemingway Trent only laughed.

"What difference so long as I like your bait?" he questioned.

Chamberlain's Cough Remedy the Best and Most Popular.

"Mothers buy it for croupy children, railroad men buy it for severe coughs and elderly people buy it for la grippe," say Moore Bros, Eldon, Iowa. "We sell more of Chamberlain's Cough Remedy than any other kind. It seems to have taken the lead over several other good brands." There is no question but this medicine is the best that can be procured for coughs and colds, whether it be a child or an adult that is afflicted. It always cures and cures quickly. Sold by Quimby Pharmacy, Palmer.

Great Men Who Were Little.

Canon Kingsley not long before his death drew attention to the number of short men who could be seen in a London crowd. He looked upon it as a sign of the deterioration of the race. But there are those who look at it as an indication of progress in intellectual lines at least, for many if not most of the great men of history have been men below the medium height. Canute the Great was a singularly small man. Napoleon was undeniably short, Nelson had no height of which he could boast, and the great Conde was hardly more than five feet tall. Hildebrand—Gregory VII.—the greatest of all the popes, was quite a diminutive person. Montaigne was short; so was Pope, "a little crooked thing that asked questions;" so was Dryden, and so was Scarron, who alluded to himself as "an abridgment of human miseries" on account of his short stature and ill health.

Chinese Peculiarities.

In giving his opinion of China Captain Faulkner of the artillery corps epitomized the Chinese characteristics so cleverly that some of his listeners copied down his words.

"China," said Captain Faulkner, "is a country where the roses have no fragrance and the women no petticoats, where the laborer has no Sunday and the magistrate no sense of honor, where the roads bear no vehicles and the ships no keels, where old men fly kites and the needle points to the south, where the place of honor is on the left hand and the seat of intellect in the stomach, where to take off your hat is an insolent gesture and to wear white garments is to be in mourning, a country which has a literature without an alphabet and a language without a grammar."—London Globe.

Pen Picture of Bunyan.

In the life of John Bunyan by W. Hale White the author of "Pilgrim's Progress" is described as follows: "He appeared in countenance to be a stern and rough temper, but in conversation mild and affable, not given to loquacity or much discourse in company unless some urgent occasion required it. He never boasted of himself or his parts. He abhorred lying and swearing, being just in all that lay in his power to his word, not seeming to revenge injuries, loving to reconcile differences and make friendship with all. He had a sharp, quick eye, accompanied with an excellent discerning of persons, being of good judgment and quick wit. As for his person, he was tall of stature, strong boned, though not corpulent, somewhat of a ruddy face, with sparkling eyes, wearing his hair on his upper lip after the old British fashion, his hair reddish, but in his latter days time had sprinkled it with gray. His nose was well set, but not declining or bending, and his mouth moderately large, his forehead something high and his habit always plain and modest."

The Art of Drawn Work.

Perfilado, or drawn needlework, occupies the same place in Mexico as lace does in Brussels. The city of Matamoros is the center of its production, and large quantities of this beautiful work are exported to the United States. Women and girls are employed in the manufacture, and some of it is very expensive, for a year may be required to make a single piece. The linen or silk is placed in a frame, the threads are drawn out one way, and with a needle and the finest spool thread the design is worked. Perfilado is taught in the public schools. Among the articles made are handkerchiefs, tablecloths, bedspreads and covers for chairs or lounges. The work is hard and difficult, and the earnings are on an average less than a shilling a day.

Bad Blood

Catarrh is distinctly a bad-blood disease. The external signs are unmistakably shown by Eruptions, Pimples, Dry Scaly Skin, Rash and Eczema. This condition might naturally be expected, since, in fact, Catarrh is an internal scrofula, destroying the tissues just as surely as does scrofula on the skin. The trouble is people do not see what is going on inside and they are inclined to let it go from bad to worse, until there is a breaking down of the entire system, with loss of appetite, general weakness and debility, no ambition to go about as before, and presently consumption takes hold. The time to remedy the trouble is when it is Catarrh, and the remedy to use should be a special prescription for Catarrh. That remedy is Rexall Mucu-Tone.

I sell more bottles and hear more good reports about Mucu-Tone than I do of all the other Catarrh remedies in my store, but the reason is not hard to understand. Mucu-Tone is designed specially to cure Catarrh, being prepared from the prescription of a physician whose specialty was Catarrh for thirty years. Now do you wonder that Mucu-Tone cures Catarrh? I don't. That it has cured ninety-eight per cent of the people to whom I sold it is no surprise, because it works in a sensible, scientific way, destroying the deadly parasites that float through the blood in the system, and which spread the trouble. Then, as its very name implies, it tones the mucous tissues—the tissues that are being ravaged by the catarrhal parasites—and there is new life and tone in every drop of blood and every cell in your body. It adds weight to run-down people.

I have a large trial size of Mucu-Tone at fifty cents per bottle, and I guarantee it to give satisfaction or refund the money you pay me,

Dyspepsia of Women

ABSOLUTELY NEEDLESS AGONY

Caused by Uterine Disorders and Cured by Lydia E. Pinkham's Vegetable Compound

A great many women suffer with a form of indigestion or dyspepsia which does not seem to yield to ordinary treatment. While the symptoms seem to be similar to those of ordinary indigestion, yet the medicines universally prescribed do not seem to restore the patient's normal condition.

Mrs. M. Wright

Mrs. Pinkham claims that there is a kind of dyspepsia that is caused by a derangement of the female organism, and which, while it causes a disturbance similar to ordinary indigestion, cannot be relieved without a medicine which not only acts as a stomach tonic, but has peculiar uterine-tonic effects also.

As proof of this theory we call attention to the case of Mrs. Maggie Wright, Brooklyn, N. Y., who was completely cured by Lydia E. Pinkham's Vegetable Compound after everything else had failed. She writes:

"For two years I suffered with dyspepsia which so degenerated my entire system that I was unable to attend to my daily duties. I felt weak and nervous, and nothing that I ate tasted good and it caused a disturbance in my stomach. I tried different dyspepsia cures, but nothing seemed to help me. I was advised to give Lydia E. Pinkham's Vegetable Compound a trial, and was happily surprised to find that it acted like a fine tonic, and in a few days I began to enjoy and properly digest my food. My recovery was rapid, and in five weeks I was a well woman. I have recommended it to many suffering women."

No other medicine in the world has received such widespread and unqualified endorsement, or has such a record of cures of female troubles, as has Lydia E. Pinkham's Vegetable Compound.

TOWN OF PALMER.
ASSESSORS' NOTICE.

To the Inhabitants and other Persons liable to pay taxes in the town of Palmer for the year 1905.

The Assessors of the Town of Palmer hereby give notice to the inhabitants of said town, and all other persons liable to pay taxes therein, that they will receive at the Town House on Monday, the first day of May next, from 10 o'clock a. m. until 4 o'clock p. m., the valuation of estates, and all persons liable to be taxed in said town are hereby notified to bring in to us true and perfect lists of all polls (males twenty years old and upwards), and schedules and estimates of the Personal and Real Estates for which they are liable to pay taxes in said town, possessed by them on the first day of May next.

MORTGAGED REAL ESTATE.

Any Mortgagor or Mortgagee of Real Estate situated within this town may bring in to the undersigned Assessors, within the time above specified, a statement under oath, of the amount due on each separate lot or parcel of such Real Estate, and the name and residence of every holder of an interest as a Mortgagor or Mortgagee therein. When only a part of the property described in any mortgage is situated within this town, an estimate of the amount of a Mortgagee's interest in such part; or when a recorded mortgage includes for one sum two or more estates or parts of an estate, an estimate of the amount of the Mortgagee's interest in each estate or part of an estate shall be given in such statement. — Chapter 175 of the Acts of 1882.

CHAPTER ELEVEN OF THE PUBLIC STATUTES.

SECTION 14 "When any person has an interest in taxable real estate as holder of a duly recorded mortgage, given to secure the payment of money, the amount of which is fixed and certain, the amount of his interest as Mortgagee shall be assessed as Real Estate in the place where the land lies; and the Mortgagor shall be assessed only for the value of said Real Estate after deducting the assessed value of all such Mortgagee's interest therein. When such property is situated in two or more places, the amount of the Mortgagee's interest to be assessed in each place shall be proportioned to the assessed value in the respective places of the mortgaged Real Estate, deducting therefrom the taxable amount of prior mortgages, if any therein."

SECTION 15 "If any holder of such a mortgage fails to file in the Assessors' office a statement under oath of all his estate liable to taxation under the preceding section, including a statement of the full amount remaining unpaid upon such a mortgage and of his interest therein, the amount stated in the mortgage shall be conclusive as to the extent of such interest; but the Mortgagee's interest in such real estate shall not be assessed at a greater sum than the fair cash valuation of the land and structures thereon or affixed thereto; and the amount of a mortgage interest in an estate that has been divided after the creation of such mortgage shall not be required to be apportioned upon the several parts of such estate except as provided in sections eighty-one to eighty-three inclusively."

SECTION 16. "Mortgagors and Mortgagees referred to in the two preceding sections shall, for the purpose of taxation, be deemed joint owners until the mortgagee takes possession; and until such possession is taken by the first Mortgagee, the Assessor or the Collector of Taxes, upon application to any one of them, shall give to any such Mortgagee or Mortgagor a tax bill showing the whole tax on the mortgaged estate and the amount included in the valuation thereof as the interests of each Mortgagee and of the Mortgagor respectively. If the first Mortgagee is in possession he shall be deemed joint owner with prior mortgages."

When a statement in conformity to the law above quoted is brought in, the Real Estate therein returned will be assessed under Sections 14, 15 and 16 of Chapter Eleven of the Public Statutes. But in cases where the Mortgagor of the Real Estate has agreed in writing to pay all taxes assessed thereon, no statement or return is required from either Mortgagee or Mortgagor, unless requested by the Assessors in writing 2-3

HAT SHOP TO CLOSE UP.

Principals in Concern Will Go to Dana Company.

HAD $20,000 PAYROLL THIS YEAR.

Company Will be Dissolved at End of Season, Probably About June 1st.

It has been definitely decided within the week that the Harvest Hat Company will close its factory here with the end of the present season, which will probably be about June 1st. That such a result might come about was announced in the Journal some time ago, but it was hoped that events might materialize which would conduce to keep the company here or the factory open, but this seems hardly possible now.

The reason for the closing of the works is that the owners of a majority of the stock of the company have bought a controlling interest in the Goodman company of Dana, and will remove to that place, the affairs of the Harvest Hat Company being wound up. The stock and machinery will be disposed of to the best advantage, and the latter could probably be bought at a reasonable figure if a purchaser could be found who desired to engage in the manufacture of hats here. It has been expected that this result would be brought about until recently, but the plans in this direction have failed.

The Harvest Hat Company was formed three years ago by former stockholders of the Goodman company, who started in to build up a name and a business. This they have succeeded in doing, until to-day the company is well known from the Atlantic to the Pacific, and ships its hats to almost every state in the Union. The quality of its product has steadily advanced, and its reputation for manufacturing a good article is second to none. The management of the business has been in the hands of F. S. Grover, to whom the credit for its success is due. The payroll of the company has been about $20,000 this year, which will be missed by the business men of the town.

HISTORICAL SOCIETY'S ANNUAL.

Officers Elected—Numerous Donations Reported—Adjournment to September.

The Palmer Historical Society held its annual meeting Tuesday night in the reference room of the public library and elected these officers for the ensuing year: President, Fred Wilder Cross; vice president, Mrs J. C. Wing; secretary, Mrs. George A. Rice; treasurer, Mrs. L. E. Carpenter; curator, O. P. Allen; members of the council, Mrs. W. H. Fuller and Rev. M. O Patton; committee to coöperate with other societies on village improvements, F. W. Cross, C. H. Hobson, Rev. W. A. Moore; committee to report on placing commemorative tablet near the Washington Elm, F. W. Cross, O. P. Allen, D. L Bodfish.

The curator reported the following donations to the society since the last meeting: Copy of the Monson Academy Centennial Jubilee, from L. E. Chandler; history of descendants of Gordon Sedgwick of Palmer, from H. M. Sedgwick of New Haven; address on coöperative local historical societies, from C. J. Woodbury of Lynn; Ulster Co. Gazette of 1800, from C. W. Bennett; hymns and spiritual songs, printed by Ezekiel Terry, Palmer, 1816, from H. R. Huntting of Springfield; collection of gold-bearing minerals, from A. E. Fitch; samples of bullets used in the Spanish war, from Miss Hart of Palmer; framed photographs of members of L. L. Merrick post, G. A. R., from Byron Woodhead.

By special invitation Rev. W. A. Moore gave an informal talk on the Wayside Inn of Sudbury, Mass., which he visited recently. He gave a very interesting description of the old landmark and of the historical associations connected with it from the early days when it was the gathering place of many of our noted men, including Washington, Lafayette and a long list of others. Mr. Moore interspersed his remarks with selections from Longfellow, which added much to his realistic description of the old house and locality.

The society adjourned till September, as usual.

ONLY TWO MORE NIGHTS.

Bazar of S. M. T. A. S. to Close To-morrow Night.

The bazar under the auspices of St. Mary's Total Abstinence Society of Thorndike, which is now going on at Union Hall, opened on Friday evening last with a grand concert and ball. The affair was largely attended and a decided success in every particular. The music—Bryant's Singing Orchestra of Orange, which was heard in Palmer for the first time—gave general satisfaction. The concert which preceded the ball was well received, every number on the program being finely rendered. The grand march was led by M. F. Hurley and Miss Louise Longtine, followed by 100 couples, persons being present from Hartford, Springfield, North Wilbraham, Monson and the villages of Palmer. During the week the attendance has been very good and a large attendance is assured during the remaining nights of the bazar, which will close to-morrow evening. Dancing and a variety of amusements have been in order every evening. Among those who have contributed their services at the entertainments are Miss June Engle and George McMannus of Springfield, Miss Eva Provo of Ware, Albert Gould of Monson, John Casson of Springfield, Miss May Senton and Miss Mabel Hubbard of Three Rivers, Messrs McKenzie, Arecotte, Thomas, Brown, Clark, Collis and Cutting of Palmer, Enos Ahare and John Donahue of Bondsville and Daniel Dunn.

The artists to-morrow evening will include Frank Foley, Miss Katherine Foley and George McManus, soloists, and John Hurley, clarinetist.

WALES.

James McBride has been spending a few days in Monson.

The little four-years-old daughter of W. Battye is seriously sick with pneumonia.

Mrs. Isaiah Hiscock and Miss Horton spent Wednesday in Stafford Springs, Ct.

George Flynt has returned to town from Southbridge, where he has had charge of a stock farm.

George Dimmick, the local express man, has bought a new team horse of C. G. Thompson.

J. H. London is having a roof put on his machine shop in place of the one burned off last fall.

Joseph Gregory has moved his family from Brimfield on to the Burley farm on the Brimfield road.

J. G. Paasaa, manager of the N. E. Telegraph and Telephone Co., was given a surprise party Monday evening by his friends, who presented him with a fine Morris chair.

MINER B. BOOTH.

Brimfield Man's Death After Long Residence in the West.

The funeral of Miner B. Booth, who died at the home of his parents, Mr. and Mrs. Melvin Booth in Brimfield, Thursday, April 27, was held in the Congregational church Monday afternoon. There was a large attendance of townspeople, and those present from out of town were Mrs. S. B. Tift and Mr. and Mrs Ransom Tift of Westford, Ct., Mrs. Fred Howard of West Medford, Mrs. Frank Shepard of South Framingham, Mr. and Mrs. Milo Booth of Jamaica Plain, Mr. and Mrs. Isaac P. Booth of Stafford, Ct, Arthur Copeland of Thomaston, Ct., Homer Copeland of Norwich, Ct., Henry Booth and Mrs. Leon Booth of Union, Ct., Mrs. J. L. Fuller of Monson, Milton Booth of Palmer. Rev. Samuel Eaton officiated, assisted by Rev. Isaac T. Booth. The church choir sang three selections: "Saved by Grace," which was a favorite hymn of Mr. Booth's, "Sweet Peace, the Gift of God's love," a part of which he repeated in his last hours, and "The Better Land."

Mr. and Mrs. Booth have the deep sympathy of the community in the death from consumption of their son, following, after an interval of a few years, the loss of three daughters from the same disease. Five years ago when signs of pulmonary trouble developed he went to Colorado Springs and had remained in the West since that time, with the exception of a visit of a few months at home two years ago. He returned home Thursday, April 6, just three weeks before his death, and in about ten days was prostrated with peritonitis from symptoms of which he had been suffering some time before he left Colorado Springs. Before he was stricken down he had been able to attend an evening service and a social gathering at the church, where he enjoyed meeting many old friends. His death occurred on his 31st birthday. Besides his father and mother, he leaves a brother, Olin R. Booth, who is at Fort Bayard, New Mexico, and who is 1st lieutenant of the 11th Infantry, U. S. army.

Miner B. Booth was born in Union, Ct., April 27, 1874, and was the son of Melvin and Emily (Copeland) Booth. His parents moved to Brimfield when he was about 12 years old and he was educated at the Hitchcock Free Academy. He afterwards moved to Holliston with his family, where he carried on a large farm for about four years, but returned to Brimfield when his parents took up their residence again in that town. During that period of absence from Brimfield, he studied for six months in Moody's Bible Institute at Chicago. His five years in the West were mostly spent in Colorado Springs and Manitou, with a stay of a few months last year in Southern California. He had engaged successfully in various occupations suited to his strength in the several places where he lived.

Mr. Booth was a young man of much intelligence, with habits of observation and thought, and he possessed sterling qualities of character. He was a member of the Congregational church at Manitou and also had been a member of the church at Brimfield and at Holliston. He was active in church work and also interested in the promotion of all causes for the public welfare. He was a citizen whom any community could ill afford to lose,—conscientious and persistent in his efforts for a good cause.

In his remarks, Mr. Eaton said in part: "Our business here to-day is to bury our dead brother, not to eulogize him. Everyone knows our brother stood for that which is pure and right and good. Wherever he went his determination was to stamp out evil and to advance righteousness. His voice was heard, and giving no uncertain sound, always on the side of the right. He had come home hoping to be a help to his father and mother and desiring to take part in church work; but he expressed himself, during his illness, as willing to go if it was the will of God. His last words were "Peace, Sweet Peace." We have been told that the Grecian women, wives of the fishermen, sit on the seashore when they expect their husbands to return from their work, and sing, listening for an answer to their song; then they sing together. So we sit on the shore of time, and waft our song heavenward, and as we listen, we may seem to hear the song of the redeemed. So our voices may still mingle with those of our loved ones who have passed on. Let us be comforted with this thought."

Hargreaves' Shows.

Many people have refused to attend tented performances on account of the objectionable surroundings. It is a well-known fact that the proprietors of some shows are in league with swindlers, thieves and robbers and allow them to deliberately rob the patrons of the shows for a part of the proceeds. The managers of Hargreaves' Shows announce that they have determined to wage an active fight against all such shows and at the same time convince people that shows which gave a moral and instructive entertainment deserve the patronage and support of all respectable people. In addition to keeping the shows entirely clear of everything immoral or suggestive they have taken measures to see that no games of chance, gambling or criminal practices are allowed anywhere near the show grounds. They not only have secured the hearty co-operation of police officials in every city to secure this but also a special force of officers who will see that none of its patrons are imposed upon. Ladies and children will find that the Hargreaves' Shows are thoroughly clean, highly diverting and of an educational character. It is the biggest and best show now on the road and the only complete amusement enterprise that will visit this town this year. With its marvelous circus performance, its complete and costly menagerie, its astound ing Wild West and its realistic Hippodrome it will please and amuse everyone who attends it. It will exhibit in Palmer one day only, Saturday, May 13, on the Converse lot.

Rented Another Man's Property.

It's a question just who the joke is on, but the story is true and it's a good one. A man who owns a farm not many miles from Palmer, through which a trout brook flows, made a trade with a city Nimrod by which he rented him a large piece of fishing ground. It didn't make any difference that the piece rented was not his, but belonged to another man who did not live on the property but resided in Palmer, he got a check for $30 for the fishing privilege and concluded that he had done a bright thing, as long as the city fellow didn't know any better. The more he thought of the matter the cuter he concluded he had been and he had to tell it to someone. So when he came to Palmer he told the story to the man he asked to cash his check; this man happened to be the son of the owner of the brook which had been rented, though of course the possessor of the check was not aware of this. Now the owner of the brook, concluding that if the fishing privilege is worth anything he might as well have the returns as anyone, has posted notices forbidding fishing without his permission.

PENNY SAVINGS STAMPS

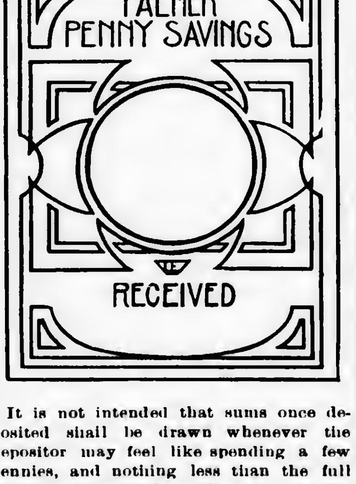
To Be Introduced in the Palmer Schools Next Week.

MANAGED BY PALMER WOMAN'S CLUB

Youngsters to be Encouraged to Save Their Pennies and So Get Bank Account.

The penny savings stamp system, which has proved so successful and of so much benefit to the school children of other places, will be inaugurated in the Palmer schools next week.

The system is very simple. A scholar who wishes to make a deposit is given a card bearing his name, on which is printed the rules governing the deposits. Stamps are then issued for the amount of money deposited, the stamps to be used in Palmer being of the denominations of 1, 2, 3, 5, 10 and 25 cents. These stamps are affixed to the card, and when the amount reaches $2 the sum may be deposited in the Palmer Savings Bank in the name of the owner of the card, and will begin to bear interest from that date.



It is not intended that sums once deposited shall be drawn whenever the depositor may feel like spending a few pennies, and nothing less than the full amount represented on the card may be withdrawn except in cases of necessity, such as illness or removal from town. When a depositor graduates or leaves school his money or bank book will be given him, but this and all other withdrawals must be made at the request of the parent or guardian. This is calculated to make the savings permanent and not permit the depositor to withdraw and waste them.

The system is being installed by the Palmer Woman's Club, the financial secretary of the club receiving the deposits from the collectors in the several schools and depositing the same in the savings bank, beyond which it assumes no responsibility however. It is hoped that the system will encourage the children to save their pennies instead of spending them for candy, gum and other things which they are perhaps just as well without, and form in them a habit for saving which will be of value to them in future years. That the system is looked favorably upon is proved by the knowledge that a number of sums have already been saved by school children for deposit when the system has been introduced. Cards and stamps will be ready next week, when deposits will be received. A handsome set of stamps has been prepared, the drawing being made by Miss Tarbell, the drawing teacher of the schools. The colors are: 1-cent, brown; 2-cent green; three-cent, blue; 5-cent, red; 10-cent, yellow; 25-cent, sienna. A fac-similie of the stamp is shown above, the size of the stamps being 1⅛ by 1⅛ inches. The arrangements are not fully completed, but a representative of the Woman's Club will be at the several schools one day in each week, from 8 to 9, to receive deposits and give out the stamps. The exact day will be fixed later.

WILBRAHAM.

The F. C. Learned farm has been sold to Mr. File of Boston.

Mr. Wicker has exchanged his place for property in Springfield.

Theodare Gebeault will soon move to his new home on North Main street.

Miss Mary E. Howard, supervisor of music of several schools, is planning to sail for Europe in June, and will be absent about two months.

NORTH WILBRAHAM.

Miss Amy Chase of Wallingford, Ct., has been the guest of Miss Edith Chase.

Mrs. Henry Tuite, 32, died suddenly at her home Sunday afternoon of oedema of the lungs and heart trouble. She was taken ill about a week before her death, but was around the house as usual Saturday. Mrs. Tuite was born in St. Come, P. Q., July 7, 1873. She was married to Henry L. Tuite in Hartford, Ct., and had lived in North Wilbraham about 10 years. She leaves, besides her husband, one son, Edmund, three years old, and an infant daughter, four weeks old. The funeral was held Tuesday morning in St. Cecelia's church at 9.30, and burial was in the Thorndike cemetery.

WARREN.

Joseph G. Hastings has been appointed a justice of the peace by Gov. Douglas, and has qualified for the office.

B. O. Gage of Boston has been appointed general supervisor of all the manufacturing departments of the Warren steam pump company. Mr. Gage was formerly employed at Warren by the Knowles steam pump company, and later was employed by the George F. Blake Mfg. Co. at East Cambridge.

At a meeting last Friday the selectmen granted the following licenses: Innholder's, first and fourth class, $1800 fee, Linnehan & Mullen in H. A. Ramsdell's block, Fountain & Dufresne in Ponthriand block, known as Hotel Lafayette, and Michael J. Hennebry & Co., in the Sullivan block, known as West Warren hotel; common victualer's license, first and fourth class, to William J. Tagan & Co. in the Miranda building on Chapel street at West Warren; druggists' license, sixth class, Joseph G. Hastings.

The board of fire engineers met Monday evening and organized as follows: Chief engineer, John J. Lycett; assistant engineer, Robert Love; clerk, Charles E. Connors. The following appointments were made: No. 1, Cyrille Longevin, engineer; Andrew P. Van Slyke, assistant; Austin Woodard, stoker; steamer, No. 2, Nelson Prairie, engineer; William Cutler, assistant, and Hormisdas Graveline, stoker; superintendent of fire alarm, George A. Barton; janitors, West Warren, Francis J. Foley; Warren, Daniel Kellegrew.

Our Legislative Letter

BOSTON, MAY 3, 1905.

Great issues accumulate as the session draws near its close. They are issues which concern the policy of the state in a large degree and they are not to be settled quickly or carelessly. What is to be the policy of the state toward the complete consolidation of all the transportation lines in the state? If the Legislature makes no stand against the present policy of the New York, New Haven and Hartford railroad company in buying up the street railways of the state, acting either directly or indirectly through subordinate corporations which it controls by holding a majority of their stock then the people will soon be helpless in the hands of the strongest monopoly which ever fastened upon them. Mr. Luce of Somerville has been conspicuous in his service to the public in taking the initiative in learning what are the rights of the people and in standing up ready to fight against the monopoly. There are members of the Legislature who are always and instinctively upon the side of the corporation. What the influence is behind them is not evident. It may not, by any means, be direct money influence. It may be the support of the corporations in their ambitions to hold political office. In some cases it seems as if that would explain the phenomenon. But the fact is that certain members are never to be counted upon to defend the cause of the people. It is only a few days that a member of last year's House made a call at the state house, and this remark was made to him by a man who got his information by practical work in the lobby: "We always keep watch of the House and if there are any members who are conspicuous against the corporations, they never get to the Senate." As it is only necessary to control 21 votes in the Senate, the House can be permitted to do what it pleases, for the majority of corporation men in the Senate will surely prevent the passage of anti-corporation measures.

To-day has been one of the most important of the entire session. All day, nearly, the House has been busy upon the street railway merger bill. Mr. Luce of Somerville has lead a strong fight against it, but the rollcall after hours of debate, showed only 91 yeas to 104 nays, and seven pairs, on his motion to refer the entire matter to the next Legislature. It was one of the best sustained debates of the session. The attendance was large, except near the end, when most members had become tired and had evidently made up their minds. The attention was good and there was only a small amount of whispering and confusion. So that the friends of the bill and its opponents must agree that it was given fair consideration. The argument which seemed to carry the bill was that a Connecticut corporation can now do a thing,—buy up our street railways,—which the Boston and Maine, a Massachusetts corporation, cannot do. Therefore, as a matter of fair play, our local corporations ought to be allowed to do the same thing. There was evident a lack of purpose to prevent the foreign corporation from doing an illegal thing, and the cause of this seemed to be that it was impossible to say just what the law was and how prevention was to be [illegible]forced. The purp[illegible] the motion to refer to the next Legislature was to give time to consider this among other questions and it is possible that this argument will have more weight on the next stage of the bill. But, as the bill has passed the Senate, it looks as if it would be able to get through the House. One consideration which helped the bill was that street railway companies which are bought up are not wiped out, but their stock is held by the railroad company, and they are still subject to the control of the railroad commission.

Another great struggle between capital and the people reached another stage in the report to the House by the public lighting committee, unanimously, just before the adjournment of the House this afternoon, of a bill to settle the capitalization of the Boston gas companies. The committee had wrestled for weeks with the problem and this forenoon they were still split into about two equal sections. They wanted a day or two more for presenting their report, but the presiding officers were unwilling to grant it. So they reached an agreement this afternoon upon a bill which is expected to result in a capitalization of the Boston gas properties at $15,124,600, instead of about $21,000,000 as figured out by the expert who was called to make a valuation under the law of 1903 for the consolidation of the existing companies. It is said by the chairman of the committee, Senator Moseley of Hampden, that the gas companies will accept the bill. Therefore, by making the fight, the gas consumers have saved paying dividends upon some $6,000,000 of gas stocks. The bill reported this afternoon carries with it 90 cents gas for Boston. The debts of the combined companies are to be capitalized at par, except such debts as they owe to each other, which amount to about $1,000,000. The counsel for the legislative committee of the state board of trade is said to be satisfied with the compromise. The public franchise league is satisfied, though neither of these elements got what it wanted, and the prospect is that the bill will go through without a contest. It proves once more the benefit of a persistent fight by the people against the great service corporations, as it illustrates the determination of such corporations to get out of the public the last cent which the public will stand.

Senator Kyle of Plymouth, for the committee on harbors and public lands, has reported in the Senate, on the petition of C. Porter Wright, a resolve for the appointment of a commission to investigate the desirability of establishing a memorial reservation on the Daniel Webster homestead at Marshfield. The governor is to appoint a commission of three to examine the estate and consider the expediency of erecting on it a museum "wherein articles commemorative of Webster's public service may be placed." If they find it expedient to establish the reservation, they shall report how much of the estate should be taken, what the cost will be and how much more for making it a public park. No pay is to be given to the commission, and it must report to the next Legislature by January 15. There is a very interesting story about the Webster estate, long before it came into his hands, how it was held by a loyalist in the time of the Revolution, how he fled to Canada, and how a specia act of the Legislature was passed giv the heir the right to acquire possessi the property which had been fo under the strict law of those time who have visited the place will that there is a profusion of W enough to make quite a mu

PALMER NEWS.

CHILD DROPPED IN ROAD.

Fell From Baby Carriage and Was Found by Grocer's Clerk.

What might have been a serious matter is reported to have taken place on one of the side streets of the village last Saturday. A youngster of tender years was left to wheel a still younger member of the family about in its carriage while the mother went to call on a neighbor. The youngster in charge undertook to cross the street with the carriage and occupant, and on the trip the carriage tipped so as to throw the baby out. The older child was not old enough to fully appreciate the situation, and trudged along blissfully unconscious that his load had been dumped. How long the baby remained there is not known, but that it is alive is due to the presence in the street of the delivery team of a local merchant. The driver saw a bundle lying directly in the horse's path, and at first sight thought it was waste material of some sort, but on a closer approach decided that it looked more like a bundle of clothing. He reined the horse to one side and getting out picked up the bundle, which he was astonished to find contained a live infant; it was unconscious however, having been either hurt by the fall or smothered in the clothing, or both. Inquiries soon determined the ownership of the child and it was returned to its mother.

All Kinds of Weather.

New England, famous for her varieties of weather, has displayed a fairly complete assortment during the past week. The changes have been sudden at times, but that is to be expected. Saturday was a fairly comfortable day for this time of year; the sun shone and while it was not very warm neither was it cold. Sunday the temperature took an upward bound and the open cars appeared on the street railway and everybody hailed the coming of the springtime and warmth. But their joyous anticipations were doomed to disappointment on Monday, for the atmosphere was nearer that the first of March than the first of May. The temperature was decidedly chilly, and at intervals during the day there were sunshine, rain, snow, hail and thunder-storm clouds, although the storm itself did not materialize. Tuesday thawed up again a little, and Wednesday was decidedly hot; doors and windows had to be left open and it really seemed as though the good old summer time had come at last. During the evening it clouded up and rained a trifle, with a few flashes of lightning and rumbles of thunder. Yesterday morning there was that same balminess in the air, with a south wind, until about 8 o'clock, when the wind suddenly whipped around into the north and overcoats were in demand again.

District Court.

Monday was probation day, and 11 were scheduled to report. Ten did so, four of them being discharged, one was fined $5 and one $10; the cases of three were continued until June 5 and one until July 3; one failed to report.

John Shea of West Warren was fined $5 Wednesday morning for drunkenness, and paid.

Wednesday, George B. Rich of Feeding Hills was fined $5 for drunkenness, and given until May 6 to pay.

William Lewis Jr. of Monson was yesterday's victim, and yielded up $10 for drunkenness. The continued case of the children of Frank Green of Palmer, charged with being neglected, was called yesterday, and a report that better conditions existed [illegible] made, the case was dismissed.

Dennis Devine of Wilbraham, who was up for drunkenness about a month ago and released on probation but failed to put in an appearance when ordered, was brought in and assessed a fine of $15. Joseph Ahearn of Westerly, R. I., was found to have been drunk and his case was placed on file until June 5.

Saw the Town—Cost Him $40.

Peter Pierce of Belchertown saw Palmer—or a portion of it at least—Tuesday, at a cost of $40. Pierce drifted into town with a wad containing $158. He met Charles Felton and they had numerous irrigations together, after which they started out to see the town on Felton's suggestion. They drifted along Water street and there found more liquid refreshment, and then started down the railroad track. They had gone some distance when Pierce claims that Felton took $40 from his pockets and then skipped. Felton was apprehended later. Mr. and Mrs. Charles Andrews of Water street, where the couple had stopped, were examined, but no evidence to connect them with the loss of the money was shown and they were discharged. Felton was bound over to the grand jury in the sum of $1000, and failed to furnish bail. He was also charged with drunkenness and the case placed on file. Pierce yielded up $5 of what he had left for drunkenness.

The Difference Here and There.

Michael Tophor, lately of Thorndike but erstwhile of Poland, has a better knowledge of the way matters are handled in the country of his adoption than he had the first of the week. Incidentally he is contrasting the condition of women in the country of his birth with those in the country of his adoption, having 90 days in which to give the subject careful consideration. Where Mike came from the injunction "Women obey your husbands," is taken literally, and a husband has the privilege of compelling obedience, even resorting to corporal punishment if things do not go just to suit him. Any old thing which comes handy is considered proper in such an event, and so when Mike's wife failed to meet his requirements he resorted to a stick of stove wood and a handful of the woman's hair. She had evidently absorbed more of the spirit of freedom than had Mike, for she complained of him and had him arrested. He'll be out about the first of August.

Child Was Neglected.

Another chapter developed Saturday in the case of the Three Rivers woman reported in last week's Journal as having been put on a back piazza while sick. She had a boy of 14 months who was of course left behind when she was sent to the hospital, and this was cared for by the people with whom she had boarded for a time, but the duty became too onerous and it was left to itself so much that some of the neighbors finally complained to the authorities. The matter was finally adjusted by the people agreeing to keep the child until Monday, when it was taken by Rev. Fr. Lenz of the Polish Catholic church and placed in the institution at Brightside.

Her Birthday Celebrated.

Mrs. Ebenezer Brown celebrated her [illegible] birthday at her home on North Main [illegible]day. Numerous friends called on her [illegible]he day and evening, and she was [illegible]nt of a number of gifts, includ[illegible]ral offerings. To Change Two Lights.

The selectmen gave a hearing Wednesday afternoon on the petition of the Central Massachusetts Electric Company for permission to set additional poles on Knox and Squier streets in order to replace two of the arc electric lights with ten incandescents, so as to better light that portion of the village. The hearing was held in the selectmen's room in the memorial building, and was attended by about a dozen property owners, not one of whom objected to the proposed pole locations. It developed however that there was some objection to the proposed changes in the lights as the plan was understood, but when it was explained there was no opposition. The two arc lights which are to be removed are located at the junction of Pine and Knox streets, and at the corner of Squier street and Highland avenue. In their places ten incandescent lamps will be located as follows: Corner of Thorndike and Pine streets, on Pine at the head of Knox, corner of Pine and Squier, corner Pine and King, corner King and Highland avenue, corner Highland avenue and Squier, corner Highland avenue and Knox, on Knox between Pine and Highland avenue, on Squier between Pine and Highland avenue, on Squier between Highland avenue and Main. This arrangement, it is thought, will give much better satisfaction than the present.

The cooking schools which have been held in the opera house every afternoon this week have been well attended by the ladies, who have learned many new "wrinkles" in the culinary art. To-morrow will be the last opportunity, at 2 15 p. m., when the program will be tea rolls, chocolate gingerbread, coffee jelly, orange layer cake and coffee.

At the regular meeting of the members of St. Paul's church Thursday evening reports of committees were heard, matters of interest to the welfare of the church discussed and business transacted. At the close of the business meeting the usual talk by the pastor upon the next Sunday school lesson was given. The next regular business meeting will be held Thursday, June 29.

The little folks under the direction of P. H. Kelly of Holyoke gave their minstrel performance in the opera house Wednesday evening to an audience of good size. The first part was the usual minstrel first part and was well carried out; the second part consisted of drills and marches, and the participants won much applause for their fine work. Dancing followed the stage performance.

The school committee has in mind the closing of the schools in the Mason, Shorley and Forest Lake districts and the transporting of the pupils to the village schools, but in order to get at the minds of the parents they will hold a meeting in the high school building on Saturday afternoon of next week at 2 o'clock, when they will be glad to hear from any who may either favor or oppose the plan.

The high school building committee held a meeting last Saturday evening, at which time the specifications for the new building were gone over with the architect. Work on the structure will be begun as soon as possible, before school closes it is hoped, and it is planned to have the building ready for occupancy when school opens in the fall. The work of excavation for the foundations will begin as soon as the specifications can be completed and the contract awarded.

The ladies of the Congregational church served their annual May dinner in the church vestry Tuesday noon. The weather was all that could be desired, and the attendance was in proportion. All the tables were filled once and some of them a second time. A very appetizing menu was served, and all spoke in praise of the viands and the service. In connection with the dinner there was a sale of useful and fancy articles. The ladies will clear about $80 from the day's efforts.

A Wonderful Saving.

The largest Methodist Church in Georgia used 32 gallons of L. & M. mixed with 24 gallons of oil, thus making paint cost about $1 20 per gallon. They calculated to use 100 gallons of other paint. Saved about $80 00, and also got a big donation of L. & M. Dealers gladly sell L. & M., because their customers call for it, and say they used it 12, 14 and even 30 years ago.

Don't pay $1.50 a gallon for linseed oil, which you do in ready-for-use paint.

Buy oil fresh from the barrel at 60 cents per gallon, and mix it with L. & M. Paint.

It makes paint cost about $1.20 per gallon. Sold by Asahel Wheeler Co., Boston; W. N. Flynt & Sons, Monson; John Wilson, Three Rivers; F. A. Gurney, Wilbraham; W. E. Stone & Son, Palmer.

Sunday School Workers' Institute.

The Sunday school workers of the Three Rivers district held an institute in the Congregational church Saturday with services in the morning and afternoon. This was the first institute held under the auspices of the Massachusetts Sunday School Association and there was a good attendance, there being about 250 present at the morning service and 200 in the afternoon. The program was well arranged, with several able and interesting addresses, treating work in the Sunday schools of this district.

Among the speakers were Miss Margaret Slattery of the State Normal School of Fitchburg, Miss Leila Simon of Boston, Rev. E B. Dolan of Wales, Dr. O P. Allen of Palmer, Prof. Irving Wood, Biblical instructor of Smith College, Miss Sylvia S. Hyde of Ware, Mrs. C. H. Reed of West Brookfield and Hamilton S. Conant of Boston. The women of the local church entertained and at noon an excellent luncheon was served to about 150.

The committee in charge was Miss Sylvia Hyde, Mrs. C. H. Reed and A. M. Walker. The institute was conducted by H. S. Conant, general secretary. The officers of the district are: President, Rev. E. B. Dolan of Wales; vice president, F. A. Upham of Three Rivers; secretary and *treasurer, Miss Grace W. Towne of Belchertown; department secretaries, home,* O. P Allen of Palmer; normal, Miss Sylvia S. Hyde of Ware; primary, Mrs. C. H. Reed of West Brookfield.

May First Celebrations.

Much complaint has been made around town of the wild and reckless celebrations indulged in Monday night by a gang of boys, rightly called hoodlums, and it is possible that some of the guilty ones will be brought to justice as they deserve. Blinds and gates were taken from their hinges and carried away, stones thrown against houses, doors tied up, and every conceivable kind of noise made to frighten people. At S. W. Lyon's former place of business a large iron water tank used for a sign was torn from its place and rolled down the hill near the Congregational church for the sake of making a noise. From all parts of the town reports of these lawless acts are heard and it is hoped that another year means will be taken to prevent a repetition of these actions.

Holmes—Watts Wedding.

A wedding of interest to Monson people is the following from yesterday's New York Times:

Miss Sara Holmes, daughter of Mrs. Langford Holmes of 57 West Forty-fifth street, was married to George B. Watts yesterday afternoon in the church of the Heavenly Rest. Mme. Ormando Mola, sister of the bride, acted as matron of honor. The bridesmaids were the Misses Faith Moore, Sabina Watts, Mabel Dick and Hattie Flynt. Lieutenant Ormando Mola of the Italian army, Edward Sanford, Grenville B. Winthrop, Ansel Phelps, Charles Van Rensselaer, and Howard Sherwood were ushers and Preston Watson was best man. The wedding was followed by a reception at Sherry's to a small number of relatives and close friends.

Mrs. Emma K Flynt has returned from a several weeks' stay at Grantwood, N. J, and was accompanied by her daughter, Mrs. Charles F. Blood.

George L. Keeney, chairman of the Republican town committee, attended the meeting of the Republican state committee at the Cooley Hotel in Springfield Tuesday afternoon.

Miss Nellie Shugrue, bookkeeper at W. N. Flynt & Sons', was called to Granville this week by the death of her brother, who had been in poor health for some time.

Frank S. Homer, who was appointed by the selectmen as one of the board of engineers of the fire department, has declined to serve in that capacity, and Robert Murphy has been appointed in his place.

The funeral of David W. Shea, whose body was brought here from the West Friday afternoon, was held from St. Patrick's church Saturday morning at 9.30. Burial was in the Catholic cemetery on Pearl street.

The St. Mary's Dramatic Club of West Springfield played "The Golden Giant Mine," to a good-sized audience in Memorial Hall last evening. The parts were well taken and seemed to please the audience.

Mr. Edward McK. Whiting of New York city will address the Men's Club at the Congregational church Monday evening at 8 o'clock. The subject of the address will be "Life and Character of Abraham Lincoln." A social hour with refreshments will follow the speaking.

Miss Elizabeth Hughes, 75, died at the home of her sister, Mrs. John Corish, at South Monson Wednesday. She leaves two sisters and one brother. The funeral will be held from St. Patrick's church at 9 o'clock to-morrow morning. Burial will be in the Catholic cemetery.

Next Tuesday night the Ousamequin Dramatic Club of Springfield will present "Uncle Dave's Darling," in Memorial Hall for the benefit of Court Monson, Foresters, and Mt. Ella lodge of United Workmen. This play was well spoken of at the Court Square theatre last Friday night. Tickets are on sale at Bradway's news room.

The vesper service at the Congregational church Sunday evening was well attended, and the music by the quartet was excellent. Miss Werner, soprano, who sang in the quartet, is from Stafford Springs, Ct., and has been permanently engaged to sing at this church. The Bible readings by Miss Leila Simon of Boston were very interesting.

The ladies of Monson and vicinity are invited to attend a series of six cooking lectures to be given free by Myrtie Ethelyn Robinson in Memorial Hall May 8, 9, 10 and 11 at 2.15 p. m., and the 11th at 10 a. m. Bring fork and spoon, and come Monday, rain or shine, and see what the work is. This has been a society event in each town for the past six years. Cook books given.

Wilson M. Tucker has bought a piece of land in the west part of the town of F. F. Marcy of Palmer for $1000. This tract of land is that on which Mr. Marcy paid taxes under protest, and on which a hearing was held before the county commissioners in Memorial Hall last week Monday. At this hearing Mr. Tucker stated that he would pay $1000 for the property and consequently is now the owner.

Principal Butterworth announced this morning the names of the three members of the senior class having the highest standing, as follows: Miss Kate Cushman valedictorian, Miss Nellie Beckwith salutatorian, and Miss Margaret Cushman. These three will speak at the commencement exercises with three others selected by the class and three selected by the faculty, to be announced later.

The final whist party of the season was held at the Quaboag Country Club Monday evening and was well attended, there being 14 tables. The tables were prettily decorated with May baskets and flowers. The prizes were won by Mrs. W. A Squiers and E. R. Cooke. During the evening music was furnished by Mrs. A. H. Orcutt and Miss Annie Fish. The hostesses were Miss Alice Morris and Mrs. A. J. Purinton.

A freight wreck on the Central Vermont railroad delayed travel for a couple of hours Tuesday night. The accident occurred just south of the Central Vermont depot, and was caused by five cars on a north-bound freight leaving the rails at the switch. The cars were considerably damaged, but no one was injured. The cause of the accident is unknown, but will be investigated. A wrecking crew from Palmer cleared the tracks.

The annual *meeting of the incorporators* of the Monson Savings Bank was held Wednesday morning and the following officers were elected: President, Edward D. Cushman; vice presidents, Carlos M. Gage, Lyman C. Flynt; clerk, Charles A. Bradway; trustees, Edward F. Morris, Arthur D. Norcross, George H. Foskit, Perlin W. Soule, Fred W. Ellis, Wesley A. Squier, Rufus P. Cushman, Rufus Fay and George C. Flynt. The bank is in excellent condition, showing an increase in deposits of over $94,000 over last year.

Annie Williams, 46, widow of Murdock McPherson, died at her home on Pleasant street Sunday afternoon at 1 o'clock of Bright's disease, having been ill for about three weeks. She leaves four children, Mary, Raymond, Viola and Emma, all at home; also five sisters, Mrs. Martin Britt and Miss Lydia Williams of Rockland, Miss Etta Williams and Mrs. Leslie Andrews of Camden, Me., and Mrs. Willard Mank of West Rockport, Me. The funeral was held from the residence Tuesday afternoon at 2.30, Rev. N. M. Pratt officiating, and burial was in the No. 1 cemetery. Charles F. Orcutt and Mrs. A. D. Norcross sang "One Sweetly Solemn Thought," and "Nearer, My God, to Thee."

WEST WARREN.

Robert McFarlane has taken a position as baker in Smith's bakery in Holyoke.

Sabin Fleury went to Worcester Monday to enlist in the United States navy.

Eight members of division 27 of Hibernians of West Warren went to Ware Monday night to attend the initiation of several candidates of Ware division.

James O'Neil is building an addition to his house on the corner of Central and Chapel streets, and will arrange the whole into two tenements of six rooms each.

The Epworth League of the Methodist church held a business meeting Monday evening, when the following officers were elected: President, Miss Mabel E. Crouch; first vice president, William Kean; second vice president, Miss Bernice Westman; third vice president, Mrs. Eaton B. Marshall; fourth vice president, Benjamin B Tait; secretary, James T. Campbell; treasurer, Miss Alice L Walker.

Arrangements are being made for the organization of a ladies' auxiliary to division 27 of the Hibernians. A preliminary meeting was held in Faneuf's hall Sunday afternoon, when the following officers were nominated: President, Miss Katherine E. Foley; vice president, Miss Annie Hennebry; recording secretary, Miss Flora McIntyre; financial secretary, Miss Minnie Tagan; treasurer, Miss Katherine Cronin.

Thomas Lamb, who has been seriously ill with tuberculosis, at the home of Mr. and Mrs. Filburt Hubert on the Palmer road for several weeks and was to be committed to the charge of the state at Tewksbury, escaped from the house Monday, and his present whereabouts are unknown. He did not wish to be sent to Tewksbury and although in a feeble condition, crawled to the Palmer road, a short distance away. He remained there until an automobile came along going east, and he was given a ride. The man is about 50 years old and is in a very serious condition, being unable to care for himself when he left.

Pierre Cadieux, 41, died at his home on School street at 9 20 Saturday night after a two-weeks' illness with rheumatism and paint poisoning. Mr. Cadieux was born in St. Johns, P. Q, and went to Thorndike at the age of 15 years, where he worked for several years as painter and paper hanger. He went to West Warren five years ago. He leaves a widow and one daughter, Lena, four years old, also an adopted son, Albert Farlando, 15, and a father and mother, Mr. and Mrs. Pierre Cadieux of Thorndike; also one sister, Nellie of Thorndike and one brother, Joseph of West Warren. The funeral was held in the Catholic church Tuesday morning at 8, and burial was in Three Rivers.

WARE.

John Milton Davis, 80, died at his home on Main street last Friday night. He had been an invalid for years and was confined to his home, but death was due to pneumonia. The body was taken to Oxford Monday morning for burial.

Gustave Ferland, who was injured by the trolley car on the Palmer road on the night of April 21, left Ware Monday morning for Woonsocket, R. I. While he has not fully recovered from the effects of the collision, he is much improved.

Eusebe L'Heureux, 52, of Chicago died last Friday morning after a few months' illness with heart trouble. He formerly lived in Ware, and leaves two brothers, Pierre and Philip, besides four sisters living elsewhere. The body was brought to Ware Monday and the funeral was held Tuesday morning in Mt. Carmel church.

Ella Persis Rich, 50, died Sunday night, after a short illness of pneumonia, at her home on the farm of the George S. Rich estate. She is survived by her mother, four brothers, John, who runs the farm, William of Boston, Henry of Springfield and George of Feeding Hills, and one sister, Mary, at home. The funeral was held at 2 o'clock Wednesday afternoon and was private.

The selectmen have appointed the following officers to serve at the special election for tax collector on Monday: Ballot clerks, H. O. Robinson, James T. Feehan; assistant ballot clerks, A. J Bonnoyer, E. J. McBride; checkers, A. B. Irwin, L. S. Charbonneau; counters, C. W. Booth, Joseph St. Onge, William B. Kelly, Moise Deslauriers. No nomination papers were filed on Monday before the hour for filing, and accordingly the only candidates will be Frederick W. Farrar and Felix Bombard.

A novel mode of transportation was introduced between Ware and Gilbertville Sunday in the shape of a big Knox automobile. It appeared on Main street in the morning, and the men in charge announced that it would make regular trips to and from Gilbertville as a public conveyance for 25 cents the round trip. There was no difficulty in securing a load, and the auto, which had a seating capacity of 15 persons, had a similar experience all through the day. The promoters of this scheme are supposed to be Frank W. Ruggles and S. W. Coe.

The annual fire district meeting will be held in the engine house at 4 to-morrow afternoon. There will probably be only two changes in the election of officers. Henry M. Clark, a member of the prudential committee, has moved to Springfield, and for his place it is understood James Anderson is the only candidate. The latter has been clerk for several years, but is not a candidate for reëlection to this office. Those running for his place are: Edward F Sheldon, James T. Feehan, John W. O'Neil and James Marland. The total expenses for the past year amounted to $6027.

Ware division of Hibernians held a meeting in the town hall Monday evening. There was a large attendance of members, while many women members of the auxiliary in Ware and a number from neighboring towns were present. Matthew Cummings of Boston, the state president, Terrence O'Donnell of Holyoke, the vice president and several county officers were also present. Nine candidates were initiated, after which a collation was served by Rohan Bros. After some speechmaking the hall was cleared for dancing, Misses Brunelle & Canavan's orchestra furnishing music.

Eden lodge of Masons observed past masters' night Monday evening, with a large attendance of members, especially the older men of the lodge. The work was that of the third degree, on live candidates. The past masters and the chairs they occupied during the work were as follows: George S. Marsh, worshipful master; Elgin R Foster, senior warden; Alfred A. Green of Gilbertville, junior warden; William N. Newcomb, senior deacon; A. B. Howard, chaplain; John D. Smith of Springfield, marshal; Henry C. Davis, senior steward; Herbert W. Sibley, junior steward. A collation was served by C. F. Keith of Warren, and speech-making followed until a late hour.

How to Shoot a Rattler.

The writer once saw an Indian kill a rattlesnake in a very peculiar manner. The rattler was about ten feet from the Indian, who was resting the rifle on his knee, apparently taking aim.

Whenever he moved the weapon a few inches the snake would move around and get exactly in line with it. Then, to show how the thing was done, the Indian moved about the snake in a circle, and the reptile moved as if its tail were a pivot, always keeping its head and body in line with the gun. The Indian then agreed to bandage his eyes and shoot the snake in the mouth.

The writer bandaged the Indian's eyes, and, holding the gun by his side at arm's length, the latter pulled the trigger, and the ball entered the snake's mouth and passed the whole length of its body.

"How did you take aim?" was the query.

"The snake he take aim," was the reply.

We have talked with an old hunter on this proposition, and he claims that a rattlesnake will always range directly in line with a gun or stick pointed at it.—Exchange.

Redeem Your Past Failures.

You may say that you have failed too often, that there is no use in trying, that it is impossible for you to succeed and that you have fallen too often even to attempt to get on your feet again. Nonsense! There is no failure for a man whose spirit is unconquered. No matter how late the hour or how many and repeated his failures success is still possible. The evolution of Scrooge, the miser, in the closing years of his life, from a hard, narrow, heartless money grubber, whose soul was imprisoned in his shining heap of hoarded gold, to a generous, genial lover of his kind, is no mere myth of Dickens' brain. Time and again, in the history of our daily lives, chronicled in our newspapers, recorded in biographies or exhibited before our eyes, we see men and women redeeming past failures, rising up out of the stupor of discouragement and boldly turning face forward once more.—O. S. Marden in Success.

He Didn't Laugh.

Little Johnny—That young man who comes to see you must be pretty poor company. He hasn't any sense of humor. Sister—Why do you think so? Little Johnny—I told him all about the funny way you rush about and bang the doors when you get in a temper, and he didn't laugh a bit.—Smith's Weekly.

Married Angels.

A domestic wife is merely a woman. When we marry for love we don't marry a woman. We marry an angel, a celestial, ethereal being with wings and a halo. As you value your happiness never remove the wings and halo.—Arthur Law.

Her View.

She—There is no excuse for a man dancing badly. He—But if he cannot dance otherwise? She—Oh, that merely would be an excuse for not dancing at all.—New York Press.

HER FIRST CASE

[Copyright, 1904, by T. C. McClure.]

"But you have known me less than a month," protested Alice, though it was evident from her tones that she did not make the statement in a spirit of accusation.

"It is my misfortune," pleaded Howell. "It is less than three months since I first saw you."

"I said a month," she insisted.

"And I three," he finished off.

She stamped her tiny foot.

"How could you have known me two months longer than I have known you?"

"I did not say 'known'," he corrected. "I said 'seen.'"

"Three months ago you were in Denver," she protested.

"I came as quickly as I could," he pleaded.

"But how could you have seen me in Denver," she persisted, "when I was in New York all the time?"

"'The eyes of love are quick and see far,'" he quoted.

Alice tiptilted her nose delightfully. "In that case," she said, with a saucy courtesy, "I beg to decline. It would be distressing to have for a husband a man who could see as far as that."

He caught her hand and drew her down beside him.

"It's not a time for jesting, little woman," he urged. "I could ill afford this month in paradise, and tomorrow I must go back to"—

"To Denver," she completed for him in the tone of one who mentions quite another place.

"To Denver," he repeated, with the accents of one who speaks of home. "I want to take back with me the promise if not the person of the sweetest little woman in all these United States."

For a moment the love light flashed into her eyes, but the spirit of mischief gained the mastery.

"I think," she said, with an extra judicial air, "that the plaintiff has not fully pleaded his case."

"The defendant pleads guilty to having fallen in love."

"You are the plaintiff," she corrected.

"The defendant," he declared stoutly.

"The plaintiff," she insisted.

"I'll be both or I won't play."

"Cry baby," she commented, surrendering. "Go ahead."

"I plead guilty and await sentence," *he suggested.*

"Plea refused!" she cried. "The court will appoint a lawyer to plead for you. I'll be the lawyer," she finished, with a sudden lapse from her judicial dignity.

"If your honor pleases," she began, coming round from the other side of the library table, "the defendant, while admitting his offense, pleads not guilty."

"I admit no offense," he protested.

"If you don't let your lawyer do the talking I'll get the judge to hang you," she threatened severely.

"Pleads not guilty, with extenuating circumstances. You see, your honor, this is his first visit east in some years and seeing handsomer young women than they have in Denver"—

"One more adorable young woman," he protested.

"Than they have in Denver," she went on, ignoring his interruption, "he foolishly lost his head. You see, your honor, he had no idea that there were such attractive young women as those who throng the streets of our city and"—

"I came east especially because I knew you were here," he interposed.

She danced around to the other side of the table. "The court will examine the prisoner," she declared. "He has asserted that he came east because he had knowledge of the presence of the prosecutor. How was that information acquired?"

He drew from an inside pocket a leather pocket photograph case and handed it to her.

She opened it curiously and gave a little cry. "How did you get this?" she demanded, forgetting the game she was playing.

"Jack Osborne painted it on an envelope one night just to show me what he could do from memory, and I—er—I came on to see what his memory was worth."

She glanced curiously at the dainty water color her artist cousin had made. It was wonderfully accurate and true to life.

"I shall mark this exhibit A," she announced. "Now what have you to say in your defense?"

"Your honor," he began gravely, "I can say only that the sole witness who can prove my offense is my lawyer. A man's wife cannot testify against him, and it is her duty as a good lawyer to marry me. I love her dearly, and ever since I saw that envelope she has filled my thoughts. I await my counsel's answer."

"I think," said the counsel tenderly, "that I should win my first case at least." And she came around the table again to be infolded in his strong arms.

HARRISON DUPREE.

A Good Suggestion.

Mr. C. B. Wainwright of Lemon City, Fla, has written the manufacturers that much better results are obtained from the use of Chamberlain's Colic Cholera and Diarrhoea Remedy in cases of pains in the stomach, colic and cholera morbus by taking it in water as hot as can be drank. That when taken in this way the effect is double in rapidity. "It seems to get at the right spot instantly," he says. For sale by Quimby Pharmacy, Palmer.

WHY IT SUCCEEDS.

Because It's For One Thing Only, And Palmer Is Learning This.

Nothing can be good for everything.

Doing one thing well brings success.

Doan's Kidney Pills do one thing only.

They're for sick kidneys.

They cure backache, every kidney ill.

Here is Palmer evidence to prove it.

Mrs. P. J. Sullivan of Pearl street, says:—"While I never had occasion to use Doan's Kidney Pills myself, my husband used them and they did him a lot of good. He had a weakness of the kidneys and heavy aching pain in his back for a long time. I have seen him so lame and sore across his back in the morning that he could not get out of bed without assistance. He tried other remedies but they did not do him any good. He got Doan's Kidney Pills at LeGro's drug store, used four boxes according to directions and they removed the lameness and righted the kidney secretions."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name—Doan's—and take no substitute.

Under the Apple Tree.

In the garden of a great man six persons were sitting, a scientific man, a merchant, a poet, a young man—very much in love—a lawyer and a lady. The wind was blowing rather hard, and six apples fell down. Each took one. The scientific man took his apple and discovered a new law of nature. The merchant sold his. The poet ate his. The young man who was very much in love gave his to his sweetheart. The lawyer went to law against the owner of the tree on account of being hit by the fallen apple. But the lady took her apple to the owner of the tree, gained his affections, and as he was rich she had lots of money all the rest of her life.—From the Fables of Eugene Heltai.

A Quaint Epitaph.

A good tombstone inscription to add to your collection is given in a recent book. It is said to be of seventeenth century date and runs as follows:

Here lies the body of Thomas Woodhen,
The Kindest of Husbands, the best of men.

And directly under the inscription the explanation, "His name was Woodcock, but that would not come in the rhyme."

"A Soft Answer," Etc.

Mrs. Busybody Goodby, dear Mrs. Whisom. Before I go I think it is my duty to tell you that your husband was seen in a very questionable place of entertainment last night. Mrs. Winsom Really! Sorry to hear that! I suppose that is where they went when your husband called for him.

Chamberlain's Cough Remedy the Very Best.

"I have been using Chamberlain's Cough Remedy and want to say it is the best cough medicine I have ever taken," says Geo. L. Chubb, a merchant of Harlan, Mich. There is no question about its being the best, as it will cure a cough or cold in less time than any other treatment. It should always be kept in the house ready for instant use, for a cold can be cured in much less time when promptly treated. For sale by Quimby Pharmacy, Palmer.

Pull a Hair From Your Head

Does your hair need nourishment? Is it thinning out, getting dry, harsh and brittle or splitting at the ends. The way to find out for yourself is to make an actual test that you can see and understand. Pull a hair from the top of your head, examine the root. If the bulb is plump and rosy it is all right, but if it is white and shrunken your hair is diseased and needs nourishment. Rexall "93" Hair Tonic supplies this need. It is a germ destroying nutritive hair tonic. It first of all destroys the germs that are causing the trouble at the white and shrunken roots, then it tones up the hair follicles. A new growth of hair begins at once and the hair soon regains its youthful color and lustre. It makes an excellent dressing, delightfully perfumed and conveniently put up in a handy sprinkler top bottle. I sell a large bottle for fifty cents that I guarantee to give satisfaction or I return you your money. You will find that Rexall "93" Hair Tonic backs up all the claims I make for it.

BASEBALL.

Wesleyan 1, Monson Academy 1.

The game beween Monson and Wesleyan academies at Wilbraham Saturday resulted in a tie and had to be called at the 10th inning on account of rain and darkness. It was somewhat of a pitchers' battle, Rourke striking out 12 men and Toussaint eight. Monson made its score in the fourth and Wesleyan scored in the seventh, both scores being made on errors. The score:

Notes.

Indian Orchard defeated the Mittineague team in a game at Indian Orchard Saturday by the score of 3 to 0.

Wesleyan Academy were defeated by Amherst high school in a game at Amherst Monday by a score of 6 to 2. Roberts of Amherst pitched a fine game, striking out 15 men.

The Palmer Juniors will play the Ware high school nine on the Palmer Driving Park to-morrow afternoon at 3 o'clock. An admission fee of 10 cents will be charged.

The Ludlow baseball nine met its third successive defeat Saturday afternoon on the new Athletic Park in Ludlow at the hands of Morgan O'Connell's Athletics of Springfield by the score of 5 to 3.

The first game of the season for the Palmer team will be with the Indian Orchards on Memorial Day in Palmer. The Palmers will put a strong team in the field, having secured some unusually good men.

Young Roscius.

One of the strangest figures of the British stage was Young Roscius. His other name was William Henry West Betty. He lived until Aug. 24, 1874, although he had made his last stage appearance on Aug. 9, 1824, at the age of thirty-two. Theatrical history has no parallel to his childhood. It was this little Irish boy who after seeing Mrs. Siddons had declared that he must die if he did not become an actor. He took Belfast by storm in 1803. when not quite twelve, and nearly stifled scores of Londoners on Dec. 1, 1804. Foot guards and officers were overpowered by the crowd, and gentlemen charged through the boxes and jumped by twenties into the "pit" for places. Master Betty brought $86,050 to Drury Lane in twenty-eight nights. William Pitt adjourned the house of commons to let members see him as Hamlet, and his boom lasted until 1808. His adult return to the stage was brief and a failure.

A Royal Accomplice.

One day when Francis I. was in his chapel attending mass with several of his noblemen a well dressed pickpocket went and stood behind the cardinal of Lorraine and abstracted his purse, but unable to do this without the king perceiving it he put up his finger to intimate that the latter should keep silence. The king took it for a practical joke and said never a word. But after the service he asked the cardinal what he had done with his purse. The prelate, not being able to find it, was very much annoyed and took the king to task, who greatly enjoyed the fun, and at length ordered the purse to be restored to the cardinal. The thief did not, however, come forward, and the king discovered too late that he had been tricked.

Sass Costs Money.

When Fanny Kemble spent her summers in Massachusetts she engaged a neighbor to drive her regularly about the country. On their first excursion he began to discuss the crops and the history of the people, when Mrs. Kemble said in her dramatic fashion, "Sir, I have engaged you to drive, not talk." The farmer kept his peace and when the vacation was over sent in his bill. "What is this item, sir?" she asked. "I do not understand it." With equal gravity he rejoined: "Sass, $5. I don't often take it, but when I do I charge!" The bill was paid, and it made a firm friend of Mrs. Kemble ever after.—Christian Register.

The American Eagle.

Our baldheaded eagle, so called because the feathers on the top of his head are white, was called the Washington eagle by Audubon, the great naturalist. Like Washington, he is brave and fearless, and as his name and greatness are known the world over so can the eagle soar to heights beyond others. The eagle was adopted as the emblem of the United States in 1785, since when it has been used on the tips of flagpoles, coins, United States seals and on the shield of Liberty.—Washington Star.

Untiring.

"When I took you into partnership," said the indignant father, "I expected you to be untiring in your devotion to the interests of the business."

The son took one foot down from the desk long enough to strike a match to light his cigarette.

"*I think I have been*," said he. "You never have noticed me tire myself yet, have you, pa?"

Brilliant.

"Did my diamonds call forth any comment?" asked Mrs. Cumrox.

"Yes, indeed," answered Miss Cayenne. "I heard several people refer to you as the human chandelier."—Washington Star.

Dear Things.

Why Suffer From Rheumatism?

Why suffer from rheumatism when one application of Chamberlain's Pain Balm will relieve the pain? The quick relief which this liniment affords makes rest and sleep possible, and that alone is worth many times its cost. Many who have used it hoping only for a short relief from suffering have been happily surprised to find that after awhile the relief became permanent. Mrs. V. H. Leggett of Yum Yum, Tennessee, U. S. A., writes, "I am a great sufferer from rheumatism, all over from head to foot, and Chamberlain's Pain Balm is the only thing that will relieve the pain." For sale by Quimby Pharmacy, Palmer.

OUR LEGISLATIVE LETTER.

[CONTINUED FROM FIRST PAGE.]

was pushing the bill appropriating $150,000 for a state consumptives' hospital for incurable cases, is quite confident that the Senate will follow the example of the House and pass the bill. He makes out cases which appeal tremendously to the sympathy and carries the members off from their feet, and so he pushes the bill along. Then, too, he is so jolly about it that he makes votes that way. The same measure has been defeated repeatedly in previous years.

Once more fate has gone against Moody Boynton and his bicycle electric street railway, for the Senate killed the bill to-day without a word of debate after the bill had passed the House by a large majority. It looks as if the steam roads were very much afraid of this invention which is warranted by first-class engineers to be a great thing, sure to revolutionize travel if it were adopted. The same thing happened last year, though this bill did not leave the control of the invention in Boynton's hands, as every previous one has done.

The Senate ways and means committee stands eight to seven against a direct inheritance tax upon all estates over $5000 in value. It has passed the House repeatedly and this year it has the support of the governor, as it did last year, but the conservative influences in the Senate are sufficient to prevent its passage, apparently, though the issue is not decided. About 90 per cent of the property in the state would not be affected by the bill.

With the turning down of the Brockton-Taunton ship canal scheme by the committee on harbors and public lands goes the reporting unanimously of a bill for a ship canal across Cape Cod at Bass river in the towns of Dennis and Yarmouth. This is about in the middle of the Cape, and there is natural help from Bass river, so that the cost will be much less than at Buzzard's Bay, and the advantages will be about as great.

Both branches are at last in agreement upon the bill for the suppression of the gypsy and brown tail moths, though it will accomplish nothing this spring.

The house vote of 51 yeas to 156 nays and seven pairs not to reject the bill to give $125 to every unbountied veteran indicates that the Senate may pass the bill and that it may get to Gov. Douglas. If he should veto it and it be passed over the veto, yet it would have to run the risk of being declared unconstitutional.

LANDON.

Elschen—"Mother, when I get married shall I have a husband like father?" Mamma—"Certainly, my dear." Elschen—"And if I stay single, shall I be an old maid like Aunt Anna?" Mamma—"Yes, my child, I think you will." Elschen (with a deep sigh)—"Well, I'm in a fix."

THEY SAW THE SMOKE,

But They Declined to Act Upon the Warning.

Once Vesuvius destroyed two Italian cities in a few hours. The people saw the smoke from the volcano but failed to escape in time.

Where there is smoke there is fire and where there are symptoms there is disease. Here are a few symptoms of one of the most dangerous of diseases. A feeling of langour, a sense of weakness and weariness, drowsiness, giddiness and mental discomfort. A bad taste in the mouth—the old "coppery" taste. An offensive breath, headache, neuralgia, heartburn, a feeling of dullness and weight in the stomach, nausea, dry and feverish skin, constipation, rising of a nasty gas into the throat, tongue furred like the moss on a tree, irritability, disgust with food.

Have you any of these symptoms? Either now or sometimes? "Yes," you say, "but I don't think they are dangerous." They are signs of danger. They show that the eruption is coming.

Now what lies at the bottom of all these symptoms? Indigestion, dyspepsia and an overworked liver. There is but one help, one remedy. Slow up, and for the mischief already done, tone up the digestive organs and the liver with Cal-cura Solvent, discovered by the well-known Dr. Kennedy. Write to the Cal-cura Co., Kennedy Row, Kingston, N. Y., for a free trial bottle and medical booklet. Large bottle, $1.00.

The Reckless Hour

By IZOLA FORRESTER

Copyright, 1904, by Izola Forrester

When she came out of the theater all of the carriages had gone except one. Some one stood beside it waiting.

She stood for a moment in the lobby entrance and fastened the diamond clasp on the chiffon and lace stole around her throat. The pin had been safe enough. She had volunteered going back to the boxes for it, and had found it sticking in the velvet arm of Aunt Victoria's chair, just where she had left it.

"Did you think that I was never coming?" she asked as he reached the carriage. The figure turned quickly at the sound of her voice, and she found herself looking into Thornton's eyes. She caught her breath and stopped abruptly, startled and hesitating, afraid to let him guess the great flood of gladness that swept over her at sight of him. When one believes a person to be in Manchuria it is somewhat bewildering to meet that person alone on Broadway at 11 p. m.

He did not speak, merely opened the door for her.

"There is some mistake," she paused.

"Of course there is a mistake. There always is when I come in for anything good. The fact remains that the rest have gone and that I was told to wait for you."

"Who told you to wait?"

He took her by the elbow and helped her imperatively into the carriage.

"I was with Mrs. Culverton. She was in the third box, and I was late. Then Cully came along and took her home himself. I believe your aunt told him to wait for you, but he wanted to go directly home, so I took his place. You don't believe me?"

"Oh, yes, I do. At least I believe part of it. You always twist the truth and the fairy tale together so perfectly one can only guess at which is which. I believe that Mr. Culverton was asked to wait for me."

Thornton ignored the discrimination. He was gazing intently at the pale young face. It must be true all he had heard at the club. She did not look happy. It was Vic Wilmington's affair, the digging up of Estevan. She always had some two-for-a-penny title tagging after her. It was only three weeks off now. The thought brought with it a flash of recklessness. They would have her for a lifetime. Tonight for one short half hour she was his. He leaned toward her suddenly.

"Gladys, are you sorry to see me?"

"Don't." Her eyes met his in half defiant entreaty. "It isn't fair."

"Fair to whom?"

"To him."

Thornton's jaws squared aggressively.

"He hasn't anything to say about it yet. You needn't be frightened. The wolf won't eat you. Won't they even let you be glad or sorry?"

"Don't; please, please don't."

"Say you are glad to see me."

"I'm not glad to see you. You went away of your own free will. I wish you had stayed."

"Until it was over?"

"No, forever!" she retorted passionately. "I never wanted to see you again."

He smiled. It was Gladys' way to make one last final charge when she knew she had lost the day.

"You never wanted to see me again," he repeated, "because you are going to marry a man for whom you don't care a snap of your finger, and you did love me."

"I did not." She faced him with proud, hurt eyes and flushed cheeks.

He laughed with a riotous sense of happiness in her pain. If he still had the power to hurt her there was hope. It was the reckless hour.

"You did, sweetheart, and you do now, and you always will. You know you will. Manchuria or the moon, it won't make any difference, not if you marry a hundred times, not if it's years before we meet. I can always come back like this and look in your eyes like this and see love in them like this."

She met his steady gaze, defiantly at first, then in open confession, as he said, and before he knew it she had covered her face with her hands and was crying. He felt suddenly helpless and ashamed.

"Gladys, don't do that. I'm a brute, dear. I'm sorry. I won't say another word. I'm going back this week. Stop, dear. Gladys"—

He deliberately drew her hands away from her face. It was a dear face. He had carried its memory with him around the world and it had brought him back to the starting point. He had been poor—not decently, openly poor, but living on hope and blue sky and terrapin. There was another Darby Thornton who bestowed spasmodically unexpected and irregular checks on an undeserving grandson, also advice and admonitions. The weight of gratitude had become too trying. Darby had never been able to even up the balance between the acceptance of the checks and the following out of the good advice and the admonitions.

He had thought that Gladys had known he was next of kin to Job's turkey. Everybody else did. He did not mind. In a way it rendered him harmless with undesirable parties so far as matrimonial intentions were concerned. But Gladys was desirable. He had known that she loved him. He had left the day after the accident. It had been her frank betrayal then that had shown him his course for her sake. They had been on the train with a party bound for the Whitney place at Rosemead. There had been an accident in the tunnel to the train ahead, and the one they were on crashed into the rear cars. In the darkness there had come the sudden jolt and jar of grinding brakes. Some people came in a headlong rush from the front cars, and a woman's scream rang out shrilly above all. He had just stopped beside Gladys' seat to speak with her, and she was laughing up at him when the collision came. It was over in an instant. All he knew was the vivid sense of her arms clinging around his neck as he caught her up out of the seat and their lips had met for the first time with death three car lengths away.

He had left Rosemead that night. It was all he could do. He thought she would understand. If not, there was no danger but Mrs. Wilmington would enlighten her.

The Manchuria business had been an opening held out by the old Darby Thornton for some time. It was a chance to make good by going out there and clearing up the old boy's mercantile interests before the war broke out. He had stuck to it and made good, and the reward had come most unexpectedly when said old boy had taken a notion to die comfortably and opportunely and leave his accumulated possessions to the prodigal in the far land.

There had been no thought during the year of work but of Gladys. He had left on the first boat for home to claim the promise of the tunnel kiss and had found instead Estevan, a warranted imported antique, tall, suave and slightly gray, with an eye out for ready money.

The thought of it all made him desperate tonight. He put her from him almost roughly. In three weeks she would be the Countess Estevan, chatelaine of some dinky little old castellated ruin in Austria. He was sorry that he had tried to see her, sorry he had come back, sorry he had made Culverton change places with him.

"You had better stop crying," he said. "We'll be there in a few minutes. Estevan might not like it."

She smiled back at him, her eyes bright with tears.

"So you try to frighten the bad little girl into good behavior? Well, she doesn't scare worth a cent, Darby. Your bogy man is such a fragile, proper, tissue paper bogy man that the bad little girl has decided he isn't worth being afraid of."

"What do you mean?"

"Can't you guess? You expect others to be so good at guessing, you know. You expect to kiss a girl and go away to Manchuria—or was it the moon—and then come back and find love in her eyes. What was it? Like this?"

She was laughing at him. He felt angry and obstinate.

"Can you say that you never loved me?"

"No, I cannot." Her eyes met his with calm, defensive candor. "Of course I loved you. Do you think I would have kissed you that day if I had not? And you are right about the other too. I shall always love you."

He bent toward her with keen, half shut eyes.

"And yet in three weeks you will be his wife."

"No, I won't. Do you think I could—after tonight? I shall break the engagement tonight. You have accomplished that at least. Now, take the first boat back to Manchuria."

He smiled slowly and happily. She had not heard yet of the accumulated possessions.

"We've turned out of the park," he said. "I don't want to go to the house and face a crowd. Gladys, look at me. No, straight in the eyes, please! Try to think quickly. I've come all the way around the world to see you. I've always wanted you, you know that. I was afraid before, and I ran away like a coward and didn't even give you the chance to refuse me. Will you refuse me now?"

"As if it made any difference?" Her eyes were clear and true and somewhat indignant. "If I have enough money to satisfy even Aunt Victoria and her little count, isn't there enough for you? If you go back there"—

"What?"

"I shall give away all the money and come after you?"

"Come, now!"

Her lips were half parted, her eyes wistful and troubled.

"It will be easy to come back and break the engagement then. You will only have to present your husband."

"If I dared"—

He tapped on the glass slide and gave an order to the driver, and they turned back down the avenue just as the bells were chiming midnight.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Ready For an Emergency.

The long haired woman from New Jersey came to town to do a year's shopping one day last week. Her city niece guided her through the department stores. Everywhere Aunt Jane declined to use the elevator.

"I want to walk upstairs," she said. "I want to know where the stairs are on every floor."

The niece, whose going-upstairs muscles have been atrophied by living in a flat, followed Aunt Jane's determined feet as best she could.

"But why won't you use the elevator?" she panted as they arrived at the fifth floor.

"Because I've got horse sense," said Aunt Jane. "There are 2,000 women in this store this very minute. All but nineteen of them ride in the elevators. Not fifty of them even know where the stairs are. You didn't yourself till I prowled round and found them. I'm prepared for an emergency. If a fire breaks out in any of these stores all the women will rush to the elevators. Only you and I and nineteen other women will run downstairs and get out alive. I don't trust myself in any store where I can't locate the stairs."—New York Press.

Onions as Weather Prophets.

One of the rites performed by the French peasants on New Year's eve is the forecasting of the weather for the coming year by means of onions.

When the bells ring for midnight mass they scoop out the middles of twelve onions, set them in a row on the kitchen table, fill them with salt and name them for the months of the year. Then when they return from mass they examine the condition of the salt. If it has melted in any of the "months," those months will be rainy; if the salt remains dry, it indicates drought; if half melted, the first fortnight of the month will be wet.

The peasants have such implicit faith in this means of foretelling the weather that they plant their crops in accordance with the prophecy of the onions.

Mrs Martha Pohlman

A TRAINED NURSE

After Years of Experience, Advises Women in Regard to Their Health.

Mrs. Martha Pohlman of 55 Chester Avenue, Newark, N. J., who is a graduate Nurse from the Blockley Training School, at Philadelphia, and for six years Chief Clinic Nurse at the Philadelphia Hospital, writes the letter printed below. She has the advantage of personal experience, besides her professional education, and what she has to say may be absolutely relied upon.

Many other women are afflicted as she was. They can regain health in the same way. It is prudent to heed such advice from such a source.

Mrs. Pohlman writes:

"I am firmly persuaded, after eight years of experience with Lydia E. Pinkham's Vegetable Compound, that it is the safest and best medicine for any suffering woman to use.

"Immediately after my marriage I found that my health began to fail me. I became weak and pale, with severe bearing-down pains, fearful backaches and frequent dizzy spells. The doctors prescribed for me, yet I did not improve. I would bloat after eating and frequently become nauseated. I had an acrid discharge and pains down through my limbs so I could hardly walk. It was as bad a case of female trouble as I have ever known. Lydia E. Pinkham's Vegetable Compound, however, cured me within four months. Since that time I have had occasion to recommend it to a number of patients suffering from all forms of female difficulties, and I find that while it is considered unprofessional to recommend a patent medicine, I can honestly recommend Lydia E. Pinkham's Vegetable Compound, for I have found that it cures female ills, where all other medicine fails. It is a grand medicine for sick women."

Money cannot buy such testimony as this—merit alone can produce such results, and the ablest specialists now agree that Lydia E. Pinkham's Vegetable Compound is the most universally successful remedy for all female diseases known to medicine.

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhœa, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues and hopelessness, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles.

No other female medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles.

The needless suffering of women from diseases peculiar to their sex is terrible to see. The money which they pay to doctors who do not help them is an enormous waste. The pain is cured and the money is saved by Lydia E. Pinkham's Vegetable Compound. Experience has proved this.

It is well for women who are ill to write Mrs. Pinkham, at Lynn, Mass. In her great experience, which covers many years, she has probably had to deal with dozens of cases just like yours. Her advice is free and confidential

Womanhood

The number of diseases peculiar to women is so large that I believe this space would not even contain a mere mention of the names, and it is a fact that the majority of these diseases are caused by Catarrh. A woman cannot be well if there is a trace of Catarrhal germs in her system. You will never find rich blood in a person troubled with Catarrh, and you will never rid yourself of Catarrh unless you absolutely drive out every germ with REXALL MUCU-TONE. Some women think there is no help for them. I am positive in saying this is a mistake. What you do need is a specialty to treat the cause. Catarrh is the cause. The ailments of womanhood are but the result. REXALL MUCU-TONE is scientifically prepared from the prescription of a physician whose specialty was Catarrh for thirty years; and its effects on the system are entirely different to any other remedy I have ever sold. It is a germ destroyer, clearing the system of every trace of the catarrhal parasites and at the same time toning up the mucous tissues that have been diseased by the catarrhal germs. No other remedy is so admirably designed for the ailments of women. I want you to try a large trial size at fifty cents on my positive guarantee that if you are not benefitted I will hand you back your money

SCHEME IS A SUCCESS.

School Children Take Kindly to Savings Stamps.

VERY LARGE NUMBER OF DEPOSITORS

System Inaugurated Yesterday and To-day; Promotors Are Duly Elated.

The penny savings stamp system of savings for school children, which the Palmer Woman's Club has been instrumental in introducing into the public schools of Palmer and which was described in the Journal last week, was inaugurated yesterday and to-day, and the results are far ahead of the expectations of the promotors both in the number and amount of the deposits. It is sure that those who have the matter in charge will have plenty to do between now and the close of school, and may look forward to still more when school opens next September.

The first opportunity to test the plan came yesterday morning, when the pupils in the Palmer grammar school were given an opportunity to get the stamps. The matter was in charge of Mrs. A. J. Purinton and Mrs. E. S. Leach, and on arrival at the school building they found an eager bunch of youngsters awaiting them, and were kept busy until school opened. The initial day proved very satisfactory, there being 112 depositors, the aggregate amount being $11 81, both the number of depositors and the amount being far in excess of the fondest expectations of the originators of the scheme. The deposits ranged from one cent to $1 20, the latter showing that some of the youngsters had been saving up their money for some time; in fact it is known that some have been hoarding their pennies ever since it became assured that the system was to be installed. All the depositors showed a large degree of enthusiasm for the scheme, and it is certain that there will be less gum and candy consumed by them in the future unless their spending allowance is increased. One youngster who was seen eating confectionery one day this week and was known to be saving his pennies for the stamp system was asked by his teacher if he had forgotton about the stamps. He cocked his head on one side in a knowing way and shutting one eye replied: "I didn't buy dis; it was give to me." It is expected that the number of depositors will also increase, in view of the example set by those who have already made a start, and as the parents come to be more familiar with the plan.

The pupils of the Bondsville school had their opportunity this morning, and that they were alive to the possibilities of the scheme is shown by the results, for Mrs. D. B. Sullivan, who had the stamps in charge, recorded 88 depositors and took in $18 51. The smallest deposit was one cent and the largest $2. The youngsters showed a lively enthusiasm for the plan, and it is certain that when the next opportunity is given to purchase stamps there will be a new crop of depositors as well as additions to the cards already taken out.

The Thorndike and Three Rivers schools will have their first day on Monday of next week.

Struck by Train Sunday Afternoon. Death Was Instantaneous.

Miss Julia A. Fitzgerald of Ware was struck and instantly killed on the Ware River railroad by the passenger train due in Ware at 5.13 Sunday afternoon. The accident occurred near the Howard grist mill about a quarter of a mile above the railroad station in Ware. Engineer Kirkland saw the woman on the track, and he made every effort to stop the engine, although expecting she would leave the track at every step. Her injuries were all inflicted on the head and left side of the body. She was thrown against a switch, and received injuries to the skull and left side, either of which would have proved fatal. The body was taken on board the train and carried to the station, where it was viewed by Medical Examiner W. W. Miner, who gave permission to Undertaker John W. Lambert to care for it.

Miss Fitzgerald had worked in the weave room of the Otis company for the past 20 years and had resided with her sister-in-law, Mrs. Johanna Fitzgerald on Maple street. She had been in the habit of walking on the railroad a great deal. She is survived by a nephew and a niece, besides her sister-in-law, Mrs. Fitzgerald.

BACK TO JAIL AGAIN.

Jury Disagrees and He Must Wait Until September for New Trial.

Harvey Griffin of Belchertown was placed on trial Monday morning at the criminal session of the superior court in Springfield, charged with the larceny of $120, a watch, chain and vest from Edward J. Wyman, at Longmeadow on December 31. The evidence was finished and the jury left the room about noon, but when they returned in the late afternoon they reported a disagreement, and Griffin will have to remain in jail until September unless he can secure bail.

The case against Griffin is one of purely circumstantial evidence, which was admitted by both District Attorney Noxon, and Griffin's attorney, J. M. KcKean. Mr. Wyman, from whom the property was stolen, testified that he had taken Griffin to his shanty in the woods at Longmeadow the night before he missed his money, and that he left him in the shanty the next morning alone, while he was out to work. When he returned home, Wyman stated, he found his trunk pried open and his money gone, and Griffin was no longer about. Three other witnesses testified to having seen Griffin about the shanty on the day of the robbery.

Ware Fire District Meeting.

The annual fire district meeting was held in firemen's hall in Ware Saturday afternoon and evening, there being 703 votes cast, which is 200 more than ever were cast in a previous fire district election. The reason for this was the sharp contest for clerk, which resulted in the election of John W. O'Neill by a vote of 242; Edward Sheldon received 234, James Sheehan 179 and James Marland 49. The only other change in officers was the election of James Anderson to the prudential committee to succeed Henry M. Clark, who recently moved to Springfield. The business meeting was held at 7 o'clock, and it was voted to appropriate $2850 for salaries for the year against $1995 for the last year. This will make the firemen's salaries $50 per year instead of $35 as formerly. It is the opinion of many that the taxpayers will as the result of this salary increase advocate the maintenance of a permanent department, and abolish the present system.

MR. FARRAR IS IT AGAIN.

Will Collect the Taxes in Ware For Another Year at Least.

Ware's special election for tax collector Monday will pass into history as one of the most hotly contested the town will ever see. Both candidates were on the ground early and remained until the last vote was counted. A voter who got into the town hall without a glad hand from one of the candidates—and in most instances both of them—slid in the back way. Frederick W. Farrar was endeavoring to secure a re-election, and Felix Bombard, hotel keeper and horseman, was attempting to push Mr. Farrar one side. The Worcester Telegram's correspondent gives this report of the contest:

An enthusiastic countryman of Felix's was heard telling all about the election. The conversation ran like this:—

"What you t'ink of dat? Fred make a surprise for Felix, I guess so?

"Felix is one big Frenchman for Ware, all ri'. Huh? He's try get dat job for colleck tax, and Fred he's back up for some more coal. I tol' Octave me the scrap join, be great fight for sure. Of course, you know Felix has trade hosses pretty much. He tol' me he see more as 14,000 hosses in 10 year. Now, you know, dat's pretty much of hosses. Felix was good jockey, too. Of course, you know dat. Huh?

"When I hear of dat race for colleck the tax between Fred and Felix, I tell my womans, 'Felix he's win that, sure nuff.' When its come for a race, Felix turn round dat pole like one telephone ware.

"At seex o'clock this mornin' the bell she rang for call Fred and Felix to the track. Felix he's come up fresh as one dazee. He's look nervous, but he wear one smile dat was hard for him to take it off, and look like he want to say, 'Give it to Bombard.'

"Fred comes up, and looks like easy mon. Felix he's look at the sky. Fred he's look at the sky, too. Felix don't look at Fred. Fred don't look at Felix, jes' same. The judge, he's give the word to get ready. Felix and Fred look at ground an' spank it on se feets.

"Fred get dat pole like I say before. He break wance time. Felix start out strong, but his wind go 'pish! pretty soon.

"They race nice, Fred and Felix, and at 12 o'clock they pas' the half post nose on top nose. Then Felix make one spurt, and Fred push ahead, and then Felix go up again, and pretty quick Fred he's come up. They pass the las' quarter with Fred four feets on front.

"Then you wish you was there for see dat fineesh. Oh, she was one grand fineesh. Felix, he's pick up his straps; he's hol' his head up like one good breed, what he is, and he's tore up track.

"Fred, he's begin roll ses yeux and go like half pas' two. He's pull hard for the air for keep him from suffocate without his he able to breathe. Felix, he's blow hard, but the Frenchman yell, 'Give it to Bombard.'

"By gar, when Felix hear dat, he grind his teeth together like this, and right off the earth she's fly all over. Felix try catch up with Fred, but Fred 50 yards down on the fineesh, an' go much too quick.

"All the Polack for Fred. Dat's too much for Felix.

"Fred, he go pas' dat ware, an' he's colleck the tax. Dat's how."

WIRE MILL CROSSING REPORT.

Palmer's Share of the Expense of Separation of Grades $2219.

George Leonard of Springfield has filed his first report in the clerk of the court's office as auditor in the case of the petition of the selectmen of the town of Palmer for the separation of the crossing of the Boston and Albany railroad and the Central Vermont railroad, called the Wire Mill crossing, showing the expense incurred in the abolition of said crossing. The total expense, according to the report, was $22,190 12. By the decision of the commissioners the commonwealth was to pay 25 per cent, $5547.53; the town of Palmer 10 per cent, $2219 01; the Boston and Albany railroad one-half of 65 per cent, $7211 79, and the Central railroad of Vermont one-half 65 per cent, $7211 79. The Boston and Albany railroad has expended in excess of its share the sum of $6415 74 and the Central railroad of Vermont $1350.80. The auditor finds that the town of Palmer shall pay the Boston and Albany $2219 01, and the commonwealth to the same company the sum of $4196.73, and the commonwealth shall pay to the Central railroad of Vermont the sum of $1350.80.

HAMPSHIRE-WORCESTER ROAD.

Line From Ware to Gilbertville and West Brookfield to Be Started.

The Hampshire and Worcester street railway, which has not been in operation since January, is to be reopened, probably on the 20th. Superintendent D. E. Pepin received word the first of the week to try to locate the men formerly employed as motormen and conductors, and will probably receive word to-morrow to go ahead and start the cars as soon as he can. Two men commenced work yesterday on the cars, and aside from a few wheels, the rolling stock can be soon placed in good order. It will be necessary to obtain some small pieces of machinery for the power house that may come quickly or may delay opening the road for a time. Should word be received to-morrow, as expected, it is possible cars may be run by the 20th, or it may be that they will not start until the following Saturday or at the end of the month, depending mainly on the promptness with which these necessary things can be secured.

New Trains on the Central Vermont.

The Central Vermont railroad announces that its summer schedule will be put on June 26, at which time it will put on new fast trains between Boston and Springfield and all points north. The train from Springfield will leave at 12 30 p. m. and Brattleboro at 2 15, reaching all Vermont points by daylight and arriving in Montreal at 10 15 p. m., where connections will be made in the same station with fast western express train for Detroit, Chicago and the West. The train will have new coaches with high-back seats, new parlor car to St. Albans, sleeping car White River Junction to Montreal and Chicago, and at White River Junction will connect with the train from Boston which will have parlor cafe dining car with meals on European plan. The south-bound train will leave Montreal at 9 01 a. m., Brattleboro 4.23 p. m., Palmer 6 35, Stafford 7.40, Willimantic 8.27 and New London 9.30 p. m. The new train will be an especially pleasing one for visitors from this section to the mountain resorts of Vermont and New Hampshire, enabling them to get through in about half a day's travel. Information regarding the new trains and the many summer resorts of Vermont, with prices of board at each, is given in a handsome publication, "Summer Homes," issued by the passenger department of the C. V. road, which will be sent on application to the general passenger agent at St. Albans, Vt.

The daily produce of milk at the present time is 600 quarts.

For several weeks a corps of men has been engaged in grading, seeding, trimming and setting out trees.

Mr. F. G. Reynolds, one of our standard entertainers, was here Monday night and gave a very interesting entertainment with an entirely new program. He is a member of the Boston Stars, and has just returned from an extensive tour of the United States.

SCHOOL GIRL RUNS AWAY.

Did Not Want to Continue Her Studies, So Left.

HAD HIGH AVERAGE IN HER CLASSES.

Found on Farm in Enfield Doing Housework and Will be Allowed To Remain.

Alexander Gordon of Dana was in Palmer last Friday in search of his daughter, Lina D. Gordon, 17, who had disappeared from her boarding place the day before and had written to her father stating that she had run away. Mr. Gordon was formerly a machinist in the Palmer hat shop, but about a year ago moved to Dana to live. His daughter was attending the Palmer high school, and disliking to have her studies discontinued Mr. Gordon arranged a home for her in the family of A. F. Stone on State avenue.

Miss Gordon had a high average in her studies, but for some reason did not wish to attend school. Her father would not allow her to leave however, and she decided to go without his permission. She left the house at the usual time on Thursday morning, to attend school it was supposed, and no further trace of her could be found until Wednesday afternoon of this week, when Sheriff Bills received word that she was doing housework at a farm between Enfield and North Dana. The people for whom she worked read newspaper accounts of the disappearance and at once questioned the girl, who admitted her identity. Her parents were notified at once and went for her, but it was decided to allow her to remain there.

PALACES ON WHEELS.

Central Vermont Railway to Put on Two Palatial New Trains Between Boston and Montreal.

To have the pleasure of traveling through the beautiful Green Mountain region of Vermont on trains unexcelled for equipment and appointments, surrounded with every comfort and luxury that money and brains can furnish, will be the good fortune of those who may travel over the Central Vermont railway this summer. With the beginning of the summer season two new trains, now being built to order, will be placed in commission for the Boston and Montreal service. The equipment ordered includes two baggage and express cars, two smoking cars, four first-class day coaches, which will be a pleasing novelty in this part of the country, and two parlor-cafe observation cars, which, besides the large observation room at one end of the car entirely enclosed in plate glass, will have a parlor, smoking room, ladies' toilet room, men's saloon and a complete pantry outfit. These cars which will be of the latest and highest type of design and architecture, will be literally palaces on wheels. The interior finish will be of highly polished Mexican mahogany, with finely figured veneer panels, inlaid with black ebony and white holly stripes. The ceiling will be of that full rich empire design, finished in three-ply veneer, artistically painted and ornamented with soft colorings. The upper windows will be Gothic with art design glass and the lower windows will have a double sash with crystal plate glass, with an art design in Gothic glass in a metal frame, extending over the sections of two windows and dividing the windows in sections of two with intervening panels. All of the inside trimmings will be of statuary bronze. The kitchen and pantry will be equipped with the most modern cooking and service arrangements; the table service will be of the finest obtainable, and meals will be served on the European plan.

The day coaches will have an interior finish of mahogany and will be as luxurious and comfortable as ordinary parlor cars. They will have a smoking room and men's saloon, and a ladies' toilet furnished with sofas and chairs in addition to the most modern toilet arrangements.

The smoking cars are of the same general design as the coaches, except that there will be only a men's saloon, and the seats will be upholstered in leather. The baggage and express cars will be of the blind end type and built to conform to the rest of the train. Every precaution has been taken to make the cars as near danger proof as possible. They will be equipped with the latest anti-telescopic devices, Pullman wide vestibules, six wheel iron-cased trucks, the direct steam heating principle, Pintch gas lighting system, the Westinghouse high speed air brake and the Westinghouse train air signal.

Without question the two new trains will be the finest running out of Boston over any line.

Hargreaves' Shows To-morrow.

To enumerate one-third of the attractions with Hargreaves' shows would take up too much space, but it is safe to say that no other show in the country has as many special features as this gigantic amusement enterprise. Among the features with this show which no one else can duplicate are Jumbo II, the largest elephant in captivity and the only elephant introduced in a marvelous performance by a lady; The Toozoonin Troupe of Arabs, twelve in number, who give an astonishing Oriental acrobatic performance; the only den of trained leopards in the world; the wonderful Leffel Trio, who give the most astounding mid-air performance ever witnessed; William Lowande, the greatest of all American riders; Helen Wilson, premier lady equestrienne; the Orton Family, in feats never before shown; and a Clowns' Carnival by 20 funny performers, which is the acme of comedy. In addition to the complete circus performance the realistic Wild West exhibition and the remarkable hippodrome contests, one of the most complete menageries ever shown is to be seen with this modern and colossal amusement enterprise. The Hargreaves' shows in all its entirety will exhibit in Palmer to-morrow with two performances, at 2 and 8 p. m. The doors will be open one hour before the performance begins in order to give every one ample time to inspect all the wonders in the monstrous menagerie.

WALES.

The ladies of the M. E. church held a social Wednesday evening in the vestry.

T. J. Hynes has the contract to place a new roof on the machine shop of the Golden-rod mill.

A large brush fire broke out in the south part of the town last Sunday afternoon. About 50 men fought it until after dark, and supposed it was all out, but Monday afternoon it broke out again and it was fought until midnight by a large force of men before it was extinguished. More than 100 acres of woodland were burned over.

Our Legislative Letter

BOSTON, MAY 10, 1905.

Common honesty is such a fundamental of legislation that it is no wonder that all eyes are turned when the outcry of "graft" is raised. Susceptibility to temptation is such a general trait, also, that it is no wonder that everybody is all ears when it looks as if some new wretch had fallen. But, really, there is less to holler about graft this week than the noise would indicate. In the first place, no charge was made. Mr. Downey of Cambridge, a new member said, amid great internal commotion, that he believed, or suspected that graft had been used. In order to nail the matter on the spot, I saw him as soon as possible after his deliverance. He said that he had nothing more than suspicion. When asked what was the basis of that suspicion, he replied that when pockets of members were bulging out with bills which they could not account for he believed that something was wrong. Thereby hangs a tale of a practical joke which was played upon Downey and may have been the cause of all the sensation. Next to him sits a contractor, so the story runs, who carries a roll of bills in the ordinary conduct of his business. Just for deviltry when Downey could see him, he took out these bills and began to count them over, saying in a low voice, "Boston and Maine, Boston and Maine." Then he passed them behind Downey's back to his seatmate on the other side, and he, in turn, so Downey got the benefit of it, counted them and mumbled, "Boston and Maine, Boston and Maine." Then one of them asked Downey why he did not pitch in and get some of the stuff while it was being passed around. No wonder the member thought he was in the midst of the Philistines and that unless he shouted for help he might be swept off his feet by the waves of corruption. Possibly undue influences were brought to bear for the passage of the bill, but there is no reason for believing that this was the rotten spot.

William H. Coolidge, counsel for the Boston and Maine, was indignant in view of the criticism which is poured out upon him for sitting in the public gallery during the debate and sending notes down to the floor, evidently steering the debate. He complains that the cuts published of him make him look just like Tucker, the convicted murderer, and he says that the diagram showing the tracks of the messenger from his seat in the gallery to the seat of Representative Hayes of Lowell on the floor of the House look just like the diagram which was published showing Tucker's tracks along the road to the house of Miss Page, where he committed the murder. Esteeming himself to be a lawyer in good and reputable standing, and of some consequence withal, as a representative of one of the great corporations, he protests that he is criticised and condemned for doing what he had a perfect right to do. "I cannot be admitted to the floor," he says. "Yet Edwin L. Sprague, the representative of the state board of trade in opposition to the bill, goes upon the floor of the House during the debate. Why should not I be given just as much right to speak for my side as he is to speak for his? I cannot contradict lies which are told about the bill on the floor of the House. Why should I not send down notes correcting them? Of course I do such things and I have a perfect right to do it." The fact is not the right of the corporation to see members openly and to present its case to them, but that it is prominently present, directing the debate for the bill. There is an active lobby for the bill and the machinery is much more perfect than any which is active for the state. Of course there are rights of petitioners for legislation, but there are also public rights and it is the offensive push for the former which is the unfortunate feature of corporation legislation.

It was a particularly hard streak of luck for the committees on counties when it was held up editorially by a Boston paper for spending $36 75 in April for cigars. The fact is that the item was for hotel bills. But that is not all. At the opening of the session Senator Kyle of Plymouth, chairman, in the interest of public service, urged the committee not to smoke at the sessions of the committee. This they agreed to do and they have kept their word. The fact is that not a cigar has been charged by that committee to the state this session. One of the Plymouth county members says that with the exception of the item of cigars the traveling bills of our committee are above criticism, and it is such a small matter he hopes that they will pay for their own cigars hereafter and so make the record absolutely clean. Some of the committees smoke excessively during their public sessions and make their rooms thick with smoke, enough to draw tears to the eyes,—moral or physical tears, as the reader prefers to interpret the words.

At the time of writing it looks as if the street railway merger bill might be defeated by the House on the enacting stage, for the reconsideration of the vote to engross it failed only by the close margin of 100 yeas to 101 nays and three pairs. The Senate this afternoon put the bill over to Tuesday, on request of Senator Taylor of Suffolk in order to give time for the collection of information. This afternoon Senator Craig of Essex, one of the members of the railroad committee, said that they would accept the House amendment to give more power to the railroad commission, and William H. Coolidge said that the road would prefer it, taking half a loaf as better than no bread. This combination of interest may prevail in the House, unless the rising sentiment of the people, which is showing itself in some parts of the state, impresses upon the representatives the desire of their constituents that the matter go over for another year. The absorption of the street railways by the steam roads is too big a proposition to be rushed through without the fullest popular discussion.

There is discussion among the Democrats of the governor's policy in appointing so many Republicans. It is felt that Private Secretary Douglas stands in the way of personal contact of the governor and members of his party, and the general impression that he is a Republican does not tend to make the Democrats feel any better. In the discussion I have heard it said that hitherto the Republicans, in looking for the best men for the public offices, have almost always found that Republicans ar
the most fit, so that in the three-hea
commission it is not usual to see
Republicans to one Democrat, b
Republicans. The argument is t
probable that at least one third o

FRIDAY EVENING, MAY 12, 1905.

PALMER NEWS.

District Court.

Monday's victim was Myron W. Pratt, who was assessed a fine of $5 for drunkenness, and paid.

Henry J. Roberts and Henry Ringey of Ludlow were charged Tuesday morning by Agent Dexter Atkins of the long-named society of abusing a horse hired of John Collins of Ludlow. Roberts, who hired the team, pleaded guilty and paid a fine of $10. Ringey was discharged. Two drunks were released on probation until June 5.

Wednesday morning's case was that of Alice, the 13-years-old daughter of Jennie Riley of Thorndike, complained of as a neglected child. It was agreed that Edward A. Hall of Springfield should be appointed guardian of the girl, and the case was continued until July 1.

Patrick F. Hurley of Thorndike became involved in a difficulty with a fellow passenger on the 2.34 train from the east yesterday afternoon and was placed in the cooler on arrival in Palmer. This morning he was fined $10 for assault, and paid.

The Eagles' Fair.

Palmer aerie of Eagles will hold a fair in the opera house for five nights, beginning next Tuesday and closing Saturday. There will be dancing every evening with music by Orcutt's orchestra and Prof. Comfort as prompter. An entertainment will be given each evening, with change of bill nightly, professional and local talent taking part. There will be a fish pond, grab bag, fancy tables and all the things which usually go with a fair. The principal contest will be for a $50 diamond ring, to be given to the most popular fireman or electric road employe. Refreshments will be served in the hall, and there will be special electrics to all points each night. The committee of arrangements is J. J. Sullivan, D. V. Fogarty, W. F. Gaffney, J. C. Smith, E. Herig, P. J. Keyes, M. J. Daley, M. J. Moriarty, H. A. White, G. Friend, D. J. Quirk. Dancing will begin at 9 o'clock each night. Tuesday evening there will be a grand street parade at 8 o'clock.

Fire Wagon Ordered.

The prudential committee of the fire district met last evening and contracted for the modern fire wagon which the district voted to buy. The wagon will come from the Combination Ladder Company of Providence, R. I., and will be built for one horse, though a pole will be furnished so that in case of bad going two horses can be used; the change from the one-horse shafts to the two-horse pole can be made in about one minute. The capacity of the wagon will be 1000 feet of hose, and it will have a 28-foot extension ladder, 14-foot folding roof ladder, lanterns, axes, bars and the usual tools, and two chemical extinguishers. Back of the driver's seat will be a wire basket for rubber coats, boots, hats, etc. Delivery is to be in 90 days. The swing harness to go with the wagon has not yet been contracted for.

Pastor's Picture Found.

The large picture of Rev. A. W. Weeks, formerly pastor of the Baptist church, which disappeared from its place on the wall of the vestry in a mysterious manner a few weeks ago, has been found. Some of the women of the parish were at the church this morning engaged in spring housecleaning, and discovered the picture in a closet under the stairs leading to the choir loft, at the back of the church. The closet is in an out-of-the way place and is never used; indeed, some of the oldest members of the church have no knowledge of its existence. The picture was not harmed in any way, and has been put back in its former place on the wall.

At the meeting of the selectmen Wednesday evening the contract for supplying pipe for the new sewers to be built by the town in accordance with the vote at the annual meeting, was awarded to the D. W. Lewis Company of Worcester.

The usual services will be held at St. Paul's Universalist church Sunday: Morning worship at 10 45 with sermon by the pastor; Sunday school at 12; Junior Y. P. C. U. at 4; Senior Y. P. C. U., chapel service, to which all are invited, at 6.

At a meeting of the selectmen D. V. Fogarty of Three Rivers and Maurice Fitzgerald of Ware were appointed special police. James Wilson of Three Rivers has been granted an auctioneer's license, and Martin Stokes of Thorndike a pool license.

A fire in the woods on the Point of Rocks was responsible for the calling out of the department about 7 o'clock Monday evening. It was extinguished without serious loss, though for a time it threatened to consume the house occupied by George Day.

Mr. and Mrs. A. C. Thompson of Wakefield, formerly of Palmer, will have the sympathy of a large circle of Palmer friends in the death of their infant daughter Tuesday of pneumonia. The older child has also been very sick with the disease, but is now recovering.

Miss Linda Hawley Brigham of Mechanicville, N. Y., formerly of Palmer, will sail for Europe June 17 to be gone until September. She was given a banquet by the Sans Souci club last week Thursday evening, when she was presented with a purse of gold.

At the regular meeting of the K. O. K. A. Wednesday evening it was voted to hold the last meeting of the season next Wednesday, beginning at 7.30, to be followed by a banquet. Rev. W. A. Moore, Robert Barton and Rexford Paine were chosen as a committee of arrangements.

Rev. J. J. Lewis will give stereopticon lectures in St. Paul's church Tuesday and Wednesday evenings, May 23 and 24. The first will be the "Passion Play," the second the history and beauty of old New England. Mr. Lewis is well known as a lecturer and an unusual opportunity is afforded Palmer people.

George M. Ray, about 60, of Providence, R. I., came to Palmer Tuesday in search of rest and health, intending to spend the summer on the Wells farm on the road to Brimfield. He was suffering from Bright's disease, and was so sick on Wednesday that a physician was called. He failed to rally and died last evening.

Miss Agnes G. Dawson, 28, died last Friday night of apoplexy, after a short illness. She leaves a mother, two sisters and one brother. The funeral was held Sunday afternoon at 2 30. Burial was in the Thorndike cemetery. The bearers were J. J. Manning, M. E. Murphy, D. E. O'Connor, John Moran, David Sullivan and Charles McManamy.

Miss Elizabeth M. Leonard, recently with Smith & Murray of Springfield, has opened a fancy goods and notions store in the Feeney block on Main street and announces that a full stock of goods in the various lines will be carried and that city prices will be maintained, giving an opportunity to secure goods at the lowest figures without the trouble of going to the city for them. She announces a special sale of ribbons in her advertisement in another column.

Forest Lake has long held a reputation for containing large turtles, and it is not likely to suffer any diminution in this line this season, at least. An electric car en route to Ware Saturday afternoon was obliged to stop just after leaving the lake station to avoid running over an immense old fellow which was crossing the track. It was estimated that he would weigh at least 25 or 30 pounds, and the motorman said that in crossing the track he stepped clear over the rails never touching them, although they are some four inches or more high.

The parish committee of the Universalist church has engaged Dr. John Jay Lewis, A. M., "The Apostle of the Passion Play in America," to give two of his pictorial travel talks in the church on the evenings of May 23 and 24. The lectures selected are "The Passion Play of 1900" and "The History and Beauty of Old New England." Dr. Lewis is known throughout the country as author, lecturer and orator, and many of our town's people will remember his quaint humor, pathos and rare eloquence in his lecture on the Passion Play of 1890, which he gave here ten years ago.

BONDSVILLE.

Successful Fair.

The fair held by the King's Daughters' Circle in the vestry of the M. E. church last Friday evening was a great success both socially and financially. There was an unusually large crowd in attendance, including many from the surrounding villages, and all had a pleasant time. Fancy and useful articles were on sale and also home-made candy, potted plants and cut flowers. The booths were decorated with blue and white and yellow and white crepe paper and presented a very attractive appearance. Ice cream and cake were served during the evening and a farce was given by several of the young ladies entitled, "The DumbWaiter." As a result of the evening's work the Circle will clear about $50.

Met With Bad Accident.

Patrick Fitzgerald, a driver on one of the company's teams, met with a bad accident Tuesday morning. While backing his team near a five-foot wall, through some mishap the horse backed too far, letting the wagon and driver over the wall. The horse was unable to free himself and followed in the mixup. Mr. Fitzgerald was able to crawl out of the wreckage, but not without first receiving a cut wrist and two or three bruises from the horse's hoofs. He was able to walk to the doctor's to have his wrist attended to, but will be unable to resume his duties for a time.

A Wonderful Saving.

The largest Methodist Church in Georgia used 32 gallons of L. & M. mixed with 24 gallons of oil, thus making paint cost about $1 20 per gallon. They calculated to use 100 gallons of other paint. Saved about $80 00, and also got a big donation of L. & M. Dealers gladly sell L. & M., because their customers call for it, and say they used it 12, 14 and even 30 years ago.

Don't pay $1.50 a gallon for linseed oil, which you do in ready-for-use paint.

Buy oil fresh from the barrel at 60 cents per gallon, and mix it with L. & M. Paint.

It makes paint cost about $1.20 per gallon. Sold by Asahel Wheeler Co., Boston; W. N. Flynt & Sons, Monson; John Wilson, Three Rivers; F. A. Gurney, Wilbraham; W. E. Stone & Son, Palmer.

"Saving Your Bacon"
is a phrase which means getting safely out of any predicament with your possessions intact. It was used because in the old days the stock of smoked and cured bacon was a very valuable possession of the housewife. Nowadays it is equally valuable and precious, though it comes in glass jars attractively put up, and is known as Beech-Nut Sliced Bacon. You can find it at the store of

Faulkner, '06, and Cahill, '07, attended the Ware-Palmer game at Palmer Saturday.

The baseball team will play the town team on Flynt Park to-morrow afternoon at 3.30.

The senior class has chosen Miss Annie Crowley, Miss Fannie Brainerd and Miss Alicia Gough as the three members to speak at the commencement exercises.

The girls of '06 appeared Monday morning with great dignity in their newly-purchased and much-admired class hats. At the first sight many were amazed, but soon recovered however. These hats are the reddest things out.

The senior class will give an entertainment at the Academy chapel next Friday evening. Much time has been given to this by the members of the class, and it is hoped that they will be repaid for their work by a large audience. The admission is 25 cents. The cast for "The Scarlet Bonnet," which will be given is:

Miss Mercy Mather,	Miss Ella Doyle
Miss Hope Mather,	Miss Margaret Cushman
Mrs. Gordan,	Miss Nellie Beckwith
Jean Gordan,	Miss Alicia Gough
Mattie,	Miss Kate Cushman
Alice,	Miss Alice Noble

Say Valuation Was Too High.

The county commissioners have filed a decree on the petition of Mrs. F. F. Marcy of Palmer for a reduction of the value set on a woodlot by the Monson assessors. They fixed a value of $1000 on the property, which the petitioner claimed was excessive, and asked for a hearing by the county commissioners, which was held recently. They have now decided that $900 is a fair valuation, and that this shall be the rate in future. At the hearing W. M. Tucker of Monson, one of the witnesses for the town, stated that he would give $1000 for the property, and it was later sold to him for that sum. He has already had several wood dealers looking at the piece with the intention of raising the price, which would indicate that it is a valuable piece of property.

Miss Sara Gavin is spending a few days in New York.

M. F. Bacon of Salem visited friends here this week.

Carl Bruch of Granville called on old friends here this week.

George J. Briggs of Holyoke visited friends here this week.

Hodskins, city milk inspector, who made an examination of the milk furnished the coöperative milk association on March 1.

WARREN.

Albert W. Lincoln, 60, a native of this town, died at his home in Springfield Monday, after a long illness with diabetes. Mr. Lincoln was born on Coy's Hill, February 9, 1845, and was the son of Albert W. and Mary Blair Warren, descendants of early settlers. He lived in Warren for many years, being interested in various business interests and more especially in real estate. He spent winters in Springfield for a number of years, and several years ago moved to that place with his family. He leaves a mother, a widow, and a daughter, Florence B. Lincoln. The funeral was held at his late home in Springfield yesterday morning at 10 30 and was private. Rev. Dr. F. L. Goodspeed of the first Congregational church in Springfield officiated. The body was taken to Warren in the afternoon, where services were conducted at the grave by Rev. Mr. Olson, pastor of the Congregational church in Warren.

WEST WARREN.

The annual meeting of the West Congregational society was held Saturday afternoon, when these officers were chosen: Moderator, George Bliss; clerk, Milton Dickson; treasurer, Frederick N. Lawrence; prudential committee, George Bliss, John Caldwell and Clarence L. Thompson.

Mrs. George W. Leonard, who has been recuperating the past three months at her home on Main street after treatment in the Worcester city hospital, while walking with crutches from one room to another Sunday, her crutches slipped and she fell to the floor, badly spraining her right leg above the ankle.

Steamer company 2 of the fire department has elected the following officers: Foreman, Patrick J. Cantwell; assistant foreman, William Benson; clerk and treasurer, James T. Campbell. The hook and ladder company No. 2 have elected: Foreman, H. R. Trickey; first assistant, John W. Fountain; second assistant, George Lamonda; clerk and treasurer, Jerry Casey.

Emery Furkey, 36, died suddenly at the home of his sister, Mrs. Pierre Brenvenu, on North street Saturday morning of heart disease. Mr. Furkey was employed at intervals for many years as second-hand of the spinning-room in West Warren in the No. 3 mill. During the last winter he had not worked in West Warren, and only returned there last week. Mr. Fortier was married about three years ago, but he and his wife separated about a year ago, and her present whereabouts is not known. He is survived also by a father and two brothers in Canada, and a sister, Mrs. Pierre Brenvenu of West Warren. The funeral was held in St. Thomas's church Monday morning and burial was in Warren.

WILBRAHAM.

Death of Nathaniel Knowlton.

Nathaniel Knowlton, 79, who died at his home on North Main street last week, was a life-long and respected citizen of Wilbraham. Mr. Knowlton, who was the son of Nathaniel and Temperance (Day) Knowlton, and a descendant of Thomas Knowlton of Revolutionary fame, whose monument is in the capitol grounds in Hartford, Ct., was born in the section now known as Glendale. Mr. Knowlton learned the brick mason's trade, and for many years was foreman for the late John L. Hunt of Springfield, working on many of the finer buildings of that time. He also personally laid brick in the tower of the United States arsenal on the armory grounds, always being rated as a skilled workman at his trade. Besides his widow, he is survived by a son, A. P Knowlton of Bondsville, and a daughter, Mrs. F. S. King of Chicopee; also a brother, Phineas Knowlton of Springfield, and a sister, Elizabeth Quimby of Newburyport. The funeral services were held at his late home Saturday, Rev. M. S. Howard officiating, and burial was in Woodland Dell cemetery.

Mr. and Mrs. Fred Warren of Chicago are in town for an extended visit.

James S. Morgan has the contracts for building two new schoolhouses, one at the North village and one at Center village.

Phineas Knowlton of Springfield, honorary deacon of the First Congregational church of Wilbraham, where he formerly lived, has presented the church with a handsome individual communion service, which was used for the first time Sunday. A rising vote of thanks was taken in appreciation of the gift. Two new members were received into the church.

BELCHERTOWN.

J. W. Forrest, superintendent of the belt factory sailed for England Wednesday.

Rev. Mr. Moody of the Methodist church has moved his family into his residence on Federal street.

Mr. Shaw, the newly-appointed station agent, has leased the Fairchild house, and with his family moved in Friday.

James Miller, who has owned the "Root" place in Mill Valley for some time, has sold the farm to Ole Fuller, who has been residing in the West for some time. It is understood that Mr. Fuller will occupy the place with his family.

Invitations have been received in town for the marriage of Miss Eva E. Morse and Edward P. Oleson, both of Worcester. Miss Morse is a native and former resident of Belchertown and a niece of ex-Senator M. A. Morse. The wedding will take place in Worcester the 24th.

L. W. Dillon is planning to run an automobile line between Belchertown and Holyoke, making the trip several times a day. Auto transit was given a test last evening, when a touring car, carrying 16 men, went to the grade-crossing bridge. The machine was then turned around and returned to to the post office.

The committee of the Grand Army and Woman's Relief Corps held a meeting last *Friday afternoon* and decided to have a dinner Memorial Day, to which the Grand Army post, Sons of Veterans, town officials and the press will be invited. Mrs. Maria W. Going of Boston, past department president of the Woman's Relief Corps will be the speaker, and the exercises will be held in the Congregational church. Dinner will be served in the vestry of the Baptist church.

WARE.

School Superintendent Elected.

At a meeting of the joint committee of the Warren, Wales and Holland school superintendency district Wednesday, Parker T. Pearson of Eastport, Me., was elected superintendent to begin work August 1. Fourteen members of the committee were present, and it is understood that the vote stood 8 to 6 in favor of Mr. Pearson, and considerable discussion was aroused by those in opposition to him. Mr. Pearson is a graduate of Colby, and comes highly recommended. Although a young man he has been very successful, having been principal of a large high school four years, and for the past three years has been superintendent of schools in the Eastport and Lubec, Me., district.

Tiffany—Dufault.

Cora Lena, daughter of Mr. and Mrs. Owen Tiffany of Pleasant street, and Emile James, son of Mr. and Mrs. Joseph Dufault of Vernon street, were married by Rev. J. A. Riordan in All Saints' church Monday morning at 8. Rev. J. H. Murphy celebrating the nuptial mass. Miss Mary Tiffany acted as bridesmaid and Arthur Dufault was best man. The bride wore a dress of white China silk, trimmed with white lace and chiffon, and carried a bouquet of bride roses. Following the ceremony a wedding breakfast was served at the home of the bride, after which Mr. and Mrs. Dufault left for New York, and from that city will go to Enfield, N. H., where they will live.

Farrar Wins by 115 Votes.

The special election for tax collector was held in the town hall Monday from 6.30 a. m. to 4.30 p. m. with a surprisingly large vote of 1222 out of a possible 1406. Of this total, Frederick W. Farrar received 664 and Felix Bombard 549, with some nine blanks. At the annual town election the recount showed each candidate to have 560, so that the vote Monday showed Mr. Bombard to have lost ground with a larger number of votes out, while Mr. Farrar gained.

Steamer company No. 1 has organized with Joseph Faron foreman, Henry L. Gendron assistant foreman and George H. Burbank clerk.

The Brookfield conference of Congregational churches was held in the chapel on Church street Tuesday and Wednesday with a good attendance.

James Mahoney, 20, died Sunday morning at his home on Cherry street after a long illness with consumption. He leaves two sisters in Ware, Hannah and Ellen, and a married sister in Ireland. The funeral was held in All Saints' church Tuesday morning.

The pupils of the public schools will hold a May festival of song in the town hall next Friday evening. The program will be made up of selections by the different grades and of the high school, and a short demonstration of the work as conducted in the schoolroom by the supervisor of music, C. E. Keyes. The concert is free and all are invited.

A forest fire broke out on the west side of the Ware river last evening and burned over about 50 acres of young woodland, and through the larger part of Easton's grove, a pleasure resort about half a mile from the village. Deputy Fire Warden Charles Berube and a large number of men finally succeeded in extinguishing the blaze after about two hours' hard work. Considerable damage was done.

OUR LEGISLATIVE LETTER.

[CONTINUED FROM FIRST PAGE.]

that even the Democrats who want office would prefer to have the party win and they be left out of office than have the Republicans win and they be left out of office just the same. There would be a better chance of office later with a Democrat than with a Republican. The question is how far can the governor go without arousing so much resentment that the Democrats would prefer to be outside the breast-works and their party, too, rather than have the party inside and the Republicans outside.

The nomination of Archie H. Kirkland to be superintendent of the work for the suppression of the gypsy and brown tail moths is in the line of first-class public service. Mr. Kirkland was in charge of much of the work under the former regime and is competent and honest, as well as largely experienced. He is an expert entomologist, and no better man could be found for the situation? The salary reaches the fat figure of $5000. It will be at least a three years' job.

It was by 75 to 24 that the House went on record to-day for the bill for a direct tax on inheritances. Though the members applauded Representative Walker of Brookline at the end of his 40-minute speech, it was more for his fair play and candor than because they agreed with him. He made the best possible that could be made out of a case when the House was so strongly against him. Without any doubt the House will pass the bill and it will go to the Senate. Considering that it is much less radical than previous bills, for it exempts $10,000 at the outset, then puts a 1 per cent tax on all estates between $10,000 and $50,000, then 2 per cent on all between $50,000 and $100,000, and 3 per cent on all above $100,000, and that it makes no distinction between personal and real property, it is more probable than ever that the Senate will favor it, but still the chances are against it there, for the Senate has always defeated a bill of this sort and the tendency is in that direction.

Since the Senate ways and means committee has reported unanimously against the House bill for a consumptives' hospital at a cost of $150,000, it is quite doubtful whether it can be passed, though Representative Googins of Cambridge, who put it through the House, feels confident that the Senate can be persuaded to pass the bill.

The Dynamite Bomb

[Copyright, 1905, by T. C. McClure.]

The passenger who would hold converse with the captain of a great steamer must go about it as formally as if he wished for an interview with a great man ashore. He makes his approach through the purser, and unless his business is of the greatest importance he is not encouraged to string it out.

When J. B. Stillman, Chicago, first class passenger on the Undine, asked to see the captain when the ship was 400 miles on her westward course his excuse that he had a letter to deliver to him was not deemed sufficient to arouse the commander from his forenoon nap. The purser took the letter to deliver two hours later.

Mr. Stillman had an interview with the captain, however, and it was one he was not likely to forget for years. He was playing cards in the smoking saloon when he got word that the great man wanted to see him instanter. The word was brought by the purser and the chief officer, who were ready to escort him to the captain's stateroom by force if necessary.

"Sir, explain yourself about this letter!" said the captain as he held out the missive given to the purser two hours before.

"You mean how did it come into my possession?"

"That's it."

"It was handed to me at my hotel just before I left to come aboard. I promised to hand it to you at once, but in the bustle and confusion and being naturally absentminded I forgot all about it until a few hours ago. If I have caused you worry or damage I sincerely regret it."

"Who gave you the letter?"

"A stranger, and yet he was a man I had seen several times. Indeed I heard him say that he intended to take this steamer, and when he handed me the letter I supposed it concerned that business. Is there anything wrong, captain?"

"There may be a good deal wrong, sir," was the grim reply. "Is there any one aboard who can identify you?"

"Yes, there's Brown of Philadelphia, Warner of Boston and Phillips of Pittsburg. I've done business with all of them. Do you take me for a card sharp or a conspirator?"

"Give the gentlemen named my compliments and ask them to favor me for a moment," said the captain to the purser and mate.

During the five minutes which elapsed before the men returned he made no remark to Stillman, and the man from Chicago felt foolish and uncomfortable. He was not a fugitive from justice, and he had committed no breach of discipline aboard the steamer, but all signs indicated that he was in for trouble.

"Gentlemen, you know Mr. Stillman, do you?" was asked of the three parties named.

They answered in the affirmative and soon satisfied the captain that he was a man of character.

"Then I am in something of a fix," he replied. "I did not suspect Mr. Stillman of being a villain, but I was rather in hopes to hear that he was a practical joker. If it had turned out that way my mind would have been relieved, and yet I should have had him in irons for the rest of the voyage. This letter states that a dynamite bomb has found its way into one of our coal bunkers and that when it is fed into the furnace we will become food for the fishes."

"And do you believe the letter a hoax or is it a warning?"

"It is a warning."

"I agree with you, and I must take all of you into my confidence. Not a lisp of the matter must get beyond this room. We are helpless. Let the crowd know why we are so and a hundred of them would jump overboard. That bomb may be fed into one of the furnaces while we talk or it may escape the coal passers until we reach our dock in New York. We have simply got to take our chances."

"But the coal bunkers—why not overhaul the coal bunkers?" asked Warner and Phillips together.

"Why not search for the cork of a champagne bottle on this broad ocean?" queried the captain, with a smile in which there was no humor. "Perhaps none of you gentlemen ever saw a dynamite bomb of the sort that we have been loaded with? Well, I have. It is artfully concealed in a lump of coal. Unless we inspected each lump in the bunkers by itself we could not find the bomb."

"Why not shovel every pound of coal into the sea and lie by until picked up and towed in?" was asked.

"The bomb would then go over with the coal, and we should have only this *letter left. It would be called a hoax. We would be called fools and old wo*men. It would be known as the hoax of the century, and smart Alecks by the dozen would perpetrate it again. We shall keep right on. Not a hint must reach another soul aboard. I will have the boats made as nearly ready as I dare, and then we must wear smiling faces and trust to God."

The Undine made a speedy and safe voyage and entered her slip in New York with all well and no excitement. Two days later Stillman went down from his hotel to see the captain and to ask if he had heard anything new.

"Come to my cabin," was the reply. And when they were there he showed the Chicago man a lump of coal weighing fifty pounds and deftly concealed in its center a dynamite bomb big enough to blow up the tallest skyscraper.

"And it was found among the coal?"

"It was in the last bunker and would have been used had we been three hours later making port."

M. QUAD.

A Good Suggestion.

Mr. C. B. Wainwright of Lemon City, Fla., has written the manufacturers that much better results are obtained from the use of Chamberlain's Colic Cholera and Diarrhoea Remedy in cases of pains in the stomach, colic and cholera morbus by taking it in water as hot as can be drank. That when taken in this way the effect is double in rapidity. "It seems to get at the right spot instantly," he says. For sale by Quimby Pharmacy, Palmer.

STRONG TESTIMONY.

This Is Palmer Testimony And Will Stand Investigation.

If you doubt the following and wish to investigate, you haven't to go to some other state in the Union to prove it. It's not a long story published in Palmer newspapers about a resident of Kalamazoo, Mich., or Tampa, Fla., It's about a resident of Palmer and given in her own words. No stronger proof can be had.

Mrs. A. Peterson, living in the northeast part of the town says "Mr. LeGro recommended Doan's Kidney Pills to me some time ago and I used them, obtaining remarkably good results. Before I took them for over two years I had attacks of dull heavy aching in the small of my back just across my kidneys. If I sat in one position for any length of time I became so stiff and lame that I could hardly get up, and if I stooped it caused sharp twinges in my back so bad that they made me cry out. I tried other remedies but they did me no good. Doan's Kidney Pills helped me from the first and finally removed the backache. I have had no return of the trouble. Should I ever have a reoccurrence I now know what to do. I recommended them to a lady friend of mine, Mrs. L. Lafarr, out in the carpet mill district. She used them and told me afterwards that they cured her of a severe backache."

The Reporter Succeeded.

In New York on one occasion a reporter made several vain attempts to see J. Pierpont Morgan, both at his office and his residence. Finally his opportunity came. He was interviewing another financier and incidentally came into possession of the latter's card. He kept it; then, going to Morgan's residence, he sent in his own card in company with that of the financier. The ruse was successful, and he was shown into Morgan's presence. When the reporter had stated his reason for the call the financier said: "Do you know, young man, that at least ten reporters have tried to see me today with reference to this question? I have declined to see any of them." The reporter smiled and replied, "Yes, sir, I know that, for I was the whole ten." He got his interview.

They Were Harmless.

In her book on the poet Whittier, Mrs. Claflin relates the following anecdote: An old Quaker friend visited Mr. Whittier. He was a bachelor, and when the hour for retiring came he was shown to his room. Soon after he was heard calling from the top of the stairs in an excited tone: "I think thee hast made a mistake, Friend Whittier. I find female garments in my room!" At which Friend Whittier replied: "Thee'd better go to bed. The female garments won't hurt thee."

Chamberlain's Cough Remedy the Very Best.

"I have been using Chamberlain's Cough Remedy and want to say it is the best cough medicine I have ever taken," says Geo. L. Chubb, a merchant of Harlan, Mich. There is no question about its being the best, as it will cure a cough or cold in less time than any other treatment. It should always be kept in the house ready for instant use, for a cold can be cured in much less time when promptly treated. For sale by Quimby Pharmacy, Palmer.

Our showing of Parasols surpasses that of any previous season. Dainty colorings and beautiful materials combine to make it an attractive display. Among the materials are Adria, Taffeta and Pongee Silks and Linen. In addition to the plain effects in black, white and all colors, there are hand-painted, hand-embroidered, tucked and hemstitched covers; covers trimmed with chiffon, in both black and white; black, white and blue covers embroidered with white; and covers with insertions of ribbon. Very popular Parasols are those of Pongee with linings of silk in different colors to match the costume. The newest idea is the White Linen Parasol. There are also many novelties in black and white. One of the most convenient styles is the Dress Suit Case Parasol, which can be folded to go into a dress suit case or trunk. There is also a line of Carriage Parasols. In the whole collection there are no two styles alike. The variety of handles is equally broad, among the novelties being an attractive line in burnt wood. Prices range from $1.00 to $8.00.

Lend Your Attention For ... A Moment ...

We want you to know about the new system for selling house furnishings, which has been adopted by the Metropolitan Furniture Co. It is to be known as

The Metropolitan's System of Furniture Selling.

It is a grand idea. We do not care to explain the principles of the new system, for it can be neither patented nor copyrighted and in the secret of its workings lies its success.

It is sufficient to say that it is working wonderful results. It enables us to sell to you the very best house furnishings at prices lower than we ever before imagined possible, and enables you to furnish your home as you desire.

The Metropolitan Furniture Company is already well-known throughout Western New England, but it will be far better and more extensively known in the future.

The Metropolitan's system of furniture selling will do it.

The following goods, described and priced, is a fair illustration of how the system is beginning to work.

Did you ever see goods of this quality—new and perfect goods—sold at such prices?

Come in, let us show you the goods.

You know we sell on credit, too. If you haven't the cash, don't be bashful. We respect an honest man and trust him.

The Father and Mother .....Of the Flowers

[Original.]

Papinta was the daughter of a Spanish grandee, Don Miguel Rebera, and lived with her father midway between Valladolid and Salamanca. Papinta was absorbed in flower culture. In the early spring the flowers that had been kept in the conservatory during the winter were carried out for her, and *she planted them herself. Then while they were budding she cared for them,* pruning and watering them with her own hand. At times she would talk to them as if they were children.

"Aha, my fine fellow," she would say to a tiger lily, "you are magnificent, and I admire you very much, but you are too independent of me. You could get on as well without me. My little violets here, nestling down close to the earth, need all my care, and they are the rivals most to be dreaded by you. What, Jack, are you going to open so soon? May the Virgin keep the frosts away that you may bloom in all your crimson splendor."

One day while she was thus talking to her flowers she looked up, and there, leaning on the low garden wall, was a young man. Papinta had been so absorbed in her pets that for a moment she saw the face of the stranger through them. The features seemed contained within the encircling petals of a rose, which in a twinkling faded into a lily, then into other flowers in the same rapid succession. In her father's house were marbles of ancient gods and goddesses, and the stranger's head and shoulders to Papinta resembled a bust of Apollo. The face was certainly very beautiful, and the eyes looked at the girl with an expression of marked approval.

"You love your flowers," said the young man.

"Indeed I do."

"I call them my children."

"So do I. How strange!"

"Will you give me one?"

Papinta plucked a budding rose, went to the wall and gave it to him. He took it, enjoyed its beauty and its fragrance, then, turning his eyes again on Papinta, said:

"It is very lovely, but there is a flower in your garden far lovelier."

"Which?" asked Papinta, looking aside.

"It has a blush in its cheek that no other flower has, for it comes and goes within a few moments."

Such natural love making in Spain has never been permitted, but it was some weeks before Don Miguel discovered that his daughter, every day attending her flowers, met a young stranger, and when he learned the secret it was too late. Papinta's heart had gone into the possession of the father of the flowers. Of course her meetings were stopped, for she was not allowed to go to her plants again. Whether it was that she mourned the separation from them or from her lover, or both, she fell ill and passed rapidly into a burning fever.

While delirious Papinta saw a vision. She was in heaven and in that part of heaven to which she was assigned to dwell, the heavenly gardens. The flowers there seemed endowed with life, some lifting their heads erect as if conscious of possessing a supernatural strength for good, others modestly bowing as if in a sanctuary, while some crept on the surface as if conscious of unworthiness. On all there shone a light of heavenly splendor. Presently they raised their heads and turned them in the same direction. Papinta looked, and there coming she saw the father of the flowers. He was smiling upon her, and when he drew near he said:

"Welcome, Papinta. Here we shall care for the flowers untrammeled by the ills of earth. They will not be blighted by drought or storm. These have endured and died to be born again in this heavenly kingdom. Changes there will be, but not the changes through which they have passed. The transitions will rather be from one delight to another. Come, mother of the flowers, let me show you our heavenly children."

He led her along paths that sparkled with crystals and shells and pebbles. The flowers as they approached turned toward them, breathing upon them as they passed such fragrance as Papinta had never known before. There were the rich flowers of the tropics, wild flowers both of mountain and of lowland and tiny bits such as violets and lilies of the valley.

"These," said the father of the flowers, pointing to the larger ones, "are our grown sons and daughters; these, the smaller ones, our younger children, and these, the tiny ones, our babes."

From her vision Papinta passed into a consciousness of her real surroundings. Her father and mother were standing looking down upon her, and there between them was the mortal father of the flowers.

When Don Miguel had seen that he must lose his daughter or bring the stranger to her he went out for the purpose and found his guest waiting without the gates. Don Miguel brought him in, and he stood with Papinta's parents over her bed, waiting till she should regain her faculties.

The young man had come from Madrid. His life work was the study of plants, and he had determined to pursue his studies in connection with practical cultivation. For this purpose he had purchased a tract of land near the grounds of Don Miguel Rebera, and when he first came upon Papinta he was engaged in superintending the erection of his buildings and laying out his gardens.

The father and mother of the flowers had myriads of botanical children and some human ones. The latter were invariably given the name of some plant.

Why Suffer From Rheumatism?

Why suffer from rheumatism when one application of Chamberlain's Pain Balm will relieve the pain? The quick relief which this liniment affords makes rest and sleep possible, and that alone is worth many times its cost. Many who have used it hoping only for a short relief from suffering have been happily surprised to find that after awhile the relief became permanent. Mrs. V. H. Leggett of Yum Yum, Tennessee, U. S. A., writes, "I am a great sufferer from rheumatism, all over from head to foot, and Chamberlain's Pain Balm is the only thing that will relieve the pain." For sale by Quimby Pharmacy, Palmer.

Her Smuggled Necklace.

Women who are the soul of rectitude in all other things will not hesitate to evade the law when it comes to smuggling. For some reason or other they do not consider smuggling dishonest, but rather as an exciting sort of game to play. Every woman who goes to Europe spends hours of her preparation to return in devising means of bringing things in without paying duty.

Men are much more honest about the things they bring in, and not long ago I heard of a case in which a man humored this smuggling tendency in his daughter, but took good care that she should not be discovered evading the law.

His daughter had purchased a valuable diamond necklace in London and announced her determination to bring it in without paying one penny of duty. There was no reason in the world why she should have chosen to do this, as her father was a very rich man and could have paid the duty without noting its absence from his bank account. But she wanted the excitement, and her father agreed to let her have her own way. She brought the necklace in in a small bag, which her father asked her to let him hold for a moment or two, and it was not for nearly a year that she found out her father had declared the ornament and paid the duty on it. At any rate, she had had her amusement.—New York Post.

Catarrh

If people could only see that Catarrh is an internal scrofula—that nothing applied externally does much good—they would not need to be warned so often about this fatal disease, which invariably ends up in consumption at the cost of eight to ten million lives every year—and yet Catarrh is easily cured if you go about it in the right way. Catarrh will never get better of its own accord. It will never wear off like a headache or a bilious spell, because Catarrh is caused by germs in the blood, which circulate throughout the entire system. External remedies give temporary ease, but Catarrh is not an external disease, even though the effects are often seen in the form of pimples, rash, eczema or dry scaly skin, and will never be cured by external remedies.

Catarrh is caused by a germ, and must be cured by a remedy that first of all destroys the germs. That remedy is Rexall Mucu-Tone, prepared from the prescription of a physician whose specialty for thirty years was Catarrh, and whose record of success was—every case cured. I am not at all surprised at this record for Mucu-Tone, because it is entirely different to any other remedy for Catarrh I ever sold or you ever bought. Mucu-Tone first of all destroys the germs of Catarrh, and, at the same time—as its very name implies—tones the mucous tissues that have been ravaged by the catarrhal parasites. It is a splendid tonic and appetizer, a perfect spring medicine. You will never get rid of Catarrh unless you get at it internally. You cannot successfully treat it internally unless you use Rexall Mucu-Tone. I want you to try it on my recommendation. I have a large trial size I sell for fifty cents that I guarantee to give results or refund you your money.

WHIRLING SPRAY

A Youthful Lover

[Original.]

There are but two years between a girl of twelve and one of fourteen, but a great change takes place within these two years. At thirteen I threw aside my doll; at fourteen I was in love.

My father lived on a small income he had inherited, devoting much time to study, especially of the Greek and Latin classics. One morning I was in the garden when he came out of the house chatting with a young man, both approaching the spot where I sat idly in a swing. The young fellow was about eighteen, tall, straight and with a head and throat that reminded me of the poet Byron. My father was showing him the grounds. They passed very near me, but I was too young to be noticed or introduced, and my father paid no more attention to me than if I had not been there. The young man glanced at me, then turned away.

I was angry with my father that he did not introduce me, but as to the young man he was not responsible for the slight, not having been introduced. Had he noticed me without such formality I should have resented it as evidence that he considered me only a child. They walked about the garden, I listening to catch what they said, for I was curious to know who the young man was and what my father had to do with him, but I caught only two words, Cicero and Xenophon.

When they approached me on their return I arose and walked with as much dignity as I could muster into the house. But I was painfully conscious that my skirts were shorter than they should have been for one of my years, and if I looked dignified I felt quite the reverse. The young man was Evan Montague, the son of a wealthy man who lived near by on the hill, and my father was to coach him for his college entrance examination. He came to my father's study three times a week until the 1st of September. I noted the hour that he left the place and usually took position in a hammock swing between two trees where he would pass me. This I did because it enabled me to conceal my feet and ankles or rather my short dress. He soon came to nod to me, but did not lift his hat. I returned his salutation as stiffly as possible till one morning he gave me a woman's salutation, whereupon I smiled as sweetly as I knew how.

He entered college, and I did not see him for two years. His first vacation was taken up with a trip to the west, but his second he spent at home.

As soon as I heard of his arrival I was in a tremor of excitement. Morning, afternoon and evening I put on my most becoming costume suitable to the time. I did not propose that he should catch me in an untidy condition. At last I was rewarded for my trouble.

He came down to call on father and talk about his college course. It was the 25th of June when he came at 11 o'clock in the morning. The date and hour were more to me than when I once fell off the piazza roof and came very near being killed. When he called I was lying in the hammock in the same position as when he used to pass me two years before. On seeing him my heart thumped in my throat. I arose and awaited his coming as I would that of any stranger. As he *drew near I was beside myself to see a* look of admiration in his eyes.

"Surely," he said gallantly, "this cannot be the little girl of two years ago."

So long as the two years were passed and I was not the little girl he had considered me I forgave him in my heart, but not with my tongue.

"I'm not a young lady," I replied, "any more than I was then. You'll find father in his study."

I regretted my words as soon as spoken, for he did not come to the house again during his vacation, and I fancied I might have turned the scale of his doing so by my words. The matter gave me food for thought for two years more, during which I did not see him.

The summer after his graduation he spent at home and called on my father. Mother told me that he had also asked for "the ladies," and I must go down to see him. I had the satisfaction to notice another look of pleased satisfaction as he saw me sweep into the room with all the dignity of my eighteen years.

"Surely you are a young lady now," he said. "You can't deny it this time."

Delighted as I was that he should have remembered my words, I did not deign to appear to remember them myself. Assuming a puzzled look, I bore myself not as if I had lately become a young lady, but as if I had always been one.

He called a number of times that summer, but as he had known me as a little girl he still felt that there was a difference between us, though this was my fault, for I never ceased to bother him by acting as if I considered him a Methuselah. He always asked for us all when he called, and as I now had plenty of beaus I usually feigned to prefer them, especially the youngest ones, which I knew fretted him more than anything I could do.

One day I overheard the last of a conversation between my mother and father.

"Oh, Montague has foreign ideas about such things," was the closing remark by my father, "and he has brought Evan up in the same way!"

That evening father called me into his study and after a number of embarrassed hems asked me if I preferred any of the young men who came to the house. The remark I had heard flashed through my mind, and instinctively I saw what was coming.

"Yes, father," I replied. "I love Evan Montague."

"That's lucky, my daughter, for he has asked for you."

Filth In Tibet.

Tibet is not a country where cleanliness and godliness go hand in hand. Neither the men nor the women take any care of their persons. They wear their clothes very long without changing, brushing or shaking them, keep them on even at night, use them as dusters and towels and take them off only when they drop off of themselves. They never wash their bodies and only in quite exceptional cases wash their faces and hands.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

The Stupid Recruit

[Original.]

Just before the opening of the spring of 1862 a tall, lank, green looking man entered one of the camps of the Confederate General Johnston at Nashville, Tenn., and said he would like to join the "rigiment." He was turned over to a drill sergeant, with instructions to try to make a soldier of him.

The Confederates were never conspicuous for soldierly appearance; indeed they were best noted as fighters. Yet notwithstanding the want of attention to the army regulations the recruit at once became noted for being the most unsoldierly man among them. The bump of discipline seemed to be a hollow in his head. He was constantly wandering from his command and spending long terms in the guardhouse for doing so. Though the sergeant spent hours drilling him, the recruit could never learn the difference between "carry" and "shoulder" arms. At least if he did he was sure to forget it the next day. On post he was continually making blunders. He was the butt of his regiment and the subject for innumerable tricks.

One morning he appeared at his colonel's tent and told him that he had been appointed spokesman for the enlisted men of his regiment to say that they desired to be led at once against the enemy. The colonel looked at the man, astonished, then quietly wrote a note, gave it to him and told him to take it to the regimental surgeon. The surgeon after reading it examined the bearer for his sanity, but sent him back with a paper stating that he was perfectly sane, though stupid.

The recruit next appeared at general headquarters and reported for "orderly." It was never known whether this was by mistake or for a joke, but the adjutant who made the detail was sent back to his company for doing so. The recruit attracted the attention of the staff for his awkwardness and when the general's tent was vacant blundered into it and was caught reading the general's papers. He was sent back to his colonel under guard, with a report of his conduct, whereupon the colonel, after considering the propriety of ordering him before a court martial, decided to recommend his discharge on the ground that it would be for the good of the service. But, the Confederacy at that time not being overburdened with powder food, the general commanding declined to grant the discharge on the ground that if the man was a fool he should be placed in the front rank, where the army might get rid of him to a purpose.

One night when the recruit was on outpost duty a shot was heard coming from where he was stationed, and he came running in, crying: "The Yanks air comin'! The Yanks air comin'!" The long roll was beaten, and the command turned out, forming in line of battle. But no enemy came. After waiting the attack for some time skirmishers were thrown out and found the body of the major, who had been officer of the day visiting the pickets. He had been shot through the head. The men were sent back to their tents, and the recruit was sent up under guard to the general. After considerable questioning the general sent him back to his regiment under care of an aid. The colonel was directed either to have the stupid ass shot "by mistake" or connive at his desertion.

The colonel chose the latter course. He culled the recruit into his tent and told him he had decided to have him shot at sunrise the next morning. Then he sent him to his regiment with orders to his colonel to place him where he could escape during the night.

That was the last seen of the stupid recruit in that army. When the sun rose in the morning he was far away. The officer of the day reported the escape to the colonel, who received it with great satisfaction and at once reported it to the general, who was delighted at the wise course he had pursued. He sent back a congratulation on getting rid of a man so stupid that he didn't know a friend from an enemy. But the officer most relieved was the captain of the company to which the recruit belonged.

Early in April of that year the battle of Shiloh was fought, and among the prisoners taken by the Union forces was this very captain. One of the men who marched him in stepped up alongside of him and said:

"Cap, yo' don't remember me."

"Great heavens, the stupid recruit!"

"Not so stupid as yo' all supposed. Yo' was very patient with me, cap, while I was under your command, an' I hope to do somep'n for yo'."

Later the stupid recruit visited the captain and made him open his eyes still wider by the following explanation:

"Yo' see, yo'r major and I was both east Tennesseeans, whar the Unionists and Confederates hated each other like pizen. Once when I came home from Knoxville I found my home burned to the ground. My wife and only child was turned out in a winter's night, and both died from exposure. The man that did the job was your major. I knew all about him, but he'd never seen me. He afterward joined the Confederate, I the Union army. I bein' a south'n man, the general, thinkin' I'd pass well down thar, sent me south fo' information. I run across the major and got even with him. When yo' go back tell the general ef he missed any papers he'll find 'em in the adjutant general's office of our army."

At the request of the man who had brought him valuable information the Union general under whom the stupid recruit served paroled the Confederate captain until he should be exchanged.

"Goodby, cap," said the stupid recruit. "Tell the curnel I hated to fool him, but I couldn't help it."

"Pardon me," interrupted Miss Bright, "but you look like a man I don't know."

"IT SAVED MY LIFE"

PRAISE FOR A FAMOUS MEDICINE

Mrs. Willadsen Tells How She Tried Lydia E. Pinkham's Vegetable Compound Just in Time.

Mrs. T. C. Willadsen, of Manning, Iowa, writes to Mrs. Pinkham:

Dear Mrs. Pinkham:—

"I can truly say that you have saved my life, and I cannot express my gratitude to you in words.

Mrs T. C. Willadsen

"Before I wrote to you, telling you how I felt, I had doctored for over two years steady and spent lots of money on medicines besides, but it all failed to help me. My monthly periods had ceased and I suffered much pain, with fainting spells, headache, backache and bearing-down pains, and I was so weak I could hardly keep around. As a last resort I decided to write you and try Lydia E. Pinkham's Vegetable Compound, and I am so thankful that I did, for after following your instructions, which you sent me free of all charge, my monthly periods started; I am regular and in perfect health. Had it not been for you I would be in my grave to-day.

"I sincerely trust that this letter may lead every suffering woman in the country to write you for help as I did."

When women are troubled with irregular or painful menstruation, weakness, leucorrhœa, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, flatulence, general debility, indigestion and nervous prostration, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles.

No other female medicine in the world has received such widespread and unqualified endorsement. Refuse all substitutes.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

OF VITAL INTEREST

Mr. B. F. Bickum, head of the large and well known manufacturing firm of B. F. Bickum & Co., of Haverhill, Mass., writes in part as follows: I have been greatly troubled with my kidneys for several years. I have tried at least seven kinds of so-called "Kidney Cures" without benefit. Almost every day for months I have had those painful symptoms indicating kidney disease, which were almost unbearable. About a month ago one of my employees, who noticed I was suffering great pain, advised me to take Dr. Kennedy's new medicine, Cal-cura Solvent, as she said it cured her of Kidney trouble, after months of futile treatment with other medicines. I immediately purchased a bottle and used three bottles. I am now feeling fine as silk; have gained ten pounds in less than two months. No more terrible pains.

We are constantly receiving similar letters from grateful people who have suffered untold agonies from Kidney, Liver and Bladder troubles, and who have been cured by Cal-cura Solvent. It contains no opium, cocaine or other harmful drugs. It is a skilfully blended combination of some of the purest and most health-giving ingredients known to medical science. It has won signal victories in many dangerous and complicated cases. It restores digestive power, purifies the blood and nourishes the nerves. Write the Cal-cura Company, Kingston, N. Y., for free sample bottle.

THE PARENTS KICKED.

On Proposition to Close the District Schools.

OBJECT TO TRANSPORTING CHILDREN.

Some Amusing Reasons Given. No Decision Reached by School Committee.

The school committee held a meeting in the high school building last Saturday afternoon to consider the question of closing the Mason, Shorley and Forest Lake district schools and transporting the pupils to the village schools, and to give any who might wish an opportunity to object.

Whether or not the circus which was in town that day, with the usual parade in the morning, had any effect on the gathering or not cannot be stated, but there was a goodly number in attendance at the hearing—though it came just at the time of the circus performance—and it came near being a circus of its own. For every person present was there to object, and to object in no uncertain manner.

The committee had rather intended to open the session with an explanation of the proposed changes, and a statement of the reasons therefor, but it didn't have a chance. As soon as the meeting was opened the objections began, and were along numerous lines. Among them were the depreciation of property values if the schools in these sections are to be closed; the eating of cold dinners by the pupils if they are carried to the villages; the social ostracism of the "farmer's" child by these dwelling in the village, and others of a similar magnitude. Back of them all, however, was an underlying current which showed where the real trouble was—that for most of the objectors who had children the transporting of them to the village schools would mean a little inconvenience in getting them started slightly earlier in the morning than under the present system, and in winter perhaps a little more care in wrapping the younger children up That was the real reason back of most of the objections When one was asked whether property values or the welfare of the children should come first, he had no hesitation in declaring for the children.

The committee have the matter under consideration, not having decided what to do. Whatever action is taken will not go into effect until the opening of school in September.

ELECTRIC CARS STARTED.

Running Again From Ware to Gilbertville And West Brookfield.

The Hampshire and Worcester electric railway commenced operations again last night between Ware and Gilbertville and Ware and West Brookfield, after being closed since January, when the road went into the hands of Receiver George T. Taft of Worcester. It is through the efforts of Mr. Taft that the road has been reopened at this time, and he will have charge of the road in the interest of the bondholders. All the former motormen and conductors were notified of the reopening of the road, and most of them were on hand yesterday.

The fare has been increased by five cents on each line, making it 10 cents from Ware to Gilbertville and 15 cents from West Brookfield to either Ware or Gilbertville. Two cars were put on the West Brookfield line and 45-minute service will be given from 9 a. m. until 9 p. m., the last car leaving West Brookfield at 9 45. For the present one car will do the work on the Gilbertville line, leaving Ware hourly until 11 in the morning, and after that on the half hour from 12 30 through the remainder of the day and evening. The car leaving Ware at 11 o'clock lays over in Gilbertville 30 minutes, or until 12, to bring the leaving time from Gilbertville on the hour for the remainder of the day.

It was expected that the cars would commence running yesterday morning, but various delays occurred to prevent this. The long shut-down in cold weather affected the indicator of the steam gauge to the boiler at the power-house, and it failed to work properly. An insurance inspector in Hartford was notified, and he visited the plant, and this hindrance was overcome. Next there was a scarcity of water, which is generally obtained from the Ware river by a pipe. There being no power to pump up a supply, the boilers were filled from a brook, but until evening no progress was made toward a start. The first car left the power-house after 8 o'clock from Gilbertville and arrived in Ware just before nine. One car was dispatched to West Brookfield during the evening and a second car arrived in Ware just before 11 o'clock.

STILL SAVING PENNIES.

Saving Stamp Scheme for the Schools Growing in Favor.

The penny savings stamp scheme for the pupils of the grade schools of the town, which was inaugurated so auspiciously last week, continues to grow in popularity with those who started a week ago, as well as with new depositors who have been encouraged to try the plan from seeing the others' books and the various colored stamps, which they contained. The Palmer schools had their second purchasing day yesterday, and $14 20 was received, some adding to the deposits they made last week, but there being a generous number of beginners. A large number of the children were seen carrying the cards on their way home from school yesterday afternoon, and all seemed enthusiastic over the scheme.

The Thorndike schools had their first day Monday, and made an excellent showing. There were 74 depositors, with an aggregate of $18 19; the sums ranging from one cent to $2 75, showing that the saving has been going on for some time. Three Rivers schools also had a first opportunity at the stamps Monday, but the showing there was not so large, owing to a misunderstanding. There were 30 depositors and the sum received was $3 89, the largest individual deposit being $2.50. Another opportunity will be given this afternoon, when the number and amount of deposits will doubtless be materially increased.

Wolf Near Palmer Center.

For some time it has been thought that a wolf or other wild animal was making its home near Palmer Center, and yesterday the animal was seen on King Mountain, between Palmer Center and Thorndike, and proved to be a large wolf. Traces of it have also been found in the woods further east. It remains out of sight in the day time, but at night it approaches nearer the houses and has been plainly heard a number of times near the Stimson house.

A list of the subscribers in the western section of the New England telephone company's territory has been issued to patrons of the local exchange this week.

William H. Hitchcock, a well-known resident of Palmer, died suddenly about 2 o'clock last Saturday afternoon of cerebro-hemorrhage at his home on Squier street. Mr. Hitchcock left home about 9 o'clock feeling as well as usual. He visited the plumbing establishment of S. W. Lyon & Co. on Main street and there complained of feeling ill and went to the office of Dr. Cheney nearby. He soon felt better and went to the W. C. T. U. drinking fountain on Main street to superintend the connecting of the water. There he was taken ill again and was taken into LeGro's drug store and given restoratives which enabled him to ride to his home. Medical aid was summoned and he was made as comfortable as possible. He had several attacks of vomiting and expired immediately after one about 2 o'clock, the hemorrhage probably being induced by it.

Mr. Hitchcock was born in Palmer, Dec. 3, 1840, and was 64 years and four months old at the time of his death. He attended school for a time in the "Burleigh" schoolhouse, and later at the Quahoag Academy in Warren. At the age of 16 he went to Amherst to learn the plumber's trade with William Hunt, but after three weeks was attacked with rheumatic fever, which confined him for a year. He then started again with Mr. Harrington of West Brookfield, and finished with his brother in Belchertown. Later he moved to Ware and there enlisted at the beginning of the civil war, but was rejected because one leg was slightly shorter than the other, the result of his earlier illness, and one which never left him. He went to work in the armory in Springfield for three years, when his health failed and he went into business with his brother in Ware. Later he engaged in business for himself in Ware, which he was obliged to give up after nine years on account of poor health, and for three years he conducted a fish and oyster business, being out of doors a great deal. He came to Palmer in 1874 and engaged in the plumbing business again, which he continued for 20 years, selling out to J. H. Haynes and agreeing not to engage in the same occupation until after five years. Later he engaged in the business again, and sold out and bought back several times, as his health would permit.

Mr. Hitchcock was the second chief engineer of the Palmer fire department, and held the position for several years. He was a member of Thomas lodge of Masons of Palmer, Washington council and Hampden Royal Arch chapter, serving as chaplain in the council; he was also a member of the A. O U. W., and of the Second Congregational church. He was married May 13, 1862, to Lucy A., daughter of Henry A. Wright of Belchertown, who survives him. There is one daughter, Mrs. Harry Giffin of Springfield, and one granddaughter. There is also one sister, Mrs. S. H. Brown of Palmer. The funeral was held Tuesday afternoon from the house, Rev. M. Oakman Patton of the Congregational church officiating. A quartet consisting of H. W. McGregory, Rev. W. A. Moore, Rev. C. W. Williams and Byram Woodhead, sang. The bearers were his two brothers-in-law, S. H. Brown and A. E. Park, and two cousins, Charles Blair of Warren and C. M. Gage of Monson. The honorary bearers were from the Masonic bodies, H. E. W. Clark, Byram Woodhead and and Dea. C. W. Bennett of the Congregational church. Burial was in the Thorndike cemetery. There was a large number of floral offerings, from the various organizations with which he was connected, and from the family and friends.

BONDSVILLE RESIDENT DEAD.

Michael Moynahan, a Resident for 40 Years, Passes Away.

Michael Moynahan, 65, died at his home in Bondsville, on the Enfield road, at 1 35 yesterday afternoon as the result of a shock which he sustained about a week ago.

Mr. Moynahan was born in County Kerry, Ireland, and came to this country when about 20 years of age, going first to Holyoke. He was afterwards employed in the armory in Springfield for about four years. From Springfield he went to Bondsville, where he had since lived. For the first fifteen years of his residence in Bondsville he was employed in the mill of the Boston Duck Co., but resigned to attend to his work on the farm. He was married in 1862 to Miss Catherine McEgean of Bondsville.

Mr. Moynahan was an old and much respected resident of Bondsville, and had hosts of friends who will deeply mourn his loss and will sympathize with his family in their bereavement. He had been in poor health all winter, but had begun to gain until a week ago when he was stricken with a shock. Besides his widow, he leaves two sons, Bartholomew of Boston and John of Bondsville, and three daughters, Mrs. J. C. Austin and Mrs. Thomas Landers of Bondsville and Miss Abbie Moynahan of Springfield.

The funeral will be held to-morrow morning at 9 o'clock in St. Bartholomew's church in Bondsville, Rev. B. McKeany officiating. Burial will be in the Thorndike cemetery.

WARREN.

Miss Anna L. Metcalf, assistant in the high school, was called to her home in Worcester Monday by the serious illness of her father. Her place has been filled this week by Miss Cora Stoddard of East Brookfield.

Arthur L. Moore, 34, oldest son of Isaac E. Moore, died Monday morning after a two-weeks' illness with tubercular meningitis. He had been associated with his father in the ink and bluing business for several years. He was a member of the Universalist church. Besides his father, he leaves a sister, Mrs. Harry E. Damon of Newton, and a brother, I. Walter Moore, who lives at home. The funeral was held from the home on Moore avenue Wednesday afternoon at 2.30, and burial was in the Pine Grove cemetery.

TEAM OWNERS WANT MORE.

Think Present Pay for Scraper Work Not Enough.

MONSON HIGHWAY WORK SUSPENDED

Until Question is Settled to Satisfaction of All and Price Made Level.

The highway repairs in Monson, which have been progressing finely until a few days ago, are now at a standstill awaiting the action of the owners of some of the teams which have been used on the road scraper, who pulled them off a few days ago on account of a change in the price for some of the teams working on the road scraper.

At the May meeting of the board of selectmen three bills were presented which called for $4.50 per day for man and team on road scraper. As this was more than the regular price paid, Messrs. Smith and Anderson asked for information, and were informed by Selectman McCray, who has had charge of the road work for several years, that this price had been paid for that class of work for several years. After considerable discussion it was voted to pay these bills, Messrs. Smith and Anderson taking it for granted that this was the price paid for all teams which worked on the scraper, although they considered the price too high.

Later Mr. Smith and Mr. Anderson made a further investigation, consulting the town records, and found that the price was started about three years ago, and that since that time three men have received $4 50 per day while their teams were on the scraper, and a half dozen or more others who did the same work received $4 per day. As there seemed no good reason why there should be a distinction in the price of team work, it has been decided to make the price uniform, $4 per day for work on the roads, without any advance for scraping. Mr. McCray's claim was that the work on the scraper was much harder than the regular road work, and he thought these teams should be paid more, but as the majority of the owners of teams had worked for several years at $4 per day it did not seem wise to the majority of the board to raise the price.

The price paid throughout the town for regular team work is $4 per day for 10 hours, and the price paid on the town work is the same for nine hours' work, and the general feeling seems to be that $4 is a good price for nine hours' work, and that the price should be the same for all kinds of work, without distinction. Several of the team owners have not refused to work their teams on the scrapers, and it is thought that the work will be resumed next week, when things are adjusted.

An effort is being made to raise the price of all kinds of teaming to $4.50 per day, but it is doubtful if this meets with success. If this should go into effect it would probably necessitate the paying of 50 cents extra per day for work on the scraper if some of the teams are employed as the owners consider it worth more than other kinds of work.

KILLED BY EXPLOSION.

Ware Young Man Meets Sudden Death in Philadelphia.

James Ogilvie, 20, formerly of Ware, was killed in Philadelphia last Friday by the collapse of an immense gas holder at the Point Breeze works of the United Gas Improvement Company in the southern part of the city. The young man, who had been in Philadelphia but a short time, was working as helper with a tinsmith, who was also killed. Both men were on a roof the width of a street from the gas tank which exploded. This tank, containing over 2,000,000 cubic feet of gas, was doubtless defective and leaking, for the wind blowing in the direction of the men carried gas near the fire in the small firepot used by them in their work and then, the blaze following back to the tank caused a terrific explosion. Both men were blown high in the air and badly burned.

Ogilvie leaves one sister, May, in Ware. His father went to Ireland some eight months ago, and his stepmother left Ware to join her husband about two months ago. The body was brought to Ware Monday morning at 8, and was taken to Aspen Grove cemetery for burial. Rev. A. B. Bassett officiated at the funeral service at the grave, and David and George Emerson, Thomas Walker and Freeman Whiting acted as bearers. The body was accompanied to this state by Alexander Bell, a cousin, who is employed in Philadelphia, and Councilman Mulligan of that city.

Our Legislative Letter

BOSTON, MAY 17, 1905.

Gov. Douglas has not decided yet whether or not he will be a candidate for governor in the fall. He has been very busy with his duties as governor, in addition to the demands of his business, and he has not looked over the ground as carefully as he desires. But he realizes that it is important that this question be settled early, for other people who might be candidates themselves, if he is not, will want sufficient notice to enable them to get their friends into the field. Consequently Gov. Douglas authorizes to-day the statement that he will consider the matter and come to a public decision before June 17. He says that he realizes that possible candidates may wish to put up their fences if he does not run, and he wishes to do everything which courtesy requires for other candidates who are to enter the field.

The governor looks finely. He never seemed fresher or rosier in his life than he did to-day when he was seen. He appreciates the newspaper support which he gets and is evidently trying to be the governor of the whole people and not of the Democracy alone, to say nothing about any faction of the Democratic party. At the same time, it must be admitted that criticism of his appointments is rising in various quarters, simply because he has not appointed as many Democrats as the candidates for office think he should. There is no complaint in any quarter regarding the quality of the men he has nominated. The sole ground of criticism is that he has not put in as many Democrats as the Democratic candidates think is their rightful due. This forenoon I overheard some Republican legislators talking over Douglas's chances for reëlection. They were divided in opinion. There was the belief that he was sure of another term, as well as the opinion that he could not win.

Prorogation is expected next week, and there is no reason in sight why it will not be reached easily. If it is, it will be the earliest prorogation of any Legislature since 1881, provided the end is reached by next week Friday, as is expected, May 26, for in 1881 it was May 13, in 1882 it was May 27, in 1888 it was May 29, and in every other year since 1881 it has been in June or July. This year there has been a smaller amount of business than in most recent years, and, in addition, the House and Senate dispatch business faster than they used to do. They have introduced methods which shorten the business materially. They get through matters in a way which would have been impossible 20 years ago. Yet the business is just as well done.

This week there has been a great accumulation of large matters and it remains the same as ever that the House is the body in closest touch with the people, while the Senate is almost sure to defeat legislation which will injure the wealthy part of the state or will put upon them a larger part of the expenses of running the government. Take the direct inheritan tax, for instance. This was recom by Gov. Bates and then by Gov. Do But before that, it had passed the H several times, but only to be rejected the Senate. [illegible] year the bill which w through the House was materially mil than that which went through in previ years, in that it made fewer classes put on only 3 per cent as the highest ta That was levied on all estates over $100,000 and there was an exemption of all property up to $10,000. Yet this bill stood no more chance in the Senate than the bills with larger taxes in former years. When it came up, it was rejected on the first call of the calendar, without a word of debate and without a count. Then Senator Harding of the Cape district tried the next day to get a reconsideration, but he was the only one to say a word on the subject and there were only six yeas to 20 nays. So the matter is killed again, and once more becomes evident the truth of the remark which was made this year by a man who has been active in the lobby, that "we keep watch of the House and if we see a man who is on the side of the people, we take care that he never gets to the Senate."

It has been a struggle of moneyed interests against each other, in part this week, regardless of the interests of the public. The issue over the eminent domain bill for street railways, for instance, has been between the combination which got the special bill, or the Shaw-Gaston side, and the combination which could not get a special charter, or the Stone-Webster side. In the interest of the public the general eminent domain bill was reported, by eight to seven, but, by a very peculiar parliamentary decision, which seemed to run directly counter to the principle that a general bill must be reported, if possible, upon a petition for special legislation, a special bill was given a footing in the Senate. Then the eminent domain bill which had passed the Senate was referred by the House to the next Legislature, and then the Senate, by 16 to 20, refused to order the special bill to a third reading. Thus both sides have been defeated this year, and certainly this is a wise conclusion, for the people have had no opportunity to consider the matter. It has been sprung on them without sufficient consideration and by next year the situation will be much clearer, it is to be presumed, than it is now. In the meantime, if the order passes the Senate *which passed* the House to-day for a recess committee to revise all the steam and street road laws, there will be progress of some sort and something for the benefit of the state as a whole.

It has not been sufficient to stop the progress of the soldiers' gratuity bill that Attorney General Parker has declared it to be unconstitutional, but by 11 yeas to 22 nays the Senate this afternoon has voted that the bill shall not be rejected, as the committee on ways and means of the Senate recommended. Of course this means that the Senate does not believe that the attorney-general is right, in spite of the fact that the supreme court last year decided that the bounty bill was unconstitutional. If the Senate adheres to its opinion, then the bill will go to Gov. Douglas and he will either have to take the position of the Senate that he does not believe that the attorney-general is right,—which gives him an opportunity to sign or veto as he pleases—or, if he signs, then it will be for Treasurer Chapin, as it was for Treasurer Bradford last year, to refuse to pay out any money under the law until he is satisfied that it is unconstitutional. It still looks as if the old soldiers would not get any money under the bill, for th changes, of course, are that Attor General Parker is right and th supreme court will stick to its de last year and not suffer the real in the case to be overturned by in words, leaving the real same in essence.

The Journal.

FRIDAY EVENING, MAY 19, 1905.

DOES IT?

The honorable Senate is of the opinion that it knows more than the attorney general, and so has passed the veterans' bounty bill. Attorney-General Parker says it's the same proposition as last year—which was declared unconstitutional—in spite of its new name.

GOIN' AGAIN.

The Hampshire and Worcester electric road—"the missing link" in the Boston-New York travel—is in operation once more, for a time at least, and Ware people are happy again. What will eventually become of the road is a conundrum which no one attempts to answer at present; it is enough that the cars are running.

HAIL, OPEN CARS.

There will be rejoicing on the part of many electric car patrons at the introduction of open cars and the relegation of the smoker to the three rear seats. For while all the roads prohibit smoking on the closed cars there is no law which prevents a man from saturating his clothes with the cheapest of tobacco and his breath with poor gin and then planting himself in a closed car to the decided stomachic inconvenience of all who are compelied to sit near him.

SHORTSIGHTED?

There can be little doubt of the benefits to be derived from the closing of the sparsely attended district schools and the transportation of the scholars to the larger and better schools in the villages. No matter how conscientious a teacher may be or how good at instilling ideas into the minds of her pupils, put her in a district school with half a dozen or a dozen pupils, and it is unreasonable to suppose that she will work with the same enthusiasm which a school of forty would arouse. And for the pupil—with only ten or a dozen in competition he does not have the same incentive to forge ahead which the association with four times that number would give. It is the best results for the pupils which the committee are aiming at, and the parents make a mistake when they lose sight of this point and let a slight personal inconvenience swing them into violent opposition to the plan. And with the proposed change comes a saving in expense which can be utilized for the further improvement of the village schools.

WILL DO THEM GOOD.

The interest which the pupils of the lower grades of the public schools have manifested in the penny savings stamps cannot fail to be of lasting benefit to them. In addition to diverting the money from the purchase of confectionery and kindred substances and incidentally assisting thereby to improve their digestion and the condition of their stomachs, the system should be of great value in teaching them to save, and the value of money, especially the advantage of small savings and the large amounts which may result from accumulated small savings. The rule that the money is to be withdrawn only when the depositor leaves school or graduates, and only on request of the parent, will prevent waste of money once saved and ay result in some snug nest eggs for the [illegible]sters in future years. It is extreme[illegible]ratifying to the promotors of the [illegible]me—the Palmer Woman's Club—that children have taken hold of it with so ch enthusiasm; th[illegible]ave been more positors and more money than was exected or even hoped for, and the plan has n operation less than two weeks.

ANOTHER TERM.

The end of the Legislative session approaches, and with it ends the second term of Representative Norcross's service for the First Hampden district. There has been some suggestion that Mr. Norcross would be a candidate for the Senate next fall, but such is not the case. Mr. Parker of Springfield has served but one term of the customary two, and there is the best of feeling between Messrs. Parker and Norcross; the latter will not be a candidate against the former. The friends of Mr. Norcross in the district are of the opinion that he should be returned to the House for another term, and he will undoubtedly be nominated and elected again. This is the last year before the redistricting, and by the agreement made in the second year of the present combination the nomination for this year was not assigned. Under the circumstances there is no reason why Mr. Norcross should not be returned, and every reason why he should. But right here and now Eastern Hampden notifies Springfield that in 1906 she will have a candidate for the Senate and insist on recognition. Last year Springfield's assurances of two years previous—that Eastern Hampden's claims would be recognized last year—were calmly ignored, and Eastern Hampden graciously accepted the situation. But next fall it will be our turn for sure, and it will be well for Springfield to bear in mind that we shall insist on our rights.

If Col. A. H. Goetting of Springfield really wants to run for the lieutenant-governorship on the Republican ticket he can count pretty safely on the support of the party in Western Massachusetts. His service of many years as member of the state central committee brought him into contact with about every man of influence in the party in this section, and it is yet to be reported that he has made one enemy in the lot. Another thing which will commend him to many is his position that he does not intend to use that office—if it is given him—as a stepping-stone to the governor's chair.

President Roosevelt decides that the materials for the construction of the Panama canal shall be bought where they can be secured the cheapest, no matter from what part of the world, and it has given some of the American manufacturers a shiver. Well, isn't that a good business proposition?

It may have escaped notice, but Nan Patterson has been released from custody for a full week now, and there has been no announcement of her going on the stage again or writing a history of her life.

PALMER NEWS.

Memorial Day Exercises.

Daniel J. Mahoney, commander of L. L. Merrick post, No. 107, G. A. R., has issued general order No. 1 for the observance of Memorial exercises as follows: On Sunday afternoon, May 28th, at 2.30 o'clock, the comrades will assemble at post headquarters for the purpose of attending the decorating of the sailors' graves by strewing flowers in the Quahoag river. At 5 o'clock they will form in line and march to the Congregational church, where an appropriate address will be delivered by Rev. M. O. Patton.

On Tuesday, May 30th, the veterans will observe the day in the usual solemn manner and various details. Assisted by the Woman's Relief Corps and Sons of Veterans, they will decorate the soldiers' graves in the different cemeteries in the morning. In the afternoon dinner will be served, after which there will be an address by Rev. E. A. Thomas of Central Falls, R. I. There will also be readings and other exercises. Invitations to attend church and take part in the parade and other exercises are extended to the Relief Corps, Sons of Veterans, and to all the veterans of the Civil and Spanish wars. Places in line will be assigned by Herbert Davis, who is officer of the day.

The schedule of visitations to the schools is as follows; High school, Capt. H. E. W. Clark; Palmer grammar school, H. H. Paine; Bondsville, E. E. Ryther; Three Rivers, Henry Hobson; Thorndike, Jeremiah Horan; Mason, Charles Underwood; Palmer Center, Horace Stimson; Shorley, Henry Bliss; Forest Lake, D. J. Mahoney.

Comrades are requested to assemble at the hall May 30th, so as to be ready to start promptly at 8 a. m., as the electrics will be in waiting.

The Eagles' Bazar.

Palmer aerie of Eagles began a bazar in the opera house on Tuesday evening, which has continued every evening since and will close to-morrow evening. Generous patronage has been given the affair, and the visitors have enjoyed themselves to the utmost. An entertainment is given each evening with change of program nightly; this evening the artists will be Miss Sadie Keefe of Thorndike, vocal solo; Miss Kathryn Logan of North Wilbraham, vocal solo; John O'Brien of Springfield, vocal solo and recitation; Edward Bosel of Springfield, vocal solo. Dancing follows the entertainment, with music by Orcutt's orchestra and Prof. Comfort as prompter. It was planned to start Tuesday evening with a grand parade, and there were assurances that at least 300 men would be in line, but the rain prevented and the visiting aeries were notified that the parade was off. One of the features planned was a $50 diamond ring to be contested for between some member of the fire department and a street railway employe, but it did not seem to arouse much enthusiasm and so was declared off. Special electrics will run to the villages and Monson after the dance, both to-night and to-morrow night.

The subject of the sermon at the Baptist church Sunday morning will be, "The Contrasts of Life." Sunday school at 12, Y. P. S. C. E. at 6, evening song service at 7, followed by a sermon on "The Pharisee and the Publican."

The usual services will be held in the Congregational church next Sunday. On the following Sunday, the 28th, the Grand Army post, Sons of Veterans and Woman's Relief Corps, will attend a special Memorial Day service at 5 o'clock.

The restaurant and bakery in the Lynde block will be opened for business again to-morrow by Mrs. Royce, who recently purchased it from the Fletchers. The place has been thoroughly renovated during the time it was closed, and the usual Royce standard of meals and bakery goods will be in order there hereafter.

Remember the "Pictorial Travel Talks," to be given next week in the Universalist church by Dr. J. J. Lewis. Tuesday evening—"The Passion Play;" Wednesday evening—"Old New England." The latter is not as celebrated as the "Passion Play," but it is just as attractive in its way. The price has been put low so that all may attend—25 cents for each night.

Hargreave's Shows exhibited in Palmer last Saturday afternoon and evening to small audiences. The menagerie was not so extensive as the advertisements would lead one to suppose, and outside of domestic animals in confinement a half dozen cages would cover the list. There was a big elephant however, and the ring performance contained a number of good features. On the whole, the show was perhaps worth the price, 25 cents.

The Palmer Woman's Club has received an invitation to a conference of Western Massachusetts women's clubs to be held in the First church parish house in Westfield on Saturday, May 27. There will be a business session at 11, lunch at 12, and the afternoon exercises at 2. These will include an address by Prof. Will S. Monroe of the Westfield Normal School on "The Higher Education of Women in Europe," and an original poem by Mrs. Sara DeWolfe Gamwell. Luncheon tickets are 50 cents, and may be obtained of Miss Helen Robinson of the Palmer club not later than the 20th. Members of the Tuesday Club wishing to attend should notify Mrs. H. W. McGregory at once.

Miss Annie Sullivan of Springfield, who has been the guest of Miss Bridget McCarthy for the past week, has gone to Boston, where she will spend a few days before returning to her home.

The pupils in the schools of this village seem to take very readily to the new penny savings scheme, as a deposit of $18.51 with Mrs. D. B. Sullivan on last Friday shows. Individual savings were put in between one cent and two dollars inclusive.

The Springfield and Eastern Street Railway Company have removed the rails, ties and poles beyond the Duck Company's office. The cars have not been running to the full end of the line since the fall schedule was put into operation, hence the removal of the surplus track.

The King's Daughters' Circle held a meeting Tuesday afternoon at the home of Mrs. H. C. Morgan. At this meeting it was voted to give the $50 made at the fair held recently towards repairing the vestry at the M. E. church. The next regular meeting of the circle will be held at the home of Mrs. Warren Fisherdick.

Miss Edith B. Olmstead of Walton, N.Y., left Tuesday for Mt. Holyoke College after a several days' visit at the home of Rev. Charles Olmstead.

At the Union Evangelical church next Sunday morning Rev. Charles Olmstead will preach on "Some Grounds for Astonishment." The evening topic will be, "Moral Cowardice."

H. A. Shaw is tearing down part of the building formerly occupied by the post office and grocery store and will build an addition extending to Keith's drug store. Mr. Shaw will move his furniture store into the new building and O. J. Senton will also have a store in the same block. The work will probably be finished by July 1st.

The decision of the government officials concerning the removal of the post office is expected next week. There has been a petition circulated asking that the office be removed to a location opposite the Central Vermont railroad station, but a number of the business men desire that it remain in its present location. Owing to the alterations which are being made on H. A. Shaw's block the post office has been temporarily removed to the vacant rooms next to Shaw's furniture store.

A special church meeting and reception was held at the Union church parsonage Tuesday evening. The meeting was called to hear the report of a special committee, and plans were adopted for enlarging the church building in such a manner as to add about one-half to the present floor capacity. The plans have special reference to the needs of the primary departments of the Sunday school. It is expected that the work will be undertaken as soon as sufficient pledges are received to cover the estimated cost.

A Wonderful Saving.

The largest Methodist Church in Georgia used 32 gallons of L. & M. mixed with 24 gallons of oil, thus making paint cost about $1 20 per gallon. They calculated to use 100 gallons of other paint. Saved about $80 00, and also got a big donation of L. & M. Dealers gladly sell L. & M., because their customers call for it, and say they used it 12, 14 and even 30 years ago.

Don't pay $1.50 a gallon for linseed oil, which you do in ready-for-use paint.

Buy oil fresh from the barrel at 60 cents per gallon, and mix it with L. & M. Paint.

It makes paint cost about $1.20 per gallon. Sold by Asahel Wheeler Co., Boston; W. N. Flynt & Sons, Monson; John Wilson, Three Rivers; F. A. Gurney, Wilbraham; W. E. Stone & Son, Palmer.

Keith's Theatre.

Another big "legitimate" star is to head the Keith bill the coming week. Edwin Stevens, who was lately seen in Boston as leading man with Henrietta Crossman in "Sweet Kitty Bellairs," is to be the big feature for the week of May 22 Mr. Stevens is one of the most versatile comedians on the stage to-day, and his contribution to the Keith program will be an interesting monologue entitled, "A Night Off." The surrounding show is of exceptional strength and includes Bert Leslie, Bob Dailey and company in one of the most mirth-provoking sketches seen in the varieties, entitled, "Going Abroad"; Reno and Richards, comedy acrobats, than whom there is none more clever; Will F. Denny, a pleasing descriptive vocalist; Otto Brothers, German dialect comedians; the La Vine Cimaron trio, comedy acrobats and dancers, and Delphino and Delmora, grotesque musicians. Spessardy's Bears have been engaged for the amusement of the children. The Biograph will show a new and interesting list of motion pictures.

TOWN OF PALMER.
NOTICE OF BY-LAWS.

By-law relative to licenses for the sale of coal and coke.

Section 1.—Licenses granted by the Secretary of the Commonwealth to dealers in coal and coke under and pursuant to Chapter 484 of the Acts of 1903 shall be for the period of one year and the license fee therefor shall be one dollar.

By-law relative to the collection of rags and junk.

Section 1.—No person shall go from place to place collecting, purchasing or endeavoring to purchase, junk, metals, paper, rags, or second-hand articles without first having obtained therefor a license from the Selectmen.

Sec. 2.—The Selectmen may grant such licenses to such persons and upon such conditions as they may deem expedient and may revoke the same at their pleasure, and a record of the licenses so granted and revoked shall be kept by the town clerk.

Sec. 3.—Every person so licensed shall display conspicuously upon his person and upon his vehicle, if he uses one, a badge giving the number of his license in plain legible figures of a size provided in said license. All licenses so granted shall continue in force until the first day of May following the day thereof, unless sooner revoked. For any license so granted there shall be paid to the town treasurer for the use of the town the sum of two dollars.

Sec. 4.—Any person violating any provision of this by-law or of his license shall be punished by a fine not exceeding twenty dollars for each offense.

Boston, Mass., May 9, 1905.

The by-laws of the town of Palmer of which the foregoing are copies are hereby approved.

HERBERT PARKER,
6-3 Attorney General.

"Saving Your Bacon"

is a phrase which means getting safely out of any predicament with your possessions intact. It was used because in the old days the stock of smoked and cured bacon was a very valuable possession of the housewife. Nowadays it is equally valuable and precious, though it comes in glass jars attractively put up, and is known as Beech-Nut Sliced Bacon. You can find it at the store of

Academy Notes.

Miss Clark, '06, has returned to school.

Briggs, '06, has purchased one of those new white hats.

Holloway, '06, has been kept from school because of a hard cold.

Miss Newton, '05, has returned from a short visit in Stafford Springs, Ct.

The entertainment for the benefit of the senior class will be given this evening at 8 o'clock

The athletic association will present a "Mock Trial" to the public on Monday evening, May 29th.

The following took part in the rhetoricals Wednesday morning: Faulkner, Maguire, Griffin, Young, Beardslee, Miss Morse, Miss Fitzgerald, Miss Connell, Miss Hannigan.

The baseball team will leave on the 10:30 car to-morrow for Suffield, and will cross bats with the Academy team of that place at 3 o'clock. Although defeated Wednesday afternoon the team is by no means down-hearted, and will strive hard to regain the lost laurels.

Being unable to practice on account of the inclement weather, the baseball team was obliged to enter into their game with Springfield high school Wednesday afternoon greatly handicapped, and as a result were badly beaten. It was not because the Monson team was weaker than their opponents, but simply on account of a lack of practice, while their opponents had this advantage over them, and when Monson plays a return game with Springfield there may be a different tale to be told.

Memorial Day Program.

The following program has been arranged for the observance of Memorial Day: Sunday, the 28th, Marcus Keep Grand Army post and Sons of Veterans will meet in Grand Army hall at 10 a. m. and will march to the Methodist church, where they will be joined by the Relief Corps. A memorial sermon will be delivered by Rev. A. B. Gifford, pastor of the church. Tuesday morning, Memorial Day, a delegation will visit the Catholic cemetery and the Moulton Hill cemetery and decorate the graves there. Rev. N. M. Pratt will accompany the delegation to Moulton Hill. At 2 o'clock in Memorial Hall the exercises of the day will be held. The speaker will be Rev. Alfred Norn of Boston and there will be singing by the Miller quartet of Boston. At the close of the speaking the post and Sons of Veterans will take the electric cars in front of the hall to the cemetery arch and will decorate the graves there, returning to the arch and taking cars back to the hall. The program this year has been made more simple as many of the post are unable to march to the cemetery and the parade and band have been dispensed with.

Baseball Association's Minstrel.

The Monson Baseball Association will give the public a treat next Thursday night, when they will present a minstrel show in Memorial Hall, with a chorus of thirty-five voices and a brand new orchestra. The interlocutor will be Mr. E. P. Gould, and the six end men are: Tambos, N. J. Cantwell, T. J. Sault, William Gough; bones, A. J. Gould, F. T. Sullivan, P. J. Crowley. The soloists include C. F. Orcutt, H. F. Miller and F. E. Sweet. The olio will be unusually good and will consist of local and sentimental songs by Albert J. Gould; the Catchells, a professional musical team recently at Keith's Theatre, Boston; F. L. Parent, gyrations of the baton; a six-round bout between George and Louis Sault, the eight-years-old Monson midgets; McGinnis Brothers, popular song and dance artists, late of Gus Son's minstrels. Reserved seat tickets will go on sale at Bradway's news room Monday noon. After the show there will be a social dance.

Adkins has presented a volume printed in Arabic and also turned over to the association a large concordance of the Bible, of which the late Rev. Mr. Coleman, a former pastor of the Congregational church, was compiler.

WALES.

Serious Brush Fires.

About 800 acres of wood and sprout land were burned over last week. It is thought by many that the fire was set by some miscreant, as the fires were scattered all along the roadside, several rods apart, for a mile or more, spreading and doing great damage. Many fences were burned and large lots of woodland were ruined.

The assessors are making their annual rounds.

Mrs. Persis Parker has moved to Stafford, Ct.

Rev. H. P. Smith and family are at their cottage by the lakeside.

Dr. E. F. Ross, who has been in Wales about nine years, will leave the first of next month for Montana, where he will reside. Dr. Ross has a good practice in town, and his departure will be greatly regretted. He is at present a member of the board of selectmen, chairmen of the school committee and a trustee of the library. He has sold his practice to Dr. Otis Sedgwick.

Arrangements have been completed for the observance of Memorial Day. There will be services at the Baptist church at 10 in the morning, at which there will be music by the Wales cadet band, a male quartet and the school children. After the services a procession, headed by the band, will be formed, and will march to the cemeteries, where graves will be decorated. The procession will return to the church, where dinner will be served.

BRIMFIELD.

Quaboag Pomona Grange Meeting.

The Quaboag Pomona Grange meeting was held in the town hall Wednesday, with about fifty present from out of town, the granges of Brookfield, West Brookfield, North Brookfield and Warren being represented. About seventy-five in all were present. In the morning there was a discussion of the subject, "Will agriculture increase or diminish in New England in the next one hundred years?" by C. D. Richardson of West Brookfield and A. B. Patrick of Warren. It was held that agriculture must increase, conducted on the extensive plan. There was a recitation by Cheney Newton. Dinner was served by the local grange. The subject of the discussion in the afternoon was: "Can a boy or girl afford to stay on the farm?" The discussion was opened by Fred Lawrence of Warren. He was followed by O. E Parker of Brimfield, Mrs. Lakin of Brimfield, George Sherman of Brimfield, Mrs. Warriner of Warren, Mr. Perkins of Palmer, Mrs. Tarbell and Mrs. A. B. Brown of Brimfield. There was music by Mrs. C. S. Tarbell, who played a piano solo, a song by Miss Ranger of North Brookfield, a song by Mrs. Lane of Brookfield. The Pomona Journal was read by Mrs. Annie M. Ranger of North Brookfield.

Death of Mrs. Elizabeth Anderson.

Mrs. Elizabeth Warren Anderson, 80, widow of William J. Anderson of New York, died suddenly last week Thursday at her Brimfield home, the residence of Mrs. Samuel Brown. Since the death of her husband, Mrs. Anderson spent only a part of the year in Brimfield, going to Brooklyn for the winters. This year she had remained in Brimfield throughout the winter. Mrs. Anderson was born in Brimfield June 15, 1824 She was married to William J. Anderson of New York January 3, 1848, and their home was in Brooklyn. She leaves three sisters, Mrs. Charles Stoughton of New York, Mrs. Samuel W. Brown and Miss Julia Warren of Brimfield. A prayer service was held at the residence of Mrs. Samuel Brown Saturday afternoon, Rev. Samuel Eaton officiating. The remains were taken to Greenwood cemetery for burial.

Miss Crowell will hold a recital in the Academy Hall this evening.

Miss Julia T. Brown of Springfield spent Saturday and Sunday in Brimfield.

Mrs. Erastus Coy of Amherst has been visiting at the home of her brother, James Noyes.

Dr. and Mrs. F. H. Gifford of Leicester have been guests this week at the home of C. S. Tarbell.

Miss Julia Newton, who is attending a business college in Boston, is the guest of relatives in town.

Miss Grace W. Stoughton and C. W. Stoughton of New York have recently spent a few days at the home of Mrs. Samuel Brown, having been called there by the death of their aunt, Mrs. Anderson.

A joint meeting of the committee of the trustees of the Hitchcock Free Academy and the executive committee of the alumni association to arrange for the celebration of the semi-centennial of the school, was held Monday evening The celebration will be held Thursday, August 24, and it is desired to have as many former teachers and pupils present as possible, and the invitation to attend is not to be confined to members of the alumni association.

OUR LEGISLATIVE LETTER.

[CONTINUED FROM FIRST PAGE.]

League and other public-spirited citizens. But, since the opposing elements, itself excepted, had come to an agreement, it could not make a fight with any chances of winning, and so it permitted the bill to become law without further opposition, though it was asserted in behalf of the state board of trade objectors, that the bill permitted $2,000,000 of water to be capitalized and to put the burden of dividends on so much water upon Boston consumers.

Though the House ways and means committee stands six to five in favor of the new state prison on the Island of Nashawena, with a leper settlement at one end of it, yet the dissenting five,—Messrs. Ward of Buckland, Walker of Brookline, Andrews of Holyoke, Vinal of Somerville and White of Edgartown are the strongest end of the committee. The minority believe that the whole proposition should be put over to another year, in order to give more time for thinking it over. The matter has been rushed through in a remarkably short time for such a large proposition, involving $800,000. Though the counter proposition to take West Island comes from a man who confesses that he has an Island for sale, yet the facts alleged against Nashawena, as a place for a prison, though it is very pretty for a summer resort, are sufficient to make most cautious men stop and think

The gypsy moth bill is law and the brown-tail moth's caterpillars have already begun to crawl and soon it will be evident whether the strenuous efforts all through this region, by private owners and municipalities to suppress the nuisance, have accomplished anything. Regarding the high figure of $5000 which the state has to pay A. H. Kirkland for his services, it is said that he is the most competent man who could be secured, that he was getting large pay in New York, whither he had just gone, and that the state was obliged to pay this sum if it wished to get him at all. It is about time, also, for the gypsy moth caterpillars to appear.

It is still expected that something will come out of the Brockton disaster in the shape of better boiler regulation, but the bill has not come in sight yet. LANDON.

Fraternity Notes.

Pilgrim commandery, Knights of Malta, will meet next Tuesday evening.

Palmer council, Knights of Columbus, will meet on Thursday evening of next week.

Quaboag council of the Royal Arcanum is planning for a ladies' night some time next month, the date to be decided upon later.

"The Earl and the Girl."

The high tide of popularity has been reached with "The Earl and the Girl" at the Boston Theatre, where that bright, breezy, jolly and jingling musical comedy is playing to extraordinarily large patronage nightly, with a prospect of "standing room only" for an indefinite period. It is so brand new, so rich in pretty girls blest with talent, so pretty with modest, immaculate scenic investiture and costumes, and so cheery with typically clever English songs that it has proven a veritable treat for all, even for the jaded theatregoer. "The Earl and the Girl" was a stupendous success in London, where it has run for over a year and is still the rage. It was equally as great a success in Chicago, and Boston evidently finds it the most palatable dish of the season's menu. The music by Ivan Caryll is of the sort which keeps one's spirits dancing with such likeable little songs as "Spooning," "One Night Only," "Little Lady in Distress," "Daisy," "Shopping," and "The Grenadiers." They are songs of the catchiest, most tuneful character, with by-play that is whimsical and fine and foolish. The two sensational numbers are "Little Lady in Distress," which causes a ripple in the audience, as a sextette of fair damsels, finding pebbles in their shoes, extract them after removing the daintiest of hosiery, and "Spooning," sung by Victor Morey and Georgia Caine, with a big beauty chorus. In this number the "spooners" are seated in a dozen electric-lighted swings lowered from the flies, and each fair lady swings far out over the orchestra. "The Earl and the Girl" is a high-class, typically English musical comedy of the lighter and brighter sort, furnishing three solid hours of lively entertainment without a moment's monotony. Missing it you miss the very best of the season's offerings at the Boston Theatre. There are Wednesday and Saturday matinees.

Conditions That Unfit For Marriage.

The low paid employee today can succeed as well alone as with a wife, which his ancestors could not do. At the same time his selfish enjoyments are greater without her, for he may live irresponsibly, without a motive to save and with all his surplus available for wayside pleasures of an antisocial sort. The disintegrating forces of a great city upon homeless youth are too obvious to need emphasis. The wage earning girl, on her part, is [illegible] to acquire the taste of fragmentary, politics [illegible] unproductive spending. Both form habits harmful to the altruistic motives of group living—of the home idea. A man who goes from the saloon, street corner or cheap pleasure club, a girl who leaves the dance hall and pavement glitter to make a home for him, the bare necessities of which are hardly met by his wages, are not qualified by their experiences to bring to a successful issue the supreme test of character that makes stable a high standard.—Professor Simon N. Patten in Independent.

A Soft Answer.

It was in 1872 that George Chesmore Bromley, author of "Long Ago and Later On," became a member of the Bohemia club of San Francisco and soon found himself "Sire of the Low Jinks," which occasion he vividly recalls, and especially his arrival at home afterward. He writes: "My dear little wife awoke at my entrance and inquired the time. I looked at my watch and replied, 'Ten minutes past 10,' and then laid the watch on the mantelpiece. Having some doubts as to the correctness of my reply, the little woman arose and looked for herself. 'What time did you say it was?' she asked again. 'Ten minutes past 10,' said I. 'Ten minutes past 10! Why, it only lacks ten minutes of 2,' said she. 'Is that so?' said I. 'Why, bless my soul, how time flies! I had no idea that I had been home so long.' This was another occasion when I realized that 'a soft answer turneth away wrath.'"

Thoughts and Faces.

Subtle and sure beyond all other forces is the power of thought to make or mar the beauty of the face. The thoughts which dominate you, the motives which are the strongest in your life, will reappear in your face and will speak aloud in your manner. Your very gait will tell the story of your life.

A Good Suggestion.

Mr. C. B. Wainwright of Lemon City, Fla., has written the manufacturers that much better results are obtained from the use of Chamberlain's Colic Cholera and Diarrhoea Remedy in cases of pains in the stomach, colic and cholera morbus by taking it in water as hot as can be drank. That when taken in this way the effect is double in rapidity. "It seems to get at the right spot instantly," he says. For sale by Quimby Pharmacy, Palmer.

A MEASURE OF MERIT.

Palmer Citizens Should Weigh Well This Evidence.

Proof of merit lies in the evidence.

Convincing evidence in Palmer.

Is not the testimony of strangers,

But the endorsement of Palmer people.

That's the kind of proof given here.

The statement of a Palmer citizen.

Charles Gilman residing on the Ware road, says: "While I do not want it to be understood that I have been completely cured by Doan's Kidney Pills, you can say for me that they have done me a world of good and I can recommend them to anyone as a good reliable remedy. I have been troubled off and on for some time with dull, heavy, aching pains through my kidneys and loins, and I have had also spells of dizziness in my head. If I bent over to lift anything it hurt me and caused my back to ache severely. Mr. LeGro recommended Doan's Kidney Pills to me and I commenced to use them some weeks ago. The pain has already left me and I am not troubled with dizziness as formerly. I can stoop without feeling twinges, in fact to tell the truth I feel better than I have in many a long day."

Chamberlain's Cough Remedy the Very Best.

"I have been using Chamberlain's Cough Remedy and want to say it is the best cough medicine I have ever taken," says Geo. L. Chubb, a merchant of Harlan, Mich. There is no question about its being the best, as it will cure a cough or cold in less time than any other treatment. It should always be kept in the house ready for instant use, for a cold can be cured in much less time when promptly treated. For sale by Quimby Pharmacy, Palmer.

BASEBALL.

Three Rivers 13, Gilbertville 7.

The strong Three Rivers team opened its season in Gilbertville Saturday by easily defeating the home team by the score of 13 to 7. The feature of the game was the battery work of the Rogers Bros. The visitors started a bagging rally in the ninth inning, with two men out. Connors started with a double and Lane followed with a single. Bruce came up with a hit, bringing in both runs. Donoghue reached first on an error, and with Bruce on third and Donoghue on first, F. Rogers drove the ball to the center field fence for three bases, scoring both runs. Rogers scored later on a hit by A. Rogers. The score:

Why Suffer From Rheumatism?
Why suffer from rheumatism when one application of Chamberlain's Pain Balm will relieve the pain? The quick relief which this liniment affords makes rest and sleep possible, and that alone is worth many times its cost. Many who have used it hoping only for a short relief from suffering have been happily surprised to find that after awhile the relief became permanent. Mrs. V. H. Leggett of Yum Yum, Tennessee, U. S. A., writes, "I am a great sufferer from rheumatism, all over from head to foot, and Chamberlain's Pain Balm is the only thing that will relieve the pain." For sale by Quimby Pharmacy, Palmer.

Three Roses and Another

By JOANNA SINGLE

Dr. John Dunham knew what he did not want. He could also instantly recognize what he did want when he saw it. These traits had been of use to him in working his way through college, through medical school after that and into a flourishing practice now two years old.

In love as in business it was the same, only the girls he had thus far met were undoubtedly the ones he did not want. Dr. John's black gray eyes were always on the silent quest of an unknown girl the thought of whom he linked with the thought of roses. She did not appear. He was thirty-two and beginning to think he had missed her *and was deciding to devote his spare* time entirely to rose culture when the no longer expected happened.

In September he went, with a colleague, Frederick Mayne, M. D., to a medical convention in St. Louis. Seated at the formal banquet, he looked up, just across the table, at her! And then he seemed to have always known that she was small and blond, with the sweet delicacy of a pink tea rose, that her head was poised like a flower and that breeding and courage showed in every feature and gesture.

Instantly the thought of her as his mounted to his head like wine, and his look met hers with an intensity that made her eyes droop. He turned coolly to Mayne beside him and said in a low tone:

"Look carefully at this ring on my finger, and don't glare up. I want to ask a question. Who is she?"

Strangely enough, Mayne knew who "she" was.

"Dean Carroll's daughter, Rose," he replied. Then as they both looked up carelessly he continued, "I may as well tell you that I shall try to get her." Choking back a senseless anger, trying to realize that Mayne had as good a right to want her as he, Dunham answered quietly:

"And I may as well tell you that you have me to work against. I shall do my best."

At the reception following John Dunham accosted his old professor, Dean Carroll, shook hands and asked:

"Doctor, please introduce me to your daughter."

"Certainly, my boy—with pleasure. But"—and the old man laughed—"I warn you!"

"It's everlastingly [illegible] me, doctor. All I ask of you is not to tell her I wanted to meet her and—not to praise me to her." The serious eyes of the young man checked the old man's smile.

"Upon my soul! I believe you're in earnest!"

"I warn you that I am." Dean Carroll looked Dr. John Dunham over carefully from head to foot. Then he held out his hands.

"I wish you luck," he said slowly. "You're as open now as you were during the four years I knew you at college and in your success since. Your tactics are worthy of a general and victory. Come along. But perhaps you'd like me first to suggest to her that you're a dangerous character?" John laughed contentedly.

"Better that than encomiums."

Rose Carroll met her father's old pupil none the less graciously because he was tall and strong and because the heavy, dark hair framing his handsome face was touched with gray. In fact, he was so interesting that she met him with an armor of protective resistance beneath her graciousness. She was used to easy victories over her admirers, but not anxious, though she was on the alert, for her own Waterloo. There was time enough for that.

John began well. While deferential, he was not adoring; while entirely appreciative, he was not insistent in his enjoyment of her society, which he accepted with a sort of seemingly transient spirit of camaraderie that piqued her a little. Several times during the evening he drifted carelessly back near her and watched with amusement Mayne's breakneck endeavor to make use of his time to impress his rather ponderous personality upon the girl. Dunham asked permission to call next day.

He did call and was carelessly entertaining. He let himself go, showing his real self, speaking of his youthful adventures in the west, of his roses at home and leaving a sort of an impression that he was a man into whose life women had entered little and that they were to him a sort of pleasant relaxation from workaday cares.

Rose found herself putting forth unusual efforts to please this man, who was not, as others, apparently in the least subjugated by her charms. He did not stay long, but as he arose to go he unwrapped a long, slender parcel he had been holding, crushed the tissue paper in his fingers and put one perfect white rose into her hand. He laughed down into her eyes.

"I wanted to give you a red one, only"— The significance of his tone and his hesitation made her rise to his throw.

"Only you didn't dare!" she finished for him.

"Oh, I dared," he replied coolly, "but I thought I wouldn't—yet! The best for the last, you know!" And he left her trying to decide whether he meant anything or nothing. As he went out he met Mayne entering with a large florist's box, and during his call he had learned that she was leaving the next day for home. When he reached his office he looked up the northbound trains.

Next morning at 7:55 he walked up to the station. Just around the corner on the platform he saw Rose Carroll smiling at Mayne, who carried her suit case and a great bunch of pink carnations. Before they saw him he stepped back into the waiting room, bought a ticket to the next town north and kept out of sight until the train came in. He swung on the rear platform, while Mayne, triumphant in his moment of favor, put the lady into a seat and bestowed her luggage about her. As the train pulled out Dunham looked from his window in the smoker and beheld the idiotically adoring face of Mayne, who was waving his farewell.

When he had smoked a long black cigar John Dunham sauntered into the next car. About the middle of the aisle he stopped suddenly at a quick exclamation:

"Why, Mr. Dunham!"

He looked down and saw, with apparent surprise, Rose Carroll, blushing and smiling. He removed his hat, but made no effort to take the seat which she had cleared for him beside her.

"Miss Carroll! So this is your train—how pleasant! Lovely day, isn't it?"

"Won't you sit down?" she asked, a little timidly. And he did and went on talking so carelessly and yet so meaningly, so brightly and still so seriously, that it seemed to her but a moment or two before he looked from the window and stood up. Drawing a slender parcel from his pocket, he unwrapped a single, long stemmed pink rose.

"I must get off here in order to get back to an important case with your father. I only got on to tell you goodby. Didn't want to interfere with Mayne at the station. I can't *compete with this floral generosity,"* and he laid the rose in her lap, "but this is to remind you that some day I shall bring you that red rose." He was gone, without touching her hand in farewell. She sat gasping pleased, astonished, half angry, but completely interested. She looked at the pink rose. Then she tossed the carnations from the window and wondered how in the world John Dunham had managed to obtain her promise to answer his letters.

Thereafter Dunham wrote her—not regularly, but when the fancy seemed to seize him—whimsical, vigorous, joyful, masculine letters, wholesomely free from all lovemaking. She answered, and sometimes when he was very busy he called her up on the long distance phone in lieu of a letter. Meantime Mayne had sent bushels of flowers, had written ponderously sentimental epistles and heaved many ponderous sighs. Twice he had gone to see his divinity, and on his last call her lack of interest in his elaborate mention of Dunham raised suspicion in his slow but relentlessly logical mind. On his return he sauntered into Dunham's office.

"Morning, old man."

"Morning, Mayne. Enjoy your visit?" How the deuce did Dunham know he'd been away? Mayne hazarded a guess.

"Yes, called on Miss Carroll. Write to her, don't you?" Taken off guard, Dunham admitted the soft impeachment and was instantly sorry. Mayne laughed with unctuous amusement.

"Thought you were too astute for that. Bet she's got you going—has me! Stringing you for all she's worth! Practiced hand! Great girl—no end popular. Knows how to do it, Miss Carroll." Dunham's anger rose, but he answered carelessly:

"Look to yourself, Mayne. Guess I can take care of Johnny." But after Mayne went the tide of his anger surged toward Rose Carroll. When he could stand it no longer he went to the phone, closing the door of the inner office, and called up St. Louis and Miss Carroll. After an hour's delay he got her and went straight to the point.

"That you, Miss Carroll? Know who this is? Yes! Lovely spring day! I want to ask you something. Forgive my bluntness, but I must know. Miss Carroll, in your letters and all have you meant everything or have you been playing with me?" A long pause, while he listened intently.

"No, I did not think so—I simply asked. I have not the time nor the temper to play. You will forgive me for asking you? No, I can't tell you what made me think of such a thing. Yes, some day I will. Certainly I believe you! What? May I? May I come this week? Of course I want to! But I can't reach you till Saturday evening and will have to start back Sunday morning. It's a long way, and connections are bad. All right—goodby—till Saturday!"

At 4 in the afternoon of June 1 John Dunham stepped from his train at St. Louis and went to a hotel to get rid of his travel stains and appease his hunger.

About 7 he emerged faultlessly attired, visited a florist and took a cab to Dean Carroll's stately old home.

Rose came to him in the dim candlelight of the library, a vision in shimmering gray. He had intended meeting her in his usual easy way, but the clamor of his heart and the wine of a certain proud yielding in the glance of her blue eyes swept him into speechlessness. He stood long looking at her, her hand still in his. Then he dropped the small hand back at her side and strode out into the hall.

In a moment he came back and clasped her warm little fingers about the stem of a glowing red rose.

"The red rose," he said simply—"the time for it is now, isn't it?" he questioned quietly, stepping back with his arms straight at his side to look at her. "Isn't it time, dear?" he insisted.

"Yes," she murmured. "I"— And as she did not finish, with a sudden longing he held out both his hands to her. "Will you come, Rose?" With the pride of a small queen, Rose Carroll laid her two hands in his.

Deafness Cannot be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

Value of Routine Work.

Routine is a blessed thing when something happens to reduce the moral driving power which keeps us going, the courage, purpose and good cheer that give life present joy as well as meaning. It is good in moments of depression or weariness that there is a path marked out ahead each day which men follow because it is there; that there is time which custom has set for them to get up, to eat, to work, to rest, to read, go to bed again. They move along the grooves of habit and get all the benefit of their inheritance and their experience. The general may quit the field for a time if he chooses; the army has its marching plan and knows what is expected of it.—New York Mail.

MOTHERHOOD

Actual Sterility in Women Is Very Rare—Healthy Mothers and Children Make Happy Homes.

MRS. MAE P. WHARRY
MRS. L. C. GLOVER

Many women long for a child to bless their homes, but because of some debility or displacement of the female organs they are barren.

Preparation for healthy maternity is accomplished by Lydia E. Pinkham's Vegetable Compound more successfully than by any other medicine, because it gives tone and strength to the entire female organism, curing all displacements, ulceration and inflammation.

A woman who is in good physical condition transmits to her children the blessings of a good constitution. Is not that an incentive to prepare for a healthy maternity?

If expectant mothers would fortify themselves with Lydia E. Pinkham's Vegetable Compound, which for thirty years has sustained thousands of women in this condition, there would be a great decrease in miscarriages, in suffering, and in disappointments at birth.

The following letters to Mrs. Pinkham demonstrate the power of Lydia E. Pinkham's Vegetable Compound in such cases.

Mrs. L. C. Glover, Vice-President of Milwaukee Business Woman's Association, of 614 Grove Street, Milwaukee, Wis., writes:

Dear Mrs. Pinkham:—
"I was married for several years and no children blessed our home. The doctor said I had a complication of female troubles and I could not have any children unless I could be cured. For months I took his medicines, trying in vain for a cure, but at last my husband became disgusted and suggested that I try Lydia E. Pinkham's Vegetable Compound; this I did, and I improved steadily in health, and in less than two years a beautiful child came to bless our home. Now we have something to live for, and all the credit is due to Lydia E. Pinkham's Vegetable Compound."

Mrs Mae P. Wharry Secretary of the North Shore Oratorical Society, The Norman, Milwaukee, Wis., writes.

Dear Mrs. Pinkham:—
"I was married for five years and gave birth to two premature children. Lydia E. Pinkham's Vegetable Compound was recommended to me, and I am so glad I took it, for it changed me from a weak, nervous woman to a strong, happy and healthy one within seven months. Within two years a lovely little girl was born, which is the pride and joy of our household. Every day I bless Lydia E. Pinkham's Vegetable Compound for the light, health and happiness it brought to our home."

If any woman thinks she is sterile, or has doubts about her ability to carry a child to a mature birth let her write to Mrs. Pinkham, Lynn, Mass., whose advice is free to all expectant or would-be mothers. She has helped thousands of women through this anxious period

Women suffering with irregular or painful menstruation leucorrhœa, displacement ulceration or inflammation of the womb, that bearing down feeling or ovarian trouble, backache, bloating or nervous prostration, should remember that Lydia E. Pinkham's Vegetable Compound holds the record for the greatest number of actual cures of woman's ills, and accept no substitute.

Many Women Have Been Benefited by Mrs. Pinkham's Advice and Medicine.

Everything a Man Needs in Clothing.

WERE THREE ACCIDENTS.

But Only One of Them Likely To Prove Fatal.

MAN KICKED IN HEAD BY A HORSE.

Tramp Hurt by Jumping From Train, and Boy Injures Eye by Fall From Bicycle.

Yesterday proved to be a day of accidents in this vicinity. The worst was that of Aime Chabot, living on the Ferrell farm south of the river and east of Blanchardville, who was possibly fatally hurt by a kick from a horse early in the evening. He was feeding the animal in the stall and scared the horse by shaking the receptacle which contained the feed. The horse kicked and struck Chabot on the top of the head, fracturing the skull. Medical aid was summoned and the man made as comfortable as possible, though the result of his injuries cannot be determined at present. In addition to the fractured skull he had a severe cut on one arm, a portion of the right ear was torn off, and there are numerous bruises all over the body.

Harry Litch, engaged in stealing a ride on freights from Worcester to Greenfield, was hurt in the B. & A. freight yard in the afternoon. He jumped the train at Charlton and was told that at Palmer he would be arrested. In order to escape he jumped from the train as it was passing through the yard. He was cut about the face and hands and arms, but his injuries were not serious.

Roger, the oldest son of Mr. and Mrs. G. S. Holden, fell from his bicycle yesterday afternoon and received a cut over one eye. There was also a bad cut on the eyelid which took two stitches to close, and the whole eye and nose were badly bruised. He rested comfortably last night, and there is no danger of losing the sight of the eye, as at first reported.

OPENING OF FOREST LAKE

Will be Next Tuesday, With Mr. C. E. Fish as Manager.

Forest Lake will open for the season next Tuesday, Memorial Day, under the management of Mr. Charles E. Fish, who so satisfactorily to both the electric road and the public conducted affairs there three and four years ago. The *return of Mr.* Fish to the lake management assures to patrons the best of everything, and courteous treatment on the part of all connected with the place. During his former regime the lake was a favorite resort for women and children during the hot afternoons, and the announcement that he is to be again in charge is an assurance that they will find the place fully as enjoyable this year as before.

The usual attractions of the first day of the season will be in order next Tuesday. There will be dancing afternoon and evening, with music by the Monson orchestra. The restaurant will be ready to care for all patrons who may wish a lunch, and for those who desire something more substantial there will be order cooking. A new departure this year will be the making of all pastry, cake, etc., at the pavilion, assuring a superior quality and overcoming the objections which many have to "baker's goods." Six new steel boats have been added to the fleet, and the launch will be in commission for trips around the lake. Although the regular theatre performances will not begin until the middle of next month, there will be three performances Tuesday by a first-class company, at 2 and 4 in the afternoon and 8 in the evening; the stage attractions are to be furnished this year by J. J. Flynn of Boston, who managed the lake for the past two seasons. The grounds have been cleared up and everything put in tip-top shape for the opening day and the season.

Eagles' Fair Prizes.

The managers of the bazar under the auspices of Palmer aerie of Eagles last week held a meeting in the opera house Monday evening and awarded the prizes which were contested for; the results were: Cake, Kitty Duffy; lace collar, Fanny Fitzpatrick; parlor lamp, E M. Walker; ham, P. Murphy; picture, Mrs. James Wilder; shoes, E Herig; hat, John Hunt; woman's shoes, L. Tourtelotte; shaving set, J. D. O'Keefe; toilet set, Philip Ross; carving set, P. F. Mansfield; pipe, G. A. Callahan; shoes, Grace Cushing; picture, Bernard Crowley; shoes, Elizabeth Smith; box cigars, J. P. O'Connor; box cigars, M. Moriarty; mirror, Mary Fitzgerald; ring, Mary Brown; hat, D E O'Connor; umbrella, Thomas Monahan; cord of wood, John Dineen; hat, Patrick Cady; barrel of flour, Maria A. Burns; box of cigars, Charles Matthews; shoes, P. E Bard; boy's suit, John Sullivan; silk umbrella, J. F Hayden; 15 yards silk, Mary Gorman; silk shirtwaist suit, Annie Mansfield.

The managers wish to thank all who assisted them in the enterprise. There will be a profit, though just how much cannot yet be stated, as the bills are not all paid.

Didn't Steal the Cabbage.

The Jamora brothers, John 1st, John 2d, John 3d and Joseph, were defendants in the district court Tuesday against a charge of stealing a barrel of chopped cabbage from Michael Mastalesch. It appeared that Mastalesch owed one of the Jamoras $1 75, and when they met him one day he was asked to pay. He declined to part with the money just at that time, and then the brothers proposed to take the barrel of cabbage from the wagon of Mastalesch. They took hold of it and about that time the horse started and the cabbage was thrown to the ground and ruined by mixing with the sand. As there was no evidence that the Jamoras took the cabbage they were discharged.

Will Close District Schools.

At a meeting of the school committee Tuesday evening it was voted unanimously to close the Mason, Shorley and Forest Lake district schools and transport the pupils to the village schools. It was agreed by the committee that the pupils would be better cared for in this way than by continuing the district schools, and they decided to make the change, in spite of the protest of the meeting the week previous. The Forest Lake pupils will be carried on the electric cars, and it is expected that teams will be provided for the others.

MONSON BOY'S POEMS.

"Echoes From the Forest," a Volume of 70 Pages, by Harry W. Bugbee.

Harry W. Bugbee, well known as a Monson boy, a student of Monson Academy and a writer of verse, has published a volume of his poems, and under the head "Harry W. Bugbee's poems," the Springfield Sunday Republican had this to say of the book:

Among the multitude of books of verse which are now published one seldom finds the note of a serious inspiration,—they show as a rule too plainly the ambition without the justification of poetry. Fresh as the air of the mountains, sweet as the flowers of the fields, and welcome as Nature herself in the midst of other attempts, is the achievement shown in a very modest book by Harry W. Bugbee, published by Richard D. Badger of Boston. Mr. Bugbee is one of those who gain nourishment from the wholesome source of life in his country surroundings, and in the 70 pages of "Echoes from the Forest" he has with the strength of simplicity and a habitude of religious thought drawn a portrayal of precious hours in communion with that life. Seldom, indeed, do we meet so rich and sweet an absorption of the infinite content of life, removed from alien elements. In his verse one traces the strong influence of Bryant, and there is none more worthy in all our literature, either as a model of versification or as an inspirer of thought. While this influence is so plain, it is no servile imitation that Mr. Bugbee gives us,—he is a child of Bryant's Nature, and continues his recognition of high ethical significance in the analogies and sympathies of earth and man. Nothing is to him trivial or external; the soul of things thrills him with that sober ecstasy which wrought so strongly in his master, and has caused Bryant to be called "cold," from the young Lowell's skit even to the present day, by those who do not feel that heart of fire beneath the superb calm of a great imagination. This is not too strong a preface for Mr. Bugbee's verse. Here is a winter picture:

Far looms the long, majestic forest aisle
And awes the intruder; softly must be tread
As one that looks on hidden mysteries.
Here silence reigns, and from the towering trees
A spell of grandeur falls upon the soul.
Beneath a lofty canopy of boughs
Ne'er yielded unto winter, deep their lies
Upon the woodland floor, outstretching wide
A white expanse of virgin snow, untrod,
And through the undying green that mounts away
Snow-sprinkled here and there, toward yonder sky,
An azure heaven smiles inscrutably,
Upon the unstained purity beneath.
A breath of fragrant coolness calmness stirs
Among the tree trunks, and a whisper soft,
Of mystic import, trembles on the air.

These lines tell us that the young poet has already arrived at the rare accomplishment of dignity and harmony, in the use of one of the most trying of verse forms, blank verse, and has caught much of the movement of Bryant, the master of its secret. For a further example take this, out of a poem named "Immortal Days":—

With awe surcharged by joy have I beheld
On some calm, radiant day of happy June,
The marvelous approach, the stately throng,
Of argosies that through the azure heavens
Sailed on majestically to bournes unknown,—
Unhastening, nor prey of wanton winds.
The deep day slept beneath their noiseless march—
The strange, fair day smiled in its waking sleep;
And all the glorious verdure of the fields
And proud tall groves a rarer green assumed;
And earth kept more than earthly holiday.
Then to my heart I cried: "It is enough;
Mine eyes have seen the temple of the Lord;
My feet have trod its aisles; my hands have touched
Its sacred, angel-woven tapestries!"
What glories burst from yonder darksome wood!
What fairy gloom broods in these grasses, kissed
By all the sky, and by heaven's breezes tossed!
Clear lined against the perfect blue above,
As in a miniature by genius wrought,
Loom the tall trees; and every little blade
Of tremulous grass builds round itself a world
Out of the perfect purity of air.

Yet, such the miracle heaven loves to work,
No lowering mists that on some dreary day
Seem striving in one featureless, poor mass
Of palpable thick chaos to dissolve
The landscape utterly,—such spell might weave
As here is woven ere the observing eye
Is 'ware. For through heaven's night arch, through cloud
Through lofty grove and radiant blooming flower
A thread divine, invisible, hath pressed,
And all the infinite variedness of scene
Melts as it were into a melody
Of oneness, sacred, indivisible.
And as in holy awe the soul bows down
And worships,—instant born, as with a blare
Of pure celestial trumpets, breaks again
Into a myraid marvels of sweet form
The world.

And I have felt a Presence steal
Into my being that lies brooding o'er
The beautiful fields, yet is not born of them;
That dwells upon the mountains, but needs not
Their lofty outlook; that from star to star,
Swifter than thought or twinkling of an eye,
Passes. Nor on his awful immanence
Break the dread deeps of interstellar space
But as a little wave, harmless, serene,
Plashes unheeded o'er a pleasant strand.
Oh, there are lost forever on our ken
A myriad beauties of the common earth,
A myraid glories strewn athwart the sky,—
One somber day hath never yet been sung.

Thou, too, Oh, wondering child!
Not overmuch is thine own foolish thought
And whim of individual being sunk,
Thou, too,—nay, only thou—for this fair day
Is but the celebration of thy soul
In its innate, though latent, calm and power—
Art dear unto the heart of Deity.

Fear not to lose the things thou deemest thine,
But sink within His will who is the light
Thine own; then streaming through thy life shall flow,
Unchecked, the tides of universal love,
Laving thy heart with waves from unguessed shores.

Mr. Bugbee is not, as we might seem to show, confined to this remarkable strain, or to blank verse. "Echoes from the Forest," is a fit title, but also he has hymned the Connecticut river, has written of "The Boer Women's Despair," of "The President at Court Square," (meaning Mr. Roosevelt), of Greece and New England, of the music of Orpheus in Hades; a class ode for Monson Academy is given, an ode on its centennial last year; and a strong tribute to the long-time master of that school, Rev. James W. Tufts. There are some lyrics besides, and in all there is little that the author would not care to use when he collects his poems, a quarter century hence.

Everybody's Magazine.

The June number of Everybody's brings to us the crucial instalment of "Frenzied Finance," Mr. Lawson's intimate recital of the First Great Crime of Amalgamated. The happenings of that now famous midnight session at the National City Bank on May 4, 1899, when Henry H. Rogers and James Stillman introduced an infamous bogus subscription and defrauded and robbed thousands, are clearly and dramatically told.

Equally vital is Mr. Russell's article answering the Garfield report on the Beef Trust. Everybody has stood aghast at Mr. Garfield's conclusions. Have we all been wrong? Can it be possible that our meat bills are not alarmingly increasing? Is the Beef Trust a shadow? Mr. Russell answers these questions. The publishers of Everybody's claim this number, the second anniversary number, is the best they have ever issued. They have given us in addition a remarkable story by Robert Grant, the author of "The Undercurrent," in which his keen insight is turned on one phase of our civilization. There is a novel and entertaining article on "Opper, Outcault & Co.," the story of the Comic Supplements, by Roy L. McCardell, with interesting personal items about the creator of "Foxy Grandpa," the father of the "Yellow Kid," and the rest of the comic-artists. The pencil drawings of the Hudson River by Vernon Howe Bailey are full of beauty and distinction. Mr. Elliott Flower contributes a significant story of a messenger boy, Miss Katherine Holland Brown a strong love story, William Bulfin a humorous story of the Pampas; and Caroline Duer, Anne O'Hagan, E. L. Sabin, and others help to make up a fine fiction list. The publishers can truthfully claim "the best number yet."

WAS INSTANTLY KILLED.

North Brookfield Man Hit by Cars at West Warren.

CAUGHT WHILE WALKING ON BRIDGE.

Grandson Was Killed by Train Near Same Place Only Four Weeks Before.

Joseph Benoit, about 60, of North Brookfield, was struck and instantly killed by the Chicago daily limited express train No. 15, going west, at West Warren at 12.45 Saturday afternoon.

Mr. Benoit, who was employed as teamster to draw lumber on land of Bartholomew Sullivan, southwest of the Boston and Albany depot in West Warren, had been to the village for his dinner and was returning to his work. He was passing over bridge No. 88, just west of the depot, when he was overtaken by the express train at the end of the bridge. He evidently made an effort to cross the bridge when he saw the train approaching, but was unable to do so and was thrown backward to about the middle of the bridge. The train goes through West Warren at the rate of 40 miles an hour, but stopped at the old Crossman bridge and the train crew found the man on the bridge and carried the body to the baggage-room at the depot in charge of Station Agent Patrick J. Shea, and after a 20-minutes' delay the train resumed its way west.

The body was viewed by Medical Examiner E. W. Norwood of Spencer, who found the top of the man's head crushed in, exposing the brain, the chest was crushed, the left leg was broken in two places, the foot bruised and there were other minor injuries.

Mr. Benoit is survived by a widow, who was at the home of her parents in Rutland, one son and four daughters. The body was taken to North Brookfield in the evening by relatives and the funeral was held Tuesday morning. Mr. Benoit owned a farm in the west part of North Brookfield and was a respected citizen of that place. Henry Longevin of West Brookfield, who was killed by a freight in Warren and found beside the track Sunday morning, April 24, was a grandson of Mr. Benoit.

Vacation Resorts in New England.

The vacation season has commenced, and he who makes his arrangements in time is in no danger of getting left. Seashore and inland resorts have made great preparations for this year, and the Boston & Maine Passenger Department is always ready to act as adviser and conductor. Just look at our bargain counter! Thirteen beautiful descriptive books describing in detail every portion of Northern New England and entitled:—

"All Along Shore."
"Lakes & Streams."
"Among the Mountains."
"Central Massachusetts."
"Valley of the Connecticut and Northern Vermont."
"Monadnock Region."
"Southeast New Hampshire."
"Southwest New Hampshire."
"Lake Sunapee."
"Fishing & Hunting."
"Lake Memphremagog."
"Hoosac Country & Deerfield Valley."
"Merrimack Valley."

Any one of the above descriptive books will be mailed upon receipt of two cents in stamps for each book, but that is not all, we have two beautiful colored maps, one a bird's eye view of the White Mountains from the summit of Mt. Washington, showing each ravine, mountain peak and valley as seen from the summit and a key at the bottom telling the number and name of each place, the other is a bird's eye view in colors of the beautiful Lake Winnipesaukee. Six cents in stamps will procure either map. Besides the maps we have six beautiful portfolios, beautiful reproductions of choice scenes in New England; each picture 4x6 and 210 pictures in the set. The set contains

"Rivers of New England."
"Mountains of New England."
"Lakes of New England."

The entire set will be mailed upon receipt of thirty-six cents in stamps or six cents will procure any one book.

Look over the above list and tell us what you want. We'll send you everything upon receipt of seventy-four cents. In about three weeks we will have our Hotel & Resort Book for 1905 all ready. Don't forget General Passenger Department, Boston & Maine Railroad, Boston, Mass., is the address.

The June McClure's.

Wide human interest is the striking thing about the June McClure's. The college man is the first concerned in the sensational disclosures of "The College Athlete" which tells, for the first time, some astonishing facts about the financial arrangements by which some of the "stars" are secured and kept at college.

Typhoid fever, Samuel Hopkins Adams proves in one of his powerful and illuminating articles, is an unnecessary evil.

Helen Keller, who has been so marvelously educated in spite of her lack of sight, speech, and hearing has written the story of her college days.

Another of the reminiscent stories of the old-time country boy with which Eugene Wood has from time to time delighted the readers of McClure's, carries the reader around the cycle of the seasons as they used to be in the good old times of not so long ago. "The Revolving Year" will stir tender memories in every old country boy, and give him plenty to laugh over, too.

Sir Walter Scott, the prince of prose romancers, is the subject of Prof. George Edward Woodberry's second paper in the series he is writing for McClure's on the great masters of literature.

Five good short stories, all profusely illustrated, complete the list. A comedy of snobbery is told by George Randolph Chester in "Bargain Day at Tutt House." Mrs. Wilson Woodrow has another humorous tale of life in a Colorado mining camp, wherein the "New York Missioner" again appears. One of New York's assistant district attorneys, Arthur Train, has written out of the experience of his office, "The Jailbird." "In Lovers' Meeting," by Harvey J. O'Higgins, is a washerwoman's love story, a tale of rare literary quality, with a tender and sympathetic touch. Inez Haynes Gillmore, in "The Story That Took" has made an amusing story on novel lines.

In the district court Tuesday morning Jeremiah Brennan was fined $5 for drunkenness and given until next Monday in which to secure the money. One drunk appeared yesterday morning and was released on probation.

Our Legislative Letter

BOSTON, MAY 21, 1905.

History has been made fast during these last few days, and to-day has been a very lively day. Most sensational has been the development over the New Bedford veto. The bill appropriated $325,000 for city improvements which the people regard as necessary. Gov. Douglas vetoed the bill on the ground that it was special legislation and that it would tend to weaken the confidence of the people in the laws if such exceptions were permitted. The first vote of the Senate was 18 for the passage of the bill over the veto, and nine against. President Dana said that 28 persons were present and 18 was not two-thirds of 28. So the bill has not passed. But Senator Bullock got a reconsideration afterward and by getting in three new votes, winning one of the minority and having two of the minority absent, the bill was passed over the veto by 22 to 6.

Then it went to the House in the middle of the afternoon. The New Bedford members,—Messrs. Ross, Sowle and Lowney,—did their best to persuade the House to pass the bill, and not a member spoke on the other side. But the Boston Democrats, in particular, stood by the governor, and the vote on the passage of the bill over the veto was 67 yeas to 87 nays and 10 pairs. This was a majority against the bill, to say nothing of the two-thirds' vote which is required to pass it. Mr. Sowle gave notice of a motion to reconsider, but it seemed like a forlorn hope.

The governor was subjected to severe criticism in Senate and House for his conduct on this matter, for Senator Bullock said that the governor had talked the bill over with him before it passed and said that if it were amended in certain ways, he would sign it, that it was amended exactly as the governor suggested, and then that he had said afterward that he should have to retract his promise. This made them very sore. Though nothing was said for the governor on the floor of the House, yet, from private remarks, such, for instance, as were made by Mr. Taft of Worcester, House leader, it was evident that they judged that the veto was well based on public policy and that cities and towns should be required to live within their income. The point was made that the governor had, this session, signed similar bills for the benefit of Chicopee, Everett, Fall River and his own city of Brockton. These bills came early in the session and the Brockton bill was one for a loan of $30,000 outside of the debt limit for a system of surface drainage. Very likely the governor had not then become sufficiently accustomed to his office to see the *full* meaning of all these measures, but, at any rate, Brockton was left out of the debt limit law when it was passed, with Lynn, and has been outside of the limit ever since. Its financial situation has been such that it could not get along if it were compelled to limit its tax rate to the legal limit.

Another of the big matters of to-day was the veto of the bill for a gratuity to soldiers of the Civil War who did not get a bounty at the time of their enlistment. The bill was called the bounty bill last year, and was drawn this year so as to avoid the point of unconstitutionality which the supreme court delivered against it last year. But all to no avail. Attorney General Parker decided, in answer [illegible] Senate, that it was unconstitutional [illegible] the Senate and House passed the bill, after such authority had decided against it. Now comes the governor, saying that the bill would put upon the state a much heavier burden than was expected, but that his principal objection is that the bill is unconstitutional, and he refers to the opinion of the supreme court last year and to the opinion of Attorney General Parker this year. It is a very dignified veto and has a really solemn appeal to the oath which the governor has taken to support the constitution. There is not the slightest hint that the Legislature has taken the same oath to support the constitution which he regards as so sacredly binding upon him, but the fact is that they have taken such an oath and all that he says about his constitutional obligations is just as applicable to them. The House now has to go on record in the face of such a protest as that.

As the end of the session draws near, it is time to take account of stock regarding some of the leading members. There is no doubt that President Dana and Speaker Frothingham will be given terms next year, if they want them, and there is no doubt that they will. Dana has had one year and Frothingham has had two, but Speaker Myers had four and most speakers lately have had as many as three. Mr. Taft of Worcester, the leader of the House by virtue of his chairmanship of the judiciary committee, may have the place again, if he wishes, but he is named as candidate for the Senate to succeed Senator Heath of Worcester. He has been a good chairman, but the office has not been as prominent as it has some years.

Next in the nominal rank of members of the House stands the chairman of the ways and means committee, Mr. Ward of Buckland. He has done excellently and it is to be hoped that his district will continue to honor itself and him by sending him for a further term. There is no doubt that he would be given the chairmanship of the committee again, and it is one of the very highest honors of the Legislature to have that position. The House is really a harder working body than the Senate and he has more to do with state finance than any other member. He is the same unpretentious member as ever, but he is highly esteemed by all of the members and his district could not advertise itself more creditably to the state than by sending for another term on this important committee this representative who has won every honor he has by sheer force of his personal ability and character. He will not push himself for the nomination, for he appreciates what his district has done and leaves the matter in their hands.

Mr. Schofield of Ipswich has been the leader on the Democratic side. He has been full of push and force and has the good will of all the members because of his attractive personality. He is a good fighter, but a man who makes friends and leaves no bitterness behind him. Next to him, in solid worth on the Democratic side, and in influence, stands Mr. Davis of Plymouth, not over-conspicuous, but safe and sound, with the good sense which distinguishes a reliable legislator from one who merely talks wind. He has the judicial mind which is a benefit to t[illegible] entire state. The three Worcester D[illegible]crats, Skerrett, O'Rourke and O'[illegible] have stood well above the average [illegible] party. Lohasney of Boston ha[illegible] to business faithfully and bee[illegible] most of the time. He is [illegible] cratic boss of Boston, b[illegible] suspect it from his co[illegible] ture.

The Senate does [illegible]

LOCAL NOTICES.

The meat markets of Palmer will be closed all day next Tuesday, Memorial Day.

Believing in the day and what it commemorates, this store will be closed all day Tuesday, May 30. E. B. Taylor, grocer.

Fancy shirtwaists and skirts made, also ladies' repair work done at the Stebbins house at the head of Pearl street.

PALMER NEWS.

The marriage of Lena Josephine, daughter of Mr. and Mrs. A. A. Warriner of North Main street, and Rev. Charles Wesley Williams took place Wednesday noon in the Baptist church, Rev. Wilford E. Mann of Indian Orchard performing the ceremony. The church was elaborately decorated for the occasion under the direction of Miss May Fiske. The platform and organ loft behind it were banked in small white birches, laurel and wild cherry, the front of the platform being covered with cherry blossoms, and the banks of green in the rear were filled with apple blossoms. Nearly every seat in the church was filled with friends and relatives of the bride and groom, both young people being popular in town, Mr. Williams being pastor of the Baptist church and Miss Warriner a prominent worker and singer there for many years. Preceding the ceremony Miss May Fiske gave a half-hour's organ recital, and just at 12 played the wedding march from "Lohengrin." The officiating clergyman entered at the right aisle and marched to the altar, followed by the groom and his brother Howard of Philadelphia, who acted as best man. At the altar they awaited the bridal party, which marched down the other aisle. The procession was led by the ushers, Robert Williams, Dr. J. W. Fairing, George Warriner and Rev. W. L. Atherton. They were followed by the maid of honor, Miss Ruth E. Fiske, who preceded the bride with her father. The bride was attired in white India mull over white silk, trimmed with duchess lace. She wore a tulle veil caught up with lilies of the valley, and carried a shower bouquet of lilies of the valley. The maid of honor wore a dress of white batiste mull, trimmed with valenciennes lace, and carried a bouquet of pink roses. During the ceremony Miss Fiske played Lemare's "Andantino," and for retiring the wedding march from "Midsummer Night's Dream," by Mendelssohn. The Episcopal ring service was used. The bride's gift to the maid of honor was a clover brooch, and to the organist a clover stickpin. A wedding breakfast was served at the home of the bride after the ceremony, but the bride and groom failed to appear. They were driven from the church to Shearer's Corners, where they were met by an automobile, which carried them out of town. They have gone Philadelphia on their wedding trip.

The couple did not escape from their friends entirely, for when they went to take the train at Hartford a party of friends alighted from it and showered them with confetti. They supposed this was the end, but as the train pulled out the pursuers swung on the last car and again showered them at Berlin and Meriden.

Two Men Hurt.

Two men were injured by a falling derrick at the wire mill Tuesday morning, one of them losing an arm by the accident. A gang of men were at work putting up a smokestack when the derrick which they were using broke and fell. In some way Joseph Pasternack had his right arm caught under the falling timber and crushed; the flesh being stripped from the elbow to the wrist and both bones being broken. He was taken to the Springfield hospital and the arm amputated. He also ...eived other severe bruises. The other ... was Thomas Cullen, but he was more ...nate and escaped with some bruises ...d a hurt to one hand.

First Game To-morrow.

The Palmer baseball team will play its first game of the season to-morrow on the Agricultural Park grounds, with the Indian Orchard team. The game will be called at 3.30, and the admission will be 25 cents, ladies 10 cents. The makeup of the Palmer team is not announced, but Capt. Shaw has been at work for some time and has made a good selection of strong players; the game is sure to be a good one, as the Indian Orchards have been playing great ball so far this season. A lot of work has been put on the grounds and the diamond entirely rebuilt, making a playing surface second to none in this section.

G. M. Atkins has gone to Newark, N. J., where he will remain for few weeks in the interests of the Newark Lunch Company, in which he is interested.

P. E. Bard has ordered a new lunch cart, which is expected to arrive to-night or to-morrow morning, with which he will replace the one burned some time ago.

The Baptist church used for the first time last Sunday the new singing books, "The Voice of Praise," recently procured for the Sunday school and Christian Endeavor services.

The sidewalks on Main street are being patched with concrete under the direction of Superintendent of Streets Brainerd. The walks in other streets will be given attention also.

There was a frost Sunday night which nipped many plants which had been set out. Tuesday night there was another and heavier one which killed potatoes in many sections and some corn.

F. W. Cross, principal of the high school, will speak at the memorial exercises to be held in East Wilbraham Sunday afternoon. Monday afternoon Mr. Cross will deliver an address at Feeding Hills.

An alarm of fire was rung in from box 57 at 9 45 this morning, but all the blaze which could be found was in a chimney on the west end of the Thompson tenement house on Pine street, and no damage was done.

The members of the Woman's Relief Corps will meet in Memorial Hall to-morrow afternoon to make wreaths for Memorial Day. They will be glad to receive donations of flowers on Monday, for use the next day.

The funeral of William G. Pasco, 72, a former overseer in the Thorndike mill, was held from Benson's undertaking rooms Monday afternoon, Rev. M. O. Patton officiating. Mr. Pasco died in Springfield last Saturday.

Invitations are out for the wedding of Miss Lucretia Garfield Siske, daughter of James M. Siske of State avenue, and Ernest D. Tufts. The ceremony will take place at the home of the bride June 6, at 4 o'clock in the afternoon.

The majority of the stores in this village will close at noon next Tuesday, Memorial Day. The meat markets have decided to close all day. The barber shops of the place will close all day, but will keep open until 11 o'clock the night before.

Several members of the Palmer Woman's Club and the Woman's Tuesday Club are planning to attend the conference of Western Massachusetts Women's Clubs to be held in Westfield to-morrow. They will leave here on the 9 o'clock electric car.

The subject of Mrs. Makepeace's sermon in the Advent chapel Sunday afternoon at 3 o'clock will be "Separation." There will be a children's meeting at 3.30 Wednesday afternoon, and the regular week-day meeting Wednesday evening at 7.30

The last meeting of the Monday Evening Whist Club was held last Friday evening with Mrs. C. F. Grosvenor on North Main street. The prizes were taken by Mrs. F. W. Harrison, Mrs. James Gray and Mrs. H. A. Northrop. It was voted to reorganize the club next winter.

Robert Burns of Bondsville was arrested last February for drunkenness and placed on probation, but failed to show up when the appointed time came. He was brought in Saturday morning by Officer McKelligott of Thorndike and was fined $6, being given until July 3 in which to secure the funds.

There will be a special Memorial Day service in the Congregational church next Sunday afternoon at 5 o'clock, which will be attended by the G. A. R. post, the Sons of Veterans and the Woman's Relief Corps. The address will be by the pastor, Rev. M. O. Patton. The public is invited to attend.

There will be an open air gospel meeting on the lawn near Mrs. Snow's former home at Shearer's Corner Sunday afternoon at 3.15. The services will open with a 15-minutes' song service, followed by a short preaching service. These services will be conducted by members of the Three Rivers Baptist church.

The charming drama, "Valley Farm," will be given in the opera house next Wednesday evening under the auspices of the Woman's Relief Corps, by local talent. The admission will be 25 and 35 cents, and tickets will go on sale to-morrow at Quimby's. This is the first play in many months by local talent, and will no doubt be well worth seeing.

Memorial services will be observed in the church at East Wilbraham Sunday afternoon at 2 30. Principal F. W. Cross of Palmer will deliver the address, and there will be music by a male quartet. Cyrus W. Cross camp, Sons of Veterans, of Palmer will have charge of the service, and invite all veterans, Sons of Veterans, and those eligible, to join them. They will leave Palmer on the 2 o'clock electric.

Esther Shiari of Monson was adjudged an insane person yesterday and committed to an insane asylum at Northampton. This morning George A. Loveday was adjudged an insane epileptic and committed to the hospital in Monson. Michael Hanifan of Monson was also adjudged insane and committed to Northampton. He was found in Wilbraham yesterday wandering about clad in only a coat and vest.

The civil case of Mary L. Trumble of Monson against Fred C. Sherman of Palmer was tried in the district court Wednesday. The suit was to recover the balance alleged to be due on a cow trade or sale. The defendant claimed that the cow was warranted to give six quarts of milk at a milking, whereas that was all that could be secured in a day. Decision was reserved. Clough was for the plaintiff and Hobson for the defendant.

Harry O. Day takes exceptions to the announcement in last week's Journal that he was married in Westfield on Tuesday, and says that such was not the fact. Investigation shows that a marriage license was applied for in that town, but as both young people claimed a residence in Palmer it was refused. The announcement of the marriage was left at the Journal office by a young woman who evidently knew of the plans of the couple and supposed that the ceremony had been performed.

Lectures do not seem to take well with Palmer people, and so many of them missed one of the most enjoyable treats of the season when they failed to hear Rev. John Jay Lewis's talks on the Passion Play and on Old New England Tuesday and Wednesday evenings. Mr. Lewis was especially good in the latter, and gave many new and interesting facts regarding the early history of this part of our country. Both lectures were finely illustrated by views, and it is a pity that more of the school children were not present.

Passengers on the train reaching Palmer at 1 58 in the afternoon from Boston had a demonstration of rapid transit last Friday. The train was several minutes late leaving Worcester, and some of the passengers who wished to make connections with the electric cars leaving Palmer on the hour were fearful that they would be left. They had their trouble for their pains however, for the train reached Palmer several minutes ahead of time and there was no necessity for even hurrying to get the electrics. Through the Brookfields and Warrens to Palmer some fast time was made.

Special memorial exercises will be held in the high school Monday morning at 10 o'clock, consisting of music and selections by the school and speaking. All members of L. L. Merrick post, G. A. R., and other veterans in this vicinity are cordially invited to these exercises. The program will be as follows:

Singing.	"To Thee, O Country"	School.
Recitation.	"Our Heroes"	Mr. Irving Shaw.

Charles of Boston and Charles H. Walker of Warren. The present corps of teachers were reëlected, and all will return except Miss Snow. The sum of $300 was appropriated for the celebration of the semi-centennial of the institution to be held August 24.

An unusually pleasant and successful social event was the reception and dance given by the local Grange in the town hall Tuesday evening. It was arranged by Dr. R. V. Sawin, master of the Grange, in observance of "Master's Night," appointed on the yearly program. Printed invitations were issued, and Granges from surrounding towns as well as the Brimfield organization were represented. The visitors were from Sturbridge, Southbridge, West Brookfield, Stafford, Ct., Monson, P...er and Warren. Those who assisted Dr. and Mrs. Sawin in receiving were: Mr. and Mrs. Orrin Hicks, Mr. and Mrs. O. E. Parker, Mr. and Mrs. G. W. Sherman and Cheney Newton. The floor director was George W. The hall was handsomely decorated with evergreen and potted plants under the direction of Mrs. Walter George, chairman of the floral committee of the local Grange, and the recess of the stage where the musicians played was effectively hung with bunting and flags. Refreshments were served by the feast committee of the Brimfield Grange.

EDITORS PROTEST.

After complete arrangements had been made at Indianapolis early in the year by the executive committee of the National Editorial Association for the annual convention at Guthrie, Oklahoma, in June, the members of the Massachusetts press associations were surprised a few days ago to receive word that the program had been materially changed without consultation with the associations. One important change was the shifting of a big entertainment on one of the ranches from Saturday, as originally arranged, to Sunday. This was more than the New England editors cared to stand for and at a meeting of the Suburban Press Association of New England at Boston last week an emphatic protest was made. At a meeting of the Massachusetts Press Association on Monday of this week a strong protest was made, the association voted to withdraw its delegation from the convention, and the following resolutions were passed:

Whereas, some one supposedly representing the National Editorial Association, without the knowledge or consent of the member of the Executive Committee representing the Massachusetts Press Association, has officially sanctioned an entertainment to be given in honor of the Association at 101 Ranch, Oklahoma, on Sunday, June 11th, said entertainment to consist of a "buffalo hunt, barbecue and a day of Indian sports such as we will likely never be permitted again to witness," and

Whereas, the Massachusetts Press Association stands for something other than buffalo baiting and Sabbath desecration, and

Whereas, the Massachusetts Press Association, through its representative upon the Executive Committee, has ineffectually protested against said program of entertainment, therefore be it

Resolved, that the Massachusetts Press Association formally adopts and enters upon its records this protest, withdrawing its delegation from the annual meeting of the National Press Association to be held at Guthrie, Oklahoma, during June of the current year.

Resolved, that the per capita tax for the ensuing year be forwarded to the National Treasurer and a copy of this protest be forwarded to the National Secretary, with a request that it be read at the annual meeting of the National Editorial Association and made a part of the records of said meeting.

A Wonderful Saving.

The largest Methodist Church in Georgia used 32 gallons of L. & M. mixed with 24 gallons of oil, thus making paint cost about $1 20 per gallon. They calculated to use 100 gallons of other paint. Saved about $80 00, and also got a big donation of L. & M. Dealers gladly sell L. & M., because their customers call for it, and say they used it 12, 14 and even 30 years ago.

Don't pay $1.50 a gallon for linseed oil, which you do in ready-for-use paint.

Buy oil fresh from the barrel at 60 cents per gallon, and mix it with L. & M. Paint.

It makes paint cost about $1.20 per gallon. Sold by Asahel Wheeler Co., Boston; W. N. Flynt & Sons, Monson; John Wilson, Three Rivers; F. A. Gurney, Wilbraham; W. E. Stone & Son, Palmer.

Monson News.

Minstrel Show a Success.

[illegible]morial Hall was filled to over-flowing [illegible] night, when a minstrel show was put [illegible] for the benefit of the Monson Baseball Association, and as a result the association will net about $100. There were about 35 voices in the circle. The songs and chorus showed hard work, and Manager Dempsey deserves much credit for the drill work on these.

The entertainment opened with a curtain raiser, "We are the Minstrel Band," followed by the opening chorus by the company. Mr. F. J. Sullivan sang, "Farewell Abner Hemingway;" H. F. Miller, "In the Shade of the Old Apple Tree;" T J. Sault, "Every Little Bit Helps;" M. J. Walsh, "Dear Old Girl;" N J. Cantwell, "Dark Man Coming with a Bundle;" F. J. Sweet, "Way Down East Among the Shady Maple Trees;" A. J. Gould, "Dinner Bells." The jokes were numerous and included a number of local hits. E P. Gould as interlocutor did extremely well. The first half closed with a chorus by the company and selections by a quartet composed of Messrs. H. F. Miller, C. F. Orcutt, Jesse Maguire and F. J. Sweet.

The olio included sentimental and local songs by Albert Gould; the Gatchells, in a musical act; gyrations of the baton by F. J. Parent, and song and dance by the McGinnis Brothers. The best and most novel feature of the second part was a six-round bout by George and Louis Sault, the seven and eight-years-old midgets, who gave a fine sparring exhibition. The audience could almost imagine they were witnessing a genuine bout by older persons so well was it carried out, and yet it had none of the unpleasant features which are usually connected with such. A ring was laid out on the stage. The two young pugilists were very evenly matched, and were unusually small for their ages, weighing 30 and 37 pounds. At the close of the show there was a social dance, music being furnished by Orcutt's orchestra, and a large number remained.

Philo meets this [illegible]

Miss Connell has returned to school after a few days' illness.

Francis McQuaid, ex-'05, of Hartford, Ct., is spending a few days in town.

Arthur Paige, '07, of Hardwick, Ct., spent Sunday with his parents.

Lino will hold their last regular meeting of the year Friday evening, June 9. The program will include a lecture given by Prof. Butterworth.

Cyrus Young, the third, has organized a baseball team, and is out with a challenge to teams with an average of 16 years.

The Athletic Association will present a mock trial to the public next Monday evening at 8 o'clock in the Academy. An enjoyable evening is promised all who attend. The charge is brought against Albert Proctor, a student at Cushman Hall. He will be defended by Howard E. Page, while the prosecution will be represented by William E. Hynes. The admission will be 25 cents. Tickets may be obtained at the door, or from members of the association.

Last Saturday the baseball team went to Suffield, Ct, where they played the Academy team of that town. At the end of the skirmish, which lasted nine innings, Monson was victorious by the score of 9 to 8. Wednesday afternoon Ware high school came to Monson to try their luck, but returned home a sad loser. The Academy team had an easy time and their opponents were unable to obtain but two scratch hits off of Capt. Rourke, while he had 16 strikeouts to his credit. The final score was 8 to 1. To-morrow afternoon the team will play the Palmer Juniors on the Palmer Driving Park. The game will be called at 3.30.

A. M. Severy spent Sunday with friends in Springfield.

The annual prize drill of the Boys' Brigade was held in the chapel of the Congregational church Saturday evening. It was well attended and was very interesting. The medal for the member most efficient in the manual of arms was given to Wilson Brainerd. B. L. Bragg, Benjamin Bragg and Fred Russell of Springfield were the judges.

A break in the water pipe on the Academy hill Monday night caused a good-sized washout before the water could be shut off. The break was in the branch pipe which supplies the residence of C. L Peck, the pipe having rusted through in one spot The leak made its appearance on the east side of the car tracks, but the break in the pipe was found on the west side. A gang of men worked most of the night digging it up and the trouble was repaired Tuesday morning.

Exercises appropriate to Memorial Day will be held in Memorial Hall Monday afternoon at 1 30 o'clock by the school children. There will be singing and speaking and Dr. George E. Fuller will speak. The public is invited. At the Colton Hollow school there will be exercises and a flag-raising, the money for the flag being raised among the scholars. Citizens are invited to furnish flowers for Memorial Day and are requested to leave them at Memorial Hall Monday afternoon.

WARREN.

R. G. McIntyre has been engaged by the selectmen to make the needed repairs on the concrete walks.

Mrs Sarah L. Cowee, 70, wife of William P. Cowee, died at her home on Maple street Sunday noon, after a several weeks' illness. Besides her husband, she leaves a daughter, Mrs. Mary Leonard, wife of Jesse T. Leonard of Somerville, and one son, William H. Cowee, who lived at home, and two sisters-in-law, Mrs. Andrew J. Canfield of Worcester and Mrs. Olney J. Darling of Adams. The funeral was held at the house Wednesday afternoon at 2 30, and burial was in Pine Grove cemetery.

Jason Butler of East Wilbraham has sold his property on the north side of the Boston road to his nephew, Wilbur H. Butler, and has moved to the home of his son, Dr. Lester E. Butler, in Dighton, where he will stay for the summer. Mr. Butler has been in poor health for nearly two years, but previous to that time was active in all town affairs, having served as chairman of the selectmen for many years and for 21 years as a member of the school committee. In his younger days he was a teacher in the public schools of Wilbraham, and was elected to the House for a term about 10 years ago. Mr. and Mrs. Butler were both members of the Union church in East Wilbraham, and their departure is deeply regretted.

BELCHERTOWN.

Death of John V. Thompson.

John V. Thompson, 79, died yesterday morning at his home in Rockrimmon after a long illness. He had been an invalid since four years ago, when he sustained a paralytic shock, and for the past ten weeks had been confined to his bed from an attack of the grip. Mr. Thompson was born in Albany, N. Y., but at the age of 20 came to Springfield, where he learned the carriage-maker's trade and where most of his early life was spent. He had been a resident of Belchertown for the past 33 years, and was highly respected by all who knew him. He is survived by a widow, a sister in Avon, Ill., and a niece, Miss Louise S. Van Alstyne. The funeral will be held to-morrow afternoon at 2 in the Methodist church, and burial will be in Mt. Hope cemetery.

Mrs. J. B. Adkins is the guest of her parents in Middlebury, Vt.

A meeting of the Arts and Crafts society was held at the home of Miss Baxter Saturday afternoon with good attendance. After the report of the secretary was read, Mrs. Edmund S. Thompson gave an interesting account of the Boston Arts and Crafts exhibition in Boston. The following committees were appointed for the annual exhibition, which is set for August 17, 18 and 19: Mrs. R. L. Bridgman, entertainment; Mrs. S. W. Perry, decorating; Miss Barton, advertising. Miss M. E. King was invited to arrange an entertainment in the near future for the treasury of the Arts and Crafts society.

WARE.

Memorial Day Program.

Memorial exercises will be held this year as follows: Sunday morning the post with the members of S. B. Bond camp, Sons of Veterans, and the Woman's Relief Corps will attend services at the Methodist church upon the invitation of Rev. John Wriston, pastor. In the evening of the same day the memorial address will be given in the town hall at 7.45 by Rev. Dr. Philip S. Moxom of Springfield. On the morning of Memorial Day all comrades are directed to assemble at Grand Army hall at 9, and a half-hour later the line will be formed for marching to St. William's and Aspen Grove cemeteries, where the graves of dead comrades will be decorated. The West Warren brass band, the Lafayette drum corps and the Sons of Veterans will escort the veterans in the march. The graves in other cemeteries will be decorated by details early in the morning Patriotic exercises will be held in the graded schools Monday afternoon at 2 and in the high school at 10 30 in the morning The assignments of veterans and Sons of Veterans to the various schools are as follows: High school, H. M. Coney, C. H. Rood; South-street, H. M. Hitchcock, J. H. Schoonmaker, John Osgood, J. W. Cummings; East-street, E. E. Richardson, George W. Dunham; West-street, S. A. Spooner, C. C. Cook; North-street, C. H. Rood, H. H. Turner; High-street, Rev. A. B. Bassett, George S. Marsh, F. P. Clark, J. W. Robinson.

Thomas F. Clark has resigned his position with the clothing firm of G. J. Prew & Co., and will be succeeded by John Neville who has been in Worcester.

Herbert F. Barnes, Ernest Barbeau and Wilfred Beauchemin have been drawn as jurors for the June civil term of the superior court at Northampton.

The body of Mrs. Charles Wetherell, 87, who died at the asylum in Wesboro Monday, was taken to Ware by R. C. Snow and Undertaker R. W. Cornish Tuesday afternoon and buried in Aspen Grove cemetery, after a simple service at the grave. Mrs. Wetherell lived on Pleasant street until two months ago. She leaves one niece in Hyde Park, the only near relative.

The case against Azealre Riendeau was ordered dismissed in the district court Saturday morning. He was arrested about a month ago, when a boy named Taylor, 12-years-old, was badly cut by a sharp knife on Aspen street during the slaughter of a calf. The boy has fully recovered. As there never has been any question but the cutting of the boy was wholly accidental, the case was not prosecuted.

The high school graduation exercises will be held on Wednesday evening, June 21, in the town hall with Prof. Herbert D Foster of the history department in Dartmouth College as the speaker. The class to graduate numbers 26, of whom 19 are girls. The reception will be held on Friday evening of the same week. The graded schools will close on June 16. There will be an exhibition of school work June 8 and 9 in the town hall.

OUR LEGISLATIVE LETTER.

[CONTINUED FROM FIRST PAGE.]

tion of its members and no senator has added to his laurels which he has won in the House. For the most part, the Senate is a silent body. It arranges the fate of bills in the quiet and smoke of the reading-room and what is done on the floors of the Senate is of minor account. Occasionally debate is suffered to be indulged in, but there is never such discussion of fundamental principles as is seen in the House. The Senate is badly over-run by the lobby. In the reading room and on the floor of the Senate the third House members can be found almost any time when the senators are present, mixing with them on terms of perfect equality and evidently keeping in close touch with them on every matter on which they are employed.

In the House the situation is totally different. Lobbyists are kept out of the reading room and the corridor of the House, and during the session, under a new rule of this year, they are compelled to keep at a respectful distance even from the doors of the House. This makes the atmosphere of the House much clearer than the atmosphere of the Senate. The House is the body which represents the people, while the Senate is the body which represents the power of the wealth and conservatism of the state. The Senate can always be controlled against any hostile legislation to these interests by 21 senators. Of course, if positive legislation is wanted, the House and Senate both must be manipulated, but in the case of preventing hostile legislation just this little company of senators is sufficient to block the will of the people.

Prorogation will be reached this year earlier than in any year since 1881, if the plan of finishing Friday is carried out, and there is no reason in sight why it will not be. The business has been less than last year by about 200 matters, and the course of a legislation has been dignified and moderate at all times. This has been an honest House and the Senate, while under corporation influences, is distinctly above the Senate of 1903, and some better than last year. But the people always need to keep their eyes upon it LANDON.

Long and Short Letters.

Sherwin Cody in his "Training Course In Correct English, Business Correspondence and Advertisement Writing" lays down some rules as to the length of business letters. He says:

"Write a long letter to—

"A farmer.

"A woman.

"A customer who has asked you a question.

"A customer who is angry and needs quieting down and will be made only more angry if you seem to slight him.

"A man who is interested, but must be convinced before he will buy your goods.

"Write a short letter to—

"A busy business man.

"An indifferent man on whom you want to make a sharp impression.

"A person who has written you about a trivial matter for which he cares little.

"A man who wants only a record or a piece of information.

"A person who needs only the slightest reminder of something he has forgotten or overlooked."

Flattery and Flatterers.

"We sometimes fancy we hate flattery, when in truth it is the manner of it we dislike," said La Rochefoucauld. Stripped of its cynicism, the saying comes to this—that while praise is eternally pleasant there are fashions in flattery, and those fashions change very completely. Flattery is innocent or despicable, not according to whether or not it oversteps the limits of the accurate, but whether or not it proceeds from an interested or a disinterested motive.

There are moments when a true statement of honorific fact made for the selfish purpose of the speaker may be gross flattery, while an exaggerated speech may be justified by its good intention. The real question is not what was said, but why it was said. That is the only test by which we can divide the contemptible from the harmless kind. Surely there is less of the worse sort than there was, or do we but flatter ourselves?—London Spectator.

Our Congress.

When comparisons are made between America and continental Europe we can find much of which to be proud. Our growth, our wealth, our industries, our resources, our energy, all make flattering comparison with average European conditions. But I believe in making such comparisons there is no one thing of which we have the right to be more proud than of the congress of the United States. Better than any continental parliament, it represents the people. The one legislative body of the world that is in any way comparable to ours is the parliament of Great Britain. In character, intellect, methods, dignity and in the truthfulness with which each represents the people the British parliament and the United States congress stand in a class quite apart and above any of the parliaments of continental Europe.—Frank A. Vanderlip in Scribner's.

Half a Face Missing.

"It is not an uncommon thing," says a man who has hunted in central Africa, "to meet a native with half of his face missing, and when you ask him how it happened he will tell you that a hyena snapped at him while he was asleep. It is marvelous how they recover from such wounds, as the teeth of the animal must be poisonous, and the natives have no antiseptics and a very crude way of treating wounds. When a 'fisi,' as the natives call it, comes round the camp howling, the 'boys' shout all sorts of vile names at it. But very often the animal makes no noise whatever, and not till next morning is the loss of something discovered."

Superstitious Parnell.

Miss Charlotte McCarthy, daughter of Justin McCarthy, told a curious story of Charles Stewart Parnell. "One evening," says she, "Parnell was talking to me at the coffee stage of dinner, and I, gazing at him with rapture, was vaguely stirring mine and going to drink it when he said: 'You must not drink that. You have stirred it the wrong way, and it would be unlucky. Get another cup.' What struck me as strange in this was not his being superstitious—every one who knew him at all knew that—but his extraordinary power of observation."

Short Lived Bachelors.

"Do bachelors die young? Do they die earlier than married men?" asked a single man. "It would seem so. I was just reading a report which seems to argue strongly in favor of the matrimonial idea. The report shows that the mortality among bachelors from the age of thirty to forty-five years is said to be 27 per cent, while among married men of the same age it is 18 per cent. For forty-one bachelors who attain the age of forty years there are seventy-eight married men who attain the same age. The difference is still more striking in persons of advanced age. At sixty years of age there remain but twenty-two bachelors for forty-eight married men, at seventy years eleven bachelors for twenty-seven married men and at eighty years three bachelors for nine married men. These figures seem to indicate that the best thing for a man to do is to get him a wife and shake wearing cares of bachelorhood. We all want to live as long as possible and live happily if we can. Some bachelors are reasonably happy. But all of them are not. Get married. That's the proper caper."—New Orleans Times-Democrat.

Michael Angelo's Work.

Michael Angelo relied almost entirely upon form—the form of the figure and of the draperies. He told Pope Julian II., when the latter requested him to paint the ceiling of the Sistine chapel at Rome, that he was not a painter, but a sculptor; yet, after he had shut himself up for four years—from 1508 to 1512—and the scaffold was removed, a result had been achieved which is without parallel in the world. Very wonderful is the work which Michael Angelo spread over this vast area of 10,000 square feet. The fact that there are 343 principal figures, many of colossal size, besides a great number of others introduced for decorative effect, and that the creator of this vast scheme was only thirty-three when he began his work—all this is marvelous, prodigious, and yet not so marvelous as the variety of expression in the figures of which Jeremiah is only one figure in a small side arch.—Charles H. Caffin in St. Nicholas.

The Cruelty of Pate de Foie Gras.

To eat pate de fois gras is luxury, but to prepare the delicacy for the table is prolonged torture for the goose. The Humanitarian league of England has issued a pamphlet on the subject. "We behold," says an eyewitness, "innumerable geese in this torture chamber, bound fast to the table. They lie on their backs as if crucified. We watched how the women pressed some new victims against the tables so that the hinder parts should hang over the edge." Two months of torture for the goose are considered necessary before its liver is sufficiently diseased to be marketable. The fowls are fed to repletion with salted maize, and by this means the liver is increased to the abnormal weight of two or even three pounds. Strassburg and Toulouse are the chief places of manufacture and the trade amounts to several hundred thousand dollars annually.

A Formula For Marriage.

The Frankfurter Zeitung has discovered a formula for marriage. Nothing is more certain, it says, than that this formula is right. The question asked is what age should a man's bride be? The formula is: Let x be the man's age. Then $x \div 2 + 7 =$ bride's age. For example, a man is 34; the half of his age is 17; then 17 plus 7 is 24. The bride's age should be 24. For a man of 34, therefore, the proper age for his wife is 24. Take the man of 60. $x = 60 \div 2 = 30 + 7$. The man of 60 must marry a woman of 37. For the juvenile marriages of southern latitudes the formula is equally valid. The hot blooded Castilian, for example, of 18 wishes to marry. The formula says $x = 18 \div 2 = 9 + 7 = 16$. His wife should be 16 years old.

The Simple Life.

In my wanderings on foot when I walk through the provinces of Europe and talk to the people and fish and learn I find that what people lack most in life is simplicity, the poor man as well as the rich. It consists not in plain dress, but in plain living, in simplicity of heart, of personal beliefs and respect for the beliefs of others.—Rev. Charles Wagner.

Preparedness.

Begin the morning by saying to thyself, I shall meet the busybody, the ungrateful, arrogant, deceitful, envious and unsocial, but I, who have seen the nature of the good, that it is beautiful, and that of the bad, that it is ugly, can be injured by none of them.—Marcus Aurelius.

Cause For Sorrow.

Brown—Smith is down with brain fever. Green—You don't say so! Brown—Yes. The doctor says if he recovers his mind will be a blank. Green—Well, I'm sorry to hear that. He owes me $10.

Spiteful.

Kate—Do you think it's true that people catch anything through kissing? Madge—Oh, I don't think so. See how often you've been kissed and you've never caught anybody yet.

A Good Suggestion.

Mr. C. B. Wainwright of Lemon City, Fla., has written the manufacturers that much better results are obtained from the use of Chamberlain's Colic Cholera and Diarrhoea Remedy in cases of pains in the stomach, colic and cholera morbus by taking it in water as hot as can be drank That when taken in this way the effect is double in rapidity. "It seems to get at the right spot instantly," he says. For sale by Quimby Pharmacy, Palmer.

NOT THE ONLY ONE.

There Are Hundreds Of Palmer People Similarly Situated.

Can there be any stronger proof offered than the evidence of Palmer residents? After you have read the following, quietly answer the question.

Mrs. George Taylor of Church street, Thorndike, Mass., two miles from Palmer, when interviewed recently, said: "Yes, I gave a testimonial to Doan's Kidney Pills some three years ago last April and all I can add to-day, is that my confidence in them has not been shaken in the least. When I commenced their use I could not turn over in bed, my back was so lame and sore. After I had taken them two days I could turn over and rest with some degree of pleasure. Besides the above symptoms I had distressing pains in my head. I got Doan's Kidney Pills at LeGro's drug store and used them and can truthfully say I never tried anything that did me half as much good."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Forbes & Wallace, Springfield, Mass.

One of the strangest railroad accidents on record is reported from Hammond, Ind. A hotel-keeper, Charles Stahlbohm, was driving home one night last week and, coming to a railroad track, tried to drive his horse across ahead of the fast freight. The engineer did not even know that he had hit anything, but kept up the speed of his engine until he pulled into a station 15 miles beyond the scene. Then he got down to oil his engine and was slightly startled to see Stalbohm sitting on the cow-catcher, a whip in one hand and the ends of some reins in the other. He shook him a few times and when the hotel-keeper came to he asked where his hat and horses were. He did not know that the train had made them into soap stock.

Chamberlain's Cough Remedy the Very Best.

"I have been using Chamberlain's Cough Remedy and want to say it is the best cough medicine I have ever taken," says Geo. L. Chubb, a merchant of Harlan, Mich. There is no question about its being the best, as it will cure a cough or cold in less time than any other treatment. It should always be kept in the house ready for instant use, for a cold can be cured in much less time when promptly treated. For sale by Quimby Pharmacy, Palmer.

The Antalgica

Or Vegetable Pain Reliever

was introduced to the public in 1848, since which time thousands of bottles have been sold each year to an appreciative public, which is a good evidence of its merits. It is adapted to so many ailments it should be in every household, for it cures all kinds of pains both internal and external. For Bronchial affections it is unrivaled by any article in the market. It is a sure cure for Cholera Morbus and Dysentery, if taken in season, also for Coughs. It is an effective remedy for rheumatic affections, stiff joints, swelled limbs, sprains, cramps, toothache and many other ills to which the flesh is heir. Try it and it will do you good. It is sold at 25c, 50c and $1.00 per bottle by The Quimby Pharmacy, LeGro's Drug Store and the proprietor,

O. P. Allen,
Palmer, Mass.

The turkey crop of the United States finds its first important market at Thanksgiving, when, according to a reliable estimate, about 6,000,000 of the birds are sold. They are raised in small lots all over the country, each farmer contributing a few. This crop of 6,000,000 Thanksgiving turkeys, if all of them were marching in single file, would stretch from Boston to San Francisco and as far as Denver on the return journey.

The hopefulness of some young men is unbounded. At a dinner table the other night some one said to a medical student: "Don't you despair of ever building up a practice in medicine?" "Indeed, no," he answered. "But you will admit that the profession is already overcrowded." "Oh, perhaps it is," said the young man, and then with a laugh he added, "But I propose to graduate in medicine just the same, and those who are already in the profession will have to take their chance."—Baltimore Sun.

Palmer Juniors 13, Ware High 0.

The Palmer Juniors whitewashed the Ware high school team on the pumping station grounds in Ware Saturday by a score of 13 to 0. The features of the game were the batting of Kenefick and the playing of the Palmer team, especially that of Todd in the box, who struck out 14 men and held the home team to only one hit, while the Palmer team hit Mowry for 24. The score:

Palmer Crescents 10, Monson Atlantics 4.

The Palmer Crescents defeated the Monson Atlantics on the driving park Saturday by a score of 10 to 4. The feature of the game was the playing of the Palmer team, especially that of Brierly and Fenner and the pitching of Smith. Neville did some fine work in the box for the visitors but had poor support. Faulkner also played a good game for the visitors at first base. The score:

Monson 5, Training School 1.

The Monson baseball team played their first regular game of the season on Flynt Park Saturday afternoon, defeating the Springfield training school team 5 to 1. The home team made an excellent showing and Cartmill pitched a splendid game. The work of Smith at third base was also excellent and he won much applause. A double play unassisted by Hawkes of the training school team was a feature of the game. The score:

North Wilbraham Stars 19, Wilbraham Eagles 10.

The North Wilbraham Stars defeated the Wilbraham Eagles in a game on the Wesleyan campus Saturday morning by a score of 19 to 10. As the weather was cold and a high wind blowing both teams made many errors and these were responsible for most of the runs. The batting of both teams was very light. The feature of the game was Whalen's two-base hit with three men on bases and also his playing at short. Wade caught a good game for Wilbraham. The score:

Wesleyan 12, Trinity 3.

Wesleyan Academy defeated the Trinity freshmen 12 to 3 Saturday afternoon at Wilbraham. Toussaint was in the box for the home team, and although he gave bases on balls at times, in all critical places he pulled himself out. Trinity found him for only four hits, while Wesleyan made 12 with a total of 16 off Hyde. The pitching of Hyde was the feature of the visitors' game. The score:

Bishop Talbot of the Episcopal church has a ready wit. While in Wyoming not long ago a cowboy who was slightly intoxicated rode up and said:—"Hullo! I'm glad to see you. Where in —— did I see you before?" The Bishop quietly answered:—"I am not sure, my friend. From what part of hades do you come?" The Bishop called recently on Archdeacon Radcliffe, of Stroudsburg, Pa., and said: "Are you well, Archdeacon?" Dr. Radcliffe said he never felt better. "I am glad to hear you say so," said the Bishop, "for I want you to work like the devil." The archdeacon looked shocked, but Bishop Talbot added:—"You know the devil is always working."

Why Suffer From Rheumatism?

Why suffer from rheumatism when one application of Chamberlain's Pain Balm will relieve the pain? The quick relief which this liniment affords makes rest and sleep possible, and that alone is worth many times its cost. Many who have used it hoping only for a short relief from suffering have been happily surprised to find that after awhile the relief became permanent. Mrs. V. H. Leggett of Yum Yum, Tennessee, U. S. A., writes, "I am a great sufferer from rheumatism, all over from head to foot, and Chamberlain's Pain Balm is the only thing that will relieve the pain." For sale by Quimby Pharmacy, Palmer.

The Self Made Business.

"Yes," said the egotistical person, "I am proud of the fact that I am a self made man; but, strange to say, I never have yet encountered a self made woman."

"Oh, that's easily explained," rejoined the auburn haired lady. "One glance at a self made man is enough to disgust a woman with the self made business."

In the Matter Of Elizabeth

By S. T. STERN

Copyright, 1904, by S. T. Stern

There were two Elizabeth Langhams. For fifteen years they had lived almost side by side, and neither of them had learned of the other's existence. Three hundred feet of metropolitan space and several hundred thousand dollars separated them socially and completely. The elder Miss Langham resided near the middle of the block in a plutocratic white stone mansion. At the corner of the same street in a modest flat house lived the other Elizabeth.

Though neither of them was aware of the circumstances, these two possessed one link in common. His parents knew him as James Carruthers. His clients and professional friends called him Jack, the counselor. Miss Langham knew him as her oldest and, he hoped, her best friend. Elizabeth Langham knew him as her employer.

Elizabeth Langham often wondered that Jim had selected her from two dozen applicants for the position of stenographer in his legal establishment. A callow graduate from a business college, she had hardly hoped to gain acceptance over a score of experienced typists. The true reason—her name—she never guessed. Still Jim had no reason to regret his choice. Miss Elizabeth was neat, pretty and bright. Jim dictated to her daily, and she transcribed without an error.

Not so Miss Langham, the focus of fifty bachelor aspirations. Jim tried dictation there only once.

"Mr. Carruthers," said Miss Langham coldly, "you are taking a mean advantage of our friendship. You have no right to criticise my other friends. I am proud to number Judge Newton among my friends."

"But he's fifty if he's a day," Jim persisted.

"So shall you be, Mr. Carruthers—some day. Good night."

There were tears after Jim had taken his departure, but that Jim did not know. He did know, however, that Miss Langham had dismissed him, and he sorrowed accordingly.

"It's that fellow, Colonel Newton," he mused. "Since they've elected him a judge Elizabeth has been indifferent to me. Mrs. Judge Newton evidently sounds better to her young ears than plain Mrs. Jimmy Carruthers." So he floundered homeward in the slush of a winter evening and nursed his first great sorrow.

Sorrow maketh a sympathizer. Jimmy, blue and hopeless, became humanitarian in a week. One morning when his stenographer, Miss Elizabeth, showed him a court summons which had been served upon her, demanding that she pay the sum of $250 forthwith or suffer the entry of judgment for that amount, Jimmy simply radiated consolation. "Who is this Mme. Nellie who is suing you?"

"I never heard of her," was the response.

Jim scanned the papers closely. "Mme. Nellie," he said after he had finished, "seems to be the trade name of a being whose Christian appellation is Michael O'Malley. He says you ordered one blue dress of the value of $250. He swears that you have refused to accept it, and he sues accordingly."

"There must be some mistake. I never ordered a dress one-fourth as expensive as that. Nor have I ever laid eyes on Mme. Nellie."

"Where do you live?" he inquired. Her reply astonished him. "No. — Sixth avenue."

"Is that near Forty-seventh street?"

"It is on the corner. The side street is very fashionable. This summons must be intended for some wealthy woman near by who doesn't pay her bills."

When Jim saw that the papers were signed in the name of the Hon. William Newton, justice, his mind was made up. He told his secretary to have no fear. He was happy to show his appreciation of her faithful and long continued service.

He tried the case himself. His rival sat on his bench and glared savagely at him—at least that is Jimmy's report of the judicial attitude.

As it happened, Mme. Nellie was not present in the courtroom, having been detained elsewhere on jury duty. In his place he sent two of his assistants. One of them took the stand at once—a florid faced lady she was, who confessed amiably that she had been a dressmaker for twenty-one years and was approaching her thirtieth birthday. "It's this way, judge, yer honor," she testified glibly. "Mme. Nellie sent the dress, and she sent it back, saying it didn't fit. I didn't have nothing to do with it, but the lady in our house as did has assured me that it fitted to perfection. Mme. Nellie says Miss Langham should be compelled to pay."

At this point Jim felt called upon to explain matters. "You see," he started to say, "they've got the wrong"—

Judge Newton waved him aside. "The issue in this case is simple. Does the gown fit? That is all. I would like to ask Miss Langham a question or two. Take the stand, miss."

Miss Langham did so.

"What is your name?"

"Elizabeth Langham."

"Where do you live?"

"No. — Sixth avenue."

"You may retire to my private chamber and don the dress. The plaintiff's experts will accompany you."

Miss Langham commenced to weep. "If you please, Judge Newton," she stammered.

"Do as I say," he responded testily. "The court will judge for itself."

Five minutes later Miss Langham re-entered the courtroom clad in the gown under dispute. Mme. Nellie's expert beamed with satisfaction as she addressed the court. "You can see for yourself, judge, yer honor. It fits without a wrinkle."

"I should call that an amazingly good fit," said Judge Newton, frowning, adding by the way of judicial concession, "and mightily becoming. It fits, doesn't it?"

"Y-e-s," said Miss Langham, "but"—

"That's all. Judgment for Mme. Nellie for the full amount."

Once more Jim rose from his chair. "Won't you permit me to say a few words? There has been a mistake."

"There has not, Mr. Carruthers, unless it be your own in endeavoring to defend a case in which the evidence is so palpably in favor of the other side."

On the way back to the office Jim consoled his client. He promised to appeal the case to the highest court in the country.

In his heart he knew that the case of Mme. Nellie versus Miss Elizabeth Langham would never be heard in court again.

* * * * * * * *

When Miss Elizabeth Langham emerged from her coupe at 6 o'clock that evening she found her household in an uproar. Mathilde, her maid, was almost breathless. "If you please, ma'am," she gasped, "there's a man in the parlor—a sheriff or something, and he's been holding the best peachblow vase these two hours. I sent for the police. The police says he can't do nothing. He told the man to wait. There he is now, ma'am, sitting on the best gilt chair, with the vase in his hand, ma'am."

The intruder advanced as Miss Langham entered the parlor. Yes, he was a deputy. There was a judgment against Elizabeth Langham in favor of Mme. Nellie. Didn't she remember the dress she ordered from Mme. Nellie?

"But I sent it back. It did not fit."

"Of course," said he suavely, "that may have been the defense. A judgment is a judgment, however. Will you pay up or shall I make a levy?" he added, casting longing glances at the vase.

"This shall not go unpunished. It is an outrage," said Miss Langham indignantly. "Wait until I ring up my friend, Judge Newton."

"Your friend?" The deputy laughed.

"You will receive instructions from him."

"I have received 'em already. It was Judge Newton that entered the judgment against you. Here are the papers. This is his own writing."

One glance satisfied Miss Langham. She bade Mathilde bring her check book. "I'll pay," she said. "In the meantime you may release that vase. It is hardly a tea store souvenir."

* * * * * * * *

That same evening James Carruthers sat in his den, reading Dante's "Inferno." He had finished "The Sorrows of Werther" the day before. At his elbow, still to be perused, lay "The Joy of Living."

The telephone bell jangled twice, but he did not hear. At the third call he rose from his chair. A moment later the volume went speeding on its way across the room.

This is Jim's end of the conversation that followed:

"Represent you in the matter? Gladly. Paid it, you say? Tried to take—oh, my! Newton? Beastly impudence! Called tonight after all that happened? You treated him right. Yes, d-e-a-r-l-e. In ten minutes."

The next morning Jim informed his stenographer gleefully that the Mme. Nellie matter was settled out of court and that she might retain the dress as a gift. Later he called upon the deputy sheriff.

"I am sorry, counselor," said the official, "that duty compelled me to go against your client. Funny thing how we collected it. I found the defendant resided at — Sixth avenue. I saw it in the court record. She said so. Those are flats and, says I, that judgment ain't no good. Afterward some one rings this office up and tells me the defendant didn't live there at all. Says she was a swell and lived around the corner in Fifty-seventh street. He was right too. She paid up like a lamb. I wonder who it was that tipped us off? We got the money all right. But, say, a guy that'll give away a lady like that is as mean as dirt. Eh, Jim?"

"Well, that depends," replied Jim, "upon the motive."

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Henry Clay as a Twine Splicer.

It has been said that Henry Clay achieved success so easily that he quite misunderstood others and overestimated himself. But he was eager to learn the best way to do whatever he had to do. In "The True Henry Clay" the author gives an instance of this:

At fourteen Henry became clerk in a store in Richmond, whither the family had removed. Stories are told of his willingness to do his duty, although the work was distasteful to him.

Once he was reproved by the storekeeper for wasting too much twine. Thereafter he saved every scrap he could get and tied the pieces together. Again it was explained that using this sort of twine might be offensive to the customers, as it made the packages look untidy by reason of too many knots. So he consulted with a sailor at Richmond, who showed him how to splice strings with a smooth joint.

From that time he spent his leisure hours making short pieces of twine of the same size into a continuous cord. When his employer discovered this he was so much pleased that he had all twine saved and turned the task of splicing it over to young Henry, with the result that the young man's enthusiasm rapidly abated.

Wrestling With the Spaniard.

When Walter Williams, from Columbus, Miss., was in Spain in the summer of 1903 he called upon a provincial editor in the interest of the St. Louis exposition. The next day the paper had the following: "Walter Williams of the United States purchased the state of Louisiana and next year will give a celebration, to which he invites his fellow journalists of Europe." Mr. Williams again called upon the editor and thoroughly explained matters. The editor apologized and printed this correction: "Governor Francis of Missouri has purchased a large tract of land in the Great American desert, and Walter Williams is here to invite the journalists of Spain to a show which the governor will give next year." Mr. Williams fled the place, fearful the editor might explain some more.

Rossetti's Awful Breakfast.

It was at one time arranged that Dante Gabriel Rossetti, his brother William and Swinburne and George Meredith should live together in a certain house. Meredith happened to see Dante Gabriel Rossetti at breakfast and changed his plans. Meredith himself tells the story. "It was past noon," says he. "Rossetti had not yet risen, though it was an exquisite day. On the breakfast table on a huge dish rested five thick slabs of bacon, upon which five rigid eggs had slowly bled to death. Presently Rossetti appeared in his dressing gown, with slippers down at heel, and devoured the dainty repast like an ogre." That meal was too much for Meredith, and he sacrificed three months' rent rather than see it repeated.

He who brings ridicule to bear against truth finds in his hand a blade without a hilt.—Landor.

LIVING TOO HASTILY

AMERICAN WOMEN BREAK DOWN

Irregularities and Female Derangements Result Cured by Lydia E. Pinkham's Vegetable Compound.

Owing to our mode and manner of living, and the nervous haste of every woman to accomplish just so much each day, it is said that there is not

Mrs Chester Curry

one woman in twenty-five but what suffers with some derangement of the female organism, and this is the secret of so many unhappy homes.

No woman can be amiable, light-hearted and happy, a joy to her husband and children, and perform the duties incumbent upon her, when she is suffering with backache, headache, nervousness, sleeplessness, bearing-down pains, displacement of the womb, spinal weakness or ovarian troubles.

Irritability and snappy retorts take the place of pleasantness, and all sunshine is driven out of the home, and lives are wrecked by woman's great enemy—womb trouble.

Read this letter:

Dear Mrs. Pinkham:—

"I was troubled for eight years with irregularities which broke down my health and brought on extreme nervousness and despondency. Lydia E. Pinkham's Vegetable Compound proved to be the only medicine which helped me. Day by day I improved in health while taking it until I was entirely cured. I can attend to my social and household duties and thoroughly enjoy life once more, as Lydia E. Pinkham's Vegetable Compound has made me a well woman, without an ache or a pain."—Mrs. Chester Curry, 42 Saratoga Street, East Boston, Mass.

At the first indication of ill health, painful or irregular menstruation, pain in the side, headache, backache, bearing-down pains, nervousness or "the blues," secure at once a bottle of Lydia E. Pinkham's Vegetable Compound and begin its use.

POISONED.

A Foul Stomach and the Dangers It Will Create.

Irregular appetite, ravenous at one meal and none at the next, faintness and an "all-gone" feeling that eating does not relieve, heaviness and distress after eating, bad taste in the mouth, flatulency, broken sleep, bad dreams, constant fatigue—all those ills indicate a greater ill, a diseased stomach in which the food lies rotting and generating poisons instead of life-giving strength. These poisons enter the blood, and are carried throughout the body, producing rheumatism, gout, sick headache, nervous prostration. For all these there is a cure—a cure that is radical because it strikes the cause of the disease. That cure is Cal-cura Solvent, the new medicine discovered by the well-known Dr. David Kennedy. Cal-cura Solvent first cleanses the stomach of the poisons already there. Then it strengthens the organ so that it does its work and no more poison is generated. At the same time Cal-cura Solvent drives the accumulated poison from the remotest parts of the system, cleanses, tones and strengthens the weakened liver, bladder and kidneys, purifies and enriches the blood, and cures constipation. It is the great cleanser of the internal man, and yet it is not a strong, harsh purgative. Write to the Cal-cura Co., Kennedy Row, Kingston, N. Y., for a free sample and booklet.

PROBATE COURT.

To the heirs at law, next of kin, and all other persons interested in the estate of Amy E. Eaton, late of Monson, in said County, deceased.

Whereas, a certain instrument purporting to be the last will and testament of said deceased has been presented to said Court, for probate, by Lena Eaton and Lydia Eaton, both of said Monson, who prays that letters testamentary may be issued to them, the executrices therein named, without giving a surety on their official bonds:

You are hereby cited to appear at a Probate Court to be held at Holyoke, in said County of Hampden, on the twenty-first day of June, A. D. 1905, at nine o'clock in the forenoon, to show cause, if any you have, why the same should not be granted.

And said petitioners are hereby directed to give public notice thereof, by publishing this citation once in each week, for three successive weeks, in the Palmer Journal, a newspaper published in Palmer, in said County, the last publication to be one day at least, before said Court, and by mailing, postpaid, or delivering a copy of this citation to all known persons interested in the estate seven days at least before said Court.

Witness, CHARLES L. LONG, Esquire, Judge of said Court, this twenty-third day of May in the year of our Lord one thousand nine hundred and five.

HIGH SCHOOL MUST WAIT.

Addition Will Not be Built This Year as Planned.

TO COST MORE THAN WAS EXPECTED.

Town's Debt So Near Legal Limit That Enough for School Cannot be Borrowed.

The town of Palmer will not build an addition to its high school building this year. This decision was reached at a meeting of the school and building committees Tuesday evening. The reason is that the proposed addition will cost more money than the town appropriated at the annual town meeting, and that with its present debt the town cannot borrow the difference between the estimated cost—$20,000—and what it will actually cost to construct the building.

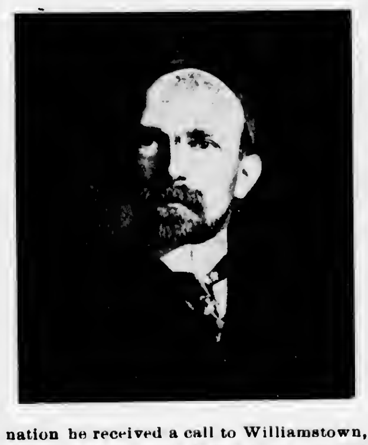
When the town was asked to appropriate $20,000 for an addition to the high school building it was supposed that the proposed addition could be made for that sum. The general plan had been adopted by the town, but the specifications, etc., were not completed. These were gotten out and bids asked for. The lowest bid was over $20,000, and this did not include the heating, furnishing and grading. These will, it is certain, bring the total cost up to between $26,000 and $27,000. Palmer's valuation is $3 257,919, and the debt limit is 3 per cent, or $97,737. The present debt is $79,449, or within $18,288 of the limit. Under these conditions it would be impossible for the town to borrow the $20,000 which it was supposed the building could be built for, but $3,600 of indebtedness will be paid this year, which would give the required margin but not sufficient to make a loan of $26,000 or more possible.

A special town meeting might be called and the money voted, to be paid from the taxes of this year, but it was found that the addition could not be made ready for use before December, and in case the present rooms are not large enough for the classes other quarters would have to be found and fitted up, and it was decided that if this had to be done for a part of the year they might as well continue in use through the school year. With the debt reduced $3 600 this year and as much more next year, there will be no trouble about making a $26,000 loan without exceeding the debt limit, and it was decided better to wait than to call a special town meeting and increase the tax rate of this year.

Ware Minister Resigns.

Rev. A. B. Bassett, who for the past 14 years has been pastor of the East Congregational church in Ware, announced to the trustees and the church committee after the regular weekly prayer meeting in the chapel last evening that he was to resign his pastorate and accept a position offered him by the trustees of the Hartford theological seminary. This news was a complete surprise to all and was generally regretted, as Mr. Bassett has been so long identified with the church and with every public interest in the town that he will be greatly missed.

Rev. Mr. Bassett is a native of New York city. He graduated from Williams College and pursued his studies for the ministry in the Hartford seminary and also in a theological school in Chicago. After his ordination he received a call to Williamstown, and he stayed there 3½ years immediately preceding his call to Ware, in January, 1891, and has made Western Massachusetts his home for the greater part of his life since his school days. He has given lectures on experimental religion at the seminary in Hartford for some time, and he will now continue in this line of teaching, with the rank of professor. He will also act as secretary of the seminary, which will entail considerable work in the way of business management. Mr. Bassett's letter of resignation will be read at the morning service Sunday. He stated last evening that his resignation would take effect, he thought, July 1.



Mr. Bassett has been active in S. B. Bond camp, Sons of Veterans, and in the Men's Study Club. He has been a prominent figure in the Brookfield conference of Congregational churches, in which body every pastorate has changed since he became a member, and also of the Connecticut Valley Congregational Club. Mrs. Bassett has been an active worker in many ways, and both Mr. and Mrs. Bassett have been popular with the young people. They will carry with them the best wishes of the townspeople when they leave for their new home.

"The Earl and the Girl."

At the Boston Theatre, where "The Earl and the Girl" is being presented. The verdict is altogether favorable, and with the spread of the story that "The Earl and the Girl" is the biggest, brightest, breeziest and best of the season's attractions, the attendance at the Boston Theatre has swelled mightily. It is a play brimful of novelty in costume, stage "business," songs, dances and every other departments. The songs are very tuneful, and prettily and cleverly sung. Doubless the most dainty and catchy of all is that sung by Georgia Caine and Victor Morley, with chorus, entitled "Spooning," in which the novel episode of the electrically illuminated swings is introduced. Some twenty girls, half of them dressed as boys, in pajamas, are seated on rustic swings, lowered from the flies, and swayed back and forth across the footlights, far out over the heads of the audience. Other particularly popular songs in "The Earl and the Girl" are Alexander Clarke's topical number, "If It's Good Enough For Rector," and "The Grenadiers."

Over 100 large trout, weighing a pound each and upward, were put in Forest Lake a few days ago. The fishing season will open there to-morrow, and fishing with hand line only will be permissible on Mondays, Wednesdays and Saturdays until October 1st.

NEW ENGLAND PROSPERING

And Yet Unchanged From Colonial Days.

New England history, thrift and progress, commenced when the Pilgrims landed at Plymouth in 1620. They worked untiringly and unceasingly for the establishment of commercial centres and industrial markets; and the present flourishing manufacturing and commercial activity of the Hub shows how well they succeeded. But Nature appeared on the scene long before our early progenitors and shaped the bays and shore line; piled up the mountains and artistically laid out the lake and valley lands. The "Crystal Hills" long, long years ago were the sacred haunt of the red men's Manitou, the lakes and rivers, the aborigines' fishing grounds, and the magnificent sea coast was their haven of rest. Then the "pale face" came, and afterwards was the advent of the railroad.

Busy marts, high mountains, lake and inland sections and the entire sea coast were all linked by the great steam railroad. Climatic conditions have not changed, nothing new, except the opportunity to get there, and what additional charms hotel men and landscape artists have added.

Summer is the vacation season, New England the vacation land, and the Boston & Maine Railroad the vacation road. You don't know New England unless you know her resorts; and the Boston & Maine General Passenger Department, Boston, has just published a beautiful book of 90 pages telling all about New England resorts, how to get there, where to stop and what it costs. Send your address, the book is free for the asking.

Ware Boy Drowned While Bathing.

Arthur, the 16-years-old son of Mr. and Mrs. Nelson Tessier of Ware, was drowned in the Otis Company's canal in Ware about 7 o'clock Tuesday evening.

In company with another boy, Tessier had gone in swimming from the west bank of the Ware river, and in the canal above the gate of the upper dam he was stricken, it is supposed, with cramps, and sank in about 12 feet of water, within a rod of the gate. He was seen struggling to save himself by boys on the bank, who gave the alarm. Several men rushed to the place and with the aid of long poles and hooks, recovered the body in a short time. Dr. W. W. Miner, medical examiner, was called, and made a strong effort to bring the boy back to life, but the body had been too long in the water for the effort to resuscitate the boy to have any result. Dr. Miner pronounced death due to accidental drowning.

Ludlow Couple Celebrate Silver Wedding.

Mr. and Mrs. Frank Bennett were pleasantly surprised at their home in Ludlow Center Tuesday evening, by a party of their friends, the occasion being the 25th anniversary of their marriage. Among those present were friends from South Hadley, Southampton, Belchertown, Wilbraham, North Prescott, Wendell and Springfield. Mr. and Mrs. Bennett were the recipients of a number of gifts. Refreshments were served during the evening.

Mr. Bennett has been on the registration board in the town for a number of years, and last year was reëlected for his third term as assessor. He has been prominent in Grange affairs, having been master of both the local and the Pomona Granges. He has been superintendent of the Methodist Sunday school for a number of years. Mrs. Ida Groves Bennett is the daughter of Rev. William Groves of North Prescott.

House Burned in Three Rivers.

The house owned by Mrs. Joseph Garverek on the Palmer road in Three Rivers was burned Tuesday morning. Mrs. Garverek arose about 3 o'clock to do her washing and about an hour later the blaze was discovered, but it had gained too much headway to save the building. The fire department of the Palmer mill was called out, but they could do nothing but protect the surrounding buildings. The cause of the fire is unknown, but it is supposed to have been caused by a defective chimney. The loss is estimated at $1000 on the building and $500 on the contents. The latter were insured in the Warriner agency for $300, and the building for $1000 through the Dillon agency in Palmer. By a strange coincidence the fire occurred on the anniversary of the fire which destroyed several dwellings in Three Rivers in 1903.

HAMPDEN.

Miss Addie Davis of Northampton was in town Monday, calling on friends.

The Congregational Society is making extensive repairs on their parsonage.

Mr. and Mrs. Edward Thomas and daughter of Chicopee are guests of Mrs. Annie Leonard.

The Ladies' Aid Society of the M. E. church are having their parsonage shingled, F. E. Kenworthy, mail carrier, is to occupy the place.

Harry Stoddard, president of the Trenton Wire Co. of Trenton, N. J., delivered an address Sunday evening on "True Patriotism" at the Baptist church, of which his father, Rev. Darius Stoddard, is pastor. It was a fine address and much appreciated.

NORTH WILBRAHAM.

Mr. and Mrs. Homer Tupper of Warren spent Sunday with his parents, Mr. and Mrs. George Tupper on the mountain.

Miss Gertrude Chase and Misses Minnie and Effie Morgan spent Tuesday at the home of Mr. and Mrs. Homer Tupper in Warren.

Miss Stella N. Greene of Westfield Normal School spent the first of the week at the home of her parents, Mr. and Mrs. Benjamin F. Greene on the mountain.

Miss Ethel Mowry entertained a party of 23 of the class of 1905 at Wesleyan Academy, of which she is a member, Monday evening at her home in North Wilbraham. They were accompanied by Miss Wythe, preceptress at Wesleyan Academy. Both vocal and instrumental music was enjoyed during the evening, and refreshments were served. Walter J. Madison of Springfield took flashlight pictures of the class.

WILBRAHAM.

A. H. Kirkland of Boston was the guest over Sunday of Mr. and Mrs. J. L. Rice.

Raymond Gurney, who is attending school in Worcester, spent Sunday at home.

Mr. and Mrs. Jerome Pease have returned from a two-weeks' visit with their daughter, Mrs. Charles Hibbard in Somersville, Ct.

The Memorial services were largely attended Sunday morning at the First Congregational church, when Rev. M. S. Howard delivered the address. At the Methodist church Tuesday Rev. Vernon H. Deming of North Wilbraham gave an address. The veterans, escorted by the Wilbraham drum corps and the Boys' Brigade, decorated the soldiers' graves at Woodlawn Dell and Adams cemeteries after the exercises.

Rev. Jacob B. Davis, 74, died Monday evening at the home of his son, Prof. Herbert B. Davis in Wilbraham, after a long illness. Mr. Davis was born in Nottingham, N. H., and had a long career of usefulness among the Free Baptist churches. He is survived by a widow and one son. The funeral was held yesterday morning at the home of his son, Rev. D. W. C. Durgin of Springfield officiating, and burial was in Bristol, N. H.

FOR OUR SOLDIER DEAD.

Graves Strewn With Flowers After Usual Custom.

FINE ADDRESS IN MEMORIAL HALL.

Citizens Assist G. A. R. Post in the Services. Special Exercises Sunday.

Another Memorial Day with its memories and flowers, its music and parades, its gatherings and addresses in commemoration of the departed soldiers and of the deeds performed by them and by those who are still with us, has come and gone. In Palmer the day was observed in much the usual manner. The majority of the business places were closed all day, and the rest closed at noon. Throughout the village large numbers of flags were displayed, there being few houses or business places where one or more were not visible.

The exercises of Memorial Day really began Sunday afternoon at 3 o'clock, when a delegation from the G. A. R. post and the Woman's Relief Corps, accompanied by the Sunday school children, marched to the Commercial street bridge over the Quaboag river, where, after singing, flowers were strewn on the water in memory of the members of the navy who had died at sea. At 5 o'clock a special service was held in the Congregational church, which was attended by the three orders, the pastor, Rev. M. O. Patton, preaching a special sermon. A delegation of the Sons of Veterans took the 2 o'clock car to East Wilbraham, where memorial services were held. There was singing by a quartet composed of Messrs. Alden, Shaw and Alden of Belchertown and Graves of Wilbraham, and an address by F. W. Cross of Palmer, after which the graves in the cemetery were decorated.

Commander D. J. Mahoney

Tuesday morning dawned cloudy and threatening after a rain during the night. The threatening rain was not forthcoming however, and along toward noon the sun came out warm and the day was all that could be desired, the rain of the night before laying the dust and making marching not the disagreeable item which it sometimes is. At 8.30 the procession left Memorial Hall, with the Thorndike band in the lead and the G. A. R. post being escorted by the Sons of Veterans, and accompanied by invited guests. The post numbers were notably less than in former years, but there was a gratifying number of citizens who responded to the invitation to accompany and take part in the services. The line of march was through Main street to Thorndike, where special electrics were taken for Three Rivers. Here the company formed in line and marched to and around the common; returning, the cars were taken again to the small old cemetery in Three Rivers, where a delegation decorated the several graves of comrades and Rev. Charles Olmstead offered prayer. The cemetery at Four Corners was next visited, and prayer was offered here by Rev. Mr. Beeman of Bondsville. The company marched through Thorndike and then took the cars to the St. Thomas cemetery, where a delegation placed flowers on the graves of comrades buried there. The last place was the Thorndike street cemetery in Palmer, and there a large number of the townspeople had gathered to witness the solemn and impressive ceremony. Prayer was offered by Rev. W. A. Moore of Palmer, and after the graves had been decorated there were recitations by Irving Shaw and Miss Florence Heenehan of the high school, and singing by the high school chorus, after which came the ceremony of decoration "To the unknown dead."

The line of march was formed once more and the procession proceeded to Memorial Hall, where the Woman's Relief Corps served a bountiful and appetizing dinner to all. At 2 o'clock came the exercises in the hall, which consisted of a selection by the band, the G. A. R. ritual, duet by Messrs. Moore and Adams, recitation by Winfield Greene, quartet, Messrs. Moore, Adams, Taylor and Summers, followed by the address of the day by Rev. E. A. Thomas, formerly of Three Rivers. Mr. Thomas's address was thoughtful and inspiring, and was listened to with marked attention by the audience. Following this came a poem recited by Miss Josephine Mahoney and the singing of "America" by the audience.

New Church in Ludlow Opened.

The new St. John the Baptist church in Ludlow was opened Sunday morning, masses being said for the first time at 8 30 and 10 30. Vesper services were held at 6 30. It is thought that fully 2000 people attended the services during the day.

About two years ago the French-speaking people of Ludlow decided that they wanted a church nearer to their homes, it being necessary at that time for them to go to Indian Orchard to worship, nearly two miles away for most of them and a mile for some. A committee was appointed to confer with the bishop regarding the matter and the statistics presented showed the plan to be desirable and in January, 1904, Rev. M. A. Desrochers was assigned to the new parish. As there was no hall in town large enough to hold the congregation, the No. 5 mill was secured and the old grocery store vacated by F. A. Towne was remodeled and both places used for worship, the mill on Sundays and the chapel during the week.

The new church is of brick with brownstone trimmings, and the interior finish is of ash. It is 131 feet long and 50 feet wide and will seat 674 in the auditorium and 50 in the gallery. The interior is in the form of a cross with a deep chancel and a vestry in the rear and a small room, 22x28 feet, which will be used for some services. Rows of colonnades are on each side with a low-arched ceiling, there being a lofty arched ceiling in the central nave and the transepts. The interior decorating is decidedly artistic, the side walls being of a tan shade and the ceiling pale green.

Our Legislative Letter

BOSTON, MAY 29, 1905.

Among the matters worth mention in the wind-up of the Legislature is the bill for the prevention of wagering contracts, or stock-gambling, as the common expression has it. Mr. Skerrett of Worcester was a specialist in this line, but it is not of prime importance who put in the basis of the bill which was finally reported. Suffice it to say that the bill came into the House from the judiciary committee, well adapted to close up the business of the immoral bucket shops. But when it became evident that this was going to pass the House, Mr. Taft of Worcester thought he saw no reason why the same operations as were to be prevented in bucket shops should not be prevented in the orthodox Boston stock exchange also. So he put in a bill to cover that point. The friends of the stock exchange did their best to beat it in the House, but it was carried by a large majority. The Senate, however, refused to admit it. Then a conference committee was appointed, with Mr. Taft of Worcester the chairman of the House end of the committee. For days nothing was done and it became a question whether the bill had not been lost in the shuffle. But finally Mr. Taft emerged from the session of the committee radiant. For the first time in the session, he said, the Senate had voted, by its committee, to recede, and the House had won. But he was too previous, for when the report of the committee, which was unanimous that the Senate ought to recede, came up, the Senate refused to accept the report and refused to ask for the appointment of another conference committee. Therefore this meant that the friends of the stock exchange had lobbied the Senate successfully, and the entire bill failed. Bucket shops and orthodox gamblers alike have full liberty to continue as hitherto, and it is not the fault of the House either.

One of the last bills to be enacted was the state tax bill for $4,000,000 It is the largest since 1865, but it has the approval of the ways and means committees of the Senate and House, unanimously, of Treasurer Chapin and of the governor. But it does not have the approval of Auditor Turner. The radical difference between Turner and Chairman Ward of the House ways and means committee was that the auditor wished to use the Cotton money for the relief of present taxation as far as it would go. But the Legislature, treasurer and governor took the ground that it was the better business policy to have this windfall relieve the situation every year during the entire period for which the loans are running which are to be paid by the sinking funds into which the money has been put. One of the men in Turner's office, in reply to the statement that it would be playing politics to do what Turner wanted done, said that there had not been a state tax bill for 20 years which was not a political bill, which means that it has been kept down as much as skillful figuring would make it in order not to hurt the administration which was running for reelection,—and the statement would cover both Republican and Democratic administrations. However, the business men beat the political argument. Chairman Ward says that certain things which have hitherto gone into loan bills, but should have been met from current taxes, such as furnishings for state institutions, have been put into the tax bill this year, and that is one reason why the total is so high. But it will save paying the money afterward. The money from the Cotton fund was used promptly in buying bonds and setting them at work earning interest for the sinking funds. The lightening of expenses in that direction will now be felt for more than 20 years to come. It will tend to raise the question why we should have any more political state tax bills. Treasurer Chapin made a good impression when he said he should not reply to Turner's complaint, but stick to his recommendation for a $4,000,000 tax.

The Legislature was prorogued leaving more important business in sight for the following session than usually happens. The previous year but little was in sight. This year, first of all stands out the coming contest over the control of our transportation system, and it will be a battle royal, unless the contesting parties get together during the recess and combine to make common prey of the public. Shall the steam railroads absorb the electric roads so that all transportation shall be controlled by a few heads. Or shall the electric roads continue to rival the steam roads, giving the public the benefit of competition? The fate of the competition between gas and electric light may foreshadow the outcome of this contest, and as the lighting business has fallen into the hands of one set of managers, so the transportation business may, and the people will lose the benefit of all competition. Shall the electric roads be given the right of eminent domain? That was one of the great questions involved in the fight which has been postponed. Following the example of the road between Boston and Worcester comes the construction of the line from Boston to Lowell, which the Boston and Maine has been fighting for two years, and now comes the project for a through line by trolley between Boston and Providence. Great issues are involved. The revision of the railroad and railway laws has been referred to a recess committee, and the noticeable fact about the 11 House members of that committee is that not one of them voted against the famous merger bill, so-called, which permitted the New York, New Haven and Hartford railroad company to absorb the electric lines of the state. It would seem as if the side of the general public should have had some representation on that committee, even if the speaker did not feel like putting on Mr. Luce of Somerville, who led the fight for the people against the corporations. Thus the committee stands somewhat discredited from the state because it is one-sided, though the members personally are honest and able.

In view of the decision of Gov. Douglas not to run again, it is timely to note that the session has not developed any reason why he should not continue in office. Republicans have had a majority in both branches so overwhelming as to make it useless for the Democrats to have any aggressive legislative policy of their own. Yet the Republicans have no censorious words for the governor. They have been in constant touch with him all through the session. He has let them know what he wanted. They have recognized the reasonableness of his position. They have worked in harmony, and there has been no more partisanship than there would have been if Gov. Bates had served his third term. It has not been because of his Democratic quality that the governor has found public life not wholly to his taste. The Democratic points which he made in his message were turned down by the Republican Legislature and not a ruffle was created. He

CARPENTERS QUIT WORK.

Foreman Ordered Off Burns Hotel and Takes Men With Him.

The carpenter work on the new Burns hotel block on Main street is temporarily embarrassed through the action of the owners this morning, when they dispensed with the services of the foreman on the job, C. G. Thomas. The work has been done by the day, with Mr. Thomas in charge. According to the statement of the Messrs. Burns they had occasion yesterday to criticize the manner in which some of the work was being done, and finally told Mr. Thomas that they would not require his services any longer, ordering him off. He refused to go and this morning continued at work until legal papers were served on him compelling him to leave the premises. He had twelve carpenters at work, and when he left eight of them went with him, leaving four at work. The masons, who are just now plastering the building, are still at work. Mr. Thomas's statement of the matter is that the work which was criticised was necessary because of a change made in the plans after the building was up and enclosed, and thinks that the men now at work will "take a rest" after this week.

Former Palmer Man's Disappearance.

There are many Palmer people who will be interested in the final solution of the mystery which surrounds the disappearance of Lawson H. Southwick of New York city. Mr. Southwick was last seen in Geneva, N. Y., May 4, and since then no trace of him has been found. He is a brother of Mrs. G. F. Sedgwick of Palmer, which is his native place. He moved to New York many years ago, but has frequently visited here. Mr. Southwick owned a hotel in Long Point, on Seneca Lake, which has been closed for 13 years, and he recently sold the furniture. He went to Long Point on a business trip and also to superintend the shipping of the furniture. On May 4, after finishing his work, he secured a rowboat for the purpose of rowing *to Dresden to visit a friend. A caretaker in his hotel states that* Mr. Southwick started in a boat for Dresden. Since that time he has never been seen. The first theory was that Mr. Southwick had been drowned, but it was learned later that he had with him in the boat an overcoat, a grip and a crate of apples, and as neither the boat nor any of its contents have since been seen, the police doubt that it is a case of accidental drowning. Mr. Southwick's son, who has been working with the police upon the case, believes that his father has been murdered, probably by an enemy, as robbery is improbable. Mr. Southwick was known to have in his possession the check received in payment for the furniture, but very little money.

House and Barn Burned.

A story-and-a-half house at Palmer Center, owned and occupied by Peter Nevue, was burned about 8.30 this morning, together with the greater portion of the contents of both. The fire was first discovered by smoke coming out around the chimney in the kitchen, and is supposed to have caught from the chimney. The house was connected with the barn by an ell, and the doors in this were open, through which the draft took the fire at once to the barn. Some of the furniture in the house was saved, but not a large amount. A horse which was in the barn was taken out, but a number of hens were burned, and possibly some pigs, i[illegible] impossible at present to make a complete inventory of what was saved. The loss is $2500, with insurance of $1900 through the Dillon agency. The fire department was called out, but could do nothing in the way of saving property, as there is no water supply there.

A big sacrifice sale is on this week at the store of D. L. Bodfish, where the entire stock is being offered at greatly reduced prices. The sale is in charge of the Manhattan Company, and will continue 13 days from yesterday. Features of the sale are hour bargain sales, and penny sales, which are held daily. Crowds have been in attendance since the opening at 9 o'clock yesterday morning, but the large stock of goods which Mr. Bodfish carries affords ample opportunity for many bargains during every day of the sale.

An item in one of the Worcester papers of Wednesday announced the death in Old Orchard, Me., of a woman whom it was claimed was the wife of Rev. A. W. Weeks of Worcester. As Mrs. Weeks resided in Palmer before and after her marriage there was naturally much speculation as to the truth of the statement and the circumstances surrounding the matter. Yesterday announcement was made that the woman was not the wife of Rev. Mr. Weeks, but the wife of a traveling man of the same name, the initials being W. E.

One of the best entertainments of the season was the presentation in the opera house Wednesday evening by local talent of the four-act drama, "Valley Farm," under the auspices of the Woman's Relief Corps. There are usually one or two "sticks" in any company, amateur or professional, but there was an exception Wednesday evening, every player seemingly being made for the part, and all interpreting them unusually well. Those taking part were Albert Remington, David Brown, William Barrett, Charles Doherty, Rufus S. Parkhurst, J. Clifford Shaw, Miss Mabel Lyman, Miss Alice Oakes, Miss Belle Colgrove, Mrs. Minnie Andrews and Mrs. Lillian Parkhurst.

Academy Notes.

School remained closed Tuesday, Memorial Day.

Prof. Butterworth spent Sunday with friends in Boston.

Chapin, '08, has returned from a short stay in Springfield.

Miss Nye, '06, spent Memorial Day with friends at Stafford Springs, Ct.

The senior class had their group picture taken Monday afternoon by Bosworth of Springfield.

Miss Alicia Gough, '05, was pleasantly surprised by a number of her classmates at her home on Granite street last evening.

The "Mock Trial," given by the members of the athletic association, was successfully carried out Monday evening, and enjoyed by the small audience present.

Arthur Paige, '08, formerly left fielder on the Academy team, played with the Hardwick town team Tuesday afternoon. Paige is a Hardwick boy, and his playing was one of the features of the game. In the field he handled six chances without an error, while at bat he contributed three hits.

The class of 1906 held a business meeting yesterday afternoon at 4. The following officers were elected: President, Anna Hannigan; vice president, Miss Clark; secretary, Miss Carew: treasurer, Purinton. The class elected a committee of four to make preparations for the selection of a class motto. The committee is comprised of the following: Miss Connell, Miss Horton, Hynes, Hanley.

The baseball team will play Stafford high at Stafford Springs, Ct , to-morrow afternoon. The two teams met on Flynt Park Memorial Day, the result being a tie at the end of eleven innings, but the Academy team feel confident that they will turn the tide in their favor to-morrow. Stafford found Rourke, the Academy's star pitcher, for only four safe drives, while the Academy team got eight safe whacks off Converse.

Keep—Hood.

A pretty wedding took place in the Congregational church yesterday afternoon at 3 30, when Mary Esther, daughter of Mrs. Mary Keep of Coburn Hill, and Edmond Tune Hood of Gloversville, N. Y., were united in marriage by Rev. N. M. Pratt. Miss Lucy B. Woodward of Hartford, Ct., who presided at the organ, gave a half hour's recital previous to the ceremony, and Mrs. A. D. Norcross sang "Annie Laurie." At the entrance of the bridal party the wedding march from "Lohengrin" was rendered and for retiring the Mendelssohn wedding march.

The maid of honor was Miss Lillian G. Duncan of Norwood, and the bridesmaids were Miss Maud L. Underwood of Worcester and Miss Ethel E. Newton. The best man was Harvey K. Bradlee of New York. The ushers were Thaddeus L. Cushman, Harry T. Bradway, Alva M. Walker and Eugene R. Cooke. The bride's dress was white silk trimmed with lace and she wore a veil caught up with lillies of the valley, and carried a bouquet. The maid of honor wore a dress of white silk crepe and carried pink roses tied with pink ribbon. The bridemaids wore dresses of white silk crepe and carried pink carnations. The Episcopal single ring service was used. The bride's gift to the maid of honor and the bridesmaids were gold signet hat pins and the groom's gift to the best man a pair of cuff buttons and to the ushers stick pins.

The decorations at the church were under the direction of Miss Alice A. Morris and W. H. Pease and were very pretty, the altar being banked with birch, hawthorn and apple blossoms. A reception was held at the bride's home after the ceremony. Mr. and Mrs. Hood left during the afternoon on their wedding trip after which they will reside in Gloversville, N. Y.

Memorial Day Observances.

Memorial Day in Monson was a quiet day. The Memorial exercises were carried out practically as planned. In the morning delegations decorated the graves on Moulton Hill and in the Catholic cemeteries. At 2 o'clock services were held in Memorial Hall, and although very interesting were poorly attended. The speaker was Rev. Alfred Noon of Everett. Music was furnished by the Miller quartet of Ludlow. Prayer was offered by Rev. N. M. Pratt and the benediction pronounced by Rev. A. B. Gifford. After the speaking the post, Sons of Veterans and Boys' Brigade went to the No. 1 cemetery, riding as far as the arch in a special car, and decorated the 68 graves there. The return was made to the hall in the special car, where lunch was served in Grand Army hall by the Relief Corps.

In the morning about 200 went to Stafford to attend the ball game and in the afternoon a large number attended the ball game on Flynt Park and witnessed an exciting 12-inning game between the Stafford and Monson teams. In the evening a large number went to Forest Lake. The miills, straw shops, bank and schools were closed all day, and the stores with a few exceptions closed at 10 o'clock in the morning.

The Sunday school organized last Sunday with the following officers: Superintendent, George H. Davis; assistant superintendent, Mr. Waterman; secretary, Mrs. W. F. Jewett; treasurer, Mr. Stacy.

An alarm of fire was rung in from Box 24 at the corner of Pleasant street and Flynt avenue about 1 o'clock Wednesday morning, the fire being in an outbuilding at one of F. F. Maguire's tenement houses on Mill street, occupied by Charles Johnson. The building was nearly burned before it was discovered and by the time the department arrived the nearby buildings were out of danger. The hose was turned on the embers so that there would be no further danger. The damage is very slight.

Mrs. Mary E., 44, wife of Peter J. Ward, died Wednesday morning at their home at 101 Quincy street, Springfield. Mrs. Ward moved several years ago to Springfield, where her husband was employed. She leaves besides her husband, one son, John Ward, a mother, Mrs. Ellen Parker, and four sisters, Hannah, Elizabeth, Nellie and Sadie of this town and one brother, Robert Parker of Tilton, N. H. The funeral was held at St. Michael's cathedral in Springfield this morning at 10 o'clock and burial was in the Catholic cemetery in Monson. Mrs. Ward lived in this town on South Main street for many years and had a wide circle of friends.

Edward G. Smith, 75, an old and respected citizen of this town, died yesterday morning in the Springfield hospital, where he had been for treatment. Crowds Going to the Circus.

Intense interest has been aroused by the announcement that Ringling Brothers' immense circus is to exhibit in Springfield next Monday. Those who go from here should make every effort to arrive in time to see the magnificent new free street parade, which is given in the morning preceding the opening performance. Three miles of parade glories are divided into thirty sections and each section is a show in itself—a parade such as the world has never seen before. In this wonderful display are shown 100 beautiful dens, lairs and cages of rare animals, a herd of forty big and little elephants, 650 horses, and 1280 people. One section of the procession is devoted to magnificent and costly floats, representing Germany, Russia, England, France, India, Persia, Scotland, the United States, and other countries. The performance that follows, and which includes the superb spectacular production of The Field of the Cloth of Gold, is the most magnificent display arenic wonders ever presented by any amusement enterprise in America. The menagerie is filled to overflowing with rare beasts and birds, including the only baby elephant bred and successfully raised in the United States, the only rhinoceros in captivity and the last living pair of giraffes.

Any small boy in his first pair of trousers feels sorry for his mother.—Chicago News.

CARD—The members of L. L. Merrick, Woman's Relief Corps, desire in this manner to thank all who in any way assisted them in their part of the observance of Memorial Day, either with flowers or with the dinner to the Post and guests.

Just What Everyone Should Do.

Mr. J. T. Barber of Irwinville, Ga., always keeps a bottle of Chamberlain's Colic, Cholera and Diarrhœa Remedy at hand ready for instant use. Attacks of colic, cholera morbus and diarrhœa come on so suddenly that there is no time to hunt a doctor or go to the store for medicine. Mr. Barber says: "I have tried Chamberlain's Colic, Cholera and Diarrhœa Remedy which is one of the best medicines I ever saw. I keep a bottle of it in my room as I have had several attacks of colic and it has proved to be the best medicine I ever used." Sold by the Quimby Pharmacy, Palmer.

Mrs. J. M. Barton, of the boarding house at 10 South Main street, says:—"I have as great faith in Doan's Kidney Pills to-day as I had three years ago when I procured them from LeGro's drug store and took a course of the treatment. Before I used them I had been troubled with a pain through my loins and kidneys. Going up or down stairs hurt me and made my back feel lame and sore. If I even sat in one position for any length of time my back ached badly. I commenced the use of Doan's Kidney Pills and they relieved me entirely of the trouble. I always recommend them to my friends. My husband has used Doan's Ointment and thinks it is a fine remedy. It almost instantly relieves any itchiness of the skin. Doan's Ointment and Doan's Kidney Pills do all that is claimed for them."

The Antalgica

Or Vegetable Pain Reliever

was introduced to the public in 1848, since which time thousands of bottles have been sold each year to an appreciative public, which is a good evidence of its merits. It is adapted to so many ailments it should be in every household, for it cures all kinds of pains both internal and external. For Bronchial affections it is unrivaled by any article in the market. It is a sure cure for Cholera Morbus and Dysentery, if taken in season, also for Coughs. It is an effective remedy for rheumatic affections, stiff joints, swelled limbs, sprains, cramps, tooth ache and many other ills to which the flesh is heir. Try it and it will do you good. It is sold at 25c, 50c and $1.00 per bottle by The Quimby Pharmacy, LeGro's Drug Store and the proprietor,

Here's a summer story that has a point which everyone can appreciate just now: One broiling day Uncle Zeke, an aged "cullud gemman," who was pushing a harrow of bricks, paused to dash the sweat from his dusky brow; then shaking his fist at the sun, he apostrophized it thus: "Fo' the Lawd's sake, war woz yo' last Janooary?"

"What do you hear from Hiram?" said Mrs. Sunnp to her neighbor over the back fence, at South Paris, Me. "How's he doin' at college?" "I ain't heard nothin' direct," was the reply, "but it come to me in a round-about sort o' way thet he is sowin' a good deal of wild oats." "What air ye goin' ter do?" "Hev him come home. I wrote 'im to-day that if he was so dead sot on agriculture he might ez well stick to the farm."

Some years ago one man bet another that he could not move an ordinary brick tied to the end of a cord two or three miles long. A straight and level road just outside Chichester, N. Y., was selected for the trial; the brick was not moved, and the man lost his bet for a large amount. It was stated by someone present that the brick, although weighing only seven pounds, would from a distance of two or three miles represent a dead weight of nearly a ton.

In a down-town church, as the Philadelphia Press tells the story, there was introduced a new hymn last Sunday, and, after the dismissal of the services, the organ blower found his way to the player's bench and asked in a meek voice:—"How did the music for that new hymn go this morning?" "Oh, very well, very well, indeed," replied the organist, "but why do you ask?" "Well," said the blower, "I'll tell you the truth. I was a bit nervous and a bit worried about it, for you see," he went on explaining, "I never blowed for that hymn before."

PALMER WINS FIRST GAME.

Does Up Indian Orchards—First Time This Season For Latter Team.

The Palmer baseball team opened the season Tuesday by administering a substantial drubbing to the strong Indian Orchard team, which has been playing several weeks and had not been defeated until Palmer did the trick. The score was six to one. The Palmers, although they had not played together or even practiced together before the game, played a snappy game and came well up to the expectations of the managers of the association which is responsible for the sport in Palmer. The Palmer team showed up unusually well, and with one or two slight changes should prove one of the strongest amateur teams in this section. The feature of the game on Tuesday was the entire absence of any wrangling or any disturbing element whatever. It was good, clean baseball, and the 500 or 600 people on the grounds seemed to enjoy every minute of it. The score:

Monson 5, Springfield Athletics 1.

The Monson baseball team defeated the Springfield Athletics on Flynt Park in Monson Saturday afternoon, 5 to 1. The visitors were outplayed at every point, but the game was very good notwithstanding that fact. Townsend caught for the Athletics in the last inning but had no chance to distinguish himself. There was a fair attendance. The score:

The Game at Monson.

The Monson Academy ball team played a 11-inning game with the Stafford high school team on Flynt Park in Monson Tuesday afternoon. The score at the close of the 11th inning was 3 to 3 and the game had to be declared off and left a tie as the grounds had to be taken for the regular game called at 4 o'clock The game was a pitchers' battle, Rourke for the home team striking out 12 men and allowing but four scratch hits. Converse for the Stafford team kept his eight hits well scattered. The score:

Monson 4, Stafford 2.

The Monson baseball team went to Stafford Tuesday morning and played their first game of the season with the Stafford team, defeating them 4 to 2. The game was won on errors, nearly every one of them letting in a run. Cartmill pitched an excellent game as did Collins for the Stafford team. The Monson team was accompanied by about 200 rooters, who went on the special train and in teams. The score:

Stafford 11, Monson 10.

The tables were turned in the second game Tuesday between the Monson and Stafford ball teams, the game being played in Flynt Park in Monson, and the visitors winning in a hard fought game, although not until the close of the 12th inning could the victory be claimed by the Stafford team. The final score was 11 to 10. In the first and fourth innings Monson batted Brouke, the South Manchester pitcher, so freely that he was taken out of the box and Collins, who pitched in the morning game, was substituted. After he was put in Monson made but two runs, one each in the 5th and 11th. Cartmill, who pitched in the morning game, pitched seven innings in the afternoon, when Smith was put in, in his place, which proved costly, as he was hit badly, especially in the 8th. The feature of the game was the heavy batting of both teams. The score:

Palmer Juniors Do Up Warren High.

For eight innings at West Brookfield Tuesday it looked dark for the Palmer Juniors, but in the eighth, with the score 6 to 2 against them they batted in six runs and won the game. The "16-years-old wonder" who did the twirling for Warren proved to be 19, but Todd put him to the woods, getting more strikeouts and allowing less bases on balls. The score:

Invincibles 24, Crescents 14.

The North Wilbraham Invincibles defeated the strong Crescent team of Springfield Tuesday by a score of 24 to 14. The game was played at North Wilbraham before the largest crowd of the season. This is the first defeat the Springfield team has met with this season. The batting of the North Wilbraham team was the feature of the game. Haley of the Springfield team was knocked out of the box in the fourth inning and Morrison, who succeeded him, was hit hard. J. Carney pitched an excellent game for Wilbraham. Both teams meet again at Springfield June 17. The score by innings:

Notes.

Todd claims the title of "16-years-old-wonder."

It is probable that Barker will hold down third bag for the Juniors in the future.

The Three Rivers team will play in Chicopee Falls to-morrow afternoon.

Capt. Brierly of the Crescents is out of the game with a sprained wrist. Wilder will take his place.

So far the Palmer Juniors have played seven games and lost but two, one to Ware High and one to Wesleyan Academy. They have games coming with the Academy team of Brimfield, Stafford High, Bondsville, Three Rivers, Thorndike, Brookfield and others.

Palmer plays against Ludlow on the Palmer grounds to-morrow afternoon. The game will be 3.30 with 25 cents admission except for ladies, these being admitted for 10 cents. The Ludlows have been playing good ball, and the game will undoubtedly be worth seeing.

GOLF.

Golf at Ware.

The men's handicap cup contest on the Ware golf course Tuesday resulted in the following scores:

	Gross.	H'cap.	Net.
A. B. Howard,	108	44	64
James Dugan,	129	60	69
C. W. Booth,	87	14	73

E. G. Haley,	123	46	77
Carl Marsh,	110	26	84
David Woolley,	119	32	87

By winning yesterday Mr. Howard scored a second time for possession of the silver cup, he having won last year. It will be necessary for him to win again to take the cup. In the afternoon at 3 o'clock a mixed four-some was played, with the following scores:

C. W. Booth and Miss Marion Davis,	57
James Dugan and Miss Elizabeth Moran,	65
R. C. Snow and Mrs. C. W. Booth,	67
E. E. Barbier and Miss Florence Snow,	68
Francis Ryan and Miss Katherine Kelley,	69
A. B. Howard and Miss Edith Sibley,	70
J. G. Lincoln and Miss Ida Needham,	71
David Woolley and Mrs. J. G. Lincoln,	75

The prizes awarded Mr. Booth and Miss Davis were a jardiniere and fern dish filled with ferns. During the afternoon the house committee served lunch, and several members with guests were present besides those who played.

OUR LEGISLATIVE LETTER.

[CONTINUED FROM FIRST PAGE.]

urged action in the line of an industrial commission. He let it be known that he favored reciprocity with Canada and with other nations. But his position did not carry conviction to the minds of the Republicans. It is not easy to see that the tariff situation has been changed by developments since Douglas' election. It was the demonstration in the votes last November which unsettled the Republicans rather than anything which has occurred during the session, and what Gov. Douglas has done since his election has not been of a nature to affect the coming campaign. The resolution for reciprocity which the committee on federal relations reported was a mere straddle, such as both sides could support. It did not change the situation a hair. The governor will retire with the credit of a first class administration, criticised only by the office-hunters whom he did not please, and commended by the great majority of people.

Without any doubt, it is an immense relief to the Republican managers to have Gov. Douglas decline to run again. Beyond any question it increases greatly the doubt whether the Democrats will be able to elect their candidate for governor this year. Lieut. Gov. Guild is so surely slated for the Republican nomination that no other candidate is in sight and none is to be expected. The Democrats are considering Gaston, Hamlin and Thayer. At first thought it seems as if Thayer were the strongest. Guild has always run several thousands behind on the state ticket. Will he solidify the Republican vote, or will Thayer be able to capture as many as Douglas did? The Republican state machine has been working for weeks in a regular campaign to get out the party vote, satisfied that if the Republicans would only come out, their victory was sure. But that is still a question. Some Republicans will not vote for Guild, if they stand true to their convictions of last fall, and in the list are men who hold official party position and former Republican members of the Legislature.

Really, far more important than the campaign for the governorship will be the campaign for the election of the Legislature, especially of the Senate, for great corporation matters are sure to arise next session and the way these issues are settled means more for the state than who occupies the governor's chair. It makes not so much difference whether the legislators are Republican or Democrats as whether or not they are for the corporations or for the people. The Senate will be the real battle ground and if the people wish to maintain their self-government, they must look after their senators They have their warning in ample time. Will they improve it?

LANDON.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure Send for circulars and testimonials.

Cuban Diarrhoea.

U S soldiers who served in Cuba during the Spanish war know what this disease is, and that ordinary remedies have little more effect than so much water. Cuban diarrhoea is almost as severe and dangerous as a mild attack of cholera. There is one remedy, however, that can always be depended upon as will be seen by the following certificate from Mrs. Minnie Jacobs of Houston, Texas: "I hereby certify that Chamberlain's Colic, Cholera and Diarrhoea Remedy cured my husband of a severe attack of Cuban diarrhoea, which he brought home from Cuba. We had several doctors but they did him no good. One bottle of this remedy cured him, as our neighbors will testify. I thank God for so valuable a medicine. For sale by the Quimby Pharmacy, Palmer.

School Teachers Appointed.

At a meeting of the school committee Wednesday afternoon with Superintendent G. W. Cox, all the present teachers were reappointed with two exceptions. Miss Martha Kendall, the English teacher in the high school, who has been in Ware for several years, resigned and her resignation was accepted with regret by the committee. The other change is in the fifth grade in the High street school, as Miss Carrie Johnston of Bangor, Me., has resigned to take a more lucrative position elsewhere The committee elected Miss Elizabeth Moran, now in charge of the fourth grade in the West street building, for promotion to the school on High street, and will give Miss Moran's room to Miss Katherine Harrison, now teaching in the district school near Hardwick Pond. The only changes in salaries were that of W. H. Weiss, principal of the high school, who will receive $1,600 instead of $1,500, and James Dugan, principal of the grammar school on South street, who will have an increase of $100 or $1,000. The present teachers of drawing and music, William L. Judkins of Clinton and Miss Annie Stevenson of Greenville, N. H., were reappointed, as were all the present janitors, with Dominick Tiffany as truant officer.

Will Have Almoner.

The overseers of the poor held a meeting Wednesday evening, when it was voted to appoint an almoner. The vote was not unanimous, the ballot standing two to one The two members who favored making an appointment then discussed certain ones among the 15 or 20 candidates for this position, which, by a vote of the town, can be a position paying $800 a year. The names mentioned and considered were Thomas Mahan, John Osgood and John E. Fitzgerald of Cherry street, but no appointment was made as one member of the board, John T. Casey, was obliged to leave early, and the other members did not wish to make an appointment in his absence. The appointments will be made at a later meeting.

John H. Schoonmaker was in New York state on a business trip this week.

Col. Wilder of Spencer, formerly of this place, an old Civil War veteran, called on old-time friends in town Memorial Day.

Benjamin Brown and William W. Barnes Jr have been drawn as petit jurors for the term of the United States circuit court which opens June 6.

William Launier, proprietor of the Commercial hotel, was injured Sunday evening by being thrown from a team while driving near the square by the hotel. His left wrist was broken and left ankle sprained. Dr. W. W. Miner was called and attended him.

Several of the suits for land damage growing out of the change of grades along Maple street, when the subway at the railroad tracks was established, were settled through the claimants' attorney, George D. Storrs, last week, when R. W. Irwin, counsel for the Boston and Maine railroad was in town. The late Samuel Morse had claimed $600, and this amount was allowed. Five others received about $250 each, and the lowest amount received by any one was $75 and costs. A few claims were left unsettled, the principal one being that of C. E. Stevens, which if not adjusted soon may be tried next month.

WEST WARREN.

Downey—Gingras.

The wedding of Miss Mary Ellen Downey, daughter of Mrs. Katherine Downey, and Napoleon Gingras took place at St. Thomas's church Monday morning at 8.30, Rev. Phillas Trottier officiating. Miss Maud Gingras of Thorndike was bridesmaid, and George Murphy of Thorndike was best man. The bride wore a brown travelling suit. After the ceremony the couple were driven to the home of Mr. and Mrs. Charles H. Masse on High street, where a wedding breakfast was served. After a short wedding trip they will live in West Warren.

Mrs. Katherine Downey was taken to the House of Mercy hospital in Springfield last week for treatment for appendicitis.

James V. Anthony has been drawn as grand juror for the criminal term of the superior court, which opens in Northampton the 12th.

Miss Jean Shirley, who was called to Columbus, O., in December on account of the illness of her mother, has returned to town to remain.

George Bliss fractured his left leg above the knee early Saturday morning. He was at his ice house on South street, and in some way fell off the ice run.

Paul Mosso, an employe in the No. 4 mill, had the middle finger of his left hand badly lacerated last Friday morning, while at work at a carding machine.

Mr. and Mrs. John Richardson of Pawtucket, R. I., have been spending a part of the week at the home of their son, Harry Richardson, on Summer street.

Invitations are out for the marriage of Miss Mary O'Connor and Christopher Boyle, both of Ware, which will take place in All Saints' church Tuesday morning.

Joseph Dupre, Francis L. Bassett and William F. Avery, the last named from district No. 5, have been drawn as traverse jurors and are to report in Northampton the 19th.

Alexander Methot, a member of steamer company No. 2 of the fire department, sprained his left foot badly yesterday while on his way to the engine house in answer to an alarm.

Joseph Peltier Jr, son of Mr. and Mrs. Joseph Peltier, had the flesh on the back of his left hand badly lacerated yesterday afternoon by having it caught in a roller in a machine in the finishing room.

The engagement is announced of Miss Georgianna B. Smith of Pittsfield and John D. Smith of Springfield. Miss Smith is a talented violinist and was until recently music teacher in the Ware public schools. Mr. Smith was a resident of Ware until two years ago, and is still in town frequently in connection with the business interests which he retains in Ware. The wedding will take place in Pittsfield on Wednesday, the 14th.

Among those who spent Memorial Day in town were: Mr. and Mrs. Charles Tannehring of Three Rivers at the home of Mrs. Louis Heidel on Main street; Mr. and Mrs. Joseph Davis and three children and Joseph Davis Sr., at the home of Mr. and Mrs. Charles Crouch on Crouch road; Mr. and Mrs. James H. Grant of Ware at the home of Eli Merritt on the Ware road; Hector Beaudrie of South Manchester, Ct., at the home of his mother, Mrs. Napoleon Beaudrie on Main street; Leon Crouch of Providence, R. I., Mr. and Mrs. Thomas McCrea of Thorndike at the home of Mr. and Mrs. Patrick J. Shea.

His Voice Needed Filing.

There is a young medical student living in Westport who has decided not to speak to a girl he knows, says the Kansas City Times. He was calling on the young woman recently and during the evening he volunteered to sing. When he had concluded his song he turned to the girl. "I'm thinking of taking voice culture," he said. "Do you know of a good teacher whose charge is reasonable?" "I know the very one for you," she replied. "His *name is Taylor. Give me a card and I'll* write down his telephone number for you." The young man gave her the card. Next day he called Taylor up on the telephone. "Is this Mr. Taylor, the vocal teacher?" he asked. "The what?" came over the wire. "The vocal teacher?" "Naw," was the reply. "I don't teach nothin'. I file saws."—Stray Stories.

Backache, "The Blues"

Both Symptoms of Organic Derangement in Women—Thousands of Sufferers Find Relief.

Mrs. J. G. Holmes
Emma Cotrely

How often do we hear women say: "It seems as though my back would break," or "Don't speak to me, I am all out of sorts?" These significant remarks prove that the system requires attention.

Backache and "the blues" are direct symptoms of an inward trouble which will sooner or later declare itself. It may be caused by diseased kidneys or some uterine derangement. Nature requires assistance and at once, and Lydia E. Pinkham's Vegetable Compound instantly asserts its curative powers in all those peculiar ailments of women. It has been the standby of intelligent American women for twenty years, and the ablest specialists agree that it is the most universally successful remedy for woman's ills known to medicine.

The following letters from Mrs. Holmes and Mrs. Cotrely are among the many thousands which Mrs. Pinkham has received this year from those whom she has relieved.

Surely such testimony is convincing.

Mrs. J. G. Holmes, of Larimore, North Dakota, writes:

Dear Mrs. Pinkham:—

"I have suffered everything with backache and womb trouble—I let the trouble run on until my system was in such a condition that I was unable to be about, and then it was I commenced to use Lydia E. Pinkham's Vegetable Compound. If I had only known how much suffering I would have saved, I should have taken it months sooner—for a few weeks' treatment made me well and strong. My backaches and headaches are all gone and I suffer no pain at my menstrual periods, whereas before I took Lydia E. Pinkham's Vegetable Compound I suffered intense pain."

Mrs. Emma Cotrely, 109 East 12th Street, New York City, writes:

Dear Mrs. Pinkham:—

"I feel it my duty to tell all suffering women of the relief I have found in Lydia E. Pinkham's Vegetable Compound. When I commenced taking the Compound I suffered everything with backaches, headaches, menstrual and ovarian troubles. I am completely cured and enjoy the best of health, and I owe it all to you."

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhœa, displacement or ulceration of the womb, that bearing down feeling, inflammation of the ovaries, backache, bloating (or flatulence), general debility, indigestion and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all gone" and "want-to-be-left-alone" feelings, blues and hopelessness, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound at once removes such troubles.

No other medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles. Refuse to buy any substitute.

FREE ADVICE TO WOMEN.

Remember, every woman is cordially invited to write to Mrs. Pinkham if there is anything about her symptoms she does not understand. Mrs. Pinkham's address is Lynn, Mass., her advice is free and cheerfully given to every ailing woman who asks for it. Her advice and medicine have restored to health more than one hundred thousand women.

WATER IS NOT RIGHT.

Takers Object to Bad Taste and Offensive Odor.

STATE BOARD OF HEALTH MAN HERE.

On Complaint Made to Local Board of Health This Morning. Will Investigate.

Much complaint has been heard during the past few weeks of the condition of the water supply of the town, that it is poor in flavor and with a disagreeable odor. These complaints have increased steadily until within the last few days they have become practically universal, although the loudest come from residents whose service pipes are connected with some of the smaller mains where the flow of water is not large and it remains longer in the pipes without being drawn out or renewed. In all parts of the village private water supplies are being worked to the limit to supply residents who have the water company's water but are unable to drink it and are compelled to depend on their more fortunate neighbors.

The complaint is that the water smells and tastes of fish, and it is probable that this is the cause of the trouble. During the time of a scarcity of water in the winter the supply in the service reservoir of the water company became so low that the ice froze about the strainer which is supposed to keep foreign substances out of the main, and it was badly broken. Before it was restored quantities of bullheads found their way into the pipes. Fish is a good thing in their place and no one objects to them in the reservoir while alive, but in the pipes, after decease, they are not delightful. Many of them have been removed, notably from the main at the railroad end of Fox avenue, where a large number were taken out early in the spring when the pipe was flushed, and again on North Main street when a broken main necessitated repairs. But that they are not all out is evident.

The matter has assumed such proportions that this morning complaint was made to the local board of health, and Chairman Schneider, who had heard the complaints from many sources before, at once notified the state board of health by telephone. The matter of water supply regulation is wholly in the hands of the state board, and beyond the jurisdiction of the local board. The state board at once sent a representative here to investigate the matter, he arriving at 2 this afternoon.

Death of Mrs. H. C. Newell.

Ruth A. Johnson, wife of Henry C. Newell, died at Three Rivers yesterday morning. She was born in Eau Galle, Wis., May 27, 1878, where she lived until the fall of 1898, when she came to Three Rivers to prepare for college at the Palmer high school. Graduated two years later, she entered Smith College, where she took the full classical course and received distinction by election to the Biological society.

After graduation with the class of 1904, at which time she received an extended visit from her parents, she was married on July 12th of that year to Henry C. Newell, dean of Piedmont College, Demorest, Ga., and together the young people went South in August to take up their studies at that institution, Mrs. Newell bearing her full share of the love and best wishes of a wide circle of friends.

During her stay at Demorest Mrs. Newell carried out the cataloging of the college library, and in addition to her duties as librarian was appointed to teach botany, in which subject she was especially interested. She made many and firm friends both in town and college, and her influence among the young ladies of the undergraduate body was profoundly helpful.

At the close of the fall term, Mr. Newell was sent North to solicit funds for the college, and Mrs Newell returned with him, remaining at Three Rivers until her death. Her severe illness began on Sunday evening last, destroying on the following day her prospective hopes of motherhood, and despite every effort of skilled attendants, resulting fatally to herself. Her face will be missed, but her many kind offices have made her presence a reality to those who remain.

Services will be held at the home in Three Rivers to-morrow afternoon at two o'clock, and the interment will be in the Oak Grove cemetery in Springfield.

Newburyport.

To-night across my memory steals
Dreams of other years;
But sweeter far than all to me
Are dreams, Old Newburyport, of thee.

Again uplift that seaport town,
Fair Newburyport of thine;
And dreams of thee, come back to me,
Dear old home of mine!

The seagull's cry rings in my ear
O'er ocean foam, and hill, and vale;
Does he speak to the billows dark and wild,
Of the broken mast and the riven sail?

Again I hear the Old South bell
With its sweetest hymn of praise;
And holy memories cluster round thee,
Dear old home of by-gone days.

To-night I hear the curfew ring
Far o'er the Merrimac's ceaseless roar;
And re-echoe's o'er the city grand and old,
As the silv'ry moonbeams kiss its shore.

Dear old house of mine,
May a blessing on thee rest;
As memory sets her signal lights
On rock, and wave, and crest.

MRS IDA MADORA LLOYD,
Palmer, Mass.

Back to Pennsylvania.

Officer Collins of Bondsville received a long-distance telephone message Tuesday night asking him to keep watch for a woman who had appropriated a sum of money not her own in Hazleton, Pa., and had presumably started for Bondsville. He strolled down to the railroad station Wednesday morning and one of the first passengers to alight from the train was the woman who was wanted, and he took her in charge. A telephone message to Hazleton brought a response to hold her and an officer would come for her, which he did yesterday and she returned with him without trouble. She is alleged to have secured about $90.

OFFICIAL ROUTE TO TORONTO.

Four State Associations Going to Big Sunday School Convention via C. V.—G. T. Line.

Four New England State Associations of Sunday School workers already have selected the Central Vermont — Grand Trunk Railways, in connection with the Boston & Maine, as the official route to the big International Sunday School Convention to be held in Toronto, Canada, June 23-27. This route is not only the most convenient, but also the most attractive from a scenic point of view, and in the number and variety of side trips offered both to delegates and others who avail themselves of the opportunity to take an enjoyable northern tour at low cost—one fare plus 25 cents for the round trip. Niagara Falls, The Thousand Islands steamer trip, shooting the Lachine Rapids, and stop-over privileges at Montreal are some of the inducements offered by the official line, and these trips are available to all purchasers of special tickets whether delegates or not. The official train will leave Boston at 11.30 a. m. June 21. Those who cannot go at this time may secure the same accommodations on regular trains over the Central Vermont route leaving Boston daily at 11 30 a. m. and 7 30 p. m. Booklet giving full information on application to T. H. Hanley, N. E. P. A., 360 Washington St., Boston. This line also announces a most attractive personally conducted tour to the Epworth League Convention at Denver, leaving Boston on July 3; rate $44 Send to above address for itinerary.

AN INDEPENDENT CIRCUS.

John Robinson's Shows the Only Big Circus Not Included In the Trust.

All the really big circuses of this country can be counted upon the fingers of one hand, and all but one of them are now in a combine known as the Circus Trust, which has for its primary object the suppression of all legitimate competition and the curtailing of expenses by doing away with parade and other features that have become so established that the circus would indeed seem sadly lacking without them.

The only first-class circus that did not enter the combine this year is the John Robinson Shows, and the management states that they will positively not be led by this association of trust builders. They will not only continue the use of the parade as a feature, but will see that each year adds some new and attractive novelty for the approbation of its host of patrons and admirers. Their action in thus standing out alone against the combine ought to win them many friends, and it is safe to predict that their appearance in Palmer on Monday, the 19th, will be greeted with capacity business at both the afternoon and night performances.

The Fish Were Shy.

Saturday was the first day of legal fishing in Forest Lake, and the disciples of Izaak Walton were out in force. Some of them even went to the trouble of going up the night before and camping out in order to be on the ground—or on the water—as soon as it was light enough to see. From the pavilion quantities of the rainbow trout which were put in the lake a couple of years or so ago have been seen this spring, grown to fairly good size already, and a stranger, who did not know that fishing was prohibited, dropped a line the other day and at once took out a fish of good size. In view of this visions of large catches and large fish filled the minds and disturbed the dreams of the fishermen. But alas! either the day was not right, the fish were not hungry, or the proper kind of bait was wanting, for there are nearly as many fish in the lake to-day as before the lines were cast last Saturday. One enthusiast who had sent to Boston for bait which he said "they'll take when they won't touch nothing else," and who was at work as soon as any of them that morning, reported that he caught two pickerel, seven perch and a couple of bullheads. It is reported that one trout was caught by someone not yet fully identified.

WEST WARREN.

Mrs. Charles A. Cutler and daughter Doris of Hartford, Ct , are spending a week at the home of her mother, Mrs. Lewis Heidel, on Main street.

William Clarke, who has been engaged in business in West Warren for the past 25 years, has sold his hardware and general store in Marcy's block on Main street to William H. Show of Athol, who took possession Monday and will continue the business at the present location. Mr. Clark will retire from business and take a much-needed rest.

The forest fire alarm was rung in Sunday evening for a fire in a woodlot on North street owned by Charles O. Walker, where a large amount of cordwood was cut last winter. The fire had a good start and several cords of wood were burned. Forest Fire Warden Jerry M. Sheehan and a gang of men went to the fire and after about an hour's work the fire was put out.

BELCHERTOWN.

Miss Maud Bridgman has taken the position as organist in the Methodist church.

The baccalaureate sermon for the senior class will be preached Sunday in the Baptist church by Rev. Mr. Woodbury.

Mr. and Mrs. William Burnett of Amherst have been spending the week with her parents, Mr. and Mrs. F. G. Shaw.

Miss Annie E. Whalen, formerly assistant principal in the high school, has secured a position in the Springfield schools.

Miss Delia Stacy, daughter of Mrs. Adeline Stacy, formerly of Belchertown, was married Tuesday in Worcester to William A. Carpenter in the church of the Immaculate Conception.

The following program will be given at the prize speaking contest for the George W. Longley prize next Tuesday evening: "A Man Without a Country," Eleanor K. Powers; "The Swan's Song," Phyllis Hopkins; "The Revolutionary Alarm," Raymond Austin; "Against Whipping in the Navy," Harry Gould; "College Oil Cans," Ethel Alden; "The Unknown Rider," Dudley Walker; "The Mission of a Song," Glenn Little; "Toussaint L'Ouverture," Lewis Dyer; "A Boy Hero," Charles Austin; "How Tom Sawyer Whitewashed His Fence," Marian Bridgman.

The annual meeting of the trustees of Clapp Memorial library was held Wednesday evening with Nathaniel Dwight. Mrs. M. D. S. Longley presided. The reports of the secretary and treasurer, D. P. Clapp, and the librarian, Miss Barton, were read and other business transacted. The following statistics were given: Books added during the year were 353; by purchase, 118; given by individuals, eight; state public documents, 164. The largest gift was from Senator Foster. The total number taken for home and school use was 10,981; the increase in the number of patrons, 40; patrons of reading room were 1535.

Mrs. John Corcoran, has returned to her home in Boston after an extended stay with Miss E. E. Corcoran at the Converse House.

TEACHERS APPOINTED.

All But Three of Present Teaching Force Retained.

SALARIES OF SEVERAL ARE RAISED.

Closing of District Schools Responsible For Reduction in Teaching Force.

A special meeting of the school committee was held on Saturday afternoon, when the question of election of teachers for the coming year was discussed. These teachers were elected:

High school—F. W. Cross, $1400; Genevra F. Clark, $600; Julia A. Davis, $600, increased from $550; Masie B. Whiting, $500, increased from $450; Sue E. MacWilliams, $550, increased from $475.

Palmer Grammar—Clifton H. Hobson, principal, $608; Elizabeth I. Heenehan, $418, increased from $380; Susan E. Goodwin, $418, increased from $380; Katherine E. Shea, $418, increased from $380; Sarah E Harrison, $380; M. Eloise Stone, $380; Myraketa Goodrich, $380; Bernice Goddard, $380.

Three Rivers Grammar—Henry D. Furbush, principal, $608; Lucy B. Twiss, $418, increased from $380; Lula C. Vaille, $418, increased from $380; Jennie C. Roche, $418, increased from $380; Ellen F. Glynn, $380.

Bondsville Grammar—Jennie C. Twiss, principal, $608; Lucille M. Dunton, $418, increased from $380; Cora B. Clark, $418, increased from $380; Maude Connor, $418, increased from $380; Helen C. Farnsworth, $418, increased from $380.

Palmer Center District—May E. Mahoney, $380, increased from $342; Wire Mill, Julia G. Daley, $380; drawing, Florence Tarbell; music, Joana V. Cantwell.

Because of the contemplated closing of the Mason, Shorley and Forest Lake schools, the teachers now there were not reëlected, as there would probably be no place for them.

WALES.

Dr. and Mrs. E F. Ross left Wednesday for New York.

Dr. Otis Sedgwick has opened the office vacated by Dr. Ross.

A pretty wedding took place in the Catholic church Tuesday morning, when Miss Lena Reed and William Lucy were united in marriage, the pastor of the church officiating. A reception and dance were held in the hall of the literary society in the evening, which was largely attended.

HOLLAND.

Mrs. E M. Webber of Brimfield is visiting her uncle, E. P. Damon.

Horace E. Wallis of Waltham was in town recently calling upon old friends.

Asa Mitchell of Rutland spent a few days last week at the home of W. P. Moore.

Mrs Grace Kinney Woodward of Springfield, formerly of this place, has been visiting friends in town.

Elsie A. Maynard of Templeton and Peter Pierson were married here, May 28, by Rev. Samuel Eaton of Brimfield.

WARREN.

Mrs. Alfred E. Shumway gave a musical Tuesday evening in honor of her guest, Miss Alzaleen Sampson of Boston.

Elmer J. MacHarg of Concord, N. H., has taken a position in the pharmacy of Joseph G. Hastings on Main street.

The Warren Steam Pump Company have recently taken several large orders, including one for three large condensers and air pumps for the Fall River iron works, as well as the new pump which is to be installed at Loon pond in connection with the water works in Springfield.

NORTH WILBRAHAM.

The public schools closed to-day for the summer vacation.

The Cutler company is building a new storehouse at the east end of its grain store.

Miss Minnie Alden and Master Willie Alden, who have been ill, are now recovering.

Miss Maude M. Rockwood of Springfield has taken a position as stenographer with the Cutler company.

Jennie E. Smith of Hawley and Mrs. Parker Smith of Holyoke have been guests of Mr. and Mrs. E W. Wall.

Mr. and Mrs. Jason Butler left Tuesday for Dighton, where they will reside with their son, Dr. Lester E Butler.

Children's Day will be observed Sunday morning at Grace Union church. There will be a short address by the pastor, followed by a concert by the children.

Mr. and Mrs. Herbert Searles and Master Howard Searles of Marlborough have been spending a few days at H. W. Cutter's.

Mr. and Mrs. Frank Patterson and son Albion, also Mr. and Mrs. Fred Marsh of Springfield, are spending a few weeks at the Ely farm on Monus Konus.

The people in town who have had their houses wired for electric lights are anxiously awaiting the convenient time of the company to apply the current.

BRIMFIELD.

Mrs. May, mother of B. D. May of the Academy, is visiting at the hotel.

Frank King and wife of Springfield have come to their summer residence for the summer.

Mrs. Caroline Brown, who has been in Springfield several weeks, is at her home for a short stay.

Mrs. E. T. Sherman and daughter, Mrs. Hamlin of New York, are at their summer home, Lake View farm.

"Children's Night" was observed by the Brimfield Grange Tuesday evening in the town hall with a strawberry and ice cream supper. The entertainment was furnished by the children, in charge of Mrs. Charles Tarbell, who deserves much credit for the manner in which the children carried out their parts, also Mrs. Walter George who assisted. Following is the program:

Our Boston Letter

It tells about

The Democratic Gubernatorial Unsettledness—The New Law Concerning Arrests for Drunkenness — Various Other Matters Concerning the Hub.

BOSTON, June 7, 1905.

Notwithstanding the supposedly active efforts of John R. Thayer to learn the attitude of Gov. Douglas toward reconsidering his refusal to run again, there is not the slightest hint that the governor will change his mind. It may be that the governor would be reëlected triumphantly if he should run again. One of the most prominent Republican office-holders in the state has said to me this week that if Douglas should run again he believed that he would be elected overwhelmingly. He said that his work brought him into touch with many Republican farmers and that it was surprising to see how many of them preferred to vote for Gov. Douglas again. Then there is the further fact that is acceptable to the business men. He has not played politics in office, but has tried to give the state a purely business administration. He has the instincts of a business man and does not want to do things for political reasons. Efficiency and honesty in office are what he wants. Results are what he seeks and he does not want to be bothered with the petty details of getting them. His idea is that he will give the head of a department all the necessary power, as far as he can, and then the officer must do things himself. If the governorship were a non-partisan office, there is no doubt that the large majority of the people would say that Gov. Douglas had done well and deserved a reëlection.

But, since the governor is elected by partisans, party men believe that they have a pull upon him to appoint them rather than the best men regardless of party, and there is where the trouble comes in. All of the complaint thus far arises solely because the governor has not given office to the Democrats as much as they think he should. Consequently they have made such a vigorous set against him that he will not stand for office another year; the party will lose its most promising leader, and the kickers will have no bread instead of at least the half loaf which they might have had if they had stood loyally by the governor.

One of the leading Democrats of Fall River was at the state house yesterday, and, in reply to the question how the mill hands received the decision of the governor upon their wages, it being adverse to them, he said that he did not think they laid it up against him, but that they thought he was forced, by the facts of the case, to make the decision he did. It has been said that the labor vote would turn against Douglas, just as it did against Bates, but if this is a correct statement of the situation in Fall River, this is not so. But all comparisons between Bates and Douglas will not count for anything, if Douglas persists in refusing to run for the governorship another time.

While it is too early to see who is the strongest candidate aside from Douglas, it is evident that it is not Gaston. The fact is that the rank and file of the party do not care for Gaston and it is only the Boston machine which gives him strength, and that is a strength due to business and not to politics. If it were not for Gaston's connection with the Boston elevated railroad, there is not the slightest reason to suppose that he would be so much as named in connection with the governorship. Men who stand for what the party represents feel that they have some kinship with the element which Gaston represents. John R. Thayer is regarded as the best candidate who could be nominated, and his endorsement by the third congressional district for three successive terms is accepted as proof of his popularity and as an assurance of strength in all parts of the state. The way he refused yesterday to tell anything about his interview with Gov. Douglas and got off the old hen story was very funny. Yet he did say that he found the governor in "a receptacle frame of mind, to quote from a friend of his." But Thayer is not the man to labor with the governor with a request to run again. Such a request should come from John F. Fitzgerald, who has been leading the attacks upon him, and it should be backed up by the official assurance of the Boston leaders that they will stand by him solidly, if it is to have any more force than mere wind.

To-day marks the beginning of the new law for the release of persons who have been arrested for a first offense of drunkenness, and that means that the person arrested has not been arrested for that offense twice during the preceding 12 months. Friends of the new law say that it is merely a carrying out of the principle which was established in 1893 by the establishment of probation officers. Instead, however, of putting upon the court the responsibility for the discharge of the arrested person, it puts it upon the probation officer himself, upon whose recommendation, or statement of facts, the court has acted hitherto. The same questions must be answered under the new law as under the old. The person arrested must give, in writing, his true name and address, a promise to appear upon a summons and a statement that he has not been arrested twice before for drunkenness during the preceding 12 months. He must also state whether or not he has employment and a family. These last two statements can be verified later, but the probation officer is expected to make himself sure regarding the first three before he releases any prisoner. The new law will relieve many unfortunates from the disgrace of being thrust before the public as habitual drunkards, and it is believed that it will be a step toward preventing their further fall. In 1904 there were 16,000 cases of persons released under the probation law, and then the release was by order of court, acting upon statements of probation officers. It is expected that there will be a larger number when the probation officers themselves have the direct responsibility. Another consideration which counted for something with the friends of the new law was that arrested persons will not be held in court so long that they cannot go to work the morning after their arrest and thereby lose their job. The theory of the new law is more that the occasional drunkard is to be protected against himself and to be helped to a better life. Opposition has come from bail commissioners, who will lose the fees they now get for bailing out arrested persons. Probation officers opposed the bill when it was passing, for it will put more work upon them. Temperance people, some of them, were against the bill, because they said it would tend to let out old rounders. But it is law, and everybody must make the best of it. It is for the occasional drunks themselves to say whether the law shall be a success or shall work so poorly that it must be repealed.

Siske—Tufts.

The marriage of Miss Lucretia G. Siske and Ernest D. Tufts took place Tuesday afternoon at 4, at the home of the bride's father, J. M. Siske, on State avenue. The house was prettily decorated with ferns, laurel and evergreen, under the direction of Miss Florence E. Bond. The ceremony was performed in the parlor, under an arch of ferns and buttercups, by Rev. M. O. Patton, the Episcopal single ring service being used. The maid of honor was Miss Florence E. Bond of Bondsville and the best man was A. C. Cordner of Springfield. The bride was gowned in white silk eolienne trimmed with princess lace, and wore a veil caught up with lilies of the valley, and carried a bouquet of the same flowers. The maid of honor wore a dress of white silk mousseline de soie over pink silk, trimmed with duchess lace and carried a bouquet of sweet peas. At the entrance of the bridal party Miss Grace Hyatt of Milford, Ct., played the wedding march from "Lohengrin" and during the ceremony "O Promise Me." Only members of the families and near friends were present. After the ceremony a luncheon was served by Barr of Springfield. Mr. and Mrs. Tufts left at 5.40 for New York, and on their return will live on State avenue.

A Big Sale.

The special sale which has been in progress since last week Thursday at Bodfish's dry goods store has been not only the "talk of the town" but of all the country round about which centers in Palmer. Every article in the immense stock has been reduced in price, and on many things the cut has been to figures far below the actual cost. The sale opened on Thursday of last week, and that day and Friday there were many lookers and a few buyers; the bargains secured by the latter must have created a desire in others for a share of the good things, for Friday afternoon and evening and all day Saturday the store was crowded to an extent which gave the small army of clerks all they could do and kept them hustling until almost time for the last car at night. The sale continues through Friday of next week, and the bargains are by no means exhausted, so visitors may be sure to find something to interest them if they have an eye to money saving. The sale is being managed by the Manhattan Co., which has entire charge of the store and stock. The representative of the company who has been personally conducting the sale is Mr. S. Holstein, who will remain until the end.

Brown—Putnam.

The wedding of Gertrude C. Brown and Dr. Clinton A. Putnam of Easthampton took place Wednesday evening at the home of the bride's parents, Mr. and Mrs. F. I. Brown. The house was decorated with flowers and evergreens, the ceremony being performed in the parlor under an evergreen bell, Rev. M. O. Patton officiating. Miss Mabel Lyman played the wedding march from Lohengrin as the wedding party entered the room, and rendered "Hearts and Flowers" during the ceremony. The bride was attended by her sister, Miss Mabel B. Brown, and Dr. Howard S. Smith of South Hadley acted as best man. The ushers were Miss Maud Rockwell of Springfield and Della Mason of Ludlow. The bride wore a gown of white English violet embroidered swiss muslin over white silk, and carried bride roses. The bridesmaid wore white embroidered linen and carried pink and white carnations. The ceremony was followed by a reception, refreshments being served. Dr. and Mrs. Putnam have gone to Washington, D. C., for their wedding trip, and after their return will reside in Easthampton.

Water to be Shut Off.

The Palmer Water Company announces that it proposes to shut off the water from its entire system next Sunday morning at 9 o'clock for the purpose of putting in a 10-inch gate on Park street just west of the carpet mill road. It is expected that the work will be completed in three or four hours and that the water will be turned on again in that time.

Mrs. Talmage, an old lady over 80 years of age, while on her way to call at Mrs. J. C. Green's Wednesday, was taken suddenly ill in Mrs. Green's yard. Mrs. Green, with assistance, succeeded in getting her into the house, where she was attended by Dr. Smith, after which a carriage was procured and she was taken to her home on the Belchertown side of the river.

Yesterday afternoon between the hours of 3 and 5 o'clock and also this afternoon at the same hours the schools of the village gave a public exhibition of drawing and written work. The drawings were displayed in an attractive way on the walls of the rooms, each room displaying its own, and the written work was spread on tables. The teachers are certainly to be congratulated upon the excellency of the work done by their pupils and the scholars deserve much credit for the pains they have taken in the course of their instruction, from even the lowest grade to the highest. The work was not especially prepared but represented the regular work done throughout the year.

Mr. and Mrs. Albert M. Guilford and son of Leominster have been the guests of Mr. Guilford's sister, Mrs. Mary Buffington, on Green street this week.

Mrs. Welcome Converse, who has been in Rochester and Brooklyn, N. Y., the past several months with her children, has returned to Monson for the summer months.

Rufus Fay has improved the appearance of his property on Main street by the removal of the wooden fence. His residence has been connected with the town water system this week.

Invitations are out for the marriage of Miss Lydia Dow of Marion and James Francis Butterworth of this place, the ceremony to take place in the Congregational chapel in Marion, Thursday, June 29th, at 12 o'clock.

The W. N. Flynt Granite Co. have been awarded the contract for building a section of state highway in Monson between Palmer and Brimfield. The contract price was $2134.90. The only other bidder was Amos D. Bridges of Hazardville, Ct., $2231.50.

Sunday will be observed at the Congregational church as Children's Day. Music appropriate to the service will be rendered by the choir and carols will be sung by the children. There will be a reception of children into the church and a short address by the pastor.

Sunday will be observed as Memorial Day by Monson lodge of Odd Fellows. Members of the local lodge will meet in their rooms in the bank block at 2 o'clock. George L. Keeney will speak, after which the members will march to the No. 1 cemetery and decorate the graves.

The highway between this town and Stafford, Ct., is being greatly improved this year. The road-bed which has always been very sandy and one of the hardest roads to travel in town, is being covered with a thick coat of gravel and clay and will, when well hardened down, make a splendid piece of highway.

A baked-bean supper was held at the home of Mr. and Mrs. E. N. Bissell in the Pease district Wednesday night, which was attended by 70 people and the occasion was a very pleasant one. During the evening a purse of money was presented to Mr. H. L Oldfield in appreciation of the excellent work which he has done for the Pease district Sunday school.

There will be a special meeting of Marcus Keep Relief Corps, in Memorial Hall tomorrow afternoon at 2 o'clock, to prepare for the exemplification of the week which will be given in Memorial Hall Monday afternoon at 1 o'clock. All the corps in this vicinity have been invited and will send delegations. A special meeting of the corps was held Wednesday evening.

A local company from Palmer will present "Valley Farm" in Memorial Hall next Tuesday night for the benefit of L. L. Merrick, Woman's Relief Corps of Palmer. This play was put on in a very creditable manner in Palmer last week, and for that reason is brought to Monson. It is a four-act drama of country life represented by 12 people and is very pleasing. The tickets are on sale at Bradway's news rooms.

John McFethries of Springfield will address the Men's Club of the Congregational church next Monday evening at 8 o'clock on "Personal Experiences in Russia." Mr. McFethries has spent eighteen years in Russia as a civil engineer in railroad building, and his address will be very interesting. This will be the last meeting of the club until after the summer vacation. A social hour and refreshments will follow the speaking.

WARE.

Cheaper Rates on Electric Road.

There will be a slight reduction in the fares on the Hampshire and Worcester electric road, beginning Monday. The fare between Ware and Gilbertville will be seven cents instead of 10 and on week days cars leaving Ware at 6 and 7 a. m. and at 5 30 and 6 25 p. m. the fare will be only five cents. This five-cent fare, which is designed to benefit workingmen who use the road regularly, will also be in effect on cars leaving Gilbertville at 6 30 and 7.30 a. m., and at 5.30, 6 and 6.30 p. m.; also at 12 noon on Saturdays. The regular fare to West Brookfield will continue to be 15 cents, except week days on cars leaving Ware at 6 45 a. m. and 6 p. m., when a fare of only 10 cents will be collected. As it has not been definitely decided yet as to the opening of Lakeside park in West Brookfield, the fare to and from the lake is not fixed by this schedule of prices, but if this resort is opened a five-cent fare from either Ware or West Brookfield will probably be charged.

O'Connor—Boyle.

The marriage of Christopher Boyle and Mary O'Connor took place in All Saints' church Tuesday morning. The ceremony was performed by Rev. J. A. Riordan, who celebrated nuptial high mass. Miss Bridget O'Connor, sister of the bride, was bridesmaid, and John Boyle was best man. After the ceremony a reception was held at the home of the bride on Pine street, where a wedding dinner was served at noon by Rohan Bros. Guests were present from Weymouth, Milford, Holyoke, West Springfield, Warren and Springfield. In the afternoon Mr. and Mrs. Boyle were driven to West Brookfield, where they took the train for a two-weeks' trip to Providence and other places. On their return they will live on North Main street.

Campbell—Forrant.

The marriage of Cecelia M., daughter of Mr. and Mrs. Moses Campbell, and Charles Forrant of Quincy took place at 8 Wednesday morning in Mt Carmel church, Rev. T. T. Sheehan officiating. Miss Jennie Campbell was bridesmaid, and Stephen Forrant was best man. Mr. and Mrs. Forrant will make their home in Quincy, where he is engaged in the butter business.

Herman Mowry, boss finisher in the Gilbert woolen mill, has resigned his position to take effect to-morrow, and next week will go to North Adams to take a similar position.

Miss Marion Davis has been acting as substitute teacher in the third grade of the old South-street school a part of the week on account of the absence of Miss Mabel Green, who has been ill.

Mrs. John A. Gould of Pleasant street sustained a serious injury early Sunday morning. In going from one room to another she felt a weakness in her left leg, and before she could save herself had fallen and broken her hip. She was attended by Dr. Pierson and Dr. Blodgett.

The officers of the Ware Savings Bank have been elected as follows: President, Lewis N. Gilbert; vice presidents, Calvin Hitchcock, William C. Eaton and J. H. G. Gilbert; trustees, C. C. Hitchcock, F. M. Sibley, Charles E. Stevens, H. K. Hyde, George E. Tucker and F. D. Gilmore; clerk, George W. Dunham. The committee of investment is Calvin Hitchcock, W. C. Eaton, F. M. Sibley, H. K. Hyde and F. D. Gilmore.

At a meeting of the East Congregational church last evening the resignation of Rev. A. B. Bassett was accepted. A committee, consisting of George E. Tucker, H. K. Hyde and H. B. Anderson, was appointed to draw up resolutions, which they did, and the resolutions, after being accepted, are to be presented to Mr. Bassett. This committee, and Andrew Bryson and Dr. A. G. Blodgett, will form the committee to act in connection with the calling of a council for the dismissal of the pastor, which will be held probably late this month.

William Liversage, 83, died Tuesday morning after a short illness at the Storrs House, where he had made his home with his son, William Liversage, the proprietor. He is survived by two other sons, Joseph H. and Albert G. of Fitchburg. Mr. Liversage was born in Cheshire, Eng., but came to this country when about 40 years old and was engaged in business in Fitchburg 25 years. He had also lived in Cambridge and done business there. Funeral services were held at the hotel yesterday afternoon at 3, and the body was taken to Fitchburg for burial.

The senior class of the high school which will be graduated on Wednesday, the 21st, numbers 26, with 19 of the class girls. They are: Gladys Aldrich, Mabel Bruton, Katherine Buckley, Gertrude Clark, Amie Coney, Ellen Connelly, Lillian Cummings, Mary Fanning, Ina Flynn, LaVerne Hills, Helen Irwin, Grace Lacoste, Florence Naylor, Elizabeth Nutting, Mary O'Bryan, Chrystabel Ruggles, Madalene Ruggles, Frances Shaw and Hazel Walker. The boys are: Stanley Barlow, Wesley Coney, Jeremiah Crowley, Romeo Grise, Albert Lyman, Thomas Madigan and George Packard.

Harry Ferguson of East Somerville, a brakeman on the Boston and Maine railroad, about 22 years old, was injured by slipping from a freight car in the Otis company's yard Wednesday morning. The freight train, which was switching, was moving at the rate of about two miles an hour, when Ferguson tripped over the ventilator on top of a refrigerator car, and rolled upon the ground. His right knee was sprained, and he complained somewhat of injuries to his spine. He was taken to the office of Dr. W. W. Miner, who attended him, and in the afternoon was able to go to his home.

much testimony to the presence of young men and women,—for the university is "co-ed," — in their conspicuous mortar-board caps, advertising to the world that they feel separate from the remainder of mankind as a class. When college people have the sense not to put themselves on a different plane from the remainder of mankind, then they may realize why it is that they fail to get the confidence of the remainder of the people and why there is such a lack of sympathy between college folks and those who have not sufficient money to pay for books, clothes and board in order to go to college. Snobbishness will never commend the snobs to popular admiration, to say nothing about popular esteem.

Edwin D Mead has returned from the Mohonk arbitration conference more hopeful than ever for the advance of the peace idea by means of the organization of the world politically. The arbitration cause, he affirms, has already won its victory. The leaders of world-thought and world-action are not to-day denying the validity or the value of the arbitration doctrine. While much remains to be carried out in detail, yet the great cause has won the fight and now it is only to push for securing the arrangement of details.

On July 12 will begin the course of lectures for the young people in the Old South course. The subjects of the lectures will be the men who came in the Mayflower, John Winthrop in Old England and New England, how the settlements spread from Boston to Berkshire, Samuel Adams and the town meetings before the Revolution, the building of the railroads and cotton mills, the anti-slavery leaders and the great war governor, the Massachusetts poets and the history which they teach, and the story of the schools and colleges, the whole course being entitled "The Story of Massachusetts." This reminds us that there is no history of Massachusetts which brings our story to date, or anywhere near it.

A Restricted Essay.

The puzzle department of London Truth called for a competition in accounts of a round of golf containing no letter "a" or "u." Here is a good specimen from the many replies received:

"I know nothing of golf. Some people do, or pretend to. However, I visit the links, for I like to look on. Slow work, yet good for the liver. They hit some kind of sphere into holes on the green, then seek for it. Some find it in them, some do not. Men who win grin. Men who lose bless everybody, sotto voce, being too polite to do so before people. Women who lose despise the she winners. Their verdict is, 'ill dressed objects,' 'wizened things,' 'no chicken.' Men do differently, for when finished they drink together in good fellowship, then mizzle—to dine, not repine."

The Sphinx's Riddle.

The riddle which the sphinx propounded to the Thebans and the solution of which she made a condition of her withdrawal from the state was as follows: "What animal has one voice, at first four, then two and at last three feet?" Œdipus discovered the answer to be "man," who in infancy, from using his hands as well as his feet in walking, may be said to have four feet (all fours), in after life employs but two, and in old age to these he adds a staff, which may be reckoned a third. Upon this solution being given the sphinx is said to have thrown herself headlong from the citadel.

The Woman of Kentucky.

The Kentucky woman is simply the Venus of Milo in warm healthy flesh, with grace in all her motions and when in love heaven in her eye. She has the American capacity to adapt herself to fresh conditions. Her nerves have not been set on an edge by Atlantic east winds, and she has a broad and sympathetic nature.—London Truth.

The Edge of a Windstorm.

A curious example of how sharply the edge of a windstorm may be defined is reported by the captain of a bark. When off Valparaiso, the captain says, a whirlwind came along and passed over the stern of the vessel. A great sea accompanied the wind, and every sail and movable thing on the after part of the ship was carried away. The forward part of the vessel was untouched by the storm, which passed away in the distance, leaving a train of foam in its wake.

Eight Arrows In the Air at Once.

"There is a purely Indian exploit which is recognized as a test of fast shooting," says Mr. Ernest Thompson Seton in Country Life in America. "In this the 'honor' is allowed the archer who can have six arrows in the air at once and the 'high honor' for seven. The Indian record is eight, but not many Indians have made it."

Out of Harm's Way.

"What the deuce are you doing on the top of that tree, Mike? Don't you know that it's being cut down?" Mike —Yes, your honor. The last toime ye had a tree cut down it fell on top of me, and, begorra, O'il be safe this toime!—London Tit-Bits.

HIS ONE VIRTUE

[Original.]

Utility is not the quality best adapted to make one beloved. Many a successful man who has by energy, integrity and steady application acquired the wherewithal to give him prominence and to benefit his fellow beings has been cordially hated, while some scapegrace has been winning hearts.

Bob Flemming belonged to the latter class. Judged by the standard of utility, he was a failure; by the standard of morals he was not a success; by the standard of literal truth he was a most incorrigible liar. Nevertheless he was universally beloved. He possessed an open, honest countenance which by good rights should have belonged to the aforesaid man who produces results with which to make people happy. His smile was that of innocence. His pocketbook was open to all, though unfortunately at the time he came of age the luxuries in which he had been brought up took wings and flew away, leaving him little or nothing to give.

When Flemming went home from college to find that his father had failed in business the young man's cronies agreed that there was but one hope for him—a marriage with a wealthy girl. Nevertheless he paid attention only to such girls as struck his fancy, or, rather, all girls, for all girls pleased him, rich and poor alike. As for the girls, they swarmed about him as flies about honey.

Several years passed, during which Bob Flemming sank deeper and deeper in debt. Nevertheless at the sight of distress down would go his hand into his pocket, and if there was anything at the bottom the sufferer was sure to get it. But suddenly his friends were pleased to see that there was every prospect of a marriage between him and Miss Josephine Gridley, a young woman possessed of $20,000 a year in her own right. How a person of as much principle, sense of justice and rigid piety should accept a young man whose only guides were his heart and his fancy no one could explain. Nor was it to be expected that such a male butterfly should be pleased with a steady going girl. Nevertheless the two were very much in love with each other, and though Miss Gridley was in doubt about the propriety of the match she became the promised bride of Bob Flemming.

During the engagement the young man's inventive genius was constantly required to explain away sundry little matters pertaining to his financial affairs. Finally he made a blunder that broke off the match. He became infatuated with typewriting. What he proposed to do with the acquirement of an ability to use a typewriter no one knew, but he bought one—on the installment plan—and as soon as he could hammer out words with one finger he thought it would be a fine thing to write a typewritten letter to his fiancee. While engaged in the work a letter from his tailor was handed him in which the knight of the shears threatened him in case of his not at once remitting an indebtedness incurred two years before to sue the account and publish him as a "dead beat." Bob was called away from the typewriter and when he returned, intending to place his letter to Miss Gridley in an envelope for her, put in by mistake the letter from his tailor.

The first he knew of his mistake was receiving a note from his fiancee announcing that she had reconsidered the matter of his acceptance, and her reply was "No." Bob went posthaste to see her. She handed him the tailor's letter. He was staggered, but only for a moment.

"That's the most rascally piece of business I ever heard of," he said. "But it is *not the ingratitude of this* man, whom I have befriended, that makes me sad. It is that you should have listened to as wicked a scheme to injure me."

"What do you mean?" asked Miss Gridley.

"Mean! Why, it's as plain as the sun in heaven. The man has sent this infamous demand to you to stab me."

"He sent it? I thought you must have sent it by mistake."

"Do you suppose I would address a note on a typewriter to the girl I love?"

"Are you telling the truth?"

"Do you doubt me? Very well. Before we part forever I will show you how unjust you have been. If the rascal don't send you an apology at once I'll withdraw my patronage and expose the transaction to the many customers I have recommended to give him theirs."

Miss Gridley was deeply moved, though sufficiently practical to defer judgment. The next morning a humble apology came from the tailor, who threw the blame on one of his clerks who had a grudge against Mr. Flemming and sought to injure him by sending his fiancee a dunning letter for an account which had long ago been settled. The poor girl was much distressed at having lent ear to so base a calumny and begged the dear, persecuted boy's forgiveness. He promised to take the matter into consideration and after keeping her anxious for a week forgave her.

Backed by a comfortable income, Mr. Flemming continued to be prominent in that circle of society which considers one of its own members better than those, however prominent, who are outside of it. He led cotillions, arranged dinners, managed private theatricals, besides playing polo and hunting the fox. With all this to occupy him he found time to lead a beggar into an alley that he might unseen give comfort to a distressed fellow being—with his wife's money. Who shall say that he is less to be admired than a self made millionaire who gives for the world's applause?

Just What Everyone Should Do.

Mr. J. T. Barber of Irwinville, Ga, always keeps a bottle of Chamberlain's Colic, Cholera and Diarrhœa Remedy at hand ready for instant use. Attacks of colic, cholera morbus and diarrhœa come on so suddenly that there is no time to hunt a doctor or go to the store for medicine. Mr. Barber says: "I have tried Chamberlain's Colic, Cholera and Diarrhœa Remedy which is one of the best medicines I ever saw. I keep a bottle of it in my room as I have had several attacks of colic and it has proved to be the best medicine I ever used." Sold by the Quimby Pharmacy, Palmer.

Pleased to tell their friends and neighbors.
Tell them about the "little conqueror."
The good deeds of Doan's Kidney Pills
Are spreading o'er the city,
Lifting burdens from aching backs,
Curing the pains of kidney ills.
Read the proof in a Palmer man's words.

Otto Smith, a farmer, living out about a mile on the Thorndike road, says:—"I was greatly benefitted by using Doan's Kidney Pills sold at LeGro's drug store. My back hurt me extremely I could hardly rise from a chair, suffered from disagreeable feelings in my head and was greatly annoyed with the kidney secretions. I was never free from depression, for the dull grinding pain over my kidneys took all the snap out of me. I obtained more benefit from the use of Doan's Kidney Pills than from all the other medicines I ever took. I do not hesitate to recommend them whenever opportunity arises."

For sale by all dealers, price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents in the U. S. Remember the name—Doan's—and take no other.

June Clearance of Women's, Misses' and Children's Tan Shoes and Oxfords.

We have made a large purchase of Tan Shoes and Oxfords from a manufacturer who had several hundred cases thrown back on his hands through canceled orders, and was willing to sell them at practically our own price. They go on sale at prices much below their real value. In addition we have selected numerous lines from our own stock which cannot be duplicated in time for this season's trade, and marked them at correspondingly low prices. The various lots embrace a fine assortment of styles, in all sizes and widths, and in many shades of tan. The values are worthy of figuring in this June Clearance.

1 Style Women's $2.00 Tan Oxfords, at	$1.39	1 Style Women's $3.50 Tan Ooze Oxfords, at	$2.49
2 Styles Women's $2.50 Tan Oxfords, at	1.69	1 Style Misses' $1.15 Tan Oxfords, at	98c
4 Styles Women's $2.50 Tan Oxfords, at	1.98	1 Style Children's $1.25 Tan Oxfords, at	98c
3 Styles Women's $3.00 Tan Oxfords, at	2.29	1 Style Boys' $1.75 Tan Lace School Shoes, at	1.39
2 Styles Women's $3.50 Tan Oxfords, at	2.69	1 Style Boys' $1.75 Tan Oxfords, at	1.39

The Antalgica
Or Vegetable Pain Reliever

was introduced to the public in 1848, since which time thousands of bottles have been sold each year to an appreciative public, which is a good evidence of its merits. It is adapted to so many ailments it should be in every household, for it cures all kinds of pains both internal and external. For Bronchial affections it is unrivaled by any article in the market. It is a sure cure for Cholera Morbus and Dysentery, if taken in season, also for Coughs. It is an effective remedy for rheumatic affections, stiff joints, swelled limbs, sprains, cramps, tooth ache and many other ills to which the flesh is heir. Try it and it will do you good. It is sold at 25c, 50c and $1.00 per bottle by The Quimby Pharmacy, LeGro's Drug Store and the proprietor,

PALMER WINS AGAIN.

Ludlow Team Sent Home With the Score Very One-Sided.

It looked very much, at the end of the first inning, as though Palmer was going to be defeated by Ludlow at Palmer last Saturday, but everybody had another guess coming. Palmer started off with a bunch of bad errors and some pretty poor playing, and it looked like defeat. But their half of the inning put the score one ahead in their favor, and the Ludlows weren't even in sight of the finish after that. It looked as though there might be something doing for the visitors in the fifth, for the first man up got a two-bagger, but two captured flies and a grounder to Furkey retired the side. The deluge came in the fifth, when Shaw started the fun with a corking good hit; Crowther attempted to sacrifice but beat the bunt down to first; a hit by Dillon brought Shaw in and sent Crowther to second, and a hit by Martins advanced both one bag and filled the bases; then Rogers smashed the ball over the right field fence and four more scores were added, making five in that inning. Ludlow started the sixth by a two-bagger, followed by three singles, but only one run resulted. In Palmer's half Shaw led off with another hit and Crowther with an attempted sacrifice which he again beat to first and stole second when Shaw went to third; Ludlow began to throw the ball in an attempt to catch Shaw at the plate, and it got so mixed up with the atmosphere that Crowther crossed the plate, adding two to the score. Ludlow got another in the seventh and Palmer added three. Palmer made a number of errors but they came when little resulted from them in the way of runs. Furkey pitched good ball and was well supported; two or three times it looked almost certain for Ludlow runs, but good pitching and sharp fielding cut them off. The score:

Thorndike Crescents 7, Blue Suits 4.

The Thorndike Crescents defeated the Three Rivers Blue Suits at Three Rivers in the first game of a series Saturday. The game was close and interesting, the score being a tie until Lamery's hit brought in the winning runs in the ninth. The features were the pitching and fielding of Lamery and Picotte. The score:

Wesleyan Academy 4, Warren 2.

Wesleyan Academy defeated Warren high school on the Academy grounds in Wilbraham Monday afternoon, 4 to 2. The game was the most satisfactory held this season with the fielding of both teams for the most part clean and sharp. It was a pitchers' battle in which Toussaint had the better of the argument, allowing but three hits and striking out ten men. For Warren Sullivan excelled in the field and for Wesleyan Wade put up a good game at third. The score:

Wesleyan A.	r	po	a	e	Warren H. S.	r	po	a	e

Game at West Warren.

The first game of the newly-formed West-end league at West Warren was played Saturday afternoon between the Hibernians and St. John the Baptist Society, and was witnessed by a good crowd. The game was one-sided, the Hibernians having the strongest team. The score by innings:

Hibernians, 3 3 6 0 2 1 0 1 4—20
St. John, 1 0 0 0 0 0 0 0 0— 1

Batteries, Riley and Haley; Cook and Methot. Time, 1h. 45m. Umpire, Joseph F. Muhelm. Attendance, 300.

Palmer Juniors' Batting Average.

The game at Bondsville Saturday was slow and uninteresting, being full of errors. Todd was in his usual form allowing but six hits and striking out sixteen. Provo batted well, getting five hits out of six times up. The Palmer Juniors won 17 to 11. The Juniors' batting averages at present:

	H.B	H.	P.C.	Sing.	2 B.H.	3 B.H.	H R.

West Warren Baseball League.

A baseball league, to be called the West-End Baseball League, has been organized in West Warren by the Quaboag Social Club, the St. John the Baptist Society, Court Quaboag of Foresters, and the Hibernians. Each society will have a team, and the colors of the uniforms will be: St. John the Baptist Society, red; Court Quaboag of Foresters, white; Quaboag Social Club, blue; Hibernians, green. The games will be played on Crossman's grounds, between the Palmer and Ware roads. The schedule of games for the season is:

June 3, Hiberians against St. John the Baptist Society; 10th, Quaboag Social Club against Foresters; 17th, Hibernians against Quaboag Social Club; 24th, Foresters against St. John Baptists; July 1, Quaboag Social Club against St. John Baptists; 4th, Hibernians against Foresters; 4th, Quaboag Social Club against St. John Baptists; 8th, Hibernians against Quaboag Social Club; 15th, Foresters against St. John Baptists; 22d, Hibernians against Foresters; 29th, Quaboag Social Club against Foresters; August 5, Hibernians against St. John Baptists; 12th, Hibernians against Foresters; 19th, Quaboag Social Club against St. John Baptists; 26th, Quaboag Social Club against Hibernians; *September 2, Foresters against St. John Baptists;* 9th, Hiberians against St. John Baptists; 16th, Quaboag Social Club against Foresters.

Notes.

Brierly, the Crescents' captain, will be back in the game to-morrow.

Slattery will be tried out in the box for the Juniors at Brimfield to-morrow.

The Juniors have won the last four games played and expect another victory to-morrow.

Todd is out of the game for the Juniors for the present. He hopes to pitch against Stafford High the 17th.

The Three Rivers baseball team will play the Bemis and Call team of Springfield to-morrow afternoon on the grounds near the Athol station.

For a team which has played together only twice the Palmers are certainly putting up a good article of ball. There is only one or two weak places and it is likely that they will be strengthened.

The Indian Orchard baseball team will play the second of the series of games with the Monson ball team on Flynt Park in Monson to-morrow afternoon at 3 30 Cartmill and Peloquin will be the battery for the Monson team and Grandfield and Barrium for the Indian Orchard.

The Thorndike grammar school team claims that the game played Saturday, May 27th, with the Palmer grammar school, and scheduled in last week's Journal as won by the Palmer team, was won instead by the Thorndike team by the score of 8 to 4

Reckoning Joe Supernan's "six-base hit on five time come at bat" Rogers ought to be credited with a twenty-base hit. Joe had to twice around the bases to get his famous hit, while Rogers made four bases himself and brought in a man from each bag; doubling up, that makes a total of 20 bases.

The game to-morrow will be with the Northampton Y. M. C. A. team, which will be the strongest proposition the Palmers have been up against. It will be a game worth seeing. There will be two changes in the team which it is supposed will make it even stronger than before. Townsend, who has caught, has not proved fast enough for Furkey, and will be replaced with M. Sullivan of Palmer, who caught last year. Martin at first base will be allowed to go, though Capt. Shaw does not state who he has secured for his place.

Cuban Diarrhoea.

U S. soldiers who served in Cuba during the Spanish war know what this disease is, and that ordinary remedies have little more effect than so much water. Cuban diarrhoea is almost as severe and dangerous as a mild attack of cholera. There is one remedy, however, that can always be depended upon as will be seen by the following certificate from Mrs. Minnie Jacobs of Houston, Texas: "I hereby certify that Chamberlain's Colic, Cholera and Diarrhoea Remedy cured my husband of a severe attack of Cuban diarrhoea, which he brought home from Cuba. We had several doctors but they did him no good. One bottle of this remedy cured him, as our neighbors will testify. I thank God for so valuable a medicine. For sale by the Quimby Pharmacy, Palmer.

A WIDOW'S WAY

[Original.]

In the good old village of New Amsterdam, now New York, there dwelt a little widow, Joanna Van Schaack. Most of the Dutchmen of those days were not gifted with quick intelligence with which to penetrate abstruse problems. Indeed, to use a common phrase of today, they could not see through a millstone. But Joanna Van Schaack, though she appeared as stupid as the rest, was quick witted. She had been married at sixteen and now at thirty-four had a daughter of seventeen years, Katrina. Both mother and daughter were comely—the mother in bloom, the daughter in the bud.

There lived also in New Amsterdam in those days a young man, Killian Van Horn. Killian was six years younger than Joanna Van Schaack and eleven years older than Katrina. Until Katrina was sixteen he paid attention to the widow, and it was thought there would be a match between them, but when the daughter budded the young man instead of being ambitious to be her father concluded he would like to be her husband. He gradually dropped away from his first love and took up with the second. He was a year in shifting, at the end of which time he mustered up courage to ask Joanna for her daughter. Conscious of the position he occupied between the two women, he approached the mother shamefacedly. But to his surprise she ignored his former attentions to her and treated his offer for her daughter's hand as a matter to be disposed of in the usual practical Dutch way. Unfortunately the young man was not over prosperous, while the widow possessed a snug farm on the banks of the Hudson river and had a number of gold and silver pieces carefully put away in a woolen stocking. When Killian admitted that his sole possession was a small sloop, with which he brought to market clams and oysters, the widow declined his proposition for her daughter, and he went away much cast down.

From this time forward Joanna kept her daughter under such strict watch that Killian could not even communicate with her. His trouble became known to several of his friends, and one night when they were drinking together at a tavern one of them, Peter Gansvoort, said:

"Why don't you run away with Katrina, Killian?"

"I can't get near enough to her to arrange a plan," replied Killian.

"I'll give you a plan," said Peter. "The mother and daughter go to church every Wednesday evening. We fellows when they are going home may set upon them and carry them both off, you taking the daughter and the rest of us the mother."

The friends all agreed that this would be a fine lark, and Killian was persuaded to enter into it. All agreed to put the plan in practice the next Wednesday evening.

When the evening came the friends and the lover stationed themselves midway between the church and the widow's farm. The night was dark, which they considered fortunate. The friends listened and soon heard voices which they recognized as those of the persons they waited for. As the two women passed the men sprang out and threw a sheet over each. Killian whispered to the one he held: "Katrina, don't be afraid. It is I, your Killian." A soft pressure of the hand was her reply, and, picking her up, he carried her away to the dominie's.

Now, though it was scarcely 9 o'clock, most of the people in the village were in bed, and so was the dominie. Killian knocked on the door, and the dominie came down and let him in. At that time the method of getting a light was by flint struck with steel. The dominie searched for the implements, but could not find them. Killian, who was impatient and feared delay might spoil *his plan, told the dominie that all he wanted was to be married and the knot* could be tied as well in the dark. The dominie assented and performed the ceremony.

Killian's plan was to take his bride home to her mother and implore forgiveness. She tacitly assented, and they walked down to the little farmhouse. When the gate clicked behind them the door was opened, and there in the lighted opening stood a figure.

"Your mother has returned," said Killian. "Now, my dear, brace yourself for the ordeal."

When the newly wedded pair entered the house it seemed to Killian that somehow he had got turned round. The woman beside him with whom he had entered was Joanna Van Schaack. The other whom they found there was Katrina. Killian looked from one to the other in a dazed way, then it began to dawn upon his stupid brain that he had married the widow.

"What does it all mean, mamma? I'm so glad you are safe! And, coming with Killian, I presume you have not been robbed."

"Go to bed, Katrina."

The girl knew by her mother's tone when implicit obedience was expected and went at once to her chamber, leaving her mother and her stepfather together. What transpired between the groom and his bride does not appear in any of the chitchat about the people of New Amsterdam, but Killian never left the house for any other abode, and it was said that he made a very contented, estimable and docile spouse. Katrina soon married a well to do Dutchman named Bleeker, and both the Van Horns and the Bleekers seemed fairly content with their lot, which the widow had had a hand in arranging more satisfactorily than Killian could have done himself. At any rate Killian smoked his long clay pipe in summer evenings on his wife's stoop and looked placidly on the river.

In Spite of the Song.

"Are you fond of music?" asked a stranger of the young man at the concert, who was applauding vigorously after a pretty girl had sung a song in a very painful way.

"Not particularly," replied the young man frankly, "but I am extremely fond of the musician."

A Great Composer.

Ethel—Who was that man you just bowed to? Penelope—That was Dobson, the great composer. Ethel—A composer, did you say? Penelope—He manufactures soothing sirup.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

INTERESTING LETTER

WRITTEN BY A NOTABLE WOMAN

Mrs. Sarah Kellogg of Denver, Color Bearer of the Woman's Relief Corps, Sends Thanks to Mrs. Pinkham.

Mrs. Sarah Kellogg

The following letter was written by Mrs. Kellogg, of 1628 Lincoln Ave., Denver, Colo., to Mrs. Pinkham, Lynn, Mass.: Dear Mrs. Pinkham:—

"For five years I was troubled with a tumor, which kept growing, causing me intense agony and great mental depression. I was unable to attend to my house work, and life became a burden to me. I was confined for days to my bed, lost my appetite, my courage and all hope.

"I could not bear to think of an operation, and in my distress I tried every remedy which I thought would be of any use to me, and reading of the value of Lydia E. Pinkham's Vegetable Compound to sick women decided to give it a trial. I felt so discouraged that I had little hope of recovery, and when I began to feel better, after the second week, thought it only meant temporary relief; but to my great surprise I found that I kept gaining, while the tumor lessened in size.

"The Compound continued to build up my general health and the tumor seemed to be absorbed, until, in seven months, the tumor was entirely gone and I a well woman. I am so thankful for my recovery that I ask you to publish my letter in newspapers, so other women may know of the wonderful curative powers of Lydia E. Pinkham's Vegetable Compound."

When women are troubled with irregular or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, flatulence, general debility, indigestion and nervous prostration, they should remember there is one tried and true remedy. Lydia E Pinkham's Vegetable Compound at once removes such trouble.

No other medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles. Refuse to buy any other medicine:

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

Health is too valuable to risk in experiments with unknown and untried medicines or methods of treatment. Remember that it is Lydia E. Pinkham's Vegetable Compound that is curing women, and don't allow any druggist to sell you anything else in its place.

DR. KENNEDY'S
FAVORITE REMEDY
Breaks no Hearts, Excuses no Crimes.

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it cannot help, it does not harm. It is composed of vegetable ingredients and does not heat or inflame the blood but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements which afflict women, the action of Dr. Kennedy's FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this, in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business certificates never possess. It makes no drunkards—excuses no crimes—breaks no hearts. In its coming there is hope, and in its wings there is healing. We challenge a trial and are confident of the result. Your druggist has it. ONE DOLLAR a Bottle. Bear in mind the name and address: Dr. *David* KENNEDY, Rondout, New York.

UROGLENA IN THE WATER.

So State Board of Health Says In Preliminary Report.

NOT NEARLY SO BAD AS IT SOUNDS.

Not Injurious to Health, and Expected To Disappear in Due Course Of Time.

A preliminary report on the water taken from the reservoir and pipes of the Palmer Water Company last Friday by a representative of the state board of health has been received, and the statement is made that the water contains uroglena in small quantity. This is what makes the water taste and smell so badly. So far as is known uroglena are not injurious to health, and so no serious results are to be feared, and it is the opinion of the state board that the trouble will pass away in a short time.

What's a uroglena? Well, the supplement to the International dictionary says that it is a genus of flagellate infusorians in which many individuals are united in free-swimming colonies. The fusorians, the dictionary says in another place, are one of the classes of Protozoa. It must be their free-swimming qualities which affect the water. We wish they'd take some other place for their bath than the reservoir of the Palmer Water Company. The things may not be injurious to health, but they're rather wearing on the stomach when they give the water an odor strongly resembling that emanating from a second-hand fish. And besides, one dislikes to think, every time he takes a drink of water, of making his stomach a swimming-pool for a few hundred thousand of the things, even if health is not endangered. It's the idea of the thing which takes hold of many. The things—these uroglena—are mighty small, only about one two-hundredth of an inch long, but their strength, judging from results, is all out of proportion to their size. It's a lucky thing they are no larger.

Seriously, it will be hard to make the water users, many of them, believe that the trouble is all due to the uroglena. The water at times and in places has too fishy a smell to warrant much of a belief that the disagreeable conditions can come from anything else. That numerous fish have been taken from the pipes this spring is very well known, and only a few days ago, after a hydrant had been flushed, the man in charge was seen to pick up several objects which had come from the pipe and fling them into the tall grass. The trouble is most noticeable farthest from the reservoir, which is pretty good evidence that the trouble is local and not general. The full report of the state board will be waited with interest, as it is understood that it makes some pretty strong recommendations regarding the entire water system. The water secured last Friday was taken from five sources, one bottle from each of the three reservoirs of the company, one bottle from a house service on King street and one from a service on Fox avenue.

OFFICIAL ROUTE TO TORONTO.

Four State Associations Going to Big Sunday School Convention via C. V.—G. T. Line.

Four New England State Associations of Sunday School workers already have selected the Central Vermont—Grand Trunk Railways, in connection with the Boston & Maine, as the official route to the big International Sunday School Convention to be held in Toronto, Canada, June 23-27. This route is not only the most convenient, but also the most attractive from a scenic point of view, and in the number and variety of side trips offered both to delegates and others who avail themselves of the opportunity to take an enjoyable northern tour at low cost—one fare plus 25 cents for the round trip. Niagara Falls, The Thousand Islands steamer trip, shooting the Lachine Rapids, and stop-over privileges at Montreal are some of the inducements offered by the official line, and these trips are available to all purchasers of special tickets whether delegates or not. The official train will leave Boston at 11.30 a. m. June 21. Those who cannot go at this time may secure the same accommodations on regular trains over the Central Vermont route leaving Boston daily at 11 30 a. m. and 7 30 p. m. Booklet giving full information on application to T. H. Hanley, N. E. P. A., 360 Washington St., Boston. This line also announces a most attractive personally conducted tour to the Epworth League Convention at Denver, leaving Boston on July 3; rate $44 Send to above address for itinerary.

LAKE MEMPHREMAGOG.

The "Loch Lomond" of America.

Lake Memphremagog, in Northern Vermont and Canada, is one of the most charming resorts in the Green Mountain State. This lake is thirty miles long and two and a quarter miles wide, and over two-thirds of its length is in Canada. In early days a favorite haunt of the Indians for fishing and camping; it was named by them Memphremagog, meaning "beautiful water." The Steamer "Lady of the Lake" leaves Newport sailing the entire length of the lake to Magog, occupying about four hours. The view as witnessed from the decks of the steamer is magnificent; the charms of the rocky and uneven shore; the towering cliffs, the long stretches of green forest land and the distant peaks of Owl's Head and Orford Mount, with intervening sweeps and beautiful valley land, present a panorama which appears more beautiful at every turn.

The "Switzerland of America" this region has been called, and many people see in Memphremagog another Loch Lomond, while the Canadian portion has frequently been termed the "Geneva of Canada." In order to get a comprehensive idea of the marvelous scenic surprises of this region, send two cents in stamps to the General Passenger Department, Boston & Maine Railroad, Boston, for their beautiful illustrated booklet, entitled *"Lake Memphremagog and About There,"* and *two cents for the companion booklet,* entitled "Valley of the Connecticut and Northern Vermont".

High School Alumni Reunion.

The annual reunion and banquet of the Palmer high school alumni association will be held at Forest Lake on Thursday evening of next week, the evening preceding the graduating class reception. The program will be as usual. There will be a banquet at 8 o'clock, followed by an address by Superintendent of School R. J. Fuller, and remarks by others. All alumni are requested to attend, and any who have married since leaving school are invited to bring their husbands or wives with them. A large attendance is hoped for. The president of the association is E. E. Hobson, and the secretary Miss Pearl Fish.

GIRL ACCIDENTALLY SHOT.

Painfully But Not Seriously Hurt by a Spent Bullet.

Margaret Esten, about 15, living at West Brimfield, was badly hurt by a spent rifle ball about 6 o'clock Wednesday evening, and but for the ball failing to touch a tender spot she might not now be alive. The bullet, from a 32-calibre rifle, struck her in the right hip, penetrated her clothing and about half an inch into the flesh, but failed to lodge, dropping out and being lost. The girl was standing in the orchard near the house when she felt a blow on her hip and felt a numbness there, but paid little attention to it until she began to feel the blood from the wound. Dr. Cheney was called and found a wound as above stated, besides a bad bruise from the bullet.

The shot was fired by a young man by the name of Colby, who lives with his father on the King farm. He has a reputation for shooting at anything and everything which moves, and on Wednesday evening saw a boy on a fence near the house. He had his rifle and ordered the boy to get off and move quick or he would shoot, raising his rifle as he spoke. The boy knew what to expect and dropped off the fence just as a bullet whistled by his head. The girl was standing on the other side of the river a considerable distance from the shooter, which fact she owes her escape from more serious injury.

JOHN ROBINSON'S SHOWS COMING.

America's Oldest and Most Widely Known Tented Organization.

Representatives of the John Robinson's Tent Big Shows Combined have completed arrangements for the coming of the "Father of Shows," and the billboards show an attractive line of pictorial printing.

The show, under the management of John Robinson, is now enjoying its eighty-third year of prosperity, and is one of the foremost amusement attractions of America, if not of the world.

It numbers among its arenic favorites some of the most expensive and best acts that money can procure. The Capt. Thomson troupe of American cavalrymen, in expert feats of horsemanship; Dare-devil DeBurry, who dashes down a dizzy incline, and loops the gap on a bicycle; the marvelously educated troupe of seals, under the master hand of Capt. Winston; Edna, the world's only lady somersault rider, and twenty equestrian associates.

The Robinson show has always been famed for its menagerie, and this season finds the zoological annex the most complete ever carried by a tented show, comprising costly and rare animals from every section of the globe. This splendid array of animal talent will be seen in the big daily street parade, the finest of American horses. This is the only big show that is not in the circus trust, and it will be in Palmer next Monday.

Mrs. Eliza S. Hitchcock of Warren.

Mrs. Eliza S. Hitchcock died in Warren Sunday at the age of 81. Though few of her own age remain, yet she had many friends in Palmer, for she was born here, came frequently to the place of her birth and was loyal to her early friendships.

Eliza Sedgwick was born in Palmer in 1824, the daughter of John and Aseneth Sedgwick. From her mother's family she inherited scholarly tastes; her maternal grandfather was one of the first graduates of Harvard College. Her father was a notable man in the early history of Palmer; he was sheriff of the County, member of the Legislature, and kept for many years the famous Sedgwick Tavern at Sedgwick Corners. He had six daughters, two of whom, Mrs. Julia Shearer and Mrs. Mary Foster, are living in Palmer.

Eliza Sedgwick married Daniel Hitchcock in 1846 and had lived since in Warren. Mr. Hitchcock was a man of notable ability and fine nature. Their union was a rarely happy one but sadly brief as Mr. Hitchcock died of consumption in 1860. He left a son two years old and a few weeks after his death a daughter was born. Left with her two little children Mrs. Hitchcock devoted her whole life to them and was father and mother both, yet she never neglected other duties. She was a member and active supporter of the Congregational church, ever cheerfully denying herself for its support. She had a large circle of friends to whom she gave largely of herself. It was a peculiarity of hers that not only did she keep the friends of her youth, but their children claimed the inheritance of her friendship and enjoyed her intimacy in their turn. She dearly loved little children and to her last days was glad to tell them stories and share their confidences. Mrs. Hitchcock was notable for the breadth of her sympathy; perhaps that was her chief characteristic. Her heart overflowed with kindness and her hands with generosity; her life, full of a passion for service. By birth and training she had a strong love for books and the intellectual life, so her closing years were full of resources. Her last year had seemed especially content. The absent son and his wife were a continual source of comfort to her. Her daughter was very congenial in nature and tastes, and they enjoyed an ideal companionship.

It was no wonder with her nature and her interests as they were, that Mrs. Hitchcock found existence good. Only a little while before her last illness she said: "I have had a happy life. I am content and I am not afraid of what is to come." Always had she felt that the best was yet to be and as she had waited age, so she waited death and was not afraid. Death came kindly to her. There were a few days only of suffering, of unconsciousness and then she passed from perfect mental power to perfect rest, to join the choir invisible of the immortal who live again in lives made better by her presence.

HAMPDEN.

F. J. Kenworthy has moved into the Methodist parsonage this week.

Mr. and Mrs. F. A. Warren of Chicago, Ill., are guests of his father, M. H. Warren.

Miss Inez Burleigh, who has been spending the winter in Los Angeles, has returned.

Rev. W. E Waterbury of Springfield has been conducting meetings in the Baptist church every evening this week.

NORTH WILBRAHAM.

The Central Massachusetts Electric Co. have returned the permit for electric lighting to the selectmen of Wilbraham.

Mr. and Mrs. F. A. Warren are now occupying their summer cottage "Woodlawn Villa," and are at home to their friends.

Raymond C. Fuller was pleasantly surprised at his home Wednesday evening by about 35 of his friends, the occasion being his 18th birthday. He was the recipient of several presents, among which was a handsome stickpin, given by his North Wilbraham friends. Violin solos were given by Miss Ida Lyons of Westfield and Arthur Lankton of Indian Orchard. Games were played and refreshments served. Friends were present from Holyoke, Westfield, Indian Orchard and Springfield.

NINTH GRADE SCHOOLS

The number completing the course in the grammar schools is larger this year than for a number of years before, there being about 50 who will receive certificates tomorrow evening. Allowing for the usual per cent dropping out, the entering class in the high school next fall will number about 40, and the capacity of the building will be taxed to the limit, if not beyond. The committee also expects to be compelled to open another room in the Palmer grammar school building next fall.

Polish Child Killed by Cars.

Josie Kartmcyk, a three-years-old girl, whose parents live in the Athol block in Three Rivers, was run over by a freight train on the spur track of the Central Vermont railroad near her home yesterday afternoon. The child is supposed to have been lying on the tracks, and when the freight train backed out of the mill yard was run over. The girl was picked up by her mother and Drs. Miller and Chevrette called. It was found that one arm had been severed from the body and one leg partly cut off, while the head was injured. She was taken over the Athol road on the 5 o'clock train to the House of Mercy hospital in Springfield, where she died soon after from the shock and loss of so much blood.

Our Boston Letter

It tells about

The Raise in Royal Arcanum Rates—Nashawena Island History—The Harvard and Tech Merger—Some Hot Weather Politics.

BOSTON, June 14, 1905.

Probably the matter of most concern financially to a large body of the people of the state this week is the new decision of the supreme council of the Royal Arcanum that a higher rate of insurance must be paid after October 1 next. The more the members discuss the matter the madder they get, and to-day the talk is especially hot against the management. The indignant ones are determined to organize a new body and to run it with lower rates of assessment than the supreme council says is possible. But, after all, they cannot get back of a remark of Commissioner Cutting that the only way in which the fraternal orders can do business more cheaply than the old line insurance companies is by more economical administration of business. That is what he said to me this week, and it is in substance what he said in the quoted interview in which he said that it made no difference to the Creator whether a man was insured in a fraternal or an old line company, as far as the operation of the laws of mortality goes. Those laws operate with equal impartiality upon old liners and fraternal members, and the death rates must be sufficient to stand the loss from natural causes. The cheaper insurance which the fratenals have been able to give seems to have been due to the fact that, in their earlier years, they had more than their fair proportion of young men. Deaths were less frequent than in the later years. Consequently assessments were less necessary. The members, who act on the principle of insuring as they go along, have got their insurance thus far at less than a fair rate. Now, they must make up the average. That is all there is to it, and the old members must stand the consequences. If they had died years ago, they would have got their insurance for less than it cost and now, having lost their bet with the company that they would die early, they must step up and settle. That is the only way out of their difficulty.

Gov. Douglas's proposition to take the Island of Nashawena for a site for the state prison has called attention to the Elizabeth Islands and the romance of their early discovery. Hence the Old South Historical Society will make a pilgrimage there on June 24 It is the practice of this society to make such a trip once a year in order to familiarize the minds of the public school children with the important facts in our early history and to make them well posted upon the notable places which are so frequent all over the state. The society will go first to New Bedford, whose site was first discovered in 1602 by Bartholomew Gosnold, who gave his name to the chain of Elizabeth Islands, the town from which it is notorious the returns are usually latest on every state election night. The Island of Cuttyhunk, one of the chain, was also discovered by Gosnold on the same trip. The guide-book says that Gosnold is the smallest town in the state because it has only 164 people. But the returns from Mt. Washington, in Berkshire county, just published this week from the new census, are that there are only 89 persons in that town. One of the features of the pilgrimage will be a trip to Fairhaven, where Henry H. Rogers, standard oil magnate, has a home, and they are expected to look with wonder and perhaps with respect upon the handsome library building which he has given to the town. Whether the cicerone who has charge of the party will deliver a homily before the library upon tainted money is not stated in the program. These pilgrimages owe much to Edwin D. Mead, who is crammed full of historical information about our early people and places, and who puts his knowledge at the service of these young people. The society is doing a work among the public school children of Boston which might well be duplicated all over the state, if there were money for the object.

The great discussion over the merging of Harvard and the Institute of Technology is not likely to come to an end for years, and the vote of the Technology corporation, by 20 to 12, in favor of the union, is by no means decisive as to the final outcome. Former Speaker James J. Myers is one of the trustees under the will of the late Gordon Mackay, who left over $5,000,000 to Harvard college. Myers says that he does not believe that the two institutions should be united, and that the Mackay trustees, as a body, three of them, are opposed to the union. It is not likely that they will consent to the merging without a struggle. Myers says that he talked over the matter with Mackay and he knows Mackay's feelings about the relative advantage of the college and the Institute. Mackay would allow Tech to continue its course of giving a special education to the men who feel that they must get to work at once. He knows that there is a constant demand for the sort of educated men that Tech turns out. He would not diminish their number. But he also believes that the country needs a broader education, something more general and less special, upon which a college graduate can build, something which will give him a wider outlook over the affairs of the world than is possible with a Tech education. Hence Myers is sure that Mackay would never have consented that his money should go to Tech. Mackay looked over the proposition of giving his money to Tech and deliberately turned it down. Then he gave his money to Harvard, and under such terms that the income of the fund can go to Harvard under the changed conditions which will confront the educators many years hence. The money will not be available for some 40 or 50 years, the last of it, for there are 17 beneficiaries now living. When the fund is finally paid over, it is expected to amount to over $20,000,000.

John A. Hobson, one of the very foremost of the rising generation of English political writers, will come to the United States in the fall and will deliver lectures in colleges, societies and clubs upon the problems of the times. He was one of the strongest opponents of the Boer War and he is one of the best posted writers on economical and political subjects. When he was over here two or three years ago, he made quite an impression. One of his best known works is "The Evolution of Modern Capitalism."

It looks as if more citizens of the United States would go to Europe this fall to the international gatherings than ever before. There are three of these great meetings. Beginning August 28, at Brussels, will come the meeting of the International Parliamentary Union, the same body as met in St. Louis in October last and was the cause of President Roosevelt's call for a second meeting of the Hague Peace Con Beginning September 4, at Chr Norway, will come the meeting

PALMER NEWS.

Death of Mrs. G. H. Fay.

Mrs. G. H. Fay died at her home on the lower road to Monson Tuesday, after a lingering illness.

Georgiana Howard Chapin was the daughter of Otis and Abigail Chapin, born in Monson July 31, 1824, and so only lacked about one month of attaining the age of 81 years. Her father died when she was a mere child, leaving to her mother the care of rearing a large family which was accomplished with a remarkable devotion. Mrs. Fay's death leaves but one surviving member of her father's family, in the person of Mrs. Thorp of Holyoke. Miss Chapin was united in marriage to Eli N. Fay in November, 1845, and since that date had lived on the farm where she died, her husband having died in 1880.

Mrs. Fay is survived by two children, Josie and William Fay, who reside on the old homestead and have kindly cared for their mother these many years. Her youngest son, Warren, died some years ago. In her long illness of more than four years, during which time she was confined to her bed, she exhibited wonderful patience and cheerfulness of spirit, and a sustained sweetness of demeanor truly remarkable, waiting without a murmur till the allotted time for relief should come. She was ever forgetful of self and thoughtful for the comforts and needs of others. Mrs. Fay was not a member of any church yet she exhibited in her daily life and conversation abundant evidence of the truest Christian character.

The funeral was held from the late home of the deceased yesterday with a large attendance of friends and relatives, Rev. N. M. Pratt of the Monson Congregational church officiating. Burial was in No. 1 cemetery in Monson. O. P. ALLEN.

The class reception will be held in the opera house on Friday evening, to which invitations have been issued.

For Better Fire Protection.

The water was shut off the mains of the Palmer Water Company for a few hours last Sunday for the installation of a new gate in the 10-inch main on Park street, near the carpet mill road.

The main branches at this point and one branch goes under the tracks of the Boston and Albany railroad to South Main street, while the larger pipe continues along Park street to Main street and the westerly portion of the village. The only gate has been above the Y, so that if there was any accident to the main west of the Y it necessitated shutting the water off the entire system. This the prudential committee of the fire district did not consider a safe condition of affairs, and so induced the water company to put in a gate west of the branch in the pipes. It has also secured from the company an agreement to extend the main on River street about 800 feet, to connect the two ends there, one entering the street from Commercial street and the other from Dublin. This will give a connection from South Main to North Main street, so that in case of a break in the main west of the Y the business section can secure water by way of Dublin and River streets.

Girl Had Run Away.

Officer Collins of Bondsville picked up a small girl late Saturday night who seemed to be roaming about with no place to go. She told a pitiful story of dead parents, life with an aged woman who worked her hard and abused her so that she ran away. He took her to the overseers of the poor and she was quartered at the almshouse for the night. Sunday she rehearsed her story, with variations and additions, and finally admitted that a part of her tale was imaginary. Wednesday morning her mother appeared and it was learned that more of the girl's statements were without foundation, in fact that she had a pretty vivid imagination. The mother's name is Richardson and their home is in Pelham, from which place the girl had run away. She was taken back by her mother.

Lake Theatre Opens Next Week.

The first performance of the season in the Forest Lake theatre will be given next Monday afternoon, and every afternoon and evening following until the close of the season. The initial company is Joseph J. Flynn's minstrels. A minstrel company is always a drawing card, and this one is announced as above the average in excellence. They are announced as the real old-time minstrels, with dancing and comedy sketches second to none, and jokes and riddles and conundrums of a rare quality. The performances will be at 3 in the afternoon and 8 in the evening.

Support the Team.

Those who stayed away from the ball game last Saturday because they thought a Y. M. C. A. team must necessarily be a weak one or the players too goody-goody for the sport made a big mistake. There will be no more interesting game this season than the one last week. It was anyone's game until the last man was out, and the close and exciting situations came in almost every inning. Several times the visitors had men on bases when it seemed as though nothing could prevent them from scoring, but the Palmer boys managed to keep them from completing the circuit, and they went home without a run. And it was a clean game. There wasn't a kick or a semblance of one, and not a sign of rowdyism or disorder. This has been the record of all the games. The attendance has been miserably small. There has seemed to be a desire for baseball here this season, and now that the directors of the association have secured a winning aggregation of players, it is up to the public to give it decent support. The game to-morrow afternoon will be with the Springfield Y. M. C. A., another strong team, and the managers hope for a good crowd.

Electric Car Summer Schedule.

The summer schedule of time on the electric road went into effect yesterday, with half hour service to Springfield and Ware. The first car for Ware leaves at 5.50, the same as formerly, then 7, and hourly until 9, the first half hour car being 9.30, and every thirty minutes after until 10.30 at night. The Springfield service is the same as in the past except that half hour time begins at 8.30 in the morning and continues until 6.30 at night, that being the last half hour car; after that time hourly as before.

There is no change in the cars on the Monson line. For Thorndike, Three Rivers and Bondsville the first car leaves at 5.50 in the morning, then 7, then 8.15 and every hour after until 11.15 at night.

Visitors Being Booked.

Although the season at Forest Lake is young yet, enough bookings have already been made to show that the place has lost none of its popularity. Trinity church Sunday school of Springfield will picnic there to-morrow; next week Wednesday evening the Palmer Eagles will give a supper and dance to those who assisted them with their recent fair, and on Thursday evening comes the high school alumni reunion and banquet. A large party from Springfield is booked for July 1, and others are negotiating for dates.

Schoolhouse Broken Into.

The Shorley district schoolhouse was broken into some time Monday night and a general disarrangement of things indulged in. All sorts of obscence matter was written on the walls and blackboard of the room, the teacher's desk was nailed up, and the drawing and written work of the pupils, which had been prepared for arranging on the walls, was torn to fragments, practically destroying the work of the past year in this line.

Concerning Baseball.

Editor Palmer Journal,

Dear Sir: — The baseball situation is worthy of consideration, and you may be willing to give a little space in your paper for a statement of facts. There is every indication that the people of Palmer have given little thought to the matter, if, indeed, it has held their attention at all.

An association has been formed by some of the best known business and professional men of the town and a strong team has been organized and placed in the field. Three games have been played, all of which have been won by the home team. The visiting teams have been the best in this section and good judges of baseball affirm that no better exhibitions of this kind are to be seen anywhere. The game of last Saturday, in particular, was of more than ordinary merit.

Good order has been preserved upon the grounds. There has been no drunkenness, no profanity or disagreeable language of any kind, and in short, the women and children of Palmer will find nothing to offend them if they care to attend the games. It is the intention of the association to keep to the high standard which has been established, in every particular.

The expense of keeping a strong baseball team in the field is much greater than many suppose. It is also necessary to pay visiting teams liberally, since they have their men to pay. The association has never expected to make money, but it has hoped enough interest might be aroused to make the amusement self-supporting. The attendance thus far has been ridiculously small. No association of men can be expected to keep a baseball team in the field for their own amusement for a great length of time. If it becomes apparent at the end of the season that the people of Palmer do not care for baseball at home, no further attempt to provide it is likely to be made. This will, of course, be decided by the financial results of the season. It should also be remembered that no baseball team, no matter how able, is likely to try hard to do its best work when it has no following to please. Good players lose ambition if given no encouragement, in baseball as in other matters. The people who approve of the attempt which is being made to provide clean, interesting baseball at home, should do their part toward its advancement by liberal attendance at the games. It is possible that many have not realized that they might help in this manner and have therefore made no effort to do so.

PALMER BASEBALL ASSOCIATION.

Miss Annie Fish is visiting friends in Boston.

Good Cheer Rebekah lodge will meet next Tuesday evening.

George Dalrymple of Providence, R. I., is visiting his family on Knox street.

The new hotel which E. W. & C. H. Burns are erecting on Main street will be known as the Hotel Burns.

Patrick McKelligott of Thorndike has taken a position as conductor on the Springfield and Eastern street railway.

Yesterday and to-day will pass for hot ones, especially in comparison with the comfortable weather previous to this week.

Mr. and Mrs. H. W. Holbrook are attending the commencement of Tufts College, making the trip to Boston in their automobile.

The selectmen have made a new speed regulation for automobiles, covering all the villages of the town. It will be found in another column.

The firemen were called out yesterday afternoon for a fire in J. M. Allen's woodlot in Bondsville, where a quantity of cordwood was burned.

Mrs. Winfred Crosier of Millers Falls and Mrs. Robert Bath of Mittineague have been guests of Mr. and Mrs. L. W. Parker on Pleasant street.

John C. Smith has resigned his position in P. E. Bard's restaurant and will take a similar one in the Larkin Shore dinner house in Watch Hill.

Mrs. Emma Troup called on Palmer friends Wednesday and Thursday. Mrs. Troup starts next Monday for Portland, Oregon, to be gone a year.

The long rain of Monday did an immense amount of good to growing crops, and, followed by the warm weather, is pushing vegetation along at a rapid rate.

Principal F. W. Cross of the high school was in Waterbury, Vt., the first of the week and delivered the address at the commencement exercises of the high school of that place.

F. W. Hovey, the Palmer agent for the American DeForest Wireless Telegraph Company, attended the opening of the Hartford station of the company for business on Monday.

E. W. & C. H. Burns have applied to the selectmen for a transfer of their licenses from the basement of the Caryl block on Commercial street to the basement of their new hotel block on Main street.

The summer time table goes into effect on the Boston and Albany road next Sunday, with only one change affecting Palmer; the train which now leaves for Boston at 6.57 in the evening will hereafter go at 6.42.

The subject of the sermon Sunday morning at the Baptist church will be, "Why Are You a Church Member." Sunday school at 12, Y. P. S. C. E., at 6, evening praise service at 7, followed by a short sermon on "Two of Life's Teachers."

A number of Palmer people went to Monson Tuesday evening to attend the presentation of "Valley Farm" in Memorial hall by a Palmer local company. The entertainment was given for the benefit of L. L. Merrick, Woman's Relief Corps.

There is a difference of opinion among the local members of the Royal Arcanum regarding the proposed raise in rates, some of them feeling that, in view of recent statements made to Quaboag council by visiting grand officers, the local council has not been fairly dealt with.

Services will be held in the Advent chapel Sunday afternoon at 3 o'clock. A. J. Allen of Springfield will speak and John Cox will assist in the singing. There will be a children's meeting Wednesday afternoon at 3, and prayer meeting Wednesday evening at 7.30.

The friends of Mrs. O. G. Petrie, formerly of Palmer, will be interested to learn of her approaching marriage, to take place the 28th. She is to be married to Winthrop Packard of Boston, and they will go to Oregon on their wedding journey. Upon their return they will make their home in Boston.

Invitations are out for the marriage of Anna Elizabeth, daughter of Mr. and Mrs. James Healey of 51 Acushnet avenue, Springfield, formerly of Palmer, and Dr. J. F. Roche of Palmer. The ceremony will take place Wednesday morning, the 28th, at 9 o'clock in St. Michael's cathedral, Springfield.

Next Monday will be the forty-first anniversary of the sinking of the Confederate cruiser Alabama by the United States vessel Kearsarge, and the survivors of the Kearsarge crew will meet at Revere Beach in their 21st annual reunion. Henry S. Hobson of Palmer, who was one of the gunners on the Kearsarge, will attend.

Palmer friends of Rev. J. Mason Wells will be interested to learn that he won the competitive Downe's prize of $50 for proficiency in scripture and hymn reading at Yale divinity school, the 6th. Mr. Wells was ordained May 17 to the Baptist ministry in the Union Baptist church of Montowese, Ct., where he has been preaching for the past year.

Lawrence Geransky and Samuel Geransky, both of Three Rivers, appeared in the district court Tuesday, charged with an assault upon John Rawlins. The testimony showed that Mr. Rawlins's son had annoyed the Geranskys and they punished him. The father objected and was also assaulted. Samuel was discharged and Lawrence was fined $5.

Miss Hattie C. Plumley and Arthur Parker, both of Palmer, were married in Waterbury, Ct., yesterday. Miss Plumley has been manager of the Palmer telephone exchange for a number of years, and Mr. Parker is an electrician in this place. After their wedding trip, Mr. and Mrs. Parker will reside in Palmer, where she will resume her position as manager of the telephone.

The Quimby Pharmacy has added a newspaper department to its line of periodicals, established a few weeks ago, and is taking orders for any of the leading papers, which will be delivered at any place within a reasonable distance. Practically all of the leading papers are to be found there. In addition to the store stock, Mr. Quimby has arranged to have the papers on sale at the Converse House office Sunday at all hours after they arrive in Palmer.

A large number of Palmer people availed themselves of the invitation of Dr. Flood of the epileptic hospital to attend the graduation exercises of the class of nurses Monday evening. Teams were sent to Main street for the party, and brought the visitors back after the exercises. The program was very entertaining, consisting of demonstrations and essays, after which light refreshments were served and dancing was in order until 10.30. There were five graduates, Mae D. Brown, Annie A. Caldwell, Auguste Tanski, Louis A. Fontaine and Frank A. Morway.

There were two cases of assault tried in the district court Wednesday morning. Henry L. Martin of Brimfield pleaded guilty and William E. Pratt pleaded not guilty. The latter was found guilty and the cases of both were continued for sentence until July 3. Each is charged with assaulting the other. The evidence showed that the affair took place on land owned by Pratt in Brimfield. A saw-mill had been set up and Martin employed as sawyer. He was engaged in burying some pipe in the ground when Pratt put in his appearance and objected, whereupon words were exchanged and Martin finally assaulted Pratt, which fact he admits. Pratt started to go away, but returned and threw a stone at Martin. Pratt claims that Martin had his arm upraised as if to throw something, but Martin states that his back was turned. It was not proven that he had anything in his hand at the time.

Town of Palmer vs. Boston and Albany Railroad.

Of the 440 feet of filthy drain which ran beside Commercial street in the Depot village of Palmer before the town built the Water street sewer, over 125 feet still continues to menace the public health, much to the disgust of the many people who have occasion to pass same. This drain belongs to the B. and A. R. R. and has been pronounced by the State Board of Health a nuisance. Authority and backbone are sometimes required to induce a large corporation to abate such a nuisance. The board of health of Palmer say they will do no more in this case, and further say the matter is now in the hands of the selectmen, while the selectmen say the board of health are the ones to act. The Town of Palmer needs money and the Boston and Albany R. R. are willing to pay a fair amount for entering the Water street sewer, thereby abating the Commercial street nuisance. The writer would suggest that the six town officials included in the board of health and board of selectmen and their counsel delegate one of their number having six senses to try and adjust the matter with the railroad officials, authorize the delegate to make best bargain possible, then carry out his work and finish up this nuisance now. CITIZEN.

THREE RIVERS.

Cabbage plants at J. T. Geer's Nursery.

Post Office to be Moved.

It has been decided to change the location of the post office to the site opposite the Central Vermont railroad station, and the change will probably take place about July 1st. A petition was circulated almost a year ago asking that this change be made, but as nothing was done at that time it was thought that the matter had been dropped. The office will be in the building formerly used by Miss Mary Twiss as a dressmaking establishment, which will be moved from its present location and enlarged. While the change will not remove the office very far from the present location, nevertheless the change meets with the disapproval of some of the business men.

Union Church Addition.

It has been decided by the building committee of the Union church that $1200 will be needed to build the proposed addition, but the money has all been pledged and the work will be begun at once. The new addition will consist of several more rooms for the Sunday school, and will provide for another entrance to the church.

Sheep Killed by Dogs.

The selectmen were called upon Wednesday to appraise the loss on 19 sheep owned by R D Tucker, which were found dead in the pasture near his farm on East Hill Tuesday night, having been killed by dogs. It is supposed that they were killed Monday night as they had been dead for some time when found, Mr. Tucker being away during the day on jury duty. None of the neighbors who live near heard the noise, so that the mischief must have been done in the night. The loss on sheep killed by dogs is settled by the county and in this case will be quite heavy as they were a valuable flock.

Charles E Keyes was elected supervisor of music, and Miss Florence L Tarbell of Springfield supervisor of drawing. The following resignations were received and accepted: Ernest L. Brigham, Miss Edna L. Pomeroy, Miss Louise R. Tripp and Miss Grace M. Carpenter. Miss Florence E Hellyar was elected to fill the vacancy at East street and Miss Minnie Brosnan to fill the vacancy at West Warren. Henry Green was elected janitor of the East-street schoolhouse and Franklin Bemis of the West Warren schoolhouse. O. Draper Phelps was appointed to take the census of the school children, as required by law to be done annually.

Houlacraft—Foster.

A pretty wedding took place at the home of Mr. and Mrs. Albert D. Houlacraft on Mechanic street yesterday afternoon, when their daughter, Leah, was united in marriage to William E. Foster of Beverly, Rev. William B. Oleson performing the ceremony. The bride was attended by her sister, Miss Katherine, and the best man was Seth Foster. Relatives were present from New York, Philadelphia, Worcester, Plymouth and Newburyport. A wedding reception was held after the ceremony. Mr. and Mrs. Foster left in the evening for a wedding trip to New York, after which they will reside in Beverly, where Mr. Foster is employed.

Austin Woodard has taken a position with Smith & Wesson in Springfield.

One of the engines at Sayles & Jenks's mill broke down Tuesday afternoon, and it probably cannot be started before next week. The cylinder head blew out and the piston rod was broken, but no one was injured and little damage was done.

WARE.

Automobile Fares Reduced.

The Ware and Gilbertville transportation company, which operates an automobile line between the two places, has reduced its fare to five cents. When they first started the automobile line a fare of 25 cents was charged for the round trip. Then a reduction was made to ten cents each way when the trollies began to run. The fare on the electrics was always five cents until the road suspended in January. Upon its reopening last month a 10-cent fare was decided upon but this has recently been reduced to seven, and at certain hours of the day to five.

Miss Ethel Webb of Brunswick, Me., and Miss Katherine Darrin of Addison, N. Y., are guests of Miss Sylvia S. Hyde.

The high school seniors to the number of 28 held their class supper at the Hampshire House Wednesday evening. Miss Martha Kimball, teacher of English, presided as toastmaster.

W. V. Howard has sold his farm on the Palmer road to James Irwin, who formerly lived on the Gilbertville road. Mr. Howard plans to leave town and will go to Chicago for a visit with relatives.

Invitations are out for the marriage of Miss Geneva Belle Gates of Ware and Emil Charles Heidel of Gilbertville, the ceremony to take place at the home of the bride on Church street Wednesday, June 28, at 1.30 p. m.

The annual reunion and banquet of the Ware High School Alumni Association will be held in the assembly hall next Thursday evening, the night following graduation. The banquet will be served by Keith of Warren caterer, and there will be music by an orchestra.

Miss Helen Irwin, telegraph operator, has gone to Greenfield, where she will remain until the latter part of this month, when she will go to the Crawford House at the White Mountains for the summer. During her absence Miss Fay Brown of Westfield will act as operator at the station.

Persis, 76, wife of the late George W. Rich, died Sunday afternoon after being in feeble health for some time. She is survived by four sons, John of Ware, William of Boston, George of Palmer and Henry of Springfield. She also leaves one daughter, Mary, another daughter having died two months ago. The funeral was held Wednesday afternoon at 2.

Mr. and Mrs. C. G. Ganson and her sister, Miss Emma Hinnett, will sail from Boston Tuesday on the Saxonia for England. They will visit London, Paris, Switzerland and in Scotland before their return the last of August. One of the pleasant features of their stay in Scotland will be a reunion on Market Day in the old town of Wick of Mr. Ganson, Peter Murray and J. B. Oliphant of Springfield, Dr. Robertson of Stafford Springs and a Mr. Watt of New York state, all of whom learned the dry goods business in Wick.

OUR BOSTON LETTER.

[CONTINUED FROM FIRST PAGE.]

International Law Association, and beginning September 19, at Lucerne, Switzerland, will come the 14th annual session of the Universal Peace Congress, the body corresponding to that which met in Boston last October. Congressman Bartholdt of Missouri, the founder of the American branch of the International Union, is over there now, making preparations for the meeting. He has a plan for the formation of a regular international congress which he will put before the body. It is one of the most important measures yet brought before the members, and it is sure to attract world-wide attention. He is an enthusiastic worker and will push this matter vigorously. The proposition is the same as was made by our Massachusetts Legislature in 1903 and sent to Congress, where it failed to receive favorable action.

Political incidents this week have been mostly of a hot weather kind, especially the Democratic search for a fitting candidate for governor, in which they have been materially aided by the newspapers. Really the most important statement has been made this afternoon by Judge John J. Flaherty, chairman of the Democratic state committee. He says that there is a bare possibility that Douglas will run again, but only a bare possibility. But, on account of that, he has not yet sent in his resignation from the committee, which he was expected to do a week ago, and he is waiting to have one more talk with Gov. Douglas before he does it. The governor is not expected to return from his vacation till next Monday, and, in the meantime, the place to which he has gone is kept a secret. He wants a rest, free from the intrusion of politicians.

The declaration of Congressman Gillett for Col. Goetting of Springfield as candidate for lieutenant governor has been expected for some time, at least. Last week or before the statement was made by a member of the state committee that the document was in existence and would be produced in due time. But it remains to be seen whether it will make any difference with the colonel's chances. There is no doubt that Eben S. Draper is working the wires to get the nomination, nor that he has been doing it for about two years. It is not probable that the convention will be able to over-ride the preferences of the strong contingent which will be behind Draper. Eugene N. Foss says that his reciprocity wing of the Republican party is in a clear majority to-day and will control the next state convention, and that they are not favorable to the nomination of Draper. The talk of J. M. W. Hall of Cambridge is not yet sufficient to make it appear that he will be nominated. Perhaps Foss himself might like to make a contest for the nomination to second place.

LANDON.

Just What Everyone Should Do.

Mr. J. T. Barber of Irwinville, Ga., always keeps a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy at hand ready for instant use. Attacks of colic, cholera morbus and diarrhoea come on so suddenly that there is no time to hunt a doctor or go to the store for medicine. Mr. Barber says: "I have tried Chamberlain's Colic, Cholera and Diarrhoea Remedy which is one of the best medicines I ever saw. I keep a bottle of it in my room as I have had several attacks of colic and it has proved to be the best medicine I ever used." Sold by the Quimby Pharmacy, Palmer.

BROUGHT TO LIGHT.

Palmer People Receiving The Full Benefit.

There have been many cases like the following in Palmer. Everyone relates the experience of people we know. These plain, straightforward statements will do much toward relieving the suffering of thousands. Such testimony will be read with interest by many people.

Mr. Charles C. Hamilton of Palmer Center says:—"I gave for publication in April, '98, a testimonial about Doan's Kidney Pills after I had used them and after they had done me considerable good. I can only state to-day that I have as much faith in them as I had at that time. When I commenced their use I had severe pain through my back and almost any movement caused it to ache more severely. I suffered from headache in the front and in the top of my head caused, the doctor told me, by overexertion on the wheel. I got Doan's Kidney Pills at LeGro's drug store and they gave me prompt relief. The aching left my back and I was freed from the headaches. I can re-endorse and recommend Doan's Kidney Pills most emphatically."

For sale by all dealers, price 50 cents per box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name—Doan's—and take no substitute.

The staid, dignified and homely baldheaded eagle, the glorious emblem of the American Republic, mates but once and lives with his one mate until he or she dies. If left a widower—even a young widower—the baldheaded eagle never mates again. He remains alone and disconsolate in the nest on the rocky crag or in the branches of a tall pine tree that formed his domicile while his mate was alive. No other female eagle can tempt him to forsake his disconsolate life.

PALMER WINS AGAIN.

Blanks Northampton Y. M. C. A. in a Hot Game.

The Palmer baseball team again last week proved its right to be classed with the strong teams of this section by preventing the Northampton Y. M. C. A. team from scoring on the park last Saturday. The game was the best of the season, and intensely interesting. There were numerous times when a hit might have meant a vastly different score, as in one inning the visitors got a man on third and another on second with none out, but good work kept them from getting further. There were several similar occasions, and it was a fight from start to finish. Rogers, who has had no opportunity to show his worth, was put in the box in the eighth inning, and two hits were scored off him at once, but that was all the good it did, for sharp work retired the side without a run. He struck out one man in the eighth and two in the ninth innings, and demonstrated that the Palmers have more than one pitcher. Sullivan proved a much better man behind the bat than Townsend, and at first was an improvement over Martin. The score:

Bemis & Call 7, Three Rivers 2.

Three Rivers lost on the home grounds Saturday afternoon to the Bemis & Call team of Springfield. J. Bowler, brother of "Goldie," pitched a very good game and Keyes also did well for the home team. Myers did the only work for the visitors; he played left field. He made a two-bagger, which brought in three runs. His base running was also noticeable. The score:

Monson 7, Indian Orchard 6.

The Monson baseball team added another victory to its list Saturday afternoon on Flynt Park in Monson by defeating the Indian Orchard team in a hard fought game, winning by a close score 7 to 6. At the close of the eighth inning the score was 6 to 4 in favor of the visitors, but on a base hit by Cartmill, a two-bagger by Leary and a three-bagger by Smith the score was changed from defeat to victory. This was the second game this season and there was much interest. The score:

Ponies 15, Work and Win 12.

Last Saturday afternoon the Bondsville "Ponies" defeated the Ware "Work and Win" baseball team by a score of 15 to 12 on the Bondsville grounds. The game was marked for its errors in more ways than one, as the Ware boy found out who stepped up and pinched Pitcher Sullivan. The special feature of the game was the fine batting done by Gloster. The score:

Interesting Game at West Warren.

The second game of the West-end league in West Warren was played Saturday afternoon between the Quaboag Social Club and the Foresters, the latter winning by all runs in the last two innings by a score of 9 to 8. It looked to be an easy victory for the Quaboag Social Club up to the eighth inning, the score being then 6 to 0. In the eighth inning the Foresters brought in four runs which made the interest in the game more intense. Pike, the pitcher for the Quaboag Social Club, pitched a good game until the last two innings, when the excitement of the crowd grew so intense. Pike, with the poor support of his men, lost the game. The score by innings:

Foresters,	0	0	0	0	0	0	0	0	4	5—9	8	5
Quaboag S. C.,	1	0	2	0	3	0	0	1		1—8	8	5

Batteries, Armour and Lorange; Pike and Heidel. Time, 1h. 45m. Umpire, Foley. Attendance, 300.

Notes.

The Bondsville Ponies will play the Thorndike Juniors in Thorndike to-morrow afternoon.

The Palmer Juniors will play the Stafford Springs High School team on the Forest Lake grounds to-morrow afternoon.

The Three Rivers Blue Suits failed to appear in Thorndike last Saturday to play the Thorndike Crescents, so the game was forfeited to the latter team.

The Monson baseball team will go to South Manchester, Ct., to-morrow to play the baseball team of that place, and a warm game is expected. Several from Monson are planning to accompany the team.

The Three Rivers Blue Suits forfeited a game to the North Wilbraham Invincibles at Three Rivers Saturday by the score of 9 to 0. The manager of the Invincibles would like to hear from the manager of the Palmer Crescents.

Bondsville Country Club Tournament.

The Bondsville Country Club held a club tournament last Saturday afternoon on their grounds, 14 members taking part. The tournament consisted of a handicap game between the so-called professionals and amateurs. Much interest was shown and many good scores were made considering the number of nature's obstructions which a player must overcome in the course of play. The course is a six-hole course. The score and handicaps are as follows:

Cuban Diarrhoea.

U S. soldiers who served in Cuba during the Spanish war know what this disease is, and that ordinary remedies have little more effect than so much water. Cuban diarrhœa is almost as severe and dangerous as a mild attack of cholera. There is one remedy, however, that can always be depended upon as will be seen by the following certificate from Mrs. Minnie Jacobs of Houston, Texas: "I hereby certify that Chamberlain's Colic, Cholera and Diarrhœa Remedy cured my husband of a severe attack of Cuban diarrhœa, which he brought home from Cuba. We had several doctors but they did him no good. One bottle of this remedy cured him, as our neighbors will testify. I thank God for so valuable a medicine. For sale by the Quimby Pharmacy, Palmer.

The Antalgica
Or Vegetable Pain Reliever

was introduced to the public in 1848, since which time thousands of bottles have been sold each year to an appreciative public, which is a good evidence of its merits. It is adapted to so many ailments it should be in every household, for it cures all kinds of pains both internal and external. For Bronchial affections it is unrivaled by any article in the market. It is a sure cure for Cholera Morbus and Dysentery, if taken in season, also for Coughs. It is an effective remedy for rheumatic affections, stiff joints, swelled limbs, sprains, cramps, tooth ache and many other ills to which the flesh is heir. Try it and it will do you good. It is sold at 25c, 50c and $1.00 per bottle by The Quimby Pharmacy, LeGro's Drug Store and the proprietor,

A SIMPLE CONTRIVANCE

[Original.]

The contrast between fairly good everyday clothes and the costume of a cowboy or a miner is very great. Austin Abbott realized the difference when he entered the Clear creek mining camp in a suit of clothes that he had contemplated throwing away before leaving the east, but had, on second thought, considered good enough for a railroad journey. When he arrived at the camp in them there was a smile on the faces of the men whose costumes consisted of sombrero, woolen shirt and trousers tucked in boots. Then for the first time he realized that his suit was too good for the country.

Abbott was obliged to remain at the camp for some time, since it was the only inhabited central point on a new telegraph line he was setting up. He was a good natured fellow with a pleasant smile, with which he met the banter his clothes called forth. He did not adopt the costume of the country, and all efforts to shame him into discarding his own were fruitless. Such being the case, the camp, excepting one person, accepted the situation and were disposed to permit the tenderfoot to wear any clothes he liked. The exception was James Robinson, commonly called Arizona Jim, who declared that such a "ballroom outfit" was an *insult to the rest of the population. Thereupon* he commenced a number of petty annoyances with a view to forcing Abbott to discard the said "ballroom outfit."

Abbott bore these annoyances patiently, meeting them all with his good natured smile, but it was soon evident to him that trouble was brewing from Arizona Jim, who was the acknowledged fighting man of the camp—a self constituted regulator. One thing especially exasperated Mr. Robinson, and that was that under his persecutions the tenderfoot waxed even more amiable and was growing fat. His girth, which was but thirty-four inches on his arrival, within a week had grown to thirty-eight, and in another week to forty-two inches. When his increasing obesity was remarked upon he laughed and said that camp life agreed with him.

One morning **Arizona** Jim and Abbott met in the only street in the town, and Jim thus addressed the tenderfoot:

"Say, you've been dancin' about in yer ballroom rig, puttin' the rest of us common folks in shadder long enough. I hereby gives notice fer y' to take 'em off. What y' grinnin' at, y' walkin' jumpin' jack? Ef I ever ketch y' in them togs ag'in in this town I'll put a hole in y'."

Hostilities that had been looked for by the miners for some time had now begun. Abbott's amiability had made him many friends, and they admonished him either to put on a sombrero, a woolen shirt and tuck his trousers in his boots or arm himself for a shooting match with Arizona Jim. He simply smiled and said nothing. Whereupon his advisers inquired what they should do with his body. He told them that, having gained so much flesh among them, the freight bill consequent on sending it home would be very high and they had better bury him where he fell.

Early the following morning the whole camp waited at their cabin doors to see the fray. No one believed that Abbott would expose himself unarmed to be shot down like a dog, and no one believed that he would turn and flee at sight of his adversary. All of this only added to the general curiosity.

Abbott emerged from his hut at the usual hour, dressed in the objectionable suit and without any sign of a weapon. His opponent, with a revolver strapped to each hip, was waiting for him and started to meet him. Seeing that his enemy carried no weapons—at least in his hands—the bully refrained from drawing. As the two men approached each other the audience looked on with expectation mingled with disappointment. They disliked to see Abbott shot down unarmed. Nevertheless they were puzzled that he proceeded on his way wearing his imperturbable smile. When he came within a dozen yards of his opponent Robinson stopped and said:

"I give y' far warnin' ylsterday that I wouldn't have no more o' them finery in this yere camp. Take 'em right off."

Abbott, who had also stopped, made no reply except by broadening his smile, showing more plainly his white teeth. He could have done nothing better calculated to throw the bully into a fit of anger. Robinson put his right hand to his belt and drew a revolver, cocking it at the same time.

There was a hush among the spectators, such a hush as prevails a moment before some miserable wretch is eliminated by law.

Suddenly something like a volley from a Gatling gun spat from the waist of the tenderfoot. Arizona Jim threw up his arms, shrieked, then fell sprawling on the ground, dead. Upon examination his body was found to be punctured by five bullets.

Of course Abbott explained. Around his waist, under his false stomach, he had a belt studded with short pistol barrels. A wire attached to a battery in his pocket connected the barrels with a key in his hand. A pressure on the key fired them.

"You see," said Abbott, "I never shot a gun in my life. I could neither fire quick enough to anticipate an enemy nor hit him if I were quick enough. I am a practical electrician, and when I found that either I would have to kill Robinson or he would kill me I arranged this simple device to do the work for me."

"Jesso!" exclaimed his hearers.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

TWO OPEN LETTERS

IMPORTANT TO MARRIED WOMEN

Mrs. Mary Dimmick of Washington tells How Lydia E. Pinkham's Vegetable Compound Made Her Well.

It is with great pleasure we publish the following letters, as they convincingly prove the claim we have so many times made in our columns that Mrs.

Mrs. Mary Dimmick

Pinkham, of Lynn, Mass., is fully qualified to give helpful advice to sick women. Read Mrs. Dimmick's letters.

Her first letter:

Dear Mrs. Pinkham:—

"I have been a sufferer for the past eight years with a trouble which first originated from painful menstruation—the pains were excruciating, with inflammation and ulceration of the womb. The doctor says I must have an operation or I cannot live. I do not want to submit to an operation if I can possibly avoid it. Please help me."—Mrs. Mary Dimmick, Washington, D. C.

Her second letter;

Dear Mrs. Pinkham:—

"You will remember my condition when I last wrote you, and that the doctor said I must have an operation or I could not live. I received your kind letter and followed your advice very carefully and am now entirely well. As my case was so serious it seems a miracle that I am cured. I know that I owe not only my health but my life to Lydia E. Pinkham's Vegetable Compound and to your advice. I can walk miles without an ache or a pain, and I wish every suffering woman would read this letter and realize what you can do for them."—Mrs. Mary Dimmick, 59th and East Capitol Streets, Washington, D. C.

How easy it was for Mrs. Dimmick to write to Mrs. Pinkham at Lynn, Mass., and how little it cost her—a two-cent stamp. Yet how valuable was the reply! As Mrs. Dimmick says—it saved her life.

Mrs. Pinkham has on file thousands of just such letters as the above, and offers ailing women helpful advice.

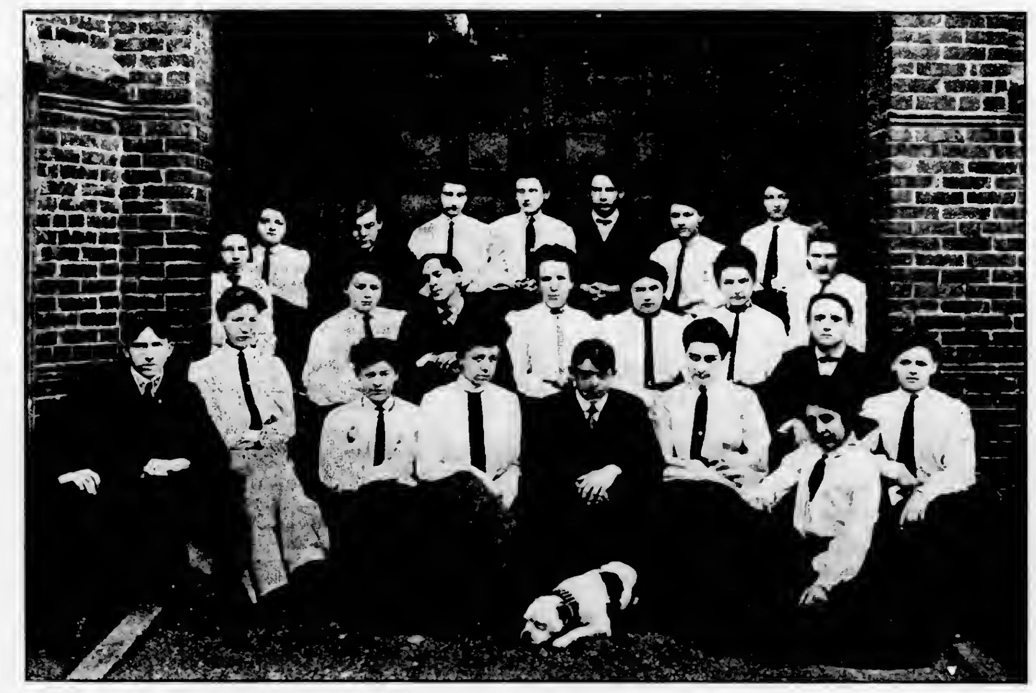
Palmer High School Sends Out Unusually Large Class.

LARGEST IN LIFE OF INSTITUTION.

Class Day Exercises — Graduation Program — Alumni Reunion — Reception To-night.

This week has seen the graduation of the largest class ever sent out from Palmer high school, there being twenty-three to receive diplomas. The names of those who successfully completed the various courses are: Classical course, Josephine Alethea Mahoney, Frances Mildred McGlip; Latin-Scientific course, Laura Blanche Cross, Alice Gager, Robert Gladstone Kenefick, Alice Blanche LeGro, Harry Lee McGregory, Mabelle Bertha Oakes, Mary Ella Webster; English course, Roscoe Adams, Helen Roberta Clark, Edith Hall Childs, Mary Bernice Dillon, Lillie Fenton, Katherine Mae Hartnett, Ella Frances Kenyon, May Frances LaSalle, Viola Marsan, Edwin Clayton Maxwell, George Walter Roche, Sara Moulton Thompson, Edwin Merton Walker, Maude Mae Wilson.



The exercises of graduation week began Monday afternoon, when the class-day exercises were to have been held on the lawn of the Universalist church. A platform had been erected and tastefully decorated with the class colors, green and white, and the friends of the class had assembled at 6 o'clock, when on account of threatening weather adjournment was made to the high school building, where the program was carried out as announced last week.

Graduation came Tuesday evening in the opera house. This was trimmed in a tasteful manner with green and white bunting, ferns, laurel and daisies, while over the platform, in white letters on a green ground, was suspended the class motto, "Esse, non Videri." Seats were reserved in the center of the hall as usual for the high school chorus, and for the invited friends of the class on either side. The program was carried out as printed last week, with an address by Prof. Walter Ballou Jacobs, professor of pedagogy in Brown University. On being introduced Prof. Jacobs announced that it was with pleasure that he appeared before a Palmer audience, because so many good men had come from Palmer; when they wanted a good teacher down in Providence they came to Palmer and took Horatio B. Knox,—a statement which brought instant and hearty applause from the audience—and when they needed a superintendent for the Providence schools they took Mr. W. H. Small, who had formerly been in Palmer, which also elicited applause. Prof. Jacobs took for his subject, "The Gateway of Life," the gateway being graduation day, through the portals of which were to be seen glimpses of the life to come in the future years. His address was extremely interesting and instructive.

Principal F. W. Cross.

The diplomas were presented by Superintendent Robert J. Fuller, who announced that the two pupils who had the honor places on the program—Miss Alice Gager, salutatorian, and Harry Lee McGregory, valedictorian — as well as Miss Alice Blanche LeGro, had all taken two full years of work in addition to the prescribed work of their course, the Latin scientific.

Instrumental music for the evening was furnished by an orchestra, and there was singing by the school chorus under the direction of Miss Cantwell, the music teacher; the senior mixed quartet—Messrs. Maxwell and Adams, Misses Oakes and Marsan—and the senior girls' quartet—Misses Dillon, LeGro, Thompson and Clark—also rendered selections which gave much pleasure to the audience.

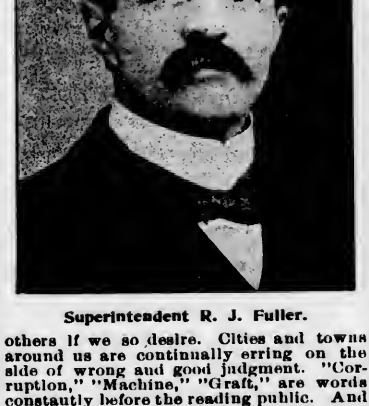
The senior class has issued invitations to a promenade to be held in the opera house this evening, with music by the Philharmonic orchestra of Springfield.

The annual reunion and banquet of the alumni association was held in the pavilion at Forest Lake Wednesday evening. The evening was stormy, but about 40 attended. After an informal social time a banquet was served by Manager Fish. These officers were elected: President, E. E. Hobson; vice president, Miss May Fiske; secretary, W. D. Clark Jr.; treasurer, F. A. Smith. Superintendent of Schools Robert J. Fuller gave an interesting address, and there was dancing until a late hour. The subject of Mr. Fuller's remarks was "Civic Leadership," and he said in part:

High school education is, as yet, in its infancy. The first public high school with a two to four years course was established in Boston in 1821, and up to 1860 less than 200 such schools existed in this whole United States. Formerly it was argued that the town or state had no right to tax the citizens for this purpose. Social as well as economic conditions have been rapidly changing. Wages have increased, hence the children need not begin labor as soon as formerly. The par[illegible] ow says, "I desire to give my boy or g[illegible] tter opportunities for an education th[illegible] ad. I can afford to support him unt[illegible] gets it." Competition has come with[illegible] creased producing power caused b[illegible] chinery. Many of the ordinary occupat[illegible] iow require educated as well as skille[illegible] or, the education making possible a h[illegible]r order of skill. As a result of these conditions the high school has arisen to a prominent place among the institutions of our land. Willingly are the citizens taxed for what is often termed "the people's college." The courses of study in our high schools have been undergoing a like change. Where formerly were taught merely the classics with mathematics and English, we now have scientific, technical and commercial courses. It is now possible for the young man or woman to receive what might be termed a practical education, thereby fitting him, in a measure, for the technical pursuits in the arts and sciences. But what has been the result of this growth upon the individual? With increased opportunities, increased facilities and increased leisure, are not his responsibilities also enlarged? Does it not devolve upon our high school graduate to take the leading place among our citizens? The high school graduates will be and are in a position to come into closer touch with the community, and will be able to exert a powerful influence for good if they so desire.

At the class-day exercises of the class of 1905 a truism was oft times repeated. A truism so many times exemplified in both our public and private enterprises that it may well be given serious consideration. I refer to the statement made "That as a class we have been trying to get the greatest return for the smallest amount of labor." Laudable enough if we mean by "greatest return" the full product, and are satisfied with nothing less; reprehensible, in private as well as public enterprises, if we are satisfied with mediocre results. Following this maxim to its conclusion we will find it necessary to concentrate our energies upon whatever we have in hand. Add to it earnestness of purpose and a willingness to labor, not for personal aggrandisement, but for that higher altruistic principle, the betterment of the general welfare of the community, and you will have at least the foundation for leadership. In past decades to whom have our citizens looked for leaders? Has it been to the educated drone who has regaled himself in the sports of the day? Has it been to the uneducated, uncouth, uncultured laborer who was earning merely a day wage? Me thinks, with few exceptions to prove the rule, we can safely say no. It is rather to the men and women who by constant application to their own labor, added to a desire for growth, have shown such a capacity for work, such a determination in whatever they undertook, that the public has been able to see in them the necessary qualities for carrying to a successful issue the problems of any given campaign. Of our presidents I mention Washington, a successful farmer; Lincoln, a hard working lawyer, and Grant, a soldier, who kept steadily at whatever he undertook. Scores of others might be mentioned who by their capacity for work and their untiring energy have won for themselves the spurs of leadership. Men and women, graduates of the Palmer high school, the citizens of this town look to you for this leadership in the industrial world. The world does not owe you a living, only an opportunity for earning it. After your four long years of patient study you must have acquired something of this spirit, and you owe it to your fathers and mothers that you be not drones, but active, wealth producing citizens.

We all have observed children who were unwilling to profit by our experiences. Most of us however have now reached the age of discernment and can reasonably profit by the experiences and mistakes of others if we so desire. Cities and towns around us are continually erring on the side of wrong and good judgment. "Corruption," "Machine," "Graft," are words constantly before the reading public. And while I am inclined to the opinion that this publicity, this exposure of these evils and their perpetrators, is a healthy condition and one of the signs of a quickened public conscience, I deplore the circumstances which have rendered such conditions possible. If these acts of corruption are possible in large communities, may it not be possible for some of them to occur in smaller communities where the intelligent citizens are indifferent to the public good and careless of their right of franchise? It matters not whether we work in a cotton mill or law office, whether our labor is commonplace or important, so long as it is honorable. It matters not whether we are without money or possess thousands, it is our bounden duty as graduates of the Palmer high school and citizens of this town to rightly exercise our right of franchise; to take a genuine interest in the political affairs of our town, state and nation; to exert our influence on the side of good government and political purity regardless of the interest of corporations, public or private; regardless of profit to



Superintendent R. J. Fuller.

WOMAN WINDOW SMASHER.

Throws Big Rock Into Office of Converse House.

FOR FANCIED INSULT TO CHARCCTER

Wanted to Work for Breakfast, But Was Refused. About Town All Night.

A woman who gave her name as Mary W. McDonnel and her residence as Poughkeepsie, N. Y., is spending 30 days in the house of correction in Springfield for allowing her temper to get the better of her and heaving a big rock through one of the windows of the Converse House office last Saturday morning.

The woman reached Palmer by electric car late Friday night and spent the night at the railroad station. About 6 in the morning Steward Fenton of the Converse House found her in the kitchen, where she was asking to be allowed to work for her breakfast. He asked the employes if they had anything she could do and they decided they had not, and the woman was so informed. She turned to go and Mr. Fenton remarked, "She's been about town all night." The woman overheard and immediately replied, "You're a liar; I'm a decent woman," and then went away. Nothing more was heard from her or thought about the matter until later, when, as Mr. Fenton was standing by the desk in the office a big rock smashed through one of the front windows and dropped on the office floor. Mr. Fenton and Night Clerk Barry ran to the door and were told that a woman had thrown the stone and had gone into the Chinese laundry near by. On their approach she left there and ran toward Thorndike street, where she was caught by Mr. Barry and held until Night Officer Crimmins could be summoned. She was locked up and brought before the district court that morning. She admitted throwing the stone and said that it was because remarks had been made about her character. The window smashing was evidently deliberate, for she made a trip two blocks away to Park street, where they were building a sewer, to get the rock, and brought back three large ones.

CO. E. 36TH REGT. REUNION.

To be Held in Palmer Next Week, Memorial Tablet to be Presented.

The eighth annual reunion of the Company E. Association of the 36th Massachusetts regiment will be held in Palmer on Wednesday of next week. The business meeting will be called at 11 o'clock in the parlors of the Converse House, and dinner will be served at 12 in the hotel.

This company was organized in 1862 and was known as the Palmer and Monson company, most of its members coming from these two towns. It was in this company that Sergeant Lucius Lathrop Merrick, for whom the Palmer L. L. Merrick post of the Grand Army was named, served, and at the meeting last year a committee was appointed to consider the erection of a memorial to him. A bronze tablet has been decided upon, and has been set this week in Memorial Hall by consent of the selectmen and with the approval of the local G. A. R. post. After the meeting and dinner of the company next Wednesday, adjournment will be made at 1 o'clock to the hall, where appropriate exercises of presentation will be held. The public is cordially invited to attend these exercises, and it is hoped that a large number will avail themselves of the invitation.

Of Interest to Women's Clubs.

A " Department of Home and School " has been organized for the great meeting of the American Institute of Instruction at Portland, Me. Among the speakers of national prominence are: Mrs. Sarah S. Platt Decker of Denver, the president of the General Federation of Women's Clubs, Mrs. Eva Perry Moore of St. Louis, president of the National Association of Collegiate Alumnae, Mrs. Frederick Schoff of Philadelphia, president of the National Congress of Mothers. A very low excursion rate has been made to Portland and return; from Worcester, $4 80; tickets are good for return until July 31st; anyone can buy a ticket, whether a member of the institute or not. Return tickets must be approved at Portland, which costs $1. Full information and circulars may be had from R. J. Fuller, superintendent of schools.

Probate Court Business.

Sessions of the probate court were held in Springfield and Holyoke Wednesday, when the following business of a local interest was transacted: Administration granted in the estate of—John C. Burley, late of Wales, Annie B. Thompson of Wales administratrix; conservator's account allowed in the estate of Harriet A. Tenney of Hampden; administrator's account allowed in the estate of Amos Olds, late of Palmer; sale of real estate allowed in estate of John Grady of Palmer.

Ball Player's Leg Broken.

Fred Rindge broke both bones in his left leg Saturday afternoon while playing ball at North Wilbraham. He was running to third base when the accident happened. He was removed to the office of Dr. A. L. Damon, and later was taken to the Springfield hospital.

WESLEYAN ACADEMY.

The Various Doings of the Week at This Institution.

The commencement exercises of Wesleyan Academy in Wilbraham began Sunday morning, when the baccalaureate sermon was preached before the members of the graduating class by Rev. Dr. W. H. Thomas of South Norwalk. He took for his text, " But we all, with unveiled face reflecting as in a mirror the glory of the Lord, are transformed into the same image from the glory to glory, even as from the Lord of spirit." In the evening the address before the alumni was delivered by Dr. Charles H. Buck of Yonkers, N. Y. Dr. Buck was a member of the class of 1860. In 1902 he returned from a trip around the world, in which he visited the great missionary stations of China, Japan and India. While on this trip he had occasion to study the different peoples, customs and religions of the East. The address was a comparative view of these mission fields and the opportunities which they presented, closing with an appeal to the young men and women of America for continued and active interest in the voluntary mission efforts for the evangelization of the world.

Monday afternoon at 2 o'clock the class-day exercises were held on the campus, when the following program was presented: President's address, M. A. Shaw; response for the faculty, Principal W. R. Newhall; class history, Mr. Fowle; memorabilia, Miss Ethel Mowry; selection, senior quartet; ivy oration, Miss Mattie Vickery; farewell to the campus, Miss Marion Marsh. In the evening the Bond prize declamation contest for members of the junior class was held in Fisk hall.

The last chapel exercises were held Tuesday morning in Fisk hall, devotional exercises being conducted by Rev. Mr. Kidder and Rev. Mr. Barton, both being official visitors of the New York east conference. Among other speakers were: Dr. Charles H. Buck, Bishop Mallalieu, and Prof. James M. Chapman of Oxford, O. Rev. John Maynard awarded the prizes, as follows: Excellence in first year Latin, Miss Rachel Cutler; excellence in first year German, Miss Beardsley; Rice mathematical prize, Robert Middlemass Boothby; mathematical prize, Ion Folsom; Bond declamation prizes, Misses Newhall and Maynard and Hector Lussier; Brewer declamation prizes, Miss Carman and Mr. Butcher; Manchester Latin prize, Miss March; Chaffee prize, Miss Ethel Mowry.

The graduating exercises took place Wednesday morning at 10 in the Methodist church. Rev. Dr. W. H. Thomas offered the invocation, and the address of the day was delivered by Rev. Dr. Philip Moxom of Springfield, who took for his theme, "The making of man." At the close of the address Dr. Newhall conferred the diplomas upon the following students: Classical course, Cornelius H. Cables and Frank H. Kidder; Latin-Scientific course, Marion Marsh, James H. Fowle, Robert Middleman; Scientific course, Francis C. Bartleman, Melvin A. Shaw, William H. Westerman; Academy course, Florine W. Allderige, Mary L. Z. Baldwin, Ruby E. Couch, Minnie A. Coote, Nellie M. Dresser, Mary E. Etheridge, Helen K. Judd, Ethel L. Mowry, Myra B. Palmer, Mary E. Underwood, Mattie A. Vickery, Louis R. Demert; Commercial course, Mabel E. Edwards; vocal music, Grace E. Hallock.

The commencement dinner was served in Rich hall at 1 o'clock. Meetings of the board of trustees were held in the afternoon and evening, with 17 members present, the largest attendance for several years. These officers were elected: President, Charles F. Rice of Newton; treasurer, W. R. Newhall of Wilbraham; secretary, Charles Kernon of Pittsfield; new members, George S. Goddard of Hartford, H. W. Cutler of Wilbraham and David Hale of Springfield.

AUTOMOBILES COLLIDE.

Machine Smashed, But Fortunately No One Seriously Injured.

An automobile accident which might have been serious in its results but which fortunately resulted in no very great damage except to one of the machines took place on the road between Palmer and Warren last Friday afternoon.

One machine was occupied by Mr. and Mrs. Loring B. Hall of Newton, Miss L. W. Hall of New Canaan, Ct., Miss M. S. Hideon of New York, and their driver, W. F. Conlan of Boston; they were coming to Palmer. At a point where the road is narrow and sandy they met C. J. Harris with his wife and child in another machine. Messrs. Harris and Hall were both driving their machines, and Mr. Hall pulled to the right as far as the banking would allow. Mr. Harris also pulled to the right but the machine slowed in the sand and he lost control of it, and before either could be stopped they came together. The damage to Mr. Hall's machine consisted of the loss of the right front wheel, the front axle, and the almost complete demolition of the front running gear. Mr. Harris' machine suffered the loss of a mud-guard only. Mr. Hall and Mr. Conlon were thrown out but were not seriously hurt; Mr. Harris received a sprained wrist and a severe shaking up. A team was engaged to draw Mr. Hall's machine to Palmer, and Mr. Harris also returned here, where all rested for a time before continuing their journey, Mr. Harris with his machine and the others by trolley to Springfield.

Is Hampshire-Worcester Trolley Road to be Sold?

Reports from West Brookfield yesterday were to the effect that the Hampshire and Worcester electric road, running from Ware to Gilbertville and West Brookfield, is to be sold at auction some time next week, and that unless a sale is made soon the road will be closed indefinitely. The basis of the report is said to be the visit of Worcester parties to the property for the purpose of looking it over. After being closed all winter the road was reopened only a short time ago, and should it be closed again there will be much regret among the citizens of Ware and Gilbertville, as well as disappointment among the large class of through passengers between Worcester and Springfield, as the closing of this road will make necessary a trip between West Warren and Palmer on the steam cars.

Royal Arcanum Discusses Rates.

There was a large attendance of members of Quaboag council of the Royal Arcanum at the meeting held Tuesday evening to discuss the contemplated raise in rates which the organization proposes. In addition to the Palmer members there were present members of the order from Ware and Warren. Vice Regent Hadley of the Massachusetts Grand Council was present and talked on the proposed changes. After the matter had been generally discussed a committee consisting of C. T. Brainerd, D. F. Dillon and E. E. Hobson was appointed to meet with other committees from other councils for a consideration of the question.

PALMER NEWS.

Robinson's Circus.

John Robinson's circus showed on the Lawrence grounds on Thorndike street Monday afternoon and evening to good audiences, that of the evening being the larger. The circus arrived in town Sunday morning from Pittsfield, but from external appearances about the streets it would never be known that it was within our borders. The parade Monday forenoon was an imposing spectacle. Large numbers of handsome cages, no two alike, drawn by horses which looked sleek and fat, with bands, clowns and all the usual equipment of a first-class parade. The performances—in three rings and a platform—were all that could be desired; in fact, there were so many things going at once—at one time 11 acts—that one needed almost to be argus-eyed to take it all in. However, the acts in the rings were practically identical, so that not much was lost. The menagerie was a good one, containing some fine and rare animals. Of particular interest were some baby lions and a baby leopard, though the latter's mother kept her infant pretty well in a corner out of sight. During the parade in the morning one of the employes had two toes crushed by the wheel of a wagon passing over them and was attended by Dr. Cheney. After the parade there was a marriage in the big tent, when Grant Humphries of Boston, who travels as "Divo," was married to one of the riders, Miss Louise Ambrose of Buffalo, N. Y. The ceremony was performed by Rev. William Sheak, who travels with the company and lectures on the animals.

Care of Crowds Was First-Class.

To accommodate the crowds which might wish to get to the circus grounds without walking on Monday, the street railway ran cars between Main street and the grounds at frequent intervals during the rush hours of the afternoon and evening. That they cared for the people all right was evidenced by one of the circus officials, who remarked that the local street railway had cared for the crowds—taken them to and from the grounds—better than any road with which they had come in contact this season, even in the large places, and expressed much surprise to find so well handled a road "out in the country."

Grangers Locked Out.

The local Grange was scheduled to hold a meeting in the district court room last Friday evening, but failed on account of being unable to get into the room. The door was locked and no key seemed to be available, so the meeting was given up. The matter has been satisfactorily arranged, and the regular meeting next Friday evening will be held. The trouble last week was that the last person out of the court room had pulled the door sharply to, and the spring lock caught. The janitor could not be found in the evening, and no one in the building had a key which would open the door.

Held For Rape.

Walter Stebbins of Monson appeared in the district court this morning charged with rape, the complainant being Mrs. Victoria Dio of Silver street in Monson, and the deed having been committed about 1.30 yesterday afternoon at her home during the absence of her husband. Stebbins pleaded guilty and was bound over to the superior court in $1000 bonds, which he failed to furnish.

Masons to Celebrate St. John's Day.

Palmer Masons will celebrate St. John's Day next Sunday by a service in the Baptist church in the morning, with a sermon by the pastor, Rev. C. W. Williams. On Tuesday evening they will have their annual banquet at Forest Lake, for Masons and their families.

Boy Breaks a Leg.

Bernard Brodeine, the eight-years-old son of Albert Brodeine, fell from the railroad bridge over the highway near the wire mill Monday evening. His right leg was broken and he sustained a severe cut upon his head. He was attended by Dr. J. P. Schneider.

Circus Employe Stabbed.

Two colored employes of the John Robinson circus company engaged in a fight Monday evening on the circus grounds. One of the men was stabbed in the arm and a deep wound inflicted. No arrests were made.

Additional Epileptic Hospital Building.

A new building, to accommodate about 100 patients, is to be added to the epileptic hospital equipment, and an advertisement calling for bids for its construction will be found in another column.

D. F. Dillon was the speaker Sunday at a memorial service held by the Knights of Columbus in Thompsonville, Ct.

Several members of Court Royal Oak of Indian Orchard paid a visit to Court Palmer, F. of A., Tuesday evening.

Mrs. Julia M. Taylor of Richmond, Ind., with her niece, Miss Josephine Richmond, are guests of Mr. and Mrs. G. A. Bills.

D. L. Bodfish has decided to continue his mark-down sale until July, and the low prices will prevail until that time.

Frank Patton and friend, Mr. Crafts, of Wesleyan University are guests of Rev. and Mrs. M. O. Patton on Pleasant street.

Miss Mildred Barrows of Worcester and Henry Bigelow of Natick are guests of Mr. and Mrs. Collin Oakes on South Main street.

Misses Blanche Clapp and Jennie Bray go this evening to Northampton to attend a wedding, where Miss Bray will play the wedding march.

Frederick Thompson has installed a large new box for the keeping of fresh fish in his market, necessitated by his increasing trade in this line.

Miss Julia Thompson has sold her house on North Main street to Mrs. Lyman Snow, whose house at Shearer's Corner was burned some time ago.

The senior class of the high school, with invited friends, held a picnic at Forest Lake yesterday. In the evening the party was entertained at the home of Miss Edith Childs in Bondsville.

The usual services will be held at St. Paul's church Sunday. The regular church meeting will be held before communion Thursday evening, which will probably be the last until September.

Howard Collis has secured a position as reporter on the Hampshire Gazette at Northampton, and is spending a week's vacation with his parents on South Main street previous to going there.

J. P. Lynde of Webster, formerly of Palmer, was in town Tuesday night and Wednesday on his way home from Pittsfield with a new four-cylinder automobile, a "Berkshire," which he had just purchased.

Among the divorce cases heard Tuesday at the jury-waived session of the superior court in Springfield was that of Malinda Smith of Palmer against John F. Smith of Collina, N. B., for adultery. She was granted a decree nisi.

Whitcomb & Faulkner have in their store window a Stearns ladies' bicycle which they started Tuesday at $35, and are reducing the price $1 each day until it is sold. To-day the price was $32, to-morrow it will be $31, and so on.

There will be preaching in the Advent chapel next Sunday afternoon at 3 o'clock. Elder P. J. Smith will preach. A children's meeting will be held Wednesday afternoon at 3.30, and the regular weekly meeting Wednesday evening at 7.30.

Copies of the annual report of the State Board of Agriculture have been received by the secretary of the Eastern Hampden Agricultural Society, and copies may be had for the asking at the Journal office or of the C. D. Holbrook Co., or J. A. Hamilton, grain dealers.

The marriage of Dr. John F. Roche and Miss Anna Healey will take place in St. Michael's cathedral in Springfield next Wednesday morning at 9 o'clock, followed by a reception at the bride's home at 51 Acushnet avenue. A number of Palmer people will attend.

Tockwotton tribe of Red Men elected the following officers at a regular meeting last night: Sachem, J. F. Roche; Senior Sagamore, E. D. Tufts; Junior Sagamore, G. A. Moore; Prophet, S. B. Keith; representative to Grand Council, E. E. Hobson; alternate, C. E. Fuller.

The district court was called upon Monday to consider the case of Victor Rivers of Williamsett, charged with the larceny of a harness and robe from Pierre Goddu of Ludlow. Probable cause was found and he was bound over to the grand jury, being released on $300 bonds.

Three carloads of children from Springfield visited Forest Lake last Saturday, and a party came from Stafford Springs, being met at Monson by electric cars which took them direct to the grounds. St. Peter's church Sunday school of Springfield is planning to picnic there July 1.

Mrs. W. D. Mason shows a peculiar growth of asparagus, five stalks having grown together to form one stalk about the ordinary thickness—perhaps a quarter of an inch—and nearly an inch and a half in width. The outlines of the several stalks are plainly shown where they are joined together.

The subject of the sermon at the Baptist church Sunday morning will be "The Three Dimensions of a Complete Man." Thomas lodge, F. and A. M., will attend the service. Sunday school at 12, Y. P. S. C. E. at 6; evening praise service at 7, followed by a short sermon on "One of Christ's Promises."

The fame of the Palmer drinking water has spread abroad evidently, for a peddler has been going the rounds of the village this week offering a filter for sale, with the inquiry, after he has rapped and secured the attention of the lady of the house, "Lady, don't you want to buy something to purify this water?"

At the meeting of Court Palmer, F. of A. Tuesday evening the following officers were elected: C. R., W. F. Gaffney; S. C. R., James Smith; R. S., G. C. Goodes; S. W., Albert Ayers; J. W., William Clifford; S. B., Walter Burford; J. B., Joseph Wilder; L., J. E. Learned. These officers will be installed July 18th.

A cross between an arc and incandescent electric wire Wednesday burned out a number of services on Main street between Central and Walnut, and on Central and Thorndike streets. At Forest Lake the lights went out about 9 o'clock, and the high school alumni banqueters were forced to make the best of kerosene lamps.

If the managers of the opera house care for the good will of its patrons they will stop cigarette smoking in the lobby. The drafts about the building are such that odors from the lobby are carried into the audience room through the doors whenever they are opened, and that from cigarettes is decidedly disagreeable to many, especially ladies.

State Highway Commissioner Parker has been in town this afternoon, and met the selectmen and other citizens concerning the proposed new layout for state highway at West Brimfield, whereby the road is to be kept on the west side of the river from a point beyond West Brimfield to the "King" farm, and so avoid crossing the railroad or the river.

Theatregoers will be interested in the announcement that Wright Lorimer, with "The Shepherd King," will play a return engagement at the Court Square Theatre in Springfield early in October. Many people from this and the neighboring towns saw the play in Springfield when it was there last season, and doubtless a large proportion of these will wish to see it again in the fall.

O. W. Clapp, an engineer on the Boston and Albany road, has had his run changed and will move his family from Squier street to South Framingham. He begins his new run next week, but his family will remain in Palmer for a while. Mr. Clapp's new run will be between South Framingham to Boston, with one trip daily on the Milford branch, and will enable him to be at home noons and evenings.

A man from Ware with a tendency to hunt trouble got into a mixup with one of the electric road employes in front of the waiting room Monday afternoon, but the combatants were separated before any serious damage had been done to either. The fellow went to the circus grounds later and again found what he was evidently looking for—trouble—and it is said that he got all that was coming to him.

A lecture on the Passion Play, illustrated with the stereopticon, will be given at Forest Lake Sunday evening at 8 o'clock by Prof. Timothy Drake. No admission fee will be charged. Prof. Drake witnessed the play in Ober Ammergan and spent a season in this place, thereby becoming closely acquainted with the living characters of this sacred play, besides securing some very fine views. The lecture is especially interesting and deserves a large audience.

The attendance at the ball game on the park last week showed the attendance must be very much larger if the team is to be self-supporting. It is a strong aggregation of players, and is putting up an almost errorless game. It is the plan of the managers to play only the strongest teams, and many games have been refused with teams known to be below the Palmers in ability. To-morrow the Gilbertvilles will be here, and as they are reported to be unusually strong the contest should be interesting.

Principal F. W. Cross of the Palmer high school left this morning for a trip to the battlefields of Virginia. He goes direct to Richmond and will spend a good part of next week on the field of the seven days' fighting before Richmond. Next week is the 43d anniversary of this fight, and Mr. Cross will visit the battlefields of Mechanicsville, Gaines' Mill, Savage Station, Glendale and Malvern Hill. He will visit the battlefield of Cold Harbor and the territory around Petersburg, and on his return will stop at Fredericsburg and visit the battlefields of Fredericsburg and Chancellorsville, the Wilderness and Spottsylvania. He expects to be gone two or three weeks.

The continued case of John and Mary Myers of Monson, charged with malicious mischief, was heard in the district court last Saturday and they were discharged. They occupy a farm owned by Mark Noble, who was the complainant. He was charged with an assault on Mrs. Myers, who however acknowledged satisfaction, and Mr. Noble pleaded nolo. He was found guilty and fined $12. Thomas Quigley of Monson, for drunkenness, was sent to the house of correction for 30 days. George Duquette was fined $10 for disturbing the peace of Ludlow, and appealed, but later changed his mind and settled. William Leffie of Ludlow was found guilty of non-support and his case was continued until July 3.

The weather of the past week has proved decidedly unfavorable for the theatre performances at Forest Lake, it having rained almost every day. Nevertheless, the performances have been given as frequently as possible, and have been unusually good. They will be given to-morrow afternoon and evening, and lovers of minstrelsy will do well to attend. Next week there will be a company of colored troubadours. These are probably as popular with the theatre-going public as any of the various companies which will appear during the season, and Flynn's Nashville Troubadours have been selected especially on account of their good work in amusing the people. They have a new playlet, and during the performance about 20 musical numbers are rendered.

The Judson Tourist Company, operating from Boston in connection with the Boston & Maine Railroad, the Chicago, Milwaukee & St. Paul from Chicago, has issued an attractive itinerary in the interest of International Convention Epworth League meeting at Denver, July 5-9, 1905. In this connection it is interesting to note the popularity of these Judson Tourist Parties. This Company on the occasion of the International Convention Christian Endeavor held at San Francisco in 1897 carried from the New England States 249 delegates, while for the International Convention Epworth League in the same city in 1901, 178 delegates were carried.

Denver with its mountain resort vicinity being a decidedly attractive summer tourist point, it is safe to presume the movement on account of this Convention will be large, especially since the greatly reduced rate $47.00 for return passage from Boston is open to the general public. Hence, delegates to the Convention can be accompanied by their friends. A copy of the Judson itinerary referred to can be found at Boston & Maine and connecting line offices, also office of the Chicago, Milwaukee & St. Paul Railway, 368 Washington Street, and of the Judson Company, Room 41 Journal Building, Boston.

ACADEMY COMMENCEMENT.

Full Account of the Various Exercises of the Week.

The Monson Academy commencement exercises began Sunday evening, when the baccalaureate sermon was delivered in the Congregational church by Rev. John L. Kilbon of Springfield. In spite of the excessive heat there was a good attendance. Special music was furnished by the church choir, Miss Werner soprano, Miss Coney contralto, Mr. Rycroft tenor, and C. F. Orcutt bass. Miss Lucy B. Woodward presided at the organ.

Mr. Kilbon spoke from the text Philippians iii: 12, "I press on, if so be that I may lay hold on that for which also I was laid hold on by Christ Jesus." He said in part:—

These words are a description of the inner life motive of one of the most successful men that ever lived. It would not be too much to say that they contain the secret of his success That secret has been sought in Paul's logic, but he was not always a close reasoner. It has been attributed to his theology, but Paul is rather a source than a compendium of theology. The man's real power, which has been supreme in many ages and which is still far beyond that of any other one man in the thought of the civilized world, lay in his personal relation to Jesus Christ. When we have taken away by analysis the elements of that relation which he shared with other loyal and enthusiastic followers of Jesus, and find the residuum to be a deep and abiding conviction that his work in the world was a work for which he had been especially appointed, and that he was working toward an ideal of character which had been framed for him in the mind of his Lord.

It was comparatively easy for Paul to reach such a conviction as this. In thought and in deed, theology and religion stood at the front of his view of life. For many centuries after his time, theology reigned undisputed as queen of the sciences. In our day she has been deposed, and biology rules in her stead. She has little voice in the world of learning, and the idea of decapitating her has many advocates. Unfortunately for that plan, she is immortal. The revolt which she brought about by her tyranny has gone too far rather than not far enough. It is one of the opportunities of the present age to restore to theology her rightful place in the thoughts of men.

The practical problem, however, is commonly to define the areas within which each should be supreme. This undertaking is too great for a single man or a single generation. We can only work at it. In the individual life, however, some division may be reached. In a general way it may be said that induction should guide our thought, and intuition our conduct. And conduct, Matthew Arnold declared, is three-fourths of life. For the solving of the problems of conduct, we may use as a test Paul's query, which is, in substance, "What does Christ want me to do?"

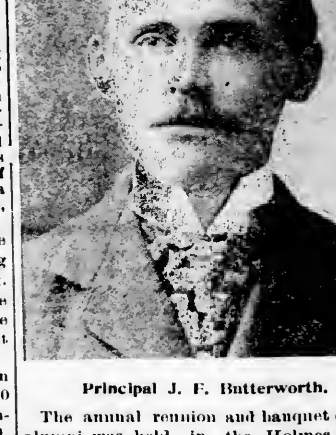
The class day exercises were held on the Academy campus at 6 30 Monday evening and in the Academy chapel at 7 o'clock. There was a good attendance and the exercises were unusually interesting. The program was carried out as given in last week's Journal.

The graduating exercises were held in Memorial Hall Tuesday morning at 10 o'clock, and notwithstanding the unpleasant weather there was a good attendance. Music was furnished by Orcutt's orchestra, which played several selections while the audience was being seated. The members of the Academy marched in in procession, the graduates going to the stage, where they were seated with the members of the faculty and trustees. The invocation was made by Rev. C. A. Dinsmore of Waterbury, Ct., and was followed by a selection by the orchestra. The salutatory was made by Miss Nellie M. Beckwith, who also had an essay on "Necessity, the Mother of Invention." This was followed by an essay on "Shakespeare's Shylock" by Miss Frances J. Brainerd, and an oration on "Europe in Asia" by Arthur S. Graves. A trombone solo was rendered by Fred Grady, after which there were essays on "Youth and Progress" by Miss Bessie Newton, "Our American Girl of To-day" by Miss Marion Butterworth and "The Power of Imagination" by Miss Margaret A. Cushman. After a selection by the orchestra, Miss Alicia B. Gough gave an essay on "Women in the Business World," Miss Anna B. Crowley an essay on "Daily Trials," and Miss Kate E. Cushman an essay on "The Art of Leadership" with valedictory address. The speaking throughout was unusually good and the papers were spoken of later in the day as of unusual merit. The diplomas were presented by Rev. P. W. Lyman of Fall River, president of the trustees, after which the exercises closed with the benediction.

The decorations of the hall were simple but attractive, consisting of flowers and ferns, with the class colors, red and gold. The class motto was "Per angusta ad secunda."

The members of the class and their courses are as follows: Classical course, Marion Conant Butterworth, Kate Earl Cushman, Margaret Adams Cushman; Latin-Scientific course, Nellie May Beckwith, Frances Judd Brainerd, Ellen Elizabeth Doyle, Anna Bernadette Fitzgerald, Alicia Bernadetta Gough, John Clemenson Maguire, Florence May Park; Academic course, Mary Ellen Barry, Anna Barbara Crowley, Mary Josephine Ford, Arthur Spaulding Graves, Mary Anna McKenna, Mary Agnes McQuaid, Frank Louise Moore, Bessie Lavilla Newton, Alice Esther Noble, Frank Reed Rees.

The Dewey prizes for the best average for the year were awarded to Ruth Flynt and Francis L. J. McQuaid. The class of '82 prize for the best English work was given to Arthur S Graves, and the Hassett algebra prize to Wilson Brainerd.



Principal J. F. Butterworth.

The annual reunion and banquet of the alumni was held in the Holmes gymnasium at 12 30, an excellent dinner being served by the Woman's Relief Corps. President A. D. Norcross introduced Rev. F. S. Hatch as the toastmaster, after appointing a nominating committee consisting of W. M. Tucker, A. M. Walker and Miss Mabel Anderson. The members rose while the report of the necrologist was read, showing that 17 had died during the year: Rev. Augustus Albert of Springfield, Prof. Samuel Ives Curtiss of Chicago, Judge Kirk Howes of Chicago, Mrs. J. S. Loomis of Palmer, Rev. L S Roland of Lee, Jacob H. Strong of California, Judge Henry E. Taintor of Hartford, Ct., Miss Maria Phillips of Michigan, Prof. W. W. Eaton of Middlebury, Vt., Samuel Knox of St. Louis, Mrs. A. H. Cooledge of Worcester, Dr. Jarvis K. Mason of Suffield, Ct., Emerson Bennett of Philadelphia, Mrs. Abigail Chapin Penniman of Worcester, Joseph Carpenter, Miss Amy Eaton and Mrs. R. S. Coltman of Monson.

Mr. Hatch, a former pastor of the Congregational church and trustee of the Academy, was as entertaining as usual in his introduction of the speakers. Before beginning on the alumni he called upon Miss Dora MayerDas, a young woman who accompanied him home from India to secure an education in this country. She has been at Northfield the past year, where she took a first prize for English work. She spoke most entertainingly, with only a slight accent and with a peculiarly soft and melodious voice. Miss MayerDas spoke of the pleasure it gave her to be in this country and in Monson, and of the many strange things here which the people of her country were not accustomed to, perhaps the strangest being the hustle and bustle of American life. She was sure she should bid America a tearful good-by, and if the next four years of her stay were as happy as the past year she was sure she would be compelled to return again. Later in the afternoon she sang a song in her own language.

Principal Butterworth was called on to speak for the faculty, and in his introduction Mr. Hatch alluded to his approaching marriage, this being the signal for a shower of confetti which nearly buried him from sight, which Mr. Butterworth took in good part. He suggested that the faculty would like more visits from the parents of pupils and from the alumni. There has been a decrease along this line during the past year, and pupils will not do their best unless someone besides the teachers are interested in them. He also made a plea for more interest in the debating societies of the Academy, pointing out that speaking cannot be acquired through rule, but by actual practice only. He asked for interest in and visits to the Linaphilian and Philomathean societies.

Rev. C. A. Dinsmore spoke for the trustees and, alluding to the time and energy which the men of Monson had put into the institution, maintained that the town owed them a great debt of gratitude; while other institutions have gone down under modern methods of education Monson Academy stands higher than ever, and there is no reason why the next hundred years should not leave it more fruitful than the last.

Mrs. J. P. Rand, a former teacher, spoke for the teachers, and closed an interesting address by the suggestion that Monson Academy is laying aside the conservatism of its childhood; that nothing but the truly best is good enough for it, and that it is seeking most advanced thought in all direction.

Mrs. Murray, formerly Miss Gertrude Gage, spoke for the future of the Academy. It has been a foundation for good and the house should be worthy of the foundation. Students of the Academy owe something to it after they leave its walls.

Miss Mabel Anderson spoke entertainingly for the class of '85, and Carl Rand for the class of 1904. Letters were read from Mr. Warren, W. J. Harris, Principal Putney and Maude Carolyn Sweet, after which Mr. Graves spoke for the class of '05.

These officers were elected: President, A. D. Norcross; vice president, L. C. Flynt; secretary and treasurer, T. L. Cushman; chair [illegible] executive committee, Miss Hattie [illegible]man.

The senior reception was held in the Academy chapel at 8.30 in the evening and was well attended by students, friends and alumni.

The class held a picnic at Evergreen Park Wednesday, as has been the custom for several years.

The year which has just closed at Monson Academy has been a most prosperous one. The attendance has been the largest in 30 years, the average having been about 140 during the year. In the years 1877 and 1878 the attendance was 127, and in 1897 it was 106. These have been the largest years for a long period. No new courses have been added during the year, but in the department of physics much new apparatus has been added, and extended courses have been given in that department and in higher mathematics. Several scholarships have been received. O. A. Pease of Chicago gave one of $100 for the best work by the boys; Miss Esther R. Holmes has given one of $50, and O. D. Munn of New York one of $50 Mr. Pease has also given the school about $50 worth of maps. This was the first year of the occupancy of Cushman Hall, and it has proved to be a great success as a home for the boys. Several receptions and musicals have been held there during the year, which have been well attended and much enjoyed. The principal's house, known as Hammond Place, has been completed during the year and occupied by the principal since Christmas. The school has been successful in athletics, having had an unusually strong baseball team and a winning relay team. There will be a change in the corps of teachers this fall as Miss Parker, Miss Thrall and Mr. Lester will not return. Mr. Lester will enter the University of Wisconsin to continue his studies. Of the senior class Miss Butterworth will enter Boston University; Miss Beckwith, Mt. Holyoke; Hiota, a Japanese student, Yale college; Miss Brainard, North Adams Normal school.

The old board of trustees was reëlected with the exception of Dr. F. W. Ellis, who resigned from the examining and standing committees. A. D. Norcross was elected to the vacancy on the examining committee and T. L. Cushman to the standing committee.

Kibbe—Fuller.

A wedding of interest to Monson people is that of Ernest S. Fuller, a graduate of Monson Academy, and Mabel Kibbe of Somers, Ct., which took place last week Thursday evening in the Congregational church in Somers at 7.30. For a half hour previous to the ceremony an organ recital was given by Prof. Abell, director of Hartford Conservatory of Music. The bridal party entered the church to the music of the "Lohengrin" wedding march, in the following order: Ushers, Robert A. Bartlett of New York, Roger T. Morris of Worcester, Herbert W. Fuller of Springfield, S. Dwight Percival of Somers; maid of honor, Miss Belle P. Fuller of Somers, dressed in white net over nile green, carrying sweet peas; flower girls, Misses Mabel Gager of Thompsonville and Longeay Phillips of Philadelphia, cousins of the bride, wearing dresses of white lawn and lace; matron of honor, Mrs. J. L. Phillips of Philadelphia, cousin of the bride, gowned in white and pink chiffon. The bride followed on the arm of her father. She was attired in white satin with lace veil caught up with orange blossoms, and carried a shower bouquet of lilies-of-the-valley. At the altar the party was met by the groom and best man, Olin F. Herrick of Auburndale, a classmate of the groom at Wesleyan University. The ceremony was performed by Rev. Charles H. Ricketts of Norwich, assisted by the pastor, Rev. Edward P. Root. The party left the church to the music of "Mendelssohn's" wedding march. Following the ceremony was a reception at Peidmont, the home of the bride's grandfather, Hon. Henry R. Kibbe. Guests were present from Philadelphia, New York, Boston, Worcester, Springfield, North Adams, Thompsonville and Chicopee Falls. The presents were numerous and valuable. Mr. Fuller is secretary and treasurer of the general mercantile store of the Fuller, Bugbee Company, and is also interested in the electric contracting company of Worcester, Mass. The future home of the wedded coup'e will be at Peidmont.

William Ingalls of Tufts College, a former student of Monson Academy, has been spending a few days here.

Mr. and Mrs. A. H. Orcutt are spending a few days with Mr. and Mrs. A. H. Bennett in Colton Hollow.

Miss Marguerite Fox, Miss Bessie Leahy and Miss Georgie Smith have gone to Mystic, Ct., for a vacation.

Several of the G. A. R. post and Relief Corps will attend the annual field day and picnic at Mt. Tom next Tuesday.

"The Science of Living with Others" will be the subject of the sermon at the Congregational church Sunday morning.

The recital given in the Academy chapel Saturday night was well attended and was much enjoyed by those who attended.

A. H. Bennett, employed at W. N. Flynt & Sons', is enjoying a two-weeks' vacation at the Bennett farm in Colton Hollow.

Misses Mary and Isabel Bogan of Springfield have been the guests of Miss Mamie Leary on Green street this week.

Misses Effie and Eva Hamilton of Ellington, Ct., have been spending the week with R. A. Beckwith and family on Lincoln street.

Perley Aldrich of Williams College, who has been the guest of Carl Rand on Main street, has gone to his home at Newark, N. J.

Ernest Watson is at home from the Boston Art School for the summer, and will be employed at W. N. Flynt & Sons' store.

A party of six boys from the Congregational Sunday school will go to Camp Becket at Becket next week for a short outing.

The evening whist party which was arranged for next Tuesday evening at the golf club house has been indefinitely postponed.

The Lemon family have been released from their scarlet fever quarantine and the house has been fumigated by the board of health.

Mr. and Mrs. H. F. Miller have returned from a several days' visit with relatives at South Coventry, South Manchester and New London, Ct.

The trustees of the Massachusetts hospital for epileptics will receive proposals for the erection of the new building up to 1 o'clock July 5th.

The women of the Quaboag Country Club will have a handicap match for a silver cup, nine holes medal play, to-morrow afternoon on the North Monson links.

James M. Hynes and daughter Agatha of Lidgerwood, North Dakota, are visiting his brother, E. P. Hynes of Washington street. Mr. Hynes left Monson in 1886.

Principal James F. Butterworth left Wednesday for Boston, where he will remain until after his marriage with Miss Lydia Dow at Marion next Thursday noon.

The annual basket picnic of the Merrick [illegible]straw workers will be held at For[illegible]ke next Wednesday. Residents of Pa[illegible] and Monson are cordially invited.

Station Agent M. G. Pattee and family are spending two weeks at Milton, Vt. Mr. Gowey of Norwich, Ct , is assisting John Broadfoot at the depot during his absence.

Miss Lillian Pease has returned from the Boston conservatory of music and will spend the summer with her parents, Mr. and Mrs. Frank Pease on the Hampden road.

George Warren of Newark, N. J., was the guest of his sister, Mrs. Julia Needham on Main street this week. Mr. Warren has spent six years in Brazil and four years in Cuba.

The remainder of R D. Tucker's flock of sheep, five in number, have been killed by dogs. A watch was kept for several nights, but the first night the watch was taken off, they were all killed

William McAuliff received word from Noroton, Ct., this week that he has been remembered in Mr. Ziegler's will. Mr. McAuliff was employed at Mr. Zeigler's summer residence at Noroton for nearly three years.

The Cushman Hall boys have returned to their homes for the summer vacation. John and Chester English and Ned Potwin have gone to East Windsor Hill, Ct., Harold Briggs to Pawtucket, R. I., and Ernest Proctor to Whitinsville.

Monson was practically in darkness Wednesday night as all of the street lights and a part of the house lights were out all the evening. The trouble was caused by a wire in front of the Methodist church coming in contact with the wet limb of a tree. The trouble was repaired Thursday so that the lights were going all right last evening

The selectmen have received complaint in regard to the drain running from the Noble block on Main street to the Hughes and Cushman property on Cushman street. On investigation the selectmen find that it is a private matter and must be settled between the parties concerned, and the board is consequently relieved from any responsibility in the matter.

The practice of ball playing on Main street still continues, and probably will until an example is made of some of the players. Several of them have been warned and in some cases it has been stopped, but the practice is still continued by others who are not considered boys, and who are old enough to know that Main street is not the proper place for ball playing.

Rev. W. E. Franklin of Shaw University will give readings from Paul Dunbar's poems in the chapel of the Congregational church this evening. Shaw University is situated in Raleigh, North Carolina, and takes its name from Hon. Elijah Shaw, formerly of Wales, Mass. At the close a collection will be taken in the interest of the University. The entertainment begins at 8 o'clock, and the public is invited.

BRIMFIELD.

Stereopticon Lecture.

Dr. Fisk gave the third stereopticon exhibition of foreign scenes in the town hall last Friday night. There was a good-sized and exceedingly attentive assembly. The views represented scenes visited by Dr. Fisk and Oscar F. Brown in their tour in England last year, and the slides were made by Louis S. Brown of Boston from pictures which they obtained. Dr. Fisk spoke for nearly two hours and gave a highly instructive and in[illegible]ing talk from the results of his [illegible]n and study during several vis[illegible]gland. The pictures were remarkab[illegible]r and had been carefully chosen as r[illegible]sentative ones. Much credit for the success of the exhibition was due to F. Edgar Brown in his management of the stereopticon. There were about 90 views, showing English cathedral scenes in Cambridge, London, Boston and Stamford. Special interest for Brimfield people is attached to Stamford as the home of the Brownes from whom the numerous Brimfield families of that name are supposed to have descended. Views of All Saints' church in Stamford were shown and one of Browne's hospital. The church was restored by William Browne or by William and John Browne together at the close of the 15th century. The hospital was built by William Brown.

James D. Lincoln has been spending several days in town.

Rev. Samuel Eaton preached a baccalaureate sermon Sunday.

Mrs. A. S. Rose of Springfield is the guest of Miss Mabel Edson.

Robert T. Fisk of Boston has been the guest of his brother, Dr. Fisk, at the hotel.

Monroe G. Tarbell is visiting his cousins, O. F. Brown and L. S. Brown in East Braintree.

Oscar F. Brown was in town last week to arrange for the removal of his household goods to East Braintree, where he will make his home. Until now Mr. Brown has spent his life in Brimfield. He has been town clerk for a number of years, and has been depended on for certain forms of legal business. Besides performing his official duties in a peculiarly genial spirit, he has always been ready with friendly and neighborly services and has held the good will of all his townspeople, so that the removal of his residence is much regretted by them. Mr. Brown and his brother, Louis S. Brown, laboratory assistant at the Massachusetts General Hospital, have bought a place in East Braintree, where they will make their home.

WARE.

Tucker—Morse.

A pretty wedding took place in the East Congregational church in Ware Wednesday afternoon at 4.30, when Ruth Estabrook, daughter of Mr. and Mrs. George E. Tucker of Ware, and Anson Ely, son of Prof. and Mrs. Anson D. Morse of Amherst, were united in marriage. The church was elaborately decorated for the occasion. During the half-hour preceding the ceremony J. J. Bishop of Springfield played selections on the organ. The "Lohengrin" wedding march was played as the bridal procession entered, led by the ushers, John B. Hitchcock and Alvan Hyde, both of Ware, Howard H. Tucker of Boston and Albert Cook Myers of Philadelphia, Warren J. Burke of New York and Robert Goodale of Springfield. They were followed by six bridesmaids, Miss Marion Sutton and Miss Rose Klusman, both of Springfield, Miss Sylvia Hyde of Ware and Miss Miriam D. Dole of Bangor, Me., Miss Sarah D. Morse of Amherst and Miss Ethel Webb of Brunswick, Me., in that order. All wore dresses of white French net with figured pink flowers, pink sashes and white picture hats and carried pink sweet peas. The maid of honor was Miss Carolyn V. Tucker, sister of the bride, who was gowned in white silk radium trimmed with lace, and having a sash. She wore a picture hat and carried pink roses. The bride entered with her father, who gave her away. She was dressed in white satin messaline, trimmed with white chiffon and duchess lace and wore a white tulle veil fastened with orange blossoms. She carried a shower bouquet of lilies of the valley. As the bridal party reached the altar, they were met by the groom and his best man, William N. Morse of Amherst, a brother, and by Rev. A. B. Bassett, who performed the ceremony. Mendelssohn's wedding march was rendered as the procession left the church. A reception was held at the home of the bride on South street immediately after the ceremony, continuing well into the evening, many out of town friends being present. The Philharmonic Orchestra of Springfield furnished music and Habenstein of Hartford catered. Mr. and Mrs. Morse left in the evening for their wedding trip, and will sail for Europe on July 19, and will stay in France and Germany for a year.

Goddard—Galvin.

Miss Rose Goddard of Ware and Thomas H. Galvin of Worcester, formerly of Ware, were married Tuesday morning in All Saints' church by Rev. J. A. Riordan. The bride was attended by her sister Bertha, and John Neville acted as best man. A wedding breakfast was served at the home of the bride after the ceremony and later in the morning the couple drove to West Brookfield and went from there to Boston. After a short trip they will live in Worcester.

Oasis lodge of Rebekahs cleared nearly $40 from its recent play "Valley Farm."

Miss Ida E. Gould of Pleasant street and Rev. Arthur R. Macdougal of Suffield, Ct., will be married next Wednesday.

Mrs. W. S. Hyde and daughter, Miss Sylvia, will sail for Europe from New York Thursday. They will be away three months.

Thomas J. Mahan of the Hampshire House and Miss Johanna Sugrue of Northampton will be married in St. Mary's church in that city Tuesday morning.

The graduating exercises of the high school were held in the town hall Wednesday evening, with a large audience. The program included an able address by Prof. Herbert D. Foster of Dartmouth college on "Consciousness of Power," three selections of music and the presentation of diplomas by Judge Henry C. Davis. The class numbered 26 members.

The Companions of the Forest have elected these officers: President, Blanche Provost; vice president, Clara Avey; recording secretary, Marguerite English; treasurer, Clara Lemoine; secretary, Minnie Gerard; trustee for one year, Ida Sweeney; trustee for three years, Evelyn Deslauriers; inside guard, Georgiana Guertin; outside guard, Eva Jacques.

The ecclesiastical council called by the East Congregational church at Ware was held in the chapel Tuesday afternoon. The proceedings of the church relative to the resignation of its pastor, Rev. A. B. Bassett, were reviewed and a vote of appreciation was extended to him. A large number of out of town clergy were present at the council, as were a number of deacons and leading members of the East church. Mr. Bassett will occupy the pulpit on July 2 for the last time, and will go to Hartford to take the position of secretary and professor of experimental religion at the Hartford Theological Seminary.

Just What Everyone Should Do.

Mr. J. T. Barber of Irwinville, Ga , always keeps a bottle of Chamberlain's Colic, Cholera and Diarrhœa Remedy at hand ready for instant use. Attacks of colic, cholera morbus and diarrhœa come on so suddenly that there is no time to hunt a doctor or go to the store for medicine. Mr. Barber says: "I have tried Chamberlain's Colic, Cholera and Diarrhœa Remedy which is one of the best medicines I ever saw. I keep a bottle of it in my room as I have had several attacks of colic and it has proved to be the best medicine I ever used." Sold by the Quimby Pharmacy, Palmer.

HAPPY WOMEN.

Plenty Of Them In Palmer, And Good Reason For It.

Wouldn't any woman be happy,
After years of backache suffering,
Days of misery, nights of unrest.
The distress of urinary troubles,
She finds relief and cure?
No reason why any Palmer reader
Should suffer in the face of evidence like this:

Mrs. L. Lafarr, living out in the Carpet mill district, says: "I can truthfully say that Doan's Kidney Pills did me more good than any remedy of the kind I ever tried. Before I used them, for some time I had a severe backache and pain through my head. I awakened in the morning with my back so stiff and sore that I could hardly get out of bed. After a time it gradually lessened, but I was never entirely free from pain in my loins and kidneys. A friend told me about Doan's Kidney Pills and I got them at LeGro's drug store. I used two boxes, taking two pills three times a day, and they cured me entirely of the trouble. I shall be glad to recommend Doan's Kidney Pills to anyone annoyed as I was."

For sale by all dealers. Price 50 cents, Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

The traveling men of Maine are noted for the jokes that they are always springing on the public, but last week one of them got into trouble in an unexpected way. His parents celebrated their golden wedding, and the drummer had long planned to spend the day with them. But when the day arrived he found that he was too far from his old home to get back to it, so sent a telegram to his father. He thought that it was a good time to get off a joke on the old man, so merely sent the message, "Is marriage a failure?" He was somewhat taken aback when he got the reply, "Marriage is not, but the results sometimes are."

PALMERS STILL WINNING.

Springfield Y. M. C. A. the Last Victims, 8 to 1.

Palmer added another to her string of victories last Saturday by doing up the Springfield Y. M. C. A. team 8 to 1 on the Palmer park. Two of Palmer's men were off—Shaw at third and Crowther at short,—but the men Capt. Shaw sent out to take their place amply made good, Metzdorf at third and Lynch at short. Springfield ought to have been shut out; their one run came in the eighth on a hit and poor playing on the part of the Palmers after two men were out. The score does not fairly represent the game, for there were many times when only sharp playing on the part of the Palmers prevented scoring. The score:

South Manchester 4, Monson 1.

The Monson ball team journeyed to South Manchester, Ct., Saturday, where they were defeated by the local team 4 to 1. Bronkie, who was batted out of the box in the game with the Stafford team Memorial Day, was the feature of the day, allowing but one man to hit safely. His support was good but an error by Scanlon allowed the Monson team one run. Cartmill pitched an excellent game, allowing but five hits. Smith, King and Peloquin played a great game but none of the team could seem to find the ball.

North Wilbraham 16, Indian Orchard 14.

The North Wilbraham Invincibles defeated the Indian Orchard Tigers at North Wilbraham Saturday afternoon by the score of 16 to 14. The game was exciting and interesting throughout. The Invincibles continued their heavy batting, and this combined with the visitors' errors enabled them to win the game. The Tigers kept the lead up to the eight inning, when the Invincibles knocked in seven runs. The feature of the game was a catch of a high fly ball by Carney in the eighth inning, with the bases full. While sliding to third base in the third inning Fred Rindge, first baseman for the Invincibles, broke two bones in his leg. He was removed to the House of Mercy hospital in Springfield. The score is:

West Warren Hibernians 13, Quaboag Social Club 7.

The third game in the West-end Baseball League at West Warren was played Saturday afternoon between the Hibernians and Quaboag Social Club, the former winning by a score of 13 to 7. It was the second game of the three for each team to play. The Hibernians have won two and the Quaboag Social Club lost two. The score by innings:

										R.	H.	E.
Hibernians,	0	0	0	4	0	0	5	4		—13	18	2
Quaboag S. C.,	1	1	2	0	2	0	0	0	1	— 7	14	6

Notes.

The Atlantics will go to North Wilbraham to-morrow afternoon to play the North Wilbraham team.

To-morrow afternoon the Bondsville Ponies will play the Monson Academy boys on the High street grounds in Bondsville.

The game to-morrow on the Palmer park will be with the Gilbertvilles, which have recently been reorganized and are reported to be putting up a strong game.

The Chicopee Falls team defeated the Indian Orchard team in an 11-inning game Saturday by the score of 3 to 2. This game was the first of a series between the two teams.

The Three Rivers baseball team will play the Barre Plains team at Barre Plains to-morrow afternoon. Frank Rogers has resigned his position as manager of the team and Robert Bruce has been appointed in his stead.

The Monson baseball team will play the Easthampton team on Flynt Park in Monson to-morrow afternoon at 3 30 o'clock. Cartmill and Dowd will be the battery for the Monson team and Lynn and Murphy for the Easthampton team.

Clerks Enjoy Half-Holiday.

Nearly all the places of business in town, with the exception of the post office, were closed Tuesday afternoon from 1 o'clock to 5 30 to allow the merchants and clerks a half-holiday. They met in front of the post office about 1 30 and marched to Crossman's ground, where an exciting baseball game was played between the clerks and business men, the former winning by a score of 22 to 17. Following the game the march was resumed to Delage's grove, where a clambake was served to about 60. The business men being defeated, they were required to pay all expenses.

The St. John the Baptist society will hold a picnic in Crossman's grove to-morrow afternoon.

Dennis Bennett, who has completed his second year at Williams college, is at the home of his parents, Mr. and Mrs. Dennis Bennett, for the summer.

William H. Snow, who recently bought out William Clark's hardware and general store, is in Athol this week, preparatory to moving his family to West Warren.

Theodore, the 1½-years-old son of Mr. and Mrs. John B. Chabot Sr., had his right arm badly scalded yesterday morning by putting it into a pail of boiling water which his mother had left on the floor.

Rev. W. A. Kilmore, pastor of the Methodist church in West Brookfield, preached in the Methodist church Sunday morning in exchange with the pastor, Rev. Eaton B. Marshall.

Mrs. Clarissa A. Rood, 86, widow of J. Dexter Rood, who died in Springfield Monday, was a former resident of West Warren, where she owned a residence on Chapel street. Her husband, who died in 1890, was for many years station agent at the Boston and Albany station in West Warren.

The following officers have been elected by the St. John the Baptist society for the next six months: Chaplain, Rev. Phileas Trottier; president, Adolphus Bodreau; vice president, Charles Chaput; recording secretary, A. Our Boston Letter

It tells about

Draper's Statement Regarding the Lieutenant-governorship—The Prospect of Douglas Running Again—The New Washington Street Subway—The Berkshire County Jail Shortage.

BOSTON, June 21, 1905.

Yesterday was a great day for state politics on the Republican side. Proceedings opened with the publication of the statement of Eben S. Draper. This was given out by Mr. Draper himself, sitting in his office in the Tremont building. It is the regular business office of the Draper Manufacturing Company, and Mr. Draper said, in reply to a question, that he had no political headquarters and had no one at work for him. He expected that the newspaper men would know if he had any as soon as he did himself, for they followed up matters as closely. He said further that he had nothing to say for publication regarding his prospects, but every political newspaper man knows that every candidate always sees things in a rosy color when he begins. That is the reason he begins. If the subsequent blueness which afflicts many of them were evident at the beginning, there would be no candidature. There is no reason to suppose that Draper timed his utterance for the meeting of the Committee of One Hundred of the Boston Chamber of Commerce which met at the Exchange Club in the afternoon, but it did come just at the moment when it gave them the very opportunity of their lives, and they at once jumped upon Mr. Draper with both feet. They could not stand at all a candidate who came out flat-footed against reciprocity with Canada, as he did. Nor could they tolerate the proposition of sitting still and leaving to Congress everything to be done with revising the tariff. So, on both points, they declared war at once against Draper. This makes a cleavage on the spot and injects a contest into the state campaign. It cuts off Draper from the reciprocity and revision vote and puts a new phase upon the situation at once.

Draper's statement was at once seized upon also by Councillor Frederick S. Hall of Taunton, who has been an avowed candidate for the second place on the ticket. Though his name was not mentioned by the meeting of the Committee of One Hundred and he does not appear to be particularly strong in his support thus far, yet he has taken the opportunity to put himself forward on the strength of what he evidently regards as a break on Draper's part. What Draper opposes, that Hall supports in matters relating to the tariff. But the Hall,—James M. W., formerly mayor of Cambridge,—was at the meeting of the committee and talked guardedly with the newspaper men after he came out. He is a foremost Republican, devoted to reciprocity from principle, a man of some means, and more likely to attract men of the committee's quality than Hall of Taunton. The Cambridge Hall did not take himself out of the running, as he was reported to have done after his interview with Senator Crane last week, neither did he declare himself to be a candidate. He is understood to be ready to respond to a call of duty when it comes. That was his expression, and he is known to be the sort of man who sets duty very high,—not the Dingley duty, but the moral duty, which is a very different proposition.

Eugene N. Foss was at the meeting, but declares himself not to be a candidate. He remarked to me, just after the meeting adjourned, all warmed up with enthusiasm, "This means business; we are going to have a separate candidate surely and we believe that we control the convention." The stand pat element, represented by the Home Market Club, was ready to give the reciprocity men a plank in the platform without a contest. Now the high tariff men must fight if they are to prevent a strong declaration just the contrary of what they believe in.

Gov. Douglas was at the state house a little after 9 o'clock this morning, accompanied by Private Secretary Buchanan. In a few minutes they started for Tufts College, where the governor was to be indued with the degree of LL D, after the style which Harvard College formerly affected, but which she has failed to carry out continuously ever since the memorable year when Benjamin F. Butler was governor and the Harvard set was scandalized by his doings and his character, as they supposed it to be. Gov. Douglas looked exceptionally vigorous this morning and he said that his vacation had made him feel quite brisk. As far as the hope of Judge Flaherty is concerned, that the governor will change his mind and become a candidate for governor again, there is not a solitary fact to rest upon. This the judge regretfully admits. If he thought that there was a prospect that Douglas would run again, he would decline the commissionership of harbors and public lands to which he has been appointed and act once more to promote the governor's election. But the prospect now is that the judge will accept the commissionership. The term of Captain Doten, the incumbent, expires July 1, and the judge will take office then if there is no particular work to do. But he is going to attend the Westfield militia encampment anyway. He does not believe in leaving the board to work with only two members and he drawing pay while away. So, if there is much work to be done, he will fail to qualify before July 15, leaving Captain Doten to do the work and draw the pay, as he would do under the law if Judge Flaherty had not qualified. The law allows three months in which to accept the office. The judge has not sent in yet his resignation as chairman of the Democratic state committee, nor has Robert J. Crowley of Lowell sent in his resignation, but there is no reason to doubt that both resignations will be forthcoming in time.

Contrary to the current opinion, Judge Flaherty does not believe that the Gaston element in the party is in control. He admits that it seems to be so on the face of things, but when it comes to indorsing the conservative doctrines which Gaston represents, he doubts whether the committee would stand by him. The majority of the Democratic party, he says, believe in progress and in larger control of the public utilities by the public. It is not in the nature of things that a large party, with its history and principles, should stand stiffly conservative, but the party is really progressive, he holds, and believes that the coming election of new members will prove it.

Boston's main thoroughfare, Washington street, is badly obstructed these days by the construction of the new subway. Right in the heart of the business section, where there is dense passing all the time, both by foot passengers and teams, the surface of the street is entirely removed and planking is substituted. Occasional trap doors give a glimpse of the bowels of the earth, the timbers and the masonry which are being put in. The subway follows the line of Washington street all the way, and it has been decided that its northern end shall be at Adams Square, where it will join the present subway and so permit a through line of cars each way from the north station directly under Washington street to the south end of the subway. Of course the construction of the subway under the big buildings on each side of the street, with their heavy loads, is only a matter of mathematics, and if a given strength of wall is not sufficient, then the only thing to do, and the sufficient thing is to put in more, which, of course, can easily be done. The construction is a material hindrance to travel, but it will take many cars from the surface when it is doing business.

As Sheriff Fuller's case stands to-day it is a singular matter. According to the finding of the experts employed by the controller of county accounts, there is a deficit of between $7000 and $8000 in the books of the late sheriff, as far as they relate to his business with the jail. When Assistant Attorney General Nash, to whom the case had been turned over, asked the counsel for the bondsmen for the private books of Fuller, in which they said that there were entries of nearly the same amount which Fuller had advanced for the jail's business, he said he could not give up private books to public authorities. Mr. Nash informed him that if he did not suit would be brought at once against the bondsmen. Then the widow of the sheriff asked for further time in which to consider the matter, and the answer was given her that if the private books of the late Sheriff Fuller were not at the state house by to-night, the government would at once bring suit against the bondsmen. So the matter rests at the time of writing, with an apparent deficit of over $7000 by the sheriff to be made good somehow. It is a hard case for the widow, even at the best, for there has been a great deal of publicity. But the man who takes public office must expect to share the risks and disagreeable things, as well as the honors and the praises and the soft snaps.

Boston is looking forward to a more quiet Fourth than she has had since young America was big enough to damage himself by fireworks. Whatever criticism is visited upon Judge Emmons, his orders for a quiet Fourth last year were appreciated, and this year Chairman Cole, his successor on the board of police, will duplicate his policy and so gradually it is hoped to tame the fiery spirit of the American savage of the twentieth century. The example of Boston encourages other cities, and so the reform spreads. Judging by the popular response, this is one of the reforms which will not go backward.

Cuban Diarrhoea.

U. S. soldiers who served in Cuba during the Spanish war know what this disease is, and that ordinary remedies have little more effect than so much water. Cuban diarrhoea is almost as severe and dangerous as a mild attack of cholera. There is one remedy, however, that can always be depended upon as will be seen by the following certificate from Mrs. Minnie Jacobs of Houston, Texas: "I hereby certify that Chamberlain's Colic, Cholera and Diarrhoea Remedy cured my husband of a severe attack of Cuban diarrhoea, which he brought home from Cuba. We had several doctors but they did him no good. One bottle of this remedy cured him, as our neighbors will testify. I thank God for so valuable a medicine. For sale by the Quimby Pharmacy, Palmer.

ourselves and regardless of political party. Have you the capacity for work? Use it for the benefit not alone of your own pocket-book, your own family, your own social friends, but for the benefit of the whole community. I declare that it is your duty to do it, and when you refuse you are in much the same position as the man who borrows a lawn mower and forgets to return it. If he forgets long enough he becomes a thief. You have received your knowledge of history, your knowledge of civil government, much of your power to discriminate between the true and the false, from the public schools supported by public taxation, I maintain, therefore, that the public, represented by the citizens of the town, look to you for political as well as industrial leadership.

Were we merely to discharge our industrial and political duties there would be little progress. In our own civil society we daily observe instances of ignorance, pauperism and crime. Because of ignorance or neglect of the laws of health we have seen disease spread and death result. From a lack of responsibility and earning capacity on the part of the parent, we have seen whole families poorly clad, ill fed and emaciated. We have seen these same children gain in strength and manly courage when brought under proper influences. We have seen the evil effects of debauchery of all kinds, degradation brought into the homes of those who otherwise might be of service. We have seen crime committed as the result of hardened consciences. We have felt the effects of a prolonged strike and have participated in paying the owners of large corporations sufficient advance in cost of goods to more than compensate for the increase in wages of the employes. We have experienced some of the evils resulting from the formation of trusts. We have seen communities unwilling to provide properly for the police department, the sewer department, the water department and the schools. Despite these facts we have reclined supinely in our easy chairs saying, "I am industrious, what more is needed?" "I work for honest politics, who can do more?" It would seem however if any of the foregoing evils or other evils of a social nature exist in our community, it is to you, high school graduates, to whom we must look for reform. It behooves the leaders in every community to dispel ignorance, to help the suffering and to prevent crime. As a means to this end should we assist the churches, open the town to new enterprises, and to favor legitimately those concerns now within our borders which employ labor, and in so far as it can be done without impoverishing ourselves or families, and without causing the beneficiaries to become dependent, should we assist the poor. Thus you will see that by virtue of his citizenship and more especially by his greater earning capacity resulting from his education, the graduate of the high school must take an active interest in the social conditions of the community if he is to reach anything like the full measure of his usefulness.

In our daily vocations we sustain other relations which cannot be passed over. I refer to the one of parent and child, pupil and teacher, guardian and ward, employer and employed, debtor and creditor. It is the duty of the parent to exact and receive obedience from his offspring. It is the duty of the teacher to instruct, of the debtor to pay the creditor. If these duties are not properly performed, it is the duty of the officers of the law to see that proper enforcement is secured. Just what those relations shall be is for society to determine. As we are each a part of that organism designated as society, it is our duty to interest ourselves in the establishment of these relations. The result of such an interest is law, hence as another element for successful leadership of the high school graduate I would place the right and wrong of law as the legal duty.

But why is it necessary to have law, police, prisons and reformatories? Is it not because certain individuals have forgotten that we have certain ethical as well as social duties to perform toward our fellowmen as well as towards ourselves? Were these duties faithfully performed by each individual in a community, police officers and lock-ups would be unnecessary. Our legal brethren here would have only corporation law to untangle, insurance policies to issue and insolvent estates to settle. If then as high school graduates we are to maintain our high standard of leadership, we must be ethical or moral beings who yield not to the voice of the tempter, who constantly strive to do the right thing because it is right, not because we are paid for it.

It would appear that the true leader would still lack one element to perfect his life for his work, a love for the beautiful. This enables the individual to appreciate the beauties in nature, art and music. To understand the need for attractive as well as useful buildings, to develop the natural surroundings of his town so that they may be pleasing to the eye. It seems to me that this sense of the beautiful, supplementing the other qualities mentioned, give the finest pleasure that the human mind can enjoy and serves as an uplifting force in his whole life.

This then is the ideal that I place before you, that as graduates of our high school you each one by virtue of such graduation will not become but are now leaders in your community, and that as leaders you must be industrious that you may be more than self-supporting. You must enter into the political life of the town affairs. You must look well to the social evils of the community else will your town become degraded and immoral. You must deal legally with your fellows lest lawlessness prevail. You must observe the golden rule lest immorality corrupt our family. And you must exercise your delight in the beautiful that you may become an uplifting force in the community.

WARREN.

Dr. C. A. Deland has been appointed associate medical examiner of Worcester county this week by the governor.

Miss Lillian Bostock and Miss Anna L. Whitney of Enfield, Ct., are guests of Mr. and Mrs. J. T. Bostock of Maple street.

The assessors, who have completed their work, have announced that the rate for this year will be $21 50 per $1000, or 2 per cent increase over last year. This is caused by the appropriations being $3500 larger and the state tax $1000 larger, and whereas the town treasury had a surplus of $3100 last year at this time, they found a deficit of about $1550.

The special town meeting was held Tuesday evening with a small attendance. C. O. Walker was chosen moderator, and all the matters considered received a favorable vote with very little discussion; $2000 was appropriated to repair the South street bridge at West Warren, and $300 to make two other special repairs to highways. It was voted to lease the room in the town hall to the New England Telephone and Telegraph company for three years for $150 a year for their use as a central office.

The graduating exercises of the Warren high school were held in the town hall last evening. The address of the evening was delivered by William C. Bates, superintendent of schools in Fall River, who took for his subject, "Owing and Owning." The graduates were Lester V. Adams, Margaret M. Blair, Ruby E. Bliss, Ethel D. Bostock, Kathryn H. Cunningham, Warren W. Cutler, Marguerita F. Fales, Mary E. Kane, Gertrude A. Pierce, Anna T. Sikes, Alice L. Walker, Arthur H. Warfield Jr., William Whittemore Jr. and Florence M. Williams.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Nervous Women

Their Sufferings Are Usually Due to Uterine Disorders Perhaps Unsuspected

A MEDICINE THAT CURES

Mrs. M. E. Shotwell

Can we dispute the well-known fact that American women *are* nervous?

How often do we hear the expression, "I am so nervous, it seems as if I should fly;" or, "Don't speak to me." Little things annoy you and make you irritable; you can't sleep, you are unable to quietly and calmly perform your daily tasks or care for your children.

The relation of the nerves and generative organs in women is so close that nine-tenths of the nervous prostration, nervous debility, the blues, sleeplessness and nervous irritability arise from some derangement of the organism which makes her a woman. Fits of depression or restlessness and irritability. Spirits easily affected, so that one minute she laughs, the next minute weeps. Pain in the ovaries and between the shoulders. Loss of voice; nervous dyspepsia. A tendency to cry at the least provocation. All this points to nervous prostration.

Nothing will relieve this distressing condition and prevent months of prostration and suffering so surely as Lydia E. Pinkham's Vegetable Compound.

Mrs. M. E. Shotwell, of 103 Flatbush Avenue, Brooklyn, N. Y., writes:

"I cannot express the wonderful relief I have experienced by taking Lydia E. Pinkham's Vegetable Compound. I suffered for a long time with nervous prostration, backache, headache, loss of appetite. I could not sleep and would walk the floor almost every night.

"I had three doctors and got no better, and life was a burden. I was advised to try Lydia E. Pinkham's Vegetable Compound, and it has worked wonders for me.

"I am a well woman, my nervousness is all gone and my friends say I look ten years younger."

Will not the volumes of letters from women made strong by Lydia E. Pinkham's Vegetable Compound convince all women of its virtues? Surely you cannot wish to remain sick and weak and discouraged, exhausted each day, when you can be as easily cured as other women.

DR. KENNEDY'S
FAVORITE REMEDY
Breaks no Hearts, Excuses no Crimes.

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it cannot help, it does not harm. It is composed of vegetable ingredients and does not heat or inflame the blood but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements which afflict women, the action of Dr. Kennedy's FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this, in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business certificates never possess. It makes no drunkards—excuses no crimes—breaks no hearts. In its coming there is hope, and in its wings there is healing. We challenge a trial and are confident of the result. Your druggist has it. ONE DOLLAR a Bottle. Bear in mind the name and address: Dr. *David* KENNEDY, Rondout, New York.

BRONZE TABLET PRESENTED

Palmer G. A. R. Post in Memory Of Serg. Merrick.

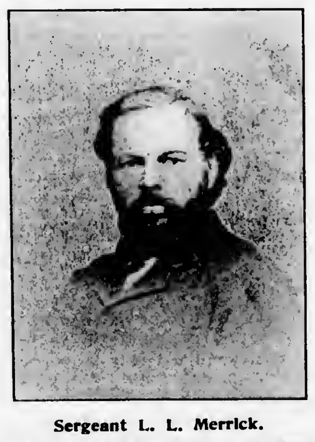
OF CO. E, FOR WHOM POST WAS NAMED

Company Reunion and Dinner Wednesday. History of Merrick and Company.

Company E of the 36th Regt., Massachusetts Volunteers, held its eighth annual reunion in Palmer Wednesday. The business meeting was called in the Converse House at 11 in the forenoon, and these officers elected: President, David J. Powers of Millbury; vice president, E. A. Waters of Shrewsbury; secretary and treasurer, Fred L. Perry of Springfield; executive committee, J. L. Keyes and W. F. Whitney of Worcester, L. S. Waters of Millbury. The reunion next year will be held in Worcester at the time of the regimental reunion, September 2.

After the business meeting adjournment was made to the dining room, where about 40 sat down to dinner.

From the dining room the party adjourned to Memorial Hall, where the citizens had been invited to be present to attend the ceremonies of presentation of a bronze memorial tablet to Sergeant Lucius L. Merrick, a member of the company, a



Sergeant L. L. Merrick.

Palmer man and for whom L. L. Merrick post of the Grand Army in Palmer was named. The tablet had been provided by the company, contributions for its cost—about $125—having come from members in all parts of the country. Permission was secured from the selectmen and the post to place it in the building, and it was set last week, occupying a place at one side of the last landing on the stairs leading to the the hall, where it is the first object to catch the eye on leaving. It is about two by two and one-half feet, inscribed as follows:

> IN MEMORY OF
> LATHROP LUCIUS MERRICK, CO E
> 36TH REGIMENT, MASSACHUSETTS
> VOLUNTEERS, BORN JUNE 8, 1829
> DIED, OCT. 10, 1864. BY HIS CHARACTER AND FIDELITY HE ACHIEVED
> AN HONORABLE FAME AS A SOLDIER IN THE CIVIL WAR. THIS
> TABLET IS ERECTED BY HIS COMRADES
> JUNE 1905

Hubert O. Moore of Springfield was president of the day, and introduced as the first speaker Capt. George M. Stewart of Wales. He was followed by Rev. C. W. Williams of Palmer.

Mr. Moore then presented the tablet, which he said was the culmination of an inspiration of Col. S. C. Warriner of Springfield, and was a link connecting the past with the present and future. Response for the selectmen, who were out of town, was made by D L. Bodfish, with appropriate remarks.

Others were then called on, the first speaker being Col. Warriner, who paid a high tribute to the memory of Sergeant Merrick, his high standing as a man and as a Christian soldier, following with numerous reminiscences of Co. E in the field. Other speakers were Commander D. J. Mahoney of L. L. Merrick post, Chaplain H. E. W. Clark, Mrs. L. E. Carpenter for the Relief Corps, Mrs. D. S. Davis, the first president of the corps, Dr. G. E. Fuller of Monson, Lyman S. Waters of Millbury, president of the regimental association, L. E. Chandler for the press, and William Merriam. The last speaker was George D. Shaw of Springfield. Mr. Shaw was attending school in Three Rivers in the present school building—or the part which was then in use—when the news that South Carolina had seceded arrived. He heard it in the school building, and a few days later, in the same room, he enlisted for service. On Memorial Day of this year Mr. Shaw addressed the children of the school in the same room in which he heard the news of the war and in which he enlisted. He says the only familiar thing about the building is the front stairs—they are just as they were forty and more years ago.

Lucius Lathrop Merrick was the son of Dea. Lathrop and Sarah (Hyde) Merrick, and was born in Monson June 8, 1829 He was a descendant of Thomas Merrick, who came from Wales to New England in 1630 and settled in Springfield in 1638 This Thomas Merrick traced his ancestry back to 1200 A. D. to Cydavail, Judge of Powys Court, Wales. Meuric of the tenth generation in this line gave his descendants the surname of Merrick.

The subject of this sketch was of the fifth generation of Monson Merricks, his great, great grandfather, Capt. James Merrick, having removed from Springfield and settled in that town in 1734. A few years after marriage young Merrick's father removed to Ware, where he remained but a short period and then came to Palmer and purchased the farm now owned by Michael O'Connor, east of Mt. Dumplin, where he lived till his old age, when he came to the village of Palmer and lived at the corner of Main and Dublin streets till his death.

Young Merrick had graduated from Amherst College in 1860, and was preparing to follow in the footsteps of many of his Welsh ancestors by studying theology to fit himself for the ministry when the civil war broke out. In response to the call of the governor for volunteers, the town of Palmer held a meeting July 19, 1862, and voted to pay a bounty of £100 to each volunteer for three years and an extra $5 if the enlistment was made within five days. It is a notable fact that on the same day the quota of Palmer was filled, and the list included the name of Lucius L. Merrick. The enlisted men at this time from Palmer and Monson formed more than half of Company E, assigned to the 36th Regt. Mass. Vols. As might be

HELD UP AND ROBBED.

In Broad Daylight With Revolver Pointed at Head.

ONE-LEGGED HIGHWAYMAN GETS $2.

But Is Nabbed Not Long Afterward. Has a Police Record In City of Springfield.

Emil Berthune, a French lad of about 17 with a home in Chicopee, was held up and robbed of $2 in the B. and A. freight yard Tuesday afternoon by Frank Bartlett, *a one-legged man with a home and a police record in Springfield.*

Emil was hanging about the freight yard waiting to jump a freight train to Springfield, en route for home. He had the price—and more—of a ticket in his pocket, but preferred to steal a ride and save his money; later he wished he'd bought a ticket and saved the other dollar and sixty-two cents.

"Hands up!" The command was backed by a revolver pointed at his head, and as the muzzle didn't look particularly inviting Emil's hand sought the upper atmosphere without argument. Then Bartlett went through his pockets and took therefrom a two-dollar bill. Berthune was cautioned to say nothing about the matter, and Bartlett made his way to South Main street. Berthune followed at a distance however, and kept after his man, who went through Main, Church and Pleasant streets to Thorndike street, where he took the 4.15 car for Thorndike, but left it at Pine street, and went through that and Squier street to North Main, where he caught the 4.30 car for Springfield. His route was easily followed however and the Springfield police telephoned to. Bartlett was nabbed in Indian Orchard, and at 5.15 word was received in Palmer that the man was in custody. Officer Crimmins went in and brought him back. In the district court Wednesday morning he was bound over to the September term of court in the sum of $1000.

HITCHCOCK FREE ACADEMY.

Graduating Exercises of This Noteworthy Brimfield Institution.

The graduating exercises of the Hitchcock Free Academy in Brimfield were held in the Congregational church last Friday afternoon. There was an unusually large attendance of alumni, townspeople and friends of the graduates. The church was decorated with marked taste by the class of '06 The class colors were scarlet and white, and the class motto, "Labor Omnia Vincit," in those colors was arched above the platform at the back of the speakers. The space below was filled with sprigs of laurel, and at the front of the platform were potted plants. A Roman yoke of evergreen made an entrance on each side of the platform and from the top of each entrance a garland of evergreen extended to the top of the arch. Against the background of the speakers was hung a copy of Turner's painting, "The Fighting Temeraire," the gift of the graduating class to the school.

Music was furnished by the Philharmonic orchestra of Springfield. The program was as follows:

Preliminary Selections by the Orchestra.

Fred Harrison Chamberlain.
Acceptance and Presentation of Diplomas.
Dr. E. W. Norwood.
Selection. "Spring Song."
Benediction. Rev. Samuel Eaton.

It was noticeable in the character of the exercises that subjects pertaining to school and local, as well as national interests, had been chosen, which made the preparation of the parts of special value to the graduates. Dr. Norwood, the president of the trustees, gave a very impressive address in presenting the diplomas. He said in part:

The world has a wider vision to-day than ever before and you have the advantage of this. Think of the improvements in the last half century—in the last century, along technical lines in scientific knowledge, in opportunities for women, in opportunities for a broader outlook, for broader living. Greater opportunity calls for greater achievement. You are called to a great work, though it may not be a brilliant work. You have helps that others have not had and have greater responsibility. Still, there are thousands to-day who are living without ideals. This is sad to contemplate. Never was there such a demand for character as there is to-day. There are four essentials for true success founded on character. First, there is the spirit of work. It is a mistake to seek short avenues to wealth. Next, there is courage. How many give out by the way for want of courage and persistence. Next, there is the recognition of limitations. It is a mistake to think that all can reach the same point of achievement. It is better to do a work of moderate achievement and do that work well than to be ambitious beyond the powers with which one is endowed. Above all, there is the following of conscience, the course of right and justice. This only will hold you to the right course. For example, note the four men who have held the highest office in our country—our last four presidents, Cleveland, Harrison, McKinley, Roosevelt. They have been men of character, men of conscientious purpose, men of religious character. For any true success you must have these four qualifications.

In the evening there was a reception at the town hall. There was an orchestral concert from 8 to 9, followed by dancing. The hall was efficiently decorated by the class of '07.

Were Stealing Cloth.

Miss Mary Mason, a West Warren Pole, was seen stealing cloth from the No. 1 weave room of the Warren cotton mills Tuesday evening. A search at her boarding-place revealed the fact that she had three pals who had stolen cloth in their rooms or trunks. The other women are Miss Clara Kolockeys, Miss Agatha Luska, Miss Agate Dzian. The four women were taken by Deputy Sheriff Walter A. Putnam and Constable John S. Tongue before Judge Curtis in the district court in East Brookfield yesterday morning, when they were fined $15 each, which they paid.

Wilbraham Tax Rate Raised.

The Wilbraham assessors have fixed the tax rate at $16 per $1000. This is an increase of $6 per $1000 over the last three years. This is due in part to the vote taken at the annual town meeting to build two new schoolhouses.

A private dancing party of Palmer young people was held in the pavilion at Forest Lake Wednesday evening.

STATE ROAD NEXT YEAR.

Macadam Work Between Palmer and Wilbraham Then.

START TO BE MADE AT PALMER END.

So Says Commissioner Parker. West Brimfield Road to be Graded This Fall.

State Highway Commissioner Parker was in Palmer last Friday afternoon to consult with the selectmen and citizens concerning the money which the commission is to spend this year in Palmer, the place of doing the work, etc.

It had been announced that the commission was to begin at a point about 1000 feet east of the bridge over the river east of West Brimfield on the road to Warren, and construct a new road west of the river to the house on the "King" farm, thus doing away with two crossings of the railroad and two bridges over the river, giving a more convenient road and one with much easier grades. The plan was to do the work of grading this year and then let the road settle for a year or two before surfacing it, as there are some heavy fills to make. This announcement was verified by Mr. Parker, who stated that he had gone over the whole matter very fully and the commission had voted to do the work as outlined. However, he had come empowered to change any part or all of the program provided sufficient reason was shown.

It was pointed out that with the state highway finished to the Palmer line from Wilbraham, if the money was spent this year between the village of Palmer and the Wilbraham line it would accommodate a vastly larger number of people than if spent where the commissioners had planned, as the number of travelers between Palmer and Wilbraham is probably more than 20 to 1 greater than over the proposed new road, or any road at that end of the line. If the work is done this year between Palmer and Wilbraham, travel would have the use of it while the eastern end is being constructed later. These points, Mr. Parker explained, had all been considered by the commission, but they had deemed it more advantageous to grade the new road first, then next year go at the work between Palmer and Wilbraham and let the new road settle for perhaps two years, during which time it was expected the Palmer-Wilbraham strip would be completed,—that is, all of the road put in,—and then go back and surface the West Brimfield new road. By this plan Mr. Parker was confident that all of the work outlined would be completed in three years, as the commission is now making contracts for much longer strips of highway than formerly, being enabled thereby to get much better prices for its construction. By this method the road would be completed a year sooner than if the work west of Palmer was done first, then the new road built and allowed to settle before surfacing. Mr. Parker promised that the work next year between Palmer and Wilbraham would be started at whichever end the Palmer citizens desired,—the Wilbraham line, where the present state road stops, or at the Palmer end. He was told that without doubt the sentiment would be for beginning at the Palmer end.

Included in the plan for the state highway between Palmer and the Wilbraham line is a proposition to do away with the present bridge over the Quaboag river known as the "Hastings" bridge, on the line of the present highway, and to construct a new bridge below the present bridge of the electric road for a new highway location across the river, the object being to avoid the two crossings of the electric road which now exist between Main street and the Overlook farm. By the new plan and bridge the track of the electric road would be moved to the south side of the highway from Main street to the bridge over the river, giving the highway a clean right of way to and across the river and to the Overlook farm. This layout, it is understood, will be insisted on by the state highway commissioners. The present bridge has one end in Palmer and the other in the town of Monson, with a consequent liability for one-half its support resting with the town of Monson. In its new location it would be wholly in the town of Palmer. It is expected, however, that the town of Monson will be willing to pay something to be forever freed from further expense in the matter, and it will doubtless be arranged on this basis, as consultation with some of Monson's public men has brought out their willingness to the plan. It is not unlikely, also, that the county may be asked to bear a part of the expense of the proposed change, the road on which it will be made being a through county highway.

Ware Boy Missing.

Claude Gilbert, 15, disappeared from his home in the family of P. J. McManus at Ware Center last Friday night and no trace of him has been found since. He told Mr. McManus that he was going swimming when he left the house, but the other boys in the neighborhood state that he never went near the water, and it is thought possible that he may have gone to find a place to work or to the home of his uncle in Easthampton. He is the son of Fred Gilbert, whose eight children were before the district court some time ago as being neglected. At that time Claude was placed in the care of Mr. McManus, and his case with the others dismissed after several months. His father says that he does not know why Claude has left Mr. McManus's, nor where he has gone, but he proposes to find him if possible and take him back.

Ware Man Held on Serious Charge.

Ralph W. Snow of Ware was arrested Monday afternoon on a complaint charging him with assault with intent to commit rape on Ida Paul, 14, daughter of Peter Paul of Aspen street in Ware. The assault is alleged to have taken place near Snow's mill on the Greenwich road Saturday afternoon. The case was heard in the district court Tuesday morning by Judge Henry C. Davis, who found probable cause, and ordered the defendant bound over to the December term of the superior court at Northampton. Bail was fixed at $1000 and Snow recognized with sufficient surety.

Automobilist Struck by Stone.

The automobile which makes regular trips every day between Belchertown and Holyoke met with a mishap Tuesday evening. The automobile which left Holyoke at 7.30 encountered a man who threw a stone, hitting one of the passengers, a Granby woman, in the eye. The chauffeur turned back in pursuit of the man, who disappeared in a nearby house, and he will undoubtedly receive his just dues for the offense.

On the Boston and Maine Railroad at Bondsville.

WAS CROSSING TRACK TO GARDEN.

With Other Children, and Lagged Behind, Unnoticed. Body Badly Mangled.

A sad accident occurred on the Boston and Maine railroad in Bondsville last Friday afternoon, when the 1.18 train from Northampton ran over and instantly killed Rozalia Szufnoski, the two-years-old daughter of Mr. and Mrs. Joseph Szufnoski. The child was accompanying her older brothers and sisters to a field of potatoes, where they were going to kill potato bugs. On their way it was necessary to cross the railroad track which runs near their house on the west side of the big bridge. The child lagged behind unknown to the others and reached the track just as the train came along. The engineer saw her in time to blow the whistle, but too late to stop the train. The little girl was picked up dead with both legs severed near the body and one arm also cut off. She was carried to the station in Bondsville, where the body was viewed by Medical Examiner Miner of Ware, who was summoned. He ordered the body removed to the home. Rozalia was next to the youngest child of a family of eight children. The father is an employe of the Boston Duck Co. The funeral was held Saturday afternoon; burial was in the Thorndike cemetery.

THUMBED HER NOSE AT HIM.

For Which Nora Benasky's Brother-in-law Chastized Her—30 Days.

John Schwartz of Monson is a brother-in-law of Nora Benasky, and occupies a tenement in the same house with his sister-in-law and her mother. John went into his mother-in-law's side of the house the other day and attempted to boss his sister-in-law around. Nora resented his orders and told him to go home and mind his own business. He declined and issued more orders; then Nora thumbed her nose at him. John decided that it was time to assert his superiority as a man and administered a few kicks to Nora, in addition to sundry blows and slaps. In the district court Monday morning Judge Kenefick concluded to give John 30 days in which to try and understand that a man is not expected to strike and kick a woman, especially in her own house when he has no business there.

Mrs. Belle Pierce of Monson was sent to the house of correction for 30 days for disturbing the peace in Monson. She got into a dispute with her husband on the street Saturday night, and refused to go home when ordered.

William Lewis Jr. of Monson was sent up for 30 days because of drunkenness, but took an appeal, which he withdrew yesterday and is serving his sentence.

The Hebrew Sabbath.

Editor Journal:—

What proof have we that the Hebrew Sabbath did not occur always on Saturdays? Some time ago I remember seeing this question asked in your columns and never answered. May I refer to Samuel Walter Gamble's book, "Sunday the True Sabbath of God," published by Eaton & Mains of New York city.

Space does not allow a complete review of this work of 203 pages, but among the claims are the following: Gamble sees three dispensations in the Bible, each having its Sabbath, and each with its own reason for the observance of its Sabbath. There was a creation Sabbath, nowhere declared as being Saturday, given to Adam and Eve, the exact day for which was lost some centuries later. This Sabbath was to honor God's resting after the days spent in creation.

Then came Mosaic decrees and the establishment of a 30-day month calendar to which five days had to be added annually to make 365. The Sabbath was now to be kept commemorating deliverance from Egypt. We know that Abib 15 was always a Sabbath. These regularly determined Sabbaths occurred on Saturdays during the last year of Christ's life, but on Fridays the year before that, and on Thursdays the second year before, and so on. An erroneous conception arose after the destruction of Jerusalem under Titus, making Saturday keeping the only thing.

Thirdly, we have the Christian dispensation, Sunday honoring Christ and his resurrection. Now, if the New Testament has been correctly translated we should have this: "In the end of the Sabbaths," i.e. of these other dispensations, "as it began to dawn toward the foremost of the Sabbaths," i.e. the Christian Sunday, etc. This passage would then be seen to honor the queen and chief of all days, as it really does in the original.

Gamble's book seems to leave very little firm ground for the Saturdarians to stand upon. A Hebrew calendar is printed in full before the introduction, so that all may understand the author's contentions. Those who keep Saturday and who fight Sunday observance are accused of bringing a train of woes upon the country, as a result of their actions.

Palmer, June 24, 1905.

Keith's Theatre.

One of the best summer vaudeville shows of the entire season is announced from Keith's theater for the week of July 3. One of the principal features of the big bill is to be presented by Nina Morris, Arthur Hoops and company, entitled "A Friend's Advice," which is the best comedy sketch now being offered in the varieties. It comes direct from Hammerstein's roof garden, New York, previous to which it scored tremendously in the leading theaters of the West. Included in the surrounding program are several newcomers to Boston and others who have been absent from the city for longer or shorter periods. The list includes Cheridah Simpson, a talented prima donna, late of the "Woodlawn" company; Pat Rooney and Marion Bent, eccentric dancers and acrobats; Tom Moore, a strenuous singer of "coon" songs; Hickman Brothers, a trio of clever acrobatic comedians; Will Rogers, wonderful manipulator of the lasso, and Dave Nowlin, mimetic comedian and vocalist. The Fadettes woman's orchestra will begin the fifth week of their summer engagement and will make an entire change of selections. A new list of comedy and interesting motion pictures will be shown in the biograph.

Fourth of July Electric Car Schedule.

The Springfield and Eastern Street Railway Company will adopt its usual holiday schedule for the running of cars next Tuesday, the Fourth. On the Springfield line the cars will run half-hourly all day, and not stop at 7.30 as ordinarily; beginning at 8 in the morning there will be half-hour service to Monson; after 12 o'clock noon there will be 15-minute service between Palmer and Ware, and hourly cars direct from Three Rivers and Bondsville to Forest Lake. These cars will leave Bondsville at 40 minutes past the hour, and from Three Rivers at 52 minutes past the hour.

The Journal.

FRIDAY EVENING, JUNE 30, 1905.

NO OBJECTIONS.

There will be no protest from order-loving people over the fireworks regulation of the selectmen. It worked like a charm last year, converting a reign of terror which existed the year before into a night of peace and comfort. The change was duly appreciated, and there will be few who care for a return to the old order of things.

APPRECIATED.

The changed condition of the sidewalks in the past few weeks is a cause for congratulation. Some of them had become positively dangerous, and many were uncomfortable to travel on. The sum which the town has laid out in repairing them is well expended, and Superintendent of Streets Brainerd, who has had the work in charge, seems to have secured good value for the money spent.

NO CHARGE FOR HOPING.

Warren citizens are protesting against the high insurance rates in the business section of the town, and are hoping by the installation of additional fire protection and an appeal to the authorities to get a reduction. There's one consolation, there's a lot of comfort in the thought of a possible reduction, and it don't cost a cent. Keep right on hoping. Palmer had similar hopes at one time, but that was all the good that came of it. We had a representative of the New England Insurance Exchange up here to look the ground over; he admitted that our claim was good and all the arguments reasonable, and that we were entitled to what we asked for, but—he was very sorry, it couldn't be done; would establish a precedent, or something like that. It resulted in being practically invited to visit a mythical locality in which the insurance companies wouldn't take risks if asked to. Keep on hoping; but you'll yet a reduction in rates about the time the inhabitants of the place above alluded to learn to skate.

A SUGGESTION.

It appears from an item in the news columns of to-day's paper that, unless copious rains come soon and continue to come at frequent intervals, the Palmer Water Company will not long be able to furnish all the water needed for domestic uses, street sprinkling, and for the two railroads whose locomotive tanks it now fills. The company has recognized the existing conditions and notified the railroads that they must be ready to start their pumps at a day's notice; notice is also given that street sprinkling may be cut down to half a day at a time. In view of these facts the Journal suggests that the railroads should be the first to be denied water. They are using from 75,000 to 100,000 gallons per day at the least, and have pumps with which their tanks can be filled. The street sprinkler uses about 30,000 gallons per day when working full time. It is the citizens of the fire district who by their patronage have made the Palmer Water Company's plant what it is to-day, and it would seem that they have first call on the water; if there is not enough for all they should be the last to be deprived of it for any purpose whatever, *and street sprinkling is practically a necessity.*

THE town of Ware is—and for some time has been—having all sorts of trouble with its board of overseers of poor. There has been all sorts of criticism of the board, and the trouble with the warden at the almshouse filled the papers not many months ago. At the town meeting last spring the overseers were ordered to appoint an almoner; they did so Tuesday night, but are not now certain whether he is legally appointed or not, and will reconsider the matter to-night. One of these days the voters will say something in plain language to town officials who pay no more regard to their instructions.

REALLY, the emperor of Russia is having his full share of troubles. With his army licked on land and his war vessels mostly at the bottom of the sea, with strikes and political disorder and a bomb now and then at home, this mutiny on one of the few war vessels he has left is rather crowding things a little. And, poor fellow, he can't sneak off and take a vacation during the hot weather; he's got to stay on the job all the time.

IN view of the recent revelations concerning high salaries paid by the Equitable—and no doubt other—insurance company officers, there will be many who will wonder if life insurance might not, on a pinch, be written at lower rates than have heretofore existed, provided the salary abuses are corrected.

Healey—Roche.

A wedding of interest to Palmer people took place in St. Michael's cathedral in Springfield Wednesday morning when Anna Elizabeth, daughter of Mr. and Mrs. James Healey of Acushnet avenue, formerly of Palmer, and Dr. John F. Roche of Palmer were united in marriage by Rev. J. J. Farrell, with a nuptial mass. As the bridal party entered the church the wedding march from "Lohengrin" was played by J. J. Toomey, organist, and Mendelssohn's march was played as they left the church. During the ceremony solos were rendered by Miss Louise Walsh of Springfield. The bride was attended by her sister, Miss Mary Healey, and the best man was John Sexton of Worcester, a cousin of the groom. Miss Dorothy Winkler was flower girl and the ushers were Dr. D. W. O'Connor, Edward Herig and William Barrett of Palmer, and Edward A. Clarry of Springfield. The bride, who was given away by her father, wore a handsome gown of white crepe de chine over white taffeta, trimmed with rose point lace. She wore a veil caught up with lilies of the valley and carried a shower bouquet of bride roses. The bridesmaid wore white French lawn over white taffeta silk and carried pink carnations. The bride's gift to the bridesmaid was a diamond ring and to the flower girl a garnet ring. The ushers were presented with gold scarf pins set with opals and the best man with a pair of gold cuff links. A large number of valuable presents were received including money, cut glass, solid silver and furniture. A reception was held at the home of the bride which was largely attended. Schnetzer catered. Mr. and Mrs. Roche left on the 2.21 train for a wedding trip to Old Orchard, Me., and upon their return will reside on Central street in Palmer, where they will be at home to their friends after September 1st.

Water Getting Low.

The water in the reservoirs of the Palmer Water Company is getting down to a point where care must be used or there may possibly be a shortage in case of copious rains failing to materialize. The supply in the storage reservoir is about three feet below high water mark, and is not gaining any. There is a good stream running in, and the company thinks that with reasonable rains from time to time there will be enough to carry through July and August, the dry months. However, in order to be on the safe side the railroads have been notified to be in readiness to pump for their tanks at a day's notice, and F. J. Hamilton has been notified that it is possible the street sprinkling may be reduced to half a day. Both the railroads and Mr. Hamilton will be allowed to use water as usual this week, and a decision as to the future will be made on Monday.

MAN KILLED AT MONSON.

Bad Freight Wreck There Early This Afternoon.

TRAIN WAS GOING 40 MILES AN HOUR

Hits Engine and Car Standing at Station. Fireman Caught In Wreck. Cars Smashed.

Two freight trains came together with a horrible crash on the Central Vermont railroad in Monson about 1.30 this afternoon, resulting in the death of one man, a fireman on one of the trains, the wrecking of two locomotives and a number of cars, and the tearing up of the track for a long distance.

The wreck is one of the worst probably in the history of the road. Engine No. 325, attached to one car, was standing on the main track in front of the station headed south loading freight; suddenly around the curve but a short distance away came No. 326 drawing about twenty heavily loaded cars and running at a very high rate of speed, probably 40 miles an hour. It struck No. 325 with a crash which was heard all over that section of the village. No. 325 was sent about 100 yards along the track before it stopped, and the tender a full 100 feet further. Both engines were completely demolished and the track and roadway strewn with broken cars and packages of freight. The wreckage caught fire but the town fire company was called and soon extinguished the flames.

One man was killed, Charles Gregg of New London, Ct., the fireman on the north-bound engine. He was disemboweled and practically torn to pieces, the body presenting a horrible sight. He was about 24 years of age and leaves a father, and mother and sister. The engineer was James E. Packard, who jumped and escaped practically unhurt. The engineer and fireman of the south-bound locomotive had left the machine and were standing at one side of the track, thus escaping injury.

It is not yet known where the blame for the disaster lies. The crew of the south-bound train claim that they had a flagman out, but if so he was either at no great distance or the north-bound train was running so fast that it was impossible to stop after he was sighted. The track approaches the station from the south by a reverse curve, and a flagman would need to go out a long distance in order to stop a train traveling at a high rate of speed.

LOCAL NOTICES.

Fancy shirtwaists and skirts made, also ladies' repair work done at the Stebbins house at the head of Pearl street.

PALMER NEWS.

Red-hot Baseball To-morrow.

The game of baseball on the driving park to-morrow is expected to be one of unusual interest. It will be with the Indian Orchards, the first team to play in Palmer this season, on Memorial Day when they were defeated 6 to 1. Another game was at once arranged for at the request of the visitors, and will be played to-morrow. That it will be hotly contested goes without saying, and it should prove as interesting as any to be seen on the home grounds this season. The game will be called at 3 o'clock, and the admission fee for ladies is only 10 cents.

The game next Tuesday, the Fourth, will be with the Gilbertvilles, who played last Saturday and gave the Palmers the closest rub they have had this season, Palmer winning by 5 to 4.

Monson Man Has Pocket Picked.

Rufus P. Cushman of Monson suffered the loss of about $25 at the station of the Boston and Albany road in Palmer Wednesday afternoon through the picking of his pocket while he was boarding a train. Mr. Cushman had come to Palmer to take the 1.07 express for Boston, en route to the wedding of Principal Butterworth of Monson Academy. While going up the steps of the car he was pushed and jostled in the crowd attempting to get on, but thought nothing of it until later when he discovered that a pocketbook which he had in the inside pocket of his coat had been extracted. Fortunately Mr. Cushman did not carry all of his money in this place and was able to continue his trip without inconvenience.

Fireworks Regulation.

The selectmen have posted about the several villages of the town placards giving notice of their Fourth of July fireworks regulation. It is the same as last year, which proved so satisfactory to all; fireworks may be sold between the hours of 4 a. m. and 11 p. m. on the 3d and 4th, and may be fired between the hours of 4 a. m. and 11 p. m. on the 4th only, and at no other time. The placing of explosives on the track of the street railway is also prohibited, though there is also a state law forbidding that. Additional officers will be on duty the night before the Fourth, and violators of the regulation will be summarily dealt with.

Is Being Well Treated.

Word has been received from Principal Cross of the high school, who is visiting the battlefields of Virginia, that he is having a very enjoyable trip. He was entertained Sunday by Col. Walter H. Taylor of Norfolk, Gen. Robert E. Lee's adjutant general; Monday he visited the battlefield of Mechanicsville, passing over the long and straight Mechanicsville pike over which the trains of wounded were brought back to Richmond after the battles north of the city; Monday evening he was the guest of Pichett's Veteran Association and was cordially entertained; Tuesday he visited the battlefields of Gaines Mill and Cold Harbor.

C. V. Change of Time.

The summer time schedule went into effect on the Central Vermont road Monday. There are no changes in the south-bound trains at Palmer. Going north, the evening train now leaves at 7.42 instead of 8 o'clock. The train formerly leaving New London at 7.35 a. m. for Palmer is discontinued, and in its place is a new train leaving at 10 o'clock, reaching Palmer at 12 22 and continuing on to Brattleboro and all northern connections. This train runs express, making only four regular stops between Palmer and Brattleboro, but stopping on signal to take through passengers.

The selectmen will hold their regular monthly meeting next Monday.

N. W. Chandler of New York will spend Sunday and the Fourth in town.

A party of the Ladies of Columbus enjoyed a trip to Mt. Tom yesterday.

W. F. Morgan of North Wilbraham sent to the Journal office this week a basket of the handsomest strawberries seen this year. They were of generous proportions, measuring 4 5/8 inches in circumference and were practically uniform in size, being a fair average of the entire crop, though some had grown very much larger. They were of the Corsican variety.

The school committee held a meeting last evening and voted to make repairs on several buildings, which will include the one at Palmer Center, concreting about the Thorndike building, and shingling the one at Three Rivers. The salary of Miss Sue E. MacWilliams, a teacher in the high school, was advanced to $600, she having received an advantageous offer to go elsewhere.

H. A. Northrop is nursing a sore hand, the result of too great familiarity with a pair of ice tongs Wednesday forenoon. While delivering ice on North Main street he hooked one point of the tongs on a cake of ice in the wagon and pulled it toward him; the tongs slipped off and the sharp point entered the fleshy part of his left hand at the base of the thumb, making an ugly wound clear to the bone.

The probate court for Hampden county has granted permission to J. F. Gallivan of Greenville, S. C., administrator of the estate of John Carline, late of that place, to sell personal estate. John Carline was a former resident of Palmer and will be better known as the "Dummy," on account of his lack of speech and hearing. He was for a long time an employe of the Flynt Building and Construction Company of Palmer, and accumulated a snug property, having over $1300 in the Palmer Savings Bank.

It has been a "coon" show at Forest Lake this week, Flynn's troubadours. They will finish to-morrow evening and will be succeeded next week by "Muldoon's Picnic" company. This is a laugh-creator, and the company is headed by Danny Simmons, the clever singing and dancing comedian, assisted by M. E. Hanley, Nellie Delome, Tom and Evelyn Ramsey, Louis Powers and the Morin sisters. Numerous vaudeville features will be introduced during the action of the comedy.

Services at the Advent chapel next Sunday will be held as usual at 3 in the afternoon, directed by Mr. and Mrs. Makepeace. The Wednesday afternoon meetings for children have been discontinued until September. The Wednesday evening meeting will be at 7.30. It is expected that Miss Alice Spence, superintendent of the American Advent Mission of India will speak Sunday afternoon; if she is not present Mrs. Makepeace's subject will be "The Rich Young Ruler," illustrated with the blackboard.

A jolly wedding party from Monson reached Palmer yesterday morning about 9.30, and stopped at the Nassowanno House while waiting for the 9.47 train west on the B. and A. There were the usual friends of the "happy couple," who amused themselves by throwing rice and confetti on the bride and groom and everybody who chanced to pass the hotel, the second-story balconies proving a good vantage point. Something slightly less than a bushel of rice was scattered about Main street and the railway station platform, and as for confetti, it could have been gathered up by the quart when all was over.

Mrs. Nancy F., 63, wife of John R. Wellman, formerly of Palmer, died at her home in Bridgeport last Friday. She had been in poor health for some time, but the immediate cause of her death was apoplexy, combined with heart trouble and dropsy. She leaves, besides her husband, a daughter, Belle, and a son, Dr. P. M. Wellman of Shelton, Ct.; three step-children, Mrs. Jennie Cheney of Springfield, Mrs. Ella L. Vickers of Denver, Col., and William F. Wellman of Deerfield; also a sister, Mrs. Belle Webber of Milford, Ct., and a brother, John Fuller of Goshen. The funeral was held from her late home, Rev. Mr. Swanson of Bridgeport, Ct., conducting the services, and burial was in Shelton, Ct.

Monson News.

Dow—Butterworth.

The marriage of Miss Lydia Dow of [illegible] and James Francis Butterworth, [illegible] of Monson Academy, took place in the Congregational church in Marion yesterday noon, Rev. N. M. Pratt of Monson officiating, assisted by Rev. H. L. Brickett of Marion. At 12 o'clock about 75 guests had assembled in the chapel, which was prettily decorated, when the bride, attended by her niece, Elizabeth Hamlin, as maid of honor, entered the door of the church and went to the altar, where she was met by the groom and his brother, Ralph N. Butterworth of Revere, who acted as best man. The bride was attired [illegible] embroidered Canton crepe, trimmed with duchess lace and chiffon. She wore a veil and carried a shower bouquet of bride roses. The little maid of honor wore white organdie and carried a basket of white sweet peas. The bride was given away by her brother, Rogers Dow. The ushers were T. L. Cushman, G. W. Seymour and Mr. Lester of Monson and N. C. Hamlin of Marion. Alton B. Paull of Fairhaven, who presided at the organ, played the "Lohengrin" wedding march as the bridal party entered the church and "Mendelssohn's" wedding march as they left.

After the ceremony a reception was held at the home of the bride's sister, Mrs. N. C. Hamlin. Mr. and Mrs Butterworth were assisted in receiving by Mrs. Mary F. Butterworth of Revere, mother of the groom, Mrs. Charles M. Eaton of Western, a sister of the groom, Mrs. N. Gano Dunn of New York, a cousin of the bride, and Mrs. N. C. Hamlin, her sister. Music was furnished at the house by a string quartet composed of members of the New Bedford theatre orchestra. Mr. and Mrs. Butterworth will sail for Europe to-morrow and will remain abroad all summer. On their return they will make their home in Monson.

Among those from Monson who attended the wedding were Rev. and Mrs. N. M. Pratt, Miss Esther R. Holmes, Miss Mabel Anderson, Mr. and Mrs. R. P. Cushman, Miss Margaret Cushman, Miss Kate Cushman, Miss Hattie Cushman, T. L. Cushman, G. H. Seymour, Miss Ruth Flynt and Mr. and Mrs. R. H. Cushman.

Jackson—O'Grady.

A wedding of interest to many Monson people, as both parties are well known here, was that of Miss Elizabeth Jackson and Timothy O'Grady of Stafford Springs, Ct., the ceremony taking place in that town at 9.30 o'clock Monday morning in St. Edward's rectory, Rev. F. J. O'Neil performing the ceremony. Miss Nellie Hassett was maid of honor and Samuel Jackson of Springfield best man. After the wedding breakfast Mr. and Mrs. O'Grady left on their wedding trip and on their return will make their home in Stafford, Ct., where Mr. O'Grady is in business.

Willard Darling.

Willard Darling, 61, an old resident of this town and a veteran of the civil war, died at his home on Cushman street Saturday after several days' illness. Mr. Darling was a carpenter by trade and a hard working, industrious citizen. He was a member of Marcus Keep Grand Army post, which organization attended his funeral in a body. He leaves a widow and two sons, Ralph and Fred, both of this town. The funeral was held Monday afternoon at 2 o'clock and burial was in the No. 1 cemetery.

Horse Frightened by Automobile.

A horse attached to a buggy, owned by Mrs. Jane Ann Smith of Wales, took fright at an automobile on Main street Monday afternoon and ran down the street at a rapid pace. The buggy was overturned but later righted itself. The animal was standing near Hutchinson's blacksmith shop when it started and was stopped on Park avenue. The only damage of consequence was to the horse's legs, which were badly cut.

Bronze Tablet Presented.

[CONTINUED FROM FIRST PAGE.]

expected from one in whose veins coursed the blood of patriotic ancestors, Sergt. Merrick bore himself bravely in the ensuing conflict, for he was wounded in battle at Knoxville and in the Wilderness. He had just recovered from his wounds and regained his regiment when on Sept. 30, 1864, he was basely fired upon while conveying a flag of truce, and mortally wounded, from which he died Oct. 10, *1864. His death was sincerely mourned by* all his regiment who respected him for his manliness and uprightness of character. His body was brought home and buried in Monson, and reposes beside the remains of his father and mother. At the time of his death he was about to receive commission in a regiment of colored troops, and but for his untimely death he would doubtless have added many laurels to his fame as a man, a soldier and a Christian patriot.

It was well fitting when a post of the Grand Army of the Republic was formed in Palmer that it should take the name of one of its soldier-citizens who had made the town his home since early boyhood, and in its time of greatest need had enlisted in its defense and later gave his life as a sacrifice for freedom. A life-size portrait of Serg't Merrick adorns the walls of Memorial Hall, the gift of Col. S. C. Warriner of Springfield.

The Palmer men who enlisted July 19, 1862, and formed a part of Co. E, 36th Regt. Mass. Vols, are as follows:—Lucius L. Merrick, sergt.; Azel Thompson, sergt.; Thomas Blanchard, corp.; George E. Pepper, corp.; James O. Witherill, corp.; Leonard Whitcomb, corp.; George W. Ballou, John M. Barton, George Colgrove, Cyrus M. Benjamin, Dearborn T. Cooper, George Fovles, Henry Gallivan, F. Daniel Hadley, William Halloway, Charles Jackson, Reuben Jackson, John McManus, Lyman McDomell, John W. Osborne, George D. Shaw, Lorenzo C. Strickland, Isaac Sutcliffe, William Thompson — 24 men.

The men from Monson who joined Co. E in 1862, and several in 1864, were as follows:—Bela B. Tiffing, 1st sergt.; John C. Aldrich, sergt.; George O. Henry, sergt.; Henry M. Tupper, sergt.; George F. Bumstead, corp.; Charles C. Carpenter, corp.; Joseph V. Clark, corp.; Fred L. Perry, corp.; John B. Truden, corp.; Warren W. Beebe, Stanford C. Bond, Dwight E. Butler, Charles F. Clough, Dwight Colburn, Joseph B. Davis, Wareham Davis, Lovell L. Gage, George M. Green, Silas M. Harris, William H. Harris, George W. Johnson, Marcus Keep, William H. King, Wiles A. King, James M. Knowlton, Francis L. Lemon, William Lester, Lewis Mailhouse, Andrew J. Morgan, Romanzo A. Morgan, Willard Nelson, Alvin G. Nickols, Hiram Ruler, Hiram A. Ruler, William Elder, Justus Stebbins, Albert Tupper, Alfred E. Warriner, George E. Ward, Myron R. Wood—40 men. The balance of Co. E was made up of men from various towns. Stephen C. Warriner of Monson was a captain, and Robert M. Cross of Palmer was a 1st lieutenant in the 36th.

The following facts condensed from the history of the 36th Regt. give full evidence of its strenuous activity while in service: "It left the state September 2, 1862, joined the army of the Potomac; was at Lovettsville, Va., Oct. 29; at Falmouth Nov. 19; one week later at Carter's road, where the rations were two ears of corn per man per day, the supply train having been cut off. December 12, crossed into Fredericksburg; recrossed the 15th, and remained at Falmouth till Feb. 10, when it left for Newport News, where it remained six weeks. Went by boat to Baltimore, by rail to Parkersville, by boat to Cincinnati, by rail to Lexington, Ky., reaching that place March 29. Marched to Middlebury, where it stayed May 23; reached Columbia May 26; the night of the 27th marched towards the Cumberland in pursuit of Morgan's Guerillas, captured 25 prisoners, and returned to Columbia. June 4 the regiment was at Lebanon, Ky.; 7th, took cars for Louisville, crossed the Ohio, and by rail to Cair, where it embarked for Vicksburg, on steamer "Meteor;" Vicksburg fell July 4; marched in pursuit of Johnston 60 miles in a burning sun; in all and return 140 miles. Without rations many of the men dropped dead in the ranks, and nearly all fell out exhausted. Ordered back to Cairo, where the regiment arrived August 12; thence to Cincinnati, and crossed over into Cooington, Ky., and went into barracks. In this Mississippi campaign the regiment lost 50 men by death, and twice that number by discharge from disability. The regiment next had headquarters at Knoxville, E. Tenn., operating in various directions; during 1864, it took part in the campaign in Tennessee, in the advance upon Richmond, Va., in the defense of Washington, in the Shenandoah Valley, and then again before Petersburg, where it was stationed the last of December, 1864. Casualities: Four commissioned officers killed and six wounded; 51 enlisted men killed and 200 wounded, and a large number died of fatigue and disease."

What a Quiet Fourth?

All who want a quiet Fourth must be careful not to look at the pictorial story of the celebration which Kitty and Danny got up with the aid of Uncle Henry in the Boston Globe next Sunday. It will set the house in a roar. Billy the Boy Artist will also have a glorious Fourth at the expense of Professors O. Howe Wise and I. B. Schmart. The Sunday Globe will contain a remarkable Fourth of July cap with an immense spread eagle on it, which little girls, as well as little boys, will delight to cut out and wear.

One of the strangest and strongest serial stories ever devised is about to begin in the Boston Globe, and the opening chapters of it will be published next Sunday. "Under the Gilded Dome, or Hugo's Peerless Department Store," is a wonderful story of science and love, riches and poverty, persecution and justice, daring exploits and thrilling situations.

Every housekeeper is anxiously looking now for recipes for summer salads, summer drinks, the quickest and easiest ways of doing housework, how to wash clothes without boiling and full details for perserving fruits. Every mother is on the lookout for hints on feeding and clothing the children during the trying summer months. All this information will be found in the Household Department of the Boston Globe.

Order the Boston Daily and Sunday Globe delivered to you at your home.

A Repulse.

Bobby and Tommy belong to a big house in a wide street. They wear clean, white collars, and go to Sunday school. They are very loving little Christian brothers, except on the days when they differ in point of view.

One of those times Tommy threw Bobby in the mud and imposed numerous indignities. Tommy is older and of more varied experience. Bobby's sense of justice asserted itself between wails as he ran to his mother with tidings of conflict. His mother said nice, quiet things, and suggested that Bobby go to bed and leave her to deal with Tommy.

Tommy appeared in due time and heard his sentence in stolid silence. He was to go up and apologize to his young brother. He had learned the inexorableness of parental law, so up he went. He shoved open the door where Bobby was in bed and began. Bobby had heard him coming and was ready. His black head went up from the pillow with a movement of quick resentment.

"You go to — " he returned with righteous scorn. "I'm saying my prayers."—Chicago Inter-Ocean.

More Than He Could Stand.

"I don't say that Indiana is not a pretty good state to live in," said the man who had lately moved over the line into Michigan, "but several things happened one after the other to discourage me. The last one was a cyclone."

"Did you have your buildings swept away?" was asked.

"No. The wind was pretty well patered out when it reached my place, and dropped a span of horses at my door. Those horses had come along over 30 miles."

"And do you mean that they were alive?"

"Certainly. I was in great need of a span of horses just that time and looked upon it as a godsend, but alas I was doomed to disappointment."

"But how?"

"Why, the durned cyclone that had picked 'em up had forgotten to pick up a set of harness at the same time, and the animals were simply a burden on my hands."—Pilgrim.

Just What Everyone Should Do.

Mr. J. T. Barber of Irwinville, Ga., always keeps a bottle of Chamberlain's Colic, Cholera and Diarrhœa Remedy at hand ready for instant use. Attacks of colic, cholera morbus and diarrhœa come on so suddenly that there is no time to hunt a doctor or go to the store for medicine. Mr. Barber says: "I have tried Chamberlain's Colic, Cholera and Diarrhœa Remedy which is one of the best medicines I ever saw. I keep a bottle of it in my room as I have had several attacks of colic and it has proved to be the best medicine I ever used." Sold by the Quimby Pharmacy, Palmer.

IN PALMER.

Every Claim Is Backed By Local Testimony.

If the reader wants stronger proof than the following statement and experience of a resident of Palmer, what can it be?

D. W. Powers, machinist, living on Main street, says:—"If the first box of Doan's Kidney Pills procured at LeGro's drug store had not brought undoubted results I never would have bought a second, neither would I have continued the treatment until cured of backache and dull aching pains in and around the kidneys. When the attacks were at their height it hurt to stoop or straighten, and I was never able to tell when making any unthought of movement that sharp twinges would not radiate across the small of the back. You are at liberty to send anyone to me for corroboration of the above."

One on the mixer.—The man with the fringed trousers walked into the swell cafe and said: "Gimme a white apron cocktail." The bartender was a little surprised but not defeated. "Tell me what to put in it and I'll mix you one." The stranger named a few choice brands, and after it was placed before him he drank it down. "But why do you call it a 'White apron' cocktail?" asked the puzzled drink-mixer. "Because it is on the bartender!" And then the man in the fringed trousers drifted out like an aspen leaf on a November gale.—Exchange.

PALMER STILL UNDEFEATED.

Gilbertville the Victim Last Saturday, by Score of 5 to 4.

The Palmer baseball team won its fifth straight game last Saturday on the home grounds by defeating the Gilbertvilles 5 to 4. It was not a particularly good exhibition of baseball, still there were enough exciting situations to keep the spectators interested most of the time. The visitors were first at the bat, and secured three runs in their half of the fourth inning, when Furkey started out by giving two bases on balls, after which the next four men hit safely and another hit came later. They got another run in the sixth, and it looked as though the Palmers were doomed to defeat if not a whitewashing. But not so. Kenefick was the first man up and hit the first ball pitched—a high one—for a clean single to short center; Metzdorf followed with another; Lowman was out, second to first, and Martens sent a short fly which Moore in left field fumbled and Kenefick and Metzdorf scored, Martens being caught trying to make third. Palmer got another in the seventh and two more in the eighth, and by blanking the visitors won the game. The score shows the closeness of the game:

The game to-morrow will be with the Indian Orchards, who played here the first game of the season, Memorial Day, and were defeated 6 to 1. It is expected that a large escort will accompany the team, and also that there will be a good attendance from Palmer, as the numbers have been increasing recently.

Monson 1, Easthampton 0.

The Monson baseball team defeated the Easthampton team on Flynt Park in Monson Saturday afternoon 1 to 0 in the ninth inning. The game was one of the most interesting of the season, neither side being able to find the ball to any extent. One man was out when the winning run was made, ending the game. Bailey did excellent work in the box for Monson, as did Lynn for the visitors. The score:

St. Johns Win at West Warren.

The second game of the West-end baseball league in West Warren Saturday was played between the Foresters and St. John the Baptist society, the latter winning by a score of 15 to 14. The St. Johns led in the game up to the fifth inning, having a score of 9 to 2. In the eighth the Foresters brought in six runs, which caused much excitement. At the end of the next inning the score was a tie, 13 to 13, and both sides were shut out in the eighth. In the ninth a wild throw by Kelley of the Foresters, letting in one run and a two-base hit by Methot, brought in another run for the St. Johns, which won the game by one run. The score by innings:

St. Johns,	0	2	7	0	3	0	1	0	2—15	7	6
Foresters,	1	0	1	0	6	3	2	0	0—14	12	7

North Wilbraham 17, Stony Hill 8.

The North Wilbraham Invincibles defeated the Stony Hill team at Wilbraham last Saturday afternoon by the score of 17 to 8. Heavy hitting combined with fine fielding by the Invincibles made the game interesting. J. Carney pitched his usual steady game and, with Consigney behind the bat for the first time this year, did fine work. Buskey, the star pitcher for Stony Hill, was hit hard in the first innings, and after the fifth was taken out. Ladow, who succeeded him, was also hit hard. The feature of the game was the playing of Roberts and the hitting of the Invincibles. The score by innings:

The Y. M. C. A. team of Northampton met with defeat Saturday at Ludlow, by the score of 7 to 1.

The Indian Orchard team were defeated by the Stafford team in the latter place Saturday by the score of 4 to 0.

The Palmer Crescents will play the Invincibles at North Wilbraham to-morrow, and an exciting contest is expected.

The Atlantics will play two games with the Thompsonville, Ct., team on Flynt Park in Monson the Fourth. The morning game will be called at 10 o'clock and the afternoon game at 1.30.

The Monson baseball team will play the Chicopee Falls Athletics on Flynt Park in Monson to-morrow afternoon at 3.30. Battery for Monson, Cartmill and Peloquin, and for the Athletics, Hanlfan and Wallace. Tuesday, the Fourth, there will be two games with the Stafford Springs, Ct., team. In the morning the game will be in Stafford and in the afternoon on Flynt Park in Monson. A special train will be run from Monson in the morning returning in the afternoon. The game will be called in the afternoon at 4.

GOLF.

Bondsville Club Tournament.

The Bondsville Country Club held the second tournament of the season on their grounds last Saturday afternoon. The professionals and amateurs again took part with a few changes in the ranks from the previous game held two weeks before. The professionals defeated the amateurs by 95 strokes. This gives each side one game. The rubber will probably be played off some Saturday afternoon in the near future. The score:

WILBRAHAM.

Celebrated 80th Birthday.

Mrs. Lucia Stebbins Foskit celebrated her 80th birthday Wednesday at her home on Main street in Wilbraham, by receiving friends and relatives from 2 to 5 p. m. Mrs. Foskit was born in Wilbraham June 28, 1825, in the house now owned by Anson Soule, and has been a lifelong resident of the town. She is a daughter of Luther and Phebe Hitchcock Stebbins and was married March 31, 1847, to Dr. Stebbins Foskit, who was a practicing physician in Wilbraham for 30 years. Dr. Foskit died in August, 1889. Mrs. Foskit enjoys good health and her faculties are well preserved. She is a very public spirited woman, the soldier's monument which stands on the town lot opposite the post office being a gift to the town, in 1894, from Mrs. Foskit, and Foskit Memorial Hall, which was built and presented to the Wilbraham Grange, of which organization she is a member, in 1901, was her gift. Many of the townspeople called during the day to offer congratulations and Mrs. Foskit's sister, Mrs. Phebe Kibbe of Hazardville, Ct., and her nephew, Robert Molowney of Scranton, Pa., were also present.

Marjorie Green is spending a few weeks at Norwalk, Ct.

Raymond Gurney of Worcester Academy is home for his vacation.

Children's night was observed at the Foskit Memorial Hall Wednesday evening.

Walter Green of Tufts College is home with his parents, Mr. and Mrs. F. W. Green.

Roderick Merrick, son of Prof. Frederick Merrick, is at home from Wesleyan University, Delaware, O.

Mr. and Mrs. E. C. Howard of Northampton are spending a few days at the Congregational parsonage.

Miss Mary Howard, supervisor of music in the public schools, left Wilbraham Saturday to start on a European trip.

Rev. M. S. Howard went to Amherst this week to attend the reunion at Amherst college of the class of 1855, with which he graduated.

Announcements have been received in town of the marriage of Prof. S. F. Howard of the Amherst Agricultural college to Miss Marie Louise Trott of Amherst Wednesday, the 21st.

Cuban Diarrhoea.

U S. soldiers who served in Cuba during the Spanish war know what this disease is, and that ordinary remedies have little more effect than so much water. Cuban diarrhœa is almost as severe and dangerous as a mild attack of cholera. There is one remedy, however, that can always be depended upon as will be seen by the following certificate from Mrs. Minnie Jacobs of Houston, Texas: "I hereby certify that Chamberlain's Colic, Cholera and Diarrhœa Remedy cured my husband of a severe attack of Cuban diarrhœa, which he brought home from Cuba. We had several doctors but they did him no good. One bottle of this remedy cured him, as our neighbors will testify. I thank God for so valuable a medicine." For sale by Quimby Pharmacy, Palmer.

WEST WARREN.

Celebrated St. John's Day.

St. John's Day was observed Saturday. A high mass was celebrated in St. Thomas's Catholic church at 8.30, Rev. Philias Trottier officiating, and 17 members of the St. John the Baptist Society attended the service in a body. In the afternoon a parade was formed on Main street, led by Joseph Lapierre as marshall, and the Warren Consolidated brass band. Then came the St. John the Baptist Society, the Artesians, the Hibernians and the Foresters. After marching through the principal streets they went to Crossman's grove to hold a picnic. A ball game and other sports were enjoyed during the afternoon, and dancing was enjoyed from 2 to 11.30, with music by the Royal orchestra.

Mrs. Noe Couture and five sons left Tuesday for St. Pie, Can., where they will live, Mrs. Couture having bought a farm in that place.

Miss Mabel E. Harris, a teacher in the public schools in Troy, N. Y., is at the home of her parents, Mr. and Mrs. Albert G. Harris on Main street for the summer vacation.

Court Quaboag, Foresters of America, have elected the following officers for the next six months: Chief ranger, John E. Hurley; sub-chief ranger, Adolph Benoit; recording secretary, Alfred Benoit; senior woodward, Joseph Chicoine; senior beadle, Edward Barbeau; junior beadle, Pierre Belaire; lecturer, Joseph O. Phaneuf.

The selectmen have voted to grant a license for the sale of fireworks in West Warren on July 1, 3 and 4 to the following business men: Vigneau & O'Leary, Gilbert Ponthriand, William Kean, William Snow, Pierre Brousseau and Jerry Casey. These special police officers were appointed for July 3 and 4; Clarence L. Thompson, John Collins and John S. Tongue.

At a meeting of the St. Thomas Total Abstinence Society Sunday the following officers were elected for the next six months: President, Hugh J. Kerr; vice president, William Sheehan; recording secretary, John B. Brosnan; financial secretary, Marcus M. Hennebry; treasurer, John E. Hurley; directors, Richard Kerr, Daniel W. Sheehan, William Sheehan, John Sullivan, James McIntyre; sergeant-at-arms, John Sullivan.

Mrs. Cora E. Hall, 40, of West Brookfield, who died in the Memorial hospital in Worcester Sunday, was a native of West Warren, and the daughter of Franklin Bemis, who lives on Central street. Mrs. Hall went to West Brookfield about eight years ago, and had lived there since. She had been in the hospital for the past three months. Besides her father, she leaves two children, Estin and Hazel, at West Brookfield. The body was brought from Worcester Monday afternoon to the home of her father in West Warren, where the funeral was held Wednesday afternoon at 2.30. Burial was in Warren.

Almoner Appointed.

At the regular monthly meeting of the overseers of the poor Tuesday evening Daniel E. Moran was appointed to act as clerk, with the duties of almoner. The appointment was made by two members, the third not concurring, and was given out as only temporary, it being stated that Mr. Moran would be paid $50 for a month's work, and that the board would then consider the matter of his further service. It is understood that Moran was supported by F. W. Farrar, chairman of the board, who it is supposed brought his name up Tuesday night. Of the other two members, it is understood that J. T. Casey voted for Moran, and A. D. Girard against him. One of the members of the board stated that Mr. Moran was not made almoner but that he would keep the books, issue the orders, and do practically all the work of an almoner during the month.

Further developments in the almoner situation occurred yesterday, when Mr. Casey announced that a special meeting would be held this evening because of an alleged illegality in the appointment of Mr. Moran as clerk, with the duties of an almoner. It is not definitely known what was irregular in the appointment, but it has been suggested by some who were displeased with the selection made by the board that as the town voted a salary not exceeding $800 for an almoner, the board could not draw orders on this sum to pay a clerk, even if he was supposed to be an almoner. It is supposed that an almoner alone is entitled to any salary out of this $800, and that the board has no other money to spare for salaried assistance. The result of to-night's meeting is awaited with much interest.

Gates—Heidel.

A pretty wedding took place at the home of Mr. and Mrs. Simeon E. Gates on Church street Wednesday afternoon, when their daughter, Geneva Belle, and Emil Charles Heidel of West Warren were married in the presence of a number of friends and relatives by Rev. John Wriston. The house was artistically trimmed. The bride was attended by her sister Ruth as flower girl and five of her friends acted as ushers. They were Misses Ethel A. Cheever, M. Amelia Bacon, E. Grace Fairbanks, Marguerite Hamilton and Harriet M. Fairbanks. Refreshments were served by Charles M. Lindsey, caterer. Mr. and Mrs. Heidel left in the afternoon for Boston, and after a wedding trip will reside in Gilbertville, where he is employed in the store of C. F. Hitchcock & Company.

Gould—Macdougall.

The marriage of Miss Ida E., daughter of Mr. and Mrs. John A. Gould of Pleasant street, and Rev. Arthur R. Macdougall of Suffield, Ct., took place Wednesday afternoon at 3 at the home of the bride in the presence of a few relatives and friends. The ceremony was performed by Rev. John Wriston, assisted by Rev. Dr. Eaton of Boston. The groom is pastor of the Zion's Hill Baptist church in Suffield, where the couple will live after September. After a short trip they will return to Ware, and Mrs. Macdougall will remain with her mother, now convalescent from the effects of a fall two weeks ago, through the summer.

Woodlock—Moran.

Miss Esther Woodlock and Jeremiah Moran, both of Ware, were married in All Saints' church Wednesday morning by Rev. J. A. Riordan. They were attended by Miss Nellie Woodlock, sister of the bride, and William Elliott. A wedding breakfast was served at the home of the bride on West Main street, after which the couple left for a wedding trip to New York. On their return they will reside in Ware.

M. E. Spencer enjoyed a brief vacation the first of the week, when he went with other ticket agents to Saratoga and Lake George. During his absence Arthur L. Hayden was in charge of his office at the station.

Herman Mowry has removed his family to North Adams, where he has a position. His position in the Gilbert woolen mills as boss finisher has been taken by David Welsh of Woonsocket, R. I., who will occupy the house on Prospect street that Mr. Mowry vacated.

William Bonney, 83, died of heart disease early Wednesday morning at his home on the top of the hill above Ware Center. He was well known in Ware. He was born in Hardwick, but had lived in Ware for a long time. The funeral was held yesterday, and burial was in Aspen Grove cemetery.

Mr. and Mrs. Christopher Boyle, who were married recently, were pleasantly surprised at their home on North street Tuesday evening by about 40 of their friends, who presented them with an oak buffet. A. D. Girard made the presentation speech. Refreshments were served and musical selections were rendered by several members of the party.

A man named Burns fell from a wagon-load of furniture on the West Brookfield road Monday morning about 1 o'clock. He was on his way from Troy, N. H., to Brimfield. His companion placed him on the wagon and returned to Ware, where application was made to the overseers of poor for aid. As they found that the man was considerably injured about the back, they removed him to Tewksbury for care.

Mrs. Mary Treado, 81, wife of Joseph Little, died at her home on North street Wednesday from heart disease. She had been in good health until recently, and with her husband enjoyed the celebration on January 31 of their 60th wedding anniversary. Besides her husband, she is survived by two sons, Henry and Louis, and three daughters, Mrs. Peter Sloat, Mrs. Joseph Goyett and Mrs. Eli King, all of Ware.

The school committee have engaged Miss May W. Russell of Burlington, Vt., as the teacher of English in the high school to succeed Miss Martha Kimball, resigned. Miss Russell is a graduate of St. Johnsbury Academy in Vermont, and also of the University of Vermont. She has had six years' experience in teaching, and the last four have been as teacher of English in the Burlington high school, which has an enrollment of nearly 400 pupils.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

REPORT ON PALMER WATER.

State Board of Health Recommends Cleaning Reservoirs.

SAYS WATER SUPPLY IS INADEQUATE

And Suggests That an Additional Source Of Supply Should be Obtained At Once.

The report of the state board of health on the water being supplied to the people of Palmer by the Palmer Water Company was received by Dr. J. P. Schneider, chairman of the local board of health, last Friday forenoon. For some time in the latter part of May and the first part of June the water in the mains had a disagreeable fishy odor, and a taste which was anything but pleasant. The officials of the water company were complained to, but replied that the trouble was nothing and would disappear shortly. Instead, it grew worse and the local board of health was appealed to. The state board was notified and on June 9 sent a representative to Palmer for samples of the water, which were taken from the three reservoirs of the company, as well as from the mains on Fox avenue and King street. Their report in full:

To the Board of Health
of the Town of Palmer.

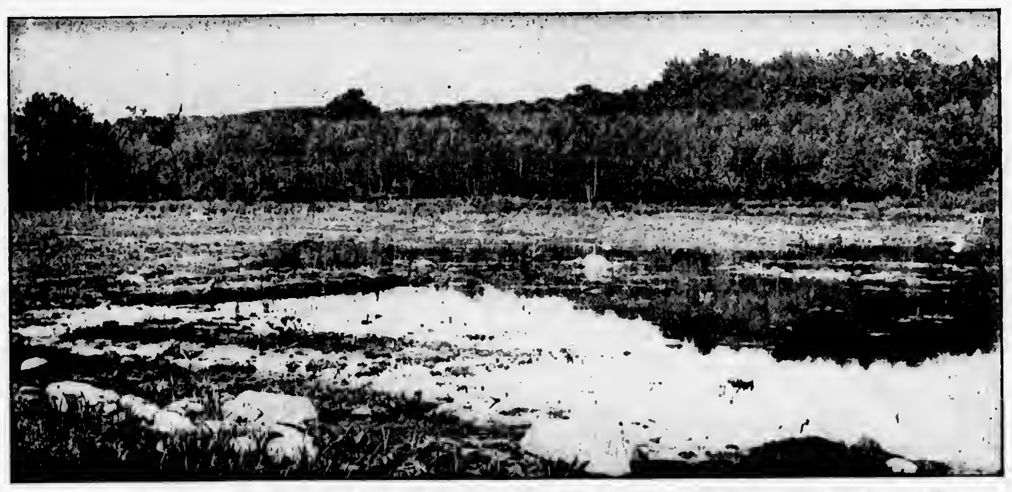
Gentlem[illegible] accordance with the reques[illegible]d in your communication of [illegible], stating that many complaints [illegible] being made of the quality of the water supplied to the village of Palmer by the Palmer Water Company, and asking the advice of this Board as to its quality, the Board has caused the sources of supply to be examined by one of its engineers and samples of the water to be analyzed.

The results of the analyses of the water show the presence of considerable numbers of microscopic organisms of kinds which have been known to impart disagreeable tastes and odors to the water of ponds and reservoirs, and the objectionable taste and odor of the water supplied to Palmer is doubtless due to the presence of these organisms. It is not known that water containing such organisms would be injurious to health if used for drinking.

The records of previous analyses and examinations of the water supplied to Palmer show that such organisms have been present in considerable numbers in other years. The cause of the presence of these organisms is not known, nor is the Board able to advise you of a practicable and safe method of preventing their presence in the water and the disagreeable tastes and odors which they produce. It is probable, however, that by thoroughly cleaning the bottoms of the reservoirs and removing all organic matter therefrom, a considerable improvement could be effected in the quality of the water.

The information available to the Board as to the capacity of the sources of water supply of Palmer indicates that the use of water in the village already exceeds the capacity of the sources in a dry season and that an additional supply is necessary. The Board would advise that an investigation be made without delay relative to improving and enlarging the water supply of the village.

The plant of the Palmer Water Company consists of three reservoirs, in the bottom of which are numerous springs, and a brook which provides by far the greater part of the water; the amount supplied by the springs is probably too small to be taken into account as any material supply for the number of water takers. The upper reservoir, into which the water flows from the brook, is small, holding only about 250,000 gallons. The lower reservoir is called the service reservoir, and from this the water is drawn into the mains. This holds about 1,250,000 gallons and is supplied by a pipe connection with the upper reservoir, the flow from one to the other being regulated by the quantity being drawn into the mains. When the supply of water exceeds the use, it overflows the dam of the upper reservoir into the middle or storage reservoir, and is there held until dry weather and a lack of water compels drawing from this to the lower or service reservoir. This storage reservoir holds about 7,500,000 gallons, the total storage being about 9,000,000 gallons. The upper and lower reservoirs were full on Monday, but the water in the larger one was three feet below high water mark. It is safe to say that there is no more water in storage now than on Monday.



Upper end of Palmer Water Co's. storage reservoir, with water three feet below high water mark.

The picture which is given herewith is of the upper end of this central or storage reservoir, with the water three feet below high water mark. It plainly shows some of the "organic matter" which the state board of health recommends removing. This section of the reservoir was, before the dam was built and the land flowed, a sidehill pasture or brush lot; when the reservoir was constructed the brush was cut but no attempt was made apparently to remove the soil, stumps or vegetable growth from a considerable area which is now overflowed when the reservoir is full or partially so. The high water mark is plainly seen in the picture; on the farther side it is indicated by the difference in the height of the vegetation, the water extending to the taller growth; when the reservoir is full the water covers the space to the row of boulders in the left foreground.

Manager Gamwell of the water company announces this morning that the reservoirs are all to be cleaned as soon as possible, the work to be done some time next month. This, he says, the company had planned to do before the state board of health visited Palmer. An expert has been engaged for the work.

Brimfield House Burned.

The house in Little Rest, known as the Alford Blashfield place, owned and occupied by Mr. and Mrs. William Blonk, was burned to the ground Saturday night, most of the contents also being destroyed. Mrs. Blonk was visiting in Worcester at the time of the fire. The house was insured for $500 and the furniture for $100, which only partially covered the loss.

MAN ELECTROCUTED.

Maurice Lynch of Wilbraham Killed in Mill at Ludlow.

5000 VOLT CURRENT THROUGH HIM.

Was at Work Cleaning Switchboard and Touched Live Wire. Body Found Dead.

Maurice Lynch, 27, of Wilbraham was instantly killed in the mills of the Indian Orchard company at 7.30 yesterday morning by coming in contact with 5000 volts of electricity while cleaning an electric switchboard.

Mr. Lynch was engaged in oiling the bearings of the large driving pulleys about the mill, and went into the motor room yesterday morning to oil a bearing near the large motor. Noticing that the switchboard was dirty he started to clean it, and after wiping the front stepped behind the board to continue the work, when he grasped a live wire. He was terribly burned, and death was instantaneous. Exact prints of his feet were burned into the floor.

Soon after the accident Edward Bean, thinking he smelled burning flesh and that Lynch might have been caught in a large clutch near the motor, stopped the speed. The body was discovered about the same time by Joseph Lapierre, who was passing outside the building. Outsiders who saw smoke issuing from the building thought that there was a fire inside. Medical Examiner Bates was notified, and when he arrived later he pronounced the death due to accident. The body was taken to the home of his brother, Patrick, in Wilbraham. Lynch leaves besides his brother one sister, Mrs. Jeremiah Cavanaugh of Belchertown.

Lynch had been in Indian Orchard but a short time. He was a member of the Father Mathew society, which organization will attend the funeral, which will be held to-morrow morning in North Wilbraham. Burial will be in St. Michael's cemetery, Springfield.

PALMER MAN BADLY HURT.

Receives Scalp Wound Which Requires 21 Stitches to Close.

Michael Barrett, baggagemaster on the morning train to Winchendon on the Ware River road, received a severe injury at Winchendon yesterday while about his work. The crew of the train from Palmer is required to do the switching in the Winchendon yard, and in the performance of his duty Mr. Barrett was on a flat car when other cars were being coupled on. They came together with a shock which threw him off his balance and precipitated him head foremost to the ground, where he struck on his head on a rail, receiving an ugly wound which required twenty-one stitches to close. He was brought to his home in Palmer, and beyond some bruises in addition to the scalp cut he does not appear to be seriously injured.

ELECTRIC ROAD AT AUCTION.

Hampshire-Worcester Road to Be Sold to Highest Bidder Soon.

The Hampshire and Worcester street railway, which has been in the hands of a receiver since last January, will probably be sold at auction in about a month, and will probably be bid in by the bondholders.

It is doubtful whether or not all the creditors of the road are likely to receive any part of their claims. At the hearing previous to the appointment of a receiver it was represented that the liabilities of the road would reach over $200,000, of which the bonded indebtedness and the floating debt would about equal. The American Loan and Trust Company hold a mortgage for $135,000, on which there is due a year's interest. The First National Bank of Boston holds a claim of $1500. Barnard & Gilbert represent claims of about $25,000; the receivers of the Union Trust Company hold notes to the amount of about $27,000; the claim of the International Trust Company is between $1000 and $2000, and William Swindell, et ali, the original petitioners for the appointment of a receiver, claim about $700.

The road will continue to run in the meantime, with no further change in fares.

Fourth of July Accidents in Ware.

There were several accidents in Ware due to the celebration of the Fourth. Frank Tobias Roach, one of the special officers on duty Monday night, fell and dislocated a shoulder bone at the corner of Bank and Pleasant streets while attempting to catch a man who had a can of kerosene.

Freddie Houlihan, 13, had his left eye filled with powder Monday night by the explosion of a giant firecracker, which he was bending over. Dr. D. M. Ryan, who was called, extracted considerable powder from the eye, but is unable to state yet whether the boy will lose the sight of the eye or not.

Frank H. N. Gates of Park street, an overseer in the Otis Company's mills was injured Tuesday morning while touching a match to powder in lighting a cannon. The powder was blown into every part of his face except his eyes and it will be some time before he fully recovers.

BELCHERTOWN.

E. F. Towne found a peculiar egg Tuesday. It measured nine by seven, and upon blowing out the yolk it was found that there was a fully developed egg in the end of the shell.

At a recent meeting of the Relief Corps it was voted to celebrate their 10th anniversary in January, and a committee of arrangements has been appointed, with Miss Barton as historian.

THE GLORIOUS FOURTH.

And the Manner of Its Celebration in This Vicinity.

NO SERIOUS ACCIDENTS REPORTED.

Pleasant Weather, Numerous Celebrations In Various Localities, Sports And Games.

The "Glorious Fourth" was an unusually quiet one in Palmer. The orders of the selectmen that no explosives be used before 4 in the morning were well observed. Now and then a cracker or blank cartridge was exploded, but they were few and far between. At four in the morning there was a ringing of church bells and a small fusilade, but nothing of startling proportions. During the early forenoon there was a more liberal use of explosives, and later in the day many went to Forest Lake or to private picnics. In the evening there were numerous displays of fireworks by individuals. The street railway carried a very large number of passengers, and Forest Lake was thronged all day.

The Fourth passed quietly in Three Rivers, and the regulations made by the selectmen were well heeded. A noisy parade started about 12 the night before the Fourth, but it did not last long and there was no lawlessness or vandalism. During the day the stores and post office were closed and many people went out of town. The St. Anne's church picnic at Thorndike drew a large crowd and was an enjoyable occasion.

The Fourth was celebrated in Monson in about the same manner as for several years past, and with the exception of the two ball games was rather a quiet day. In the morning about 150 people went to Stafford to see the game, and were well paid for the trip, in spite of the fact that many of them were compelled to travel in box cars. A number went to Springfield to see the parade, and many more spent the day at Forest Lake. The night before was unusually quiet, possibly on account of the fact that there were so many special officers in evidence. It was rumored early in the evening that several old buildings had been selected to be burned, but these rumors did not materialize. At the Quaboag Country Club the day was spent quietly, the members and invited guests playing golf, whist, etc., and taking their lunch on the piazza in the early evening. In the evening music was furnished by the Philharmonic orchestra of Springfield and those who cared to danced. The afternoon ball game on Flynt Park drew an unusually large crowd, and was a very exciting game. A large number went to Forest Lake in the evening, remaining for the dance. In different parts of the village and out districts neighborhood picnics were held, which were very enjoyable. So far as can be learned there were no accidents of consequence during the day.

The Fourth was very quietly observed in Brimfield. There was a game of baseball in the afternoon on the Academy campus between a Warren and a Wales team which resulted in favor of Wales. The principal event of the Fourth consisted of a display of fireworks by Robert Lewis at his beautiful and sightly home on Prospect Hill and the generous hospitality extended to the townspeople by Mr. and Mrs. Lewis. Over 125 people, old and young, watched the fireworks from the veranda and lawn and were served to ice cream. The effect of the scene from the veranda was increased by Japanese lanterns suspended from the trees of the orchard adjoining the lawn. Mr. Lewis was assisted in putting up the fireworks by Orrin Hicks and C. S. Tarbell. Peculiar historical interest is attached to the residence where so many people gathered on the evening of the Fourth. The house is the oldest in Brimfield having been built 150 years ago by Capt. Samuel Nichols who was the largest land-holder in the town. The home place was purchased a few years ago by Mr. Lewis for a summer residence, from the late Miss Annie Cutler, a descendant of Capt. Nichols. Mr. Lewis has made extensive repairs and is keeping up the hospitable spirit which the late owners manifested. Of other than purely local interest connected with the house is the fact that it was a lodging-place, for a time, of Hessian soldiers, stragglers from Burgoyne's army, whose names were found near the fireplace during repairs made some years ago. Mr. Lewis has observed the Fourth in the same way for four or five years but has not had so large a gathering at his home before.

The celebration at Ware drew out a large crowd of citizens and visitors. In the morning there was a parade of antiques and horribles, floats, bands and societies, which was not long, but very good. The prize of $20 in gold for the society having the largest number of members in line went to Nenameseck tribe of Red Men, while the Lafayette guards drew the second prize of $10 in gold. Similar prizes for the best appearing society went to the same two organizations in reverse order. The Hibernians drew the $15 for the most attractive float and the Foresters captured the $10 for the next best. Other smaller prizes were awarded. The 20 Lafayette guards gave a fine drill in front of the town hall, and the Highlanders played some patriotic airs at the conclusion of the parade. H. M. Coney, commander of J. W. Lawton Grand Army post, made a brief address on the steps of the town hall, closing with the reading of the Declaration of Independence. In the afternoon races were held on Main and North streets, the winners of the events being as follows: 100-yards dash, first, $15, George Deslanries; second, $10, Joseph Perron; potato

HEAD CRUSHED BY CAR.

B. and A. Brakeman Hurt While Passing Through Palmer.

WAS LOOKING OUT OF THE CABOOSE.

And Was Struck by Passing Train. Skull Broken by Blow, But Will Recover.

Thomas Walsh, 20, of Merrick, a brakeman on the Boston and Albany railroad, was seriously injured somewhere between Warren and Palmer Wednesday afternoon. He was seated in a caboose of a westbound freight and was struck in the head probably by a passing train, and his skull was badly fractured. He was taken from the train at Palmer and his wound was dressed, after which he was taken to Springfield on a fast freight. He was taken to the Mercy hospital upon arrival in that city, and the delicate operation of tr[illegible]ng was performed. The skull was badly crushed and several pieces of bone as well as a bit of his felt hat which had been driven in by the force of the blow were removed. He regained consciousness yesterday morning and unless blood poisoning should develop he will probably recover. His condition was regarded as very encouraging last night.

Our Boston Letter

It tells about

Various Matters of Interest for All Parts of the State.

BOSTON, July 5, 1905.

Things were premature in the statement from Eugene N. Foss that he might be a candidate for governor against Lieut. Gov. Guild. Foss does not intend, so there is excellent reason for saying, to make any contest against the lieutenant governor, as long as the latter can show such an exceptionally good record for reciprocity and revision of the tariff. Foss is in New York to-day, where he goes very frequently to attend to his business. The lieutenant governor's statement in the papers this morning that he is perfectly willing that Foss should run as candidate against him is good politics, for, as matters stand, Foss would be overwhelmingly defeated. The fact is that the machine Republicans all over the state do not fancy the obstreperous operations of Foss. He upsets their calculations. He refuses to go according to the machine proprieties of the occasion. He seems to think that the people ought to have something to say about the management of party affairs as well as those who make large campaign contributions and get usufruct thereof in their personal profit or honor. He disturbs the harmony and therefore there is not the slightest doubt that every regular manipulator of caucuses from Cape Cod to Berkshire would feel, without any intimation from headquarters, that he would render the machine a service if he were to help to turn Foss down. What Foss particularly wanted was to get his ideas before the people and he has succeeded in doing so and in bringing the large mass of Republicans, with Senator Crane at their head, over to a positive stand for reciprocity and revision of the tariff. Very likely this would never have been done if it had not been for Foss's agitation, and therefore he has done much in state politics. There is no doubt that the sympathy of President Roosevelt is with this wing of the Republican party. Therefore the ideas are so persistent and apparently sure to win, though it is hard to shake the grip of the Home Market Club and Draper people.

Reports from Major Thomas Talbot, the chairman of the Republican state committee, continue encouraging. He seems to be safely past the crisis of his typhoid fever, which was of a mild type, and to be recovering rapidly, though it is not probable that he will do any campaign work for some weeks. Alfred S. Pinkerton of Worcester will be the temporary head of the official list, but the real work of the office will fall upon Edward C. Mansfield, the successor to James B. Reynolds, who is now wearing becomingly the title of assistant secretary of the treasury in Washington. The state committee is in touch with the local committees through its system of meetings by senatorial districts and the latest meeting of the series was held last week in Haverhill. The work of the managers is not devoted to making converts, but solely to holding the party vote, which is amply sufficient to elect Guild governor, provided it is got out for him.

Nothing is doing at the Democratic headquarters. Nothing will occur officially until the next meeting is called to act upon the resignation of Judge Flaherty as chairman of the committee, and of Charles S. Hamlin and Robert J. Crowley as members of the committee. No reason exists why the meeting should be called early. In the meantime John R. Thayer gives out his hopefulness [illegible] Douglas will reconsider and reverse his refusal to run again for governor, but no one professes to see any reason why the governor is likely to do so. Of course the outside world sees plenty of reason in the probability that Douglas could be elected and in the obligation to the party. But, as far as a word from the governor is concerned, not one has been spoken by him, as far as has been learned, which will justify any man in believing that the decision will be reversed. It remains probable that his supposed pledge to his family will be kept and that a new candidate for governor will be selected. Thayer seems to be the most likely man for the succession. Down at bottom, there seems to be little foundation for a Miles candidacy, and Gaston is coming to be regarded as an impossibility because of his non-Democratic tendencies. John F. Fitzgerald, when asked if Thayer's protectionism would not hurt him, replied that it was only the protectionism which wanted a tariff equal to the difference between wages for operatives in this country and abroad, and that such protectionism as that would make votes for him in every mill town in the state.

On August 19, or thereabout, it is expected that three government warships of the Denver type will arrive in Boston to help the Massachusetts naval militia with their summer maneuvers. The national government helps along all it can in this training to increase the efficiency of our fighting force. In the meantime, to-day occurs the funeral of John Hay, promoter of peace. The state board of trade gives out a letter received by its secretary, Richard L. Gay, from Secretary Hay last December, acknowledging the receipt of a resolution from the board. Secretary Hay wrote:

"I have to acknowledge the receipt of your letter of the 15th instant, communicating to the department a resolution in

The Journal.

FRIDAY EVENING, JULY 7, 1905.

COMMENDED.

The terms of the contract between the fire district and the Palmer Water Company, as given in our news columns, will meet the approval of everybody. It's all right.

NO FAULT FOUND.

The second year of restricted noise on the night before the Fourth has won over the few who last year were of half a mind that for one day—or night—in the year the "boys" ought to be allowed to have a "good time." There was ample opportunity after 4 a. m. for giving vent to all the enthusiasm necessary. And after all, was it not better for the boys? Noise is not patriotism, and the youngsters may well learn that they can fitly celebrate without making themselves a nuisance to the entire community.

THE PRICE.

If by any chance a Fourth of July should happen to pass without the usual record of deaths, loss of fingers, eyes, etc., by reason of careless handling of the explosives seemed to be deemed necessary for a proper celebration of the day, it would pass into history as one of the ranking wonders of the world. Last year efforts were made in all sections for a saner use of explosives, but the record of accidents is larger this year than last. According to the Chicago Tribune, which carefully collects the records, the dead this year so far are 59 and the wounded 3160. The record at the same hour last year was 52 and 3049.

SAVING AT THE SPIGOT, WASTING AT THE BUNG.

The residents of the fire district who have contributed to the support of the sprinkling cart, and especially the merchants on Main street, whose stocks are materially affected by dust, are of the opinion that they have not been fairly treated by the Palmer Water Company in its restricting the use of water for street sprinkling to half a day while it allowed the railroads to draw a full supply. A count of the locomotives taking water on both the Boston and Albany and Central Vermont roads and a conservative estimate of the amount drawn shows that the railroads take 100,000 gallons at the lowest calculation every 24 hours. The street sprinkler uses from 30,000 to 40,000 gallons when giving full service. Allowing that it used the larger amount, the water company inconveniences the taxpayers who by their patronage have built the company's property up to its present value, to save 20,000 gallons of water per day while allowing 100,000 gallons which could otherwise be supplied to be drawn. There are pumps with which the railroad tanks can be filled. The water company notified the railroads two weeks ago to-day that they might be required to pump at any time. Both plants were ready for use in 48 hours. And yet last Monday the street sprinkler service was cut to half time and the railroads allowed to draw all they wished. Yesterday they were ordered to pump. The people of the fire district feel that they have first call on the water, and that if any takers are to be cut off the outsiders, especially where they can be served otherwise, should be the first.

It is announced that Mt. Washington has fallen into the hands of a lumber company which proposes to strip the mountain of its timber unless it is secured by the state or United States government. New Hampshire will make an irretrievable error if she allows this spot to be despoiled. Everything goes now, a tree is either good for sawed lumber or for pulp wood, and nothing is left. The loss of summer business alone to the state if this natural beauty is taken from the mountains, would in one year amount to far more than the cost of securing the property for all time.

Palmer is about the only town in this vicinity which failed to have a Fourth of July celebration of some sort, although it has sufficient material and is advantageously located for attracting a large attendance outside of its own citizens. The town has witnessed some pretentious efforts in this line in the past, and there are are not lacking those who would like to see an attempt next year to have a big celebration here, and who are willing to assist in the work.

Numerous comments have been made regarding the unusually large number of intoxicated persons seen on the streets this week, particularly Monday and the Fourth. It is unreasonable to suppose that every such person on the Fourth carried their supply of stimulants over from the day before, and there is no lack of suggestion that there was a considerable amount of illegal selling that day.

After an experience of 15 years in profit-sharing with employes, the Bourne cotton mills of Fall River have given up the system. It may be that the long strike of the employes has had something to with the decision.

Went With a Handsomer Man.

Domemico Decicco and Carmela Megro appeared in the district court this morning charged with adultery, the complainant being Feidelo Megro, the husband of the woman. The Megros lived in Milford, where the husband and Decicco were employed as stone cutters. The couple had $350 in the bank in Mrs. Megro's name, and last September she drew this and with Decicco skipped back to sunny Italy, where they were married about two months ago, as their marriage certificate shows. For some reason Italy proved not attractive enough and they returned to the land of the free and located in Monson, where they have been for a month and where they were apprehended last night. When Mrs. Megro left her rightful spouse she took one child of about 18 months, leaving another of four years. Both parties were bound over to the September term of court.

Probate Court Business.

At a session of the probate court in Springfield Wednesday, the following was among the business transacted: Administration granted in the estate of George A. Mills, late of Hampden, Thomas J. Mills of Monson administrator; will proved of Georgianna H. Fay late of Monson, Josephine L. Fay of Monson executrix; guardianship decreed, Ira E. Whitney, minor of Ludlow, Alvin Cbilsere of Wilbraham guardian. John W. B. Brand was appointed conservator of the estate of Freeman W. Dickinson, an aged man of Hampden.

Holyoke Team To-morrow.

The ball game on the park to-morrow will be with the St. Aloysius of Holyoke. This team has the reputation of playing unusually good ball and putting up a strong game. The one to-morrow will undoubtedly be worth seeing. The Palmer team is also playing good ball—in fact, it is playing fast ball—and has yet to be defeated.

A week from to-morrow the game will be with the Easthampton nine, one of the strongest amateur teams in Western Massachusetts.

PALMER NEWS.

WATER CONTRACT SIGNED.

Fire District Makes New Conditions With Palmer Water Company.

The contract between the Palmer Water Company and the fire district for the use of water for the year ending March 31, 1906, was signed by the company last Friday afternoon. It has been in their possession for some time, but was not signed until a *week ago.*

The terms are much the same as in former years. The company agrees to maintain 60 hydrants for fire purposes and furnish water for them at all times; also to allow the use of water at the engine house, for flushing sewers and for testing the fire apparatus. It also agrees to maintain not less than 1,000,000 gallons at all times.

A new agreement is that the water shall not be shut off from any hydrant without at once notifying the chief of the fire department in writing, or if he is out of town, one of the assistant engineers. The company agrees to test every hydrant once a year, and twice if requested, the work to be done at such time as the prudential committee shall order.

Another new specification is in regard to disabled hydrants. In the event of a hydrant being found unfit for use the water company is to have a week in which to make repairs, and for all time over one week which the hydrant remains out of commission the water company is to forfeit at the rate of $25 per week for each hydrant.

District Court Business.

This has been a busy week at the district court, numerous cases of various kinds having been handled.

A tramp, Charles Phelps of Millbury, was brought in Saturday to answer to a charge of drunkenness, and was sent to the house of correction for 30 days.

Monday morning the continued cases of William E. Pratt and Henry L. Martin of Brimfield, charged with assault, were called. Both were fined $5; Martin paid, and the case of Pratt was continued until next Monday. The case against August Hanson was disposed of by the payment of $5. The case against George Starkey, on probation for drunkenness, was closed by the payment of a fine of $5. The case of another "drunk" was placed on file, two were continued until September 2, two were discharged and one failed to appear.

Of the new "drunk" cases one was continued until to-morrow, one was continued until August 7, and one was released on probation until September. The continued case against William Lester of Ludlow, for nonsupport, was further continued until September 2, and the case against Robert Burns was closed by the payment of a fine of $6. Leonard Floodman was fined $5 and the case continued until Monday for performance of sentence. Joseph Konski of Thorndike was fined $5 and his case continued until next Monday for performance of sentence. Martin Wloczyna, Frank Kaponis and Martin Kaponis of Bondsville were charged with being in an affray and the case was continued until Wednesday, when the two latter were fined $5 each, Wloczyna being acquitted. Joseph Skidmore of Monson was adjudged insane and committed to the insane asylum at Northampton.

John C. Cavanaugh of Indian Orchard was committed to the state farm at Bridgewater for drunkenness in the district court Wednesday. Frank Duclos, for larceny, was sent to the reformatory at Concord. Louis Deprean of West Warren pleaded guilty to a charge of assault with a dangerous weapon. He was ordered out of W. N. Flynt's barn in Monson and refused to go, drawing a jack-knife, which he threatened to use. He was sent to the house of correction for three months.

The Forest Lake Show.

"Muldoon's Picnic" has been on the boards at Forest Lake this week, and has proved entertaining. The piece is improved both in action and characters over last year, and a decided addition is the introduction of a number of clever vaudeville turns. It will be given again this evening, and to-morrow afternoon and evening.

The show next week will be by the Majestic vaudeville company. Among those who will appear are Jack Dempsey, tramp comedian and eccentric dancing; the famous Four Shannons, petite juvenile entertainers; the celebrated Brobst trio in a novel comedy, finishing with a laughable roller skate dancing; Emma Italia, a versatile singing soubrette; and Coppinger and White, comedy sketch artists.

Railroads Ordered to Pump.

The Palmer Water Company yesterday notified both the Boston and Albany and the Central Vermont railroads to begin pumping water to their tanks instead of drawing from the company's reservoir. The companies were notified two weeks ago to-day that it was possible they might have to start their pumps, and both were ready in 48 hours. It is likely that the pumps will be started to-night or to-morrow.
